**THE WEEK'S NEWS.**  
(Continued from page 2501.)

**TASMANIA** (611 A 616).—Under date of 7.6.11 our Melbourne correspondent writes that the 6d. re-engraved (die II.) has just been issued perf. 12½. It was chronicled some little while back.

**URUGUAY** (615 C 616).—We quote from the *Bazaar* (28.6.11/1301).

URUGUAY.—Yet another effort to commemorate General Artigas was made quite unexpectedly on the 17th May last by the issue of two more provisionals, copies of which we have received from Messrs. Whitfield King and Co. The labels so disfigured were the 7 centesimos brown of the 1900 type, and our illustration shows the surcharge. The values are the 2c. in red on 7c. brown and 5c. in dark blue on 7c. brown. The following extract from a letter to our correspondent dated Buenos Aires, 24th May, 1911, sufficiently explains the position and character of this issue. "On the 17th instant, the Uruguayan postal authorities quite unexpectedly issued a commemorative set of 2c. and 5c. stamps to celebrate the centenary of the battle of Las Piedras, won by General Artigas, the portrait of whom appears on the current set of stamps. 50,000 of the 2c. and 100,000 of the 5c. were printed, and the Director General gave orders that only four of each value were to be sold to each applicant, but on this occasion the postal officials seem to have surpassed themselves, because they declared only a few hours after the stamps were put on sale that the 2c. value was exhausted, which of course is perfectly ridiculous, as I am told by several correspondents that it is universally believed that the officials themselves had cornered this value as a speculation. From several sources I managed to get forty sets, for which I have had to pay double face, and I enclose on approval nine sets on same terms, as you may like to have them."

**Ewen's Colonial Stamp Market, Ltd.**

**RESULTS OF THE FINANCIAL YEAR 1910-1911, ENDING ON SATURDAY, 1st JULY, 1911.**

We are pleased to be able to record another most successful year, the sales having shown a great expansion.

New Issue Service ... ..	Net sales increased 32%
Orders for current issues ... ..	" " 35%
Cheap used stamps (old issues) ... ..	" " 87%
Approval selections (old issues) ... ..	" fell 9%
Publications ... ..	" increased 35%
<i>Ewen's Weekly Stamp News</i> ... ..	...Subscriptions increased 2%

This is really a remarkable result for a business which for five years past has not averaged an expenditure of more than £30 per annum on advertising (apart from *E.W.S.N.*), and which possesses no follow-up system. The results are all the more surprising in that there are many more dealers interested in new issues than in the past, but competition apparently creates more business than it takes away, which confirms our recent statement that there is plenty of room for everyone in the stamp market without cutting prices.

The hobby has obtained an enormous advertisement in the columns of the *Daily Press* in connection with the issue of the Georgian stamps, and almost everywhere increasing business is reported.

**New Stamp Blocks.**

**HOW TO ILLUSTRATE STAMP PUBLICATIONS CHEAPLY.**

We pay out hundreds of pounds for stamp blocks, many of which are used only once and then lie idle for years. We feel sure these blocks would be of great use to other philatelic publishers and are willing to supply metal-mounted electros exactly similar to those used by our printers to illustrate *E.W.S.N.* at 1/3 each post free in the United Kingdom. A few day's notice is necessary and we can supply almost every design of postage stamp, adhesive or unadhesive.

Our printers, Messrs. Pardy & Son, The Triangle, Bournemouth, are authorized to use any of our stamp blocks to illustrate publications printed by them at a small charge per block, and the cost of printing an illustrated stamp catalogue is thus reduced to a minimum.

It is necessary for any intending publisher of an illustrated stamp catalogue or journal to write to the secretary, the Board of Inland Revenue, Somerset House, London, W.C., asking for permission to illustrate it.

The following new blocks are now available.

- 4859 to 4869 Argentine Centenary, 2c. to 1p. (the ½, 1c. are already available.)
- 4870 to 4880 Chile Centenary, 1c. to 50c.
- 4881 Chile, the rare 1906 1 peso.

We only have unsurcharged stamps, but our series is now nearly complete.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicates the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current Issue (616 N 617).—The 1½d. stamp has now been printed by Messrs. Harrison & Sons.

Harrison print.

1½d. pale purple and bright yellow-green instead of purple and dark green.

Issued 13.7.11 or earlier. The first specimens to hand were from a Bradford collector, who purchased them there on 13.7.11. Another Bradford collector writes on 15.7.11:—"I went into a Bradford Post Office to register a letter this morning which had two 1½d. stamps on it; the Post Office official called my attention to the great difference in shade and general appearance to mine and a portion of a sheet he had before him. He said what they had for sale at present were, without doubt, the Harrison printing."

We hope to distribute the 1½d. Harrison print with our New Issue Service this week and blocks of four will be sent at face value to all clients whose accounts are in credit. If not required they can of course be returned.

The sheets of 1½d. Harrison stamps are really a marvel of what we venture to describe as misplaced ingenuity, but most of it appears to date from the days of Messrs. De La Rue & Co. We describe it thus, as surely there would be no objection to putting a plain contract letter and date on the margin, instead of constantly tampering with the bars round the panes in such a way that the uninitiated examining them might suppose the plate had met with a serious accident. The sheet before us is one mass of scars, which we tabulate as follows:—

1½d. head plate. Bottom margin of sheet.

2nd stamp 5th stamp 6th stamp 11th stamp

I V I I

On an old sheet of De la Rue stamps we find the first of the above marks under the first (instead of the second) stamp of the row, whilst the dot under the sixth stamp is in almost exactly the same position. The marks "V I I" only occur on the Harrison sheets, and as they occur under the fifth and the 11th stamps it is reasonable to infer they stand for "May, 1911." But to proceed further:—

1½d. head plate. Top margin of sheet.

2nd stamp. White dot on top edge of bar.

7th stamp. " " lower " "

Margin under upper pane.

1st stamp and 8th stamp. Misshapen margin which may be accidental.

1½d. duty plate. (Undoubtedly the same plate used for both our sheets of De La Rue and Harrison stamps).

Bottom margin of sheet.

2nd stamp. Big curve in green line.

7th stamp. Small indent.

Top margin of sheet.

11th stamp. White dot on lower edge.

Margin under upper pane.

5th stamp. White dot on lower edge.

Right margin of sheet.

(bars counted upwards from bottom).

1st bar accidentally worn.

12th " faint curve on outer edge of bar.

18th " clear curve " "

Left margin of sheet.

(bars counted upwards from bottom).

1st stamp green bar cut and rejoined.

4th " " cut and left open.

15th " " " "

18th " " cut and rejoined.

19th " " " "

The following corners are cut.

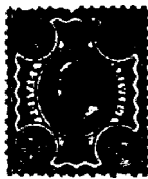

Upper pane, N.W. (once); S.W. (twice).

Lower pane, N.W. (once).

Here we have a collection of no less than 23 injuries which have been inflicted on the two plates, of which all except the "V I I" appear to date from the days of Messrs. De La Rue & Co.

It is rather surprising that Messrs. Harrison should allow all these cuts and chips to remain as they run the risk of being blamed for them.

Mr. Oswald Marsh informs us the following was issued 16.7.11 or earlier and we have since received entire sheets.

Harrison print.

4d. orange, perf. 14. Cut on bar under 2nd stamp in lowest row and opposite first stamp in 2nd horizontal row of sheet (counting from the bottom).

Beyond these we have not noticed any cuts.

In a sheet of the 4d. King George stamps just received half the marginal bar under the sixth stamp in the lowest row of the top pane is missing. If only the other half of the bar would break away we should have a stamp without marginal line! The sheet also has a cut in the bar under the 1st stamp in the lowest row of the top pane, which is very unusual; there is also the usual cut on the bar opposite the 4th line from the bottom of the sheet.

The following is a summary of the Harrison prints to date:—

5th May, 1911 King Edward ½d. (shades)

22nd June, 1911 " " 1d. (shades)

10th July, 1911 King George ½d., 1d.

13th July, 1911 King Edward 2½d.

16th July, 1911 " " 1½d.

16th July, 1911 " " 4d.

Readers who notice other values would confer a favour by informing us.

We have carefully gone over a sheet of the De La Rue 1½d. stamps and find a defect that we do not remember to have seen remarked upon before. Immediately on either side of the value shield the upper edge of the curtain-fringe is bordered by two lines. These are clear at the left side but on the right side the upper line of the two is very faint, so much so sometimes as to be hardly visible. In the Harrison printing these two lines stand out so boldly on both sides as to give the impression that the die has been retouched.

**Stationery** (614, 616 S 617).—Mr. E. W. Floyd writes:—"There is a variety in the King Edward letter cards on white paper. In a packet of 12 I found three without any stop after the direction on the back of the card. As the stop is very distinct on the others, it is possibly a regular variety and not due to bad inking as the inscription itself is very clear. Apparently the Post Office is clearing out its waste stock as they are now sending out the embossed envelopes made up in packets of 23 for 24 (the commercial size). The packets are completed by adding extra envelopes to packets of 12."

The new stationery recently issued may be summarized as follows:—

### POST OFFICE ENVELOPES.

Edwardian Stamps with numbered dies.

### WRAPPERS.

No recent change yet noted.

### REGISTRATION ENVELOPES.

26.6.11 3d. brown, King George, die (?) W.

Sizes F, G.

\*We are informed by Mr. H. Rehlen that he purchased specimens of the King George letter-card at the Forest Hill Post Office at 10 a.m. on Coronation Day and has one postmarked 4.45 p.m., 22.6.11. There must consequently have been a small advance issue. Elsewhere the issue is

only recorded as having commenced 7.7.11 and in the meantime the King Edward cards on white paper were issued.

About April, 1911, the various kinds of stationery, other than envelopes, manufactured by Messrs. McCorquodale & Co., Ltd., instead of by Messrs. De La Rue & Co., are believed to have been issued, but we were unable to find any at the local post offices that could be definitely distinguished as such.

The 1d. envelope, die 50, listed above is a remarkable resuscitation of an old die. It was shown us by Mr. Oswald Marsh.

**ARGENTINE REPUBLIC** (616 M 617).—The *Madrid Philatélico* (7.11/129) states the following new stamp contracts have been placed.

American Bank Note Co., of New York.

5 centavos, engraved 110,000,000.

12 " " 10,000,000.

To be of new design, said to have been proposed in October last by the eminent philatelist Dr. José Marco del Pont, President of the *Círculo Filatélico Argentino*. The die has been engraved by the sculptor Lubyary.

**AUSTRIA** (591 Z 617).—We are informed that 5 and 10 kronen postage due stamps were to be issued on 16.7.11.

**BARBADOS** (608 P 617).—We understand that the new issue of stamps has been ordered and that the design will be of the same small size as the current issue and will bear the head of King George in a small oval in the upper half and the Barbados arms beneath.

**BAVARIA** (616 N 617).—We are glad to note the remarks of the *Deutsche Briefmarken Zeitung* (4.7.11/121) on the subject of the back-dating when postmarking the recent jubilee issue for collectors. It will be remembered that the Bavarian Post Office allowed postmasters for four or five days to postmark the stamps "10th June." This is a very serious error of judgment on the part of the Bavarian Post Office. Whilst we are of opinion that the postmarking of stamps for collectors is a legitimate concession (we have already in these columns defended it by showing that a postmark is no evidence that a stamp has been on a letter); yet it is, or should be, evidence that a stamp was postmarked at the time and place printed on it. But from June 11 to 14 Bavarian postmasters were allowed to date back their postmarkers to 10.6.11, a proceeding that should be the subject of a strong protest from philatelists, lest a dangerous precedent be created. It will be remembered that some years ago the Fiji (Suva) Post Office allowed the remainders of its old issues to be sold with false postmarks, i.e. from genuine handstamps but with false dates inserted, to make the stamps appear that they were used at the time of issue. Fortunately no account was taken of varieties, such as perforation, and many of the remainders bear impossible dates.

We are shown the 25 pf. by Mr. Shmulowitz in a new shade.

New shade.

25 pf. deep Prussian blue instead of dull blue.

Issued 9.5.11 or earlier.

**CANADA** (613 U 617).—Our latest importation, purchased at Ottawa, 26.6.11, brought the 5c. King Edward in quite a distinct shade.

Concerning this stamp the *Philadelphia Stamp News* (24.6.11/109) says:—"Shades of Canadians, both obsolete and current, are many, but the 5 cent now appears in a shade that would seem to merit catalogue recognition. I have seen a number of sheets of this new shade, on all of which the plate number is cut off the top, and appears thus, P O 71 (the P being reversed), subject to the curtailment referred to. The new colour may be termed a 'milky blue' and the inscription 'Canada Postage' and 'Five Cents' which shows up so white on the ordinary old shade is now of a faint blue tinge."

## The Geographical Importance of Philately.

WE used to be told that stamp collecting was to be encouraged because it was a valuable aid in teaching history and geography. But is it?

The modern standard of collecting as set by almost all our societies endeavours to eliminate history and geography and substitute watermark and perforation. Is this right?

Are we not straying from the high road of progress? However much interest we may take in minute variations, the public at large will never respect the hobby on that account.

Let us admit that the study of perforations and watermarks is not the aim of our hobby. Let us realize that a stamp collection should illustrate the postal history of the world and open up new interest in geography, history, currency, languages. When we begin to learn more of our fellow-men, we shall be less anxious to fight them. Let the postage stamp be the pioneer of peace!

We cannot all collect everything, but what a mean and narrow view of Philately we take when we limit our collection to stamps with gum upon them, when we limit our world to the British Empire (great as it is) and ignore the existence of other nations!

If it is true that the King has settled his collection of stamps as an heirloom, his Majesty has set his subjects an admirable example. What more pleasing idea than that of a stamp collection handed down as an heirloom from generation to generation, each new owner being responsible for keeping it up to date?

The ideal collection of stamps is one that comprises the stamps of the whole world, adhesive and unadhesive, classified in sets on a simplified basis, each set being supplemented or not, according to individual fancy, by varieties. The sets illustrate the postal history of each country and the varieties the philatelic history of each set. Collectors on these lines would find in Philately a common bond extending over the whole civilized globe.

We might then essay with some hope of success to translate into philatelic terms the following programme of the Royal Geographical Society.

Owing to the great increase in the membership of the society, which now has nearly 5,000 Fellows, and to the extension of the library and the map and photograph collections, the present premises of the society in Savile Row are quite inadequate for the purpose.

An opportunity has occurred of obtaining premises near the present building, which would excellently suit the society's purposes. The sum required to purchase the freehold of these premises and to adapt the buildings upon them to the society's needs amounts to over £100,000.

Lord Curzon, President of the Royal Geographical Society, is appealing for funds to enable the society to acquire the new premises and any further information will be supplied by the secretary of the society. Contributions may be directed either to Lord Curzon or the secretary, at 1, Savile Row, W., or may be sent to the bankers of the society, Messrs. Cocks, Biddulph and Co., Charing Cross.

When will Philately ask for £100,000?

## The New Stamps.

### MORE PRESS CUTTINGS.

From the *Times* (8.7.11):—

To the Editor of the *Times*.

Sir,—Your correspondent "W." advises the Post Office to get a better likeness of the King and print the stamps better, and this advice is being given on all sides. It seems, however, not to be generally understood that as regards the printing no complaints were heard so long as the old plates of the King Edward stamps were used, though many millions must have been printed by the present contractors since January of this year. It was only when the plates of the King George stamps came into use, for the design and engraving of which the printers were not responsible, that an outcry was raised about the bad printing. If a good design is reproduced by a first-class engraver accustomed to stamp engraving nothing more will be heard of bad printing.

Yours faithfully,

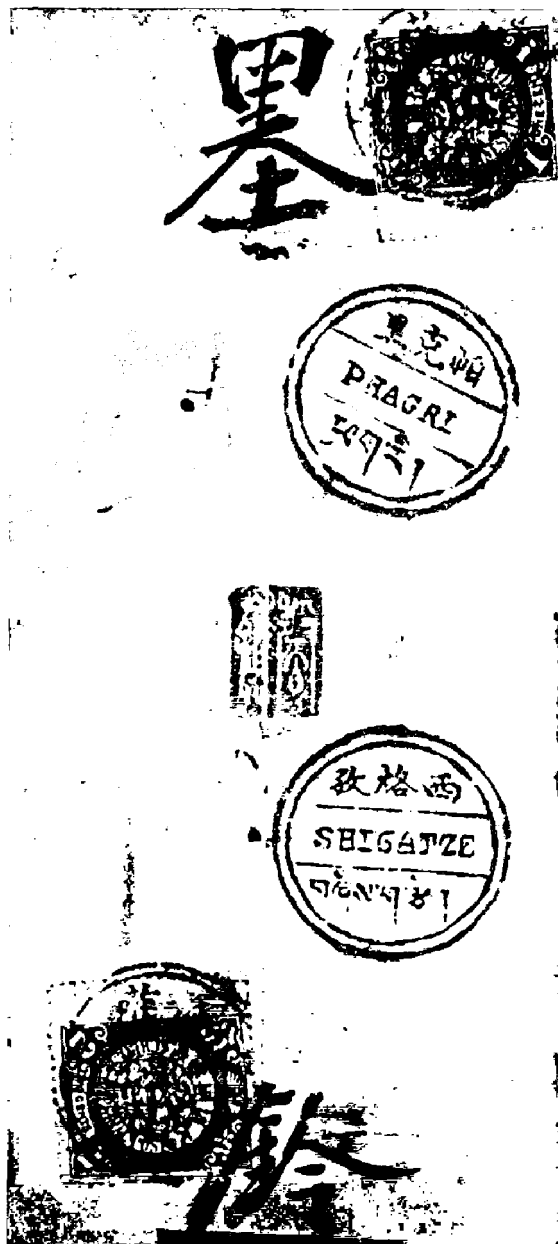

REGINALD J. LAKE, Secretary, Federation of Master Printers of the United Kingdom.  
24, Holborn, E.C., July 7.

[Mr. Lake is quite right; numbers of collectors and even philatelic editors said they could see no difference in the Harrison prints of the Edwardian stamps and it was freely proclaimed that collectors to be sure of having them would require corner blocks with control letter "A 11".—Ed., *E.W.S.N.*]

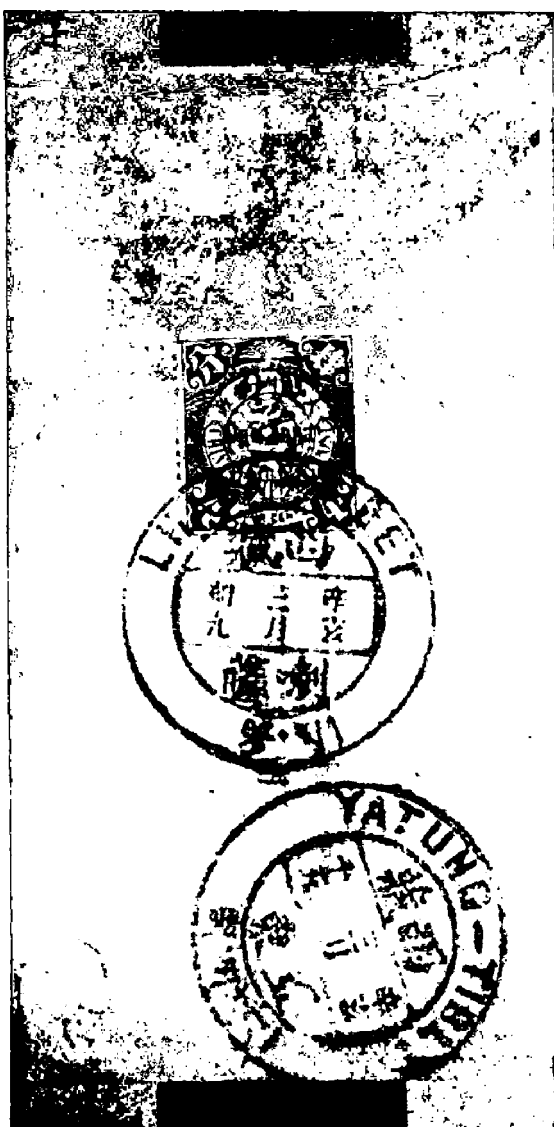

The *Manchester Daily Despatch* (10.7.11) publishes nine designs for new stamps, which are evidently not intended to be taken seriously!

CHINESE P.O., TIBET (614 B 617).—We are indebted to Mr. W. T. Wilson for the ability to illustrate this week two envelopes posted in Tibet. Our illustrations in each case show the front of the envelope, the address (in Chinese) being at the back. The first envelope is franked with ordinary Chinese stamps; the second with the new surcharged issue. The postmark "Phagri" gives the older name of Pharijong.

LETTER WITH UNSURCHARGED STAMPS.

LETTER WITH SURCHARGED STAMP.

CEYLON (614 T 617).—We quote from the *Indian Planter's Gazette* (10.6.11):—

Philatelists would do well to take note that in a few weeks' time a Ceylon 3-cent stamp of a different pattern to the one at present in use will be issued. The alteration, says the *Ceylon Observer*, will consist in a change in the printing of the value, which, instead of being in white on a shaded ground, will be in colour on a white ground. A comparison of the present 3 cent stamp with the 15-cent stamp, which has been taken as a pattern for the new stamp will show the difference. The Ceylon stamps with the effigy of King George will not be issued till next year.

Since writing the above the 3c. stamp has been received.

CHILE (614 R 617).—The *Illustriertes Briefmarken Journal* (8.7.11/307) chronicles and illustrates two new postcards, issued as a supplement to the 1910 commemorative issue.

### Postcards.

1c. green Portrait of Blanco.  
2c. carmine " Lastra.

The portrait of General Blanco is not new to Chilean postage stamps, as it appears already on the adhesive \$2 stamp.

The 2c. honours Colonel Francisco de la Lastra, a former Governor of Valparaiso, who, after Talca had been retaken by the Spaniards on 4.3.1814, was entrusted by the Chilean patriots with the government and organised a corps of 1500 men, which was despatched to the South under Captain Blanco and retook Talca.

The *Tarapacá Filatélico* (4.11/105) states that there is no new set of postage due stamps such as has been recently chronicled. It adds: "As our readers will recollect, in our issue No. 13 we recounted how the Chilean Government had decreed that all stamps other than those of the Centenary and "Islas de Juan Fernandez" issues should be demonetized as from 15th November, 1910. Since that date all letters franked with the old stamps have had them cancelled with a hand-stamp inscribed "MULTADA—cts—IQUIQUE" (or other name of town)."

We think our contemporary is hardly quite correct. Even on the facts as presented by it, it may be argued that the stamps on the letters are converted to postage due stamps by the surcharge, which is hardly of the nature of a postmark.

But in point of fact the chronicle of these stamps originated with *Ewen's Weekly Stamp News*, No. 563, 8th July, 1910, four months earlier than the date mentioned by our contemporary and our first set was issued at Valparaiso on 23.5.10, still earlier. We have had all the stamps in large unused blocks with full gum.

COLOMBIA, MEDELLIN (533 H 617).—In addition to the 50c. brown in the small oblong type chronicled in *E.W.S.N.* No. 532, a 50c. green has been issued and the *Stamp Collectors' Fortnightly* (8.7.11/85) add three new values.

Small oblong design, with figure of value in upper left hand corner. Lithographed on white paper, perf. 12.

½c. green.  
1c. mauve.  
2c. crimson.  
50c. brown.  
50c. black-green.

The stamps bear the imprint "J. L. Arango, Medellin."

DOMINICAN REPUBLIC (611 M 617).—The *Madrid Filatélico* (7.11/125) states that a further supply of stamps of the current issue has been ordered from Germany (where previous supplies were printed).

Postage.  
1c. 500,000 20c. 200,000  
2c. 1,000,000 50c. 30,000  
5c. 1,000,000 \$1 20,000  
10c. 200,000

Postage due.  
2, 4, 6, 10c. each 50,000

The 20, 50c. and \$1 have not yet been printed on watermarked paper, but probably will be seeing that a further quantity has now been ordered from the printers. The varieties known of the current issue are at present:—

Postage, black centre.  
No wmk., ½, 1, 2, 5, 10, 20, 50c., \$1.  
Wmk., ½, 1, 2, 5, 10c.

Postage due.  
No wmk., 2, 4, 5, 6, 10c.  
Wmk., 2, 4, 6, 10c.

Official.  
No wmk., 2, 5, 10, 20c.  
Wmk., 2, 5c.

The 5c. watermarked postage due has been printed, see *E.W.S.N.* No. 489.

**DUTCH INDIES** (603 N 617).—The *Berliner Briefmarken Zeitung* (10.6.11/264) states that it is under consideration to print the current stamps in fugitive colours, as the Chinese population have become adepts at cleaning off the postmark and using the stamps a second time. It is also proposed to overprint the remainders of the old issues, nineteen varieties in all, with the word "DIENST" (Service) for use as official stamps in a similar way to the special German issues of a year or two back. This is not at all unlikely, remembering that the Java and Buiten Bezit issues were also made for statistical purposes.

**FRENCH P.O., ALEXANDRIA** (530 A 617).—The 15c. it is stated by *La Circulaire Philatèlique* (7.11/194) is appearing in a lighter shade approaching vermilion.

**GREECE** (616 B 617).—The following new postcard is recorded by the *Deutsche Briefmarken-Zeitung* (4.7.11/123):—

Postcard.  
5 lepta, green on cream card.

**GUATEMALA** (601 F 617).—*Der Philatelist* (7.11/106) chronicles two new stamps.

*Pictorial Designs.*

25 centavos, dark blue and black.  
5 pesos, vermilion

**HONGKONG** (616 U 617).—A correspondent of the *Philatelisten Zeitung* (7.11/116) states that a Chinese stamp dealer has been sentenced to three months imprisonment for cleaning high-value Hongkong stamps and postmarking them for sale to collectors. If our contemporary's correspondent (Mr. C. Piens, Kowloon) has correctly translated the Hongkong newspapers, the stamps were in the first place taken from bank drafts and such like documents and he adds that as the result of an agreement between the Postmaster-General and the banks, the latter have taken to puncturing their stamps with their initials, and he adds that "the result was in some cases so astonishing that the usual disbursement for stamps fell to the half of former sums." We do not see the point of this remark, unless the writer intends to imply that the banks had also been losing their stamps by theft. Anyway, there must have been extensive wrongdoing, as Mr. Piens says he was offered in one lot over 1000 high value stamps, postally used, their full face value being asked.

**ICELAND** (616 I 617).—*Der Philatelist* (7.11/106) states that the first edition of the 4 aur stamp consisted of 30,000 stamps and was sold out in a few days.

**NEWFOUNDLAND** (616 K 617).—Mr. R. Delamarre writes us that his set of the Coronation issue shows two perforations, the 1, 2, 3, 4, 5 and 10 cents being  $13\frac{1}{4} \times 14$  and the 6, 8, 9, 12, 15c. perf. 14. Our own stock appears to be uniformly perf. 14.

**NEW HEBRIDES** (600 D 617).—*La Circulaire Philatèlique* (7.11/188) publishes a letter from Mr. E. Cheval, of Sans-Souci, stating that the French series of the bi-national design had not arrived at Port Vila up to 6.5.11 and that in consequence the Postmaster had not yet been authorized to sell the British series to the public.

**NICARAGUA** (611 Y 617).—In addition to the four fiscal stamps overprinted *Correos* (Posts) chronicled in *E.W.S.N.* No. 6, *Der Philatelist* (7.11/107) notes the following:—

Fiscal stamps overprinted "Correos—10 cts.—1911."  
10c. on \$2 grey.

**PAPUA** (616 F 617).—A correspondent writes: "I note in your article on Papua in No. 616, 15th July, 1911, you say that the Stamp Duty stamp being attached to letters, the watermarks cannot be seen.

"In these stamps I always look for the watermark along the surface instead of through the stamp, and if they are not creased find it quite easy to find it; the watermark on the current English  $\frac{1}{2}$ d. and 1d. can be easily seen in this manner.

"In describing the 2/6 type iii. with thin bar, you say No. 10 on the sheet has a white dot over the figure 2 in right-hand corner. Should this not be in the angle between foot and body? I possess a sheet of this stamp, issue 13, normal watermark, type ii., thick bar.

"A noticeable stamp on the sheet with thin bar is No. 8 with broken 'O' in 'Postage' on the left. You can no doubt verify this. I only have the one specimen in the sheet in my collection."

**PORTUGAL** (613 C 617).—We quote from the *Daily Telegraph* (13.7.11): "Portugal has for many years allowed certain institutions the privilege of free postage, and has permitted such organisations to have their own distinctive adhesive stamps. These stamps have no indication of denomination, and the societies which have the privilege include the Red Cross Society, the Civilian Rifle Union, the Geographical Society of Lisbon, and the National Aid Society for Consumptives. Of the stamps used by these societies only that of the Geographical Society appears to require amendment in design since the revolution, and the design of this has been redrawn in practically the same form, but omitting the Royal Crown. The redrawn stamp is now in use, printed as before in red, black and blue, and perforated  $11\frac{1}{4} \times 12$ ."

**PORTUGUESE ANGOLA** (610 L 617).—The following stationery is reported by the *Deutsche Briefmarken Zeitung* (4.7.11/121).

*Lettercards.* Overprinted "Republica."

25 reis, rose-red on cream.  
25+25 reis " "  
50 reis, lilac-brown on grey.  
50+50 reis " "

*Postcards.* Overprinted "Republica."

10 reis, green on cream.  
10+10 reis " "  
20 reis, blue-lilac " "  
20+20 reis " "

The surcharge, as in the case of the adhesives, is green on the 25 reis, rose, and red in the case of all the other values.

**PORTUGUESE GUINEA** (584 B 617).—The following are reported by *Le Timbre-poste* (10.7.11/93):—

*Issue of Dom Carlos overprinted "Republica."*

2½ reis, grey.  
5 " orange  
10 " green.  
20 " lilac.  
25 " carmine.

5 reis, green on buff.  
5+5 reis, green on buff.  
10 reis, glue-lilac on buff.  
10+10 reis, blue-lilac on buff.

The overprint is in red on all values except the 1 tanga rose, which has green surcharge. The 2½ tangas letter-card and 1 tanga postcard do not figure in the above list.

**PORTUGUESE MACAU** (609 F 617).—In addition to the  $\frac{1}{2}$  avo already chronicled, *Le Timbre-Poste* (10.7.11/93) lists the following:—

Overprinted "Republica."

2 avos, green.  
4 " carmine.  
8 " blue.

**PORTUGUESE MOZAMBIQUE COMPANY** (616 V 617).—The *Deutsche Briefmarken Zeitung* (4.7.11/124) chronicles the following stationery.

With Lisbon overprint "Republica."

*Letter Cards.*

In green on 25 reis, carmine on buff.  
In red on 50 reis, lilac-brown on grey.

*Postcards.*

In red on 10 reis, lilac on buff.

" 20 reis, blue-lilac on buff.  
" 20+20 reis, blue-lilac on buff.

**PORTUGUESE TIMOR** (584 B 617).—The first values of the Republican set are recorded by *Der Philatelist* (7.11/108).

Dom Carlos issue, overprinted "Republica."  
 $\frac{1}{2}$  avo, grey Red overprint.  
1 " salmon " "  
2 " green " "

**ROUMANIA** (615 L 617).—The *Illustriertes Briefmarken Journal* (8.7.11/312) states that the 25 bani parcel stamp is being used as a postage due stamp.

**SOUTH AUSTRALIA** (616 Y 617).—It seems that very few 9d. Crown SA perf.  $12\frac{1}{2}$  were issued as on 12.6.11, only nine days after the first issue, the Deputy Postmaster-General wrote that he could find no more, the stock on hand then being entirely wmk. Crown A.

**TURKEY** (611 N 617).—We translate from *La Circulaire Philatèlique* (7.11/193):—"At the end of May last, a rumour circulated to the effect that the 25 and 50 piastres stamps of the 1901-1905 issues of Turkey were to be surcharged on the occasion of the visit of the Sultan to Roumelia. This proceeding had been proposed to the Committee charged with the sale of the remainders by one of the higher officials, but the Committee did not consider the proposition favourably and a special postmark was proposed instead. Some days after this check, the proposition was again put before the Minister of Posts and Telegraphs who again rejected it, giving as his reason that the stamps being already gummied, the sheets would stick together if printed upon. Those interested in the creation of the surcharges did not however admit defeat. Having secured permission from the Minister of Finance, three sheets of 100 each of the 25 piastres were surcharged '5 piastres' and three sheets of 100 of the 50 piastres with '10 piastres.' These were only done as essays to support a new application to the postal minister and to contradict his technical advisers in their assertion that the sheets would become stuck together. Should the Administration accept the proposition, the stamps would be withdrawn from the sale of remainders. In the meantime six competitors have made the necessary deposit of 10,000 francs (£400) entitling them to bid for the remainders: two Parisian firms, one London firm, one from Berlin, one from Constantinople (through a third person) and a sixth whose identity has not yet transpired."

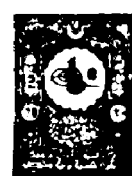

Our contemporary adds that "at the last moment news has been received that the surcharges have been authorized and that the remainders will not be sold."

The same journal chronicles an issue consisting of remainders of old issues overprinted "Souvenir du Voyage Impèrial" in commemoration of the Sultan's visit to Roumelia (Salonique, Monastir, Uskub and Pristina).

The five designs of Turkish stamps issued in the last ten years are the following:—

1901  
FOREIGN  
POSTAGE.

1901  
INTERNAL  
POSTAGE.

1905

1908

1910

The remainders of the 1901 and 1905 issues were recently to be offered for sale by public tender, but as stated a new use has been found for them by surcharging as under.

Overprinted "Souvenir du Voyage Impèrial."

1901 (Foreign postage).  
10, 20, paras, 1°, 2°, 5, 25° and 50 piastres.  
1901 (Interior postage).  
5°, 10°, 20 paras, 1°, 2, 5, 25 and 50 piastres.  
\* Surcharged in red, others in blue.  
1905 (Blue surcharge).  
2½, 10 piastres.

As regards the issue, the official decree states that 500 complete sets have been sent to each of the four offices: Salonique, Monastir, Uskub and Pristina with strict instructions to issue them to the public in complete sets only. Although some are surcharged on the 1901 foreign postage issue, the stamps are only available for internal postage. The postage due stamps of 1901—10, 20 paras, 1, 2 and 5 piastres—have also been overprinted, plus the 5 paras of the current issue.

The stamps were issued on 22.6.11, and were to remain in use fifteen days. They were allowed to be sold unused or postmarked, as the purchasers might prefer.

As regards the 1908 issue, the remainders are being issued until exhausted and several values of the 1910 sets cannot even yet be had.

