Dealers in unused Colonial Stamps in singles, sets and sheets. New Issues of all countries.  
Largest stock in the world of current Colonial Stamps (outside Government stores).

All Correspondence for the British & Colonial Stamp Market should be addressed to the Secretary, 32, Palace Square, Norwood, S.E.

PRICE LIST, NO. 10.

JANUARY 5th, 1901.

[GRATIS.]

## Notice.

OWING to the great increase of interest taken of late in the efforts of the Colonial Stamp Market to supply all current Colonial Stamps at a reasonable premium over face value, the Secretary has decided to issue a price list giving fuller particulars than can be published each week in *Ewen's Weekly Stamp News*.

During the Season, this LIST WILL BE PUBLISHED WEEKLY.

## South Africans.

WE devote our front page to the SOUTH AFRICAN WAR PROVISIONALS, believing that our readers will be more interested in them at present. They are, too, probably, one of the best investments that could be made, as prices have not by any means reached their highest level. We are able to announce the arrival of very fine parcels of V.R.I. stamps by the last S. African mail.

## Orders booked in advance.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once, otherwise they will be retained till sent for (but not longer than 14 days).

Collectors can bespeak any sets, whether advertised at present or not, and such will be sent on when we secure a supply. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

Unless clients have deposit accounts, the sets cannot be sent immediately on arrival. We never send sets for cash on delivery, as delay may occur by clients being temporarily from home, which causes us needless trouble in writing enquiries.

## New Issues.

REGULAR WEEKLY OR FORTNIGHTLY SERVICE.

ANY COLLECTOR wishing to keep his collection up to date should apply to have his name entered on our *New Issues Approval List*. If a weekly service of new issues be desired it is only necessary to send name and address and we will forward once a week an approval sheet, from which a selection can be made as desired. It should be stated whether only Colonial stamps are desired, or also those of foreign countries. Selections can also be sent once a fortnight or once a month.

## Terms : FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

## Index Numbers.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to impose certain conditions. We supply the stamps solely against cash in advance (even though the purchaser be a regular customer), the object being, of course, to avoid extra book-keeping and to enable us to remit without delay for further supplies. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

OWING to the great increase of interest taken of late in the efforts of the Colonial Stamp Market to supply all current Colonial Stamps at a reasonable premium over face value, the Secretary has decided to issue a price list giving fuller particulars than can be published each week in *Ewen's Weekly Stamp News*.

During the Season, this LIST WILL BE PUBLISHED WEEKLY.

## South Africans.

WE devote our front page to the SOUTH AFRICAN WAR PROVISIONALS, believing that our readers will be more interested in them at present. They are, too, probably, one of the best investments that could be made, as prices have not by any means reached their highest level. We are able to announce the arrival of very fine parcels of V.R.I. stamps by the last S. African mail.

## Orders booked in advance.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once, otherwise they will be retained till sent for but not longer than 14 days.

Collectors can bespeak any sets, whether advertised at present or not, and such will be sent on when we secure a supply. If price should exceed our usual charge of 1/2 per 1/., the option of keeping or returning the stamps will be given.

## Terms : FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/., a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

## Index Numbers.

ALL orders should give the index number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

## V.R.I. ORANGE RIVER AND TRANSVAAL. WHOLESALE.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to impose certain conditions. We supply the stamps solely against cash in advance (even though the purchaser be a regular customer), the object being, of course, to avoid extra book-keeping and to enable us to remit without delay for further supplies. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, NO. 12.

JANUARY 19, 1901.

[GRATIS.]

## Notice.

OWING to the great increase of interest taken of late in the efforts of the Colonial Stamp Market to supply all current Colonial Stamps at a reasonable premium over face value, the Secretary has decided to issue a price list giving fuller particulars than can be published each week in *Ewen's Weekly Stamp News*. During the Season, this LIST WILL BE PUBLISHED WEEKLY.

## South Africans.

WE devote our front page to the SOUTH AFRICAN WAR PROVISIONALS, believing that our readers will be more interested in them at present. They are, too, probably, one of the best investments that could be made, as prices have not by any means reached their highest level. We are able to announce the arrival of very fine parcels of V.R.I. stamps by the last S. African mail.

## Orders booked in advance.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once, otherwise they will be retained till sent for (but not longer than 14 days).

Collectors can bespeak any sets, whether advertised at present or not, and such will be sent on when we secure a supply. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

## Terms : FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

## Index Numbers.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

All Correspondence for the British & Colonial Stamp Market should be addressed to the Secretary, 32, Palace Square, Norwood, S.E.

