PREFACE.

THIS work is based upon the lists of British Colonial Adhesive Fiscal Stamps, compiled by The Fiscal Philatelic Society during 1902 and 1903. With the kind assistance of many friends, large numbers of additions have been made, and the catalogue brought up to date. The list of Telegraph and Railway stamps, though not strictly within the scope of "Fiscals" as usually understood, have been included to add to the usefulness of the book.

Mr. C. S. F. Crofton has been so good as to thoroughly revise the exceedingly difficult lists of Ceylon and Indian Revenues and Telegraphs.

Only adhesive Revenue stamps with expressed value have been considered. Tobacco Bands, &c., semi-adhesives, and impressed stamps have not yet been sufficiently studied to be catalogued.

Postage and Revenue stamps are omitted, as they are already listed in postage stamp catalogues, though in such cases as Queensland and South Australia, where the stamps are more generally known and considered as Fiscals, they have been included.

In the endeavour to issue the work at a low price, it has not been possible to give illustrations, but it is hoped that the descriptions given will be sufficiently clear. With postage types, reference has been made to Stanley Gibbons' 1906-7 catalogue.

The pricing is based upon "catalogue" values, according to transactions that have taken place in the stamps. It is possible that in some instances there will be variations in the values given, as stocks of stamps come on the market, and existing stocks are absorbed. Prices given are generally for

used stamps, as it is not possible to fix values for unused specimens, owing to the fact that fiscal stamps often escape cancellation, and also, when cancelled, can be much more easily "cleaned" than postally used stamps.

The lists of varieties of watermarks and perforations have been made as complete as possible, but despite this, from the size of the work, it is clearly apparent, that Revenue stamps are much less numerous than postage issues, though the contrary is often instanced as an argument against fiscal stamp collecting. Also, there is much more yet to be discovered regarding many issues, and the study of fiscals will afford scope for a great deal of pioneer work, whereas in postage stamps the field is now much more limited.

It is hoped that the faults and errors to be found in this first edition, will be notified, together with any additions. Every care will be taken of any specimens sent for inspection.

All communications respecting this catalogue should be addressed to—