*Deposit Accounts.*—All payments (for whatever purpose) are credited to a deposit account, and all invoices (whether for stamps, albums, subscriptions or postage, etc.), are debited to such account. This deposit account should not be overdrawn. The balance is returnable post free on demand.

*Returns.*—Stamps which are not as ordered may be returned within 10 days and their full sale price will be re-credited to deposit account.

*Bank notes.*—20 mark = 19/6; 50 francs (French) 39/8; 50 francs (other countries), 39/6; 50 lire, 39/6; 20 kronen = 16/6; 20 kroner = 22/-; 10 gulden = 16/6; 10 roubles = 21/-; U.S.A. dollar = 4/1.

Cheques payable to "Ewen's Colonial Stamp Market, Ltd.," or "Ewen's, Ltd.," postal orders, money orders (inland and foreign) etc., payable to "Ewen's, Ltd.," at "Anerley Road, S.E." Cheques on France and Germany accepted at same rate as bank notes, also bons de poste.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current Issue (617 O 618).—Just after we went to press last week, we were informed by a Wrexham correspondent that he had received the 1/- stamp in a new shade. The stamp is undoubtedly another addition to the list of Harrison prints.

Harrison print.

1/- rose-red and very dark green (instead of carmine and green); ordinary instead of chalky paper. Perf. 14.

Issued 19.7.11 or earlier. The only cuts are in the green line, one cut each under stamps Nos. 1 and 6 in the bottom row of the sheet. It will be a pity if Messrs. Harrison & Sons abandon their "V II" system. It is to be noted that all stamps as yet printed by Messrs. Harrison & Sons are on ordinary instead of chalky paper.

The only other adhesive stamps of the Edwardian series at all likely to be printed by Messrs. Harrison & Sons are the 2d., 3d., 5d., 7d., 9d. and 10d. and of these it must be remembered that a large stock of the 2d. (dark green) and 7d. were printed as recently as May 1910 (approximately). We are rather surprised that the 3d. Harrison print has not been heard of before now.

We quote from the *Daily Graphic* (21.7.11):—

"House of Commons.

"Mr. Hobhouse, in a printed reply to Mr. Touche, says the plates of the new series of George V. stamps were prepared by the Mint.

"He adds that the denominations of adhesive stamps to be printed at Somerset House are the 6d. and 2s. 6d. unified postage and revenue, the 5s., 10s., and £1 postage, and all the revenue and fee stamps proper."

**Stationery** (617 T 618).—*Correction.*—The new envelope chronicled last week should have been ½d. die 50, not 1d. die 50. The list of post office envelopes stamped with numbered dies should be as follows:—

### POST OFFICE ENVELOPES.

#### Edwardian Stamps with Numbered Dies.

23.3.11	1d. envelope,	die 80	Court
7.4.11	½d. "	die 70	?
29.4.11	1d. "	die 85	Court
20.5.11	½d. "	die 75	Size N
6.6.11	1d. "	die 83	Commercial
26.6.11	1d. "	die 84	Court
10.7.11	½d. "	die 50	Size N
20.7.11	½d. "	die 76	Size O

The ½d. die 76 is chronicled by *Oswald Marsh's Weekly Circular* (22.7.11), which also reports the 1d. postcard, McCorquodale print, as having been obtained at Lombard Street Post Office, London, E.C., on 10.7.11.

**ARGENTINE REPUBLIC** (617 N 618).—Special letter cards have been issued in connection with the establishment of a pneumatic tube post in Buenos Aires.

#### Pneumatic Post Letter-card.

30c. carmine on white.  
60c. " grey.

**AUSTRALIA** (616 W 618).—We quote from the *British Australasian* (13.7.11).

#### TO LEARN ALL ABOUT STAMPS.

Mr. G. T. Allen, Secretary to the Commonwealth Treasury, who is leaving London to-day on his return to Australia, is going via Canada and the United States. In taking this route, Mr. Allen is actuated by a desire to make inquiries with regard to methods of printing stamps and Treasury notes. In England he has been greatly interested in this work, and has

been given special facilities for observing operations at the Royal Mint. The equipment at the departments, both in Washington and Ottawa, is understood to be very complete, and Mr. Allen will visit both institutions in response to cordial invitations which have been extended to him.

It would appear from this that no special Commonwealth issue will be made in the near future, notwithstanding that the Competition designs are now under consideration.

**AUSTRIA** (617 A 618).—We have received the new Postage Due stamps referred to last week.

New Values. Postage Due Stamps.

5 kronen, violet.

10 " "

Issued 16.7.11? (Our earliest postmark is 19.7.11). All the other values of the Postage Due stamps of this design are printed in rose and the following varieties are known to us.

#### POSTAGE DUE STAMPS.

(33) Glazed paper, appearing yellow if held up to the light.

1, 2, 4, 6, 10, 20, 30, 50, 100 heller.

(34) Thin unsurfaced paper, appearing white if held up to the light.

1, 2, 4, 6, 10, 20, 100 heller.

(35) Same as 34 but thicker paper.

2, 10, 25, 30, 50, 100 heller.

The 5 and 10 kronen belong to set 35.

**BELGIUM** (616 T 618).—We quote from the *Bazaar, Exchange and Mart* (21.7.11):—

#### NEW BELGIUM STAMPS.

Belgium is to have some new stamps, and the *Globe* expresses the hope that they will be better than our Coronation issue. The stamps will appear in October, and are being produced at Malines. Conformably to the requirements of the Postal Union of Berne, which demands uniform colours from all countries in the Union for stamps of the denomination of 5, 10 and 25 centimes or their equivalents, these stamps will be respectively in green, red, and blue. The 100 centime stamps will be salmon-coloured. It will not bear the King's head, but on a quadrille ground will appear a large figure one (franc).

The two centimes stamp bears the heraldic lion, with the denomination in the bottom corner. The colour will be brown. The stamps from 10 centimes to 5 francs will carry the royal effigy. The 20 centimes stamp will be olive, the 35 brown, 40 green, and 50 grey. The 1 franc will be in orange, that of 2 francs in violet, and the 5 francs amaranth. The stamps of 40 centimes, withdrawn some years ago, and the 5 francs, re-introduced, are now issued for use on telegrams, which can be deposited in the tramway boxes in suburban districts and small towns.

**BRITISH HONDURAS** (568 M 618).—A further supply of 2, 5 and 25 cents stamps has been ordered from England and is expected to be delivered in the colony about 12.11. Will they have portrait of King George?

**CEYLON** (617 U 618).—We have received the 3 cent adhesive stamp with value in a white ground instead of in white on a lined ground as heretofore.

Value in colour on white ground.

3c. green.

Issued 5.7.11 or earlier.

**CHINESE P.O., TIBET** (617 C 618).—We are informed (26.6.11) by Mr. W. T. Wilson that the new surcharged stamps are used at five Post Offices, Lhasa, Gyantse, Yatung, Pharijong (Phagri) and Shigatze. Our correspondent adds

that their *raison d'être* is as follows. The Imperial Chinese Post Office is negotiating an arrangement with the Indian Post Office for an exchange of mails from Tibet to China and other countries. At present there is no agreement and the Chinese Post Office is charged full rates for all articles handed over to the Indian authorities at Gyantse and Yatung. The stamps are to recoup the Chinese Post Office and have to be affixed by the sender in Tibet in addition to the inland postage. As soon as the agreement is entered into the stamps will become obsolete. An additional 1¼a. is charged on registered articles if an acknowledgment is required.

**GAMBIA** (535 F 618).—Mr. A. M. Hoppett writes:—

"I write to call your attention to a variety of the 3d. Gambia. The copy I purchased from you early in June last was pale purple on pale yellow. I received a copy from a friend a day or two ago (who had them from Gambia) which was deep purple on deep yellow. When compared they (to my mind) represent two distinct varieties."

**GUATEMALA** (617 G 618).—*El Eco Postal* (15.7.11/1912) illustrates the new 25c. and 55 stamps and publishes the text of the decree authorizing their creation.

It also publishes a decree authorizing new printings by Waterlow & Sons of the existing stamps, viz.:—

500,000	50 centavos.
200,000	20 "
200,000	12½ "
100,000	1 "

The portrait on the new 55 stamp is that of the Constitutional President of the Republic, Manuel Estrada Cabrera, Lic. D. The 25c. stamps show the Central Post Office.

**HONGKONG** (617 V 618).—We are informed by Messrs. Graça & Co., that the 30c. and the 50c. have now been issued in the new colours.

#### New Colours.

30c. yellow and purple Issued 1.7.11.  
50c. black on green " 29.6.11.

Both are on chalky paper with multiple Crown CA watermark.

**NEWFOUNDLAND** (617 L 618).—The 10c. of the Guy issue is now out of issue, the stock being exhausted.

As other correspondents have pointed out differences in the perforation of the Coronation Issue, we have made a close examination of our stock and find we were wrong last week in stating that it was uniformly perf. 14. We did not examine the stock very closely at the time of receipt, because it arrived on a Thursday morning and was included straight away in our Weekly New Issue Service distribution, which was just commencing to be despatched, but there is no doubt that our whole supply consisted of the following varieties:

#### CORONATION ISSUE.

- (i.) Comb perforation 13½ x 14, thick brown gum. 1, 2, 3, 4, 5, 10 cents.
- (ii.) Single-line perforation 14, small holes (resembling Waterlow perf. and already used for the engraved Guy issue); thin white gum. 6, 8, 9, 12, 15 cents.

The brown gum gives the paper the feel of being thicker.

**NEW HEBRIDES** (617 E 618).—As the authorities have failed to supply us with sets for our New Issue Service and other subscribers, we have secured a few sets indirectly which we are offering first of all to subscribers of our New Issue Service at 7/6 per set, but we shall continue to endeavour to obtain a supply for distribution at face value, that is, if the issue is not exhausted. Our subscribers must decide for themselves whether a bird in the hand is worth two in the bush. The authorities appear to prefer supplying the stamps to speculators rather than to regular subscribers.

THE WEEK'S NEWS.

(Continued from page 2517.)

**PORTUGUESE ST. THOME AND PRINCIPE** (584 B 618).—The Dom Carlos issue is chronicled by *Der Philatelist* (7.11/108) with overprint "Republica."

Dom Carlos issue overprinted "Republica."

- 2½ reis, grey.
- 5 " salmon.
- 10 " light green.
- 15 " "
- 20 " lilac.
- 25 " rose.
- 50 " chocolate.
- 75 " red-lilac.
- 100 " blue on light-blue.
- 115 " red-brown on light rose.
- 130 " chocolate on cream.
- 200 " red-lilac on light rose.
- 400 " dark blue on cream.
- 500 " black on blue.
- 700 " light violet on cream.

The overprint is red except on the 25 reis, rose, in which case it is green.

**ROUMANIA** (617 N 618).—Our latest importations include several new shades and varieties.

Issued at Bucarest, 24.6.11.

(510) 2 lei; this is in a brighter shade of red than our last supply.

(511) We now have the postage due 5 bani, old design, with white back, perf. 11½ × 13½.

(512) A few sets of the postage dues current on this date include the 10 bani of the new design, perf. 11½ and the other values in the old design, but the 2 bani is now in quite a dull green shade instead of the usual emerald. The 5 bani emerald is perf. 13½ × 11½, white back, but was issued at the same time as the 5 bani described under No. 511 above.

(513) The 1½ bani, yellow are on a peculiar paper resembling the rice paper of the Charkhari 1 pice stamps, and the perforation 13½ × 11½ is blind.

Issued at Bucarest, 14.7.11.

(514) The 2 bani Postage Due of the old design is still coming over in the dull green shade, white back, perf. 11½ and we now have sheets of it.

(515) The 5 bani postage stamp, yellow-green, previously perf. 13½, is now re-issued perf. 11½ all round.

(516) We notice amongst this latest supply of the 1½ bani that some have perforations very clearly cut, 13½ × 11½.

(517) Some of the 1½ bani yellow are also perforated 13½ clean cut by 11½ blind.

The stamps on the plate of the 1½ bani are very irregularly placed or perhaps the plate has had a bad knock. The end stamp of one row has a good slice taken off the top right-hand corner.

We have also received all the values of the new design.

Postage Due Stamps.

- 2 bani, dark green on greenish yellow.

All were stated by *L'Echo de la Timbrologie* (15.6.11/383), to have been issued on 7.5.11, perf. 11½, but all our supply are perf. 11½ × 13½, except the 2 lei and some of the 10 and 50 bani.

Varieties Known.

Paper with impressed (?) wmk. PR in monogram.

- Perf. 11½, 2, 5, 10, 15, 20, 30, 50, 60 b., 2 lei.
- Perf. 11½ × 13½, 2, 5, 10, 15, 20, 30, 50, 60 b.

**RUSSIA** (616 R 618).—We are indebted to the President of the St. Petersburg Philatelic Society for copies of the acts relating to the mysterious Postage Due stamp previously referred to in these columns.

The issues of 17.6.09 and 13.4.10 of the *Sobranie Usakoneni i Rasporazheni Pravitelstva* purport to give full details of the regulations

governing the transmission of correspondence between the courts and suitors but there are so many references to previous acts that it is difficult to understand their use. For instance, clause 15 (art. 588) of the latter issue (page 958) describes the stamp and adds:—"As regards the preparation, stocking, distribution, sale and cancellation of these stamps, as also the book-keeping and accounting, the regulations applicable to the use of stamps for court taxes, are to be observed, as set out in the Statute concerning Stamp Duties (fiscal revenue)." So we do not get much further.

Clauses 14 and 15 of the supplement to article 267 (S.U.R.P., 17.6.09/957) also state that the laws concerning the use of stamps for court taxes apply but add that the postman is to receive 15 kopeks (about 4d.) for each letter; that a stamp of 15 kopeks is to be attached to the cover of the letter and cancelled according to the ordinary postal regulations.

Summarizing the regulations we come to the conclusion that all court letters, summonses, etc. are to be delivered if possible by the court officials (as heretofore), failing which the letters are to be inscribed "Court Registered Letter" and delivered to the addressee by post, either by regular post or rural post, or failing that means, by special messenger. An "acknowledgment of receipt" form has to be signed by the addressee and stamped with a 7 kopek postage stamp, and if a messenger is employed he has to pay the expense in cash, which may come to several shillings.

Stamps already exist inscribed "for the court messenger" and are affixed to the letter when it is delivered by such, but when, as is provided by the new law, the functions of the court messengers are undertaken by a postman, the stamp is to be inscribed "for the postman." The revenue goes to the Treasury of the General Post Office if the letter is delivered over a post office counter; otherwise it is refunded to the postman as remuneration for delivering the letter.

The court stamps in use in the past are private stamps somewhat similar in status to those issued years ago by the colleges of Cambridge and Oxford in this country, but the special issue now being made appear to be regular postally issued "postage due" stamps, though limited to use in connection with court correspondence.

**SOUTH AUSTRALIA** (617 Z 618).—Our Melbourne correspondent says it is the opinion in Adelaide that Gibbons Nos. 380—386 do not exist as a regular issue, but are due to an irregularity in the 12 or 12½ single-line perforating machine.

**SPAIN** (607 X 618).—A new description of stamp is foreshadowed by *El Eco Postal* (15.7.11/1923) on the authority *El Liberal* (2.7.11). The new stamps are of very simple design and are to be used in connection with postal money orders.

**TRAVANCORE** (608 J 618).—We have received a new value of the current set.

New Value. 3 chuckrams, violet.

Issued 30.6.11 or earlier.

**UNITED STATES** (615 S 618).—Concerning the reason for the recent change in watermark, a correspondent of the *Philatelic Journal of America* (1.8.11/11) says:—

"The change in watermark was not made in order that one letter shall appear complete on each stamp, nor because the larger double-lined letters did not accomplish the purpose for which they were intended. The purpose of the small watermark as stated by the Director of the Bureau of Engraving and Printing, in letter of April 7th, 1910, was that it would increase the strength of the paper and give it a more uniform thickness.

*Postmaster Indicted.*—Our American contemporary (p. 91) further gives some particulars of the Travers case. The Chief Clerk in the office of the Third Assistant Postmaster General, Arthur M. Travers, was called upon, during the illness of his chief, to act as Third Assistant Postmaster General and did his work so well that he was voted \$1000 extra pay by Congress. At the time experiments were being made with a new kind of paper, described as "bluish experimental part-rag paper" and of the 40 sheets (roughly speaking) of each value one was reserved for the department and the remaining 39 issued. The indictment alleges that Travers took \$20 worth face value of the special stamps and substituted ordinary ones for them. It is extremely doubtful whether legally this can be established as theft, but in any case the postal laws forbid postal employees to deal in United States stamps at more than their face value and it is alleged that Travers gave the stamps to a Mr. Steinmetz of the Philadelphia Stamp Co. for sale for joint profit and that some of the specimens were sold for as much as £10 apiece. Travers has been dismissed from the Postal Service and both he and Steinmetz will shortly be placed on trial. The case will be watched with interest, as there are not a few Post Offices where the clerks deal in stamps for a profit.

**American Philatelic Society's 25th Anniversary Stamp Exhibition.**

CHICAGO, 22ND TO 26TH AUGUST, 1911.

A Competitive Stamp Exhibition will be held under the auspices of the American Philatelic Society in the Art Institute, Chicago, Illinois, August 22nd to 26th, 1911, inclusive; which dates include those of the Society's Annual Convention, the latter having been announced to open on August 22nd, 1911, at Chicago.

The exhibits are classified as follows (we condense the descriptions):—

Class I. Section 1.  
(a) U.S.A. "all in"; (b) Hawaii; (c) Philippines; (d) Canal Zone, Porto Rico and Guam.

Class I. Section 2.  
(a) U.S.A. cut square envelope stamps; (b) U.S.A. revenues; (c) U.S.A. revenues, private issues.

Class II. Section 1.  
(a) Confederates; (b) U.S.A. locals; (c) U.S.A. telegraph stamps; (d) U.S.A. express franks.

Class II. Section 2.  
Collection of 50 or less rare covers.

Class III. Any one other country.

Class IV. Collections of two or more countries.  
(a) all issues; (b) 20th century only.

Class V. (i) General collection of 100 varieties of unused stamps from not less than ten countries; (ii) General collection of 100 varieties of unused and used stamps from not less than 10 countries.\*

\* The Committee do not explain how a general collection of 10 countries can be simplified to 100 varieties though perhaps countries like Wadhwan and Poland are meant.

Class VI. Juvenile.  
(a) Collections; (b) 100 pictorial stamps; (c) portrait stamps; (d) 100 early issues; (e) 20th century stamps.

Class VII. (a) literature; (b) catalogues and albums; mechanical aids and appliances.

Further particulars may be obtained from Mr. C. E. Severn, Oxford Building, Chicago, Ill.

**Correspondence.**

Mr. J. W. Stooke writes (23.7.11):—

"I was interested to read your notes re the Harrison printing of other values of the King Edward stamps over the penny value, and can state some of them have arrived so far west as Clifton, Bristol. I have the 1½d. exactly as you record, also the 2½d. with cut under the first stamp, and the fifth with cut under the first stamp, also the 4d. orange with perforations in left margins, which I am sure must be Harrison's printing owing to the whiteness and apparent thinness of the paper. Perhaps you may not have noticed in all the values from 1½d. up to the 1/- the sheets are perforated through the margin at the top of sheet, but not at the sides, and in a few cases through the bottom and up to the top, this I take is when the sheet is fed in the machine upside down. Now in the Harrison prints you will find they are perforated through the side margin. This appears to me an easy way to tell the Harrison prints. The only exception I have seen to the above is the 4d. green and brown chalky obtained in 1907. The Harrison prints of the 4d. and 1d. seem to be done with the same plates as were used by Messrs. De la Rue & Co. I have three or four varieties of each."

Mr. H. S. Park writes (22.7.11):—

"Within a week of the Coronation, I bought some of the new George V. stamps; I examined them, and found a 4d. one in which there is a smudge above the King's right eye. This extends about half-way across the background towards the oval encircling the head; I cannot tell you the position of the stamp on the sheet except that it is in the left-hand row, being next to the stamp paper. I have also received through the post the George V. 1d. stamp with the boundary line quite broken opposite the 'p' of 'postage'. The line is also irregular and slightly broken below this flaw. Trusting this may be useful."

Mr. J. A. Limpus writes (17.7.11):—

"With reference to the note in your paper, No. 612, under Brunei, I have a 2c. Brunei, grey-black and scarlet, multiple C.A., printed on the wrong side of paper.

I also have 1d. Turks and Caicos Islands, multiple C.A., ship type, printed on the wrong side of paper."

**GREAT BRITAIN (†)****Envelope Die Numbers.**

Nearly half the collection recently advertised  
at £550 has now been sold, there having been  
quite an extraordinary reawakening of the  
demand for these stamps lately. The remainder  
of the collection, priced to about £300, can be  
sent on approval with 25% discount or 50% on  
a large purchase. It weighs about 20 lbs.

**Railway Postage Stamps.**

The Editor has just finished sorting the whole  
of his duplicates according to printings. There  
are 128 standard varieties listed in our Reference  
List, but by collecting printings these can be  
extended to about 800. The Editor has over  
500 of these amongst his duplicates and offers  
them at the all round rate of 1/- per stamp nicely  
arranged in a collection on 56 large sheets with  
manuscript notes. Some are used, and a few of  
the rarer varieties are included. The Editor  
would be very glad to exchange with other col-  
lectors, and is mainly short of common recent  
varieties.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

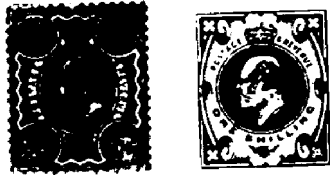

**GREAT BRITAIN.**—Current Issue (618 P 619).—One more "Harrison print" is to hand this week.

Harrison Print.

9d. purple and blue, ordinary paper.

Issued 24.7.11 or earlier. The Harrison prints known to date are as follows:—

Harrison Prints.

5th May, 1911.	King Edward, ½d., 1d.
22nd June, 1911.	King George, ½d., 1d.
10th July, 1911.	King Edward, 2½d.
13th "	" 1½d.
16th "	" 4d.
19th "	" 1/-
24th "	" 9d.

There still remain the 2d., 3d., 5d., 6d., 7d., 10d., 2/6, 5/-, 10/- and £1 stamps of the Edwardian series, but the 6d., 2/6, 5/-, 10/- and £1 stamps are to be printed at Somerset House (and perhaps already are, as the present 6d. are very slightly different). The 7d. we know was printed largely as recently as May 1910 and a stock of the 2d. in darker green was created about June 1910 to replace the destroyed 2d. magenta, so this leaves only the 3d., 5d. and 10d. to be expected in the near future, though the 2d. and 7d. are also possibilities.

### NEW ISSUE OF STAMPS.

Mr. Hobhouse (Secretary to the Treasury), replying to several questions on the new issue of postage stamps, stated that the present contractors had recently been working extra time with the object of accumulating reserve stocks. The approximate proportion of deliveries within the last fortnight of stamps printed from De La Rue plates was 40 per cent. of the total deliveries during the same period. The denominations of adhesive stamps to be printed at Somerset House were the 6d. and 2s. 6d. unified postage and revenue, the 5s., 10s., and £1 postage, and all the revenue and fee stamps proper. The plates for the new series of King George the Fifth stamps were prepared by the Mint, and the division of responsibility between the Mint and the new contractors had worked satisfactorily.

From the above it would appear that ½d. and 1d. King Edward stamps are still being printed and there is just a bare possibility that they may survive until control letters A12 or B11 come into use!

In some booklets recently purchased the ½d. and 1d. stamps do not show the characteristics of either De La Rue or Harrison prints. Could they have been printed at Somerset House? Blocks of four of each value, with inverted watermark, will be sent out with our New Issue Service this week.

**Stationery** (618 U 619).—We quote from *Oswald Marsh's Weekly Circular* (29.7.11/1):—

**EDWARD VII. LETTER CARDS, McCORQUODALE PRINTS.**—Dr. E. W. Floyd draws our attention to the fact that on some of the McCorquodale printings the stop after the inscription on the back of the cards is missing. We have examined our stock and find that about one-fifth of them show this variety.

Dr. Floyd also tells us he has two copies of the blue card showing no stop after the line of inscription on the front lower margin.

We also notice that two different perforating machines have been used for the King Edward white cards, one has 60 small holes of perforation at the sides, the other has 61 large holes; the difference is very marked.

McCORQUODALE PRINTS.

Letter Cards, on blue paper.

- Normal variety.
- No stop after inscription on back.
- No stop after inscription on front.

Letter Cards, on white paper.

- Normal 60 holes at sides.
- Normal 61 holes at sides.
- As (a) but no stop after inscription on back.
- As (b) but no stop after inscription on back.

We have examined our own stock of the white card issue and found about eight varieties, fairly equally assorted.

Varieties of the inscription

- no stop at back.
- small i in if.
- bent N in additional; broken stop.
- blot on B of Be.
- S of Supplied broken at foot.
- E of 2nd E of The on front broken.
- blot on i of if.
- unidentified.

Of course, except for the "no stop" variety, these are not of much importance, unless one wants to reconstruct the plates. We quote from the same source:—

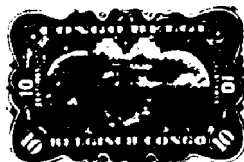

**KING EDWARD 1D. REPLY POST CARDS.**—*De La Rue print.*—These are now being issued without the inscription, "This side for the address," but it seems a difficult task to locate any offices that have a stock of them.

Edward VII. 1d. Reply Card; four lines of inscription at top.  
1d. carmine-red on buff.

**BAVARIA** (617 O 619).—In our latest supply the 10 and 30 pfennig are in slightly different shades to those received before, the 10 pf. being brighter and the 30 pf. darker. The shades probably do not indicate new printings.

The Jubilee 5 and 10 pfennig are now obsolete, the whole issue having been sold.

**CONGO** (611 B 619).—Three more values of the current set are reported with the "TAXES" overprint, ostensibly for use as postage due stamps.

*Bilingual Issue.* Overprinted "Taxes."

- 40c. green and black.
- 5f. lake "
- 10f. green "

The *Bulletin Mensuel* (25.7.11/1) quotes them at 2/-, 16/-, and 24/- respectively unused.

**ICELAND** (617 J 619).—The Sigurdsson 4 aur has been reissued but there is no sign yet of the other values that we were led to expect.

**MONACO** (591 O 619).—We illustrate the postage tax stamps chronicled in *E.W.S.N.* 591.

**PORTUGUESE MOZAMBIQUE COMPANY** (617 W 619).—Mr. R. Martin writes to the *Postage Stamp* (29.7.11):—

"Regarding the MOZAMBIQUE Co. stamps overprinted 'Republica,' a friend in sending me a set writes as follows: 'The stock of the Co. has been very restricted on the lower values, viz.: 2½, 5 and 15 reis, only 12,000, 11,000 and 19,000 respectively were issued, and the two smaller values have been long since exhausted at the post offices.' This, of course, refers to the stamps overprinted locally, on which the word 'Republica' reads from left to right downwards while the Lisbon overprint reads upwards."

Dealers who ordered the local prints were allowed to have one copy each of the 2½ and 5 reis for every 100 sets (10 to 700 reis) purchased! The sets included the 15 reis, however. We suppose it is the usual story of speculation. The only remedy is for the Postal Union to require its constituents to reserve a certain quantity of every new stamp for stamp dealers who are regular subscribers.

**SALVADOR** (615 M 619).—We illustrate the three Centenary stamps chronicled a month ago.

**SERVIA** (609 R 619).—Stamps of a striking new design are chronicled by the *Bulletin Mensuel* (25.7.11/4). The stamps have "5—Servian Royal Post—Para" along the top in small lettering and the whole of the rest of the stamp consists of a lined ground with a portrait of King Peter. There is no oval, no frame of any kind.

*New Design.*

- 5 para, green.
- 10 " rose.
- 25 " blue.

**SOUTH AUSTRALIA** (618 A 619).—Mr. W. B. Edwards writes:—

"Re your note on S.A. in the current number *E.W.S.N.* The "Adelaide" opinion was expressed by me many months ago in the *P.J.G.B.* from my own observation and research. I have communicated this to Gibbons also months ago, and they will delete the said numbers from the next catalogue. I am writing an article on long S.A.'s for the *M.J.*, and all this is referred to there."

**SWEDEN** (615 F 619).—The 1 krona black on yellow of the new series was issued 23.7.11 or earlier.

*New Design and Colour.*

- 1 kr. black on yellow.

**TURKEY** (617 O 619).—Matters seem to have been much worse than we supposed, when we listed 17 stamps to commemorate the Sultan's visit to Roumelia. The name of each town visited—Salonique, Monastir, Pristina and Uskub—was surcharged on the stamps issued by it and older issues as well as the 1908 issue were made use of so that there are altogether, according to the *Bulletin Mensuel* (25.7.11/2)

- 6 sets for Salonique
- 6 " Monastir
- 7 " Pristina
- 7 " Us-Kub

or a total of 120 varieties!

## Colour.

We have recently been investigating the subject of Colour, and so far as our enquiries have gone are of opinion that no exact system of colour nomenclature is possible, nor would it be of any practical value if it were.

At the very outset one is confronted by the fact that our eyes, with which alone we can see, are human, and are not all tuned to the same degree of efficiency. Moreover colours are affected by any other colour in their neighbourhood; a violet stamp, for instance, placed on a red background will be appreciated by the eye differently to a violet stamp placed on a blue background. Sunlight, gaslight, electric light, etc., all affect the judgment of the eye. Thus, although the eye in a given set of circumstances may telegraph to the brain that it sees a violet stamp, shade No. so and so in somebody's colour chart, it does not follow that the telegram can be confirmed elsewhere by somebody else, for the circumstances may be different.

Then again the question of colours is one that concerns many trades, each of which has adopted a different nomenclature; in fact many firms give their dyes, inks or paints proprietary names, so that there are probably not less than 10,000 different colour names in every day use in England alone at the present day, and any attempt to evolve simplicity out of this multiplicity would result in serious confusion and disturbance of trade.

In practice it will probably be found best to leave the trades their different names, which often convey more than the mere description of colour. So far as philately is concerned, a much wider choice of names might be made and would invest the more distinctive shades with greater interest and individuality.

The 10/- cobalt of Great Britain is quite a famous stamp, but it owes its fame as much to its name "cobalt" as to its rarity. The colour is not the true cobalt but what is known to ink makers as "imitation or artificial cobalt." The 2 grana cobalt of Sicily is more the correct shade. Another interesting shade in British stamps is the 6d. plate 6 of August 1868 which the present writer, when he discovered it called "bright lilac." "Bright lilac" does not however confer sufficient individuality, and the stamp has remained almost unknown and unsought. It should have been called "the sixpenny heliotrope."

### WHAT IS COLOUR?

Ludwig Boltzmann in the introduction to his *Vorlesungen über Maxwell's Theorie der Elektrizität und des Lichtes* quotes Goethe (Faust) thus:—

"So soll ich denn mit saurem Schweiss Euch lehren, was ich selbst nicht weiss."

This verse appears to us particularly appropriate in the present instance, for we do not pretend to have studied the subject at all deeply. We came to the conclusion that if we waited with a view to treating the subject with thoroughness we should wait for ever.

### COLOURS MENTIONED IN THE BIBLE.

The first mention of a colour in the Bible is Genesis i. 30, where there is a reference to "green herbs," but "light" is mentioned in verse 3. Adjectives of colour are used with great sparingness throughout the Bible, although several adjectives of colour in use at the present day occur in conjunction with introductory words such as "like," e.g.:—

Cant. iv. 3.—"Lips like scarlet."

Isa. i. 18.—"Red like crimson."

Such colours as rose, lilac, orange and many others now in common use are not mentioned at all. The following is a list of those we have found, but most do not occur more than once or twice in the whole Bible.

**Alabaster.** Esther i. 6 is remarkable as giving seven colours, which are supplemented in a marginal note:—

"6. Where were white, green, and blue\* hangings, fastened with cords of fine linen and purple to silver rings and pillars of marble: the beds were of gold and silver, upon a pavement of red, and blue, and white, and black marble.†"

\*Marginal note "violet."

†Marginal note "pavement of porphyre, and marble, and alabaster, and stone of blue colour."

Here porphyre and alabaster are used in the sense of red and white.

**Amber;** "Colour of Amber" (Ezek. i. 4).

**Bay,** see "grisled."

**Bdellium;** "Colour of bdellium" (Num. ii. 7).

**Beryl;** "Colour of a beryl" (Ezek. i. 16; Dan. x. 9).

**Black, blackish.**

**Blood;** colour may be meant in Rev. xix, 13.

\* "So, then, I will, by sweat of brow teach you, what I, myself, don't know."

**Blue** (seldom occurs).

**Brass;** "colour of burnished brass" (Ezek. i. 7; Dan. x. 6).

**Brown.**

**Crimson.** There is a descriptive note on this colour in Cruden's Concordance, p. 84.

**Crystal;** "colour of the crystal" (Ezek. i. 22).

**Emerald;** "rainbow in sight like unto an emerald" (Rev. iv. 3).

**Gold, golden.**

**Gray;** the spelling "grey" only occurs in the compound word "greyhound."

**Green, greenish.** Green is the first colour mentioned in the Bible (Gen. i. 30).

**Grisled.** The modern spelling is *grizzled*, meaning grey. Zechariah vi. 2, 3 reads:—  
"2. In the first chariot were red horses; and in the second chariot black horses.  
3. And in the third chariot white horses; and in the fourth chariot grisled and bay horses."

**Hoar, hoary;** used as a synonym of grey but now surviving only in such expressions as hoarfrost, hoaryheaded.

**Ivory;** "as bright ivory" (Cant. v. 14).

**Light;** "white as light" (Matt. xvii. 2).

**Purple;** nearly always used to mean "raiment of purple colour" but Rev. xvii. 4 has "in purple and scarlet colour."

**Raven;** "black as a raven" (Cant. v. 11).

**Red, reddish.**

**Ruddy;** "my beloved is white and ruddy" (Cant. v. 10).

**Sapphire;** "paved work of a sapphire stone" (Exod. xxiv. 10).

**Scarlet.**

**Silver;** "the silver cord" (Eccl. xii. 6).

**Wine;** "Wine when it is red, when it giveth his colour in the cup" (Prov. xxiii. 31).

**Vermilion;** "painted with vermilion" (Jer. xxii. 14); "pourtrayed with vermilion" (Ezek. xxiii. 14).

**Violet;** "apparel of violet" (Esth. viii. 15); see also Esth. i. 6; this name only occurs in marginal notes.

**White.**

**Yellow.** Only used in the expressions "yellow hair" and "yellow gold."

That colours were an attraction in themselves to the ancients is made clear even in Genesis, where it is related that "Jacob made a coat of many colours for Joseph" though the colours are not described.