PRICE LIST, No. 13.

JANUARY 26, 1901.

[GRATIS.]

## Notice.

OWING to the great increase of interest taken of late in the efforts of the Colonial Stamp Market to supply all current Colonial Stamps at a reasonable premium over face value, the Secretary has decided to issue a price list giving fuller particulars than can be published each week in *Ewen's Weekly Stamp News*.

During the Season, this LIST WILL BE PUBLISHED WEEKLY.

## Orders booked in advance.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once, otherwise they will be retained till sent for (but not longer than 14 days).

Collectors can bespeak any sets, whether advertised at present or not, and such will be sent on when we secure a supply. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

## Terms : FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

## New Issues : ON APPROVAL

We are willing to send weekly or fortnightly selections of new issues on approval to any reader, whether a deposit balance be kept or not (see above), but customers having credit accounts with us are invariably given the preference when our first supply of a new issue is not sufficient to go round.

## Index Numbers.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, NO. 14.

FEBRUARY 2, 1901.

[GRATIS.]

## Notice.

OWING to the great increase of interest taken of late in the efforts of the Colonial Stamp Market to supply all current Colonial Stamps at a reasonable premium over face value, the Secretary has decided to issue a price list giving fuller particulars than can be published each week in *Ewen's Weekly Stamp News*.

During the Season, this LIST WILL BE PUBLISHED WEEKLY.

## Orders booked in advance.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once, otherwise they will be retained till sent for (but not longer than 14 days).

Collectors can bespeak any sets, whether advertised at present or not, and such will be sent on when we secure a supply. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

## Terms : FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

## New Issues : ON APPROVAL

WE are willing to send weekly or fortnightly selections of new issues on approval to any reader, whether a deposit balance be kept or not (see above), but customers having credit accounts with us are invariably given the preference when our first supply of a new issue is not sufficient to go round.

## Index Numbers.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

OWING to the great increase of interest taken of late in the efforts of the Colonial Stamp Market to supply all current Colonial Stamps at a reasonable premium over face value, the Secretary has decided to issue a price list giving fuller particulars than can be published each week in *Ewen's Weekly Stamp News*.

During the Season, this LIST WILL BE PUBLISHED WEEKLY.

## Orders booked in advance.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once, otherwise they will be retained till sent for (but not longer than 14 days).

Collectors can bespeak any sets, whether advertised at present or not, and such will be sent on when we secure a supply. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

## Terms : FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

## New Issues : ON APPROVAL

WE are willing to send weekly or fortnightly selections of new issues on approval to any reader, whether a deposit balance be kept or not (see above), but customers having credit accounts with us are invariably given the preference when our first supply of a new issue is not sufficient to go round.

## Index Numbers.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

When in stock, these varieties can be supplied at same rate. The Colonial Stamp Market regrets that the execution of a number of orders for this stamp has been delayed, but the demand was under-estimated, the first two supplies amounting to 15,000 being exhausted almost before received. A larger supply is due to-day and should be available on Monday morning, when the Secretary can execute, per return, all orders for 10,000 copies or less.

Straits Settlements. The 50c. is temporarily sold out, so that the price of set 55 is now 3/11.

Seychelles. This set (No. 36) now again includes the 1 rupee value. The price is 3/8. The new colours of the low values are now included.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, No. 16.

FEBRUARY 16, 1901.

[GRATIS.]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

## Notice to Colonial Readers.

(N.B.—All rates quoted here are subject to alteration or cancellation without notice. Advantage will not, however, be taken of this proviso, unless warranted by very special circumstances.)

The Colonial Stamp Market would esteem it a favour if readers in the Colonies would make payments by means of current unused high value stamps, in mint well-centred condition. These can be accepted at the following rates.

**Australia.**—High values (1/6 or over) are accepted at 2½% premium, or at the rate of £1 os. 6d. for £1 face value. Remittances above the following amounts should, however, be made by cheque on London; above £10 (Fiji, New Zealand and Victoria); above £25 (N.S.W., Queensland, Tasmania and S. Australia). Values 1/- and under are not wanted.

**India, Mauritius, etc.**—High values (over 1 rupee) are accepted at the rate of 1/4 per rupee or 2/1 per dollar. Limit for one remittance, 200 rupees.

