TO

Secretary of the Philatelic Society of
London,

THIS WORK IS
RESPECTFULLY DEDICATED
BY THE
COMPILER AND PUBLISHER.

PREFACE.

This Epitome was compiled for my own private use, and it was at the request of Mr. Brown, that it has been published.

It has been looked through by Mr. Garth, and several suggestions of his have been carried out. Still I am afraid there are mistakes and omissions, which I hope will be overlooked.

Next year I hope, all being well, that the Epitome will be ready earlier.

S. C. SKIPTON.

INTRODUCTION.

It will probably be well known to many who peruse this little work that Auction Sales of Postage Stamps and Envelopes were (with one previous exception in 1872) first introduced at the latter end of 1868. The scheme was proposed by Mr. DOUGLAS GARTH in a letter published in the *Philatelic Record* of August in that year, and the first Sale by Auction was held in November following, under his direction and at his financial risk.

His choice of an Auctioneer was not an easy matter, as considerable Philatelic experience was absolutely essential to the proper guidance and conduct of a regular series of such Sales in the future, especially having regard to the extreme importance of accuracy in cataloguing the specimens submitted for Sale.

The selection of Mr. THOMAS BULL of the firm of MESSRS. VENTLOW, BULL, AND Co., has proved a remarkably happy one, and although one or two rival Auctioneers have, as was to be expected, entered into friendly competition with him, and held periodical intervening Sales, by far the most important of the collections and specimens which have come into the market have been sold under Mr. BULL's hammer.

The first Sale, held in Chancery Lane on the 11th November, 1868, was necessarily to some extent an experimental one, and it was found that the room selected was far from satisfactory both as regards light and accommodation. The Sale was well attended, the prices realized were on the whole good, and the general approval expressed by Philatelists in the result of the trial fully convinced the Auctioneer that he might with confidence carry Mr. GARTH's scheme of periodical Sales through the winter months into effect. He carefully studied the defects above referred to, and noted several inconveniences which were apparent especially in the mode of showing the specimens at the time of Sale, and the second Sale held at The Mart, Tokenhouse Yard, on the 19th January, 1869, shewed a marked improvement in such matters of detail.

The room selected at the Mart is admirably adapted for the purpose, and has almost invariably been utilised in subsequent Sales. Large windows at each end of the room give ample light, and the arrangement of benches facing each other at right angles to the Auctioneer's desk affords facilities for showing the specimens as each Lot is put up for Sale. The exhibition of the specimens in each Lot is now made in a glass hand case, which precludes any handling of the stamps at the time of Sale, but gives ample opportunities of view. Thorough examination of the specimens is of course allowed on the day before the Sale, under the supervision of the Auctioneer or his Assistants.

The principal Collections which have been sold under the hammer of MR. BULL are those of the late MR. SHEPHERD, DR. HOUSON, of Australia, and a portion of MR. CASTLE'S Collection; and he has also disposed of many small lots of extreme rarities entrusted to him. The amount realized at his Sales has reached a daily average of £514.

Other Sales have been conducted by MR. CHEVELKY, of Abergavenny, and by MR. DAVIES of the firm of MESSRS. PHILLIPS, LEA, AND DAVIES, of London, and the first-named gentleman has been extremely successful, although his Sales have not at present included objects of so important and interesting a character as it has fallen to the lot of MR. BULL to offer.

The total amount realized at the first nineteen Sales has been £11,913. of which MR. CASTLE'S Collection contributed £1,550. These figures include Lots bought in by the Vendors on some few occasions, but not Lots on which a reserve was declared and not reached. The largest amount realized in one day was £850, namely on the 3rd March, 1909.

As a rule Lots have been sold without reserve, the main exception being at the third Sale when a reserve was named by the Auctioneer on each Lot, a system which, while it certainly saved time, prejudiced the disposal of the Lots to some considerable degree and found little favour.

If the Sales have had no other use they have brought both Dealers and Collectors into personal acquaintance with each other, and promoted intercourse between Philatelists, to, I would submit, their mutual advantage. Most of the principal Dealers and London Collectors are regular attendants at the Mart. Amongst the former I may mention Messrs. Wilson, Phillips, Buhl, and Giwelb, who have during the year had many sharp tussels in their competition for rarities, also Messrs. Ginn, W. Brown, Caff, Brozman, and many others, including Mr. Calman, of America, and Messieurs Barbarin and Astruc, of Paris, who have occasionally put in an appearance. Amongst Collectors the faces of Messrs. Philbrick, Tapling, Garth, Bacon, Castle, Thornhill, Colman, MacKenzie, Elett, Evans, and Herr Von Ferrary have been prominent.

