# Lincoln Stamp Album

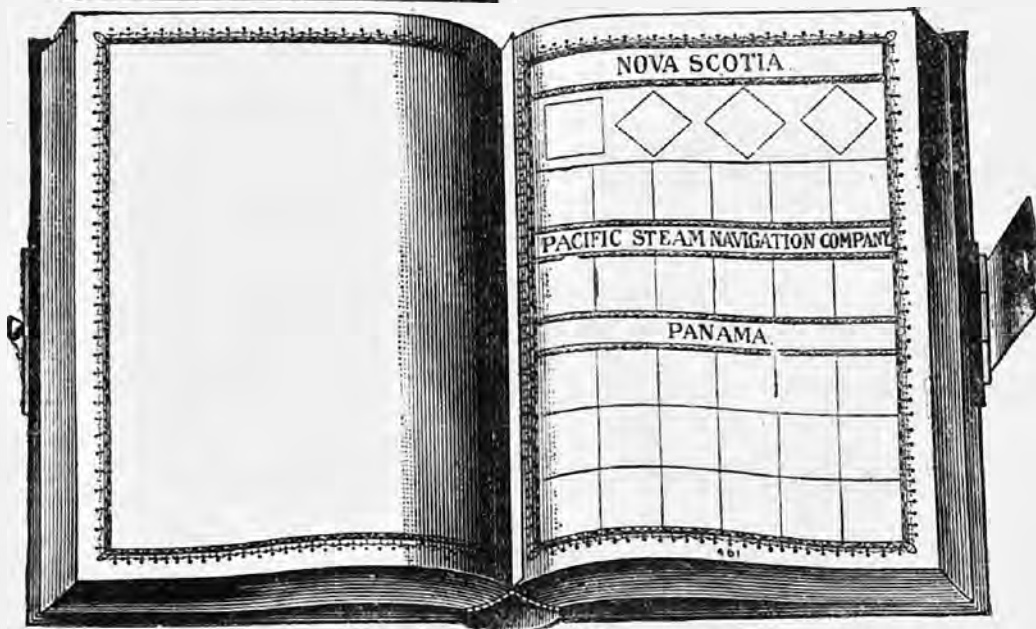

Royal Quarto. Upright Edition. Size 9 inches by 11 inches.

**TO HOLD OVER 12,000 STAMPS.**

*The Lincoln Stamp Album (Royal Quarto, Upright Edition)* has spaces for over 12,000 Stamps, with compartments of various sizes, arranged for the reception of a collection of Postage Stamps, additional room being given in each country for new issues. There are 587 pages in the Album; the compartments for the Stamps are on the right hand pages only, the left hand pages being blank with the exception of a neat border frame, so that the Stamps are only placed on one side of the page, which greatly improves the appearance of a collection.

*The Preface*, says:—"The success of the various Lincoln Stamp Albums has induced the publisher to introduce this new Upright Shaped Edition, and trusts that Stamp Collectors will approve of it. Extra spaces have been left for new issues; and when the Stamps are larger or differ in shape or form from the ordinary rectangular size, special spaces are provided for them. The Stamps can be arranged in this Album according to the taste of the collector, and shades of colour, varieties of perforations or watermarks can be inserted or omitted as desired.

# KRUGER PENNY.

**VERY SCARCE 5/- EACH.**

(The above engraving is a representation of the Transvaal Copper Penny, with portrait of President Kruger on the obverse and the Arms of Transvaal or South African Republic on the reverse.)

**T**Hese Pennies were in circulation for a very short time, and are now extremely scarce and difficult to obtain. The smallest denomination in general use was the silver threepence, the Pennies having practically been out of use for some three or four years.

Since the outbreak of the War the Pennies have been fetching very high prices, and are eagerly sought for by the inhabitants of Pretoria, Johannesburg, the Orange Free State, Cape Colony, and Natal, and are greatly prized by the lucky owners.

Several Officers back from the front, and other gentlemen recently arrived from South Africa, inform me that Silver and Gold denominations of the Kruger money are comparatively common, and they were able to get what they wanted of them; but they found it almost impossible to procure specimens of the pennies to complete their sets, the ruling prices for them in South Africa being from 30/- to 45/- each.

I have a few of these now extremely rare Pennies for sale—

**PRICE FIVE SHILLINGS EACH.**

If you should require one of these very interesting mementoes of the present eventful times in South Africa, please order as soon as possible to prevent disappointment, as I have only a very limited number, which will soon be exhausted.

