by

ROBSON LOWE LTD., 50 PALL MALL, LONDON, S.W.1

Telephone: 01-839 4034 Telex: 915410

Inland Telegrams: Stamps London Telex

Overseas Cables: Stamps London S.W.1

and

THE MERCURY STAMP COMPANY INC.

10 East 40th Street, New York

The arrangement of the sale is on pages 12 and 13, viewing details on page 6
and the Conditions of Sale on pages 4 and 5.

There are several phases in the life of a collector and many collectors experience only one phase.

J. GRANT GLASSCO

went through all these phases for he started collecting stamps as a schoolboy.

During the Second World War when he was Controller of the De Havilland Aircraft Company of Canada Ltd., the intensity of his work brought the necessity for some absorbing relaxation and he turned his attention to **philately**. The more obscure the problem, the greater the challenge to a keen intellect and he amassed a huge quantity of those stamps which attracted him in order to study all the complexities of printing, paper, colour and perforations — the science of philately. At the same time he formed the basis of the outstanding collection of classic stamps of British North America for which he became famous among collectors.

It was while studying these issues that he was attracted to the humanity of the hobby, and began his studies of routes and rates, realising that this field offered more scope and more interest to anyone whose life was wrapped up in the economic development of both his own country and the world.

He disposed of his main collection of classic stamps only retaining those covers which had a place in the new collections. There were three subjects which were of particular appeal. He studied the development of **the London Penny Post** from 1680 when William Dockwra produced the first penny postage stamp. This was the first city post to be organised and operated on sound commercial lines providing an excellent service at a reasonable price, it became the model on which most other city posts were founded. The detailed precision, the punctilious sense of duty on which the success of such a venture rested, had immense appeal to a man of broad vision who had been

trained as a chartered accountant and whose success as an organiser had brought such outstanding benefits to his country.

Perhaps it was the discovery of letters of his ancestors written in Canada in the eighteenth century that first fired his interest in the foundation and growth of the **British Postal Service in North America**. When the recent work* on the American Colonial period was written, Mr. Glassco read the manuscript and produced a list of additions and amendments based on his own research.

During the compilation of the fifth volume of the Encyclopaedia, he provided a great deal of valuable information about the early handstamps of Canada and the Maritime Provinces, and the new approach to this complex subject is the result of discussions with him.

From this collection, it was an obvious step for him to study the **British Consular Postal Service** which was the natural development when, in the nineteenth century, the United Kingdom provided over half the overseas communications in the world, both on the Atlantic and Pacific coasts of America and over the two great trade routes to India and the Far East, Australia and New Zealand. As the evidence provided by his collection concerned both postal routes and rates it had to embrace that fascinating aspect of nineteenth century postal history, the privileged rates charged on their letters home to British soldiers and seamen serving overseas.

From this commentary, the reader might suppose that Mr. Glassco was a full-time collector, but this was far from the truth for he had the facility of putting more into the day's work than most of us can put into a week. In addition to numerous active directorships, at the time of his death at the age of sixty-three, he was president of both the Brazilian Light and Power Limited and Transatlantic Fund Inc. of New York. Perhaps he will be best remembered in Canada for his successful chairmanship of the Royal Commission on Government Reorganisation, whose 1962 report has borne such great fruit, the suggestions already adopted having produced a great saving in government expenditure, better public administration, and improved public services.

He was certainly the complete collector.

R.L.

* "The Colonial Posts of the United States"

CONDITIONS OF SALE

Every lot in our Auctions is offered subject to the "Philatelic Auctioneers' Standard Terms and Conditions of Sale" (of which follows a Synopsis) and to the Special Conditions printed below. A copy of the former can be obtained free on request from our offices.