### COLOURS AS SURNAMES.

An interesting side-light on the history of colour nomenclature is thrown by our modern surnames which mostly date from early times. Black, Grey, White, Brown are common enough. Red always figures as "Reed" which is the old pronunciation; there is not a single "Red" in the London directory. Another common name is "Green" but it originated in the same way as Mead (meadow), Plaistow (playground), Field, Park, etc. Orange and Blue are both surnames which occur in the London directory but there is no instance of yellow, buff, lilac, mauve or purple.

The original "Rose" may have carried on business under the sign of a rose or like "Pink," his name may have been due to his complexion. Violet and Blanche do not seem to occur as surnames but like Rose are common enough Christian names, which, however, are not derived from the colours but with the colour-names come from a common source, flowers.

### SPECIAL COLOUR VOCABULARIES.

Previous to the 19th Century colour nomenclature was a comparatively simple subject, as chemistry had not as yet enriched civilization with the multitude of dyes we know at the present day. There were however distinct sets of colour-names which, as at the present day, custom seldom allows to be interchanged.

Thus, horses are spoken of as chestnut, bay, roan (blue-roan, red-roan), white, cream, black, dapple-grey, dun, etc., and several of these adjectives when used alone substantively are understood to refer to horses only, as in the expression "a pair of bays." The Bible (v. supra) has "red horses," "grisled horses." Cf. A dun cow, a black and tan terrier (not black and brown).

In speaking of the hair of the human head we prefer such colour-names as auburn, golden (not to speak of gingery or carrotty hair!), silver, iron-grey, flaxen, etc., in addition to the common black, grey, white, brown, yellow, red. But we never speak of buff or bistre locks. (Cf. also brunette, blonde).

The complexion again furnishes its own vocabulary. A complexion is swarthy not black (cf. German *schwarz*, black); ashen-grey, not grey or ash-grey; a person more often blushes than reddens; our skin is tanned by exposure, not browned, though we can "get brown." We speak of "a black eye" but a bruise is "black-and-blue" instead of bluish-black or black.

I do not purpose to delve further into the

matter of special colour vocabularies nor, as I admit would be interesting, to enquire into the vocabularies of such writers as Chaucer, Shakespeare, Dickens. But in view of the importance of Latin (or its contemporary vulgar dialect) as an ancestor of the English language of to-day, I may refer to the list of 58 Latin colour-names on page 55 of the index to the French Horticultural Society's colour chart (though the list is incomplete). The Romans distinguished two whites and two blacks with probably more consistency than we do, viz.:—

*Albus*, dead white as opposed to *ater*, a dead black; *candidus*, a dazzling white as opposed to *niger*, a glistening black.

The question of colour nomenclature was one which probably never troubled the ancients and owes its prominence to the invention or discovery since 1850 of so many new

- (1) dyes (permeating a substance with colour).
- (2) paints (surfacing a substance with colour).
- (3) inks (writing or printing on a substance with colour).

Dyes, paints and inks now exist in thousands of shades, and are placed on the market in various forms, such as dyes and stains; paints, enamels, varnishes; inks (printing and writing), chalks, pastel crayons, pencils; etc., etc., and as the colour names are often influenced by the nature of the pigment, there is a great wealth of synonyms.

### COLOURS IN ANCIENT TIMES.

In the cave of Altamira, in Spain, there are paintings, boldly sketched in three colours, said to be over 50,000 years old, but although the animal, vegetable and mineral kingdoms were probably not less varied in colour at that date, it is certain that colouring materials were then very limited in number. The art of dyeing is also very ancient, as it has been proved that the ribbons found on Egyptian mummies 5000 years old had been dyed with indigo. Ink is of later date, as the first inscriptions were cut in wood or stone. In China and Egypt the use of ink has been traced back to about 2500 B.C. The earliest ink was charcoal or soot mixed with gum, glue or varnish. Sepia, the black pigment secreted by the cuttle-fish, was used as a writing fluid by the Romans and the word "ink" itself is derived from the Latin *encaustum*, the purple ink used by Greek and Roman Emperors.

### DYES IN USE IN THE XVIII. CENTURY.

In the eighteenth century the most important dyes were:—

**Blue.** Indigo was introduced into Europe in the sixteenth century, but for a great many years little was used on account of the opposition of the woad cultivators, who induced the English, French and German governments to prohibit its use. The cultivators of woad contended that indigo was not only a fugitive die, but that it was a "corrosive and pernicious drug." In reality they feared that the importation of indigo would ruin their trade in woad (as it eventually did). In France the law was so severe that Henry IV. issued an edict condemning to death anyone who used that "pernicious drug," which was called "devil's food." However, in 1782 the imports of indigo into Great Britain were about 200 tons, chiefly from America and the West Indies, Asia contributing only 11 tons. Since then, the exports from India have enormously increased, and in 1815 Bengal alone exported over 3,500 tons, whilst in 1897 the exports were 5,400 tons from Bengal and 3,000 tons from the rest of India. The consumption of indigo since 1856 has been checked by the discovery of coal-tar colours.

**Red.** Egyptian mummies have been found wrapped in cloths dyed red with madder, which is thus one of the oldest of the red dyes. Previous to 1868 it was, next to indigo, the most important of the natural dye-stuffs, but the enormous decrease in its use is indicated by the following figures:—

#### BRITISH IMPORTS OF MADDER.

1868	...	...	15,292 tons
1875	...	...	5,014 "
1879	...	...	1,073 "
1892	...	...	218 "

The plants which produce madder bear a small yellow flower, which fructifies in the form of a dark red berry, but the colour-yielding substance resides almost entirely in the roots, which alone are valuable. The scarlet or crimson of the Bible was probably obtained from the insect *Coccus ilicis*, the Arabic name of which is *Kermes* (hence Kermesine or crimson). It was in general use in Europe as early as the tenth century, but has been superseded by cochineal obtained from another insect, the *Coccus Cacti*. The *Coccus Lacca* also gives a red known as lac or lake, but inferior in colouring power to cochineal.

**Purple.** This dye was obtained from shell fish and was discovered about 1400 B.C. The art of producing it disappeared about 1100 A.D., but was rediscovered at the end of the 17th Century.

Commercially it ceased to be important upon the discovery in 1856 of Perkin's mauve. In the 16th Century the chief purple dyes in use were Orchil and cudbear.

Yellow. Fustic or Cuba wood is the most important of the natural yellow dye-stuffs and was certainly in use in Europe as early as the seventeenth century.

Brown. Logwood, the most important of the natural dye-woods was introduced into Europe by the Spaniards after the discovery of America about 1500. Its use was prohibited in England by Act of Parliament "because the colours produced from it were of a fugaceous character" but it continued to be imported surreptitiously under the name of "blackwood" until the prohibition was removed in 1673.

Green. The only example of a natural green dye stuff is Lo Kao or Chinese green, which was brought to Europe about 1800. It is no longer used. Chlorophyl, the green colouring matter of plants, cannot be used as a dye as there is no known method of fixing it satisfactorily.

In the year 1860 almost the only natural dye-stuffs in use in Europe were these:—

Indigo	Logwood
Madder	Peachwood
Cochineal	Camwood
Orchil and Cudbear	Quercitron Bark
Old Fustic	Barwood
Young Fustic	Saunderswood
Weld	Persian Berries
Catechu	Pumac and Gall Nuts
Turmeric	

#### MODERN INVENTIONS AND METHODS.

The great advance of the nineteenth century is due to separating the constituents of indigo, madder and coal. Everyone knows that by boiling water we get steam, and experiments having shown that different liquids are converted into vapour at different temperatures it was found that a substance could be sorted into its original constituents by boiling. As it became hotter and hotter first one and then another of its products was given off in the form of steam and each could then be collected separately and being afterwards cooled became solid again in the form of a new substance. This is called distillation and there are other methods such as precipitation, e.g. muddy water is cleansed by precipitation; if allowed to stand, the dirt will sink to the bottom.

The modern history of dye-stuffs commences in 1826 when W. Unverdorben by distilling indigo, obtained a product which he called *crystalline*. In 1834 Runge isolated from coal-tar (a by-product in the manufacture of illuminating gas) a substance which he called *cyanol*. In 1840 Fritzsche obtained an oil from indigo which he named *anilin* (from anil, the Portuguese name of indigo) and in 1842 Zinin discovered *benzidam*.

In 1843 Hoffmann found that Crystalline, Cyanol, Anilin and Benzidam were all the same base which we now know as *anilin* or *phenylamine*. The first colour extracted from anilin in commercial form was a fine mauve, by Sir W. H. Perkin, in 1856, and now named "Perkin's mauve." This was followed by the discovery of anilin red and other colours.

It was also found that Madder contains two colouring matters, *alizarin* (C<sub>14</sub> H<sub>8</sub> O<sub>4</sub>) and *purpurin* (C<sub>14</sub> H<sub>8</sub> O<sub>5</sub>), but the latter is usually present in insignificant amount. Alizarin was first obtained from the madder root in 1824.

The importance of indigo and madder as natural dye-stuffs was greatly increased by the discovery that these new dyes could be derived from them, but as the anilin and alizarin dyes have now been successfully imitated by the distillation of coal-tar, they have lost their pre-eminent position.

#### COAL-TAR SUPPLANTS INDIGO AND Madder PRODUCTS.

The commercial distillation of coal-tar practically commenced with the grant of a patent to Charles Mansfield in 1847. The products of chief importance in the colour industry are *benzene* (C<sub>6</sub>H<sub>6</sub>), *phenol* (C<sub>6</sub>H<sub>5</sub>OH), *naphthalene* (C<sub>10</sub>H<sub>8</sub>), *anthracene* (C<sub>14</sub>H<sub>10</sub>). Each of these substances is the basis of the manufacture of a large series of dyes and there are at present about 2000 distinct coal-tar colours on the market.

The *benzene* derivatives are similar to the aniline dyes and share this title with the products of the distillation of indigo, whilst from *anthracene* (Greek *anthrax*, coal) such a variety of alizarin dyes are obtained as to drive the products of madder from the market, though the old names are still retained.

Dyes are often described as "lake." Lake was originally a purplish red pigment prepared from *lac* by precipitation of the colouring matter with a metallic compound. It now denotes any of a large number of insoluble metallic compounds of various colouring matters. Lakes are prepared from solutions of the dye-stuffs by precipitation, usually with salts of aluminium or

of tin. Consequently such colour names as "yellow-lake" are not related in any way to lake-red.

(Next week we shall commence a Dictionary of colour names and also deal with the scientific aspect of colour.)

## New Publications.

KOHL, 1912.

WE have now received the new Kohl Catalogue and Handbook (1912), Part I., Europe and Colonies, including Great Britain and Colonies, and some idea of the amount of work that has been put into the Catalogue may be gathered from the fact that it comprises 1258 pages without advertisements. Gibbons' two Catalogues collectively number 200 pages less, and include not only the above countries but the Rest of the World. We can supply the Catalogue at publishers price, postage extra.

## American Exhibits for the Vienna Exhibition, September, 1911.

AMONGST exhibits promised for the Vienna Exhibition are the rarities from Mr. Henry J. Crocker's famous collection of Hawaiian stamps.

Senator E. R. Ackerman is to show his specialized collections of Norway and Canal Zone.

Charles Lathrop Pack is planning to send no less than twelve volumes to Vienna.

E. F. Sawyer will show Gambia.

C. A. Howes is sending Corea.

J. Murray Bartels will show Philippine Islands and states in the *Philatelic Gazette* that he is bringing over the other exhibits named above.

## Presentation of the Post-Paid Plates of Mauritius to the Royal Philatelic Society by H.M. the King.

THE announcement of this interesting and unique gift to the Royal Philatelic Society was made at a special meeting of the Council convened for that purpose on June 15th, which was largely attended.

The President reported that on the occasion of the King's birthday he had sent to His Majesty a letter on behalf of the Fellows tendering their congratulations and sentiments of loyalty and affection. In reply, Lord Crawford received a letter in the following terms:—"His Majesty hopes you will convey to the members of the Royal Philatelic Society his sincere thanks for their expression of loyalty and good wishes, which His Majesty very much appreciated." The Honorary Secretary also reported that he was commanded by the King to present to the Society, in His Majesty's name, two original copper plates of old Mauritius stamps, to be preserved by the Society. In handing over the plates, Mr. Tilleard explained that he had taken steps to have them defaced in accordance with His Majesty's wishes.

The following resolution was unanimously passed:—"That the dutiful and grateful thanks of the Council, Fellows, Members and Associates of this Society be respectfully tendered to His Majesty for so graciously entrusting to the care of the Society the two original re-engraved plates of the 1d. and 2d. values of early Mauritius stamps, humbly assuring His Majesty that the gift will always be treasured not only as one of the most interesting and valuable of the Society's possessions, but more particularly as a token of the continued interest shown by His Majesty, 'the Patron,' in the Society and its affairs."

The resolution was duly communicated by the Honorary Secretary, and a reply was received from the Private Secretary to His Majesty in the following terms:—

"I have submitted to the King your letter of the 17th instant in which you report having

handed over to the Council of the Royal Philatelic Society the Mauritius plates presented by His Majesty to the Society, and also a copy of the Resolution unanimously passed at the Society's meeting with regard to His Majesty's gift, which communication the King has received with much satisfaction."

The valuable and interesting plates which have thus come into the Society's possession were brought to England by Sir Cavendish Boyle, K.C.M.G., until lately the Governor and Commander-in-Chief of the Colony, and were presented by him to the King. They were found by an official in a cellar at the Government Offices shortly before Sir Cavendish Boyle left Mauritius for England, and would have been destroyed but for his timely thought of bringing them home to be offered to the King. They are the plates which were seen by Major Evans when in the Colony, and from which impressions were taken to make the facsimiles which form part of the illustrations in the South African work published by the Society.

They consist of the two original copper plates of the 1d. and 2d. "Post-paid" stamps as re-engraved in October, 1859, by Mr. Sherwin with the head known as the "large fillet." The plate of the 2d. value was alone employed for printing stamps for use, the 1d. of this type never having been issued.

These two engraved copper plates, consisting respectively of twelve varieties each of the 1d. and 2d. Post-paid, which are in perfect preservation, were inspected with the greatest interest by the members of the Council, and evoked the most loyal and grateful appreciation of the Fellows present at the meeting. A curious and interesting feature of these plates, on which the stamps were entirely re-drawn by Mr. Sherwin, is that the stamps were engraved on the back of two plates originally used for printing advertisements of the "Grand Hotel d'Europe," these advertisements being in the one case in English and in the other in French, and the inscriptions setting out the merits and advantages of the hotel, although slightly worn, are still quite legible.

These plates, which since their acquisition by the Society have been scored with faint though distinct vertical lines, will form part of the possessions of the Royal Society, and will, we trust, form the nucleus of the philatelic museum of the future. A few impressions on card in black will be printed off for the Society's collections.

[For the above details we are indebted to the *London Philatelist*, the organ of the Royal Philatelic Society. Its Editor adds the following note, which we also take the liberty of reproducing.—Ed., E.W.S.N.]

For the benefit of those of our readers who may not be quite *au courant* with the early issues of Mauritius, we may briefly describe the position occupied by these stamps.

FIRST ISSUE.

SECOND ISSUE.

The first issue of Mauritius of September, 1847, consisted of the celebrated "Post-office" stamps, which were of one type only and printed singly.

The second issue, like the first, were engraved on copper by Mr. J. Barnard, and issued in May, 1848. Unlike the "Post-office," however, this issue consisted of twelve separately hand-engraved varieties for each value. These stamps remained in use for about eleven years, and during that long period deteriorated to an enormous degree. In 1859 the original designs had practically disappeared from the plate, and they were re-engraved over the old lines by Mr. Sherwin. In doing this the engraver substituted a band encircling the Queen's head in lieu of the crown, which variety is generally known as the "large fillet."

The twopenny value was put into issue but was never largely used, and has always been a rarity. The re-engraved one penny was, however, never printed from, except as a proof or trial impression. The reason for this has never been definitely stated, but as the one penny lithographed with the Greek Border was issued two months after the forementioned twopenny, it is possible that the authorities were able to tide over this short space of time. As is known, the one penny was far more extensively issued in worn condition than the twopenny.

Fuller information on these interesting issues will be found in the work of the Royal Philatelic Society on Africa, Part II, embracing the original articles hereon written by Major E. B. Evans (see *Philatelic Record* Vol. II, 1880) and in an article by Mr. M. P. Castle in the *London Philatelist* for last year, Vol. XIX, pp. 53-59.

## The New Stamps in the House of Commons.

(Report from *Daily Telegraph*, 1.8.11)

Mr. Touche (U.) asked if orders for gumming plant for the new postage stamps were placed in Germany.

Mr. Hobhouse replied that, as by an oversight in the contract no restriction was placed on the contractors as to the origin of their machinery, some of that machinery was ordered from abroad, and amongst others the gumming plant. With regard to the gumming and calendering machinery, it was understood that there was no such British machinery available.

(Report from *Daily Telegraph*, 3.8.11.)

### THE NEW STAMPS.

#### Improvement Promised.

Mr. E. Cecil (U.) asked the Postmaster-General whether he had been able to take steps to improve his Majesty's portrait on the new postage stamps and their general appearance and design; and whether he would consider further the advantages of the process of line engraving, by which very successful portraits had been produced on the Coronation issue of stamps in Newfoundland.

Mr. Samuel: Steps have been taken which will, I think, effect a considerable improvement in the appearance of the new postage stamps. The process of line engraving to which the hon. member refers is not only five or six times as costly as the present method of printing, but lends itself to the fraudulent use of cancelled stamps. The line engraving process would not, therefore, be suitable for stamps of the lower denominations, of which immense numbers are issued, and which, unlike the Newfoundland stamps referred to in the question, are available for Inland Revenue purposes as well as for postage. We have already decided, however, that the line engraving process shall be adopted for the new stamps of the denominations 2s. 6d., 5s., 10s., and £1, which will be available for postage only.

Mr. Lee (U.): Will the right hon. gentleman have specimens of these improved stamps placed in the tea-room, so that hon. members can see them before the work is proceeded with?

Mr. Samuel: I shall be very happy to place specimens of the new stamps in the tea-room. I will also take the opportunity of placing there copies of the proofs which were originally passed for the stamps that were issued, in order that the hon. members may compare them—or, I would say, contrast them—with the stamps that were ultimately issued to the public.

Mr. Lawson (U.): May I ask the right hon. gentleman when it is intended to issue the new design?

Mr. Samuel: They will be issued as fast as the Mint is able to produce the dies and the plates, and I understand that several of the denominations will be issued in the next few weeks.

Mr. Ashley (U.): Will the present penny stamp be withdrawn?

Mr. Samuel: No, sir.

Mr. Joynson-Hicks (U.) asked whether there was to be only a new mode of execution or a new design—a different head instead of the present truncated one?

Mr. Samuel: Hon. members had better wait until they have seen the specimen.

(Report from *The Times*, 4.8.11.)

Mr. Bennett-Goldney (Canterbury, Opp.) asked the Postmaster-General what was the approximate value in English money of the German machinery already imported, and to be imported into this country for the manufacture of the present postage stamps under the new arrangements made by the Government for their supply; whether the poor adhesive quality of the new stamps is due to the inferiority of the substance used or to the fact that the German-made machines are inferior to English and American inventions; whether the German machines are constructed so as to distribute an even coating of vegetable mucilage with the same precision as a glaze of animal size prepared from hoofs of horses or hide scrapings; and whether, in view of the prevalence of the habit of stamp licking, he would not only give orders to have the substance analysed from time to time, but would insist upon the quantity used on the backs of the stamps being sufficient.

Mr. Hobhouse (Secretary to the Treasury) answered:—I have no information as to the value of any German machinery imported or to be imported by the contractors under their own private arrangements. As I pointed out the other day the contractors attempted but were unable to obtain British machinery. The analysis to which the stamps are from time to time submitted proves the adhesive substance used to be gum-arabic, as required by the contract, and the quantity present to be not less than the proportion which formerly obtained. The machines at present in use are not, so far as I am aware, inferior to any

others obtainable. Inquiries are being made with a view to improving the adhesives properties of the stamps.

### PRINTERS' REPLY TO CRITICS.

Mr. Cecil Harrison, of Messrs. Harrison & Sons, printers of the stamps, said yesterday: "Since we took over the printing of the stamps early this year approximately 2,000,000,000 have been actually sold and have gone through the post. Of these the majority were King Edward stamps, since the King George ones were not issued till close upon the Coronation.

"Until the King George stamps appeared not a single complaint was heard about the printing or the gumming of the stamps. The gumming and the printing of the last King Edward stamps and the first King George stamps were of exactly the same quality, and I think, therefore, it is self-evident that the criticism on these points of the latter is entirely factitious. The design and the engraving of the die are quite a different matter. With them we have nothing to do."

### IS THE HEAT WAVE RESPONSIBLE?

May we make the suggestion that the reason the stamps will not stick is due to the exceptional heat and drought experienced during July? The printers' reply is very much to the point; the fault can hardly lie with the gum, because no complaints were heard till after the Coronation, and for two months before that Edwardian stamps printed and gummed by them had been in general use without any complaint. The great heat recently experienced tends to dry up the pads and sponges used by business firms to damp their stamps, and the remedy of watering them too freely leads to over-damping; in neither case do the stamps have a fair chance. Our own system in stamping large quantities of circulars has been to damp four or five stamps in a strip at once, and then attach them one by one, but in this hot weather the last stamp of the strip has sometimes partially re-dried.

From the *Evening News*, 7.8.11.

### STAMP FAMINE.

#### Post Office Finds Itself with Only a Few Weeks' Supply in Hand.

The *Evening News* understands that, owing to the difficulty in connection with the manufacture of the new stamps, the country has been near to what is officially known as a stamp famine.

As a rule there is always in stock a six months' supply to cover strikes and other exigencies connected with the manufacture, but at one time recently the supply was only sufficient to cover a few weeks.

The total face value of this fine nucleus for a Papua collection is 39/1, and we offer it at the very low price of £5, considering the scarcity of many stamps, and the fact that official stamps are no longer obtainable. The 2/6 of issue 5 is a rarity, and even issue 6 is advancing.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current Issue (620 R 621).—We have now seen entire sheets of the 2d. Harrison print. On the bottom margin, there is one cut in the green line under the 7th stamp and two cuts under the 11th stamp, the latter, as in the 1½d. value, no doubt signifying "1911." If so, the cut under the 7th stamp may be July. The thick red bars only occur under the 1st, 2nd, 3rd and 6th stamps, but there are very thin lines under the other stamps, which are sometimes bent and it is a remarkable fact that two of the three curves fit into a space chipped off the edge of the green line!

Several correspondents have written to inform us that they have strips with cuts under the 6th and 7th stamp but when cuts occur under the middle of these stamps they are of no importance, being part of the ordinary symmetrical arrangement.

**AUSTRALIA** (620 Y 621).—We quote from the Melbourne Age, 5.7.11:—

The postal department is at pains to please the public in its choice of a design for the new postage stamps. The 800 designs sent in from designers of many nations for the Commonwealth prize are being placed in position on the walls of a room at Senators' Club Room, Federal Parliament, by expert philatelists, and the public will be invited shortly to inspect them. The Postmaster-General, who desires that in some way public opinion should express itself before the final choice is made, is considering the advisability of conducting a plebiscite among those who visit the exhibition. The design recommended by the expert board for the first prize is highly favoured by the privileged few who have seen it.

And from the Melbourne Argus, 13.7.11:—

Occasionally a letter is written in Ning-po or Santiago de Chile by one who has a correspondent in Australia, but is not precisely aware of his address. The benefits of free education do not prevail in these benighted parts, and the writer's hazy knowledge of geography leads him, to the delight of the postal department, to give his letter such an address as "Melbourne, South Australia, New Holland," or "Ballarat, New South Wales, Northern Territory." It has remained for the postal department to show that in matters of geography Santiago de Chile and Ning-po need not attempt to compete with it. One of the recently issued letter-cards, imprinted with the King's head and the caption "Commonwealth of Australia," bears on its back an effective picture of a flock of sheep on a well-timbered run. And the picture is labelled "Sheep Station, Wimmera, S.A." Evidently the department has acted hastily but hazily on the knowledge that the position of the South Australian boundary was recently in dispute.

**CHAMBA** (435, 445, 446 W 621).—Our latest supply of stamps issued at Chamba 24.7.11 includes the 1 rupee, green and aniline rose, instead of dull rose.

**CONGO** (619 C 621).—The Madrid Filatelico (8.11/144) chronicles a new overprint on the postage stamps to convert them to postage due use. We are not sure that these overprints should be taken seriously by collectors.

Overprinted "T" sideways.

5c. green and black of 1909.	
15c. yellow	1910.
25c. blue	1910.
40c. green	1909.
50c. olive	1010.
3f. red	1910.

**COSTA RICA** (616 E 621).—Ewen's New Issue Service has made a complete distribution of the 1, 2 and 5c. provisionals recently issued with overprint 1911 and stars or Habilitado 1911. In the case of the 5c. we noted that there are three varieties of the Roman figure I.

- (a) "1911", first I is Roman.
- (b) "1911", second I is Roman.
- (c) "1911", third I is Roman.

The variety (a) occurs on Nos. 6 and 21 and consequently also on 56 and 71; (b) is found on Nos. 50 and 100 and (c) on 19 and 69. We unfortunately omitted to see if the error Habilitada (a for o at end) was there. It should exist on Nos. 45 and 95. If it was on our sheets, some subscribers have received a bargain!

**CUBA** (609 E 621).—From Mr. A. C. Roessler we have two values unicoloured instead of bicoloured.

Unicoloured.  
2c. rose.  
5c. blue.

Issued 29.7.11 or earlier.

**DOMINICAN REPUBLIC** (617 N 621).—We have received the following novelty:—

HABILITADO  
1911

Official Stamp overprinted "Habilitado 1911" in red. For public use.

2c. red and black, typographed instead of lithographed. Wmk. crosses and circles.

Earliest postmark seen, 24.7.11.

**FRENCH GABOON** (600 K 621).—L'Annonce Timbrologique (31.7.11/3207) states that a new printing of several values has been ordered; the 50c. have been unobtainable at Paris for some little time.

New printing.

30 centimes.	50,000.
50 "	12,000.
75 "	50,000

There is no reason to suppose that they will be different in any way from the first printing.

**GERMAN COLONIES** (612 L 621).—The following Colonial stamps have now been issued with watermark:—

On Watermarked Paper.

East Africa, 2½, 4, 7½, 15, 20, 20, 45, 60h., 3 rs.  
S.W. Africa, 3, 5, 10, 20 pf., 5 mk.  
Cameroon, 5, 10 pf.  
Togo, 5 pf.

New Guinea, Carolines, Marianen, Marshall Is. and Samoa, none yet issued.

**GERMAN F.P.O.** (612 L 621).—Germania-Berichte (10.8.11/74) records the issue of the 40c. China with watermark. The list now stands:—

On Watermarked Paper.

China, 1, 2, 4, 20, 40c., ½\$, \$1, \$2½.  
Kiautschou, 1, 2, 4, 10, 20, 40c., ½\$, \$1, \$1½, \$2½.  
Levant, complete except 15pi. on 3 mark.  
Marokka, see under German Morocco.

These sets are therefore now all complete except for the 10c. on 20 pf. and \$1½ on 3mk. China and 15 pi. on 3 mk. Levant.

**GERMAN P.O. MOROCCO** (611 L 621).—We have now received the remaining values of the set with double k overprint.

Overprinted "Marokko."

5c. on 5pf. green.  
10c. on 10pf. rose.  
25c. on 20pf. blue.

Issued 4.8.11 or earlier.

**HONDURAS** (609 W 621).—The surcharged stamps recently issued are now obsolete and unobtainable. The 1c. on 20c. is not priced in the new Gibbons but the 5c. on 20c. and the 10c. on 20c. are quoted 1/8 and 3/4 respectively unused and a little cheaper used. They were distributed by Ewen's New Issue Service on 28.1.11 for a few pence.

We have received the 1911 issue in entire sheets of 100, 10 rows of 10, imprint of "Hass Bank Note Engraving Co., New York" on each margin. The perforations differ.

1911 Issue.

- (1) perf. 14; 1, 2, 5, 6, 10, 20, 50c.
- (2) perf. 12; \$1.

This description tallies with Gibbons' 1912 catalogue.

**PHILIPPINE ISLANDS** (611 B 621).—The American Journal of Philately (1.8.11/10) publishes a letter from the Director of Posts dated 28.3.11 to one of its correspondents, stating that "as to further changes in the colours or designs of Philippine postage stamps, you are informed that the 16 and 26 centavos stamps are of a new design; however same will not be placed on sale for several months."

**PORTUGUESE CONGO** (611 K 621).—The stamps of this colony are reported by the Bulletin Mensuel (25.7.11/2) with overprint "Republica."

Dom Carlos Issue, overprinted "Republica."

2½ reis, grey.
5 " orange.
10 " yellow-green.
15 " green.
20 " violet.
25 " rose.
50 " brown.
75 " violet-brown.
100 " blue on bluish.
115 " brown on rose.
130 " brown on yellow.
200 " violet on rose.
400 " greenish-blue on cream.
500 " black on blue.
700 " violet.

**RHODESIA** (599 R 621).—The 4d. of the Royal Portrait set has been shown us by Mr. O. Marsh, with purple-brown instead of aniline indigo centre.

New Shade.

4d. orange, with centre purple-brown, instead of blue showing through on the gummed side.

Earliest postmark seen, 7.11.

**SERVIA** (619 S 621).—We have received another value of the new set.

Large portrait of King Peter. Issue of 1911.  
1c. black.

Issued 27.7.11 or earlier. All values are issued in sheets of two panes, one above the other divided by a margin, each pane containing 50 stamps in 5 rows of 10. The margins are quite plain. The paper is thick and highly glazed.

**ST. VINCENT** (620 U 621).—The £1 stamp referred to last week was issued 22.7.11 or earlier, Mr. W. Redman informs us.

**TURKS & CAICOS ISLANDS** (615 Z 621).—We are officially informed that there will be no new issue this year (1911).

**UNITED STATES** (620 U 621).—A correspondent writes:—"The U.S. will have a new issue, as you noted in E.W.S.N. Details are not completed, though the first six values are certain to be Washington. The last five are wavering between Lincoln and Franklin, our first Postmaster General."

The new registration stamp and 2c. postal card are due to be issued on 1.1.12.

**THE SCIENTIFIC ASPECT.**

Light, like sound, is the effect of vibration in or waves conveyed through a suitable medium. It is usual to consider air a suitable medium for sound waves, but as a matter of fact the waves travel faster through solid substances. In air, sound travels 1090 feet per second, in water 4768 feet, in iron (at 68° F.) 16,822 feet per second and so on. This is why an approaching train can be heard quickest by placing one's ear to the steel rail and also why people place their ear to the ground to hear quickly. Our ears are fixed to our heads and we carry our heads in air because we want to breathe, consequently it is usually through air that we hear.

We speak of the "hum" of a motor, but if the wheel moves very slowly it makes no sound that our ears can catch. As a matter of fact, waves must reach our ears at the rate of at least 16 per second, to be heard at all, and the lowest musical note is C of the contra octave (32 waves per second). On the other hand, "light" waves, in order to be seen by us have to move at the almost incredible speed of 400 billion waves per second. To make clear what such a number means, we have compiled the following table:—

**TABLE OF OCTAVES.**

Octave No.	Waves per second with which Octave commences.	Remarks.

50	2 <sup>49</sup> or	562949953421312
51	2 <sup>50</sup> or	112589906842624

and so on. If 2<sup>0</sup>=1 followed by 15 figures, 2<sup>30</sup> will equal 1 followed by 18 figures or 19 in all, 2<sup>70</sup> has 22 figures, 2<sup>80</sup> 25 figures, 2<sup>90</sup> 28 figures and 2<sup>100</sup> 31 figures. Or to put the figures differently, if 2<sup>10</sup> equals 1024, 2<sup>20</sup> equals 1024<sup>2</sup>, 2<sup>30</sup> 1024<sup>3</sup>, 2<sup>40</sup> 1024<sup>4</sup>, 2<sup>50</sup> 1024<sup>5</sup> and 2<sup>100</sup> 1024<sup>10</sup>. As 1024 is so near to 1000, each power of it adds three figures.

A good human ear is capable of detecting the waves of eight octaves, the 5th to the 12th in the above table. Although we have marked "light" in the above table as forming part of the 49th and 50th octaves, it cannot be considered as being in the nature of a musical octave.

Before considering colour waves further we may record that the ratio of vibrations which constitute our musical scale are as follows:—

$$c : d : e : f : g : a : b : c$$

$$1 : \frac{9}{8} : \frac{5}{4} : \frac{4}{3} : \frac{3}{2} : \frac{5}{3} : 2 : 3$$

$$24 : 27 : 30 : 32 : 36 : 40 : 45 : 48$$

This means that if C is the sound-effect produced by 32 waves, D will be that of 32 x  $\frac{9}{8}$  or 36 waves. The value of c<sup>1</sup> in the above table is taken for scientific purposes as 256 waves per second, which gives the value of a<sup>1</sup> as 427 waves, but in practice the pitch usually varies between 435 and 440.

The highest notes recorded as having been produced by the human voice are:

2048 Upper note of Lucrezia Ajugari (recorded by Mozart in 1770 at Parma).

1365 Upper note of Nillson in *Il Flauto Magico*.

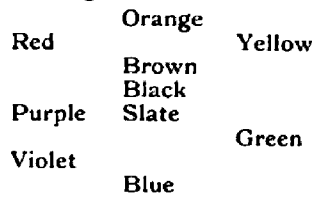

1152 Ajugari trilled on this note.

An ordinary soprano reaches 768. The human ear can detect up to 40,000 waves per second.

Light is quite a different subject. It travels at the rate of 186,000 miles a second and as its waves may be only  $\frac{1}{1000}$  of an inch in length, a single ray of light from the sun will make more waves than a man could count in 2 million years at the rate of 12 a second! We reproduce the following table:—

Infra red	395 billion waves per second.
Red	435 " " "
Orange	483 " " "
Yellow	543 " " "
Green	585 " " "
Blue	630 " " "
Indigo	667 " " "
Violet	708 " " "
Ultra violet	871 " " "

Eliminating the infra red and the ultra violet, we get the seven colours of the spectrum, red, orange, yellow, green, blue, indigo and violet. From violet we should expect to pass on to red again and so from an octave as in music, and this idea of a circle of colours has been useful in classifying shades. The late Mr. Warhurst in his Colour Dictionary gives an approximate "Map of Colourland" in which the principal colours are arranged thus:—

The idea is so to group the colours that all shades can be formed by mixing two colours that are in proximity to one another.