## Opinions of the Press on The Lincoln Illustrated and Priced Stamp Catalogue.

Philatelists will welcome the appearance of the Twelfth Edition of the Lincoln Stamp Catalogue, which has been brought up to date with illustrations and prices for used or unused specimens. It is well bound.—*Church Review*.

The Lincoln Stamp Catalogue. (Twelfth Edition) is one of the most exhaustive accounts of Foreign Stamps and their values. It contains over 4,100 pictures of the stamps it treats of.—*Lloyd's Weekly*.

The Twelfth Edition of the Lincoln Stamp Catalogue has valuable features for philatelists. There are 4,100 pictures illustrating every type of stamp. A useful book for all stamp collectors.—*Sheffield Daily Telegraph*.

The great and ever increasing army of Philatelists will find the Lincoln Postage Stamp Catalogue an exceedingly valuable book of reference.—*Glasgow Evening Times*.

The new illustrated and priced Lincoln Stamp Catalogue is the twelfth edition. Every type of stamp is included in the 4,100 illustrations. Prices are given of stamps used and unused, also dates of issue and names of colour of every stamp. Original enlarged drawings appear showing minute varieties of engravings which could not be otherwise satisfactorily explained. Types of sur-

charge are shown, and the varieties of paper described. The Catalogue is up-to-date in every particular.—*Hearth and Home*.

This Catalogue, with its profuse illustrations, descriptions of stamps, and other information, is a most useful work for all interested in Philately.—*Glasgow Herald*.

Actors and Actresses who are also Philatelists will find much to interest them in the Lincoln Illustrated and Priced Stamp Catalogue, of which I have just received the twelfth edition from the famous stamp firm of William S. Lincoln, 2 Holles Street, Oxford St. This exhaustive and fully detailed catalogue contains 4,100 illustrations, describes accurately the colours, watermarks, market prices, and so on, of all the stamps published, and further includes a variety of facts concerning the stamps and their places of issue. If I was to begin my stamp collection over again, I should take W. S. Lincoln as my guide, philosopher and friend.—*The Stage*.

Mr W S Lincoln has just brought out the twelfth edition of his illustrated and priced stamp catalogue. There are 4,100 illustrations, and the prices are given of stamps both used and unused. The dates of issue and names of colour of every stamp are given, and diagrams

of watermarks are shown in the case of Bavaria, Tuscany, and other countries. There are original enlarged drawings showing minute varieties of engravings which could not otherwise be satisfactorily explained as in the case of the United States, New South Wales, Russia, the Cape of Good Hope, Roumania, Peru, and other countries. Types of surcharges are shown in the case of the Transvaal, Montevideo, Cuba, and other countries; varieties of paper are described; the historical and geographical notes so much appreciated in former editions have been largely augmented; and much information is added which has never before appeared in any catalogue.—*The Queen*.

The Lincoln Postage Stamp Catalogue is a sort of philatelist's *vade mecum*, and that it is valued is shown by this issue being the twelfth edition. It is a descriptive catalogue of Foreign Colonial and British postage stamps, with some 4,100 illustrations. It enumerates the dates of issue, the colour of the stamps, any peculiarity such as perforations, watermarks, &c., and the prices of the stamps used and unused, and also some historical and geographical notes which interest philatelists. We can thoroughly recommend the book to the special class for which it caters. It is up to date in every respect.—*Church Family News paper*.

Collectors of Postcards will find these Albums very convenient, because when filled another volume in the same binding can always be procured to insert new Postcards or fresh purchases.

## Opinions of the Press on "STAMP COLLECTING NOTES."

The day will never come, when Stamps and Stamp Collecting will fail to interest the British-born boy, and this being so Mr. W. S. Lincoln (2, Holles Street, W.) may count on many appreciative readers of his instructive little volume, "Stamp Collecting Notes." Within its pages will be found comprehensive notes on everything pertaining to Stamps and their history. The geographical and ecclesiastical side of Stamp Collecting is treated, hints on the best means of compiling a collection are clearly and lucidly given, collectors are told how to detect forgeries and imitations, the history of the watermarks, printing and paper is clearly explained; in a word, this delightful book contains everything worth knowing on Stamp Collecting, and it costs but one shilling.—*The Gentlewoman.*

*Stamp Collecting Notes.* By W. S. Lincoln (2, Holles Street).—This little volume is intended for those who, so to speak, are still plain and simple Stamp Collectors, and have not yet risen to the dignity of philatelists; who want to learn about stamps, but do not care to master the technicalities with which the majority of ordinary manuals fairly bristle; and who, in addition to details, about perforation, watermark, and the rest, like to know something about the big prices, which they are not without a hope of their realising some day with some of their fancied treasures. To such undergraduates Mr. Lincoln's notes will prove both useful and interesting. Though mere notes, if judged by the standard of his own well-known experi-

ence, they contain a very great amount of information: and, what is of no less importance, they are systematically drawn up. In addition to all that, they are brightly written, and will bear reading for their own sake.—*The Glasgow Herald.*