Synopsis of Philatelic Auctioneers' Conditions of Sale

1. The purchaser to be the highest bidder. Any dispute arising as to the highest bidder to be determined by the Auctioneer who may re-offer any disputed lot.
2. (a) The bidding and advances to be regulated at the Auctioneer's discretion.
(b) If so required, buyers to give their names and addresses and/or to pay down the whole or part of the purchase price at the sale. Failure to comply with these rules in respect of any lot entitles the Auctioneer to re-sell the lot, any deficiency being made good by the defaulter.
(c) Agents bidding on behalf of undisclosed clients do so on their own responsibility both for payment and safe delivery of the lots.
3. The Auctioneer reserves the right to bid on behalf of Clients and Vendors, but shall not be liable for any errors or omissions in executing instructions to bid.
4. The buyers of each lot to be responsible for it from the time it is "knocked down". Payment to be made in full before delivery and the lot to be removed by United Kingdom buyers within seven days and by Overseas buyers within a reasonable time. Failure to pay in full within such period entitles the Auctioneer to re-sell the lot, any deficiency being made good by the defaulter.
5. The Auctioneer shall not be liable for any default of the Purchaser or Vendor.
6. (a) Each lot is sold as genuine and correctly described.
(b) The purchaser to be at liberty to reject the lot by giving written notice within seven days (or, in the case of Overseas buyers, within a reasonable time of the date of the sale) if he proves that the lot is not genuine or is incorrectly described and returns the lot within thirty days of the sale (or within such longer period as the Auctioneer may in his discretion allow). The onus of proving a lot to be not genuine or wrongly described lies with the purchaser; proof of the inability of an Expert Committee to express a definite opinion will not discharge this onus.
(c) No lot to be rejected if, subsequent to the sale, it has been immersed in water or treated by any other process unless the Auctioneer's permission to subject the lot to such immersion or treatment has first been obtained.
(d) The above provisions of this clause do not apply to mixed lots and collections containing undescribed stamps.

SPECIAL CONDITIONS

1. Failure on the part of a bidder or purchaser to comply with the conditions, a synopsis of which is printed above, entitles the Auctioneer to cause the bidder or purchaser to forfeit any deposit held. Any uncleared lots after seven days may be re-sold by public or private sale and any deficiency shall be made good by the defaulters.
2. Lots purchased on behalf of mail bidders will be forwarded by the most practical method at the risk of the purchaser who shall bear all charges incurred.
3. The Auctioneer shall not be liable for any omission or errors made by clients when sending their instructions to bid.
4. If a purchaser wishes to obtain an expert opinion on any lot (not being a mixed lot or a collection containing undescribed stamps), the Auctioneer may, if so requested in writing within seven days of the date of the sale (or in the case of overseas buyers within seven days of receipt of the lot), extend the period within which the lot may be rejected

to not later than two months from the date of the sale. Where such extensions are requested the purchaser shall give notice in writing to the Auctioneer and submit the lot to a mutually acceptable expert body. Extensions necessitating more than two months delay from the date of the sale will, unless the circumstances are exceptional, only be granted if the permission of the vendor for a longer extension has been obtained by the Auctioneer prior to the sale. The Auctioneer may require the lot to be paid for pending the receipt of the expert opinion, the cost of which is the liability of the buyer. If an extension is required on an item which already possesses a certificate dated within ten years of this sale, written notice must be given at least two weeks prior to the auction in order that the owner's permission for further expertisation may be obtained.

5. The right to refuse admission to the Auction Room is reserved.
6. Bids from minors will not be accepted unless accompanied by a full cash deposit or by suitable guarantees. New clients must send references in advance or a full cash deposit.
7. All purchases made by residents in the Dollar Area must be paid for in Dollars at the controlled rate of exchange or by Sterling Draft.
8. Interest at 1% for the first month or part of a month and $1\frac{1}{2}\%$ per month for any further credit, is charged on all auction accounts if payment is not made within seven days of the date of the Sale (Overseas Buyers within seven days of the receipt of the invoice). When paying in any currency other than sterling, 1% should be added to the account to allow for bank transfer costs.
9. Stamps described as having defects are not returnable on account of their condition. Stamps cannot be returned on account of the centering or the amount of margin when such stamps are illustrated.
10. Any dispute as to the meaning or operation of these Special Conditions or of the Conditions, a synopsis of which is printed on page 4, shall be determined conclusively by the Auctioneer.

