Publishers' Preface.

We take pleasure in presenting our first Price Catalogue and Reference List of the Stamped Envelope, Wrappers and Letter Sheets issued regularly by the United States Post Office Department. It is the only catalogue of its kind, embracing as it does a brief description and price of each envelope and wrapper, whether used or unused; cut square or entire. In the matter of embossed postal paper, the United States Government takes front rank. No other country—or we might say any three countries—begin to compare with our own in the vast numbers of dies, shapes, sizes, papers and watermarks. However, after months of preparation we present this little work, hoping it will meet with popular approval. We have eliminated the term “knife” for “shape,” and discarded all allusion to gums, whether round or square. We have adopted our own numbers, which will be used by us henceforth and parties ordering need only mention our envelope number, stating whether they wish entire or cut square unused or used. It will be noticed that we have only catalogued the regular issues, having nothing to do with “bidders” or “factory” samples; Centennial specially made, or the “Specimen” varieties. We desire to acknowledge the kind assistance of Messrs. Toppan, Beard, Stone, Rechert, Bogert, Batchelder, Chandler, Dodge and Capt. McCormick, all well known envelope authorities, and to thank them for their co-operation.

We believe such a list as this is earnestly needed, and think our prices are a reflex of the current market valuations. It is impossible to keep all varieties in stock as some dozen or more kinds do not exist outside of the very largest collections. The collecting of entire stamped envelopes of the United States is a very fascinating pursuit, and some of the largest collectors reside in Great Britain, France and Germany. While we have taken a great deal of pains to make this catalogue correct, some few errors may exist. We would be obliged to any of our friends or customers, if they will call our attention to any omissions or errors so that they may be corrected in a future edition.

Trusting this envelope list will be as favorably received as our two editions of United States Plate Numbers, we remain the Philatelic Public's Obedient Servants,

ELEVENTH ISSUE.

Plimpton & Morgan, 1887-89.

Sizes, shapes and watermark: the same as the 1886 issue, No. 7.

Dies of 1 cent, 2 cents, 4 cents and 5 cents are new. 30 cents and 90 cents are the old Plimpton dies. There is only one die of each except 2 cents, which has two dies. Figure of value under the bust of each of the values 1 cent to 5 cents is the distinctive feature. In the 2 cent rejected Die one (or A) the lower corner of the bust points between the third and fourth tooth of the frame. In Die B it points to the second tooth of the frame.

FOURTEENTH ISSUE.

HOLYOKE SERIES.

James Purcell, Contractor and Manufacturer, 1894-95.

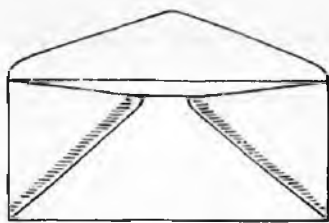

Dies—Same as preceding, except new die (B) of 5 cent blue. Coat collar turned up to chin is the marked peculiarity.

Sizes and shapes same as 1890 issue. Two new sizes added, Govt. No. 4 ($3\frac{1}{2} \times 5\frac{1}{2}$ in.); No. 14 ($3\frac{1}{4} \times 6\frac{1}{2}$ in.).

The marked peculiarity of the shapes of this issue is that the left flap overlaps the right. In the official sizes the sides are gummed over the bottom, same as in the Reay issue.

Watermarked U.S., P.O.D. in letter U, 94 in letter S—No. 11. There are several minor varieties of this watermark.

There are a great variety of shades in 2 cent green, varying from a light yellow green to a very dark green.

FIFTEENTH ISSUE.

HARTFORD SERIES.

Same Contractor. 1895-97.

Same dies used except 5 cents, of which First or Die A (Grant) is used again. New make of Envelopes, the right flaps overlaying the left. In the official sizes the bottom is gummed over the sides.

NOTE.—Holyoke paper was at first used and can be distinguished by the poorly shaped watermark. Later the Company manufactured its own paper and produced a more symmetrical watermark, which is somewhat smaller. In order to avoid unnecessary complications we shall catalogue but one series.