**West Indies and S. Africa.**—High values (2/- and over) are accepted at 1% premium. \$1—4/-.

**New Issues.**—New Issues of whatever value issued by any extra-European colony or foreign country (except those of discredited currency), are accepted at £1 os. 6d. per £1 face value. In the case of the issue of one or more stamps, the face value of which does not exceed 6d, not more than £10 worth in the case of a Colony, or £3 worth in the case of a foreign country can be taken without previous advice.

Of a full set from say, ½d. to 10/- in the case of a British Colony, any quantity up to £100 would usually be welcome. New issues can only be accepted at a premium if despatched within 30 days of their first issue.

### SPECIAL NOTICE.

The Colonial Stamp Market can also accept unused high value and new issue Colonial stamps, at above premiums, in payment of remittances to be made by it on behalf of readers. Such remittances can be made free of all charges anywhere in Europe, provided stamps are received in advance to the required amount at the above rates.

The Colonial Stamp Market is also prepared to cash unused Colonial Stamps for home readers, but the rates vary.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable terms* are cash in advance, postage extra.

## Notice to Colonial Readers.

(N.B.—All rates quoted here are subject to alteration or cancellation without notice. Advantage will not, however, be taken of this proviso, unless warranted by very special circumstances.)

The Colonial Stamp Market would esteem it a favour if readers in the Colonies would make payments by means of current unused high value stamps, in mint well-centred condition. These can be accepted at the following rates.

**Australia.**—High values (1/6 or over) are accepted at 2½% premium, or at the rate of £1 os. 6d. for £1 face value. Remittances above the following amounts should, however, be made by cheque on London; above £10 (Fiji, New Zealand and Victoria); above £25 (N.S.W., Queensland, Tasmania and S. Australia). Values 1/- and under are not wanted.

**India, Mauritius, etc.**—High values (over 1 rupee) are accepted at the rate of 1/4 per rupee or 2/1 per dollar. Limit for one remittance, 200 rupees.

**West Indies and S. Africa.**—High values (2/- and over) are accepted at 1% premium. \$1—4/-.

**New Issues.**—New Issues of whatever value issued by any extra-European colony or foreign country (except those of discredited currency), are accepted at £1 os. 6d. per £1 face value. In the case of the issue of one or more stamps, the face value of which does not exceed 6d, not more than £10 worth in the case of a Colony, or £3 worth in the case of a foreign country can be taken without previous advice.

Of a full set from say, ½d. to 10/- in the case of a British Colony, any quantity up to £100 would usually be welcome. New issues can only be accepted at a premium if despatched within 30 days of their first issue.

### SPECIAL NOTICE.

The Colonial Stamp Market can also accept unused high value and new issue Colonial stamps, at above premiums, in payment of remittances to be made by it on behalf of readers. Such remittances can be made free of all charges anywhere in Europe, provided stamps are received in advance to the required amount at the above rates.

The Colonial Stamp Market is also prepared to cash unused Colonial Stamps for home readers, but the rates vary.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Special Offers.

## WEST AFRICA.

Note.—Owing to the political changes which are taking place, the stamps of West Africa are just now of especial interest. The Southern Nigeria issue is likely to supersede those of the Niger Coast and Lagos, whilst Gambia, it is rumoured, may possibly be ceded to France.

PRICE LIST, NO. 18.

MARCH 2, 1901.

[GRATIS.]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

## Notice to Colonial Readers.

(N.B.—All rates quoted here are subject to alteration or cancellation without notice. Advantage will not, however, be taken of this proviso, unless warranted by very special circumstances.)

The Colonial Stamp Market would esteem it a favour if readers in the Colonies would make payments by means of current unused high value stamps, in mint well-centred condition. These can be accepted at the following rates.

**Australia.**—High values (1/6 or over) are accepted at 2½% premium, or at the rate of £1 os. 6d. for £1 face value. Remittances above the following amounts should, however, be made by cheque on London; above £10 (Fiji, New Zealand and Victoria); above £25 (N.S.W., Queensland, Tasmania and S. Australia). Values 1/- and under are not wanted.

**India, Mauritius, etc.**—High values (over 1 rupee) are accepted at the rate of 1/4 per rupee or 2/1 per dollar. Limit for one remittance, 200 rupees.

**West Indies and S. Africa.**—High values (2/- and over) are accepted at 1% premium. \$1—4/-.

**New Issues.**—New Issues of whatever value issued by any extra-European colony or foreign country (except those of discredited currency) are accepted at £1 os. 6d. per £1 face value. In the case of the issue of one or more stamps, the face value of which does not exceed 6d, not more than £10 worth in the case of a Colony, or £3 worth in the case of a foreign country can be taken without previous advice.

