SPECIAL NOTICES.

The numbers in the first column will serve to facilitate the ordering from the Catalogue; thus, if you wish to order an unused United States, 1851 issue, 1c blue, unperforated, your order may read as follows:

United States, 16 25 cents,

thereby doing away with the necessity of long descriptions. The second column indicates the date of issue of the stamp; the third, the number of the illustration in the Catalogue; the fourth the nominal or face value, and the fifth, the color of the stamp; the sixth, our price for an uncanceled specimen, and the seventh, our price for a canceled or used one.

A printed order blank accompanies this catalogue, and if customers will fill it out according to instructions no mistake can occur.

As it is impossible to keep a full line of all stamps constantly on hand, we would advise our customers always to send a supplementary order. Thus, if you remit \$1.00 make out an order for \$2.00 worth of stamps, so that you may be sure of receiving goods to the full value of your remittance, without the necessity of sending another letter, and also avoiding delay. We never substitute stamps not ordered for others which we may not have in stock.

We cannot hold ourselves responsible for letters lost in transit.

In the pages devoted to the U. S. Locals, Ori. (original) and Rep. (reprint) will be found at the head of the column, in place of New and Used. In these stamps there is no difference in the value between a used or unused stamps, (many preferring the latter), which has allowed us to utilize the columns in giving the value of those local stamps which have been reprinted from the original plates, thus enabling collectors to get genuine stamps at a nominal price. It should be understood that any stamp printed from a genuine plate is genuine, and it is of comparatively little importance as to the particular date at which the impression was made. Every stamp which has been in use a few years, has been many times reprinted, and all prints are equally genuine. Young collectors sometimes confound reprints with counterfeits, an unfortunate mistake, as counterfeits have no value whatever, and are a disgrace to any album in which they are found.

Guarantee—Every stamp sold by us is guaranteed genuine, and when required, a written guarantee will be given.

Remittances—Please make all remittances by Check, Money Order, Postal Note, or Express Order, to the order of the **Scott Stamp & Coin Co., L'd**, or else in unused 2c. stamps, in strips of ten or more. With the exception of those countries whose currency is worth less than 90c. in U. S. money to the dollar, unused stamps of low value will be taken at face value in payment for stamps from this Catalogue.

Terms—Net cash in advance. We have made it our object to put prices as low as it is possible to sell genuine stamps, and cannot, therefore, allow any discounts.

All orders will be filled on day of receipt.

Sheets of rare stamps and novelties will be sent on approval to parties furnishing satisfactory references. We are always willing to exchange stamps from this list against foreign stamps, and can pay the highest prices for rarities. The purchase of entire collections is made a specialty.

Purchasers are particularly requested to give full name and address each time.

No orders of less than 25c. will be received.

Orders for less than one dollar must contain return postage.

Important Notice to Advanced Collectors, who are desirous of securing novelties as they appear.

For the convenience of those of our customers, who may wish to obtain novelties as soon as they appear, we will, upon application, set apart a series of boxes into which we will place on receipt, one of each kind of all new issues that we receive, and will forward as soon as a sufficient amount is reached, or else on request.

Parties not known to us, who desire to take advantage of this system, must deposit \$10.00 before any stamps can be sent.

Auction Sales—The Scott Stamp & Coin Co., L'd, are prepared to dispose of large collections of stamps and coins at auction. The success of this system of disposing of collections, has been fully demonstrated during past seasons, and will require no further comment.

Abbreviations—A.—Asia. AF.—Africa. E.—Europe. N. A.—North America. O.—Oceanica. S. A.—South America. W. I.—West India Islands.

In some cases stamps are printed in black on colored paper, then the color of the paper only is given, and follows the color.

THE MERCHANT FLAGS OF THE WORLD.

AUSTRIAN-ITALY.

BRAZIL.

FINLAND.

Uncolored fac-similes, showing size and style.

"These brilliant colored Flags faithfully represent the emblems of the different nations of the earth, and as such are a great acquisition to any Album, while the exceedingly low price (25 cents) at which they are published, places them within the reach of all."

"This Chart containing many Flags never before published, has been collected with great care, and can be relied upon as being strictly accurate, and by its aid the nationality of any ship may be easily determined, as it gives the Flag of the NATION instead of the gorgeous piece of bunting which simply belongs to one family, and is seldom, if ever, seen out of their country."