In conclusion, I will only briefly draw attention to the special rarities which have been offered at these Sales during the past year, viz.: The British Guiana, in Sales II., V., VIII.; The Mauritius, in Sale IV.; The Swiss, in Sale VIII.; and the Colonial Stamps in MR. CASTLE'S Sale. The highest individual price realised was £50 for the 4c. blue, 1856, provisional British Guiana, unused.

PART II.

PRICE LIST

Giving the prices that the various Stamps fetched.

In a few cases where very many of the same Stamps were sold, only the highest and the lowest amounts realized are given, together with the average.

In other cases all the prices are given in order—first sale, first ; last sale, last.

The prices of miscellaneous lots or lots not fully described are not given, otherwise the List is, I believe, complete.

When lots with a reserve failed to obtain a bid, they are omitted as a rule, a few however are mentioned, as (50s. reserve).

Unless mentioned with a * Stamps are used.

LIST OF UNCATALOGUED STAMPS, CURIOSITIES, ETC.,

OFFERED FOR SALE BY AUCTION, 1888-9.

The Catalogues I have taken as my standards are Evan's "Handbook," "The Stamps of Oceania," and "The Stamps of Spain," the two latter the publications of the Philatelic Society.

No doubt many of the Stamps following will be found in other Catalogues, as Pemberton's, Lockyer's, Moen's, etc., or scattered through the various Philatelic Journals.

I am sorry I cannot give a List of the Shanghai (inverted surcharges) and the Transvaal, of Sale XI., but unfortunately I lost my notes of these.

I am afraid the List is rather bare, and at the same time not very complete; still, I hope it may prove in some degree interesting to those who may make Errors and Curiosities their hobby, and enable them to look out for some they knew not of. Anyhow, here it is, with all its imperfections.

The prices have not been given, as so many were sold with other Stamps in a lot.

The "Philatelic Directory"

Includes more than 3,000 addresses of collectors and dealers in all the countries of the world, and the advertisements of the principal philatelic firms.

4,000 COPIES.

The utility of this Book of Addresses cannot be questioned; its place is as well in the library of the collector as in that of the dealer. The former owing to the addresses found therein, obtains for himself new connections for exchange of his duplicates; the latter sees the addresses of numerous collectors who never advertise in philatelic newspapers, which gives him an opportunity of sending them price lists, etc. Both read with profit the advertisements inserted.

THE "PHILATELIC DIRECTORY"

Will be the most complete of similar works, which have appeared till now. It will contain the names and addresses of all collectors and dealers which we have been able to find in France and in all the other countries of Europe, Asia, Africa, America and Oceania since the formation of the "Echo de la Timbrologie." Receiving ALL the philatelic newspapers and having in hand all the books of addresses published last year, it will be easy for us to publish a work which we hope will be appreciated by all amateurs, both for quality and quantity.

THE TRAVELLER'S COMFORT.

BURRIDGE'S PATENT
PORTABLE PURVEYING
APPARATUS.

(NO. OF PATENT, 20789.)

QUITE A LITTLE WONDER.

The most neat, compact, and useful Portable Purveying Apparatus ever known for Travellers, Pic-Nic Parties, Tourists by Rail, Road, or Cycles; and for Offices, Shops, Bedrooms, &c., &c.

Small Size, for two Persons, 8½-in. by 4½ by 6½-in. Price, £1 2 6.
Large Size, for five Persons, 10½-in. by 5½ by 8-in. Price, £1 15 6.

A superior quality of the small size is offered at £1 8 6. This possesses the advantages of the kettle and all other fittings (except stove and tea infuser) being made in copper, with most careful workmanship, and very best finish.

This unique apparatus is a very commodious arrangement to supply freshly-made Tea, Coffee, Cocoa, Bovril, or Grog on any journey and anywhere in *few minutes*.

The "Traveller's Comfort," being so very small and compact, may be conveyed in the corner of a Trunk or Bag, or in hand by a small brass handle (provided for the purpose); or may be very easily and securely attached to any kind of Cycle, its dimensions being only 8½ inches in length, 4½ inches in breadth, and 6½ inches in depth. And yet this small case carries every requisite for five or six tea-cups of tea, coffee, or cocoa, etc.; being sufficient for two persons. It has a copper Reservoir (tinned inside) for water, besides what the kettle itself is made to contain; a second ditto for milk; a flask for spirits, wine or syrups, etc.; a container for methylated spirit; a drawer, with four compartments, for tea, sugar, coffee and cocoa; a tea infuser; a small tray to stand the cup in while infusing the tea. (The four last named articles are in tin.) Also a kettle and stove (in tin) of quite a novel character. The fluted bottom of the former, and peculiar construction of the latter, are no small advantages, as they supply the boiling water in about half the time of an ordinary kettle and stove.

A second size (most suitable for pic-nic parties), though only 2 inches longer, 1 inch wider, and 1½ inches deeper, will carry a supply for *five* persons.

A Leather Case to fit is provided for those who desire it.
