THE
Imperial Postage Stamp Album,

By E. S. GIBBONS.

ILLUSTRATED with NEARLY EIGHT HUNDRED ENGRAVINGS,

INCLUDING AN ENTIRELY NEW SERIES OF

The Arms of the Chief Countries of the Universe,

Specially Prepared, at great cost, for this Work.

The Album also includes a Descriptive Catalogue of every Stamp issued to the present date, together with a Complete Money Table, giving the values of the currency denoted on all the newest, as well as the old, emissions.

THE IMPERIAL STAMP ALBUM

WILL be found to be the most elaborate work of the kind ever published. The superiority of its arrangement must at once be apparent; the countries are arranged alphabetically, in separate continents, the spaces for the stamps being tastefully grouped, and entirely detached from each other, thus allowing a good margin around each stamp.

All the spaces are numbered to correspond with the Catalogue, so that mistakes in arranging the collection are impossible.

The most recent issues are provided for, such as the whole of the New Official United States, Montenegro, Curacoa, Surinam, New Bolivar, and Argentine. Over thirty pages are left for future emissions.

There are also designated compartments for nearly fifty Post Cards, together with ample room for new. Local Stamps have no spaces prepared for them, but blank leaves are left, so that the collection of them is optional. Revenue or Bill Stamps are not included.

The pages are 360 in number, and are adorned with a very handsome series of Arms of Countries, expressly prepared for this Album, and over 700 illustrations of rare stamps.

The Album is printed in black, on a white paper of extra quality, specially manufactured for it, and is elegantly bound in six different styles, the prices varying according to quality and paper. The cover is from a new design, and the size of the work is 10 in. by 8 $\frac{1}{2}$ in.