Valuations are fair values that one might expect to pay on the market today. The finer points of quality are often indicated by these valuations.

Viewing Arrangements

At the Mercury Stamp Company Inc., 10 East 40th Street, New York

Monday, 3rd November, until Thursday, 6th November, 1969.

In the Auction Room of Robson Lowe Ltd., 50 Pall Mall, London, S.W.1

Monday, 17th November, until Friday, 21st November, 1969 ... 10.00 — 17.00 hrs.

Tuesday, 25th November (sessions 3 to 6 only) ... 10.00 — 17.00 hrs.

Wednesday, 26th November (sessions 5 and 6 only) ... 10.00 — 17.00 hrs.

In the Great Rooms of Christie's, 8 King Street, St. James's

Monday, 24th November ... 10.00 — 17.00 hrs.

Lots of a suitable size can be sent through the post for inspection, postage and insurance both ways to be borne by the client.

Clients who cannot conveniently visit the auction rooms at 50 Pall Mall on the viewing days quoted, may view the lots at an earlier date by making an appointment, either by letter or telephone, giving three days' notice, and the time and lots required.

By observing these arrangements it makes it possible for the Inspection Clerk to reserve the lots required (which might otherwise be with a postal viewer) and to have them available on the mezzanine floor when the clients call.

With regard to new clients who request lots for postal viewing, references should be sent in advance.

Forwarding agent's cachet	f.a.c.		

† These lots contain adhesive stamps

Extensions

Extensions should be requested at the time of making a bid. Overseas buyers should complete the special form provided and return it to the auctioneer who will then submit the lot to the B.P.A. Expert Committee. Inland buyers must be responsible for obtaining an expert opinion after notifying the auctioneers of their intention on the special form. In no case will extensions be given for B.P.A. or other acceptable expert opinions that necessitate more than two months delay from the date of the sale. Should the buyer (or ourselves on behalf of an overseas buyer) fail to secure such opinion within two months, the right to return the lot will be forfeited. The only exception is when the permission of the vendor for a longer extension has been obtained prior to the sale. All costs connected with expert opinions are the liability of buyers. If an extension is required on an item which already possesses a certificate dated within 10 years of the sale, written notice must be given to us at least two weeks prior to the auction in order that the owner's permission for further expertisation may be obtained.

Sterling Currency Conversion

Overseas buyers will find this table of use when converting their bids into sterling equivalents. These are approximate and this table should **not** be used for estimating a payment owing to the slight variations in the exchange rate and the cost of bank charges.

Austria—schilling	61.75	Japan—yen	855
Belgium—franc	120	Norway—krone	17.06
Canada—dollar	2.57	Portugal—escudo	68.25

FROM THE ROBSON LOWE LITERATURE DEPARTMENT

The Colonial Posts in the United States of America 1606-1783 by Kay Horowicz and Robson Lowe. The Postal History of the thirteen American Colonies and the Floridas, internal and external, postmasters and mileages, and well illustrated by five maps of the period, sixteen letters—including the earliest known example in North America bearing a postal endorsement—with other illustrations of the many handstruck markings. Price 35/-.

St. Vincent to Florida by Walter Skrine. Reporting the discovery of the Stamp of Pensacola in 1772, at that time capital of the British possession West Florida, and revealing the carriage of mail from St. Vincent to Florida also via Boston and New York, as well as by way of Pensacola. Photo and line illustrations. Price 5/-.

