Publishers' Preface.

We take pleasure in presenting to our friends and plate-number collectors generally, our second complete price catalogue and reference list. We issued our first on June 30, 1896, and as it was the first COMPLETE list from 1847 to 1896, ever published, it called forth many pleasing comments. The collection of U. S. Plate Number strips is now a regular branch of Philately, and one too that has been constantly increasing. The present list is as near correct as we have been able to make it. We have the assistance and co-operation of many philatelic experts, and in this connection we desire to thank Messrs. John N. Luff and J. M. Andreini for favors and suggestions offered. To Mr. Luff we owe considerable gratitude in the arrangement of the first six issues. He appears to be the best posted man in this country on the National and Continental series. We have been obliged to make considerable cuts in the early numbers of the "Bureau" plates. Quite a quantity have been turned up in the South and West in the past three months which accounts for these material reductions. We have this time quoted prices on all four sides of the "Bureau," as many collectors prefer it in this way. The prices are supposed to be a reflex of the present market quotations which are likely to advance in the near future. The list of "Bureau" numbers includes those printed up to almost the hour of going to press, and will be found to be correct. As many of these latter are intended for a reserve stock, it may be possibly a few months or more before they are to be had by the public at the different post offices throughout the country. As stamp dealers and publishers we have always in mind that famous Greek philosopher's line—" 'Tis not in mortals to commend success"—Sempronius. We'll do more—we'll deserve it.