A variety of shades of the 2 cent green exist also in this series.

Watermark No. 11.

DID YOU EVER...

see a copy of that fearless and independent monthly magazine, that everybody is talking about? The subscription price surprises every one who sees it. The name—excuse me—

"THE COLUMBIAN PHILATELIST."

Are you an advertiser? Think it would pay you to buy a little space. A large advertiser who patronizes about 25 other papers and magazines, writes: "For the past few months your magazine has paid me better than all the others I advertise in combined." It is the official journal of the best international organization

THE COLUMBIAN PHILATELIC SOCIETY

which is rapidly taking first place in numbers and quality among the many other societies. Are you a member? If not, why not?

ONE OF SEVERAL REVIEWS.

Rothfuchs' price list of entire envelopes is another of those little dealers' lists which is vastly more valuable than it looks. It is the first attempt which has been made for many years to publish a price list of this class of stamps.—The Boston Stamp Book, Feb. 1, 1897.

Extract from page 14 in part 2:

ENVELOPES, 1893, COLUMBIAN ISSUE.

5c slate brown, size G, price, new.....\$15.00

5c chocolate, size G, price, new..... 10

The 5c. slate brown is a distinct color and is not a shade of the 5c. chocolate. It was sold at the stamp window in the Washington, D. C., postoffice in the regular way. I am one of four collectors who were fortunate enough to buy a few. Nearly all I had are sold and are now in some of the finest and most valuable collections in this country.

At present (April 15th, 1897) I have every single stamp and envelope which is advertised in parts 1, 2 and 3 of my price list No. 12 for sale at prices as advertised, and therefore my prices are more reliable than the prices given in catalogues for stamps and envelopes which the publishers have not in stock and cannot furnish.

PRICE FOR MY 1897 LIST, No. 12.

Parts 1, 2 and 3 complete, 25 cents.

Parts 1, 2 or 3 singly, 15 cents each.

The 25 cents or 15 cents can be deducted with the first order to the value of \$1.25. Terms: Cash with order.

Please remit by bills or P. O. M. Order.

SEND US YOUR WANT LIST OF

ENTIRE ENVELOPES.

Owing to our large stock and to recent acquisitions we feel sure that we can come nearer filling your list of wants than any dealer in America. It will cost you but two cents to ascertain the truth of this statement. In sending it is only necessary to state from what list the numbers are taken. We use them all, but this list would be more convenient, as we feel certain that it will quickly be recognized as the standard list on entire. Do not wait until the best ones are all gone, but send your list at once, as we go over it, sending what we can; we then file it for future reference. There are a number of fine collections of entire in Boston and vicinity, and occasionally one comes into the market. If we know what you want you will hear from us from time to time. We offer the following at a very low price. Numbers are taken from this catalogue.

1027	1887 90c. on White.....	\$2.50
1034	1887 90c. on O. B.	3.00
1030	1887 90c. on M.	2.50

GOOD REFERENCE.

Is all that will be necessary to bring you one of our fine books of stamps on approval. Our books and sheets of both foreign and United States stamps are priced so low that they almost sell themselves. Try us once and we are sure you will come again.

We are now making a specialty of U. S. departments and revenues. Our line of revenues is fine and extensive, containing almost all known varieties of perforated, part perforated and unperforated. You will do well to ask us for a lot on approval. Send us your list and we will guarantee to fill it at a less figure than any dealer on the market.

We have decided to make a specialty of a few packets during the coming season and beg to offer herewith the following:

Packet A contains 50 varieties of U. S.; price, 50c. This packet will catalogue many times its price.

Packet B contains 50 varieties of U. S.; price, \$1. A better lot and more desirable than Packet A.

Packet C contains 100 varieties of foreign, for \$1. A good packet for the average collector.

Packet D contains 50 varieties of foreign, for \$1. This packet will catalogue at least four times the amount, and is valuable for the advanced collector.