The Floridas

East Florida — British 1763-83 Capital St. Augustine

West Florida — British 1763-81 Capital Pensacola

The Barrie Letters (see page 18 for details of "St. Vincent to Florida" by Walter Skrine)

Four letters written between October and December, 1772, by Dr. Robert Barrie to his wife in St. Augustine, Florida. Barrie was attached to the British forces suppressing a Carib rebellion in St. Vincent. Two of the letters bear no postal markings, having probably been carried by vessel direct to a Carolina or Georgia port. The other two are of unusual interest, bearing British handstamps of Boston, Charleston, Jamaica and Pensacola, the latter the only known example

Lot	Description	Valuation
15	1772 (8th Oct.) E.L. via Boston and Charles Town to St. Augustine. This, (according to the text) was enclosed in a letter to Boston (by private ship), to be forwarded by a friend to destination. The destinee in Boston, on Nov. 11th, added a personal note announcing the arrival of a son. The letter entered the mails at Boston on November 21st — see faint s.l. and Bishop Mark — and was rated 7/8. Additional postage of 1/8 (making 8/16 in all) was added, probably at New York, of which office a faint transit s.l. appears at right	

Continuing by overland courier to Charlestown, it received there the 2 line transit mark and was re-rated "In all 3/11". Note the address "to the care of a bookseller in Charleston" who probably received the letter in the ordinary mail and himself attended to its despatch.

Forwarded south again by courier, it reached St. Augustine on Feb. 17, 1773 (endorsed on reverse).

The rate of 3/11 (by the 1765 Act) is the currency equivalent of 3/- sterling, the rate for distances from 1500 - 1600 miles — actual distance slightly over 1500 miles. Courier service between Charlestown and St. Augustine (via Savannah) was inaugurated in 1768. Total transit time of this letter, from Boston to St. Augustine, was 88 days. Photo

260

Lot	Description	Valuation
16	1772 (13th Oct.), the second letter from Dr. Barrie to his wife at St. Augustine written at Queen's Valley. The letter was sent "by a gentleman to Kingstown who promises to send it by the first vessel that sails, either for Carolina or Georgia". A lively campaign letter from an expectant father to an expectant mother 1772 (9th Dec.), the third campaign letter from Dr. Barrie to his wife written at the Camp at Grand Sable—"I hear there is a sloop at Kingston that will sail for Carolina next week and I'm obliged to put my letters in a bottle and hire a negroe to swim off to the schooner that carries them to Kingstown". The approaching birth of his child was obviously causing the husband some pain and anguish	£50

17

- 17 1772 (9th Dec.) E.L. to St. Augustine showing "JAMAICA", "PENSACOLA" and "CHARLES/TOWN" straight line handstamps. The markings on this cover indicate clearly its main ports of call between St. Vincent and St. Augustine, East Florida. The routing instructions on the face of the cover "per the way of Carolina or Georgia" indicate that this route was anticipated by the sender. They are, however, superfluous because even had the cover gone back to England and come out on the most convenient packet, it would have had to land at Charleston and proceed south from there by courier to St. Augustine

Continued over

Lot	Description	Valuation
-----	-------------	-----------

Lot 17—contd.

The manuscript "*Windward Islands*" signifies that the letter was placed on board a local vessel moving up from Barbados or Grenada to Jamaica. Had it been the regular West Indies packet it would have travelled straight through to Charleston from Jamaica. The Pensacola marking indicates that at Jamaica it was transferred to the small (45 tons) schooner which maintained communications with the mainland by travelling the route Jamaica-Pensacola-Charleston-Jamaica. At this date neither the small schooner nor the West Indies packet called at St. Augustine, although some six years earlier the latter had been a regular port of call for the West Indies packet

The letter arrived at St. Augustine on April 5, 1773 (endorsed on reverse). Originally rated 4d., the inter-colonial rate established in 1765, the cover was subsequently rated "*in all 8d*" but this was cancelled out, probably at Charleston where a new rating of 1/8d. was applied. The 6d. rating in black at top right may be the schooner charge. If so, the total of 1/8d. would be the sum of the original 4d. charge, the 6d. schooner charge and the 10d. covering courier service from Charleston to St. Augustine (201-300 miles).

The Pensacola marking is the only one recorded. Photo 21

How to arrive in mint condition.

Simply fly BOAC. We promise to help you go places without feeling perforated at the edges on arrival.

And we do it by flying the smoothest and most comfortable jetliners there are. Staffed with the friendliest people in the sky.

Together we can stamp out travel fatigue.

 **BOAC**
takes good care of you
