Knows there are many coins in circulation at the present time that are worth much more than their face value; but not one in a hundred knows *what* coins command a premium, or what they will bring if offered for sale. It contains 16 pages, nearly 100 illustrations, and gives our buying prices of every American Gold, Silver and Copper coin worth over face value. Following are a few of the coins wanted, and the prices we pay, taken from our new Premium Coin Catalogue:

To Collectors of Coins and Medals.

Dealing in Old Coins is with me a business, not a matter of recreation; it is moreover my sole occupation and consumes my entire time. My place of business is a large and well stocked store upon one of the most centrally located business blocks in New York. My facilities for obtaining Coins, Medals and Books relating to the same are unexcelled. My stock in all lines is decidedly the largest and most varied carried by any dealer in the United States.

The advantage to Collectors of putting themselves in communication with one who can supply their wants, no matter what their especial line, must at once be apparent to all who are interested.

Catalogue of United States and Colonial Coins, 15c.

Price List of United States Fractional Currency, 10c.

Price List of Confederate Notes, - - - - 10c.

The above are the most complete ever offered. They contain much valuable information, not to be found elsewhere.

Prices and varieties of Foreign, ancient Greek and Roman coins, upon application

In sending orders, specify as nearly as possible the particular class of coins or medals desired, stating the country and period to be represented. It is also well to enumerate in your order a number of coins that will in value exceed the amount of your remittance. It is impossible to keep a full line of everything; no dealer in the world can do this. Stock is constantly changing through the daily transactions in my business.

Catalogue of Numismatic Books, Part I, Feb., '85, 15c

Catalogue of Numismatic Books, Part II, Aug., '85, 15c

Prices quoted in my catalogue and lists, whether books or coins, do not include postage. Parties ordering will often save expense by including enough for registration, otherwise packages will be sent by express. I do not guarantee the safe arrival of my goods sent by ordinary mail.

Invoices of coins on approval to parties furnishing satisfactory references is an important feature of my business.

Correspondence solicited from cities, corporations, museums, colleges, libraries, administrators of estates, and collectors. Information relative to the subject of numismatics cheerfully given.

Collections catalogued for public sale.

Estimates given for the designing and cutting of dies for medals.

Antique coins of undoubted authenticity for jewelry purposes and objects of ornament.

I neither buy nor sell coins which are either badly worn or mutilated, nor pierced pieces, unless they are rare.

A large correspondence (to which my entire time cannot be given), frequently necessitates the delay of a day or two before replying. Letters are filed in the order received, and have the earliest attention possible.

Circulars free on receipt of postage. Always enclose stamp with letter requiring reply.
