

DETROIT  
CONVENTION  
SNAP  
SHOTS

[1910.]

## A Word of Explanation

WHILE enjoying myself at the convention of the American Philatelic Society, held in Detroit, Mich., in August, 1919, the thought came to me that there would be many members of our Society who were unable to attend the convention, that would be glad to have an opportunity to secure a souvenir in the way of a booklet of pictures of scenes and incidents of the gathering. With this in mind, I immediately solicited signatures to a paper, the signers of which agreed to pay on demand one dollar toward the expense of making half-tone cuts and printing a booklet of convention snap shots. Thirty-nine signatures were obtained and up to this time most of the signers have paid their dollar, however many have failed to do so. A list of names of those who had agreed to pay one dollar towards the expense of publishing this booklet is given below and it is hoped that those who have not yet made their payments, will do so at once.

No apology is offered for the poor appearance of most of the pictures; these are all made from snap shots and it was impossible to make good cuts from the pictures, except at great expense.

Our thanks are due to those who had cameras and kodaks at the convention and were kind enough to supply photos for this work.

It was agreed that any money received for this booklet, over and above the cost of production, was to be used to purchase books or magazines and donate the same to the library of the A. P. S.

You are helping a good cause by purchasing one of these books and you should urge your brother collectors to secure one. Edition limited to 200 copies.

Price 25 cents, postpaid.

Respectfully,

GEORGE WARD LINN,

Publisher.