Probably the most interesting details concerning Colour in the Encyclopædia Britannica come under the letter V. We make the following extract from Vision (page 137).

**SENSATIONS OF COLOUR.**

Colour is a special sensation excited by the action on the retina of rays of light of a definite wave-length. On the most likely hypothesis as to the physical nature of light, colour depends on the rate of vibration of the luminiferous aether, and white light is a compound of all the colours in definite proportion. When a surface reflects solar light into the eye without affecting this proportion, it is white, but if it absorbs all the light so as to reflect nothing, it appears to be black. If a body held between the eye and the sun transmits light unchanged, and is transparent, it is colourless, but if translucent it is white. If the medium transmits or reflects some rays and absorbs others it is coloured. Thus, if a body absorbs all the rays of the spectrum but those which cause the sensation of green, we say the body is green in colour; but this green can only be perceived if the rays of light falling on the body contain rays having the special rate of vibration required for this special colour. . . . .

When we examine a spectrum, we see a series of colours merging by insensible gradations the one into the other, thus:—red, orange, yellow, green, blue and violet. These are termed *simple* colours. If two or more coloured rays of the spectrum act simultaneously on the same spot of the retina, they may give rise to sensations of *mixed* colours. These mixed colours are of two kinds:—(1) those which do not correspond to any colour in the spectrum, such as purple and white, and (2) those which do exist in the spectrum. White may be produced by a mixture of two simple colours which are then said to be *complementary*. Thus, red and greenish-blue, orange and cyanic blue, yellow and indigo blue, and greenish yellow and violet all produce white. Purple is produced by a mixture of red and violet and red or bluish violet."

On page 138 we read:—

"The following list shows characteristic complementary colours, with their wave-lengths ( $\lambda$ ) in millionths of a millimetre\* :—

Red, $\lambda$ 656	Blue-green, $\lambda$ 492
Orange, $\lambda$ 608	Blue, $\lambda$ 490
Gold-yellow, $\lambda$ 574	Blue, $\lambda$ 482
Yellow, $\lambda$ 567	Indigo-blue, $\lambda$ 464
Greenish-yellow, $\lambda$ 564	Violet, $\lambda$ 433

By combining colours at opposite ends of the spectrum, the effect of the intermediate colours may be produced; but the lowest and the highest, red and violet, cannot thus be formed. These are therefore fundamental or primary colours, colours that cannot be produced by the fusion of other colours. If now to red and violet we add green, which has a rate of vibration about midway between red and violet, we obtain a sensation of white. Red, green and violet are therefore the three fundamental colours."

\* The inverted y is intended to represent the Greek letter I, the scientific symbol for wave-length.

And on page 139:—

"According to the Young-Helmholtz theory, there are three fundamental colour sensations, red, green and violet, by the combination of which all other colours may be formed, and it is assumed that there exist in the retina three kinds of nerve elements, each of which is specially responsive to the stimulus of waves of a certain frequency corresponding to one colour, and much less so to waves of other frequencies and other colours."

An extremely interesting article on Colour is that to be found under "Spectrum" in Funk & Wagnall's Standard Dictionary, pages 1721 to 1723. There is a chart of the 48 principal colours or shades; a coloured view of the Prismatic Solar Spectrum showing position of the Fraunhofer lines and of the five simple colours; a coloured view of the Normal Solar Spectrum; and a row of 21 colours forming an approximate normal spectrum, viz.: R, RRO, RO, ORO, O, OYO, YO, YYO, Y, YYG, YG, GYG, G, GBG, BG, BBG, B, BBV, BV, VB, V. (R=red, o=orange, y=yellow, g=green, b=blue, v=violet).

**COLOUR TOP.**

The Standard Dictionary has analysed 488 colours with a colour top and obtained some very interesting results. We reproduce this list as far as the letter A, but it would not be fair to the Dictionary to give it complete.

In explanation of the system the dictionary says:—"To prepare any colour from the equivalents given in the table, seven standard disks must be prepared, each from 3 to 5 inches in diameter with a small hole at the centre for the axis and a radial cut from center to periphery. The white disk must be of the purest white cardboard; the others should be cut from light cardboard or heavy drawing-paper and painted each with its proper colour. For the black disk use a mixture of the best lampblack in a solution of shellac in alcohol, applying it with a bristle brush like an oil-paint. Experiment will show the proper proportions to leave the surface even, firm and dull. The remaining five disks are to be painted respectively with the best English vermilion, mineral orange, light chrome yellow, emerald-green and artificial ultramarine blue. The pigments should be mixed with a thick solution of gum arabic in water, to the consistency of oil-paint and applied with a bristle-brush. The colour must be even and the paper completely covered. To prepare any colour . . . . . put the required disks upon the axis of any rotation-machine, as a colour-wheel or colour-top, with the edges of the slits so interposed that a sector of each disk is visible; then, by means of a cardboard circle divided on its edge into hundredths, arrange the relative proportions of the standard colours according to the formula given in the table. When the wheel or top is set in rapid rotation, the required colour will result from the blending of the components."

Some other interesting definitions are:—

- blue; 12 parts green, 88 parts blue.
- Brunswick green, 98 parts black, 2 green.
- cobalt blue, 8 parts green, 92 parts blue.
- mauve, 52 blue, 18 red, 30 white.
- purple, 60 blue, 32 red, 8 white.
- rose, 66 red, 34 white.
- violet, 69 blue, 21 red, 10 white.

The Tintometer Ltd., of the Colour Laboratories, Salisbury, are makers of Colour Standards for Scientific and Commercial Purposes based on Lovibond's Method of Colour Analysis, and have a different system to the colour top, the combination being effected by means of coloured glasses.

## Dictionary of 2000 Colour Names.

(Compiled by H. L'Estrange Ewen, with a view to assisting catalogue editors to a greater choice of colour names, in the belief that more originality in this respect would add to the interest of special shades of stamps. The list is far from complete.)

**abies green** (*abies*, fir); a mixture of sea-green and grey. Fr. glauque d'abies (R.H.S. plate 249).

**absinthe green**, green, light yellow-green.

**acacia**, light maroon.

**acajou-lake** (*acajou*, cashew or mahogany tree); red-brown.

**acetin blue** (*acetum*, vinegar + *-in*); a dye stuff.

**acid** (*acid*, a sour substance); the term "acid colours" is applied by dyers to colouring matters which are employed in an acid bath and occurs prefixed to a large number of colour names. The *Dictionary of Dyes, Mordants, etc.*, lists over 50 colour names commencing with "acid."

**acme yellow** (*acme*, culminating point); a yellow dye stuff.

**aconite violet** (*aconite*, Monk's hood, a plant); a heliotrope shade. Fr. violet d'aconit (R.H.S. 199).

**acridin**, a coal-tar derivative supplying dyes known as acridine yellow, red, scarlet, orange, which are also obtained from other sources.

**admiral blue**, greenish-blue.

**aenolin**, the colouring matter of red wines; not used as a colour name (?).

**agate red**, probably equivalent to ruby red. The size of printers' type known in England as ruby is called agate in the United States. The stone agate is named from the river Achates (now the Drillo) in Sicily, where it was originally found.

**ageratum-blue**, named from the plant. Fr. bleu d'agérate (R.H.S. plate 201, where the colour is mauve resembling heliotrope). Also, floss-flower-blue.

**alabaster**, yellowish white.

**albanine white**, so called from alban (Lat. *albus*, white), a white crystalline substance derived from gutta percha. Also, photo white.

**aldehyde green**, an obsolete green dye first obtained in 1862 from alcohol dehydrogenated (whence the name).

**Alderney brown**, orange brown.

**alizarin, alizarine** (Arabic, *al* the, *açarah* plant-juice); the principal colouring matter obtained from madder, and known 2000 B.C. as a red dye. Since 1868 produced artificially from anthracene (a coal-tar product), and forming when pure a reddish-yellow powder or orange-red crystals. Chemists have now obtained alizarin dyestuffs yielding an almost complete range of shades, and characterized by great permanence or fastness. Alizarin dyes are closely related to the natural dye-woods, but are more numerous and varied in hue, as well as brighter, cheaper and faster than the older dye-woods. A *Dictionary of Dyes* lists about 60 colour names preceded by *alizarin*, and the name is often written after the colour-name. The alizarin colours are not confined to the dye-trade, as Rowney and Newman list oil and water-colours called alizarin green, yellow, violet, crimson and scarlet.

**alkali** (Arabic *al* the *gali*, ashes of the plant saltwort). The term alkali is applied to a number of substances neutralising acids; commercially it is understood to refer to sodium carbonate. It gives its name to several dyes:—alkali blue (or Guernsey blue), brown, green, red, violet, yellow.

**almond blossom**, a pale pink shade.

**aloes green**, pale sage-green.

**alpine blue**, a dye dating from 1891; chemically, sodium salt of tetramethylethylbenzyl-triamidotriphenylcarbinol trisulphonic acid!

**Alsace green**, dark green, Russian green.

**aluminium grey**, the name of a bronze powder advertised by Messrs. J. Kidd & Co., Ltd. Named from aluminium, which, next to oxygen and silicon, is the most widely distributed element in nature.

**amaranth**, reddish-purple or purplish-rose. The name is derived from a genus of plants, *amaranthus* (Greek *amarantos*, unfading), cultivated for their green, purple or crimson flowers, which do not readily fade. "Amaranthine" is used poetically as a synonym of unfading, undying. A list of Roché pastels has amaranth red, but the shade illustrated is more a purplish-rose or lake. Amaranth dye is also known as fast red I, fast red EB, fast red NS, azo acid rubin 2 B, Bordeaux S, Bordeaux DH, naphthol red S, Victoria rubin, cyananthin, and wool red extra, each firm giving it a separate name.

These proprietary names relate to the composition rather than the colour of the dye and are legion; we do not propose to refer to them in future cases.

**amber yellow** (Arabic *ambar*, ambergris); a clear light yellow, called after the substance of the same name, a fossil resin resembling ambergris (lit gray amber), which is, however, a totally different substance, highly valued in perfumery and often called amber. Also, Succinum yellow, sea-amber yellow. Fr., jaune succin, ambre (R.H.S., plates 12, 28).

**amber brown**, a darker shade than amber.

**amber carmine**, a shade of carmine.

**American green**, see drab-green (R.H.S. 237).

**amethyst violet** (Greek, *amethystos*, without drunkenness). The name is in allusion to properties anciently ascribed to the stone. Fr. violet de violette (R.H.S. plates 192 and 197).

**anamite**, drab.

**anchusin purple**, a colouring matter obtained from alkanet, the root of the *anchusa tinctoria*.

**Andorre green**, grayish-green.

**Andrinople red**, see Turkey red (R.H.S. 92).

**anemone purple**, reddish purple.

**aniline, anilin** (Arabic, *an-nil* for *al*, the, *nil*, indigo plant; Sanskrit *nila*, dark blue). An oily poisonous basic liquid, colourless when pure, obtained originally by distilling indigo, and now also from coal-tar. Stamp collectors denote printing inks which resemble dyes in permeating the paper as aniline colours. In the dye trade, aniline colours appear generally to be known under special names.

Aniline black, see nigraniline, ungreenable black.

Aniline blue, see spirit blue, iris blue, also R.H.S. plate 202.

Aniline brown, see Bismarck brown.

Aniline green, see aldehyde green.

Aniline orange, see Victoria orange.

Aniline pink, see safranine.

Aniline purple, see mauveine, rosolan.

Aniline red, see fuchsine, magenta.

Aniline rose, see safranine.

Aniline violet, see mauveine, methyl violet.

Aniline yellow, see spirit yellow.

**animal black**, animal charcoal or bone-black.

**anisidine scarlet**, a bright red dye.

**anisol red**, same as anisidine scarlet.

**anisoline red**, a purple-red dye.

**annatto orange**, an orange-red or salmon dye, obtained from the pulp of seeds of the tree *bixa orellana*; chiefly used for colouring cheese, butter, etc.

**anthracene**, a product of coal-tar yielding dyes of many shades.

Anthracene blue.

.. brown or anthragallol.

.. black.

.. green, see coerulein.

.. red.

.. violet, see gallein.

.. yellow.

**anthracite black**, a black dye.

**anthrapurpurin**, alizarin yellow.

**anthraquinone black**, a dye stuff probably allied to Vidal black.

**antimony** gives its name to several pigments.

Antimony cinnabar (vermilion).

.. red (vermilion).

.. vermilion.

.. white.

.. yellow (Naples yellow).

**antique brown**, according to Funk and Wagnall, yellowish-brown (Bk 72, O<sub>14</sub>, Y<sub>11</sub>).

**antique red**, a dull red, Porphyry red.

**antique rose**, the name of a water-colour paint. Same as old rose?

**anti vermilion**. A printing ink advertised by Berger & Wirth; same as antimony vermilion?

**Antwerp blue**, a fine light blue. Fr., bleu d'Anvers (R.H.S. plate 218). Rowney (p. 1) says the colouring matter is the same as Prussian blue, but in addition to the ferric ferrocyanide it contains alumina, magnesium and zinc oxides. It is a colour name widely and internationally employed. F. & W., B<sub>2</sub>, G<sub>2</sub>, W<sub>2</sub>.

**Apollo red**, see orchil red.

**apple green**, known on the Continent as pistachio green. Fr., vert pistache (R.H.S. 276).

**apricot yellow**, an orange shade. (R.H.S. plates 53, 63). Also, apricot red, reddish apricot.

**aquamarine**, sea-water green, a shade in which the beryl is found.

**arab brown**, a brown-red shade.

**arab green**, a dark apple-green; like arab brown, the name of shades of Aspinall's enamel.

**archil red**, see orchil red.

**ardoise**, French for grey; but is listed in English dictionaries.

**argent**, bluish grey.

**argus brown**, dark orange-brown.

**arnica yellow**, a golden-yellow dye.

**art blue**, the name of a shade of Anderson's washable water paint.

**art green**, see note to art blue.

**artichoke green**, a dull greyish-green. Fr., vert artichaut (R.H.S. plate 244).

**artificial cobalt**, a very distinct shade to true cobalt; a light Venetian blue. Also, artificial ultramarine.

**ashes of roses**, dull orange-grey.

**ash grey, ashen grey, ashy grey**, a brownish grey. Fr., cendre (R.H.S. plate 358).

**ash grey ultramarine**, a Newman water colour.

**ashy blonde**, a Roché pastel.

**asphaltum**, a brownish-black hard substance found in Asia Minor and China; also, asphaltum brown. The common name of an oil colour (see Rowney, Newman, Müller, etc.).

**atlas orange**, a proprietary name of the dye known as orange II.

**atlas red**, a terra-cotta red dye.

**atlas rose or Caroline rose** (R.H.S. 129).

**auburn**, originally white or light coloured (Lat. *alburnus*, whitish), then citron or light yellow; later, by confusion with "brown," a red-brown shade. Also, auburn-brown.

**Aubusson green**, dull yellow-green.

**aucuba-green**, laurel green (R.H.S. 269).

**auramine**, a greenish yellow dye.

**aurantia**, an imperial yellow dye.

**aureolin yellow**, otherwise cobalt yellow, butter-cup yellow, primuline (dye). An international name in common use. R.H.S., plate 22.

**aurine**, a yellowish-red dye.

**aurora yellow**, an orange-red colour.

**aurora**, same as aurora yellow? F. & W., dull pink, composed of O<sub>2</sub>, Y<sub>11</sub>, B<sub>2</sub>, R<sub>12</sub>, W<sub>2</sub>.

**autumn green**. Aspinall's enamel named this shade resembles olive-green (two shades, light and dark).

**autumn leaf**, dark crimson.

**Avignon earth**, a Roché pastel, brown in shade. Webster says that Avignonberry is used by painters for colouring yellow.

**azaleine**, an obsolete name for impure mauve dye.

**azindone blue**, see indamine.

**azine blue**, see induline.

**azine green**, a dark green dye.

**azo** is added or prefixed to the names of compounds, having two nitrogen atoms N<sub>2</sub> in direct union with two hydrocarbon radicals; with one hydro-carbon radical the prefix is di-azo. The *Dictionary of Dyes, Mordants, etc.*, lists about 50 dyes, of which "azo" is prefixed to the colour name; also azophor blue, azophor red, azophosphine yellow, azopurpurin red.

**azuline**, an obsolete blue dye. Also azulin.

**azure blue**, a light greyish-blue; Fr. bleu d'azur (R.H.S. plate 208). Also, azure.

**azure cobalt**, water-colour (Müller, Rowney, etc.) Rowney (p. 1) says: a pale variety of cobalt blue.

**azurite**, a slaty blue, copper blue, azure copper ore (R.H.S. plate 228).

**baby blue** (F. & W., B<sub>2</sub>, G<sub>2</sub>, W<sub>2</sub>).

**barium chrome**, see barium yellow.

**barium yellow**; a pigment obtained from barium chromate; also, baryta yellow, permanent yellow, barium chrome, yellow ultramarine.

**bark green**, the name of a Roché pastel.

**baryta green**, a pigment.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current Issue (621 S 622).—Mr. C. F. Dendy Marshall is the first of our readers to notify us of the issue of the 5d. Harrison print.

Harrison Print

5d. purple and blue, ordinary paper.

Issued 16.8.11 or earlier. We have carefully examined an entire sheet of 240 and find that both the purple and the blue portion of the stamps are printed from plates with a continuous line round each pane and in the case of the blue portion an old plate of the Queen Victoria series is still in use, as is proved by the fact that the blue marginal line does not fit properly at the top and bottom of each pane (in the Edwardian stamps the blue portion is slightly lower than in the Victorian).

On the lower margin, there are two cuts in the purple line under the 11th stamp, presumably denoting "1911" as before and a dot and a cut under the 7th stamp which we are inclined to interpret as "July", the 7th month. Against this, however, is the fact that in the 1½d. sheets the marks were

2nd stamp	5th stamp	6th stamp	11th stamp
I	V	.	II

and in this case it was proved that only the "V II" were Harrison marks, the "dot and cut" being an old De La Rue mark.

In the new 5d. the blue line on the bottom margin of the sheet is broken under the division after the 3rd, 6th and 9th vertical rows of stamps, no doubt to facilitate the division of the sheet into quarters, but the blue line at the sides of the panes is normally continuous. In the case of each pane, however, it is cut opposite the 2nd, 4th, and 7th rows, counting from the bottom upwards. There is no reason to suppose this signifies 247; one might as well say it was 274, 724, or any other combination. The cuts are evidently intended to be made exactly level with the top of the stamp and differ therefore from the other class of cuts made opposite the centre of a stamp. In the case of the 5d. they are narrow, but in the 1½d. they were fairly broad. Can it be that a narrow cut signifies 10,000 sheets and a broad cut 100,000 sheets?

Mr. Hobhouse's reply in the House of Commons on 15.8.11 that "the Government had undertaken to manufacture the stamps of the value of 6d. and higher denominations because they were fiscal rather than postal stamps" has been misunderstood by some of our readers. The word "higher" does not mean "higher than 6d." "Higher denominations" can only mean the higher values, i.e. 2/6, 5/-, 10/- and £1. The 7d., 8d., 9d., 10d. and 1/- stamps are printed by Messrs. Harrison & Sons.

Since July the ½d. Edwardian stamps have been appearing in a yellow-green shade but it is wrong to suggest that it resembles the colour of the Georgian issue. Though some sheets are darker than others there is quite a distinction between the stamps of the two reigns.

**Stamp Booklets.**—We have now received the Georgian stamp booklets, and the following varieties may be found in them.

With inverted Crown watermark.

½d. green, Georgian issue.

1d. red "

Issued 10.8.11 or earlier.

**AUSTRALIA** (621 Z 622).—The Secretary of the Post Office informs us under date of 14.7.11 that it is not yet known when the new stamps for the Commonwealth will be issued.

**AUSTRIA** (618 B 622).—We have received the following handsome seal-stamp.

Seal-stamp.

No value, various colours, inscribed "Internationale Postwertzeichen Ausstellung —Wien, September 1911."

They are printed by the same process as the Jubilee postage stamps and are the work of the same designers and engravers.

**BRITISH LEVANT** (620 V 622).—We are informed by Mr. Oswald Marsh that he also has the following registration envelope dies:—

40 paras on 3d. brown, die 12.  
1 piastre .. .. die 14

The latter is rare.

**NEW HEBRIDES** (620 G 622).—We quote from the *Sydney Morning Herald* (24.6.11):—

NEW HEBRIDES STAMPS.

Will Cover Cost of Island Administration.  
Enormous Orders from Abroad.

Vila (New Hebrides) June 12.

With regard to the forthcoming issue of the new stamps for the group, Monsieur Deschamps, the Condominium Postmaster and Treasurer, expects the new issue to be on sale in the course of the present month. There are, however, three cases said to contain £12,000 worth that will require checking before permission can be obtained from the Resident Commissioners for their sale.

It would appear that M. Deschamps will have a busy time, as, apart from the local sale, which is easily negotiated, he has hundreds of applications, accompanied by all sorts of remittances, from every part of the habitable globe, for supplies of the new issue. He showed me two great drawers full of these, and hundreds more tied up in packets waiting until they could be dealt with.

There is one request for £2000 worth, another for £1000, and another for £800, all from reputable firms, with drafts accompanying them on the branches of banks represented here.

M. Deschamps assured me that the revenue that will be derived from the sale of postage stamps alone of this archipelago will cover the cost of both the British and French Administrations, without subsidies or assistance from the products of the group.

**NICARAGUA** (617 Z 622).—Another fiscal stamp is to hand overprinted "Correos, 1911" for postage use.

Fiscal Stamp overprinted "CORREOS 05 cts. 1911" in three lines in black.

05 cts. on \$2 grey and black.

Issued 6.11 or earlier. The stamps are in five rows of five with margin at top, bottom and right-hand side. We note the following variations.

- No. 3. Last two l's of 1911 close together.
- No. 8. Space between two R's of Correos.
- No. 12. Same as No. 8.
- No. 16. Thick upright C instead of italic C in "cts."
- No. 22. Stop of "cts." close to S.
- No. 24. Thick square raised stop after "cts."

The others of the 1911 set are 2c. on \$5, 5c. on \$10, 10c. on \$2, 10c. on 25c. and 35c. on \$1. (chronicled in E.W.S.N. Nos. 611, 617).

Mr. A. C. Roessler sends us an extract from an official decree dated 12.6.11 authorizing the surcharging for postal purposes of 133,182 fiscal stamps, viz.:

25c.	24,237	\$5	13,442
50c.	54,448	\$10	9,976
\$1	11,467	\$25	6,498
\$2	6,902	\$50	6,242

These are required, our correspondent suggests, because the committee which decided on a new issue and sent the order to England, in March, lacked a financier! But as a matter of fact four months would be rather a short time to get out a new issue of elaborate engraving. The above stamps are to be surcharged

5c.	51,591	} postage 1911
10c.	51,591	
5c.	15,000	} B 1911
10c.	15,000	

The latter are for the Costa Atlantica and will be of silver value, the others being purchasable with the much depreciated paper currency. Given the above official authority and a printer with a brain for figures, what is the smallest number of varieties which are likely to be made?

Later.—We have four more surcharged fiscal stamps from Mr. A. C. Roessler. The wording of the overprint has now been changed, "postal" being substituted for "Correos" (posts) and "VALE" being prefixed to the value.

VALE

10 cts. on 50c. green and black.

Issued 1.8.11 or earlier. The \$50 has not been surcharged before.

**PAPUA** (617 G 622).—We have received used copies of the following:—

Punctured "OS" for official use.

1d. red (Issue 28).

2d. violet ( " 28).

Issued 30.6.11 or earlier.

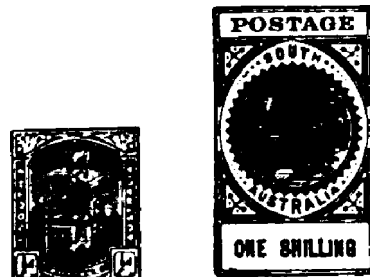

**PORTUGUESE CAPE VERD** (609 S 622).—The following are chronicled by the *Bulletin Mensuel* (25.7.11/1).

Dom Carlos Issue, overprinted "Republica" in red, except on the 25 reis (green).

2½ reis,	grey
5	orange
10	yellow-green

75	violet
100	blue on bluish
115	brown on rose
130	brown on yellow
200	violet on rose
400	blue on yellow
500	black on blue
700	violet on yellow

**SOUTH AUSTRALIA** (620 C 622).—There has been another new printing of the 9d. in quite a distinct shade. The ½d. and 6d. are slightly different.

New Shades.

½d. deeper yellow-green. Crown A, p. 12 x 11½.  
6d. bluer green. Crown A, p. 12½. Value now 15 to 16mm. (15 exceptionally) instead of 15mm.

9d. lake-brown instead of lake. Crown A, p. 12½.

Issued 11.7.11 or earlier. The 2½d. Crown A just received have sheet-numbers 127075, etc., in black and 2½d. 154 in red. The Crown A set of the small stamps is now complete.

## Letters by Aeroplane.

Daily Telegraph, 4th August, 1911.

### POST OFFICE EXPERIMENT.

LONDON TO WINDSOR SERVICE.

An experiment in the utilisation of aeroplanes in the postal service of the country is likely to be undertaken in the very near future by the General Post Office. The proposal is to establish a regular aerial service for a limited period between London and Windsor.

At the General Post Office, yesterday, a Press representative was informed that officially nothing could be said about the scheme. Many details had still to be settled. Negotiations were now proceeding with a well-known aviator for the supply of suitable machines. On the result of these negotiations depended whether the experiment was carried out or not.

The scheme owes its inception, it is learned, to the enterprise of a few gentlemen in London interested in aviation. They had a threefold object in view—to further the science of aviation in this country; to demonstrate the utility of the aeroplane; and to benefit certain charities. The last-named object was to be achieved by issuing special postcards and envelopes for the aerial service at 6d. and 1s. each respectively. All takings in excess of working expenses would then be divided among the selected institutions.

To carry this scheme into effect the authority of the Postmaster-General had to be obtained. Mr. Herbert Samuel was approached, and he not only gave his consent, but readily agreed to co-operate. Certain details were then determined upon. The aerodrome at Hendon and Windsor Park were selected as the points to be connected by the service. How far the scheme has progressed may be gauged from the fact that arrangements have been made with a large West-end stores, and other firms, for the fixing in their establishments of special "aerial" letter-boxes, in which letters intended for the aerial service must be posted. Daily clearances will be made by postmen, and the collections will be despatched to the central clearing-house. Here the letters will be placed in sealed bags, and conveyed by motor-van to Hendon. At the aerodrome they will pass from the direct control of the postal officials into the hands of the aeroplane staff. The bags will be securely fixed to the machines, and the aviators will then start on the journey to Windsor, covering the distance of twenty-one miles in, it is estimated, half-an-hour.

Of course, the number of machines engaged in the service will depend upon the bulk of the deliveries. At Windsor the aeroplane staff will be responsible for the conveyance by road of all the letters to the town post office. They will then be dealt with in the usual way, those intended for local residents being delivered by postmen on their next round, and those destined for any other part of the country, or the world, being dealt with in the usual way, as if they had been posted originally in Windsor.

There will be no special stamp issued for the service, but each stamp will be obliterated in a way that will clearly indicate that it has passed through the "aerial" post.

For these stamps there is bound to be a great demand among philatelists.

## Aerial Post.

DAILY SERVICE FROM SEPTEMBER 9TH.  
LONDON TO WINDSOR.

(From Daily Mail, 23.8.11).

THE first official aerial postal service in Europe will start on Saturday, September 9th, when letters will be conveyed by aeroplanes from the Hendon aerodrome to Windsor. The service will be in operation daily for a limited period. That the King should have graciously consented to the aeroplanes with their mails alighting in Windsor Great Park is a matter of national interest.

The aerial post must obviously be a public and official service, and could only be carried out with the sanction and effective support of the Postmaster-General. It will be carried out in strict accordance with the regulations of the postal service, subject to special conditions laid down by the Postmaster-General.

The aerial service has been instituted in commemoration of the Coronation of their Majesties, with the object of providing a practical test of the application of aeroplanes for postal service, following their adoption by the naval and military services in all countries. The net profits derived from the new service will be devoted by the

organisers to a public charity to be approved by the Postmaster-General.

### PILOTS' DECLARATION.

It was originally intended that the aerial postal service should be in operation during the week of the Coronation and the following week, but the Aerial Navigation Act, 1911, controlling aerial flights, made the arrangement impossible.

The project is being organised by Mr. D. Lewis-Poole and Captain Windham, the honorary organising committee, who have entered into a contract with the Postmaster-General, by the terms of which they will act as "contractors," or carriers, for the aerial postal service. A contract has also been entered into by Mr. D. Lewis-Poole, on behalf of the organisers, with Mr. Grahame-White for conveyance of the aerial mail from London to Windsor, for which service payment will be made. The pilots engaged in the service will sign the usual Post Office declaration which all mail carriers are required to sign.

Only the special pictorial postcards and envelopes issued by the honorary organising committee, by sanction of the Postmaster-General, will be conveyed by the aerial service and they must be posted only in the special boxes placed in the following establishments in London, where the postcards and envelopes will be on sale on and from Friday, September 8th, when the first collection from the special boxes will be made:—

Harrods' Stores, Ltd., Brompton Road.  
W. Whiteley & Co., Ltd., Queen's Road.  
Selfridge, Ltd., Oxford Street.  
Barnes & Co., Hampstead.  
Arding & Hobbs, Clapham Junction.  
Gamage's & Benetfink, Holborn.  
John Barker & Co., Ltd., Kensington.  
D. H. Evans & Co., Oxford Street.  
Secretary's Offices, General Buildings, Aldwych.  
London Aerodrome, Hendon.  
Stock Exchange.

### SPECIAL POST MARK.

The postcards and envelopes, which bear a copyright design of Windsor Castle, printed in either brown, green, or red, are issued stamped: postcards, stamped for inland postage, price 6½d. each; envelopes, stamped for inland postage, price 1s. 1d. each. A correspondence card is enclosed in each envelope. Adhesive stamps must be affixed to make up the fee required for postage abroad.

Postcards and letters conveyed by the aerial post will bear over the ordinary postage stamp a special postmark: "First United Kingdom Aerial Post," and the date. They will be collected from the special boxes referred to above and conveyed to a central post office, and then taken to the aerodrome for conveyance by aeroplane from London to Windsor.

Lloyds Bank (Limited), St. James's-street, London, S.W., has consented to receive, on behalf of the honorary organising committee, donations in sums of one shilling and upwards, which will be acknowledged by the committee by aerial postcards. Persons resident in the country and abroad will thereby be enabled to obtain an aerial postal souvenir and at the same time benefit the charity to which the net profits will be devoted. Remittances must be made by cheque or postal order, and not by stamps.

## How to Clean Soiled Postage Stamps.

A FRENCH philatelist gave some years ago the following directions for cleaning postage stamps in soiled condition. Immerse the stamp to be cleaned in a 2 per cent. or 3 per cent. solution of permanganate of potash, and allow it to remain for a few moments (the length of time depends on the marks to be removed, and a prolonged immersion does not matter); the stamp will then appear of a brownish tint, due to the formation of manganate. In order to remove the deposit of manganate, it is sufficient to soak the stamp in a 2 per cent. or 3 per cent. solution of citric acid, wash it in running water, and dry it. "The process is an excellent one," said the writer, and went on to describe a sheet of stamps in his possession that was covered with rust-marks; half the sheet was treated as recommended above, and the portion in question became quite white without any deterioration in the paper. Another correspondent stated that he tried the formula on an old Spanish stamp that was dreadfully dirty; the specimen became superb, and now he regards it as the gem of his collection.—B.T.K.S. in the *Bazaar, Exchange & Mart*.

## Business Notes.

An advertiser in an American paper who describes his stamps as "awful cheap" asks \$2 (8/2) for the 6c. Guy Newfoundland lithographed with reversed "Z".

## Dictionary of 2000 Colour Names.

(Compiled by H. L'Estrange Ewen, with a view to assisting catalogue editors to a greater choice of colour names, in the belief that more originality in this respect would add to the interest of special shades of stamps. The list is far from complete.)

(Continued from page 2543).

- beaver brown, greyish-brown, drab.  
beech brown, the name of an ink (J. Kidd & Co.)  
begonia red, a pinky rose shade, cerise; R.H.S. plate 123. F. & W., "dark reddish purple."  
beige brown, F. & W., light yellow-brown.  
bellemonte red, F. & W., bright red.  
Bengal blue, a blue dye otherwise known as benzoazurin G.  
Bengal red, a dye usually known as *rose bengale*.  
bengaline lake, a red ink (Berger & Wirth).  
Bengal rose, a milky rose-pink. Fr. rose La France; R.H.S. plate 131.  
benzal green, malachite green.  
benzene (benzo+in) or benzol (C<sub>6</sub>H<sub>6</sub>) is one of the products of the destructive distillation of coal (and must not be confounded with benzine, the commercial substance obtained in the refining of petroleum). Dyes derived therefrom may have benzo prefixed to the name. The Dictionary of Dyes, Mordants, etc., lists 32 dyes of which the names commence with benzo, such as benzo black-blue, benzo blue, benzo brown, benzo chrome black, etc.  
benzidine blue, an obsolete dye.  
benzidine red, an obsolete dye.  
benzoyl green, malachite green.  
benzyl violet, methyl violet, a dye.  
berberine, the colouring principle of the root bark of the *berberis vulgaris* or common barberry; the only natural basic yellow dye known. Bright yellow in shade.  
Berlin blue, Prussian blue (R.H.S. plate 229).  
beryl, sea-green, aquamarine green, (from the ordinary shade of the stone); also, berylline.  
betanaphthol orange, an orange dye.  
bice green, malachite green.  
bice, bice blue, azure blue. Fr. *bis*, dark gray.  
Biebrich, the name of certain blue, black and scarlet dyes.  
bishop's violet, purple, rose-purple. French, violet évêque (R.H.S. plate 189).  
biscuit yellow, an ink shade. According to Warhurst, a tint of warm buff.  
Bismarck brown, otherwise aniline brown, cinnamon brown, English brown, gold brown, leather brown, Manchester brown, phenylene brown, vesuvine. A common name of dyes, paints and inks. F. & W. has bismarck, R<sub>2</sub> O<sub>2</sub> Bk<sub>20</sub> and bismarck brown, O<sub>12</sub> Y<sub>12</sub> Bk<sub>78</sub>.  
bistre, also bistre yellow; a brownish yellow. A "dark bistre" shade illustrated on plate 303 (R.H.S.) and described as snuff brown is almost a light chocolate shade, but bistre is really more yellow than brown. French, bistre (R.H.S. 328). F. & W., has dark brown, R<sub>12</sub> G<sub>7</sub>, Bk<sub>78</sub>, apparently another colour.  
bistre green, a light greenish olive-yellow. French, vert bistré, R.H.S. plate 296.  
bitter-sweet orange, reddish orange.  
bitumen, the common name of a brown oil-colour. Bitumen is similar to asphalt but artists' colourmen list asphaltum and bitumen as separate shades.  
black, the colour name of substances which completely absorb light (or nearly so); in practice, the darkest shade of each colour. (R.H.S. plate 349).  
blacklead, a black oil colour.  
black maroon.  
black slate.  
blanc d'argent, a white oil-colour.  
blanc fixe, see baryta white.  
blanch, white (Chaucer).  
bleach, white (obsolete except as a verb).  
bleu, the French for blue, introduced into the name of several dyes:—blue de Lyon, bleu de nuit, bleu de Paris.  
blonde, fair; also blond, pale yellow.  
blood red, a bright red or lake-red. French, rouge sang (R.H.S. plate 93), rouge sang passé, old blood red, a dull shade (R.H.S. plate 103).  
blood-red brown, a reddish chocolate. French brun sanguine (R.H.S. plate 337).

blue, the class-name of shades ranging between green and violet, modified or not by admixture with black, brown, etc.

blue-bell blue, named after the flower.

blue-black, usually applied to inks which write blue and dry black. Also the name of dyes and paints; ivory black tinted with a small proportion of blue.

blue-bottle blue. This name occurs in an English translation of the French price-list of Roché pastel crayons. The flower "blue-bottle" (also bachelor's button, cornflower) is probably meant.

blue carbonate of copper. See plate 228 (R.H.S.)

bluet, F. & W., dark blue.

bluish black. R.H.S., plate 348. Night black.

blush, or blush pink; flesh colour or pale rose with a yellowish or salmon tinge.

boa green, a pale sage-green.

boat blue, the name of a shade of Aspinall's enamel.

bone black, animal black, charcoal black; a paint prepared from calcined bones.

bone brown, a paint prepared from bones partially calcined.

