NOTICES.

The first column gives the intrinsic value of the stamp, and the figures which follow refer to the type, which may be found amongst the illustrations. It will be observed that in some cases all the stamps of a series are not exactly like the illustration referred to, as they may differ slightly in the frame work or otherwise, but the cut will serve to show what stamp or stamps are meant. The column headed "New" gives the prices of unused stamps, and that headed "Used" of cancelled specimens.

Those who want but one variety of the same stamp can, by aid of the illustrations, select the cheaper, and order accordingly.

Owing to the growing scarcity of many stamps, it is not possible to have in stock, at one time, all those mentioned in this catalogue, and it will be well for correspondents when ordering to give an additional list to select from in case any of those preferred may not be on hand.

Our stock is very large, and collectors can depend upon having their orders by mail filled promptly and as satisfactorily as if they called in person.

It is needless to add that collectors will get from us only genuine stamps, in good condition. The reputation we have acquired in the past thirteen years is an assurance of that, but if more is needed a written guarantee upon any particular stamp sold will be given whenever desired.