*Stamp Collecting Notes.* By W. S. Lincoln (2, Holles Street, price 1s., cloth) is the daintiest and most instructive of handbooks for the use of amateur philatelists. The valuable information it contains is imparted in a lucid and entertaining manner, and the numerous illustrations are excellent, more especially the initial sketches, which are at once clever, humorous and appropriate.—*The Lady.*

# KRUGER PENNY.

**VERY SCARCE 5/- EACH.**

(The above engraving is a representation of the Transvaal Copper Penny, with portrait of President Kruger on the obverse and the Arms of Transvaal or South African Republic on the reverse.)

**T**HESE Pennies were in circulation for a very short time, and are now extremely scarce and difficult to obtain. The smallest denomination in general use was the silver threepence, the Pennies having practically been out of use for some three or four years.

Since the outbreak of the War the Pennies have been fetching very high prices, and are eagerly sought for by the inhabitants of Pretoria, Johannesburg, the Orange Free State, Cape Colony, and Natal, and are greatly prized by the lucky owners.

Several Officers back from the front, and other gentlemen recently arrived from South Africa, inform me that Silver and Gold denominations of the Kruger money are comparatively common, and they were able to get what they wanted of them; but they found it almost impossible to procure specimens of the pennies to complete their sets, the ruling prices for them in South Africa being from 30/- to 45/- each.

I have a few of these now extremely rare Pennies for sale—

**PRICE FIVE SHILLINGS EACH.**

If you should require one of these very interesting mementoes of the present eventful times in South Africa, please order as soon as possible to prevent disappointment, as I have only a very limited number, which will soon be exhausted.

# Lincoln Transparent Perforation Measure.

*Convenient Size for carrying in Pocket Book.*

**Price 3d.; Post Free, 4d.**

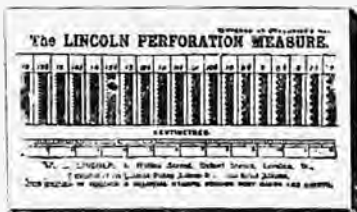

**T**HE Lincoln Transparent Perforation Measure is made on quite a new plan, and every Collector should possess one.

Perforations are counted by the number of teeth that occur in the space of two centimetres, and not in the actual number of teeth at side or top of Stamp.

The value of the Stamps of Prince Edward Island, British Guiana, Great Britain, Sierra Leone, Austria, Baden, Finland, Lagos, Russia, and many other countries, vary according to the number of perforations, distinguished at a glance by help of the Lincoln Perforation Measure.

Collectors using this Measure avoid the necessity of removing Stamps from their Album when measuring the perforations, as it is printed on a transparent substance, which can be placed over the Stamp however firmly fixed in Album.

It is hoped that those who use the Lincoln Transparent Perforation Measure, and experience the advantages it possesses will recommend it to their friends who are interested in philately.

The Lincoln Perforation Measure has a series of 19 diagrams or gauges, giving the various sizes of perforations, each diagram being in the space of two centimetres. Herewith is a representation of it on a very reduced scale.

## TESTIMONIAL.

Mr. Relton would feel obliged by Mr. Lincoln sending him by an early post one Lincoln Transparent Perforation Measure, for which and postage he encloses 4d. in stamps. Mr. Relton has always used Mr. Lincoln's Perforation Measure Card, and is pleased that Mr. Lincoln has now produced one to obviate the removal of stamps from albums to ascertain the perforation.

# Lincoln Pocket Magnifying Glasses,

*For Examining Stamps.*

These Glasses are very powerful magnifiers, and will be found invaluable to the Collector in examining Stamps, to detect forgeries, and for identifying plate numbers, minute varieties, &c. Suitable for carrying in pocket. The illustration is exact size of the magnifier.

**Price 1s.; Post Free, 1/1.**

# LINCOLN PHILATELIC TWEEZERS,

*For Handling Stamps when arranging collection.*

They will be found especially useful when Stamps have to be soaked off paper, to see watermarks, or other varieties, shown on back of Stamps, for when Stamps are wet, they are liable to tear or break if touched by the hands. They are four inches long, as illustration, and handy for carrying in pocket. Being nickel-plated they will not rust when put in water.