Bonganville purple, light reddish purple.

Bonsor's black, a black lake (from logwood).

Bordeaux red, the name of a class of red dyes. F. & W. analyses it as O<sub>16</sub> B<sub>7</sub> Bk<sub>77</sub>.

boreal brown, dull orange-brown.

bottle green, dark green as in common glass. F. & W. analyse it as G<sub>19</sub> Bk<sub>21</sub>.

bourgeon green, pale yellow-green.

box green, a green resembling Russian green or olive-green; named from the foliage of the *Buxus sempervirens*. R.H.S. plate 284.

Brahma orange, an obsolete dye.

Brahma red, an obsolete dye.

Brazil brown, a red dye approaching red brown (Portuguese *brasa*, a live coal). The country Brazil is said to have been named after Brazil wood. The lake is known as Brazil-brown lake.

Bremen blue, water-blue, a clear light blue.

Bremen green, a blue pigment now little used; when mixed with oil changes to green.

brick red, a dark orange-red; venetian red. French *brique* (R.H.S. plate 330), *rouge brique* (R.H.S. plate 100).

brilliant, an adjective largely used in naming dyes. The Dictionary of Dyes, Mordants, etc., lists about 40 dye names beginning with "brilliant." Müller lists an oil colour as brilliant ultramarine; "brilliant blue", as illustrated on plate 231 (R.H.S.) resembles indigo.

British ink, the name of a black water-colour.

bronze, a term applied to colours which glitter with a metallic lustre. "Gold bronze" is a powdered copper alloy used in printing to imitate gold.

bronze blue, see sapphire (R.H.S. plate 219).

bronze brown. F. & W. Bk<sub>22</sub> O<sub>4</sub> G<sub>4</sub>.

bronze red brown (R.H.S. plate 306).

bronze red, see ruby (R.H.S. plate 158) and garnet (R.H.S. plate 162).

bronze violet, see amethyst (R.H.S. plate 197).

bronze gold, a reddish gold (R.H.S. plates 44 and 45).

See also copper, gold and silver for bronze brown, yellow and grey. The adjective bronzed when applied to complexion means browned or sunburnt.

bronze-coloured, a yellowish or reddish brown; the colour of bronze.

bronze green, a lustreless shade of very dark olive-green. F. & W., Bk<sub>24</sub> Y<sub>6</sub> G<sub>6</sub>. French, *vert barbedienne* (R.H.S. plate 287).

bronze-medal brown, a bistre-brown. French *bronze de médaille* (R.H.S. plate 298).

bronze yellow. Under this name the R.H.S. colour chart, plate 34, gives a lustreless orange.

bronze powders for printing. The printing ink catalogue of John Kidd & Co., Ltd., lists light gold bronze, rich gold bronze, deep gold bronze, aluminium bronze, silver bronze, copper bronze, citron bronze, fire bronze, crimson bronze, light blue bronze, emerald bronze, violet bronze. See also "metallic and satin inks."

brown, a mixture of red, orange or yellow with black.

brown-lake, venetian red. Warhurst, a bright deep chestnut (R.H.S. plate 336).

brown madder, a brown shade obtained from the madder root.

brown ochre, a yellow-brown earth; rust red. R.H.S. plate 318.

brown-pink, a yellow lake obtained from Quercitron bark.

brown stone, dark brown.

Brunswick black, Japan black.

Brunswick blue, a pigment composed of Prussian blue and barite.

Brunswick green, a pigment composed of Brunswick blue and chrome yellow. The Indestructible Paint Co. have three shades, light, middle and deep Brunswick green.

Brussels brown, an oil-colour.

buff, flesh-yellow, brownish-yellow. This colour name covers a multitude of shades, French, *nankin rougeâtre* (R.H.S. plate 64), *isabelle* (R.H.S. plate 309), *brun de stil* (R.H.S. plate 297).

Bulgare pink, dull bluish-pink.

burel brown.

burnt carmine, a bright carmine-pink, R.H.S. plates 107, 149. The term "burnt" is applied to colours which have been rendered brighter by heat.

burnt carmine lake. R.H.S. plate 106.

burnt Italian earth.

burnt Roman ochre.

burnt rose. French *rose brulé*, R.H.S. 149. F. and W. dark reddish-brown, Bk 65, R12, O16, B7.

burnt sienna, raw sienna carefully burnt; brown-red; red chalk; tan brown. French, *terre de sienne brûlée* (R.H.S. plate 320).

burnt terre verte.

burnt transparent golden ochre.

burnt umber, a light brown colour. French, *terre d'Ombrie brûlée* (R.H.S. plate 304). F. & W., say 85% black.

buttercup yellow.

butternut yellow, yellowish-brown.

butter yellow, a yellow dye used for colouring butter.

cabbage red; the colouring matter of red cabbage (cauline) is used in colouring spurious wines.

cacao brown, light yellowish brown.

cadet blue, F. & W.

cadmium, a pigment derived from the metal of the same name.

cadmium orange (R.H.S. plate 50).

cadmium orange-yellow (R.H.S. plate 49).

cadmium yellow (R.H.S. plate 47).

cadmium saffron (R.H.S. plate 48).

cadmium lemon (R.H.S. plate 18).

cadmium citron (R.H.S. plate 19).

cadmium sunflower (R.H.S. plate 23).

café-au-lait (lit. "coffee with milk"), a brown shade.

Caledonian brown, a brown pigment obtained from ferric oxide.

Caledonian grey, the name of a grey paper.

Calabrian earth, a Roché pastel.

Cambridge blue, light blue.

Cambridge red.

camelia lake, a printing ink (J. Kidd & Co.).

camerier purple.

campanula violet, heliotrope (R.H.S. 198).

camellia lake, the rose shade of the camellia.

canard green, blue-green, duck-green.

canary yellow, a very light yellow. Also, primuline, clayton yellow. R.H.S. plate 17.

cannelle, an old name for Bismarck brown.

capillaire green, dark yellow green.

cappah brown, or Cappagh brown (named from the town Cappagh in Ireland); a natural reddish-brown pigment.

Capri blue (named from the Blue grotto, Capri), a dull blue approaching turquoise. French, *bleu Capri* (R.H.S. plate 226).

capucine red, a Roché pastel colour.

capucine lake, carrot red (R.H.S. plate 55); named from French *capucine*, nasturtium.

capucine madder.

caraipe brown. See carob brown.

carbazol yellow, a yellow dye.

carbide black, a black dye.

cardinal red, crimson red. French, *rouge cardinal*, R.H.S. plate 112.

carmelian red.

carmine, a bright rose obtained from the cochineal insect. French, *carmin de cochenille*, R.H.S. plate 116.

carmine of indigo, see indigo carmine.

carmine red, cochineal red, cardinal red; French, *rouge Caroubier* (R.H.S. plate 113). See old carmine red (R.H.S. plate 107).

carmine lake, cochineal rose (R.H.S. 121, see also plate 106, a totally different shade).

carmine maroon.

carmoisin, a crimson dye.

carnation, pale rose, flesh colour.

carob brown (named from the carob tree), also caroubier brown, chocolate; R.H.S. 342.

caroline rose, a pale rosy pink (R.H.S. 129).

caroubier red, carmine red (R.H.S. 113).

carriage green, a dark green enamel.

carrot red, an orange shade; capucine lake. French, *rouge carotte*, R.H.S. 55.

carthamin rose, *carthamus* rose (Arabic *qartam*, safflower), a rosy scarlet obtained from the safflower, R.H.S. plate 124.

carthamin red, a red dye largely used for the "red tape" commonly used in tying up documents. Also, *carthamus* red.

carthamus red, safflower red, Lincoln red; R.H.S. plate 88.

Cassel blue, mineral blue (R.H.S. 228).

Cassel earth, snuff brown (R.H.S. 303); another name for Vandyke brown.

castor, drab.

catalpa pink, bluish pink.

catechu brown, a brown dye.

cedar green, a greyish green (R.H.S. 283). Also, *cedre*?

cedar brown, brown-red.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current Issue (621 S 623).—We understand that the booklets of King George ½d. and 1d. stamps are for the present out of issue, and Post Offices are unable to get further supplies.

Mr. A. B. Kay informs us that he has had a pane of the 2½d. Harrison print with inverted watermark, the top row of the pane being almost without watermark.

**Railway Postage Stamps** (596 B 623).—The following new issue has been made.

Great Western and Great Central Joint Committee. 2d. green, unnumbered. Sheets of 30, 5 rows of 6.

Issued 1.8.11 or earlier. This line previously used G.W.R. stamps overprinted. The new issue is already in use at High Wycombe, Beaconsfield, Gerrard's Cross, Saunderton and other stations. Mr. F. J. Melville has a column on the Railway Letter Post in last week's *Daily Telegraph* (24.8.11).

**BAHAMAS** (598 M 623).—We have received the following novelty:—

With multiple watermark. 6d. stone-brown.

Issued 14.8.11 or earlier. As the stamp is printed from the Edwardian plate, it is hardly to be expected that a large supply has been printed. The Edwardian record now stands:—

Wmk. single Crown CA.  
(31) 1d., 2½d., 4d., 6d., 1/-, 5/-, £1.

Wmk. multiple Crown CA.  
(32) ½d., 1d., 2½d., 6d.

**CAYMAN ISLANDS** (602 M 623).—Our last communication from this part of the world brought the information that the stock of ½d., 1d. and 2½d. stamps was completely exhausted, but that there was a large stock of ¼d. stamps which was being used, and it was expected to hold out until a new supply of the other values could be obtained, thus avoiding the necessity of provisionals. But if the supply should not arrive from England as expected and the ¼d. stamps give out, what then?

B.T.K.S. writes in *The Bazaar, the Exchange and Mart* (19.8.11).

### "CAYMAN ISLAND STAMPS.

From a communication in *Mekeel's Weekly*, we learn that, early in June last, postage stamps of the values of ½d., 1d. and 2½d. were entirely sold out, and that ¼d. stamps were being used for postage up to 3d. The new stamps, with portrait of King George, have been ordered from London, but they were not expected to arrive in the Islands until August or September. The stock on hand of ¼d. stamps, however, is very large, and it was expected that these would hold out until the arrival of the new issue. The ½d., 1d. and 2½d. will be the first to appear in the new type. Of the higher values there is a considerable stock, which will be used up before requisitions are sent through for supplies of them in the new design. It is said that the original supply of 10s. stamps, with portrait of King

Edward, has not yet been used up, and as this was printed on 'single CA' paper, the stamp in question will never appear with 'multiple CA' watermark. Mails are still very irregular, but they manage to get a registered mail through to Kingston once a month, while ordinary mail-matter is sent when opportunity presents itself, via Cuba, the Southern States, or Central America."

**CHINA** (597 I 623).—The 1c. postage due is chronicled by the *Berliner Briefmarken Zeitung* (19.8.11/338) in a new colour.

Postage Due. New colour. 1c. dark brown (formerly blue).

**CHINESE P.O., TIBET** (618 D 623).—We have received panes of all values, either 20 or 25 stamps to the pane, but did not notice any errors of surcharge.

**COSTA RICA** (621 F 623).—Mr. A. C. Roessler writes us (19.8.11):—

"The 5c. blue and orange, surcharged 'Habilitado, 1911.' My first shipment contained errors on Nos. 45 and 95 of sheet, also Nos. 9 and 59, 19 and 69, showing, quite obviously, that the sheet of 100 stamps had been surcharged by two operations of the same stereo of 50, first the bottom five rows of ten stamps, then the five top rows.

"In the lot sent Aug. 5th, from Costa Rica, I find the upper half of the sheet corrected. The capital I which was used in place of 1 in date, the final a in Habilitada, the raised rule, all have been corrected. The lower half of sheet contains all the errors. As this provisional will continue in use for sometime it will not be unlikely that sheets may be found to contain:—

1. Errors in upper and lower portion.
2. Errors in lower; top corrected.
3. Both bottom and top corrected."

**DUTCH SURINAM** (620 V 623).—Correction.—In our recent chronicle, the second "½ cent on 1c. grey" should be "½ cent on 2c. brown."

**HONDURAS** (621 X 623).—We illustrate the design of the 1911 issue.

**HYDERABAD** (611 O 623).—A correspondent writes from the Deccan, under date of 10.8.11:—

"I have just paid a visit to H.H. The Nizam's Mint at Hyderabad, and was privileged to see the printing of the stamps now in use.

"The machinery is very antiquated, especially that for perforating the stamps, whilst all gumming is done by hand with an ordinary gum brush. The perforating machine is rather like a sewing machine on a slightly larger scale. The panes of stamps are inserted by hand, and when properly in position a treadle is pressed making the holes. Owing to the machine having been so long in use, the teeth have become worn, which accounts for the ragged appearance of the stamps. A new printing of stamps was in progress whilst I was there. Formerly the printing was dull and indistinct. This has now been overcome, and the new printing is a decided improvement on the old. Each plate, after the ink has been well rubbed in and dried, is now heated, which causes the ink to work more into the dies. The same amount of ink is used as before. Stamps of the new printing should be on sale now, as they were to be sent out from the mint on the 7th August. A change of colour,

however, takes place in the 8 annas from brown to purple, and also in the 12 annas.

"I noticed some time ago that Stanley Gibbons had chronicled the 8 annas purple as having been issued. This is not the case, as I was distinctly told not one had gone out before the 7th August.

"The plates in use were made by Bradbury, Wilkinson & Co."

*The Evening News* (29.8.11) states that the Nizam died at midday, having been suddenly taken ill yesterday. His portrait has never been placed on the stamps.

**LEEWARD ISLANDS** (616 M 623).—The following have now been issued, we are informed by Mr. A. D. Jenny.

New colours. Multiple wmk.  
2d. grey.  
6d. violet, name in brighter purple.  
1/- black on green.

Issued 3.8.11 or earlier. The 2/6 has not yet been issued. The ½d. and ¼d. are coming over in slightly different shades.

**SERVIA** (621 T 623).—We illustrate the design of the new stamps. In the last chronicle "1c." was written by mistake for "1p."

**SOUTHERN NIGERIA** (604 U 623).—The following notice has been received:

### SOUTHERN NIGERIA STAMPS.

The Crown Agents for the Colonies have received information from the Government of the Southern Nigeria Protectorate of the loss of 60 sheets of 6d. Postage and Revenue stamps of the current issue.

The sheets are numbered in the margin from 3379 to 3438.

If any sheets so numbered, or any whole sheets, should be offered for sale, the Crown Agents would be much obliged if notice was given to them at once, and if the name and address of the seller could be obtained.

Whitehall Gardens, S.W.

23rd August, 1911.

"The sheets are numbered in the margin." Will postage stamps ever be numbered on the face like railway stamps? Such numbers would be immensely useful in cases like this and especially in the case of high values. Low values could not be numbered on account of the great expense.

**SWEDEN** (620 H 623).—We are informed by Mr. Nils Strandell, Editor of the *Nordisk Filatelistisk Tidsskrift*, that the following has been issued.

Without watermark. 20 öre. blue (old design).

Issued 21.8.11 or earlier. The varieties now known are:—

### Old Issue.

- (31) Wmk. Crown, all.
- (32) No wmk., 20, 25 öre.
- (33) Wmk. wavy lines, none.

### New Issue.

- (41) Wmk. Crown, 1, 2, 4, 10 öre, 1 krona.
- (42) No wmk., 5, 10 öre.
- (43) Wmk. wavy lines, 4 öre.

### New Official Issue.

- (51) Wmk. Crown, 1, 2, 4, 5, 8, 10, 15, 20, 25, 30, 50 öre.

## THE WEEK'S NEWS.

(Continued from page 2557.)

**SPANISH GUINEA** (566 Q 623).—The *Madrid Filatelico* (8.11/145) chronicles the following:—

Issue of 1909 inscribed "Territorios españoles del Golfo de Guinea" overprinted "Guinea, 1911" in an ellipse.

1c. chestnut-red.	Surch. blue.
2c. rose	" green.
5c. green	" red.
10c. vermilion	" black.
15c. chestnut	" red.
20c. violet	" black.

Further our contemporary states that it has seen several of the values, from the surcharge of which the "1911" is replaced by a dash.

**TRAVANCORE** (608 J 623).—We illustrate the new 3 chuckrams.

**UNITED STATES** (621 V 623).—Can any of our readers give us any information respecting adhesive labels of this design?

**VICTORIA** (616 U 623).—The following variety has reached us:—

Watermark Melbourne Crown A sideways instead of upright.  
 1d. rose.

Issued 26.7.11 or earlier.

## Railway Stamps.

CAN AN EXCHANGE CLUB BE KEPT ALIVE?

We referred to this subject in May and June last (1911) and propose to see if an Exchange Club cannot be formed during the coming season. There are hundreds of collectors mildly interested in the subject, but few who are large buyers and still fewer who have any good duplicates. The Club would stand the best chance of success if no entrance fee were charged and stamps were taken for circulation from anyone and everyone, the packets being sent to members only.

Although we have had many offers to undertake the duties of Secretary, we should be disposed for the time being to undertake the work, and in this case no commission would be charged on either purchases or sales.

Mr. A. E. Milner writes that he already has a "Fiscal and Rail Stamp Exchange" but we do not think this quite fills the want. A great many collectors of railway postage or fee stamps do not touch fiscals at all or even railway newspaper stamps and it is quite enough to have the latter included.

Messrs. Howard Cocks, Albert H. Harris, A. Cocker, P. J. Evans, W. T. Elliott, and W. H. Earl have also offered their assistance but we have not as yet sufficient promises of monthly sheets of duplicates nor applications for membership. Will those who would join either as purchasers or sellers kindly speak up?

## Trust Estate of Frederick Guthrie, Stamp Dealer, late of Glasgow.

MR. GUTHRIE, who advertised rather largely, disappeared from Glasgow in May last, and no trace of his whereabouts can be ascertained. We believe that creditors' claims for nearly £1000 were put in, but the assets have only realized £19, of which £11 goes in rent, £2 in postage, and the trustee takes the rest for legal expenses and his fee. Our only transaction with Guthrie was to send him, at his request, approval books of Norway, etc., by registered post, which he said he returned *unregistered*, but of which no trace was subsequently found.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**CHILE** (617 S 624).—A Santiago correspondent sends us a cutting from a Chilean newspaper of 13.7.11 (of which he omits to tell us the name) which sets out the quantities of recent issues ordered. As these figures do not entirely agree with those we have previously published on the authority of contemporaries, it may be as well to give them here.

Requisitions for stamps made by the Minister of the Interior to the Santiago representative of the American Bank Note Company of U.S. of America since 1910.

	Order given 7 Jan., 1910.	Order given 23 June, 1911.	Order given 1 July, 1911.
1 centavo	6,000,000	5,000,000	—
2 "	8,000,000	7,000,000	—
3 "	1,000,000	200,000	5,000,000
5 "	30,000,000	20,000,000	—
10 "	5,000,000	2,000,000	—

5 "	20,000	50,000	2,000,000
10 "	10,000	50,000	1,000,000

The Chilean newspaper states that the first of these orders, that of 1910, was for the Presidential issue and the other two for the Centenary issue; but this must be wrong, because the Centenary issue was made before June, 1911. It criticizes the wisdom of giving the order of 1st July, 1911, in view of the fact that the Centenary issue is to be withdrawn on 18.9.11. The *Schweizer Briefmarken Zeitung* (5.11.106) and *Bulletin Philatélique* (5.4.11/80), both writing before the dates on which the above orders were said to have been given, state that the 2nd order is for the Presidential issue and the 1st and 3rd for the Centenary issue, which is more likely to be correct, though the 3rd order still appears superfluous.

Another cutting, also from an unnamed Chilean newspaper, dated 15.7.11, gives the text of the decree ordering the destruction of the remainders of the Centenary issue on 31.12.11.

**MEXICO** (585, 613 I 624).—We illustrate the design of the postage due stamps.

**NEW ZEALAND** (609 Y 624).—We quote from *Stanley Gibbons' Monthly Journal* (31.7.11).

"Messrs. Hayman & Co., the well-known New Zealand merchants, inform us that all their mail from the Dominion on July 8 was franked, not by postage stamps, but with handstamped franks, stamps having, it would seem, run out of stock. This seems to us an extraordinary thing to have happened in such towns as Dunedin, Wellington, and Auckland, whence the envelopes submitted to us were despatched. One of them bears nine circular handstamps in magenta, each value 1d., dated 'Dunedin 6. June 11'; the second three black rectangular stamps of 1d. and two of the above-mentioned magenta stamps with the 1d. altered in pencil to 8d. and 1s. These are all dated 'Dunedin 5. June 11'; the third has two small black circular stamps, 'Wellington 1d. Postage Paid,' and one circular magenta stamp similar to those described, but dated 'Auckland, 7 June 11,' with the '1d' altered in red ink to '2d'. Can it be that all stamps have run out in these three places, and that a fresh and Georgian issue is now due?"

**NICARAGUA** (622 A 624).—The fiscal stamps which are being used up by surcharging to keep the Post Office going are those of the following designs:—

**PANAMA, CANAL ZONE** (600 D 624).—The *Philatelic Gazette* (1.9.11/8) states it is informed by Dr. J. C. Perry that a new 10c. stamp has been ordered from the American Bank Note Company to replace the 10c. on 13c. which is expected to last a year. The new stamp will be similar in design and colour to the 13c. Map.

The same journal states that one sheet each of the following varieties has passed into circulation.

- (a) 10c. on 13c. Inverted surcharge.
- (b) " " Without 10cts. surcharge.

A further 13 sheets of (a) and 1 sheet of (b) were detected and burnt.

**PAPUA** (622 H 624).—We have received the following.

Punctured "OS" for official use.  
½d. green (Issue 28).

Earliest postmark seen, 18.5.11. We have the 2d. postmarked 29.6.11. All three unicoloured stamps are now known punctured for official use. We understand that the 2½d. unicoloured was expected to be issued during August 1911.

**PORTUGUESE ANGOLA** (617 M 624).—The following are chronicled by the *Bulletin Mensuel* (25.7.11/1).

- Overprinted "Republica."  
Postage Due Stamps.
- 5 reis, green.
  - 10 " violet-grey.
  - 20 " red-brown.
  - 30 " vermilion.
  - 50 " brown.
  - 60 " lilac-brown.
  - 100 " red-lilac.
  - 130 " blue.
  - 200 " carmine.
  - 500 " violet.

Red surcharge except on the 200 reis which has green surcharge.

**ST. LUCIA** (607 I 624).—Mr. A. D. Jenny tells us that he is informed that the 6d. stamp is now printed in "lilac and carmine" [purple?—Ed.]

**ST. VINCENT** (621 V 624).—We are informed by Mr. A. D. Jenny that he has received the following:—

New Colour.  
2d. grey, wmk. multiple Crown A, ordinary paper.

Issued 3.8.11 or earlier.

**SALVADOR** (619 N 624).—We read in the *Diario del Salvador* (8.8.11):—

"PROVISIONAL POSTAGE STAMPS.

In order to withdraw from circulation the postage stamps which are at present in use and in the meantime to make ready the set which will replace it, it has been decreed that with the plates which served for the issue of those of the Palace type there shall be printed in sufficient quantity of the values of 1, 2, 13, 24 and 50 centavos. With these denominations and the 5, 6 and 12 centavos of the commemorative issue, the payment of postage shall be made until the end of the present year."

For some reason or other the authorities wish to get rid of the head of Figueroa. Has he ceased to be President?

In any case the new printing of the 13, 24 and 50 centavos will be a new issue as it is fairly certain they will be on the new watermarked paper. In view however of the fact that the remainders of the "National Palace" type have been already in part sold to dealers at less than their face value, it is probable that this reissue will have to be distinguished by some such overprint as "1911." Perhaps the remaining remainders may be surcharged; that would be quicker than printing a fresh supply.

**TRANSVAAL** (605 C 624).—Under date of 18.7.11 we are officially informed that the stock of 2/- stamps was then exhausted but a further supply was being printed and was expected in about two months. We have two slight shades of the 2d. and 1/-.

New shades.  
2d. deeper mauve.  
1/- red-brown and paler grey.

Issued 18.7.11 or earlier. The stamps of the Transvaal and other States are now issued at the G.P.O., Capetown.

**TRAVANCORE** (623 K 624).—The shades of these stamps are constantly changing. Our last supplies were issued 11.10 and 30.6.11 and were both different to preceding supplies and in the case of several values to each other. The type varieties are as described in E.W.S.N. No. 608.

**UNITED STATES** (623 W 624).—We have a new 1c. postcard.

Postcard. Stamp with portrait of President Lincoln.  
1c. rose.

Issued 10.8.11 or earlier. Rose is a new colour for the postcards, black or blue being usual.

Seal-stamps. We have two oblong labels inscribed "Attend the Centennial Celebration, Astoria, Oregon, Aug. 10th to Sep. 9th, 1911" with a view of Astoria in 1811.

Astoria, pink and black.  
" green "

Published in sheets of 12, 4 rows of 3.

**VICTORIA** (623 V 624).—In a consignment of stamps just received we note that the 2½d. stamps have all been regummed before issue. The *Melbourne Age* says (5.7.11):—

The stamp printing machinery at the Federal Treasury narrowly escaped destruction by fire yesterday morning. The gum sticking machine was badly damaged, but by the use of chemical extinguishers the staff prevented the flames from getting a hold on the office. The cause of the fire was the igniting of the paper in the gumming machine.

## Dictionary of 2000 Colour Names.

(Compiled by H. L'Estrange Ewen, with a view to assisting catalogue editors to a greater choice of colour names, in the belief that more originality in this respect would add to the interest of special shades of stamps. The list is far from complete.)

(Continued from page 2559).

**glaucus**, or **glaucous**, a pale greyish green, sea-green. R.H.S. 253, 254.

**glaucus blue**, the name of a Roché pastel.

**glaucus grey**, a greenish-grey, a slate-grey, (R.H.S. 245, 246).

**gloria red**, a vermilion ink (Berger & Wirth).

pale golden bronze (R.H.S. 71), red-brown.

reddish golden bronze (R.H.S. 77), orange-brown.

golden reddish brown (R.H.S. 306), deep brown.

golden old rose (R.H.S. 146), orange brown.

golden rose (R.H.S. 133), silver and faint rose.

greyish gold (R.H.S. 69), silvery brown.

The names given second are those in each case which we should give, the metallic sheen being added. The charts of Aspinall's enamel list six shades as gold, but they are ordinary yellow shades, without lustre.

**golden brown**. The enamels of this colour are a rich red brown.

**gold bronze lake**; an ink of this name is an ordinary carmine.

**golden yellow**, an ink of this name is a bright canary yellow; chrome yellow.

**golden feather's yellow**; primrose (R.H.S. 16).

**golden ochre**, a bright yellow.

 methyl dyes; methyl alkali blue, blue, green, orange, violet, water-blue.  
 methylene dyes; methylene blue, grey, green, violet.  
 Mexican blue, the colouring matter of *Seriocographis mohite*.  
 mexique, Mexican blue.  
 middle stone, rose, etc. Shades are sometimes distinguished as I., II., III., or as dark, middle, pale. For instance, a chart of Anderson's washable water paint has middle stone, middle rose.  
 mignonette green; F. & W. has "dark green." A sample of mignonette paper is of the lightest green.  
 Mikado; F. & W. has "purplish-red."  
 Mikado dyes; mikado brown; mikado gold yellow; mikado orange; mikado yellow.  
 milk white, white, R.H.S. 11.  
 milky green, greenish-white, R.H.S. 15.  
 milky lilac, lilacy white, R.H.S. 7.  
 milky pink, pinky white to flesh, R.H.S. 8.  
 milky shades; white tinged with colour or very pale shades.  
 milling dyes; milling blue; milling green; milling orange; milling red; milling scarlet; milling yellow.  
 milori blue; Prussian blue; medium dark blue.

 mimosa yellow.

mineral blue, blue carbonate of copper; Chessy copper, chessylite, azure copper, copper blue; deep Venetian blue; English blue; Cassel blue; mountain blue.  
 mineral brown, a rich brown (R.H.S. 339).  
 mineral green, a rich yellow-green; malachite green, R.H.S. 263.  
 mineral grey.  
 mineral lake, a pink pigment.  
 mineral orange, orange lead.  
 mineral purple.  
 mineral violet.  
 mineral white, permanent white.  
 mineral yellow, patent yellow.  
 miniature tints, see Harding's miniature tints.  
 minimum red, scarlet orange, R.H.S. 59. Roché's pastel shade "mine orange" may be the same.  
 Mocha coffee, brown.  
 mode gray, pale bluish gray.  
 monochrome tints (cool and warm).  
 monopol red (Berger & Wirth, ink).  
 monsoreau, F. & W., dark reddish-pink.  
 mordant. The *Dictionary of Dyes, Mordants* etc. states that this term is often erroneously used to designate any substance other than the colouring matter itself, which is used in the dye-bath. The term should be confined to those substances which combine with the colouring matter employed and form an integral part of the colour as fixed on the material. Mordants are not by any means invariably necessary . . . thus the *acid, basic* and *direct cotton* dyes all dye wool without the aid of mordants, but the *mordant* dyes do not possess this property. The *basic* dyes must be used with mordants in cotton dyeing.  
 mordant dyes. The *Dictionary of Dyes, Mordants, etc.* states that the common characteristic of these dyestuffs is their ability to form, with metallic oxides, insoluble lakes which can be fixed on the textile fabrics. They are divided into four classes:—alazarins, derivatives of pyrogallol, azo compounds, nitroso compounds, and the dyes are named therefrom and not from the term mordant, except mordant yellow.  
 mordoré, F. & W., very dark brown.  
 Morocco red, a brownish red, R.H.S. 95.  
 Morse's blue.  
 moscovite, F. & W. "dark sage-green."  
 moss-rose, F. & W. pale greenish-yellow.  
 moss-green, a variable shade; a green approaching olive-yellow (R.H.S. 272); bright grey-green, R.H.S. 274. Aspinall's enamel charts have moss-green 1, 2, 3, which are respectively dark yellow, yellow and olive-brown. Calcitine cold water paint appears grey from the chart. Old moss green (R.H.S. 290) is olive-green. Warhurst, "a buff-green colour usually, may be darker."  
 mottled grey, a paper.  
 mountain blue, mineral blue.  
 mouse brown, a greyish-brown.  
 mouse grey, mouse colour; R.H.S. 360.  
 mousse, F. & W., dark green.  
 Mr. Sprinck's pastels. See Rowney, page 161.  
 Mr. Sprinck's citron.  
 Mr. Sprinck's olive.  
 Mr. Sprinck's russet.

Railway Postage Stamps.

The Editor has just finished sorting the whole of his duplicates according to printings. There are 128 standard varieties listed in our Reference List, but by collecting printings these can be extended to about 800. The Editor has over 500 of these amongst his duplicates and offers them at the all round rate of 1/- per stamp nicely arranged in a collection on 56 large sheets with manuscript notes. Some are used, and a few of the rarer varieties are included. The Editor would be very glad to exchange with other collectors, and is mainly short of common recent varieties.

The total face value of this fine nucleus for a Papua collection is 39/1, and we offer it at the very low price of £5, considering the scarcity of many stamps, and the fact that official stamps are no longer obtainable. The 2/6 of issue 5 is a rarity, and even issue 6 is advancing.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**HONG KONG** (582 S 625).—We have received the 20, 30 and 50c. in new colours with consignment letter T, also the 1c. brown (previously issued with S). The recent varieties of consignment letters known are as follows:—

- F 8.04? 2, 4, 5, 10, 12, 20, 30, 50c., \$1, 2, 10.  
(All mult. ord., except 10c. 12c., \$10 single).
- G 2.05? 2, 4, 5, 10, 12, 20, 30, 50c., \$1, 2, 10.  
(All mult. ord., except 12c. single).
- H 8.05? Mult. chalky, \$2, 3, 5.
- J 2.06? Mult. chalky, 4c.
- K 8.06? Mult. chalky, all except 1c.
- L 2.07? Mult. ord., 2c., 4c. rose.  
Mult. chalky, 5, 8, 10, 12, 20, 30, 50c., \$1, 2, 3, 5.
- M 8.07? Mult. chalky, 6, 8c.
- N 2.08? Mult. ord., 2, 4c. rose, 10c. blue.  
Mult. chalky, 5, 8, 20, 30, 50c., \$1, 5, 10.
- O 8.08? Mult. ord., 2c.  
Mult. chalky, 5c.
- P 2.09? None recorded.
- Q 8.09? Mult. ord., 2c., 10c. blue.  
Mult. chalk, new \$2
- R 2.10? Mult. ord., 2, 4, 10c.
- S 8.10? Mult. ord., 1c. brown.
- T 2.11? Mult. ord., 1c. brown and mult. chalky, 20, 30, 50c., new colours.

