

Stamps and Stamps Cheap

Between cheap stamps and stamps cheap the collector will do well to measure the full meaning of that transposition of words. The difference between them is as great as "oil paintings executed while you wait" and the works of the old masters. Values exist in every commodity which is offered for sale, differences in prices are invariably regulated by the quality and rarity. Handling government issues of adhesive postage stamps only, all of one grade, selling at a certain percentage over cost, with one price to all, collectors will find it to their own interest to send me their orders. The result will be high grade stamps in the finest condition at lowest possible prices—stamps that are always salable and of increasing value. My one aim is to sell good stamps cheap—not cheap stamps. Fourteen years experience has satisfied me that the majority of collectors appreciate the difference. Catalogue free.

The highest cash prices paid for collections and lots of stamps. Columbian stamps especially wanted. If you have a collection send on approval, quoting your lowest price, or I will inform you what I will pay. For stamps in quantity send list of what you have. No common stamps wanted.