# LINCOLN ADHESIVE STAMP HINGES.

1,000.

1/6  
per  
1,000.

The Lincoln Adhesive Stamp Hinges are intended to be used for fixing Stamps into albums, and will be found a great boon to collectors of stamps. They are small tags of very thin strong paper, a trifle smaller than ordinary stamps, and are gummed on one side; when folded they form a hinge, by which a stamp can be fixed in the album, allowing the stamp to be turned over to examine the watermark: a bad specimen can be easily removed, or any portion of

the collection taken out and re-arranged with very little trouble. The mode of fixing the Hinge on the back of Postage Stamp is shown by the accompanying engraving.

Collectors often put aside and lose a stamp because the gum or paste is not to be found when they want to affix a stamp in the album. By the use of the Lincoln Stamp Hinges this annoyance can be avoided as the Hinges can be kept with the album and always ready at hand.

These Hinges are also suitable for fixing in Postcards, as referred to in preface of Lincoln Postcard Album, and will be found very useful for many other purposes.

Prices { 2d. per 100 Stamp Hinges, Post free, 3d.  
1s. 6d. per 1000 Stamp Hinges, in metal box; post free, 1s. 7d.

GEORGE R. THOMPSON, ANALYST, &c.

Mr. William Lincoln,

## CERTIFICATE OF ANALYSIS.

The Laboratory,  
Newport, Mon.

Dear Sir,—I have much pleasure in reporting most favourably upon your "Lincoln Stamp Hinges." Before using them for a large collection of stamps I made most careful experiments to ascertain whether they contained anything (i) of a harmful nature to the tongue if used for moistening them, (ii) of such a nature as to discharge or alter the colour of any specimen attached to them. The results have proved that neither the paper nor adhesive matter contain anything likely to cause harm to the mouth and tongue, and no action results even upon such sensitive colours as are employed notably in stamps of Russia, Cashmere, &c. Even the green colour in the present issue of Great Britain is unchanged, hence I can thoroughly commend them to all collectors who need have no fear in their use, and as regards their adhesion there is no liability of chipping off or cracking.

I am, Dear Sir, yours faithfully,

GEO. R. THOMPSON.

## Album for Postage, Revenue & Duplicate Stamps

OR FOR A

### COLLECTION OF POSTMARKS.

The object of this Album is that it may serve as an Appendix to a Stamp Album, in which to put Revenue or Duplicate Postage Stamps, or for a Collection of Postmarks, which can be so easily obtained, and form a very interesting as well as an instructive collection.

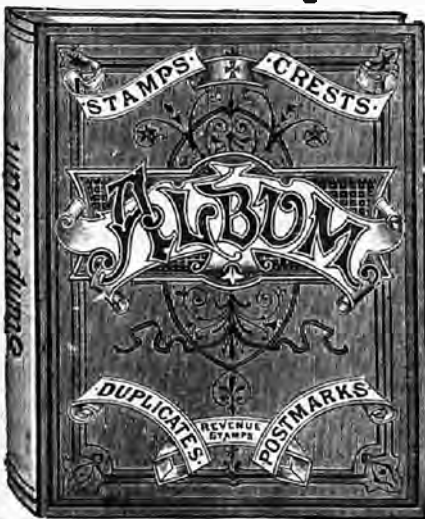

It is also suitable for a Collection of Arms, Crests and Monograms.

If English Postmarks are collected, one page should be devoted to each county, and name of county written on top of page.

THE BOYS' OWN PAPER says:—"We have seen many good Collections of Postmarks. They do not look so ornamental as Stamps, but they give a better knowledge of geography; for while Stamps deal only with countries, Postmarks deal with towns."

FOURTH EDITION.

Entered at  
Stationers' Hall.

Handsomest  
Crest Album  
ever  
offered for sale.

Beautiful  
Colours, Quaint  
and  
Artistic Devices.

THE Fourth Edition of the Lincoln Crest and Monogram Album will be found to contain many improvements, several new designs have been introduced, forming very pretty frames for the reception of Crests, Arms and Monograms of all sizes and shapes. Again, each page is printed in two colours, thus giving the Album a brighter and more attractive appearance than the previous Edition. Numerous artistic shades and combinations of colour are used in the different designs, all of which will be found highly effective when filled in with Crests and Monograms.

The art displayed in producing Crests and Monograms is sufficient plea for making collections of them. The Crests give an introduction to the science of heraldry, and the Monograms of friends form an interesting addenda to collections of portraits and autographs.

Special care has been taken with the binding of this Edition.

There are six different prices and styles of binding.
