## PREFACE.

AS is usual with all publications, this work was undertaken "to fill a long felt want." Recently the number of inquiries for a work of this nature increased to such an extent that work was immediately begun on it, and in a very short period of time this publication resulted. Many well-known existing varieties of British North America Stamps, that have hitherto been omitted from works of this nature, will be found fully described and priced. Most of the information herein has been collected and made note of by myself during the past years in which I have made Canadian Stamps my especial study. I am well aware that, owing to the limited time at my disposal for the preparation of this edition, some errors may have crept in and many omissions made. This work however, being slightly erroneous, has been prepared for the purpose of providing the many specialists who collect only British North America Stamps, a handy reference table for the arrangement of their collections. Work will be commenced on the *second edition* of this work immediately, and I trust to have the next edition as near perfection as is possible. To this end I ask the aid of the purchasers of this edition. Some of the descriptions affixed to certain stamps in this edition are somewhat vague, but it is my intention in the future editions to have every description written in a full and clear manner, so that no ambiguity whatever may be left as to the respective identities of stamps. Some sets of stamps catalogued herein, including the Tobacco Stamps, C. P. R. Telegraph, G. N. W. Telegraph, etc., are, I know, not completely listed, but the information on hand would not permit me to give a reliable list of the other varieties of said sets. With the aid of the collecting public, I shall have all these sets fully listed. Any information regarding errors, omissions, etc., in this work will be thankfully received and rectified. Parties having stamps uncatalogued herein are requested, *if possible*, to submit me a specimen on approval, with any information regarding same, in order that I may secure an exact description. Stamps will be promptly returned. At the time of going to press, most of the stamps priced herein are in stock, but as it is *impossible* to keep a full line of all varieties *constantly* on hand, I would advise collectors ordering from this catalogue to always send a supplementary order, so as to avoid delay in receiving goods to the full amount of remittance. In cases where an asterisk (\*) is affixed to the price of a rarity, it signifies that such stamp is not in stock at time of going to press. Prices are for specimens in *good* condition. For *extra* fine specimens, special prices will be furnished. Postage 3c., extra on letters of enquiry and on orders under \$1.00. I cannot hold myself responsible for letters lost in the mail, and I would advise correspondents to have their communications of value registered. On orders over \$5.00 I register at my expense, below that at the expense of the purchaser. Remit by P. O. Order made payable to L. M. Stæbler, London, Ont. Every stamp sold by me is guaranteed genuine, and when necessary a written guarantee will be given. Rare Canadian stamps are always purchased at reasonable prices for spot cash. I extend my sincere thanks to my patrons for their former support, and trust that I will continue to merit the same in this and future publications.

## Part I.—Postage.

—:O:—

**ISSUES 1851-57.**—Canada proper began to issue stamps in 1851, and in this year three values were issued—3 pence, 6 pence, and 12 pence. The three pence was red, red-brown, and vermilion in color. Its design was that of a beaver, surmounted by a crown and the letters "V. R." in capitals; around this an oval frame, in which was inscribed the words "Canada Postage" above, and "three pence" below and a figure "3" in each corner of the stamp. The 6 pence was lilac, purple, black lilac or black in color. In design it had the profile of Prince Consort in oblong perpendicular frame, "Canada Postage" above and "6 pence" below, and a figure "6" in each corner. The 12 pence, the rarest stamp of the general issue of Canada Postage stamps, was black in color. In design it had the profile of Queen Victoria (crowned) facing to the left, "Canada Postage" above and "12 pence" below. Until the last year or so this stamp has been classed as an error, but it has been unmistakably shown by a good authority that such is not the case and that it is just as legitimate an issue as the 3d. and 6d.

**Issue of 1855.**—In this year a 10 penny stamp was issued, dark blue in color. Design: Head of Jacques Cartier in oval perpendicular frame, "Canada Postage" above, "10 pence" below, "8d Stg." in both upper corners, "10d. cy." in both lower corners.

**Issue of 1857.**—In this year the half-penny and seven and half-penny stamps were issued. The ½d. was pink, head of Queen Victoria to the left in oval frame, "Canada Postage" above and "half-penny" below.

The seven and a half-penny stamp was green in color, head of Queen Victoria to the left in an oval frame, similar to the 12 pence, "Canada Packet Post" above, "6 pence, sterling" below, "7 ½d." in upper and lower right hand corners, "6d. sterling" in upper and lower left hand corners.

**Issue 1858.**—In this year the ½, 3, and 6 penny stamps were issued perforated, and as the pence issue went out of use in 1858-59 they are, as a result, scarce. The pence issue is found on various kinds of paper and in many different shades, the principal of which are catalogued below:

**Issue 1859.**—Owing to a change in the currency of Canada from £. s. d. to \$ and cents, a new set of stamps was issued in 1859. The set consisted of five values. The designs and colors were like the equivalent values of the preceding issue. The one cent was like the half-penny, the five cent like the 3 penny, the 10 cent like the 6 penny, the 12½ cent like the 7½ penny, the 17 cent like the 10 penny.

**Issue 1864.**—In this year a two cent stamp was issued. It was of a similar design to the one cent; color pink. All of above were perforated.

\*EDITOR'S NOTE I.—Heretofore cataloguers have given the date of this issue on laid paper as 1870, but I have now conclusive proof that they were issued 1869, having seen specimens on original envelopes postmarked "1869."

*Issue 1870-90.*—In the year 1870 another set of stamps was issued. The design was the same as that of the previous issue excepting the fact that the size of the stamps was smaller. The values were ½, 1, 2, 3, 5, 6, 10. A 5c. of the 1868 design (large) was issued in 1875, while the small 5 cent was not issued until 1876. The 15 cent remained the same size as the 1868 issue, but was slightly changed in color in 1873 and has passed through other changes of color or shade since. The 1 and 10 cent have been found on laid paper but are very rare. We have seen most of the set on a *pelure* paper, but they are almost as scarce as those on laid paper. The set is ordinarily issued on wove paper.

\*EDITOR'S NOTE II.—Much controversy has been raised in regard to these stamps. It was thought by some to be a changing, but investigation has shown that it is not such and that the brown color was caused by a mistake in mixing the inks at the printing office. This same argument applies to the 2 cent brown Register.