A complete set of these consignment letters should make a valuable collection, as very few collectors have saved them. They are undoubtedly of the greatest philatelic value.

The varieties of the Edwardian stamps now in existence are:—

Old Colours.

Wmk. Crown CA, ordinary paper.

- (31) 1, 2, 4, 5, 8, 10, 12, 20, 30, 50c., \$1, 2, 3, 5, 10.

- (19) United and free, thou shalt thy rights defend.
- (20) The victorious flag, Ars, Labor.

We have only seen Nos. 8 and 9 at the moment of going to press. These have the inscriptions "1859. Plebiscito di Toscana" and "Lo scoglio di Quarto" respectively.

**ORANGE RIVER** (620 K 625).—Mr. W. H. Maunder shows us the 6d. revenue stamp post-marked and used with a penny postage stamp. The postmark is rather illegible, but we can make out "Registered—14 \* \* \* o \* \*", the asterisks indicating indistinct letters or months. We are not at all sure though that the postmark is not an English one.

**PORTUGUESE ANGOLA** (624 N 625).—The set of postage due stamps has now been overprinted "Republica."

**ST. HELENA** (620 T 625).—We are indebted to Mr. Stone-Wigg for sight of the enclosed notice:—

"Post Office,  
St. Helena,  
July 17th, 1911.

SIR,—Referring to my Circular Letter of the 19th April last, in which I informed you that the Edward VII. issues of St. Helena stamps would probably be destroyed about August next, I am directed to inform you that owing to some unforeseen delay which has occurred in London in the printing of the George V. Issue of Stamps, the Edward VII. Issues will in all probability remain in use until the end of the current year. Under the circumstances, this Government has ordered a small stock of those values of the Edward VII. Issue which became exhausted early in the current year, viz., the 1d., 2½d., 4d., 6d. These values, together with those given in my letter of the 19th April last will be in stock from September next until the George V. Issue is received.

I am,

Your obedient servant,  
T. R. BRUCE, Postmaster."

**SEYCHELLES** (529 J 625).—The Postmaster writes, under date of 7.8.11, that there is still a large stock of King Edward stamps on hand, and it is expected that this stock will have to be exhausted before any new stamps are ordered.

The history of the current set is as follows:—

Old Colours.

Wmk. Single Crown CA, ordinary paper.

- (31) 2, 3, 6, 12, 15, 18, 30, 45, 75, 150, 225c.  
(32) Surcharged, 3c. on 15, 18, 45c.

Wmk. Multiple Crown CA, ordinary paper.

- (33) 2, 3, 6, 12, 15, 18, 30, 45, 75, 150, 225c.

The 3, 6 and 15c. are in the Postal Union colours, but otherwise no stamps have been issued according to the new colour standard, and it is noteworthy that there has been no new variety of any kind from the Seychelles for over five years, the single wmk. stamps all having been issued in 1903, and the multiples in March, 1906.

**SOUTHERN NIGERIA** (623 V 625).—We are officially informed that stamps with the portrait of King George V. will not be issued here until some time during 1912.

The present record of Edwardian stamps stands:—

Old Colours.

Wmk. Single Crown CA, ordinary paper.

- (31) ½d., 1d., 2d., 2½d., 4d., 6d., 1/-, 2/6, 5/-, 10/-, £1

Wmk. Multiple Crown CA, ordinary paper.

- (32) ½d., 1d., 2d., 2½d., 4d., 6d., 1/-, 2/6, 5/-, £1

Wmk. Multiple Crown CA, chalky paper.

- (33) ½d., 1d., 3d., 4d., 6d., 1/-, 2/6, 5/-, 10/-, £1

New Colours.

Wmk. Multiple Crown CA, ordinary paper.

- (34) ½d., 1d., 2d., 2½d.

Wmk. Multiple Crown CA, chalky paper.

- (35) 3d., 4d., 6d., 1/-, 2/6, 5/-, 10/-, £1

The last new issue was in September 1909.

**TASMANIA** (616 B 625).—The *Australian Philatelist* (1.7.11/137) describes a sheet of the current 1/- on Crown A paper, perforated 12½ small holes, in which the right-hand vertical side was perforated 12, probably due to some sheets having been received from Melbourne with the line of perforation missing, a deficiency which would be supplied in Hobart.

The varieties of the Queen's Head issue (values still or recently current) now known are:—

- (31) Wmk. TAS, perf. 14.  
½d., 2½d., 5d., 6d., 8d., 9d., 10d., 1/-, 2/6, 5/-, 10/-, £1.  
1½d. on 5d.

Wmk. V Crown upright.

- (32) P. 12½, 9d., 1/-.  
(33) P. 11, 9d., 1/-.  
(34) Wmk. sideways, p. 12½, 9d.

Wmk. Melbourne Crown A.

- (35) P. 12½, 8d., 9d., 1/-, 10/-.  
(36) P. 11, 8d., 9d., 1/-, 10/-.  
(37) P. 12½, with 11, 9d., 1/-.  
(38) P. 12½, 12 mixed, 1/-.

The latter (38) is the one just reported.

## Dictionary of 2000 Colour Names.

(Compiled by H. L'Estrange Ewen, with a view to assisting catalogue editors to a greater choice of colour names, in the belief that more originality in this respect would add to the interest of special shades of stamps. The list is far from complete.)

(Continued from page 2567).<sup>o</sup>

**Naples yellow**, a light yellow with shade of ochre or buff. F. & W., Y<sub>20</sub> O<sub>17</sub> W<sub>48</sub>. Rowney, a mixture of cadmium yellow and white. Also French Naples yellow.

**nasturtium red**.

**natural ultramarine**.

**navy blue**, a dark blue approaching indigo. Chiefly applied to dark blue cloth.

**navy green**, dark grass green.

**nectarine**.

**Neptune green**.

**neutral tint**, a grey pigment of various shades used by artists. Funk & Wagnall, purplish-black, Bk<sub>7</sub> W, B<sub>11</sub> R<sub>4</sub>. R.H.S. plate 361, a lilacy grey; plate 346, slate-grey to nearly black. French, ink black, raisin black. Neutral means free from admixture of colour (black, grey, brown not being colours properly); as, neutral tones, neutral tint, neutral gray.

**neutral colours**; colours without any tinge of other colours.

**neutral orange**, a mixture of cadmium yellow and light red (Rowney). R.H.S. 319.

**neutral dyes**; neutral blue, neutral gray, neutral red, neutral violet.

**new blue**, Paris blue, light blue.

**new hay**, F. & W., Bk<sub>20</sub> G, Y<sub>4</sub>.

**new olive-green**.

**new rose**, a water-colour.

**new dyes, inks, etc.** "New" is often prefixed for commercial purposes to the names of inks, dyes introduced by particular firms. For instance, a catalogue of Berger & Wirth's inks has new-magenta No. 1452, new violet-lake No. 1104, ditto No. 1105 (the latter two, violet and mauve respectively). The *Dictionary of Dyes* has new blue, new coccin (red), new fast blue, new fast green, new fast grey, new green, new grey, new magenta, new metamine blue, new methylene grey, new patent blue, new pink, new red, new solid green, new Victoria black, new Victoria black-blue, new Victoria blue, new yellow.

**Nicholson's blue**, alkali blue.

**night blue**, greenish-blue.

**night green**, iodine green. F. & W., G<sub>11</sub> Y<sub>9</sub>.

**nigraniline** (niger, black+aniline), aniline black.

**nigrisine**, methylene grey.

**Nile blue**, pale greenish blue resembling Nile green.

**Nile green**, a light yellow-green.

**Nilsson rose**, a fine rose-pink (R.H.S. 120).

**nitrophenylenediamine red**, a fine full red dye.

**nitrosamine dyes**; nitrosamine red.

**noisette**, F. & W., gray brown.

**Norfolk brown**.

**Normandy blue**, greenish blue.

**Nottingham white**, an oil colour.

**nut brown**, orange-brown.

**nutria**, F. & W., neutral gray.

**Nyanza black**, a dye.

**Nyanza**, F. & W., pale yellow-green.

**oak**, brownish-yellow, a very light buff-brown. Oak enamels on the market appear to vary greatly in colour; Aspinall's enamel has two shades, light orange and black-brown; Patinol enamel and Indestructible paint have a light chocolate and calcitine cold water paint almost a mouse-brown.

**ochre** (ochros, pale yellow). Warhurst, "clays coloured from yellow to brownish-red; Funk & Wagnall, a very light brown, almost stone-brown, Y<sub>20</sub> R<sub>24</sub> Bk<sub>28</sub> W<sub>11</sub>.

**ochre yellow**, a mixture of ochre (stone-brown) and light yellow. Orange (red+yellow), ochre (brown+yellow) and yellow are as distinct as indigo, blue and ultramarine. F. & W. analyze ochre as Y<sub>20</sub> Bk<sub>28</sub> O<sub>28</sub>. R.H.S., true ochre, plate 313, is a golden or yolk yellow approaching orange in its darkest shades. See Roman ochre, yellow ochre. R.H.S. 34 "bronze yellow."

**ochre red**, a deep Venetian red, R.H.S. 101; mixture of vermilion and red ochre.

**old colours**. "Old" as applied to colours appears chiefly to signify dull or faded, as, "old gold," dull gold.

**old carmine lake**, dull red, R.H.S. 106. Lake carmined, reddened and browned by exposure to air and light.

**old carmine red**, dull carmine, R.H.S. 107; aniline carmine exposed to the action of the air.

**old gold**, dull gold, brownish yellow; R.H.S. 33, yellow-lake; 43, gold. Buff ochre.

**old rose**, a brownish pink, R.H.S. 144; a name in international use by the textile trades. Also purple old rose, R.H.S. 145. Also see plates 143, 146, 147, 148, 149. Messrs. John MacLennan & Co., Ltd., have "old-rose" ribbons, a lilacy rose shade.

**old rose-leaf**, F. & W., a rose shade.

**old wood brown**, F. & W.

**olive colours**. The term "olive" is widely used in most languages and in general applied in a loose manner to yellows, greens, browns, greys, which, in contradistinction to neutral tones, are impure. The wood of the olive is yellow-brown, tending to yellowish-green (see olive-brown); the unripe fruit, a brownish-green (see olive-green). Olive-complexioned means tawny or tanned a light yellowish-brown or olive-brown. Funk and Wagnall analyze the olive colours thus:—

olive brown, G<sub>7</sub> O<sub>8</sub> Bk<sub>87</sub>.

olive drab, G<sub>8</sub> Y<sub>8</sub> Bk<sub>77</sub> R<sub>7</sub>.

olive gray, G<sub>7</sub> Y<sub>9</sub> B<sub>4</sub> Bk<sub>55</sub> W<sub>25</sub>.

olive green, G<sub>44</sub> Y<sub>8</sub> R<sub>17</sub> Bk<sub>13</sub> W<sub>18</sub>.

" " G<sub>53</sub> Y<sub>12</sub> R<sub>20</sub> W<sub>15</sub>.

olive yellow Y<sub>37</sub> G<sub>19</sub> O<sub>4</sub> Bk<sub>40</sub>.

**olive brown**, a greenish brown. R.H.S. 299.

**olive green**, a greyish green. Yellowish olive-green, R.H.S. 289; brownish olive, olive-green, almost slate-grey, R.H.S. 288.

**olive-lake**, an oil colour (Müller).

**olive-yellow**. Dark shades of R.H.S. 16.

**olympian green**, emerald green.

**ondine green**, F. & W., light sage-green.

**opal blue**, a greenish blue, Gentiana blue.

**Ophelia pink**, F. & W., bluish pink.

**opaque black**.

**opaque green**. Warhurst:—"dense green of greyish cast from chromium."

**opaque oxide of chromium** (Rowney).

**orange**, a mixture of red and yellow; a name often erroneously given to rich or golden shades of yellow or to ochre. Dark shades are more red than yellow. R.H.S. 54.

**orange ochre**.

**orange red**, dark orange.

**orange orpiment**.

**orange vermilion**, a light vermilion.

**orange yellow**, approaching golden-yellow.

**orange dyes**; orange I, II, III and IV. Orange dyes are also distinguished by one or more letters, see a *Dictionary of Dyes, Mordants, etc.*

**Oran ochre**, brownish terra cotta, R.H.S. 322.

**orchil dyes**; orchil red, orchil (purple).

**orchis green**, a Roché pastel.

**orient** is an adjective formerly applied to superior pearls and precious stones, to signify bright, lustrous, pellucid, because the most perfect jewels were anciently found in the East (Webster). Orient and oriental are not used in connection with dyes obtained by chemical means and colours so named are probable natural products from the East.

**orient**, F. & W., dull yellow, Y<sub>20</sub> Bk<sub>20</sub>.

**oriental**, F. & W., greenish blue; Warhurst, true sapphire blue; also amethyst purple.

**oriental blue**, normal blue, Royal blue, Victoria blue, transparent blue. R.H.S. 213.

**oriental red**, dark carmine red.

**orient earth**, a Roché pastel.

**orient red**, Turkey red R.H.S. 92.

**orient yellow**.

**orpiment** (auripigmentum, golden pigment); a bright yellow.

**oriol yellow**, alkali yellow, a dye.

**Orseille red**, a red dye.

**otter-brown**, a slaty purple-brown. R.H.S. 354.

**oxblood red**, or ox's-blood red, a dark carmine red. R.H.S. 94.

**Oxford blue**, a dark blue.

**Oxford ochre**.

**oxide of chromium**.

**oxyde**, see R.H.S. plate 225.

**oxamine dyes**; oxamine black, blue, green, maroon, red, scarlet, violet.

**oxydiamine dyes**; oxydiamine black.

**Pacific blue**, a blue dye.

**Palatine dyes**; Palatine chrome-black, orange, red, scarlet.

**Page's sepia**.

**Palestine pink**, F. & W., dull pink.

**Palissander red**, R.H.S. 166; purple brown.

**Panama crimson**, a dye obtained from the leaves of the vine called *china* and used in the country of its origin to dye straw hats a bright crimson.

**pansy violet**, a deep violet or purple-violet. R.H.S. 191.

**pansy maroon**; Warhurst, a purplish maroon.

**Para blue**, a dye.

**Paranitraniline red**, a substitute for Turkey red dye.

**Paraphenylene dyes**. Paraphenylene blue, violet.

**Paris blue**, a dark blue ink (Berger & Wirth).

**Paris green**, methyl green dye.

**Paris violet**, methyl violet dye.

**Paris white**, a white chalk, whiting.

**Parma violet**, a light greyish heliotrope; the colour of Parma violets. R.H.S. 200.

**parrot green**. (F. & W.).

**patent dyes**; patent blue, patent fustine, patent green, patent orange, patent rock scarlet.

**patent yellow**.

**Payne's grey**, an international name, slaty-grey, stell-grey.

**pea green**, a very light yellow-green; yellowish apple-green. R.H.S. 266. The various enamel makers are almost unanimous in giving this name to a grass-green shade paler than emerald and quite distinct from apple-green. Grey-green, R.H.S. 277.

**peach blossom**, a pale pink; F. & W. R<sub>18</sub> W<sub>8</sub>. R.H.S. 127.

**peach black**.

**peach red**, cherry red with tinge of orange. R.H.S. 98.

**peacock blue**, a greenish Prussian blue; greenish indigo; dark turquoise.

**peacock green**, blue-green. R.H.S. 275. Also, a dark green resembling Russian green.

**pearl blue**. (F. & W.)

**pearl grey**, a greyish white (R.H.S. 355); silvery or pale leaden grey (Warhurst).

**pensée**; F. & W., dark purple.

**Pegu brown**, a brown dye.

**pelican blue**, a blue dye.

**pen ink**, a black ink.

**pepita yellow**. (F. & W.)

**Perkins' mauve**, violet or purple; mauveine, rosolane.

**permanent blue**, artificial ultramarine; F. & W., 100% blue.

**permanent brown lake**, a brown ink, varying in shade.

**permanent crimson**.

**permanent mauve**.

**permanent primrose** (Newman).

**permanent orange lake**, a bright light orange ink (Berger & Wirth).

**permanent violet**.

**permanent white**, Baryta white; precipitated barium sulphate.

**permanent yellow**, barium chromate.

**perruche**, yellowish green. A catalogue of ribbons gives perruche as a pea-green shade.

**persenche**; F. & W., see pervenche.

**Persian green**, emerald green.

**Persian yellow**, Chinese orange, R.H.S. 55.

**Persian yellow orange**, a bright orange ink.

**Peruvian yellow**.

**pervenche**, one of a good many French colour names included in Funk & Wagnall's dictionary, but of which we have not found any record of use in English speaking countries. *Pervenche* means periwinkle, but no colour bearing that name figures in the French Horticultural Society's exhaustive colour dictionary. Funk & Wagnall describe it as dark purple and analyse it as B<sub>2</sub> R<sub>11</sub> Bk<sub>28</sub>. They also list a "persenche" but there is no such word in any language that we know. It is described as blue purple, and analysed as B<sub>7</sub> R<sub>4</sub> W<sub>11</sub>. But for the different analysis it might have been supposed persenche was a mistake for pervenche.

**petunia violet**, R.H.S. 190.

**phenetol red**, an obsolete red dye.

**phenol dyes**; phenol black, phenol blue-black.

(To be continued.)

## Books Received.

*The Fiscal and Telegraph Stamps of Ceylon*, from notes by the late C. S. F. Crofton, arranged for publication and partly written by B. Gordon Jones. Published for the Philatelic Society of India by Bridger & Kay, price 5/- (can be obtained through Ewen's Ltd.) London, 1911, with numerous illustrations. The Reference List has been priced by Messrs. Bridger & Kay. The work is printed by Messrs. Pardy & Son, and therefore excellent in every way as regards printing and get up, and we have no doubt that the compilation is equally thorough—our limited knowledge of the subject has not enabled us to discover any error in the 146 pages.

*Notes on the History of the Cayman Islands*, by George S. S. Hirst, M.B. Commissioner of the Cayman Islands. Published in three volumes of which the present is volume II., containing parts III. and IV. (pages 144 to 263).

Part III. contains a history of the Dependency from the year 1800 to 1850. Chapter I. deals with slavery; II. with immigrants; III. with ships and shipping; VI. with administrations and courts; V. history of the Lesser Caymans.

Part IV. gives an account of the dependency from 1850 to 1910 and begins with chapter I., immigrants; chapter II., history of phosphate mining in the Cayman Islands: and will be concluded in volume III.

*The Wonderland of Stamps*, by W. Dwight Burrows. With 200 illustrations. Second edition (printed in U.S.A.) The author states in his preface:—

"The postage-stamp in itself, without considering its postal usefulness, is ordinarily regarded as one of the most commonplace and uninteresting factors of civilization. And yet there is bound up in the tiny gummed-back bits of paper a store of learning that is practically limitless. There is hardly a stamp among all those that have been issued by the various countries of the world that has not a highly interesting story. It may be the story of the personage or scene depicted on the stamp, or it may be the stamp's associations, or the circumstances under which it was issued. In this little volume no attempt has been made to cover the whole world. That would be impossible in the space here available. But selections have been made of some of those stamps whose stories are

particularly entertaining, and, while these are told in a style that may be appreciated by young folks, an effort has been made to present the facts in a manner that will please their elders as well."

The book is a most excellent one as a present for young people though the net price of 6/- appears to us a little high for the United Kingdom. The book is published by Mr. T. Fisher Unwin (1, Adelphi Terrace, W.C.) and can be obtained through the usual channels.

## Dictionary of 2000 Colour Names.

(Compiled by H. L'Estrange Ewen, with a view to assisting catalogue editors to a greater choice of colour names, in the belief that more originality in this respect would add to the interest of special shades of stamps. The list is far from complete.)

(Continued from page 2567).\*

**Naples yellow**, a light yellow with shade of ochre or buff. F. & W., Y<sub>20</sub> O<sub>17</sub> W<sub>40</sub>. Rowney, a mixture of cadmium yellow and white. Also French Naples yellow.

**nasturtium red**.

**natural ultramarine**.

**navy blue**, a dark blue approaching indigo. Chiefly applied to dark blue cloth.

**navy green**, dark grass green.

**nectarine**.

**Neptune green**.

**neutral tint**, a grey pigment of various shades used by artists. Funk & Wagnall, purplish-black, Bk<sub>77</sub> W<sub>7</sub> B<sub>11</sub> R<sub>4</sub>. R.H.S. plate 361, a lilacy grey; plate 346, slate-grey to nearly black. French, ink black, raisin black. Neutral means free from admixture of colour (black, grey, brown not being colours properly); as, neutral tones, neutral tint, neutral gray.

**neutral colours**; colours without any tinge of other colours.

**neutral orange**, a mixture of cadmium yellow and light red (Rowney). R.H.S. 319.

**neutral dyes**; neutral blue, neutral gray, neutral red, neutral violet.

**new blue**, Paris blue, light blue.

**new hay**, F. & W., Bk<sub>60</sub> G<sub>7</sub> Y<sub>4</sub>.

**new olive-green**.

**new rose**, a water-colour.

**new dyes, inks, etc.** "New" is often prefixed for commercial purposes to the names of inks, dyes introduced by particular firms. For instance, a catalogue of Berger & Wirth's inks has new-magenta No. 1452, new violet-lake No. 1104, ditto No. 1105 (the latter two, violet and mauve respectively). The *Dictionary of Dyes* has new blue, new coccin (red), new fast blue, new fast green, new fast grey, new green, new grey, new magenta, new metamine blue, new methylene grey, new patent blue, new pink, new red, new solid green, new Victoria black, new Victoria black-blue, new Victoria blue, new yellow.

**Nicholson's blue**, alkali blue.

**night blue**, greenish-blue.

**night green**, iodine green. F. & W., G<sub>21</sub> Y<sub>8</sub>.

**nigraniline** (niger, black+aniline), aniline black.

**nigrisine**, methylene grey.

**Nile blue**, pale greenish blue resembling Nile green.

**Nile green**, a light yellow-green.

**Nilsson rose**, a fine rose-pink (R.H.S. 120).

**nitrophenylenediamine red**, a fine full red dye.

**nitrosamine dyes**; nitrosamine red.

**noisette**, F. & W., gray brown.

**Norfolk brown**.

**Normandy blue**, greenish blue.

**Nottingham white**, an oil colour.

**nut brown**, orange-brown.

**nutria**, F. & W., neutral gray.

**Nyanza black**, a dye.

**Nyanza**, F. & W., pale yellow-green.

**oak**, brownish-yellow, a very light buff-brown. Oak enamels on the market appear to vary greatly in colour; Aspinall's enamel has two shades, light orange and black-brown; Patinol enamel and Indestructible paint have a light chocolate and calcitine cold water paint almost a mouse-brown.

**ochre** (ochros, pale yellow). Warhurst, "clays coloured from yellow to brownish-red; Funk & Wagnall, a very light brown, almost stone-brown, Y<sub>20</sub> R<sub>24</sub> Bk<sub>20</sub> W<sub>11</sub>.

**ochre yellow**, a mixture of ochre (stone-brown) and light yellow. Orange (red+yellow), ochre (brown+yellow) and yellow are as distinct as indigo, blue and ultramarine. F. & W. analyze ochre as Y<sub>20</sub> Bk<sub>20</sub> O<sub>20</sub>. R.H.S., true ochre, plate 313, is a golden or yolk yellow approaching orange in its darkest shades. See Roman ochre, yellow ochre. R.H.S. 34 "bronze yellow."

**ochre red**, a deep Venetian red, R.H.S. 101; mixture of vermilion and red ochre.

**old colours**. "Old" as applied to colours appears chiefly to signify dull or faded, as, "old gold," dull gold.

**old carmine lake**, dull red, R.H.S. 106. Lake carmined, reddened and browned by exposure to air and light.

**old carmine red**, dull carmine, R.H.S. 107; aniline carmine exposed to the action of the air.

**old gold**, dull gold, brownish yellow; R.H.S. 33, yellow-lake; 43, gold. Buff ochre.

**old rose**, a brownish pink, R.H.S. 144; a name in international use by the textile trades. Also purple old rose, R.H.S. 145. Also see plates 143, 146, 147, 148, 149. Messrs. John MacLennan & Co., Ltd., have "old-rose" ribbons, a lilacy rose shade.

**old rose-leaf**, F. & W., a rose shade.

**old wood brown**, F. & W.

**olive colours**. The term "olive" is widely used in most languages and in general applied in a loose manner to yellows, greens, browns, greys, which, in contradistinction to neutral tones, are impure. The wood of the olive is yellow-brown, tending to yellowish-green (see olive-brown); the unripe fruit, a brownish-green (see olive-green). Olive-complexioned means tawny or tanned a light yellowish-brown or olive-brown. Funk and Wagnall analyze the olive colours thus:—

olive brown, G<sub>7</sub> O<sub>8</sub> Bk<sub>67</sub>.  
olive drab, G<sub>8</sub> Y<sub>8</sub> Bk<sub>77</sub> R<sub>7</sub>.  
olive gray, G<sub>7</sub> Y<sub>9</sub> B<sub>4</sub> Bk<sub>55</sub> W<sub>23</sub>.  
olive green, G<sub>44</sub> Y<sub>8</sub> R<sub>7</sub> Bk<sub>13</sub> W<sub>18</sub>.  
" G<sub>53</sub> Y<sub>12</sub> R<sub>20</sub> W<sub>15</sub>.  
olive yellow Y<sub>37</sub> G<sub>19</sub> O<sub>4</sub> Bk<sub>40</sub>.

**olive brown**, a greenish brown. R.H.S. 299.

**olive green**, a greyish green. Yellowish olive-green, R.H.S. 289; brownish olive, olive-green, almost slate-grey, R.H.S. 288.

**olive-lake**, an oil colour (Müller).

**olive-yellow**. Dark shades of R.H.S. 16.

**olympian green**, emerald green.

**ondine green**, F. & W., light sage-green.

**opal blue**, a greenish blue, Gentiana blue.

**Ophelia pink**, F. & W., bluish pink.

**opaque black**.

**opaque green**. Warhurst:—"dense green of greyish cast from chromium."

**opaque oxide of chromium** (Rowney).

**orange**, a mixture of red and yellow; a name often erroneously given to rich or golden shades of yellow or to ochre. Dark shades are more red than yellow. R.H.S. 54.

**orange ochre**.

**orange red**, dark orange.

**orange orpiment**.

**orange vermilion**, a light vermilion.

**orange yellow**, approaching golden-yellow.

**orange dyes**; orange I, II, III and IV.

Orange dyes are also distinguished by one or more letters, see a *Dictionary of Dyes, Mordants, etc.*

**Oran ochre**, brownish terra cotta, R.H.S. 322.

**orchil dyes**; orchil red, orchil (purple).

**orchis green**, a Roché pastel.

**orient** is an adjective formerly applied to superior pearls and precious stones, to signify bright, lustrous, pellucid, because the most perfect jewels were anciently found in the East (Webster). Orient and oriental are not used in connection with dyes obtained by chemical means and colours so named are probable natural products from the East.

**orient**, F. & W., dull yellow, Y<sub>20</sub> Bk<sub>20</sub>.

**oriental**, F. & W., greenish blue; Warhurst, true sapphire blue; also amethyst purple.

**oriental blue**, normal blue, Royal blue, Victoria blue, transparent blue. R.H.S. 213.

**oriental red**, dark carmine red.

**orient earth**, a Roché pastel.

**orient red**, Turkey red R.H.S. 92.

**orient yellow**.

**orpiment** (auripigmentum, golden pigment); a bright yellow.

**oriol yellow**, alkali yellow, a dye.

**Orseille red**, a red dye.

**otter-brown**, a slaty purple-brown. R.H.S. 354.

**oxblood red**, or ox's-blood red, a dark carmine red. R.H.S. 94.

**Oxford blue**, a dark blue.

**Oxford ochre**.

**oxide of chromium**.

**oxyde**, see R.H.S. plate 225.

**oxamine dyes**; oxamine black, blue, green, maroon, red, scarlet, violet.

**oxydiamine dyes**; oxydiamine black.

**Pacific blue**, a blue dye.

**Palatine dyes**; Palatine chrome-black, orange, red, scarlet.

**Page's sepia**.

**Palestine pink**, F. & W., dull pink.

**Palissander red**, R.H.S. 166; purple brown.

**Panama crimson**, a dye obtained from the leaves of the vine called *china* and used in the country of its origin to dye straw hats a bright crimson.

**pansy violet**, a deep violet or purple-violet. R.H.S. 191.

**pansy maroon**; Warhurst, a purplish maroon.

**Para blue**, a dye.

**Paranitraniline red**, a substitute for Turkey red dye.

**Paraphenylene dyes**. Paraphenylene blue, violet.

**Paris blue**, a dark blue ink (Berger & Wirth).

**Paris green**, methyl green dye.

**Paris violet**, methyl violet dye.

**Paris white**, a white chalk, whiting.

**Parma violet**, a light greyish heliotrope; the colour of Parma violets. R.H.S. 200.

**parrot green**. (F. & W.).

**patent dyes**; patent blue, patent fustine, patent green, patent orange, patent rock scarlet.

**patent yellow**.

**Payne's grey**, an international name, slaty-grey, stell-grey.

**pea green**, a very light yellow-green; yellowish apple-green. R.H.S. 266. The various enamel makers are almost unanimous in giving this name to a grass-green shade paler than emerald and quite distinct from apple-green. Grey-green, R.H.S. 277.

**peach blossom**, a pale pink; F. & W. R<sub>10</sub> W<sub>20</sub>. R.H.S. 127.

**peach black**.

**peach red**, cherry red with tinge of orange. R.H.S. 98.

**peacock blue**, a greenish Prussian blue; greenish indigo; dark turquoise.

**peacock green**, blue-green. R.H.S. 275. Also, a dark green resembling Russian green.

**pearl blue**. (F. & W.)

**pearl grey**, a greyish white (R.H.S. 355); silvery or pale leaden grey (Warhurst).

**pensée**; F. & W., dark purple.

**Pegu brown**, a brown dye.

**pelican blue**, a blue dye.

**pen ink**, a black ink.

**pepita yellow**. (F. & W.)

**Perkins' mauve**, violet or purple; mauveine, rosolane.

**permanent blue**, artificial ultramarine; F. & W., 100% blue.

**permanent brown lake**, a brown ink, varying in shade.

**permanent crimson**.

**permanent mauve**.

**permanent primrose** (Newman).

**permanent orange lake**, a bright light orange ink (Berger & Wirth).

**permanent violet**.

**permanent white**, Baryta white; precipitated barium sulphate.

**permanent yellow**, barium chromate.

**perruche**, yellowish green. A catalogue of ribbons gives perruche as a pea-green shade.

**persenche**; F. & W., see pervenche.

**Persian green**, emerald green.

**Persian yellow**, Chinese orange, R.H.S. 55.

**Persian yellow orange**, a bright orange ink.

**Peruvian yellow**.

**pervenche**, one of a good many French colour names included in Funk & Wagnall's dictionary, but of which we have not found any record of use in English speaking countries. *Pervenche* means periwinkle, but no colour bearing that name figures in the French Horticultural Society's exhaustive colour dictionary. Funk & Wagnall describe it as dark purple and analyse it as B<sub>2</sub> R<sub>10</sub> Bk<sub>20</sub>. They also list a "persenche" but there is no such word in any language that we know. It is described as blue purple, and analysed as B<sub>73</sub> R<sub>1</sub> W<sub>11</sub>. But for the different analysis it might have been supposed persenche was a mistake for pervenche.

**petunia violet**, R.H.S. 190.

**phenetol red**, an obsolete red dye.

**phenol dyes**; phenol black, phenol blue-black.

(To be continued.)

## Books Received.

*The Fiscal and Telegraph Stamps of Ceylon*, from notes by the late C. S. F. Crofton, arranged for publication and partly written by B. Gordon Jones. Published for the Philatelic Society of India by Bridger & Kay, price 5/- (can be obtained through Ewen's Ltd.) London, 1911, with numerous illustrations. The Reference List has been priced by Messrs. Bridger & Kay. The work is printed by Messrs. Parry & Son, and therefore excellent in every way as regards printing and get up, and we have no doubt that the compilation is equally thorough—our limited knowledge of the subject has not enabled us to discover any error in the 146 pages.

*Notes on the History of the Cayman Islands*, by George S. S. Hirst, M.B. Commissioner of the Cayman Islands. Published in three volumes of which the present is volume II., containing parts III. and IV. (pages 144 to 263).

Part III. contains a history of the Dependency from the year 1800 to 1850. Chapter I. deals with slavery; II. with immigrants; III. with ships and shipping; VI. with administrations and courts; V. history of the Lesser Caymans.

Part IV. gives an account of the dependency from 1850 to 1910 and begins with chapter I., immigrants; chapter II., history of phosphate mining in the Cayman Islands: and will be concluded in volume III.

*The Wonderland of Stamps*, by W. Dwight Burrows. With 200 illustrations. Second edition (printed in U.S.A.) The author states in his preface:—

"The postage-stamp in itself, without considering its postal usefulness, is ordinarily regarded as one of the most commonplace and uninteresting factors of civilization. And yet there is bound up in the tiny gummed-back bits of paper a store of learning that is practically limitless. There is hardly a stamp among all those that have been issued by the various countries of the world that has not a highly interesting story. It may be the story of the personage or scene depicted on the stamp, or it may be the stamp's associations, or the circumstances under which it was issued. In this little volume no attempt has been made to cover the whole world. That would be impossible in the space here available. But selections have been made of some of those stamps whose stories are

particularly entertaining, and, while these are told in a style that may be appreciated by young folks, an effort has been made to present the facts in a manner that will please their elders as well."

The book is a most excellent one as a present for young people though the net price of 6/- appears to us a little high for the United Kingdom. The book is published by Mr. T. Fisher Unwin (1, Adelphi Terrace, W.C.) and can be obtained through the usual channels.

Post Free 1½d. 4/4 per annum.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**BAVARIA** (619 P 626).—The current set is shortly to be augmented by a stamp of the value of 60 pfennig.

**BRITISH P.O., LEVANT** (622 W 626).—We have received the first of the King George issue.

Portrait of King George.

"LEVANT" as usual, in black, on ½d. green; sheets of 240, control letter A11.

Issued 12.9.11 or earlier.

**CHINESE P.O., TIBET** (623 E 626).—Mr. W. H. Hawkins writes to the *Stamp Collectors' Fortnightly* (16.9.11/125) that the 3 annas on 16 cents olive-green is already out of stock at Gyantse. A complete distribution of all values was made some weeks ago by Ewen's New Issue Service.

**DUTCH INDIES** (617 O 626).—The current set of stamps has been overprinted for official use.

DIENST.