Of a full set from say, ½d. to 10/- in the case of a British Colony, any quantity up to £100 would usually be welcome. New issues can only be accepted at a premium if despatched within 30 days of their first issue.

### SPECIAL NOTICE.

The Colonial Stamp Market can also accept unused high value and new issue Colonial stamps, at above premiums, in payment of remittances to be made by it on behalf of readers. Such remittances can be made free of all charges anywhere in Europe, provided stamps are received in advance to the required amount at the above rates.

The Colonial Stamp Market is also prepared to cash unused Colonial Stamps for home readers, but the rates vary.

## Increase of Staff.

The Secretary of the Colonial Stamp Market has pleasure in announcing that on and from Monday, March 4th, his staff will be considerably increased, and it is now hoped that no further delay will occur in the execution of orders, or service of new issues. Collectors would greatly oblige by ordering by post instead of calling for stamps. In the latter event, a charge of 2/6 per hour will be in future made to cover loss of clerks' time.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, No. 19.

MARCH 9, 1901.

[GRATIS.]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/., the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/., a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

## Notice to Colonial Readers.

(N.B.—All rates quoted here are subject to alteration or cancellation without notice. Advantage will not, however, be taken of this proviso, unless warranted by very special circumstances.)

The Colonial Stamp Market would esteem it a favour if readers in the Colonies would make payments by means of current unused high value stamps, in mint well-centred condition. These can be accepted at the following rates.

**Australia.**—High values (1/6 or over) are accepted at 2½% premium, or at the rate of £1 os. 6d. for £1 face value. Remittances above the following amounts should, however, be made by cheque on London; above £10 (Fiji, New Zealand and Victoria); above £25 (N.S.W., Queensland, Tasmania and S. Australia). Values 1/- and under are not wanted.

**India, Mauritius, etc.**—High values (over 1 rupee) are accepted at the rate of 1/4 per rupee or 2/1 per dollar. Limit for one remittance, 200 rupees.

**West Indies and S. Africa.**—High values (2/- and over) are accepted at 1% premium. \$1—4/-.

**New Issues.**—New Issues of whatever value issued by any extra-European colony or foreign country (except those of discredited currency), are accepted at £1 os. 6d. per £1 face value. In the case of the issue of one or more stamps, the face value of which does not exceed 6d., not more than £10 worth in the case of a Colony, or £3 worth in the case of a foreign country can be taken without previous advice.

Of a full set from say, ½d. to 10/- in the case of a British Colony, any quantity up to £100 would usually be welcome. New issues can only be accepted at a premium if despatched within 30 days of their first issue.

### SPECIAL NOTICE.

The Colonial Stamp Market can also accept unused high value and new issue Colonial stamps, at above premiums, in payment of remittances to be made by it on behalf of readers. Such remittances can be made free of all charges anywhere in Europe, provided stamps are received in advance to the required amount at the above rates.

The Colonial Stamp Market is also prepared to cash unused Colonial Stamps for home readers, but the rates vary.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

CONDITIONS.—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable terms* are cash in advance, postage extra.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, NO. 21.

MARCH 23, 1901.

[GRATIS.]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

**D**URING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable terms* are cash in advance, postage extra.

## FOREIGN ARRIVALS.

### GREEK PROVISIONALS.

The recent provisional issues consist of all three issues of old Greek stamps surcharged in various ways and with various values. We distinguish roughly between the types of 1861 (Large Head of Mercury), 1886 (Small Head), and 1896 (Olympian Games). The ordinary values were sold by the Greek Post Office at 6d. per drachma; those surcharged "A.M." at 10d. per gold drachma. Nearly all varieties are now obsolete. The surcharged Olympian Games were in fact only in use a few days.

NOTE.—The locally printed specimens may be easily distinguished, being perf. 11, whilst those sent out from London are perf. 16. The latter seem likely to become scarce, as they were sold out in a very short time. It is reported that the London Market has been "caught short" and that one enterprising city dealer bought up most of the copies on sale and is now offering at 1/- each. Whether there be any truth in this rumour or not (and we believe it to be well founded) we are able to offer these stamps for a short time at 3/6 per dozen.

A further supply of this stamp printed in the old colours, lilac and red, has come to hand. As regards the issue in new colours chronicled some time ago, we are informed that they are not yet on sale and that the Postmaster General of the Colony does not know when they will be issued. The price of the 48c. lilac and red is therefore for the present reduced from 2/9 to 2/6.