"These sheets possess three great advantages (to the Collector) over any other we are acquainted with, which consist in the facts that there is only one Flag to each country: more nations represented than have heretofore been given, and only Flags of those countries which issue postage stamps. These we consider of great importance to those who buy them to put in albums, as they can use them all instead of having to throw away half the purchase. The colors are very brilliant, and withal correct, and being printed on very thin paper, the book is not swelled to an inordinate thickness."

Beautifully and correctly printed in five colors on thin paper for albums. Price only 25 cents.

PROSPECTUS.

THE

COIN COLLECTORS' JOURNAL.

*"Types of active and extinct civilization."
"More historic than written history."*

TO THE NUMISMATIC FRATERNITY.

THE COIN COLLECTORS' JOURNAL, now about to enter upon the thirteenth year of its existence, feels that it is possessed, in view of its long and very successful career, of an unquestionable right to say a good word in its own behalf.

THE BEST AND CHEAPEST.

THE COIN COLLECTORS' JOURNAL is undoubtedly the best, as it is also the cheapest, publication of its class issued in the UNITED STATES, or indeed, the world. It is not an amateur sheet, inflicting on its readers old, moss-grown articles on 1799 cents and 1804 dollars, but a regularly established periodical, issued promptly on the first day of each month. In form the full octavo, in size and dress sixteen pages, printed on heavy, tinted paper, in clear, bold type, each number liberally illustrated with well executed wood cuts from the coins themselves it forms in its completeness a volume of nearly 200 pages, depicting and describing many hundreds of coins.

THE FIRST NUMISMATIC WRITERS.

are contributors to our columns, and will continue to treat intelligently of their several specialties during the coming year. As a guarantee for the future, witness some of the work of the past three years, which embraces:

R. COULTON DAVIS, PH. G., on U. S. Pattern and Experimental Issues. A most exhaustive treatise on this obscure branch of numismatic science, from the pen of the only collector capable of handling the subject at all.

ROBERT MORRIS, LL. D., on the Nuni-Cistophori Ancient Dates on Coins, and other subjects.

Mr. HECTOR E. KIRKWOOD, the eminent numismatist and traveller, on the Coins of Northern Africa, Newfoundland and the German Crowns, etc., etc.

In addition have been treated the coins of many nations, viewed generally and in detail, including many complete descriptive lists never before published in the English language, the possession of which is absolutely essential to every intelligent collector who desires to keep abreast with the times.

A FEW OF OUR SPECIAL SUBJECTS.

The following are a few of the titles of our special subjects of coins:

The Cents of the United States. *Gold Coins issued by private persons in the U.S.*
Pattern and experimental issues of the U.S. *Tradesmen's Tokens of the State of New York.*
Copper Coins of the Colonies of Portugal. *Gold, Silver and Medallion Issues of Brazil.*
Colonial Tokens.

That there will be found in the pages of each monthly issue, exhaustive reviews of all current numismatic topics, descriptions of new issues, reviews of numismatic books, notes on prominent American and foreign sales, reports of the transactions of the American Numismatic and Archeological Society, and a host of general information upon coins.

Inquiries upon numismatic subjects are promptly and intelligently answered in our Correspondents' Column; and we would say in this connection that we cheerfully accept suggestions from subscribers as to the class of articles likely to prove interesting, as it is our earnest desire to please and satisfy all.

The back volumes of the Journal we are able to supply a limited number postpaid at the following rates.

CONFEDERATE NOTES.

Of all classes of Paper Money which can be procured at moderate expense, these are the most interesting, both from the multiplicity of designs, and from their being the principal relics of the greatest of civil wars. The beautifully engraved notes issued at Montgomery, at the beginning of the war, (May, 1861,) with the imprint of the National Bank Note Co. of New York, are especially prized.

We have also a large variety of Bonds, State bills and Fractional currency, selections of which we will send on approval to parties who furnish satisfactory references.

In ordering it will be sufficient to give the Number of the note and price.

TO THOSE WHO HANDLE MONEY, OR COLLECT COINS
AND MEDALS AS A MATTER OF RECREATION,
STUDY, OR PROFIT, THE FOLLOWING MAY
BE FOUND INTERESTING.

Numismatics.—There are, upon a low estimate, ten thousand active collectors of Coins and Medals in the United States and Canada, whose cabinets represent, in intrinsic value, amounts from a few hundred dollars to many thousands. There are numerous collections which are valued above \$5,000 while some reach as high as \$25,000 and even \$50,000.

