No collector can afford to be without it, and we shall deem it a favor, if those who have tested its merits would introduce it to their stamp collecting friends. Any collector getting us two subscribers, will be allowed a third copy for himself, gratis.

We should like every old subscriber, to send us three names and addresses, and \$2.00 by the first of February, as it is very important that we should know how large an edition to print the present year. Collectors must bear in mind that we cannot *guarantee* to supply back numbers, although we shall be pleased to do so when we have them in stock

P R E F A C E .

It is with the greatest diffidence that we offer this little work to the Revenue Stamp Collectors of the World, being fully aware of its shortcomings, but when it is considered that this is the first attempt that has been made to classify and arrange the various revenue stamps that have been found dispersed among the postage stamp albums of amateurs, we hope its errors of omission will be pardoned. Our publishers request us to state that intelligent criticism of it will be gladly received for publication in *The American Journal of Philately*; also that they will pay 25 cents for the first specimen received of any revenue stamp not catalogued in its pages.

A few words concerning the collection of Revenue Stamps may not be out of place to those thinking of commencing their study. Among the advantages revenues possess over postage stamps, may be mentioned the following: *First*, Revenue stamp collecting is quite new, thus offering to those who commence immediately the same advantages reaped by postal amateurs who obtained copies of the first issues of British Guiana Sandwich Isles Reunion, etc., etc. some dozen years ago, which later comers have found it impossible to procure except at enormous cost, and we firmly believe there are many stamps quoted at 25 cents and under in this list, which will sell at an advance of one hundred per cent. within two years. *Second*, the very high facial value of Revenue Stamps, preclude the probability of their ever being collected uncanceled thus placing all collectors on an equality. *Third*, the low prices at which nearly all revenue stamps may be purchased, and the large proportion which may be obtained by simply asking offer great inducement to collectors of limited means.

DIRECTIONS TO PURCHASERS.

Please take particular care in ordering to state that the list is taken from the *Revenue Catalogue*.

ORDERS should be written plainly with the name of county, date of issue, color, value and price, and as our stock is at present limited, we should deem it a favor if customers would send a duplicate list, to be sent in place of any of the original orders we may be out of. We wish it particularly understood that the reason many of the stamps are not priced, is because we do not happen to have them in sufficient stock at present, and cannot lend ourselves to the dishonest practice of offering goods for sale, which we are not likely to be able to supply. As a rule, the prices for those unmarked, would be the same as those immediately before and after. Purchasers are particularly requested to give full name and address each time.

REMITTANCES.—In sending money by Post, always get the amount in as few pieces as possible. When the order amounts to \$3 or upwards, always Register the Letter, or send by P. O. O., the cost of which can be deducted from the amount, or Banker's draft. Unused Revenue Stamps of low denominations will be received from parties residing abroad, in sums not exceeding £1 or \$5, and above that amount by Banker's draft.

POSTAGE.—All letters must be fully prepaid, and contain sufficient stamps for return postage.

TERMS, NET CASH.—No discount can be allowed from the prices named in the list, as they will be found as low as it is possible to sell genuine stamps.

The Revenue Stamp Album.

For Sale by all respectable Booksellers and Stamp Dealers throughout the world.

This Album is specially designed to contain the Revenue Stamps of the world, great care having been bestowed in its preparation. It contains the only complete list of U. S Revenue Stamps ever published, and is well calculated to contain in a convenient and elegant form these interesting mementoes of the greatest struggle the world has ever witnessed, and vividly illustrates the darkest pages of our national history. It is made uniform with the Common Sense Postage Stamp Album, and forms an interesting second volume to that work.

EXTRACT FROM PREFACE.

In the present state of knowledge concerning revenue stamps, it is simply impossible to make the book perfect, nor would it be advisable to do so, if the necessary data were at hand, as the supply of these labels is, at present very limited, which would in that case, make it impossible to fill the album. Perhaps the greatest charm in collecting revenue stamps consists in the uncertainty and romance connected with it; nearly every amateur having specimens in his album which are totally unknown to his brother collectors, and there being no definite value or degrees of value yet established; but, of course, this state of things is rapidly passing away, and ere many years, or even months have elapsed, collectors will awake to the knowledge that they have some priceless varieties amongst their revenue stamps, which, perhaps, have only cost them two or three cents.

Taking these facts into consideration, spaces have only been prepared for well-known and obtainable series of foreign revenue stamps; but by the plentiful distribution of blank pages throughout the book ample room has been secured for all fiscal stamps that may be acquired by the owner. In regard to the emissions of the United States the case is very different, as nearly every American Philatelist is desirous of obtaining a complete set of the fiscal stamps of his own country. Therefore great care has been taken to provide space for every stamp that has ever been issued by our own country, with the exception of beer, spirit, and tobacco stamps, which it has been pronounced illegal to collect, but as large numbers do collect them sufficient blank pages have been left for their accommodation, and taking into consideration their large size, they can be arranged with equal facility without the aid of lines.

THE MERCHANT FLAGS OF THE WORLD

Magnificently printed in their true colors, and giving correct representations of many flags never before published. Price only 25 cents.

“This Chart, containing many Flags never before published, has been collected with great care, and can be relied upon as being strictly accurate. Unlike other sheets, it gives the Flag of the NATION, such as may be seen floating from the masts of its vessels in our harbors and by its aid the nationality of any ship may be easily determined, instead of the gorgeous piece of bunting which simply belongs to one family, and is seldom if ever seen out of their Country.”

Can be had specially printed on thin paper for insertion in Scott's celebrated Common Sense and other Stamp Albums.
