The Stefan Heijtz, FRPSL, International Gold Medal Collection of Barbados Postal History, Part Two

Stefan Falkland Heijtz is a professional philatelist with a history of numerous and varied achievements during his long philatelic career. He is recognised internationally as the leading specialist in Falkland Islands philately as well as the author, publisher and editor of the unique specialised catalogue The Specialised Stamp Catalogue of the Falkland Islands and Dependencies, first issued in 1988 and currently in its seventh edition (released in 2020). He has written extensively on many subjects, and in several languages, in stamp magazines published around the world; and he shares his expertise as a consultant to the expert committees of the Royal Philatelic Society London, the British Philatelic Association (England) and the Philatelic Foundation (New York), as well as operating his own expertising service.

At the age of four, Stefan, the son of a stamp collecting father, started to collect stamps in his own right and at an early stage became interested in the stamps of the British Empire. When he was just thirteen, after the purchase of a substantial collection of Falkland Islands stamps at a local auction in Stockholm, he began a correspondence with the Postmaster on the islands. The collection grew, developing into the foremost collection of the postal history of the Falkland Islands and Dependencies ever created and containing most of the area's important and unique items. It was exhibited internationally many times achieving Gold and Large Gold Medals, as well as an International Grand Prix award. It was the first Falkland Islands exhibit ever to be awarded an international Gold.

In 1980 Stefan and his brother started a stamp company, Nova Stamps, which held more than 120 auctions before the auction business of the company was sold in 2008 to a larger company in Sweden. The sale of the auction business enabled Stefan to semi-retire at the age of 48. The auctions of Nova Stamps were fully computerised from its beginning in 1980, years ahead of its competitors, the entire software system having been created and developed by Stefan, who is also a computer engineer.

Stefan has formed a number of major collections of unrivalled status. Of particular note are the following: BARBADOS Postal History 1656–1881; REGISTERED LETTER STAMPS OF CANADA 1875–1893; FAROE ISLANDS 1790–1950 Postal History; NEW YORK POSTMASTER'S PROVISIONAL 1845–1847; PUERTO RICO Postal History 1778–1900; OFFICIAL STAMPS OF SPAIN 1854–1866; THE SWEDISH SOUTH POLAR EXPEDITION 1901–1903; and ST HELENA 1677–1937 Postal History.

Apart from building stamp collections, Stefan has also been, and still is, a highly active figure in postal and philatelic matters in diverse areas. For two seasons (1991–92, 1992–93) he was appointed Postal Officer and Postmaster of the former Falkland Islands Dependencies (now British Antarctic Territory) and was based sometimes at the Falkland Islands Post Office but mostly on board one of the two British Antarctic Survey icebreakers (RRS James Clark Ross and RRS Bransfield), visiting all the British bases in Antarctica as well as South Georgia. In 2002 he was Swedish Deputy Postmaster on Snow Hill Island, Antarctica, when the first ever Swedish Post Office in the Antarctic was opened.

In 1994, and again in 1998, he was a British Executive Service Overseas (BESO) advisor to the postal administrations and philatelic bureaux of Montserrat and Anguilla. These assignments occasioned visits to Barbados, Antigua and St Martin as well as a number of other islands in the West Indies.

During 2014 Stefan acquired the oldest remaining post office building in the Falklands, the Old Post Office House at Fox Bay. Over the past years this historic building has been fully restored, with the rooms that previously functioned as the settlement's post office converted into the Post Office Museum of the Falkland Islands. This Museum was honoured with a visit by Princess Anne in 2016.

Stefan's exceptional collection of Barbados, the second and final part of which is here presented, has been awarded three international Gold medals: Philakorea 2002 with Felicitations of the Jury for research, London 2010 and London 2022, as well as receiving the Prix d'Honneur and Harmers Diamond Jubilee Trophy in the International Class at Autumn Stampex 2000.

267 ☒ THE SECOND EARLIEST KNOWN LETTER FROM BARBADOS, sent just one month after the earliest known, 1656 entire from merchant Edward Jacob headed “Barbados December ye 18th 1656” addressed “To Mr Thomas/Pengelly mrcht./in London” with added “at ye 3 lions in Cannings Street” and endorsed “p ye Samaritan Q.D.C.”. From Tudor times Cannon Street was known as ‘Canning Street’ and recorded as such by Samuel Pepys in his diary but it is not known how that spelling came about. Sent prior to the first mention of Ship Letters in the Post Office Act of 1657 and apparently delivered privately, passing via the emerging coffee house system. One of the very earliest letters from any island of the West Indies. Photo also on inside front cover. £2,000-£2,500

268 ☒ Early Inland Mail, 1686 entire addressed “To/Mr. Roger Gordon/Mchant/at the/Bridge Town”, commercial centre of the island, sent by John Hull, “8ber ye 20th 1686”. Hull notes that he “would have been at the Bridge before now. . . but if you do not sail on Saturday I will if God permits come and see you before you go.” Carried by messenger, likely a slave, no organised inland postal service being introduced until 1852. Photo. £1,000-£1,200
