TIN FOILS

WERE introduced in the latter part of 1868, and two denominations were issued, the half-ounce bearing the Arms of the United States, printed in blue on bright surfaced foil, and the one ounce Head of Washington, printed in gold on bright surfaced foil. The half-ounce was not long in use, having been abolished by law, June 6, 1872.

Five things are to be noticed in describing the foils:

- 1st. The issue, which is indicated by the Stamps whose position is usually on the lower half of the foil.
- 2d. The manufacturing proprietorship, which is indicated in the circle of cancellation usually at the bottom of the centre of the stamp's margin.
- 3d. The brand, which is printed either in a frame or ornamented lettering, and has its position usually above the stamp.
- 4th. The color, which always takes its name from the color of the STAMP, even when the Brand is indicated by a different color.
- 5th. The kind of foil, whether bright, silver or ribbed silver.

GRAPHIC CO.

Tobacco Wrappers and Stamps,

WHICH in 1878 and 1879 were prepared for such Tobacco manufacturers as chose to avail themselves of this means of embodying a Trade Mark and internal revenue stamp in the form authorized by Government.

Three types were authorized, and five denominations, (1, 2, 4, 8 and 16* ounces.) The use of the wrappers was not general, and was of brief duration.

- Type A. Profile head of Liberty in garter, 1 and 2 ounces.
" B. Head of Liberty in small circle, 2 and 4 ounces.
" C. Profile head of Franklin, 8 and 16 ounces.

*It is not known that the 10 ounce denomination was ever actually used, but it was prepared, and proof specimens are in existence.

DON'T FAIL TO COMMENCE THE COLLECTION OF

“Tin Foils.”

No class of Revenues has given more real enjoyment than that offered to a Collector of ENTIRE TIN FOIL WRAPPERS. The effect produced when these interesting Stamps are mounted on white card board, and a neat red border ruled around the Foil, may well cause one to exclaim they are beautiful, interesting and worthy of a place in every Revenue Collection.

No country in the world uses this class of Stamps, except the United States, and being solely of American origin, they are fast demanding the attention of advanced Collectors, both in this country and abroad.

The ruled columns in red at right of list are for the purpose of keeping a complete record of what each Collector is known to possess, and will be found very convenient and useful. As also the additional ruled red lines between each brand, and at the end of each issue, which are for adding new discoveries in their proper places, and all such discoveries should be reported at once to the compiler, who will be thankful for such favors.

I can furnish a large number of those listed at from 10 cents to \$5.00 each, and above according to degree of rarity.

I will allow a good exchange or cash price for all Foils unknown to me,
