“EVERYONE who uses  
government stamped  
envelopes is aiding  
the Post Office De-  
partment in improving the  
service.”

A. L. LAWSHE  
Third Assistant Postmaster General

---

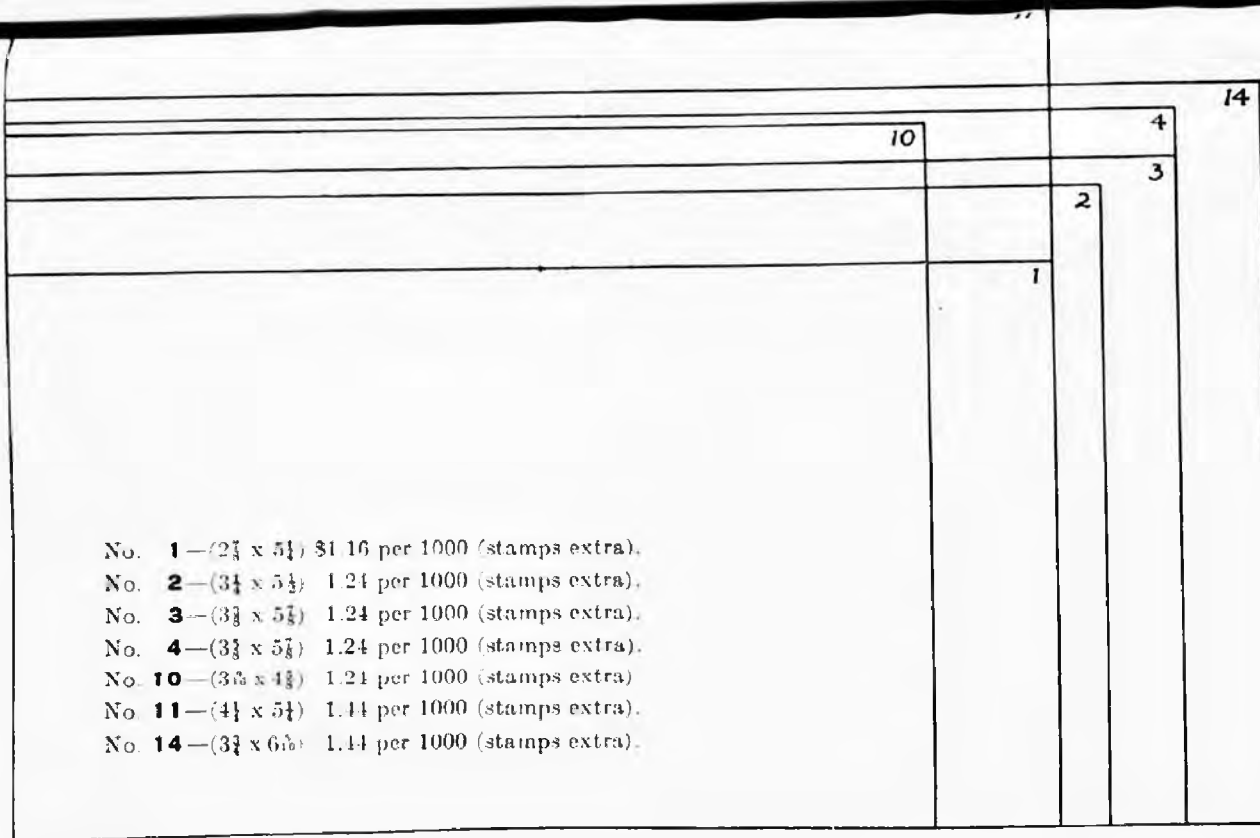

---

If government stamped envelopes be used,  
there are no stamps to fall off in the mail.  
If your return card be printed on the  
envelope there are no lost letters. Read  
information within.

Post Office Department  
Third Assistant Postmaster General  
Washington, D. C.

**FOR CIRCULARS**

an inexpensive manila envelope, No. 6, 1c. stamp only, size 3 $\frac{1}{2}$  x 6 $\frac{3}{8}$ , is also furnished at 72c. per 1000—stamps extra.

## ADVANTAGES IN USING STAMPED ENVELOPES

**T**HE advantages in using Stamped Envelopes in place of adhesive stamps are many. Stamps may be easily lost, misappropriated or may become useless through sticking together. The time consumed in affixing stamps is also an item to consider. A stamp may drop off in the mail. By using Stamped Envelopes these difficulties are overcome.

Government Stamped Envelopes will be furnished in lots of 500 with name and address printed in the upper left hand corner **WITHOUT EXTRA CHARGE.** This printing is termed the "Return-Card."

Such envelopes are never returned to the dead-letter office. If the addressee cannot be found, the letter is returned without extra postage to the sender. Such envelopes, if misdirected, are redeemable at the Post Office from original purchasers only at full stamp value. This is not true of adhesive stamps.

The prices of Stamped Envelopes are very reasonable, about eight for a cent, stamp value extra. They may be ordered in any quantity. If the purchaser's "Return-Card" is to be printed 500 is the minimum quantity. The order should be sent to your local postmaster and not to the Post Office Department. In placing the order deposit only the price of the envelopes, and pay for the stamp value on delivery.

The most popular envelopes are No. 5 and No. 13. The sizes No. 7, No. 8, No. 9, are used by lawyers, bankers and many business houses. No. 3 is frequently used to enclose in No. 5 envelopes for reply postage. The sizes No. 10 and No. 11 are square shaped envelopes, called "Baronials," much in demand for mailing high-class printed announcements, and for social correspondence.

A 4c. envelope is issued for inclosures requiring more than the single rate of postage, and a 5c. envelope is supplied for foreign correspondence.

The envelopes are furnished in three qualities, first, second, and manila, and in five colors, white, amber, blue, buff and manila. Orders are completed generally within ten days. If urgently needed postmasters will endeavor to secure delivery within a week.