Both directly and indirectly Federation may cause at an early date many alterations in the stamps of the Australian Colonies. # Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

## FOREIGN ARRIVALS.

### GREEK PROVISIONALS.

The recent provisional issues consist of all three issues of old Greek stamps surcharged in various ways and with various values. We distinguish roughly between the types of 1861 (Large Head of Mercury), 1886 (Small Head), and 1896 (Olympian Games). The ordinary values were sold by the Greek Post Office at 6d. per drachma; those surcharged "A.M." at 10d. per gold drachma. Nearly all varieties are now obsolete. The surcharged Olympian Games were in fact only in use a few days.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable terms* are cash in advance, postage extra.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/-, the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/-, a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-.

Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post or through a local news-agent.)

### ORDERS BOOKED IN ADVANCE.

THE Secretary of the British Colonial Market has made arrangements by which collectors can ensure obtaining sets of new issues by booking in advance. Immediately on arrival of a parcel from any colony, all want-lists on the file will be examined, and the necessary number of sets or stamps set aside. If clients have current accounts with us, the sets will be posted on at once. If price should exceed our usual charge of 1/2 per 1/., the option of keeping or returning the stamps will be given.

### TERMS FOR CURRENT ACCOUNTS.

WHERE clients wish to bespeak stamps of face-value not exceeding 1/., a deposit balance of not less than 10/- should be left with the Secretary (returnable on demand). All new issues will then be posted immediately on arrival. If stamps up to 5/- face value are desired, balance should be maintained at not less than 20/-, and if all new issues, regardless of face value, are required, deposit should not be lower than 40/-. Collectors opening current accounts with us practically ensure receiving a regular weekly supply of new issues.

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable terms* are cash in advance, postage extra.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

**EVERY ORDER IS EXECUTED BY RETURN OF POST.**

PRICE LIST, NO. 28.

MAY 11, 1901.

[GRATIS.]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number* of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

NOTE.—The reason for the issue of the above series is directly due to Federation. Under the Commonwealth fiscal and postal revenues are to be kept separate, and as the former "Stamp Duty" set of stamps served for both purposes, a new series for postal use had to be requisitioned. In order to minimise delay, old plates were made use of. The old "Stamp Duty" series remains in use for fiscal purposes, although as there are no fiscal rates of ¼d., 2d., 2½d., 4d. and 5d., these five values have been withdrawn from use. Now that the Commonwealth parliament has met, permanent Federation series for both services may be expected to supersede the above.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

Largest stock in the world of current Colonial Stamps (outside Government stores).

All Correspondence should be addressed to the Secretary, British Colonial Stamp Market, 32, Palace Square, Norwood, S.E.

PRICE LIST, NO. 30.

MAY 25, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made within 30 days.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, No. 31.

JUNE 1, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a) Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b) Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c) Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, NO. 32.

JUNE 8, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

**DURING** the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

**Terms.** The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

**Deposit.** The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made within 30 days.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

Of which supplies are expected shortly. Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, NO. 33.

JUNE 15, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

**D**URING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made within 30 days.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

Of which supplies are expected shortly. Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, NO. 34.

JUNE 22, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ¼d., ½d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

Terms. The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

Deposit. The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made within 30 days.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, No. 35.

JUNE 29, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a) Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b) Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c) Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

**Terms.** The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

**Deposit.** The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of 1d., 1/2d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

**Terms.** The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

**Deposit.** The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made within 30 days.

### EXPECTED SHORTLY.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, NO. 37.

JULY 13, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

**D**URING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ¼d., ½d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

**Terms.** The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

**Deposit.** The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made within 30 days.

### EXPECTED SHORTLY.

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, NO. 38.

JULY 20, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of 4d., 1d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

**Terms.** The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

**Deposit.** The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made within 30 days.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

CONDITIONS.—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, No. 39.

JULY 27, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

All Correspondence should be addressed to the Secretary, British Colonial Stamp Market, 32, Palace Square, Norwood, S.E.

PRICE LIST, No. 40.

SEPTEMBER 14, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the index-number of the set, the name of the Colony, and the price, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our invariable terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE British Colonial Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

Every patriotic British Collector takes an interest in the stamps of Great Britain and her Colonies, and desires to have them well represented in his album. The best specimens are those in perfect unused condition, and it is our endeavour to enable collectors to obtain in England what they require at very nearly the same price they would have to pay in the Colonies, in other words, at a very small premium on face value. By purchasing these sets under such conditions a collector will not only obtain an excellent foundation for his collection, but will have the satisfaction of knowing that his money is invested and not spent. In addition, every purchase, however small, means a contribution to the wealth and welfare of our Colonies.

