NOTE.

THE collection of the 1894-6 series of stamps (printed by the Bureau of Engraving and Printing), in strips of three, with the imprint and the plate number, has too firm a hold at the present time to require any explanation. We will simply state that the top or bottom strips are preferred to the side, and that the low value stamps are printed in panes of 400.

Triangle I will be found on all 2c. stamps up to and including No. 125, and also on No. 144. Triangle II will be found on Nos. 126, 131, 132, 133, 169 and on the three left hand rows of the two left hand panes of 170, the balance of the plate being Triangle III.

Triangle III will be found on all numbers above 133, excepting 144, 169 and part of 170 as stated above.

The dotted line under the No Water-mark and Watermarked lines, denote those stamps which are known to exist on the paper designated, and also serve as a blank in which to check off the stamp or mark prices.

Revised, March 3rd, 1896, by

J. M. ANDREINI,

NEW YORK.
