106 SOUTH TENTH STREET, PHILADELPHIA.

L. W. DURBIN'S

DECEMBER CIRCULAR.

1874.

READY, DECEMBER 15, THE SECOND EDITION OF OUR

DESCRIPTIVE PRICE CATALOGUE.

thoroughly revised and brought up to date of publication. It is entirely new and different from any other in the market. It contains descriptions and prices of every Postage Stamp known. It is the only one that gives a complete list of all Post Cards and Newspaper Wrappers. It describes many stamps of old issues never before noted in a price catalogue. It is decidedly the best, most complete and comprehensive list ever gotten up.

The prices have been greatly reduced, making them the lowest in any price list in the market. It will be sent post free to any address for 25 cents.

After January the Monthly Circular will be discontinued, to be replaced by THE PHILATELIC CIRCULAR, containing a list of newly issued stamps every month, and other items of interest to the collector; also lists of our cheap Packets, sets of Stamps, Albums, etc. The Philatelic Circular will be regularly sent to every purchaser of one of our new Descriptive Price Catalogues until a new edition of the same shall be published. Those who desire to be informed upon the new issues can become so in no cheaper way than by purchase a copy of the Catalogue. There will be no list of stamps in the Philatelic Circular, and correspondents who wish single stamps are respectfully referred to the Descriptive Price Catalogue, wherein they will find nearly three thousand varieties to select from.

JUST PUBLISHED.

THE

Imperial Postage Stamp Album.

By E. S. GIBBONS.

ILLUSTRATED with NEARLY EIGHT HUNDRED ENGRAVINGS,

INCLUDING AN ENTIRELY NEW SERIES OF

The Arms of the Chief Countries of the Universe,

SPECIALLY PREPARED, AT GREAT COST, FOR THIS WORK.

The Album also includes a Descriptive Catalogue of every Stamp issued to the present date, together with a Complete Money Table, giving the values of the currency denoted on all the newest, as well as the old, emissions.

THE IMPERIAL STAMP ALBUM

Will be found to be the most elaborate work of the kind ever published. The superiority of its arrangement must at once be apparent; the countries are arranged alphabetically, in separate continents, the spaces for the stamps being tastefully grouped, and entirely detached from each other, thus allowing a good margin around each stamp.

All the spaces are numbered to correspond with the Catalogue, so that mistakes in arranging the collection are impossible.

The most recent issues are provided for, such as the whole of the New Official United States, Montenegro, Curaçoa, Surinam, New Bolívar, and Argentine. Over thirty pages are left for future emissions.

There are also designated compartments for nearly fifty Post Cards, together with ample room for new. Local Stamps have no spaces prepared for them, but blank leaves are left, so that the collection of them is optional. Revenue or Bill Stamps are not included.

The pages are 360 in number, and are adorned with a very handsome series of Arms of Countries, expressly prepared for this Album, and over 700 illustrations of rare Stamps.

The Album is printed in black on a white paper, of extra quality, specially manufactured for it, and is elegantly bound in six different styles, the prices varying according to quality of binding and paper. The cover is from a new design, and the size of the work is 10 in. by 8½ in.
