## NOTICES.

The first column gives the intrinsic value of the stamp and the figures which follow refer to the type which may be found amongst the illustrations. The column headed "New" gives the prices of unused stamps, and that headed "Used" of cancelled specimens.

Letters of inquiry and orders under twenty-five cents must contain a stamp for return postage. Unused United States or Canada postage stamps will be accepted for amounts under one dollar when paper money cannot be obtained.

We are not responsible for money sent unless it be by post-office money order, registered letter or bank draft. Amounts of one dollar and over should be sent in one of these ways.

We have a large stock of stamps, both used and unused, and are constantly receiving others, but it is impossible, at all times, to keep every one mentioned in this Catalogue, and correspondents, when ordering, are requested to send a list of double the number or value of stamps wanted. For instance, if it is desired to purchase to the value of one dollar, make a list of stamps that will amount to two dollars, and we will send from it, in the order in which they are named, to the value of one dollar. Money sent for stamps not in stock will be returned unless otherwise ordered.

To avoid mistakes, all orders should be plainly written, with the date of issue, value, color and price of each stamp, and the sender's name and address given in full in every case.

We are, at all times, ready to purchase scarce and rare stamps. In offering any such to us for sale, give the number and condition of each kind, state the amount wanted for them, and enclose stamp for answer.

Every stamp sold is warranted genuine, and a written guarantee to that effect will be given whenever desired.

STAMPED ENVELOPES  
OF THE  
UNITED STATES.

BY  
W. E. V. HORNER, M. A.

*Professor of the Greek Language  
in the Freehold Institute.*

This magnificent work is now ready for delivery. The name of the author is a sufficient guarantee of its reliability and completeness, while the marvelous accuracy of the engravings make the book one which is needed by all and can be dispensed with by none who are interested in the stamps of our own country. The illustrations show

*All the Known Types; All the Various Shapes;  
The Several Watermarks.*

The list includes

*All the Various Sizes; All the Different Papers;  
All the Ruled and Faint Lined Envelopes;  
Albinos and Registered Envelopes.*

In fact, *everything one wants to know* about United States Envelopes is in this book. The Remarks and Closing Notes to each issue contain many items of interest and value upon the peculiarities of the envelopes and hints as to their comparative rarity.

This work is the most valuable one of the day to the collector, and will take the place it well deserves—that of the first authority on the subject it treats. The mechanical part of the work is all which could be desired, Messrs. Bavis & Pennypacker having done their best. Few handsomer books than the morocco edition have ever been published in any department of literature. Large octavo, fifty-six pages.