†EDITOR'S NOTE III.—This stamp was replaced by the carmine 3 cent, but it is now (1892) again in general use.

‡EDITOR'S NOTE IV.—This carmine stamp was in use but a few weeks and is consequently one of the rarer shade, as but few were used.

REGISTRATION STAMPS.

In 1875 three denominations of registration stamps were issued. Shape, oblong. The value was printed in letters across each end, also in figures in the upper corners. The words "Canada Registered Letter Stamp" were printed in a sort of scroll across the stamp. The values were: 2 cent orange; 5 cent green and 8 cent blue. The 2 cent was also issued in error, the color by mistake being made brown instead of orange, and as but few of these stamps were issued they are *very* scarce. A few sheets of the 5 cent green were also issued unperforated by error. All of these stamps are printed on wove paper.

## OFFICIALLY SEALED.

In 1879, the Dead Letter Department issued an officially sealed stamp; it was used only at Ottawa. Color, brown. It had an inscription as follows, printed in one straight and two curved lines across the face in type of various sizes: "Post Office, Canada," "Officially Sealed," "Dead Letter Office."

No.	Date.	Value.	Color.	New.	Used.
116	1879		brown	\$1.50	\$2.50

## ENVELOPES.

*Issue 1860.*—In this year stamped envelopes were first used. Two values were issued—5 cent and 10 cent. The 5 cent was vermilion in color and the 10 cent was chocolate. The envelopes were printed on laid paper which was watermarked with lines running diagonally from left to right. Across these lines was the watermark, "Ca" and "P. O. D." The size of these envelopes was  $3\frac{1}{4}$  by  $5\frac{1}{2}$ . Very few of these were used and as a result are very scarce.

*Issue 1877.*—In this year two more values of envelopes were issued: 1 cent blue and 3 cent red. The size of the one cent was 3 by  $5\frac{1}{2}$ . There were two sizes of the 3 cent, one size being 3 by  $5\frac{1}{2}$  and the other  $3\frac{3}{8}$  by  $5\frac{3}{8}$ . The envelopes were watermarked with diagonal lines.

122	1877	3 cent	red (size 2)	.05	.02
123	1888	3 cent	bright carmine		

EDITOR'S NOTE V.—All prices quoted for envelopes are for square cut specimens; for entire ones special prices will be furnished on application. The 5 and 10 cent envelopes of 1860 are found with both round and pointed flap.

## NEWSPAPER WRAPPERS.

The first newspaper wrappers for Canada were issued in 1875. Very few were at first used and as a result the earlier issue are somewhat scarce. There were four different dies used for printing these wrappers, which are known as the die 1, die 2, die 3, and die 4. Die 1 was issued in 1875, die 2 in 1882, die 3 in 1887, and die 4 in 1892. Dies 2, 3 and 4 are but variations of the same die, while die 1 is a distinct design. Only one value of the wrapper was issued: 1 cent. The size of the paper they were printed on was  $4\frac{1}{2}$  by  $10\frac{3}{8}$ . We do not deal in wrappers to any extent and consequently do not quote prices.

## POSTAL CARDS.

*Issue 1877.*—In this year Postal Cards were first issued. They were printed on heavy paper  $3\frac{3}{8}$  x  $4\frac{3}{4}$ . There were two values—1 cent blue, for domestic use, and 2 cent green, for use to the United Kingdom. The 1 cent may be described as follows: Profile of Queen Victoria in a circle to the right, surrounded by a fancy frame; the words "one cent" below. At the left of this, across the top of the card, in capitals, was the inscription, "Canada Post Card," and below this, in type of a smaller size, the words, "The address only to be written on this side." Below this again in a script character was the word "To," followed by three ruled lines on which the address was to be written. All of the above is enclosed in an ornamental frame, which goes around the entire outside edge of the card. On the whole the design is a very neat and creditable one. Most of the above, (one cent blue) were engraved by the British American Bank Note Co., at Montreal, but by reason of a fire at the Company's establishment, the printing of some of these cards was done at Ottawa. The distinction between these two varieties is found at the lower portion of the card, where the Company's name is printed. Those printed in Montreal have the name "Montreal," while those printed in Ottawa have the words "Montreal and Ottawa" after the Company's name. The latter are somewhat scarce.

I have the 1 cent card of 1877 in a light yellow green color, but I am strongly inclined to believe it has been changed by means of acid.

The 2 cent green is similar in design to that of the one cent, with the exception that it has "Canada Post Card" in a curved line instead of a straight. It has in addition the words, "To United Kingdom," below.

*Issue 1881.*—In 1881, a new two cent Post Card for foreign use was issued, its use having been authorized by the Postal Union Treaty. In design it was almost the same as the "United Kingdom card, also being the same color—green.

*Issue 1883.*—In this year two new varieties of Post Cards were issued. They were a little larger than the former issues. The design was like die 2 of the wrappers, which was in use at that time. There was no border on the card. The paper was better than in the former issues. The inscription was the same as before, with the exception that the word "only" was omitted from the second line. The first of the two varieties issued was the 1 cent blue and 1 cent black reply card.

*Issue 1885.*—This year the reply card was issued in error, the stamp being printed in the upper left-hand corner, instead of the upper right-hand corner. These, however, are very scarce, as the Government stopped the issue) and but few were circulated.

*Issue 1887.*—Two new cards were issued this year, the design being like die 3 of the wrappers.

*Issue 1888.*—In this year the reply card was changed to a very dark shade of green.

*Issue 1892.*—The die of the 1 cent blue was changed this year to correspond with that of the 1 cent wrapper. The change was made by cutting away the

scroll-like ornaments that surrounded the numerals at the side of the die.