Current postage stamps overprinted "Dienst" (Service) for official use.

- ¼c. violet.
- 1c. olive-green.
- 2c. red-brown.
- 2½c. green.
- 3c. yellow.
- 4c. ultramarine.
- 5c. carmine.
- 7½c. grey.
- 10c. slate.
- 12½c. blue.
- 15c. brown.
- 17½c. bistre.
- 20c. olive.
- 22½c. brown and olive.
- 25c. violet.
- 30c. orange-brown.
- 50c. red-brown.
- 1 gld. violet.
- 2½ gld. slate-grey.

On the first eight values (¼c. to 7½c.), the surcharge reads diagonally downwards and on the other values upwards. The following remainders of old issues have also been overprinted.

Issue of 1883.

Overprinted "Dienst" as above.

2½c. orange.

Issue of 1891.

Overprint "D" in white on a circular black disc.

- 10c. brown.
- 12½c. grey.
- 15c. bistre.
- 20c. blue.
- 25c. lilac.
- 50c. carmine.
- 2g. 50c. brown and blue.

The 1, 2, 3, 5 and 30c. of these sets have not been overprinted. For the above particulars we

are indebted to *L'Echo de la Timbrologie* (15.9.11/556).

**EAST AFRICA AND UGANDA** (592 Y 626).—In a recent consignment of stamps, issued at Nairobi 19.8.11, we note several values in shades distinct from preceding printings, notably the 3c., 25c. and 75c. Otherwise the stamps are unchanged. The 6c. are type ii., and are in sheets of 240, 4 panes of 60.

**GERMANY** (610 X 626).—The evening edition of *Der Tag* of Berlin (28.8.11) states that a new stamp of the value of 60 pfennig is to be issued on 1.10.11.

**GILBERT AND ELLICE ISLANDS** (616 U 626).—We illustrate a pane of the 2½d. value of the overprinted Fiji set, which shows well the regularity of the overprint.

**GUATEMALA** (618 H 626).—We have received sheets of the recently issued 25c. and \$5 stamps, each 10 rows of 10 stamps.

**HONDURAS** (623 Y 626).—In addition to the 1c. and 10c. with overprint "OFICIAL," *Mekel's Weekly* records the following:—

Overprinted "OFICIAL."

5c. carmine.

Black overprint.

6c. blue.

Red

**HUNGARY** (605 I 626).—The *Breslauer Zeitung* (7.9.11) states that a new issue of postage stamps of handsome designs will be made in the early part of 1912. The designs are stated to have been illustrated in the last number of the *Illustriertes Zentralblatt*.

**HYDERABAD** (623 P 626).—We have received sheets of the new 8 and 12 annas recently chronicled. In each case they contain 16 rows of 15 stamps, without any division into panes. The ½ anna received at the same time were in a much paler grey than previous importations and the other values also varied slightly, indicating new printings. These are evidently the new supplies referred to in *E.W.S.N.* No. 623.

**INDIAN P.O., GWALIOR** (598 S 626).—Messrs. Bright & Son write to the *Stamp Collectors' Fortnightly* (16.9.11/125) that they have seen the ½ anna postage and revenue stamp with the two lines of the official overprint transposed, so that the shorter line is at the top and the longer line at the bottom, instead of vice versa.

**JAMAICA** (616 B 626).—We have received a large supply of the following new stamp.

Arms Design. New value (formerly Queen's Head).

6d. purple and violet, wmk. multiple Crown CA, chalky paper.

Issued 25.8.11 or earlier.

We quote from the *Times* (14.9.11).

"**KING GEORGE STAMPS FOR JAMAICA.**—The Island of Jamaica, which throughout the last reign adhered to the portrait of Queen Victoria and the arms of the colony for its postage stamp designs, and issued its only Edwardian stamp as a memorial to the late King several months after his death, has decided to adopt a new series of designs for its postal issues. An order has accordingly been placed with the printers in London for a complete new series of all denominations with the effigy of King George V., which will shortly be despatched to the colony and issued before the end of the year."

**LEEWARD ISLANDS** (623 N 626).—We are informed that the 2d., 6d. and 1/- in new colours have as yet only been issued at Antigua and the 2/6 in new colours at Tortola.

**NEW HEBRIDES** (622 H 626).—The *Australian Philatelist* (1.8.11/49) states that the new Condominium series with values in French

currency was only issued at Vila on 12.7.11, although it has been on sale at Paris since 11.3.11. The same set with values in English Currency was expected to be issued at Vila on or before 25.7.11, in which case sets should reach England before these lines are published.

**NICARAGUA** (624 B 626).—The proceedings of this country in its endeavours to maintain a stock of stamps are really rather interesting and to-day we have to record a new development. It may be recalled that there were two sets of fiscal stamps.

1889.

1904.

Fiscal stamps of 1889.

- 1c. blue.
- 2c. yellow.
- 5c. brown.
- 10c. green.
- 50c. violet.
- 1p. carmine.

Fiscal stamps of 1904.

- 1c. orange.
- 5c. yellow.
- 10c. blue.
- 25c. lilac.
- 50c. yellow-green.
- \$1 bistre.
- \$2 grey.
- \$5 sky blue.
- \$10 rose.
- \$25 green.
- \$50 vermilion.

It is the remainders of these which are now reported to have become exhausted. But just prior to the 1904 issue, there was a shortage of the 5c. and 10c. fiscal stamps and railway stamps were overprinted as follows:—

Nicaraguan Railway stamps. Inscribed

"Ferrol Carril de Nicaragua."

"Timbre Fiscal—Vale 10 ctvs" in black on

1c. red.

"Timbre Fiscal—Vale 5 cents" in lake on

2c. indigo.

As a last resort the remainders of these fiscally surcharged railway stamps have been requisitioned but the new surcharge converting them to postage use is placed on the back, from which the gum has been washed.

We are informed by Mr. A. C. Roessler that they were issued 4.8.11 in sheets of 4 rows of 5 and the set comprises the following values:—

Surcharged in black on backs of railway stamps already overprinted on face for fiscal use.

"vale 2 cts. CORREO DE 1911" on 5c. on 2c. indigo.

"vale 05 cts. CORREO DE 1911" " " "

"vale 10 cts. CORREO DE 1911" " " "

"vale 15 cts. CORREO DE 1911" on 10c. on 1c. red.

Issued 4.8.11. The reason for overprinting on the back is said to be the dark colour of the stamps and the fact that their faces are already fairly well covered with overprinting.

The setting was carelessly done and errors occur, such as "vale" with capital or lower case v, "cts." in several founts, etc. A sheet of 20 shows 15 varieties!

It seems that the stamps are still in use as railroad tax stamps and postal clerks are instructed to "use discretion" in issuing the stamps lest a purchaser should buy the back as a postage stamp for 2c. and then use the front to pay the 5c. railway tax!

## A further Coronation Honour for the Royal Philatelic Society.

THE KING has again honoured the Royal Philatelic Society by the conferment of the Royal Victorian Order of the Fourth Class upon Mr. J. A. Tilleard at the Investiture held by His Majesty on the 24th July.

Mr. Tilleard has held the office of Hon. Secretary of the Royal Society since May, 1894, and has had the great honour of being associated with His Majesty the King in his philatelic work for many years past.

## Vienna Exhibition.

THE great International Stamp Exhibition of the year was opened in Vienna on September 7th and will continue until the 17th. The opening ceremony was performed by the patron, Dr. Richard Weiskirchner, Minister of Commerce. Among the English exhibitors are Lord Crawford, president of the Royal Philatelic Society, and Mr. M. P. Castle, vice-president, Mr. L. L. R. Hausburg, and Mr. A. Leon Adutt.

The Queen of Italy has given her patronage to the Philatelic Exhibition which is to be held in Turin next month.—(The Times).

## Philatelic Society of Rhodesia.

THE first annual general meeting of the Philatelic Society of Rhodesia was held in mail week at Bulawayo, Mr. L. H. Whitmore presiding. The chairman's address, which was listened to with much interest, showed that the Society had been well supported and had done good work in the interests of philately during the past year.

The election of officers for the ensuing year resulted as follows:—Hon. president, P.M.G. of the British South Africa Company, Mr. G. H. Eyre; chairman, Mr. L. H. Whitmore; hon. secretary and treasurer, Mr. L. Simon, P.O. Box 121, Bulawayo; committee, Messrs. Sydney Redrup, C. C. Wollacott, E. C. Baxter, F. Fisher, E. R. D. Hall.

## DEATH OF MR. DORSAN ASTRUC.

WE regret to learn of the death of Mr. Dorsan Astruc, the well-known dealer of Paris.

## J. J. M. PLANUS, STAMP DEALER.

A sitting was held for the public examination of Jean Jacques M. Planus, who carried on business at 138, Fenchurch Street. The liabilities were returned at £462, while the assets (£30) were required to meet preferential claims. The debtor was a French subject, who came to this country in 1903, having since traded as a stamp dealer. In 1908 he took premises at 12a, Cullum Street, but in May last removed to the address before-mentioned. Since the beginning of June he had been pressed by creditors, and, finding his position hopeless, he filed his petition. The debtor attributed his insolvency to ill-health and want of capital. The examination was concluded.—(City Press, 9.9.11).

## G. BECUCCI & Co., STAMP DEALERS, 13, CULLUM STREET, E.C.

THE *Szekula Briefmarken-Verkehr* (5.9.11/373) publishes Mr. Becucci's portrait and a specimen of his handwriting. Mr. Becucci is believed to have fled to Montevideo owing large sums (some £8,000 is known) for stamps he had purchased.

  - (33) Wmk. wavy lines, none.

- New Issue.
- (41) Wmk. Crown, 1, 2, 4, 10 öre, 1 krona.
  - (42) No wmk., 5, 10, 25, 35 öre.
  - (43) Wmk. wavy lines, 4 öre.

- New Official Issue.
- (54) Wmk. Crown, 1, 2, 4, 5, 8, 10, 15, 20, 25, 30, 50 öre.

The 25 öre no wmk. of the old issue has thus

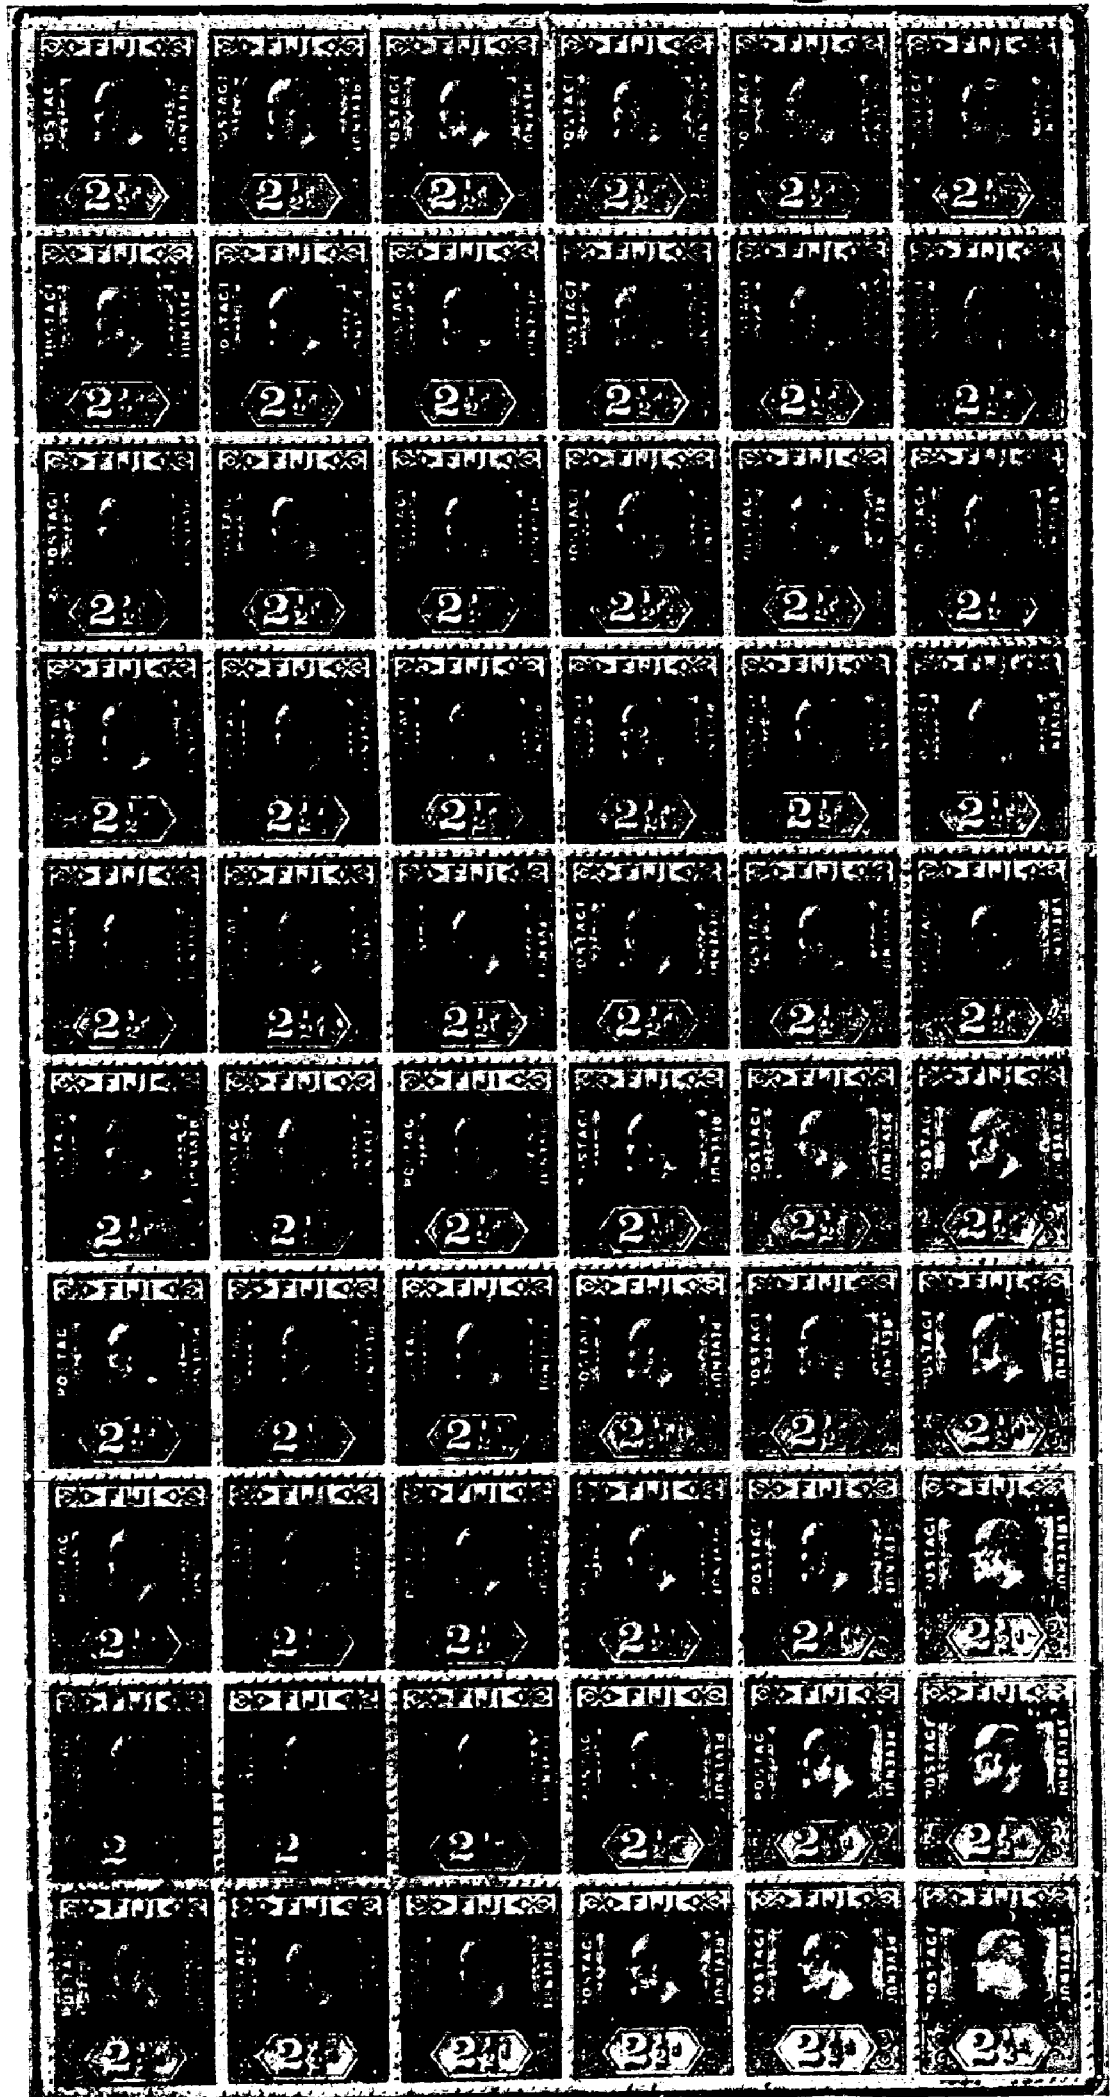

had a very short life, as it was only issued on 20.7.11. The 35 öre is a new value altogether.

**TRAVANCORE** (624 L 626).—In *E.W.S.N.* No. 608 we quoted an article from the *Philatelic Journal of India* (4.11/41) in which the current set of stamps was stated to include the value 3 cash. We are officially informed under date of 21.8.11 that no stamp of this value has been issued.

**URUGUAY** (616 D 626).—Notwithstanding that the official decree (see *E.W.S.N.*, 605) stated that the new official stamps were to be issued "exclusively for official use and for sale to collectors," the authorities have up to the present refused to supply us. We have a letter franked with the 23c. value punched with two stars, so that possibly even if collectors are supplied they will only get specimens unprovided with this control mark.

**Gilbert and Ellice Protectorate.**

Entire pane (or half sheet) of the 2½d. value, which has now been superseded by the 2½d. Pandanus tree.

## Ewen's Colonial Stamp Market, Ltd.,

32, PALACE SQUARE, NORWOOD, LONDON, S.E.

**Deposit Accounts.**—All payments (for whatever purpose) are credited to a deposit account, and all invoices (whether for stamps, albums, subscriptions or postage, etc.) are debited to such account. This deposit account should not be overdrawn. The balance is returnable post free on demand.

**Returns.**—Stamps which are not as ordered may be returned within 10 days and their full sale price will be re-credited to deposit account.

**Bank notes.**—20 mark = 10/6; 50 francs (French) 39/8; 50 francs (other countries), 39/6; 50 lire, 39/6; 20 kronen = 16/6; 20 kroner = 22/-; 10 gulden = 16/6; 10 roubles = 21/-; U.S.A. dollar = 4/1.

Cheques payable to "Ewen's Colonial Stamp Market, Ltd.," or "Ewen's, Ltd.," postal orders, money orders (inland and foreign), etc., payable to "Ewen's, Ltd.," at "Anerley Road, S.E." Cheques on France and Germany accepted at same rate as bank notes, also bons de poste.

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state (they are no longer issued even thus). All specimens are marked on back with their issue-numbers in pencil.

## New Issues on Approval.

### SOMETHING NEW EVERY WEEK!

PROBABLY there is no pleasanter, cheaper or more profitable form of collecting than the formation of a general collection of unused New Issues. It need not be complete nor even representative, but if there is any excitement going on anywhere in the world, you are able to take a personal interest in it. If you specialize the first issue of Tuscany, for instance, you may go far afield before you find another collector with whom to compare notes, but if you collect new issues, you will find that even your non-stamp-collecting friends will take an interest in your Aerial Post postcards, your Newfoundland portraits of the Royal Family, your new Tibets, your specimens from out of the way places like Gilbert Islands or New Hebrides. And any morning you may wake up to find another page of your album holds stamps that cost you just about face value and have now become rare.

### NEW ISSUES ON APPROVAL.

If you would like to receive every Saturday a packet of latest arrivals on approval, all that is necessary is to give us particulars of the countries you collect or wish to receive, and also to tell us up to what limit of face value you collect. To save frequent remittances and returns, it is recommended that a deposit of at least £1 should be made, which can be renewed when exhausted, and if exact details are given us as to what you wish, there will be less chance of your having to return anything. Postage is extra and returns must be made within ten days of receipt.

### NEW ISSUES ON APPROVAL.

#### THE MOST POPULAR FORM OF COLLECTING.

If you write us at once, we can if desired send the following:—

Gilbert and Ellice Islands on Fiji, complete except 1/4d., 1d.  
New Hebrides on Fiji, London print.  
Newfoundland, all five compound perfs.  
Leeward Islands, the new colours.  
Papuan, recent varieties, etc., etc.

### NEW ISSUES ON APPROVAL.

#### WRITE US TO-DAY,

Even if you only start with a small deposit of £1. You are not bound to buy anything and if you change your mind, any unexpended balance will be returned on demand.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**BELGIUM (618 U 627).**—It is stated in *L'Echo de la Timbrologie* (16.9.11/557) that at 10 a.m. on Saturday, 7.10.11, the *Administration des Domaines* of Belgium will offer the following important lot of Belgian stamps at auction, including unused remainders. The conditions of sale may be obtained from the Bureau des Domaines, Brussels. The Belgian Government undertakes not to offer any further quantity of these particular stamps in the future.

There are also to be sold a considerable quantity of postcards, lettercards. This is not the first time that remainders have been sold, the most famous sale being that of the 5 francs red-brown of 1875, for which a very high price was obtained, leading to an actual advance of catalogue prices.

We quote from the *Times* (12. 9. 11).

NEW BELGIAN STAMPS.

Proofs of the designs for the new series of Belgian postage stamps have been finally approved by the Minister of Railways, Posts, and Telegraphs and the stamps will be ready for issue to the public in October. The designs have been prepared and engraved by M. Ed. Pellens, professor of the Academy of Fine Arts, Antwerp. The values from 10 centimes to 5 francs bear a portrait of King Albert, the 1 centime a plain numeral of value, and the 2 centimes the heraldic Lion of Belgium. The denominations of 40 centimes and 5 francs, which have been omitted from recent issues of Belgian postage stamps, will be reinstated in the new series for use on telegrams, separate telegraph stamps being discontinued. The values and colours will be as follows:—1 centime salmon, 2 centimes brown, 5 centimes green, 10 centimes brick red, 20 centimes olive, 25 centimes blue, 35 centimes brown, 40 centimes green, 50 centimes grey, 1 franc orange, and 5 francs yellow. The stamps in the current designs will continue in use until the stock is exhausted.

**CUBA (621 F 627).**—The 1c. unicoloured is chronicled by *Mekel's Weekly Stamp News* (26.8.11/286).

New Colour.

1c. all green.

**FIJI ISLANDS (605 L 627).**—The *Nordisk Filatelistisk Tidsskrift* (31.8.11/119) chronicles a registration envelope for this colony.

*Registration Envelope.* Rectangular stamp with head of King Edward in oval.  
3d. ultramarine, white paper, 150 x 95 mm.

**FINLAND (610 Q 627).** The following lettercard is recorded by the *Nordisk Filatelistisk Tidsskrift* (31.8.11/119).

*Lettercard.* Stamp type of adhesive.  
10 penni, rose, cream card.

**GAMBIA (618 G 627).**—An envelope is chronicled by the *Nordisk Filatelistisk Tidsskrift* (31.8.11/119).

*Envelope.*

1d. carmine, white paper, 130 x 104 mm.

**NEW ZEALAND (624 Z 627).**—The *Australian Philatelist* (1.8.11/149) has been shown specimens of a curious variety in the current 1d. stamps, the O of "One" having a diagonal line across the centre, giving it the appearance of a Q with the tail elongated upwards.

**NORTHERN NIGERIA (603 A 627).**—We are informed that new 2d., 3d. and 5/- stamps were expected to be issued during August, 1911.

Portrait of King Edward. Wmk. multiple Crown CA, chalky paper (except the 2d.).  
2d. grey.  
3d. brown on yellow paper.  
5/- green and red on yellow paper.

To be issued. The Edwardian issue now comprises the following varieties:—

Old Colours.

Wmk. Crown CA, ordinary paper (1902).  
(31) ½d., 1d., 2d., 2½d., 5d., 6d., 1/-, 2/6, 10/-.  
Wmk. mult. Crown CA, ordinary paper (1904).  
(32) ½d., 1d., 2d., 2½d., 5d., 6d., 1/-, 2/6, £25.  
Wmk. mult. Crown CA, chalky paper (1906).  
(33) ½d., 1d., 2d., 5d., 6d., 1/-, 2/6.

New Colours.

Wmk. mult. Crown CA, ordinary paper (1910).  
(34) ½d., 1d., 2d., 2½d.  
Wmk. mult. Crown CA, chalky paper (1910).  
(35) 3d., 5d., 6d., 1/-, 2/6, 5/-, 10/.

The latter cannot have a very long life, although we understand the present stock on hand will be used up before steps are taken to have the Georgian issue printed. A £1 stamp has also been chronicled for this colony but does not we believe yet exist.

**PORTUGUESE ANGOLA (625 O 627).** A fresh supply of the 700 reis postage stamp overprinted "Republica," received on 16.9.11, was in a much brighter shade of mauve than preceding supplies. It would not be surprising to find that the authorities are reprinting some of the Dom Carlos stamps. By the way, the 15 reis Angola has not yet been issued.

**PORTUGUESE ST. THOMAS AND PRINCE (618 C 627).**—*L'Echo de la Timbrologie* (31.8.11/529) records the issue of the postage due stamps overprinted "Republica."

*Postage Due Stamps.* Overprinted "Republica."  
5 reis, yellow-green.  
10 .. slate.  
20 .. brown.  
30 .. orange.  
50 .. brown.  
60 .. lilac brown.  
100 .. red violet.  
130 .. blue.  
200 .. carmine.  
500 .. violet.

**SIAM (591 N 627).**—We quote from the *Times* (12.9.11):—

NEW SIAMESE STAMPS.

"A complete new series of postage stamps for the Kingdom of Siam is being prepared in Europe from designs by M. Tamagno, an Italian architect in the Siamese Public Works Department, who is also responsible for the current series. It is expected that the new stamps, which bear portraits of the present King, will be issued on the occasion of the King's coronation in November, or on his birthday next January. The low values will show a medallion portrait of the King surmounted by a crown, with the word Siam in either of the two upper corners, and the value in figures on either side of the medallion. The higher denominations will have a three-quarter length portrait of the King in military uniform."

**SOUTH AUSTRALIA (622 D 627).**—A correspondent writes (1.8.11):—"During the week I found an 8d. wmk. Crown A, perf. 12½, small holes with words of value close together; postmarked 6.1.11. This is the first with Crown A I have seen, though I have several Crown SA, perf. 12, with this variety. Unless it occurs but once on a sheet it has probably been corrected as in several dozen other specimens of the 8d. Crown A I have not found another copy of the variety."

## Dictionary of 2000 Colour Names.

(Compiled by H. L'Estrange Ewen, with a view to assisting catalogue editors to a greater choice of colour names, in the belief that more originality in this respect would add to the interest of special shades of stamps. The list is far from complete.)

(Continued from page 2582).

royal blue, almost black.  
 royal mail red.  
 royal purple.  
 Rubens' madder.

**THE WEEK'S NEWS.**

(Continued from page 2589.)

**PORTUGUESE MACAU** (617 G 627).— There is something like a stamp famine in this part of the world! The Postmaster has had successively to

- (1) Surcharge postage stamps.
- (2) Surcharge fiscal stamps.
- (3) and having nothing left to surcharge, to use type-set numbered labels.

We are indebted to Messrs. Graca & Co. for particulars of the issues. It may be recalled that the only stamps yet overprinted "Republica" are the Dom Carlos, ½, 2, 4 and 8 avos, but only the ½ and 2 avos appear to have yet been issued at Macau, (most Portuguese Colonial stamps are sold in Lisbon). The ½ avo was issued 21.4.11 and the 2 avos 26.6.11 and in each case the supplies were promptly bought up by local speculators. The Chinese especially seem to delight in hoarding up postage stamps.

15th July, 1911.

Fiscal stamp overprinted in carmine. "POSTAL 1 AVO" in two lines and thick bar or 5 reis "Contribuicao Industrial," brown and black.

19th July, 1911.

"5 Avos" and thick bar diagonally in red on half a 10 avos blue-green already overprinted "Provisorio" and cut diagonally.

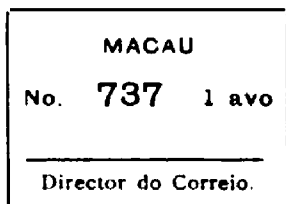

2nd August, 1911.

"2 Avos" and bar diagonally in black on half a 4 avos rose cut diagonally.

Our correspondents write on 21.8.11 that the stamps are very difficult to get as each person is only allowed to buy daily 10 avos worth of each kind at one time. They add: "The Government took this step, because the issue is small and to prevent the selling of the whole stock to dealers. We expect in a few months to buy these stamps from the speculators. Hundreds of people go daily to the Post Office to buy these stamps and the demand and rush for the stamps are so great, that a force of police is daily posted at the Post Office to maintain order."

8th August, 1911.

The Post Office has been obliged to have numbered labels printed, which are approximately of the following design.

The *Director do Correio* (Director of the Post) initials each stamp on the line. Messrs. Graca and Co. write us under date of 14.8.11:—

"We beg to inform you that at present the stocks of postage stamps at Macao Post Office are very small and getting exhausted quickly, particularly the stamps of low value. The Government is in great difficulty to supply the stamps for daily correspondence, so much so, several provisionals have already been issued and all exhausted in short time by excited rush of speculators.

"Now the Government found no other alternative, pending the arrival of new stock of stamps from Portugal (which we think will take yet months to come) but to issue a label with the initial of the Postmaster J. A. (Jose d'Almeida) showing the value of the postage paid and affix on all covers presented for postage.

"You will note that the label is not obliterated by Macao postmark according to private arrangements of the departments' control, and for this purpose each label bears a number running consecutively.

"Up to the present only the labels with 1 cent and 2 cents have been issued and the first number issued on the 8th August, 1911.

"Herewith one Postal card with the above mentioned label for you to chronicle in your paper, and please mention our name when doing so."

**SPANISH RIO DE ORO** (497 A 627).— The *Berliner Briefmarken Zeitung* (2.9.11/370) chronicles the following:—

- "Habilitado para 15c." on 5p. .. A000097.

Has the sequence "97, 98, 99" any significance? A Parisian contemporary quotes the four provisionals at 10 francs each.

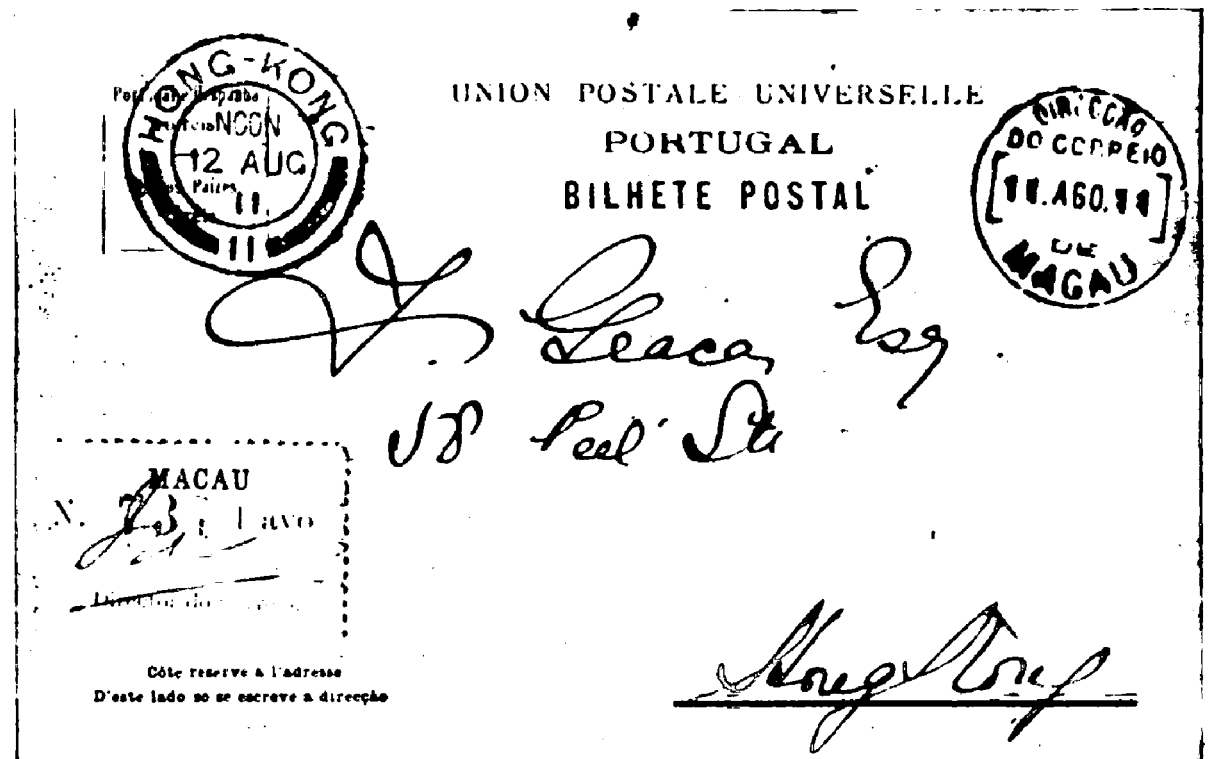

**Portuguese Macau.**

Envelope franked with three of the latest provisionals (1 avo on fiscal and bisected stamps 2 and 5 avos).

**Is this Label a Stamp?**

We should have said yes, but the Macau Post Office evidently does not consider it as such, as it is left uncanceled.

**SWEDEN** (626 J 627).—We have another value of the new set.

Design of 1910. 15 öre, red-brown. No wmk.

The *Nordisk Filatelistisk Tidsskrift* (31.8.11/120) states that it was issued on 24.8.11. The varieties now known are:—

Old Issue.

- (31) Wmk. Crown, all.
- (32) No wmk., 20, 25 öre.
- (33) Wmk. wavy lines, none.

New Issue.

- (41) Wmk. Crown, 1, 2, 4, 10 öre, 1 krona.
- (42) No wmk., 5, 10, 15, 25, 35 öre.
- (43) Wmk. wavy lines, 4 öre.

New Official Issue.

- (51) Wmk. Crown, 1, 2, 4, 5, 8, 10, 15, 20, 25, 30, 50 öre.

