PREFACE.

When members of the various national philatelic organizations throughout the country are asked the question, why there are not more members from their towns, the oft given excuse is, that "they know of no other collectors in their town."

The existence of this fact is one of the primary causes for the issuing of this work, it being the intention by compiling such a large list of collectors' names, to show just where the collectors are, and in what numbers they exist.

In the various national societies in the United States there are enrolled about two thousand different members, while the Collectors Directory in this book gives the names of over four thousand collectors interested in the pursuit in this country, or at least two thousand who are not members of any national society.

Here then is a field for missionary work. If these parties are not brought into some society, with its attendant influences through which to keep them interested, there are many chances that their interest in the pursuit will wane and eventually die out.

In looking over the list of names here published, what a field is shown for the formation of branches of the American Philatelic Association and kindred organizations! In the various cities where there are twenty-five or more collectors, we do not think it would be difficult to form such branches. Let several collectors get together, draw up a call for a meeting, and send it to every collector in the city or town. Such a call would surely bring a number together, and after the first meeting others could be brought in.

No other directories of any kind have been used in the compilation of this list, the names all having been taken from recent records, and while the nature of the work is one in which changes often occur in addresses, we think those in this book are so recent that mail matter will be forwarded.

The idea for our concordance was taken from some old stamp catalogues, which gave all the inscriptions on the various stamps. In later years when the issues got too numerous, these were omitted from the catalogues. This part of the work has been brought up to date, and we know from experience with hundreds of young correspondents, that a frequent use of it is assured, while those having the work, we hope will help their younger friends, should they come to them for information supplied by this book.

THE DUTY ON STAMPS

has been removed; but that has nothing to do with our great offer of _____

\$1.00 worth of Stamps

FREE!

READ ABOUT IT.

Times are hard, money is scarce, and subscribers come too slow to suit us. So, to increase our list, we have put up 1,000 packets of scarce South American stamps, catalogued by Scott's 54th edition at just \$1.04. Until exhausted we shall give one packet to every one remitting 25 cents (*and enclosing stamped self-addressed envelope*) for a year's subscription to the

EASTERN PHILATELIST,

one of the oldest and best stamp magazines, 20 to 36 pages, monthly, all original. Remember, there are no Seebeck's, Ecuador remainders or trash in this packet, but all desirable stamps and will grace any collection.

HOW DO WE DO IT?

Well, we lose money on the offer, but want a subscription list of 3,000 by January 1st. Besides, we import the stamps direct and hence obtain them very cheap. Present subscribers can **only** obtain the premium by remitting 25 cents and stamp, for which their subscription will be extended one year.

PHILATELIC TERMS.