## THE PROVINCES.

## BRITISH COLUMBIA and VANCOUVER ISLAND.

This Province first issued postage stamps in 1861. The first stamp issued was the 2½ pence, which may be described as follows: Head of Queen Victoria to left in centre of stamp; "British Columbia" at the top and "Vancouver Isle" at the bottom both in two lines; on the left hand side "Postage" and on the right hand side in two lines, "Two Pence Half-penny." The stamp was in color pink. It is found both perforated and unperforated. In 1865, a 5 and a 10 cent was issued for use in Vancouver Island only. They were both of the same design and may be described as follows: Head of Queen Victoria to left in circle; "Vancouver Islands" above and value in words below. The color of the 5 cent was rose. The color of the 10 cent was blue. Both the 5 and 10 cent stamps are found perforated and unperforated.

In 1864 a 3 penny stamp was issued. The centre of the stamp was occupied by an oval scroll on which were the words "British Columbia Postage, Three Pence." Inside the space inclosed by the scroll was a Roman numeral "V," surmounted by a crown. Perforated; color blue.

*Issue 1868.*—In this year stamps were printed from the above plates of the three penny, in colors, and surcharged the value in cents. Research has disclosed the fact that all British Columbia stamps are all watermarked "Crown and C. C."

## NEW BRUNSWICK POSTAGE.

The next of the provinces whose postage stamps will occupy our attention is New Brunswick. This province issued its first postage stamps in the year 1851, and continued to issue them until 1863, a period of about thirteen years.

*Issue 1851.*—In this year there were three issued, valued at 3 pence, 6 pence and 1 shilling. The design was that of a crown in the central part of the stamp, with a rose at the upper and lower parts of the stamp, a shamrock on the left hand side and a thistle on the right. On the two upper sides were the words "New Brunswick," on the two lower sides "Postage," and the value in words. These stamps were all lozenge-shaped. The postmasters often ran short of 3d. stamps, and to remedy their wants they cut the sixpennies diagonally in two and used the halves for 3 pence. For colors of above stamps, see reference list.

*Issue 1860.*—In this year the necessity for a new issue was occasioned by a change of the currency from £. s. d. to \$ and cents. The designs of this issue were novel and various. The set were all alike in one particular—having the words "New Brunswick Postage" and the value in words in an oval. In this oval the various designs were enclosed. The design of the one cent was a train of cars; the five cent, head of Queen Victoria; the ten cent, same as five cent; the twelve and a half cent, a steamship; the seventeen cent, head of the Prince of Wales. For colors, see reference list.

*Issue 1861.*—In this year the rarest of New Brunswick stamps was issued. This was the celebrated "Connell" stamp, named after its designer. (One cause of the high prices of New Brunswick stamps of the pence issue may be said to be the great St. John fire, in which thousands of these stamps were destroyed. This, to more or less extent, accounts for their scarcity. Of the cent issue large quantities of remainder exist, the Government having sold them to stamp dealers, when the province began to use the stamps of Canada.) Proofs of this stamp are plentiful and can be bought for from \$3 to \$5. The original is one of the rarest of stamps.

*Issue 1863.*—Two cent orange. Similar design to 1860 issue. Head of Queen Victoria.

This stamp in used condition is not only the rarest of Canadian stamps but it is also among the rarest of the stamps of the world. It goes by, and is known by the one name, the word "Connell," which is familiar to collectors of all nationalities. The history of this stamp may prove interesting to some readers of this Catalogue, and for their benefit we give it. The Honorable Charles Connell was appointed Postmaster-General of New Brunswick in 1860, a gentleman who, it is said, was well-known for his many sterling qualities, genius and benevolence. Shortly after his appointment to the Postmaster-Generalship, Mr. Connell saw that there was room for improvement in the postage stamp of his province. Mr. Connell himself designed the stamps, and had them engraved by the American Bank Note Co. The stamp arrived and proved to be among the best and most handsomely designed stamps then in existence. But he had dared place his own portrait on the five cent, which brought results. The stamps arrived and were issued to the public, but alas, the unfortunate Mr. Connell had, in the eyes of her Majesty's lieges of New Brunswick, committed a frightful crime. That he, a mortal

created man, a descendant of Adam and Eve, should dare to engrave his honest countenance on a similar piece of paper to that on which the Majesty of that broad domain, on which the sun never sets, depicted. A mass meeting, presided over by the political opponents of Connell, was instantly called, and it was resolved to request Mr. Connell to resign, and Mr. Connell dashed the reigns of the Post Office department back into the face of the Governor, and retired at once and forever from the political arena.

This stamp was used but one day, and was withdrawn from use on the evening of the day of issue. A very few copies passed through the mail. The balance were destroyed. Used specimens are occasionally found which have the cancellation forged. Great care should be exercised in the purchase of any seemingly used specimens.

EDITOR'S NOTE VI.—There are many other provisional stamps of British North America Provinces, but they will be fully described in a separate work shortly.

## NOVA SCOTIA.

Next in order come the stamps of Nova Scotia. This province began to issue stamps in the same year as New Brunswick, viz., 1851.

*Issue 1851.*—Three values were issued during this year, 3 pence, blue; 6 pence, green; 1 shilling, violet. The stamps were lozenge-shaped, a crown occupied the centre, above the crown a rose, below it a may-flower, at the right hand side a thistle and on the left a shamrock, on the two upper sides the words "Nova Scotia," on the two lower sides "Postage" and the value in words. In each corner was the value in figures.

*Issue 1853.*—In this year the one penny stamp was issued. Design:—Head of Queen Victoria in a lozenge-shaped frame, "Nova" above, "Scotia" below, "Postage" on the right and the value in words on the left, and the value in figures in each corner.

*Issue 1860.*—A change in the currency caused a new issue for this Province in early part of 1860. The set consisted of five values:—one, five, eight-and-one-half, ten and twelve-and-one-half cent. The one cent and five cent were of like design, hav-

ing head of Queen Victoria to left in circle. The other three values were very similar in design, but had a full-face portrait of the Queen. For colors, see reference list.

*Issue 1862.*—In this year the want of a two cent stamp became apparent, and to fill it a two cent stamp was issued, color mauve, and of the same design as the one cent of the 1860 issue. The stamps of Nova Scotia are found in a great variety of shades, and as a result furnish material for the most strict specialists. The three pence blue and five cent blue are both found on two varieties of paper, blue and white.

