P R E F A C E .

In presenting to our friends and the stamp collecting public in general the first edition of our price catalogue, the eighth publication of its kind issued in the United States, we make no special claim that the meritorious features it presents render it vastly superior to the publications of other dealers. Whatever we ourselves may think on the subject, we have both the good taste and the modesty to leave that matter to the verdict of our patrons, satisfied that our claims on their attention and consideration will not have been made in vain. In compiling this work we have endeavored as far as lay within our power, to produce a *price* catalogue in which the only attractive features would be the moderation of the scale of prices, and which would owe none of its merits to the dubious attractions of glittering show. How we have succeeded, the catalogue will best show for itself; those persons who want an ornamental creation will be disappointed, but the consciousness of the fact that on the vital point of moderate prices our catalogue will meet the approbation of many stamp collectors, will more than compensate us for the pain we experience in thinking that the well-meaning persons who love display should have been disappointed. The tendency of prices in stamps has for the last two years been in common with everything else, downward, and our catalogue has been compiled on that basis. We have not catalogued the varieties existing through shades of color, watermark, or perforations of stamps, as there are but few collectors of all these varieties. In order to make this work permanent, we shall issue from time to time supplementary leaves of newly issued stamps, which will be sent gratis to purchasers of this edition.

SPECIAL NOTICES.

All the prices in this list being the very lowest we can allow no discount on them except when six stamps or packet of one kind are ordered at one time, in which case seven will be sent for the price of six, or fifteen for the price of twelve. Our *net* prices taken as they are, will be found lower than those of other dealers even when 20 to 40 per cent. is deducted from their list prices. Dealers wishing to buy stamps in quantity are respectfully referred to our wholesale list.

We do not wish to say that we have in stock all the stamps priced in this list, as that is really impossible for any dealer, no matter how large his stock may be, but we can assure our patrons that all orders will be promptly executed, or, when some of the stamps ordered are not in stock, we will either return the money for same or keep the order on file and execute it at an early period; however, we have no hesitation in asserting that our stock of adhesive stamps, stamped envelopes, and post cards, is second to none in variety, and is constantly increasing.

Our large Foreign correspondence enables us to obtain all novelties *direct* as soon as issued, and which consequently we can sell very cheap.

In ordering from this list our patrons would oblige by attending to the following:

All orders should be plainly written; giving name of country, date, value, and price of each stamp. Senders name and address should accompany every communication.

Remittances must accompany all orders and should be sent by correspondents in the U. S. and Canada per P. O. Order, Bank Notes, or Bankers draft, payable in New York. Small amounts (under \$1.00) may be sent in unused 1, 2, or 3 c. postage stamps.

By correspondents in Great Britain and British Colonies per P. O. Order, Bank Notes, or Bankers drafts payable at New York. Small amounts may be sent in unused $\frac{1}{2}$ or 1d. current postage stamps. \$1 = 4s.

Register all valuable letters.

The prices in this list are in *cents* in the first column for *unused*, in the second column for *used* stamps, warranted to be genuine and in perfect condition, envelope stamps either uncut or cut square. Post cards if *unused*, *uncut*.

ABBREVIATIONS.—Obl. (oblong,) circ. (circular,) oct. (octagonal,) hex. (hexagon,) sq. (square,) rect. (rectangular,) triang. (triangular,) refer to the shape of the stamps.

'THE COMMON SENSE POSTAGE STAMP ALBUM.

—:O:—

It has received the Highest Prize wherever exhibited, and was awarded the only Diploma for Stamp Albums at the American Institute.

It has specially designed spaces for the reception of every Postage Stamp ever issued, rather larger than the Stamp itself, thus showing a neat border round each, adding much to the appearance of a set. Each space contains the description of the stamp it is designed for, thus making it nearly impossible to make mistakes in arranging the collection. It is brought up to the present time, having spaces provided for the Stamps of The Decan, Fiji Islands, Japan, &c., &c., also, for the new issues of Canada, Ceylon, Luzon, Norway, Prince Edward Island, United States Official, &c., &c.

It is bound in the strongest manner, by the most skillful workmen, with the best materials. The following styles and prices now ready:

EXTRACT FROM PREFACE.

"Special care has been taken to leave plenty of room for those governments that are still in existence, so as to accommodate future issues, and blank pages are left at appropriate intervals for the reception of Stamps from any countries that have not at present issued Postage Labels; but should any one desire additional leaves, specially designed pages to correspond with the body of the book are prepared for all new issues as soon as they are received. These are supplied by the publishers at a nominal rate, and can easily be inserted in their proper order by gumming them to the guards bound with the book for that purpose, thus making the Album PERFECTLY PERMANENT, and as good after ten years as one just published."

THE COATS OF ARMS OF THE WORLD.

This magnificent chart contains accurate representations of the armorial bearings of the nations of the world, all of which are beautifully and correctly emblazoned in gold and silver, and their true colors.

As a sheet for framing, it is an acquisition to any drawing room, and is indispensable in the library or study.

As a guide to determine the nationality of foreign coins or postage stamps, (most of which bear the issuing countries' arms), it will be found of great service. While cut up and inserted in stamp albums, they will be found to add much to the appearance of the page.

Printed on fine heavy paper for framing, or on the same quality of thin paper for inserting in albums. Price, 50c.

The above *fac-simile* of the International Stamp Album although reduced to one quarter the size, gives a fair idea of the appearance of this new album. The pictures illustrating the designs of every series, make the inserting of the stamps in their proper places so plain, that the youngest child can not possibly make a mistake. It contains a space for every stamp including some series which have been announced, but not yet issued, such as Finland, Phillippine Islands &c., ample space for new issues, and is printed, even the cheap editions, on the heaviest paper.