Notwithstanding all the arguments brought forward by old-fashioned Dealers in favour of the Collection of Used Specimens, there is no gainsaying the fact that

UNUSED STAMPS ARE THE STAMPS OF THE FUTURE AND THEREFORE THE BEST INVESTMENT.

**£100 invested in Unused Colonial Sets in 1891, would now produce £575.**

**CONDITIONS.**—As we supply these Colonial stamps at a smaller rate of profit than has ever before been attempted in the history of stamp collecting, we find it necessary to send out solely against **cash in advance**. We guarantee every specimen sent out to be in mint condition (any specimen objected to will be exchanged if returned to us at once). Cheques and postal orders should be made payable to the Secretary, H. L. Ewen, postage being added, as we do not under any circumstances pay postage, nor do we hold ourselves responsible for stamps lost in the post.

EVERY ORDER IS EXECUTED BY RETURN OF POST.

PRICE LIST, NO. 41.

SEPTEMBER 21, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable terms* are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of *E.W.S.N.* can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the uncharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

### FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

**For £10 10s. Od. an almost complete Collection of Colonials can be obtained, containing all values up to 1s. and a few over.**

**For £42 the above Collection can be had in blocks of four. (Specially recommended).**

**For £45 an almost complete Collection, containing all high values up to £1 can be supplied.**

**For £180 this latter Collection can be supplied in blocks of four, making a magnificent show.**

**For £650 a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.**

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

PRICE LIST, NO. 42.

SEPTEMBER 28, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until too late (as has happened in the past), but readers of E.W.S.N. can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the unsurcharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For £10 10s. Od. an almost complete Collection of Colonials can be obtained, containing all values up to 1s. and a few over.

For £42 the above Collection can be had in blocks of four. (Specially recommended).

For £45 an almost complete Collection, containing all high values up to £1 can be supplied.

For £180 this latter Collection can be supplied in blocks of four, making a magnificent show.

For £650 a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

### The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of E.W.S.N. can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the unsurcharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

### FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For **£10 10s. Od.** an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over.

For **£42** the above Collection can be had in blocks of four. (Specially recommended).

For **£45** an almost complete Collection, including high values up to £1, can be supplied.

For **£180** this latter Collection can be supplied in blocks of four, making a magnificent show.

For **£650** a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and *at the lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of E.W.S.N. can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the unsurcharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

### FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For **£10 10s. Od.** an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over.

For **£42** the above Collection can be had in blocks of four. (Specially recommended).

For **£45** an almost complete Collection, including high values up to £1, can be supplied.

For **£180** this latter Collection can be supplied in blocks of four, making a magnificent show.

For **£650** a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of *E.W.S.N.* can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the uncharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

### FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For **£10 10s. Od.** an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over.

For **£42** the above Collection can be had in blocks of four. (Specially recommended).

For **£45** an almost complete Collection, including high values up to £1, can be supplied.

For **£180** this latter Collection can be supplied in blocks of four, making a magnificent show.

For **£650** a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

- \*Victoria, Head of King Edward. New £1 and £2 postage stamps.

# Unused British Colonial Stamps.

The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of *E.W.S.N.* can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the uncharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

**ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.**

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

### FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For **£10 10s. Od.** an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over.

For **£42** the above Collection can be had in blocks of four. (Specially recommended).

For **£45** an almost complete Collection, including high values up to £1, can be supplied.

For **£180** this latter Collection can be supplied in blocks of four, making a magnificent show.

For **£850** a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of *E.W.S.N.* can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 2/3 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the uncharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

### FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For **£10 10s. Od.** an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over.

For **£42** the above Collection can be had in blocks of four. (Specially recommended).

For **£45** an almost complete Collection, including high values up to £1, can be supplied.

For **£180** this latter Collection can be supplied in blocks of four, making a magnificent show.

For **£650** a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

## The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of E.W.S.N. can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the uncharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

**ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.**

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

### FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For **£10 10s. Od.** an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over.

For **£42** the above Collection can be had in blocks of four. (Specially recommended).

For **£45** an almost complete Collection, including high values up to £1, can be supplied.

For **£180** this latter Collection can be supplied in blocks of four, making a magnificent show.

For **£650** a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

# Unused British Colonial Stamps.

### The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of E.W.S.N. can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the uncharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

### FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For £10 10s. 0d. an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over.

For £42 the above Collection can be had in blocks of four. (Specially recommended).

For £45 an almost complete Collection, including high values up to £1, can be supplied.