*Counterfeits.*—Counterfeits of the cent issue were put into circulation about five years after the issue went out of use, but so poor are these imitations that no one with any knowledge of the stamps would be apt to be deceived by them. For the benefit of the beginner and young collector we give the main points of difference between the genuine and the counterfeit.

#### 1, 2, AND 5 CENTS.

*The genuine* is most beautifully engraved in *taille-douce*, more than one-half of the lower part of ear being plainly visible; the central passage is especially marked for its distinctness. There is no pupil to the eye; the head stands out well from the background; the nose is aquiline; the face has a sleepy but good-natured expression. Only one pearl of the tiara is visible, and that is barely seen above the hair. The genuine is perforated 12.

*The Forgery* is very poorly lithographed; only the lobe of the ear is visible; the head is flat, and does not stand out from the background; has a dark outline to the profile of the nose, mouth and forehead, which is not seen in the genuine; the eye has a pupil; the expression of the face is strong, and the outline of the nose is *straight*. All the pearls of the tiara are equally visible, but no very distinct. The forgery is perforated 12½.

#### 10 AND 12½ CENT.

*The Genuine* is beautifully engraved in *taille douce*. The eyes are small, with a distinct pupil; the eyebrows are light, especially at the outer corners; the hair is dark and regular; the genuine perforated 12.

*The Forgery* is very poorly lithographed. Very large dark staring eyes, with a dark iris, but no pupil is visible; the eyebrows are equally dark all over, and they meet over the nose; the hair has patches of light all over it; the forgery is perforated 12½.

We occasionally come across one of the forgeries, but they are easily distinguished with but little examination. It is a good example of the inability of the forgers to imitate steel and copperplate engraving with lithographs.

### PRINCE EDWARD ISLAND.

*Issue of 1860.*—In this year Prince Edward Island issued its first postage stamps. Three values only were issued during this year:—2 pence, 3 pence and 6 pence. The 2 penny stamp was rose in color, and had the head of the Queen to the left in a circle, and around this circle were the words "PRINCE EDWARD ISLAND POSTAGE," and across the bottom the value in words. The design of the 3 pence was similar to that of the 2 pence, having the head of the Queen in an oval frame; color, blue. The 6 pence was green in color, and had the head of the Queen in an octagonal frame. The above stamps are perforated nine.

*Issue of 1862.*—In this year a 1 penny and a 9 penny stamp was issued, the design being similar to that of the 1860 issue. The color of the 1 penny was buff, while that of the 9d. was lilac. At the same time, of the issue of the two new values, the 1860 issue was reissued with these, all perforated with smaller perforations than were used on the issue of 1860.

*Issue of 1869.*—A 4 penny stamp was issued in this year, color black. It had the head of the Queen to the left; "Prince Edward Island Postage" across the top in two curved lines; across the bottom "Four Pence."

*Issue of 1870.*—A 4½ pence currency stamp was issued in this year; it has a full face portrait of the Queen in oval frame, surrounded by the words "Prince Edward Island Postage," and across the bottom "3d. sig. by 4½d."

*Issue of 1871.*—Owing to a change of the currency from pence to cents, a new set of stamps was issued in this year. The 1 cent was orange in color, and had the Queen's head in a circle, surrounded by "Prince Edward Island Postage," and the value across the bottom in words, and in each corner the figures. The 2 cent was blue, and had the head of the Queen in oval frame, "Prince Edward Island Postage" in a half circle at the top, value across the bottom in words, and in each corner in figures. The 3 cent was rose, and had the head of the Queen in an irregular circular frame, "Postage" across the top, and below this in a curved line, "Prince Edward Island Postage," across the bottom the value in words, and in both upper corners the value in figures. This stamp was issued in error, and is found with period after "Prince" in the inscription, but is very scarce. The 4 cent and 6 cent were of similar design, having the head of the Queen in irregular fancy frames, "Postage Prince Edward Island" across the top in two straight lines; value in words across the bottom, and value in figures in each corner. The 12 cent was mauve in

color, and had the head of the Queen in a circle, "Prince Edward Island Postage" above in a curved line, and value in words across the bottom, and in figures in both upper corners.

EDITOR'S NOTE VII.—The date hitherto given to the 1d. and 3d. (1861), by Canadian cataloguers is an error, as the stamps were issued in 1862. All the catalogues issued in the early part of 1860, (Dexter's, page 36), Mt. Brown's (page 47), etc. They are also described in Dr. Gray's handbook, which was issued in 1862; it fully describes the 1d. and 9d. Therefore, as a result, the date of issue must be at the latest 1862.

### NEWFOUNDLAND POSTAGE.

*Issue 1857.*—The first of Newfoundland stamps were issued in this year, and this, the first issue, consisted of nine values. The shape of the one and five penny values was square. The design consisted: A crown in the centre, with a shamrock, thistle and two roses at each corner; "Newfound" on the right, "land" on the left, "St. Johns" at the bottom, "Postage" and the value in words, and the value in each corner in figures. The 2d., 6d., 6½d., 8d., and 1 shilling were all of a rectangular shape, the design consisting of a bunch of roses, a thistle and a shamrock, on a light background in the centre of the stamp. Above this was "St. Johns, Newfoundland" in a curved line, at the bottom "Postage" and the value in words; the value in figures in each corner. The 3d. was triangular in shape, having a rose, shamrock and thistle in the centre, "St. Johns, Newfoundland" along the upper sides, "Postage, Three Pence" across the lower side.

EDITOR'S NOTE VIII.—The above are generally found unwatermarked, but I have seen sheets of the 2d., 4d., 6d., 6½d., 8d., and 1 shilling, lake, watermarked.

*Issue 1866.*—In this year the currency was changed from pence to cents, and as a result a new series of stamps were issued, and consisting of various designs. The 2 cent had a codfish on it; the 3 cent, a seal; the 10 cent, the Prince of Wales; the 12 cent, head of Queen Victoria, to the left; the 18 cent, a sailing vessel; and on the 24 cent was a full faced portrait of Queen Victoria crowned.

*Issue 1868.*—In this year one cent lilac was issued, and in design it had a portrait of the Prince of Wales as a boy in Highland costume, "One Cent" in a scroll above. An oblong frame surrounded the centre in which was "N. F." in capitals at the top and "Newfoundland" below, and "1" in the two lower corners.