- Albino**—A stamp which is only an impression of the plate upon the paper without color.
- Batonne**—Has parallel lines in its substance further apart than in laid paper, and serves as a guide in writing. It may also be laid or wove. English collectors call this "foreign note."
- Bogus Stamps**—Those of which there are no originals. This name is sometimes applied to counterfeits.
- Continentials**—European Stamps.
- Counterfeits**—Imitations of genuine stamps.
- Diagonally Laid**—Paper with lines appearing diagonally across.
- Dies**—The engraving of stamps from which the impression is taken.
- Embossed**—Stamps having the design in relief, which are printed from a sunken die. See United States envelopes. This word is sometimes used to designate "grilled" stamps.
- Enameled**—Paper with a colored surface finely calendered.
- Error**—A stamp on which some mistake is made, either in the engraving, color, perforation, printing or surcharge.
- Essay**—A design for a stamp submitted for approval and which shows the stamp as it would appear when printed. This name is usually given to designs that have been rejected.
- Fac-Similes**—Imitations of stamps. They only differ from counterfeits in that they are made and sold as copies of rare stamps.
- Fiscals**—Revenues.
- Forgeries**—See counterfeits.
- Glazed**—Paper much like enameled, but usually thinner.
- Government Counterfeits**—Stamps which are obsolete and the plates destroyed, and which are re issued by a government from new plates in imitation of the original issue. See United States 1847 issue, called reprints.
- Government Reprints**—Stamps reprinted by a government from the *original* plates after the issue is obsolete.
- Grille**—A number of minute indentations on the back of stamps made by a steel die divided into very fine points. Grilling, or embossing, was invented to break the texture of the paper so that the paper would absorb the ink in the cancellation of the stamp, to prevent the stamp from being cleaned and used again. See United States 1868-1869 issue, and stamps of Peru.
- Horizontally Laid**—Paper with horizontal lines.
- Inverted Centers**—When stamps are printed in two colors, the center has been known to be printed the wrong way. It is then called inverted.
- India Paper**—A very thin fibre paper.
- Imperforated**—Stamps having nothing to assist in separating. Unperforated.
- Laid Paper**—Has parallel lines close together in its substance.
- Local**—Stamps used by a private corporation or individual. Not government issues.
- Native Paper**—Used in stamps of Cashmere.
- Obsolete**—Stamps out of use and not receivable for postage.
- Oddity**—A stamp printed in the wrong color, an inverted design, a mistake of perforation or peculiarities out of the way from original design.
- Originals**—Genuine stamps.
- Pelure**—A very thin and tough variety of wove paper.
- Perforated**—Having holes or indentations between stamps to assist in the separation.
- Perforation**—The small holes or indentations between the stamps.
- Perforation Gauge**—A gauge to ascertain the number of perforation. The perforation of a stamp is determined by the number of holes counted within the length of two centimetres; thus, if there be just fourteen holes within this space, the stamp is said to be "perforated 14."
- Pin Perforation**—Stamps perforated with holes *pricked* in the paper as with a pin or needle.
- Plates**—A series of reproductions from the same die, on plates of metal, thus making it practicable to print a large number in a single sheet.
- Proof**—The first impression of a stamp, showing it as it will appear when issued and may be in different colors. They are generally on India paper or thin cardboard.
- Provincials**—Stamps used only in one province.
- Provisionals**—Stamps used temporarily until a new supply of the regular issue is received, and may consist of surplus stamps surcharged with a new value, or of fiscals surcharged with the word "Postage."
- Quadrille Paper**—Paper in which the watermarked lines cross each other and form squares or rectangles.
- Re-engraved**—Signifies that the design has been re-engraved.
- Remainders**—Old stamps remaining on hand when a new issue is placed on sale.
- Reprints**—Stamps reprinted from the original plates after the issue is obsolete.
- Retouched**—Plates that have become worn are retouched to produce a clearer impression.
- Rouletted**—A series of straight cuts made in the paper between the stamps to assist in the separation, thus - - - -

GREMMELE'S IMPROVED STOCK BOOK.

(Copyrighted by H. Gremmel. Patent applied for.)

The great drawback of all the stock books which have been offered up to date, is the loosening of the slips pasted on each sheet.

In *Gremmel's Improved Stock Book* slips are NOT pasted, but the entire sheet is made out of one piece of paper, and the great improvement can be seen at a glance. The books are made of strong manila paper, and bound so that each page can be removed at will.

FOREIGN STAMP COLLECTORS.

The following list is given in order to enable collectors in the United States opening exchange relations with those in various parts of the world. These parties are all members of various philatelic societies, and we think they will be found reliable. It is always best, however, to have an understanding in regard to exchanging before sending any stamps. A strict compliance with this rule will save much dissatisfaction, and possible trouble.

THE

American Philatelic Association.

J. K. TIFFANY, Prest.

N. W. CHANDLER, Treas.

This Association was organized in 1886 to fill a crying need among the stamp collectors of this country for a large representative body, which, through numerical strength and the standing of its members, it was readily seen would have untold influence in placing the pursuit in its proper light before the public. The history of the Association for the past eight years is now well known to those who follow the course of philatelic events, and the fact that during that period stamp collecting has taken such an immense stride forward, is the best proof of the wisdom of its founders.

Aside from the many benefits to be had from membership in this Association, and the exceedingly low rate of yearly dues, now only one dollar, it should be the pride and boast of every stamp collector that he is a member of his national society, thus throwing whatever influence his name may have to the building up of the pursuit through a large national organization.

That this Association has been successful in its aims is shown by the following quotation from its president:

"The need of such an association, and that its value to collectors is appreciated, has been proved by the number of imitators it has had—founded by those who imagine they can improve on its methods. One has only in fact to consider for a moment the immense advance that has been made in the num-

bers interested; in the light in which the pursuit is regarded by the general public; in the diffusion of knowledge about stamps and their real value since associations of this kind brought collectors into communication with each other, both in this country and abroad, to realize that the change is due very largely to these societies.