Our principal cities have Societies devoted exclusively to the science of numismatics, embracing hundreds of members, while many others upon history, antiquity, and kindred subjects, devote time and space to coins.

Collecting as an amusement.—In foreign countries the forming of cabinets of coins has been a means of pleasant recreation and study for upwards of four hundred years. This pursuit has not been confined to any class, rank or position. The field for collectors is large and varied, extending from the period when the first metal took the shape and name of a coin seven hundred and fifty years before Christ, in an almost unbroken line, down to the present time. Without the existence of these numismatic treasures, history would have many blank pages to-day. It cannot be said that coins are without interest, or that they possess less fascination, than other objects of curious research, whether antique, mediæval or modern. They lead to such a knowledge of history and art, as cannot otherwise be obtained. There is no truer saying than that "we all have our hobbies." Hence we speak a word for Numismatics, commending the same to your careful consideration, asserting that it will be found entertaining and instructive to a degree that challenges all other sciences or pursuits.

How we promote it.—We desire to announce to collectors and the public in general that we give our whole and undivided attention to the buying and selling of stamps, coins and medals, and of books treating on the subject. This is our only and exclusive business. We are not "spare time" dealers. Our stock at all times is large, embracing all classes of coins in the various periods, and our facilities for obtaining the same, at home and abroad, are unsurpassed. We have correspondents in the principal cities and coin centres of Europe and Asia, who, like ourselves, make a business of accumulating whatever is rare and interesting in the way of Coins and Medals relating to their special localities.

Catalogues.—Our Standard Catalogues, giving prices we ask for coins in several degrees of preservation, are widely and favorably known. They give in minute detail descriptions of various issues, embody many facts of historical interest, and are essential to the collector, who will find that they lessen his labors and enhance his pleasure.

Our Circulars, which are distributed free upon application, are applied for and sent to hundreds of collectors weekly. They are prepared with the view of making them instructive, attractive and serviceable, and they include a condensed price list of coins and medals covering all periods.

Coins on Approval.—While Price Lists and Descriptive Catalogues offer advantages to the collector in making purchases, we find that sending coins on approval gives the greatest amount of satisfaction. We are constantly supplying to our customers carefully prepared invoices of the special lines in which they are interested. By this method we have secured the patronage of numismatists from all parts of the world. We pay express charges one way, except when selections amount to less than \$5.00. Parties unknown to us must send references or a deposit.

How to Send Orders.—In sending orders, specify as nearly as possible the particular class of coins or medals desired, stating the country and period to be represented. It is also well to *enumerate* in your order a *number of pieces* that will in value exceed the amount of your remittance. It is impossible to keep a full line of everything, no dealer in the world can do this. Stock is constantly changing through the daily transactions in our business. Prices quoted in our catalogues do not include postage, and we register letters and packages only when supplied with an additional ten cents.

Use Express Companies.—The mails are regarded as unsafe for the transmitting of *valuable packages*. No claim for remuneration in case of loss is considered by the U. S. Government. *Express Companies assume responsibility*, hence we always urge the *sending of important parcels by Express*.

No Counterfeits.—We find the interests of the Science are best promoted and perpetuated by dealing *only in genuine coins*. We depreciate the manufacture, purchase, sale, or possession of electrotypes, copies, altered dates, or any false or fictitious piece whatsoever. Customers may rely upon receiving from us genuine coins, and in offering the same we always consider our reputation at stake.

What Gives a Coin Value.—The age of a coin is not conclusive to establish rarity; it is the historic interest it may possess, or the limited number struck, which will make it sought after by a large number of collectors. A coin of Augustus, the first Roman Emperor, B. C. 27 to A. D. 14, is obtainable in fair condition for 50 cents, while the 20 cent pieces from the U. S. Mint of 1877 and 1878 command from ten to fifteen times their face value. To go back a little further, a United States cent of almost any date between 1793 and 1814, in perfect state of preservation, is worth \$5.00, while some of the dates within this period are worth very much more—\$25.00 is not an uncommon price for the cents of 1793, 1799 and 1804.

CONDITION, or more plainly, the state of preservation, always *regulates the price* of a coin; it has the greatest bearing however on the rare issues which multiply rapidly in value as they approach perfection; this means *mint state* and positively unworn. If scratched, corroded, spotted, or stained, however slightly, its value is impaired.