*Issue 1870.*—Three cent vermilion, portrait of Queen to the left in widow's cap. "Three, Newfoundland" in two lines in scroll above, "3" in each upper corner, "Three Cents" below and a star in each lower corner. A six cent rose was also issued, being of like design. In 1873 the three cent was issued in blue.

*Issue 1876.*—The 1 cent violet-brown, 2 cent green, 3 cent and 5 cent blue were issued rouletted.

*Issue 1880.*—Four new stamps appeared; the 1 cent lilac-brown had Prince of Wales in Highland costume, surrounded by an oval frame in which was: "Newfoundland" above, "One Cent" below, "N." in upper left hand corner, "F." in upper right, the figure "1" occupied the two lower corners. The 2 cent was green, with a codfish in the centre, "Newfoundland" in a scroll above. "Two Cents" in a reverse scroll below, numeral "2" in each lower corner. The stamp was oblong in shape. The new 3 cent blue, which was issued in this year, had head of Queen in widow's cap to the right. "Newfoundland" in a scroll above, "Three Cents" in straight line below, and "3" in a small circle at both upper corners. The 5 cent blue was similar in design to the 2 cent—a seal occupied the centre, "Newfoundland" in semi-oval above, "Five Cents" in straight line below, "5" in circle in each lower corner.

*Issue 1887.*—The ½ cent was issued in this year, and consisted of a dog's head, surrounded by a circle in which was inscribed "Newfoundland" above, "Half, ½, Cent" below; color red. The color of the 1 cent was changed to green, that of the 3 cent to brown and that of the 2 cent to orange. A 10 cent was also issued this year; color black, oblong in shape, a ship occupied the centre, "Newfoundland" in semi-oval above, "10" in circle at each side, "Ten Cents" below.

*Issue 1890.*—A new 3 cent was issued in this year, color slate. Head of virgin Queen to left, surrounded by small circle inscribed "Newfoundland." "3" in each upper corner, "Three 3 Cents" in small scroll below.

#### ENVELOPES.

Newfoundland issued her first envelopes in 1889. Two values were issued, 3 cent violet and 5 cent blue. They were both of similar design, having embossed head of Queen Victoria to the left in centre, and "Newfoundland Postage" and value in words around the outside.

No.	Date.	Value.	Color.	New.	Used.
258	1889	3 cent	violet	.08	
259	1889	5 cent	blue	.12	.08

#### WRAPPERS.

The first wrappers were issued the same year as the envelopes, and consisted of three values—1 cent green, 2 cent carmine and 3 cent brown. Head of Queen Victoria to the left in centre, "Newfoundland" above, value in words below.

## Part II.—Revenues.

THE Revenue stamps of British North America, are among the most tastefully designed, and most finely engraved stamps in existence, and the demand for them is becoming greater day by day, and the prices are accordingly rapidly advancing.

### Bill Stamps.

#### CANADA.

The first Bill stamps were used in Canada in 1864, and they were in constant use for a period of eighteen years, until 1882, when the law authorizing the collection of this tax was repealed.

*Issue 1864.*—Seventeen varieties were issued in this year, all being blue in color, and all of similar design. In shape they were almost square, with head of the Queen facing to the left in an oval perpendicular frame, "Bill Stamp" above, "Canada" below, and at the bottom the value in words, with the value in figures at the upper corners. The \$1, \$2 and \$3, are somewhat larger than the lower values. This issue is found both perforated and unperforated, but great care should be exercised in purchasing the unperforated specimens, to see that they have WIDE margins all around, for owing to the rarity of these unperforated specimens, unscrupulous parties have been offering perforated specimens with clipped perforations for unperforated. These are, however easily told, as the margin will be found very narrow on one or more sides; all specimens I furnish have wide margins, and are guaranteed genuine.

*Issue 1865.*—The second issue took place in the year following, viz:—1865. This issue is by far the most interesting of the three issues that took place. It embraces nineteen varieties of various colors and designs. The 1, 2, 3, 4, 5, 6, 7, 8 and 9 cent were scarlet in color, oblong in shape. The design was that of the head of the Queen in a perpendicular oval facing to the left. The words "Canada Bill Stamp" were across the top of the stamp in two slightly curved lines. The value in words occupied a straight line across the bottom, and a little above this at either side in figures. The 10, 20, 30, 40 and 50 cents were blue, and the 30 cent is also found in a rich scarlet color, shape oblong. They had head of Queen to the left in an octagonal frame, the words "Bill Stamp" above in a curved line, "Canada" and value in words in two lines across the bottom, value in figures in each of the upper corners. The one, two and three dollars were of similar design. These values had the head of the Queen to the left in a circle, "Bill Stamp" above, "Canada" below, and the value in figures in each upper corner. The 30 and 50 cent of this issue are both found in unperforated condition. Unsevered pairs of the above stamps unperforated are found in collections of Mr. F. Ineson, Carleton West, Ont., and Mr. J. S. Robertson, St. Thomas, Ont. It is

possible that the 10, 20 and 40 cent are also found in like condition. I should like to hear from any parties who have unsevered pairs of the same. These stamps are among the rarest of Canadian Revenues.

*Issue 1869.*—The third and last issue occurred in this year. The 1, 2, 3, 4, 5, 6, 7, 8 and 9 cent were of like design, having head and shoulder profile of the Queen with widow's cap; chin resting on right hand in frame; "Canada" above, "Bill Stamp" below, value in figures in upper corners, and in words at bottom. The 10, 20, 30, 40 and 50 had bust of Queen in similar position, the same in the lower values, but enclosed in a circle instead of a rectangular frame. Above the circle the words "Canada Bill Stamp," and below at either side the value in figures, and across the bottom the value in words. The \$1 had the bust of the Queen, same as in other values enclosed in a circle, at the top "Canada," at the bottom "Bill Stamp," at the top "One Dollar," and on both sides "\$1," and across the bottom the value in words; the \$2 and \$3 were of similar design. This issue is also found on pelure paper.