As the pioneer Association, among whose members more of the leading collectors of the country have been enrolled than any other, this Association has been peculiarly the battlefield where many disputed questions have been debated—all opinions brought into conflict—all experiments tried. Its experiences have been the lessons which have guided all imitators and served as beacons for all who have come after it. It is now, we believe, upon a firmer basis than any other society that exists, and its future should be more brilliant than its past successes, and untarnished by any errors. No number of separate organizations can accomplish what it was designed to accomplish. Each may do something toward the real valuable result of such combinations, but all must unite to obtain the complete reward. It is not so much the direct benefit to himself that a society may give the collector that should draw him to a national organization as the indirect benefit to the pursuit that will follow when a large association shall take the place of the many smaller ones, diminishing the *pro rata* of every expense and increasing the effectiveness of every effort."

SPECIALTIES :

Rare Stamps of All Countries.
 Stamps of the United and Confederate States.
 Auction Sales.

RARITIES—A fine assortment of rare European and Colonial Stamps, including very fine Swiss Cantonals, Oldenburg, early Mauritius, New South Wales (Sidney Views), &c., always in stock.

UNITED STATES.—We can supply almost any stamp at short notice, and at reasonable prices.

AUCTION SALES.—The unprecedented success with our sales, owing to our liberal treatment of buyers and sellers alike, as well as our careful cataloguing and describing the exact condition of the stamps, has been the means of our quickly gained reputation in this line. Collectors who wish to receive our catalogues regularly will please notify us to that effect. Priced catalogues of any of our sales on sale at 50 cents. Catalogues Nos. 1-21, bound in one volume, and priced, may be had at \$13.50. Only a few are left on hand.

STAMPS ON APPROVAL.—We have on hand a fine series of Approval Sheets. To collectors who are known to us, or on receipt of satisfactory reference, we shall be pleased to send selections on approval. To suit the requirements of advanced collectors, we are prepared to send small classified books, each containing the stamps of one or more countries, which can also be sent to responsible correspondents. State what countries you wish to complete, and we shall be happy to meet your wants.

All stamps are marked at the lowest remunerative prices, at which genuine stamps in good condition can be sold.

Rarities are always marked net; on commoner goods we allow from 25 to 40 per cent. discount on purchases amounting to \$1.00 or above.

Approval lots cannot be made up to order, but want lists are filled according to prices in OUR CATALOGUE.

Nearly 2,000 collectors increase their collections by regularly buying from our approval lots, which always give great satisfaction, because the stamps are attractively mounted and all stamps are choice picked specimens; no damaged or common continental stamps are ever put on our sheets. As the approval sheet business is open to a great many risks, we hope that all who receive our approval lots will take great care of them, and return within the time allowed (ten days); also to be very careful that no stamp is removed or misplaced unless purchased.

Beginners are advised to commence with our packets, and then increase their collections by selecting from our approval lots or from our list of sets. It will be found more economical to purchase sets than single stamps, though of course a great many stamps cannot be procured in sets, and such are generally to be found on our sheets. Price lists for sets and packages sent free on application.

EXAMINATION DEPARTMENT.—Terms for the examination of stamps sent to us for an opinion as to their genuineness, 25 cents per dozen, cash in advance; a minimum charge of 25 cents being made if less than 12 stamps are sent; postage extra. The stamps should be sent lightly fastened on sheets, with sufficient space above each stamp for the insertion of the desired information.

The charge for marking the forgeries in a collection in its entirety is at the rate of \$1.00 per 1,000 stamps examined, the minimum fee being \$1.00. Postage extra.

If a correspondence is desired, a fee of 25 cents will be charged for each letter written by us.

\$20,000 OF FINE STAMPS!

I have recently returned from a trip to Europe, and have brought with me a superb stock of the stamps which every collector is looking for and seldom finds.

I am prepared to send out carefully made up approval books of

- Used and Unused United States Stamps. • •
- British West Indies in all wmk. and perforations.
- British Colonials of every description. • • •
- Rare and Desirable Foreign Stamps. • • •

I am breaking up three old collections consisting of 8200, 8400 and 7600 varieties.

I do not want the boy trade. I have no Seebecks, torn stamps, or rubbish to offer. I deal in good stamps only. If you want 50 per cent. discount please answer some other ad. I have no price-list of sets or packets, offer no prizes, nor any inducements except fine stamps at fair prices.

MY STOCK OF LEEWARD ^{AND} WINDWARD ISLANDS

IS ONE OF THE BEST IN AMERICA.

Correspondence invited with collectors who want good stamps, know them when they see them, and can buy them if price is right. I require no deposit but must ask the best of references. It will cost very little to write me. Suppose you do it (and you might enclose your want list).