For £180 this latter Collection can be supplied in blocks of four, making a magnificent show.

For £650 a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate piece of paper*, with name and address. Printed order forms will be supplied on demand. Our *invariable terms* are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

# Unused British Colonial Stamps.

The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of *E.W.S.N.* can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 1/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 2/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the uncharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For **£10 10s. Od.** an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over.

For **£42** the above Collection can be had in blocks of four. (Specially recommended).

For **£45** an almost complete Collection, including high values up to £1, can be supplied.

For **£180** this latter Collection can be supplied in blocks of four, making a magnificent show.

For **£650** a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the lowest possible prices, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 30 days*.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of *E.W.S.N.* can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the unsurcharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For £10 10s. Od. an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over.

For £42 the above Collection can be had in blocks of four. (Specially recommended).

For £45 an almost complete Collection, including high values up to £1, can be supplied.

For £180 this latter Collection can be supplied in blocks of four, making a magnificent show.

For £650 a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 10 days*. As soon as the deposit is exhausted, notice of renewal will be sent, and if the deposit account remains overdrawn, stamps may be charged at a higher rate.

*Returns.* The service of new issues can only be continued if the majority of the stamps sent are purchased. Care should therefore be exercised in giving the original instructions. Stamps should not be returned without a reasonable objection.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

### The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of *E.W.S.N.* can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the uncharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

FOR INVESTMENT PURPOSES.

**I**N making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

**For £10 10s. Od.** an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over. (In blocks of four, £42, pairs £21.)

**For £45** an almost complete Collection, including high values up to £1, can be supplied. (In blocks of four, £180; pairs, £90.)

**For £650** a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate piece of paper*, with name and address. Printed order forms will be supplied on demand. Our *invariable terms* are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ¼d., ½d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

**Terms.** The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

**Deposit.** The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 10 days*. As soon as the deposit is exhausted, notice of renewal will be sent, and if the deposit account remains overdrawn, stamps may be charged at a higher rate.

**Returns.** The service of new issues can only be continued if the majority of the stamps sent are purchased. Care should therefore be exercised in giving the original instructions. Stamps should not be returned without a reasonable objection.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of E.W.S.N. can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the unsurcharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For **£10 10s. Od.** an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over. (In blocks of four, £42, pairs £21.)

For **£45** an almost complete Collection, including high values up to £1, can be supplied. (In blocks of four, £180; pairs, £90.)

For **£650** a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

PRICE LIST, No. 54.

DECEMBER 21, 1901.

[SUPPLEMENT TO "E.W.S.N."]

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a separate piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ½d., ¼d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 10 days*. As soon as the deposit is exhausted, notice of renewal will be sent, and if the deposit account remains overdrawn, stamps may be charged at a higher rate.

*Returns.* The service of new issues can only be continued if the majority of the stamps sent are purchased. Care should therefore be exercised in giving the original instructions. Stamps should not be returned without a reasonable objection.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

### The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of *E.W.S.N.* can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the unsurcharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials

FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

For £10 10s. Od. an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over. (In blocks of four, £42, pairs £21.)

For £45 an almost complete Collection, including high values up to £1, can be supplied. (In blocks of four, £180; pairs, £90.)

For £650 a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.

LOW VALUES (Wholesale).

## Notice.

DURING the Season, this LIST WILL BE PUBLISHED WEEKLY, and can only be obtained by subscribing to *Ewen's Weekly Stamp News* (either by post—6/6 per annum or 1/6 for 12 numbers—or through a local newsagent—1d. every Saturday.)

### INDEX NUMBERS.

ALL orders should give the *index-number of the set, the name of the Colony, and the price*, and be written on a *separate* piece of paper, with name and address. Printed order forms will be supplied on demand. Our *invariable* terms are cash in advance, postage extra.

### NEW ISSUES.

#### REGULAR WEEKLY SERVICE.

THE Colonial Stamp Market now imports large quantities of all newly issued adhesive postage stamps, and any collector wishing to obtain such (in mint unused condition, well centred), directly they appear, and at the *lowest possible prices*, has only to send name and address, with a small deposit, to the Secretary of the Market, and a selection of new issues will be sent on approval once a week.

Every application should distinctly state:—

(a). Whether foreign stamps are required as well as British Colonials, or the latter only, or certain countries or colonies only.

(b). Whether all stamps regardless of face value are wanted, or whether only those up to 20/-, or 10/-, 5/-, etc. (The Colonial Market can furnish all, including £20 and £25 stamps, if required).