## NOVA SCOTIA.

In 1869 the government surcharged the whole set of bill stamps, at that date current, "N. S." in fancy black capitals. The stamps were all surcharged at the top with the exception of the \$1, \$2, and \$3, which were surcharged at the bottom. These Nova Scotia bill stamps are found on both wove and pelure paper.

## WEIGHTS AND MEASURES.

Weight and Measure stamps were first issued in 1876, and they consist of eleven values (1, 2, 5, 10, 15, 20, 30, 50 cents and \$1, \$2, and \$3) and thirteen varieties. These stamps are two inches long and three quarters of an inch wide. We may describe them as follows: A blank space in the centre in which the registered number is printed, above this the word "Weight," below "Measure." The upper part of the stamp is occupied by a crown, surmounted by an irregular frame. In the lower part of the stamp is an oblong frame in which is the value in figures, surrounded by a fine scroll engraving. The registered numbers is sometimes printed in blue and sometimes in red, and it is also found printed across the top as well as the bottom. Various sized type is used in printing these numbers.

Gas Inspection Stamps.

The Gas Inspection stamps first came into use in 1876, and are still in use at this date. These stamps are used by the Gas Inspectors, to affix to certificates given the Gas Companies as to the quality of the gas. They are kept filed away on the certificate for reference, and as a result they are somewhat difficult to procure. The Gas stamps are of the same size, perforation and design as the Weight and Measure stamps. The set consists of nine values, as follows: 5, 25 and 50 cent, \$1.00, \$1.50, \$2.00, \$3.00, \$4.00 and \$10.00. The registered number is printed in red in the centre, and is found printed in type of various sizes.

Supreme Court Stamps.

The set of Supreme Court stamps consists of six values, 10, 20, 25 and 50 cent, \$1.00 and \$5.00. They are all blue in color, and are the most finely engraved stamps ever issued by the Canadian Government. They are large in size, being three inches long and one and three-eighths inches in breadth. The value in figures is across the top and bottom in an oblong frame; in the centre a circle five-eighths of an inch in diameter in which is the Queen's head crowned; above the circle the word "Canada," below "Law Stamp"; between the head and value at the bottom, in a scroll, is the registered number in red, and just below this, in a scroll, is the value in words.

Law Stamps.

The Law Stamps of Canada are among the most numerous, beautiful and finely engraved stamps issued by the Canadian Government. Law stamps are used at present in most of the Provinces, and are used for affixing to writs, summonses, etc., and documents filed by the Court. The first Provinces that have issued Law stamps are British Columbia, Manitoba, New Brunswick, Ontario, and Quebec. The first Province whose Law stamp I will take up is that of British Columbia.

BRITISH COLUMBIA.

By an Act of Parliament in 1879, British Columbia issued her first Law Stamps, and to the present date seven varieties have been issued. The stamps are oblong in shape, and in design consist of: full length figure of Justice holding aloft in one hand a pair of balances, and in left hand a sword pointing downward; at the top the words "Br. Columbia Law Stamp" in two curved lines. The value in figures occupied each lower corner, and betwixt these was the value in words.

## NEW BRUNSWICK LAW.

The first Law Stamps for this Province were authorized and issued in 1884, consisting of four values, and to date five varieties have been issued. In design they were somewhat similar to the British Columbia Laws, having figure of Justice with pair of balances in right hand and sword in left; value in figures and words at the bottom. The 10, 20 and 50 cents and \$2.00 were issued 1884, color blue on white paper. In 1887 the 20 cent was reissued, this time being printed in red instead of blue.

## MANITOBA LAW STAMPS.

The law Stamps of Manitoba were first issued in 1887, and to date nearly 50 varieties have been issued. The design of the 10, 20, 25 and 50 cents are all similar, being oblong in shape. The color of all the values was green. The design consists of a frame occupying the centre, in which is a full length figure of Justice standing on a pillar and holding a pair of balances in her right hand above her head, while in her left hand she holds a sword, the point of which rests on the ground; down either side of the stamp runs an ornamental scroll; across the top, in two curved lines, are the words "Manitoba Law Stamp"; in each of the lower corners is the value in figures, and betwixt the two numerals the word "cents."

The designs of the \$1 and \$2 stamps were somewhat different from those of the lower values. The figure in the centre was the same, the difference in design consisting in the difference in the position of the wording. In each of the upper corners, in a rectangular frame, was the numeral of value, with the "\$" sign at the right hand side of the numeral. Between these two frames, in another frame, was the word "Dollar" in small capitals. Beneath this, in a curved line, was the word "Manitoba," and below the frame surrounding the figure of Justice, were the words "Law Stamp." Each value of these stamps is surcharged in various letters signifying the particular purpose for which the stamp was used. The surcharge consists of large black capitals about one-half inch in height. The surcharges and their signification are as follows: C. F., Court Fees; L. S., Law Societies; J. F., Judges' Fees; B. F., Bailiffs' Fees.

UPPER CANADA LAWS.

The first Law Stamps issued for Upper Canada (Ontario) were issued in 1864. The stamps were large in size, and were in design as follows: blind-folded figure of Justice holding balances over her head with right hand, and a sword pointed downward in her left; enclosed in a rectangular frame "Canada" down the right hand side, "Law Stamp" down the left, these words being surrounded by an ornamental scroll work. Above the frame inclosing the figure of Justice was a blank space with engraved groundwork, for the surcharge. At the upper corners of the stamps, in frames, was the value in figures, between this the value in a *word*, at the bottom of the stamps was the value in *words*. The color of the values from 10 to 90 cents, inclusive, was green, the 1, 2, 3, 4 and 5 dollars was green with black centre. The design of the dollar values was slightly different to that of the lower values. This series of stamps was surcharged in the blank space just above the figure of Justice with the following surcharges:— F. F. (Fee Fund), L. S. (Law Society) and C. F. (Consolidated Fund).

ONTARIO LAWS.

When the green Upper Canada Law Stamps went out of use in 1870, they were superseded by the Ontario Laws. The design of this set was identical with the design of the Manitoba Laws. These stamps are found in two colors—carmine red and vermilion.

LOWER CANADA LAWS.