Auction sales.—In this specialty we are prepared to assume every responsibility connected with the custody, cataloguing, and public sale of coins and medals. We are able to secure the patronage and competition of the buying collectors the world over. Our accurate attributions, clear descriptions, and impartial rating of condition, has brought the greatest satisfaction, to owner, cataloguer, and purchaser. By this means, we have obtained the highest prices for collections placed in our hands, and gained the confidence of bidders.

We purchase.—We are always prepared to buy rare, fine, or desirable pieces, but do not send them to us without first advising what you have, supply us with lists or rubbings; they may not be of sufficient value to repay cost of express; If they appear to have more than ordinary value, we will then inform you; but we never invest or make offers without seeing the pieces,—it is impracticable; hence, what you have to sell must be submitted for our inspection. Our "Premium List" contains all of the United States coins which are worth more than their face value.

Central for business.—Our Location is central, situated on one of the most noted and celebrated thoroughfares in the world, where those interested in the science are always welcome. Our extensive library and stock of Numismatic works is free for reference, while the inspection of our stock of coins and medals, separately enveloped and fully described with prices marked in plain figures, may be pursued *ad libitum*.

We cheerfully answer all questions relative to the subject of Numismatics whenever postage is supplied.

Colonial & Continental Currency.

These repudiated notes are of great interest, both for their antique and picturesque designs and quaint mottos, and for the autographs of our early settlers.

Our Paper Money catalogue gives a complete price list of all known varieties, with illustrations of notes from each of the different states.

Confederate Bills.

We have a great many of these notes which became worthless as money at the end of the war, but are now eagerly sought for by Antiquarians. They are also fully described with prices in our Paper Money catalogue. We prefer to buy these, also Confederate bonds, either in collections or in quantity, small lots we cannot use.

Fractional Currency.

Most coin collectors keep a set of our Fractional Currency, which is rapidly increasing in value. For prices see Paper money catalogue.

INDIAN RELICS.

OF THE PRIMITIVE INHABITANTS OF THIS VAST CONTINENT comparatively little is known, and the few relics of the various tribes are rapidly passing away. The grand mounds of the Ohio and Mississippi Valleys are being opened, one by one, and robbed of their treasures, so that in a few years the interesting remains now offered so cheaply will be quite unattainable.

About the only remains of the pre-historic inhabitants which remain to us consist of stone implements, such as axes, mortars, corn grinders, skinners, knives, ornaments, spear heads, arrow points, &c., all chipped out of solid rock, and many exhibiting remarkable skill in the treatment of the stone for the various uses to which it has been put. It is supposed that many of these articles were made several thousand years ago. Some of these are now rare, and when of extra workmanship command high prices. We always carry a large stock of those implements most frequently found and frequently have rare and valuable relics.

ATTENTION!

All Stamp Collectors.

On February 1st, 1888, we shall renew the publication of the

"AMERICAN JOURNAL of PHILATELY"

which was, in its time, acknowledged to be the best journal devoted to Philatelic interest published in the United States.

The journal will appear monthly, and besides complete lists of all new issues of postage stamps, will contain many articles, written by authorities on the various subjects discussed, on subjects of interest to all stamp collectors.

We shall also hold its columns open for a free discussion of all questions which may arise in the Philatelic world, and we feel confident that our journal will recover the place which it held among American Philatelic Literature, before its discontinuance in 1878.

We invite subscriptions to this magazine at the nominal rate of

The Standard Color Chart.

LA CARTE MODELE DES COULEURS.

DIE NORMALE FARBEN KARTE.

CARTILLA MODELO DE COLORES.

— PRICE, 75 CENTS. —

INVALUABLE TO STAMP COLLECTORS.

The Standard Gauge of COLOR for all Postage Stamps.

Printed in 142 different colors, each worked in six distinct shades, and illustrating in every case six varieties of engraving.

Printed in ENGLISH, FRENCH, GERMAN & SPANISH.

The adopted Standard of the principal Societies, Collectors and Dealers throughout the world.

Sample of Color Chart.

In this chart we have attempted to reproduce every shade in which any stamp has ever been printed, arranging them under seven heads, which are numbered from one to twenty or thirty as the case may be, so all that is necessary for the amateur in deciding the color of a new stamp, or ordering from any dealer a shade he may require will be to write "Color Chart," giving Class and Number which correspond with his specimen or wants, and as this work will be in the hands of every dealer in the world, it will show exactly what is required to be made known.