(c). Whether only single specimens are required or whether blocks or sheets are preferred. Sheets of ¼d., ½d. and 1d. stamps with full margins are generally imported; sometimes sheets of even the highest values can be supplied. Blocks of 4 to 12 can nearly always be furnished in any stamp.

*Terms.* The Colonial Market supplies new issues at the exceptionally low rate of 5/10 per 5/- face value, although in reckoning the price of low value stamps, fractions of a penny are generally reckoned as a penny.

*Deposit.* The usual deposit ranges from 10/- to £5, according to whether high or low values are wanted. Although the amount of each invoice is debited at once to the account, credit will be given for returns made *within 10 days*. As soon as the deposit is exhausted, notice of renewal will be sent, and if the deposit account remains overdrawn, stamps may be charged at a higher rate.

*Returns.* The service of new issues can only be continued if the majority of the stamps sent are purchased. Care should therefore be exercised in giving the original instructions. Stamps should not be returned without a reasonable objection.

### EXPECTED SHORTLY.

Orders can now be booked for the following:—

(Those marked with an asterisk will be sent out through the medium of our regular weekly service of new issues, and readers who are in receipt of the service need not therefore especially book their order, unless pairs, blocks or sheets are wanted.)

# Unused British Colonial Stamps.

The Finest Possible Investment. The Best Stamps to Buy.

Unused British Colonial Stamps are at the present moment one of the finest investments that anyone, whether collector or not, could wish to make, provided of course that they are purchased judiciously. It is safe to say that a collector five years hence would cheerfully pay £100 to have the opportunities that are free to everyone to-day. We fear these opportunities may not be appreciated by many collectors until lost (as has happened in the past), but readers of *E.W.S.N.* can have no excuse for not availing themselves of them. Splendid bargains have already been lost by procrastination. Last year (1900) the 10/- Trinidad and Niger Coast were freely offered by the Colonial Market at 11/8 apiece, and the £1 green and yellow Tasmanian could have been obtained for 23/4 (as much as £4 has already been offered and refused for this stamp), besides dozens of lower priced stamps such as the uncharged 25c. British Honduras, 5d. Trinidad, Ceylon 2r. 25c. yellow, surcharged, old Turk's Island, St. Vincent, Newfoundland, etc., etc. Many of those still offered will be equally scarce and desirable before the end of 1902. In all probability

ALL SETS QUOTED BELOW WILL SOON BE OBSOLETE.

Particular values may drop out at any moment, as in view of the preparation of new stamps with Head of King Edward, it is hardly likely new printings of the old stamps will be sent out to any colony. Therefore the collector who intends to buy, should translate his intention into action at once.

## Special Offers of Unused Colonials FOR INVESTMENT PURPOSES.

IN making an investment in stamps, it is necessary above all not to buy too many of any one stamp. If a large quantity of one kind are acquired, they will be difficult to realise, owing to the necessity of finding a large number of buyers. If on the other hand, a small quantity of a number of different stamps are put by, they can be realised without difficulty on even a small market. The best way to make money out of Colonial stamps at present is to consider oneself the advance agent of a future generation of collectors, and to put by as many collections of current issues as can be obtained nearly complete. They must be complete or nearly so, or you will perhaps miss just the stamps which have gone up in price most. About 70 sets are now current and practically all must soon become obsolete. Such a change is absolutely unprecedented in the History of Philately and being on so large a scale, it will be more difficult than ever before for dealers to adequately stock the old sets. Collectors consequently have a better opportunity of catching the market short and making big profits. Speculators who have bought up one or two kinds largely may cause a slump in such, but collectors who follow this advice and spread their investment over the whole of the Colonies have nothing to fear. Experience leads us to recommend the following Collections as the best possible investment for small sums of money.

**For £10 10s. Od.** an almost complete Collection of Colonials can be obtained, containing values up to 1s. and a few over. (In blocks of four, £42, pairs £21.)

**For £45** an almost complete Collection, including high values up to £1, can be supplied. (In blocks of four, £180; pairs, £90.)

**For £650** a unique Collection, containing nearly every present issued Colonial stamp up to 2/- face value can be furnished in complete panes of 60. Some few of the stamps are in sheets of 100 or 120.

The above Collections are all supplied at slightly under our already remarkably low quotations. For a fee of two guineas, they can be supplied neatly mounted in a blank album (one guinea extra, if required with moveable leaves). Otherwise they are supplied unmounted, in small grease-proof envelopes, every stamp being guaranteed in absolutely mint condition, with full gum.