Lower Canada (Quebec) issued the first Law Stamp in 1864. The values, colors and designs of the set was the *same* as the set issued in the same year for Upper Canada, the only difference being in the surcharge, which in this set was L. C., being printed in red.

### QUEBEC LAWS.

The L. C. green Laws went out of use in 1870, and were succeeded by another set of Laws somewhat similar to the set issued by Ontario in the same year. The design was; full length figure (not blindfolded,) occupying the centre, above this, in one straight line across the top the words "Law Stamp," between the words and top of figure of Justice was the value in figures and words; "Quebec" across the bottom in one straight line; a circular ornament occupied each corner. The design of the dollar values was slightly different from that of the lower values. It had value in words in curved line across the bottom, across the top in one straight line the words "Law Stamp," below this in a curved line was the value in figures, and the word "Dollar" as in other values, the figure of Justice occupying the centre, down the right hand side the words "Quebec," down the left "Province." In 1889, 3 more values were issued, values 10, 20 and 30 dollars; only a *very few* were issued, and they are, as a result, very scarce.

\*EDITOR'S NOTE.—Only 500 each of these two stamps were issued, as it was found that the \$10 would fully answer the demand.

### QUEBEC LICENSES.

Up to date of issue we only know of one of the Quebec Law Stamps, that is the *Two Dollar Brown*, which was issued in 1889, length  $1\frac{1}{4}$  inches, width about 1 inch. Across the top in a curved line the word "Licenses," in the centre a large figure "2," and above this in a curved line the word "Two," below "Dollars." This is surrounded by circular and

ornamental scroll engraving; across the bottom the word "Quebec" in an oblong frame. This stamp is used for the transfer of Licenses.

### QUEBEC LAW REGISTRATION.

These stamps were first issued in 1866 and are used on all documents which are filed in the registry offices. The first issue of these registration stamps was square. The value, in white figures, occupied the centre, being surrounded by a circle on which was inscribed the words "Registration, Lower Canada." A maple leaf occupied each of the upper corners; a leaf each of the lower corners, and between the leaves was the word "cents." This set of stamps is found in two colors, *brown* red and *vermilion*. In 1871 a new set came into use. A beaver, facing the left, enclosed in a circle, occupied the centre. Across the top, in a straight line, the word "Registration." Below this, in a curved line, the word "Quebec," and in a circle, at each end of the line, the value in figures; across the bottom, in a straight line, the value in words.

### QUEBEC ASSURANCE STAMPS.

These stamps were first issued in 1876. The cent values were green in color, the dollar values lilac. The design consisted of the word "Quebec" in white, enclosed in an oval shaped frame. Above this, in two curved and one straight line, the words "Assurance License Stamp"; below the oval frame the value in figures, and below this the value in words.

# Tobacco Stamps.

## PROVISIONAL SERIES.

Although these revenues are not collected by some, still most of the foremost collectors take some interest in them, and for their benefit we undertake the attempt of describing and listing the early issues of these almost unknown stamps. Prior to 1864 no tax was imposed on tobacco, but in that year it was first taxed (see Act 27 and 28 Vic., Chap. iii.) At this date a quantity of tobacco was on hand which, according to law, was exempt from tax, and to mark this the first tobacco stamp was issued. The stamp was diamond shaped and printed in green. There were two varieties, one with D in the angles, for use on dutiable tobacco, and one with M for use on manufactured tobacco. Description of stamp is as follows: Diamond shaped, about four inches square; a crown above, with a beaver in a small oval below the crown: this (above) encircled by a garter inscribed "Tobacco—27 and 28 Vic., Chap. 3, 1864, Inland Rev. of . . . Date . . . . . Description . . . . . Gross Weight, lbs. . . . . Net Weight, lbs. . . . . Coll. J. R." These stamps were both printed on plain white paper. At the same time as the above, another stamp of same design, etc., was issued, but instead of "gross weight, lbs" it had the inscription "Cigars, value per M." These are found on blue laid paper, with "D" in angles; white wove with "D" in angles; and white wove with "M" in angles.

*Issue 1868 (Jan. 1).*—This stamp is similar to No. 1, but instead of "August 1, 1869" it has "Dec. 12, 1868," and was issued for use to Prince Edward Isle, Nova Scotia and New Brunswick; after their confederation with Canada, "M" in angles; color green, printed on plain white paper. This same stamp was also issued on above date, but having instead of "Gross Weight, lbs . . . Net Weight, lbs . . ." it had "Cigars, value . . . per M." Letter "M" in angles on thin watermarked paper.

## GARTER SERIES.

For use in customs, there was issued in 1865 a stamp of the same design as the first tobacco stamp described. It had this garter inscription: "Tobacco—27 and 28 Vict. Cap. 3—Customs, Canada. Within this garter, "Port of . . . entry, No. 18, Description . . . . . Gross Weight, lbs . . . . . Net Weight, lbs. . . . . Coll. Cust." This stamp was printed in blue on blue laid paper, blue on salmon colored paper, and blue on plain white paper. This stamp was issued in error the same year, having "excise" instead of "Customs," "Coll. J. R." instead of "Coll. Cust." It was used as a customs stamp; printed in blue on blueish laid paper. The former of these two last mentioned stamps is found with the following within the garter: "Port of . . . . . entry, No. 18. . . . . Cigars, value per M . . . . . Coll. Cust." Printed in blue on blue laid paper, and blue on pale rose-tinted paper. In 1867 we were presented with another stamp of the same pattern, with the garter inscription, "Tobacco—27 and 28 Vict. Cap. III.—Excise, Canada," within the garter, "License No. . . . . Inland Rev. Division of . . . . . Date when excised . . . . . Warehouse entry No . . . . . Description . . . . . Gross weight, lbs. . . . .

Net weight, lbs." Printed in black on thin watermarked paper, and salmon tinted paper. Printed in red on white, on salmon tinted, and on thin watermarked paper. Another stamp was issued in 1865, same as the last, but having within the garter, "License No. . . . . Inland Rev. Division of . . . . . Date when excised . . . . . Cigars, value per M. . . . . Coll. J. R." Printed in black on salmon tinted paper and plain white paper, and in red on plain white paper. These comprise the early issues of Canadian Tobacco Stamps, which are now very difficult to obtain in anything like fair condition, especially the ribbon stamps, as they were printed on very thin paper, and glued on in a way evidently not intended for the accommodation of stamp collectors, and requiring patient soaking with warm water to get them off entire. My information regarding the later issues of these stamps is not yet as complete as I would like to have it and for that reason I have decided to hold what information I have, and may be able to secure, over for the second edition of this work. Any collector able to supply reliable information regarding these would confer a great favor by forwarding me the same. I am convinced that the following reference list of the early issues is one that can be thoroughly relied upon:

## Part III.—Local and Telegraph.

### CORBEIL'S PRIVATE POSTAL SERVICE.

IN 1889 the Canadian Government issued an Order-in-Council raising the rate of postage on city letters from one to two cents. This order was received with a great deal of dissatisfaction, especially among merchants in the larger cities. It was this that led to the issue of the Corbeil Local, of Montreal. The following is a copy of the circular sent out to the leading merchants by the proprietor of the post :

BELL TELEPHONE, No. 2463.  
PRIVATE POSTAL SERVICE.

Sir.

In order to reduce the *extra* charges by the Postal authorities for the CITY DELIVERY, we have concluded to open an Office for the delivery of letters at ONE CENT EACH, for which we will issue our private stamp so as to facilitate settlements. Every one will have to sign forms of reception as proofs of good and efficient delivery.

Hoping to be favoured, we will call on you in a few days for your signature.

Truly yours,

J. A. CORBEIL,

Manager of the Private Postal Service

OFFICE :  
At the Montreal Indian Store,  
1658 Notre Dame Street.

The stamp consisted of the signature of the initials of the proprietor, "J. A. C.," written across the centre of the stamp in black ink. The stamp was about  $\frac{3}{4}$  of an inch square, and consisted of thick blue wove paper, *Perforated*. As the initials of each stamp were written separately *no two stamps* are exactly the same. This post had but a short existence, as the Postmaster at Montreal made complaint to Ottawa, and the authorities stopped its operation.

### BANCROFT'S MONTREAL CITY EXPRESS.

This stamp I found for the first time, the month of issue of this catalogue, and my information regarding it is limited. The stamp is finely engraved, and printed in blue on white paper. In design it consists of the head of, I suppose, Mr Bancroft; a white space above and below this head. In the space above, the word "Bancroft's," below the head the words "City Express." In each upper and lower corners of the stamp was the figure "5"; across the top, in a straight line, the words "five cents." Down the left hand side were the words "43 Gt. St. James St." On the right hand side two small stars and the word "Montreal"; across the bottom the words "five cents."

### THE G. N. W. TELEGRAPH CO. FRANKS.

There has been but little known of these stamps which, as far as beauty goes, are quite equal to those in use by the Telegraph Companies of the United States. They are all the same in design, the only difference in the varieties is that they are printed in a different color each year, and the date on the stamp is changed. In design they consist of "Great North Western Telegraph Company," in a half circle; inside this, a little lower, the words "of Canada"; below this, in two straight lines, "'Frank,' 'No'"; and below this again a blank space, in which is printed the registered number. In a curved line across the bottom, "Complimentary"; above this a facsimile signature of H. P. Dwight, the Vice-President and General Manager; at the top in each corner, the date; between the two dates the word "the." The groundwork of the stamp is composed of fine engraved lines.

### C. P. R. TELEGRAPH FRANKS.

The design of the C. P. R. Franks is an unique one. It consists of a *map* of North America in a circle, around which are the words "Canadian Pacific Railway" above, and "Telegraph" below; half of the date at each side of the map. Below the circle was the signature of the manager, and below this, in one straight line, the word "Complimentary"; at the top of the stamp the word "Frank," and below this the registered No. in red.

My list of these stamps, I am aware, is not complete, and should feel grateful to any readers of this catalogue who can furnish me with correct information of the whole set.

## “The Stamp Collector's Companion.”

A little manual, *full* of interesting and valuable information to the collector, information which will save the collector many dollars. A large part of the information has been obtained by dearly bought experience. It contains information in regard to every corner, branch, etc., of stamp collecting. Hints on arrangement, mounting, and purchasing of stamps; “How to distinguish dangerous forgeries of various rare stamps.” This last is of great value to the purchaser of scarce stamps, as it gives the characteristic and distinctive points of difference between the genuine and the forgery. Information regarding forged cancellations also added. Many equally useful paragraphs are added. It will pay for itself in *five minutes' use*. Every sentence is *full* of meaning. Order now. For sale at our office at the remarkably low price of 10 cents, or 11 cents post free.

## Part III.—Local and Telegraph.

### CORBEIL'S PRIVATE POSTAL SERVICE.

IN 1889 the Canadian Government issued an Order-in-Council raising the rate of postage on city letters from one to two cents. This order was received with a great deal of dissatisfaction, especially among merchants in the larger cities. It was this that led to the issue of the Corbeil Local, of Montreal. The following is a copy of the circular sent out to the leading merchants by the proprietor of the post:

BELL TELEPHONE, No. 2463.  
PRIVATE POSTAL SERVICE.

Sir,

In order to reduce the *extra* charges by the Postal authorities for the CITY DELIVERY, we have concluded to open an Office for the delivery of Letters at ONE CENT EACH, for which we will issue our private stamp so as to facilitate settlements. Every one will have to sign forms of reception as proofs of good and efficient delivery.

Hoping to be favoured, we will call on you in a few days for your signature.

Truly yours,

J. A. CORBEIL,

Manager of the Private Postal Service

OFFICE:

At the Montreal Indian Store,  
1658 Notre Dame Street.

The stamp consisted of the signature of the initials of the proprietor, "J. A. C.," written across the centre of the stamp in black ink. The stamp was about  $\frac{3}{4}$  of an inch square, and consisted of thick blue wove paper, *Perforated*. As the initials of each stamp were written separately *no two stamps* are exactly the same. This post had but a short existence, as the Postmaster at Montreal made complaint to Ottawa, and the authorities stopped its operation.