There has also been issued a postcard with 5 öre stamp of the new design.

**SWITZERLAND** (620 S 627).—A new value has been added to the current set of postage due stamps.

New value. Postage Due stamp. 30c. green, white and red. Issued 1.7.11.

**TASMANIA** (625 C 627).—A recent importation brings us the 4d. value printed from a retouched plate, the fine lines of the engraving having been removed, giving the stamp a "worn" appearance.

Retouched Plate. 4d. ochre, wmk. Crown A sideways, perf. 11.

Issued 31.7.11 or earlier. The 10/- has now been found with the mixed perf. 12½ three sides X 12, states the *Australian Philatelist* (1.8.11/150).

**Ewen's Colonial Stamp Market, Ltd.,**  
32, PALACE SQUARE, NORWOOD, LONDON, S.E.

*Deposit Accounts.*—All payments (for whatever purpose) are credited to a deposit account, and all invoices (whether for stamps, albums, subscriptions or postage, etc.), are debited to such account. This deposit account should not be overdrawn. The balance is returnable post free on demand.

*Returns.*—Stamps which are not as ordered may be returned within 10 days and their full sale price will be re-credited to deposit account.

*Bank notes.*—20 mark = 19/6; 50 francs (French) 39/8; 50 francs (other countries), 39/6; 50 lire, 39/6; 20 kronen = 16/6; 20 kroner = 22/-; 10 gulden = 16/6; 10 roubles = 21/-; U.S.A. dollar = 4/1.

Cheques payable to "Ewen's Colonial Stamp Market, Ltd.," or "Ewen's, Ltd.,"; postal orders, money orders (inland and foreign), etc., payable to "Ewen's, Ltd.," at "Anerley Road, S.E." Cheques on France and Germany accepted at same rate as bank notes, also bons de poste.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—*Edwardian Issue* (623 D 628).—We have to thank numerous correspondents for informing us of the 3d. Harrison print. We have also received the 2/6 value.

Harrison prints. Ordinary instead of chalky paper.

3d. purple on yellow.

Issued 14.9.11 or earlier.

2/6 purple.

Issued 27.9.11 or earlier. The 3d. was first notified to us by Mr. T. G. Jordan and the 2/6 by Mr. Oswald Marsh.

The printing of the 2/6 by Messrs. Harrison & Sons is a surprise, as it was understood the 6d. stamps and high values would be printed at Somerset House.

**Marginal lines.**—Mr. E. W. Floyd writes (29.9.11) that the 2½d. Harrison prints are now being issued with continuous marginal lines; the first printing had broken marginal lines. Mr. Flood also writes that he has a new printing of the 1½d. Harrison print, in "a darker, less red, shade of purple." The two cuts under the 11th stamp in the bottom row (supposed to represent "1911") are present but are close together; the "V" (which was supposed to stand for May, the month of printing) is absent. The outer green line is continuous at all the four corners on the right side and on the left lower corner. The 3d. Harrison has a continuous purple line without any cut.

**Monday, 2.10.11.** We have now received entire sheets (as issued) of the 3d. and 2/6 stamps. The 3d. are in sheets of 240 arranged like the 1d. but with a continuous line around each pane and a cut under the 4th stamp in the bottom row. The 2/6 are issued in panes of 7 rows of 8; our panes are surrounded by a continuous line which has a double cut ("11") under the last stamp but one in the bottom row and the bottom margin is ornamented by the usual vertical pillars.

**Control Letters** (616 Q 628).—Apart from a number of minor variations in the "A 11" Controls of the ½d. and 1d. stamps, there are two very distinct varieties of the 1d.

May, 1911. Figures "11" 3 mm. apart.

Sep., 1911. " " "11" 2½ mm. apart.

Stamps with the latter control appear to be from a retouched die or at any rate the printing is very much clearer. The most noticeable improvement is in the beard and in the outline of the eye and the hair is more often parted.

**Railway Letter Stamps** (623 C 628).—We have recently been classifying the editorial collection of letter stamps of the G.W. & G.C. Joint Line and find that G.W.R. stamps occur with seven different settings of the overprint. We have seen no specimens used in 1901 and 1902 but since 1903 have a fairly regular series.

Overprint "G W & G C Jt"

1901 ?	1st setting, 26 mm.	On G.W. 3rd Issue.
1903	2nd " 28 mm.	" "
1905	3rd " 25 mm.	" "
1906	4th " 25 mm.	On G.W. 3rd & 4th.
1909	5th; space after G W	On G.W. 4th & 5th.
1910 ?	6th; reads C W & G C Jt	On G.W. 4th & 5th.
1911	7th; reads G W & C C Jt	On G.W. 4th & 5th.

The later variations are due to the fact that the second G of "G W & G C Jt" became defective and the defect was so carelessly remedied that the clerk not only took out the good G instead of the bad one but replaced it with a C! To correct this, the bad G and the C were trans-

posed!! The authorities then gave up trying to get such a simple matter set right and had a special rubber-stamp prepared, on which the "G W & G C Jt" is in such narrow lettering that it only measures 12mm.

1911. 8th overprint, 12mm. On G.W. 5th issue.

No sooner was this issue made than the control of the joint line passed to the Great Central Railway Company (each company manages it for five years) who instead of surcharging G.C. stamps had a special stamp printed (the proofs of which had been prepared in 1906 or earlier).

The numbered G.W.R. sheets which we know to have been surcharged are:—

3841—3900	54901—54960
4681—4740	54961—55020
42121—42180	56401—56460
43381—43440	58081—58140
44101—44160	58201—58260
46441—46500	90181—90240
47940—48000	95281—95340
48361—48420	107701—107760
52801—52860	119161—119220

We should be very greatly obliged if readers who have specimens bearing any other numbers would allow us to see them. It may be remarked that the G.W.R. 1st, 2nd and 3rd issues are unnumbered. Then followed (approximately):—

4th Issue	1 to 60000
5th "	60001 to 120000
6th "	120001 to ?

The 6th Issue has only been brought into use this year. These G.W.R. numbered issues are of considerable rarity unused in blocks. The surcharged stamps were used at Aylesbury, Little Kimble, Haddenham, Princes Risborough, Saunderton, West Wycombe, High Wycombe, Beaconsfield, Gerrard's Cross, Denham, Ruislip and Northolt Junction.

**Railway Newspaper Stamps** (488 J 628).—*Oswald Marsh's Weekly Circular* (23.9.11/1) records the following change of colour:—

Metropolitan and G.C. Joint Committee.  
3d. blue instead of green.

The die is redrawn with larger lettering and no stop after "Committee."

We shall be glad to hear from collectors of British railway letter, newspaper, or parcel stamps, who would join an exchange club for these stamps only. No entrance fee, no subscription.

**ANTIGUA** (566 Z 628).—The following novelty has been distributed by Ewen's New Issue Service.

Multiple wmk., chalky paper.  
6d. grey and lilac.

Issued 30.8.11 or earlier. The record of the current issue now stands as follows:—

Bi-coloured.

Wmk. Crown CC, ordinary paper.

(31) ½d., 1d., 2d., 2½d., 3d., 6d., 1/-, 2/-, 2/6, 5/-.  
Also the 1d. on slightly bleuté paper.

Wmk. Crown CC, chalky.

(32) 2½d., 1/-, 5/-.

Multiple Crown CA wmk., chalky.

(33) 6d., 1/-.

Uni-coloured.

Multiple Crown CA wmk., ordinary paper.

(34) ½d., 1d., 2½d.

We may perhaps take this opportunity of recalling (see E.W.S.N. No. 566) the quantities printed on C.C. paper, which were:—

½d.	120,120 ordinary.	
1d.	243,720	"
2d.	24,840	"
2½d.	30,360	" 6,000 chalky.
3d.	18,840	"
6d.	12,720	"
1/-	6,240	" 3,000 chalky.
2/-	6,360	"
2/6	6,360	"
5/-	2,640	" 3,000 chalky.

Considering that the first issue was made as long ago as June, 1903, it is rather surprising that the stock has lasted so long (the 2d. 3d., 2/-, 2/6 and 5/- are still current), but the explanation is no doubt to be found in the fact that "Leeward Islands" stamps are also in use at Antigua.

**BAVARIA** (626 Q 628).—The new value is now to hand, and has been distributed by Ewen's New Issue Service:—

New value; size of 50 pf.  
60 pf. dark green.

Issued 28.9.11 or earlier.

**BELGIUM** (627 V 628).—We are officially informed that the new issue of stamps with portrait of King Albert has again been postponed.

**BRITISH GUIANA** (597 J 628). We are informed that there is no intention of changing the design of the present stamps.

We quote the following letter from the *British Guiana Philatelic Journal* (8.11/8).

"Government Secretary's Office,  
Georgetown, 6th May, 1911.

Sir,—In reply to your letter of 30th March last I am directed to inform you that the following Revenue Stamps have recently been destroyed by Government:—

Denomination.	Numbers.
\$5 00	108,840
\$3 00	830
\$2 40	720

I have the honour to be

Sir,

Your obedient servant,

[Signed] J. HAMPDEN KING.

A. D. Ferguson, Esq.

As already stated in E.W.S.N. these were followed by purely revenue stamps of \$2.40 and \$3 issued on 14.11.10. The \$2.40 postage and revenue stamp is probably a rarity, as it was never largely bought.

**CEYLON** (618 V 628).—Our Colombo correspondent writes (7.9.11):—"I hear on good authority that the set of the new King George stamps for Ceylon will be extended to Rupees 500.—The extra denominations would be Rs. 20, Rs. 50, Rs. 100 and Rs. 500. All stamps would bear the words, 'Postage & Revenue,' and would be equally available for postage, telegraph and revenue purposes. The three larger values, Rs. 50, Rs. 100, and Rs. 500 are to be slightly larger in size than the others."

**FALKLAND ISLANDS** (570 P 628).—We are informed that the stamps bearing the head of King George V. may possibly be issued at the end of this year or beginning of 1912.

The King Edward issue has been in use now for seven years almost without change, the only variation apart from shade being the appearance of one supply of the penny stamp in 1907 with sideways watermark.

The Victorian issue also underwent remarkably little change during the ten years previous to 1904, yet the 2/6 and 5/- are catalogued to-day respectively at 15/- and 17/6 and are remarkably difficult stamps to get hold of. It is by no means unlikely that the Edwardian 3/- and 5/- will prove equally good.

**GERMANY** (626 Y 628).—The new value is to hand and has been distributed by Ewen's New Issue Service.

New Value.  
60 pf. magenta on white.

Issued 2.10.11 or earlier.

**FRENCH INDO-CHINA** (530 D 628).—We quote from the *Times* (16.9.11):—

**NEW STAMPS OF FRENCH INDO-CHINA.**—A curious reason is advanced for a change which is about to be effected in the designs of the postage stamps of the French Asiatic colony of Indo-China. The existing types, which were first issued in 1907, have for their subjects portraits of young native women. It has since transpired, however, that the ladies who posed for these pictures were not of the highest moral character, and an order has accordingly been issued that these stamps are to be replaced. The new series will bear designs illustrative of the colony and will include the ruins of Angkor (Camboge), the Palace of Hue (Annam), the entrance to the Bay of Along (Tonkin), and a Cochinchina rice-field with a native peasant and oxen. The postage due stamps will be composed exclusively of dragons and native ornaments.

**GERMAN EAST AFRICA** (621 B 628).—*Der Philatelist* (10.11/247) is informed by Mr. Hirt that the 60 heller stamps have been withdrawn from issue.

**GILBERT AND ELLICE** (626 V 628).—Some little time ago an Australian contemporary indulged in the estimate that there were printed of the surcharged issue:— $\frac{1}{2}$ d. 48,000; 1d. 24,000; 2d. 12,000;  $2\frac{1}{2}$ d. 9,600; 5d. 4,800; 6d. 4,000; 1/- 2,000. We believe this estimate to be entirely erroneous but unfortunately it has been copied by the Continental philatelic journals as fact. As an antidote we set here our own estimate:—

$\frac{1}{2}$ d. 3,000	5d. 3,000
1d. 3,000	6d. 3,000
2d. 3,000	1/- 3,000
$2\frac{1}{2}$ d. 3,000	

A few of the  $\frac{1}{2}$ d. and 1d. were genuinely used and the rest cornered by people on the spot, so that the supplies on the market are practically limited to the other five values. We should not be surprised to learn that the same quantity of New Hebrides was printed as of the Gilbert and Ellice Protectorate, but in this case the  $\frac{1}{2}$ d. and 1d. were probably reserved for postal needs and not sold to speculators.

**GOLD COAST** (616 H 628).—The following has now been issued and a complete distribution made by Ewen's New Issue Service:—

*New colours.*

$2/6$  black and red on blue paper; wmk. multiple Crown CA, chalky paper. Plate No. 2.

Issued 13.9.11 or earlier. The stamps being printed from plate No. 2 ("240 set"), there is only one plate-number to each pane instead of the usual two, and consequently marginal copies with plate-numbers will be scarce. Our sheets are numbered "001," "002," etc., and are probably the first issued. The record of the Edwardian stamps to date is as follows:—

*Old colours* (February, 1902).

*Wmk. Crown CA, ordinary paper.*

(31)  $\frac{1}{2}$ d., 1d., 2d.,  $2\frac{1}{2}$ d., 3d., 6d., 1/-, 2/-, 5/-, 10/-, £1. There are two or more shades of the shilling values.

*Multiple Crown CA wmk.*

(32) Ordinary,  $\frac{1}{2}$ d., 1d., 2d.,  $2\frac{1}{2}$ d., 3d., 6d. There were two issues of the 2d., in 1904 and 1908 respectively.

It is not unlikely that the Edwardian series of this colony may now be considered complete, but specialists will find many variations of shades, and in the size of the lettering of the name, especially in the unicoloured  $\frac{1}{2}$ d. and 1d. stamps.

**ITALIAN P.O., SMYRNA** (501, 599 C 628).—We quote from the *Daily Mail* (2.10.11):

"Smyrna (Asia Minor), Saturday.

"The Italian Post Office here has been closed and Italian subjects have placed themselves under German protection. Turkish steamers have been ordered not to sail. A boycott has been commenced against the Italians."

The war against Turkey, if it continues, may have its effect on the postal issues, as nearly all "Italian Colonial" stamps are really only stamps issued by Italian post offices established in Turkey.

The Post Offices of Constantinople, Durazzo, Janina, Jerusalem, Salonica, Scutari di Albania, Smyrna, Valona, Albania, Levant are all situated in Turkey-in-Europe or Turkey-in-Asia or in Albania, which belongs to Turkey.

The Post Office "La Canea" is in Crete, which belongs to Turkey; "Tripoli di Barberia," the present bone of contention, also belongs to Turkey.

This leaves only "Benadir" and "Somalia Italiana" which are one and the same territory under different names and the neighbouring strip of Red Sea coast known as Eritrea.

Thus, if Italy were excluded from Turkey, only Eritrea and Somaliland would remain and to reach these Italian ships have to pass between Egypt and Arabia, both of which belong to Turkey.

The hold of Turkey on its possessions is, however, gradually becoming weaker and is one of religion more than anything. Where religion provides no tie, Turkey may almost say goodbye. Crete, which is 85% Christian, has since 1908 surcharged its stamps "Greece" and Turkey's protests have been in vain.

The Turks are a very small nation and even in Turkey-in-Europe are outnumbered by the Albanians, Bulgarians and Greeks.

**LEEWARD ISLANDS** (626 O 628).—The following has now been issued, and a complete distribution made by Ewen's New Issue Service.

*New colours.*

$2/6$  black and red on blue, wmk. multiple Crown CA, chalky paper. Plate No. 2.

Issued at Tortola, 15.9.11 or earlier. The 2d., 6d., 1/- and 5/- in new colours are also printed from plate 2, whereas the uni-coloured  $\frac{1}{2}$ d.,  $\frac{1}{4}$ d., and 1d are from plate 1. The record of the Edwardian issue to date is as follows:—

*Old colours.*

*Wmk. single Crown CA.*

In 1903 there were 180,003 of the above stamp but without value received in the Colony. These were disposed of as follows:—

42,205 were surcharged for fiscal use.
64,500 were surcharged Express Delivery (Inland).
10,000 were surcharged Express Delivery (Foreign).
63,198 were never made use of and have now also been destroyed.

These figures make up the total of 180,003.

**NEW HEBRIDES** (626 I 628).—We have received part of a sheet of the pictorial stamps with value in English currency.

Values in British Currency. Wmk. multiple Crown CA, ordinary paper.

$\frac{1}{2}$ d. green.  
1d. rose.

Earliest postmark seen, 7.8.11. The Postmaster charges about 5% for executing orders, but as there is some jugglery in issuing the stamps at French instead of English face values (both the 5c. and the  $\frac{1}{2}$ d. stamps being issued as worth 5 centimes or at the rate of 500 for 25 francs or £1), the actual loss to the direct importer is only about 3%. This is not so bad as some Pacific islands, as we have known as much as 15% to be kept for "packing, etc."

**NEW ZEALAND** (627 A 628).—The "ONE" error on the current 1d. stamps referred to last week occurs also on three sheets in our stock, being in each case the 19th stamp in the bottom row of the sheet. The sheets are numbered D911204, E32795, E32800. These are also the first sheets we have seen with letter E.

We also have the  $\frac{1}{2}$ d. with sheet Nos. D861132 and D998773, so this value too will soon appear with letter E. The sheets just referred to were issued at Wellington about 20.7.11.

**NICARAGUA** (626 C 628).—We quote from the *Times* (23.9.11).

**NICARAGUA'S DEARTH OF POSTAGE STAMPS.**—Difficulties are being experienced in the Republic of Nicaragua owing to the exhaustion of the supply of postage stamps. Owing to the impoverished state of the country the postal authorities cannot obtain fresh supplies of the current issue from the printers in New York, and revenue and telegraph stamps have had to be overprinted and converted into postage stamps. A contract for an entirely new series of stamps has, it is stated, now been placed with a London firm.

And from the same paper, (28.9.11).

**NICARAGUAN POSTAGE STAMPS.**—With reference to our paragraph headed "Nicaragua's Dearth of Postage Stamps" in our issue of September 23, the Nicaraguan Consul-General asks us to state that the cause of the dearth is not the impoverished state of the country, but the fault of the contractor. Nicaraguan finances, the Consul-General adds, are in a better state than ever since the Government concluded a loan of 20 million dollars with capitalists in the United States. Messrs. Waterlow and Sons (Limited), London, have received the contract for the new stamps, which will be despatched to Nicaragua very shortly.

**NORTHERN NIGERIA** (627 B 628).—The 3d. and 5/- referred to last week have now been issued (10.9.11 or earlier) and a complete distribution has been made by Ewen's New Issue Service. They are both issued in sheets of 120, the 3d. with marginal plate No. 1 and the 5/- with plate No. 2.

As in the case of the St. Vincent £1, the value is now being printed in a much bolder style and the lettering of the name is thicker.

**PAPUA** (624 I 628).—We are in a position to state the exact quantity of unicoloured stamps printed down to July, 1911.

**PARTICULARS OF NUMBER AND DATE RECEIVED OF LAST ISSUE OF PAPUA STAMPS.**

	Received 10.2.11.	Received 23.3.11.
½d. ..	120,000	20,000
1d. ..	40,000	100,000
2d. ..	—	140,000
2½d. ..	—	40,000
4d. ..	—	40,000
6d. ..	—	40,000
1/- ..	—	40,000

It will be observed that the supply consists of just 40,000 sets augmented by 100,000 each ½d., 1d. and 2d. These figures contrast boldly with those of the bicoloured series with "large Papua" of which there were only 20,000 sets (roughly) and 20,000 extra 1d., 2d. and 2/6. "Finis" may probably now be written to the catalogue of this country's stamps for several years to come, unless political changes occur, though of course the 2½d., 4d., 6d., 1/- unicoloured will probably in due course appear with "OS" and there is still the possibility of an addition of new values, especially high values, to the set, but none such are in contemplation.

**PATIALA** (521 R 628).—The following has now been issued:—

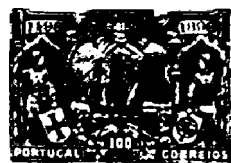

Overprinted "Service."  
1a. "Postage and Revenue."

Issued 31.8.11 or earlier.

**PORTUGUESE ANGOLA** (627 P 628).—We have now received the 15 reis "Republica," completing the current set.

**PORTUGAL** (617 D 628).—The authorities have now overprinted the remainders of the Vasco da Gama issue of 1898 with "Republica."

Vasco da Gama Commemorative Issue. Overprinted "Republica."

- 2½ reis, blue-green.
- 15 on 5 reis, vermilion.
- 25 reis, yellow-green.
- 50 " deep blue.
- 75 " red-brown.
- 80 on 150 reis, yellow-brown.
- 100 reis, bistre-brown.
- 1000 on 10 reis, dull purple.

Postage Due Stamps of the Vasco Da Gama service; overprinted "Republica."

- 5 reis, black.
- 10 " dull magenta.
- 20 " orange.
- 200 " brown on buff.
- 300 on 50 reis, slate-green.
- 500 on 100 " carmine on rose.

The above are expected to be issued early in October 1911.

**PORTUGUESE MACAU** (627 H 628).—The Post Office of Macau is making philatelic history. It is a long time since we have read such an extraordinary Government notice as that which has been just published for its benefit. Messrs. Graça & Co. send us the following "Extracto do Boletim Oficial de Macau No. 31 de 5 de Agosto de 1911." It is printed in Portuguese and English in parallel columns but we reproduce the latter only.

"Government Notification No. 168.

"The Acting Governor of the province of Macao,

"Wishing to take steps to minimise the evils resulting from the present shortage of postage stamps of the values of one and two cents,

"Past experience having shown that it is use-

less to surcharge stamps of other values, as they become new philatelic specialities and however large the issue the supply is soon exhausted, the public being thereby unable to post their letters,

"Not being able to issue special stamps in the province,

"The trouble being of such an urgent nature that calls for immediate remedy,

"With the unanimous vote of the Government Council,

"Hereby ordains that pending the arrival of new postage stamps from Home, the following measures shall be adopted, viz.:—

"1. That the Macao Post Office shall cease to sell postage stamps.

"2. That the Macao Post Office shall receive all letters from the public and stamp them in the presence of the bearers of same.

"3. That the Macao Post Office shall reserve the remaining postage stamps in stock for letters other than those for Macao, Canton, Hongkong and China ports.

"4. That the letters for Macao, Hongkong, Canton and China ports shall not bear postage stamps but shall be stamped with the Macao Post Office seal.

"5. That the collection of postage on letters for Macao, Hongkong, Canton and China ports shall be made by means of coupons printed at the "Imprensa Nacional," numbered by the Colonial Treasurer's Office and signed by the Post Master. The coupons shall be affixed to the letters to be posted.

"That the Post Master shall render due account to the Colonial Treasurer's office of the books of coupons handed to him.

GOVERNMENT HOUSE,  
MACAO, 2ND AUGUST, 1911.  
ALVARO DE MELLO MACHADO,  
Acting Governor."

Clause 1 in the above Notification is certainly remarkable, and is probably the first occasion on which a Government has ever enacted that a Post Office "shall cease to sell postage stamps." The Portuguese equivalent of this clause is underlined in the document like the English:—

"1.) O Correio de Macau deixa de vender sellos postaes."

One of the numbered labels referred to in this notice was illustrated in last week's E.W.S.N.

We also have a copy of the *Boletim Oficial do Governo da Provincia de Macau* (5.8.11), in which the notice appears in Portuguese and Chinese. There are also other Government notices of the same date relating to stamps. According to *Forbin's Catalogue of Fiscal Stamps* (1909, page 606) the province of Macau issues the following fiscal stamps.

"Contribuição Industrial"

1899, set of 17 from ½ avo to 94 avos.

NOTE.—There is a later set with values in reis not listed by Forbin, but we have no particulars of it, beyond that the 5 reis has just been surcharged 1 avo for postal use and was illustrated on a letter last week (E.W.S.N. 627).

"Imposto do Sello"

1903, set of 20 from 10 to 80 reis, 100 to 900 reis and 10000 to 100000.

The "Imposto" set of 1879 had almost exactly the same values but when the "avo" currency was introduced in 1894, they were surcharged with new values in avos (just as the postage stamps were) and the definitive set of 1896 had values in avos. The 1903 set, however, went back to the old reis currency. The fiscal stamps were surcharged at the rate of \$1.56 avos per 1000 reis (1000), but to avoid fractions 10 reis was taken as 2 avos and 20 reis as 3 avos.

The Government Notice No. 167 dated 2.8.11, published in the aforementioned *Boletim Oficial*, begins by referring to a decree of 2.12.09 under which in the event of a shortage of "Imposto" stamps the Governor could authorize their replacement by postage stamps and recognizing that in the event of a shortage of the latter also, public inconvenience might ensue, concludes by ordering that in the event of a shortage of "Imposto" stamps, these latter may be replaced either by postage stamps or by the *estampilhas de contribuição industrial*.

Even then the Governor of Macau had not finished his day's work, for he had to put his signature to Government Notification No. 169, also published in the *Boletim Oficial* in Portuguese and Chinese. This notice begins by referring to the necessity of reserving the postage stamps of 2 avos and of ceasing to allow them to be used as a substitute in the case of a shortage of the 10 reis "Imposto da taxa," and concludes by revoking the notification No. 58 of 15th March last which authorized the use of postage stamps of 2 avos instead of stamps of 10 reis of the "Imposto da taxa" and orders that in case the latter should be exhausted, stamps of the same value of the *Contribuição Industrial* set may be used.

The 5 reis of the latter set was issued on 15th July with a surcharge of 1 avo for postal use, so

that the Macau Government had practically exhausted its resources before issuing the notification reproduced above.

The currency of Macau is twofold. Evidently for fiscal purposes the milreis (1000 reis) of Portugal is retained, whilst the Post Office accounts are kept in Hong Kong dollars and cents. Whereas we prefer the first half of the word "Centavo," the Portuguese prefer the latter half; thus, cents and avos are one and the same thing. The root of the word "avo" occurs in the English "octave" and the Spaniards and Portuguese now use it for all fractions above a tenth, thus 11 is onze and 1/10th is onzeavo (but 1/10th is undecimo when an ordinal and not a fractional number). The avo of Timor differs from that of Macau just as the cent of the Straits Settlements or Borneo differs from that of Hong Kong. Whereas the Hong Kong dollar is on a silver basis and fluctuates in value, the Straits dollar has in recent years been fixed at 2/4 and the Timor dollar on pataca agrees with it.

**ST. HELENA** (625 U 628).—This is a most unfortunate Colony! On 19th April an official notice was published announcing that stamps would be issued in June with portrait of King George. Dealers sent their orders in vain and on 17th July a new notice was published stating that the Georgian stamps were not expected before the end of the year and that in the meantime a reprint of the 1d., 2½d., 4d. and 6d. would be "in stock from September next." September 1st came and we telegraphed for a supply, only to be informed under date of 5th September that the Edwardian stamps also had not even arrived in the Colony!

The King George V. set of stamps is to comprise nine values, ½d., 1d., 2d., 2½d., 4d., 6d., 8d., 1/- and 2/-, but we shall not now expect them until we see them.

**TURKEY** (619 P 628).—We have the following new shades.

New Shades.  
1 piastre, ultramarine.  
" " overprinted Turkish 'b'

These are no doubt the "plate II" of Gibbons' 1912 Catalogue, in which the 1909 issue of Turkey is very elaborately specialized. We reproduce the following note from the Catalogue (page 670):

"The plates for all values of this issue were made by erasing the inscriptions, etc., from the central circles on the plates of the 1908 issue, Type 25, and inserting the inscription, etc., as in Type 28. In erasing the old centres more or less damage was done to the lower edge of the Crescent; this damage varies in different stamps. In most values there are a number of minor varieties owing to the different ways in which the 'tougria', or triple signature, and inscription are placed. This is particularly noticeable in the plate of the 1 piastre, one variety having the 'tougria' turned so that the three strokes are vertical and under the centre of the Crescent. Second plates were eventually made for the 5 para, 10 para, 20 para and one piastre, in which the Crescent has its lower edge intact. In these plates the central part is alike throughout the plate, and there are no minor varieties. The second plate of the 5 para does not seem to have been issued except with the surcharge '2 para' etc. for use with printed matter."

Our publishers having a number of the 1908-1909 issues of Turkey we have sorted them according to the latest classification and they will be found listed on another page.

The overprinted issues to commemorate the Sultan's visit to Koumelia comprise the following 18 postage and 13 newspaper stamps for each of the four towns, Salonica, Pristina, Monastir and Uskub, or a total of 124 varieties.

1901 (a) Interior postage.  
1901 (b) Foreign postage.  
1905.

Overprinted Salonica, Pristina, Monastir, Uskub. (Four sets).

- 1901 (a), 5, 10, 20 para, 1, 2, 5, 25, 50 piastre.
- 1901 (b), 5, 10, 20 para, 1, 2, 5, 25, 50 piastre.
- 1905, 2½, 10 piastre.
- 1909, 2 para.

Overprinted for printed matter.

- 1901 (a), 5, 10, 20 para, 1, 2, 5 piastre.
- 1901 (b), 5, 10, 20 para, 1, 2, 5 piastre.

The above description is also from Gibbons' 1912 Catalogue.

5/- on yellow, mint, 5/10; block, 23/4.

We have no information as to the number of above printed, but it is hardly likely that many would be printed at this late date from the old Edwardian plates. Our supply is probably sufficient, after completing our New Issue Service, to last two or three weeks and we then expect no more till Christmas (and even then only if the issue continues) so that early application is recommended to avoid disappointment. The 2d. grey is expected shortly and can be booked.

**PORTUGUESE VASCO DA GAMA.**

There is to be a provisional issue of these overprinted "Republica" and we can book orders for execution the moment they are issued. We expect to secure.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Edwardian Issue (628 E 629).—Last week had some further surprises for us! The Harrison prints have commenced to appear with compound perforation! It will be remembered that at the outset it was stated—we do not know on what authority—that the new perforating machines, gauge 15×14, would be reserved for the Georgian stamps and up to last week this rule had been observed. We have now however the following to record:—

Edwardian series, perf. 15×14 instead of 14.

1d. red, control letter "A 11" (figures "11" close).

3d. brown on yellow.

Issued 6.10.11 or earlier. A complete distribution was made last week of the 3d. by Ewen's New Issue Service and the 1d. will be distributed this week. The following Harrison prints have now been issued:—

\*broken marginal lines.

†The 2½d. has continuous marginal lines: the 1½d. is in duller purple and green, more like the old De La Rue stamp.

‡The 9d. are a much darker purple and the 1/- have not so dark a green centre, the first printing having been almost black.

The Edwardian ½d., 1d. and 2½d., and Georgian ½d. and 1d. are known with inverted watermark. The ½d. and 1d. of both series have as yet had only the control letter A11 (for varieties of which see below). The shades of the ½d. and 1d.—especially the ½d.—are very striking and are not included in the above list.

**Control Letters** (628 R 629).—The new printers seem to be reserving most of their cuts and chips for the unfortunate control number, both the letter "A" and the figures "11" being battered to an extent we do not remember to have observed in the past. There do not seem to be many varieties and it would look as if very few numbering machines were in use, perhaps even only one on which the "A" or the "11" receives a new chip for each million or so of sheets.

Control letters of ½d. stamps.

(i) Clear A with faint dot under left foot.

½d. Edwardian, perf. 14.

(ii) Clear A. Feet of "11" shortened and serif of second "1" thinner and turned up.

½d. Edwardian, perf. 14.

(iii) A with dot in angle formed by cross-bar and left foot.

½d. Edwardian, perf. 14.

½d. Georgian, perf. 15×14.

NOTE.—This is a very common variety but there are several sub-varieties of it. Sometimes the A is chipped at top, sometimes its right foot and sometimes one or other extremity of one of the figures "11." All these defects are obviously intentional and not due to wear and must therefore have some meaning.

(iv) "A 11" thicker-lined. ½d. Edwardian, perf. 14. Yellow-green printings.

(v) The second "1" is chipped at N.W. corner. ½d. Edwardian, perf. 14. Light green again.

(vi) Clear "A 11." Left foot of first "1" shortened. ½d. Georgian, perf. 15×14.

(vii) The figures "11" are respectively 4 and 5mm. long. ½d. Georgian, perf. 15×14.

All recent arrivals and in fact 80% of the ½d. controls we have had lately have been variety (iii). A complete collection of the above seven varieties, if you buy them at the Post Office, costs 3½d., but of course there may be more and if you want them in pairs or blocks to show the varieties of perforated and unperforated margin the cost is of course again increased.

Control Letters of 1d. stamps.

(i) "A 11," all four feet defective.

1d. Edwardian, perf. 14.

1d. Georgian, perf. 15×14.

(ii) The "A" has a horizontal cut through the top of the letter.

1d. Edwardian, perf. 14.

1d. Georgian, perf. 15×14.

NOTE.—There are quite a number of varieties of this. We can imagine someone prowling round the printers' office bent on spoiling the beauty of all the A's he could find! Whether the deed was done in this way or not, it was done "of malice aforethought" and we must suppose there was a definite object in view. We have for instance:—

(a) clean cut through A; dot under left foot of A.

(b) rough cut leaving top joined by a thread; no dot.

(c) faint cut, ½ through; faint blot under A, the feet of which are often white. There are probably others.

(iii) Clear "A 11." The figures "11," as in types i and ii, are 2mm. apart.

1d. Edwardian, perf. 14.

(iv) Clear "A 11." The figures "11" are now closer together and only 1½mm. apart.

1d. Edwardian, perf. 15×14.

1d. Georgian

NOTE.—Here again there are varieties. The Edwardians have thinner figures and all our specimens have a dot under the right foot of the A. In some of the later Georgians the first "1" has serif broken off.

Any of the above mentioned control varieties can be supplied by our publishers at 3d. each; extra stamps to make pairs, blocks, etc., at face value only.

Later, 9.10.11. Mr. C. F. Dendy Marshall reports the 10d. on ordinary paper, which we take to be the Harrison print. We obtained sheets at the local post office on 10.10.11.

Harrison print, ordinary paper.

10d. perf. 14. Red dots at corners of sheet.

Issued 9.10.11 or earlier. It should be mentioned that the first reader to report to us the issue of Edwardian stamps with compound perforation was Mr. F. Ashby, who did so under date of 8.9.11.

As all the Edwardian stamps from ½d. to 2/6 are now known to have been changed except the 6d. and 7d., it becomes very probable that the 6d. stamps in use for several months past are also not of Messrs. De La Rue & Co.'s manufacture. But Somerset House has been more successful in imitating the workmanship of that firm than Messrs. Harrison for no one has yet discovered an infallible method of distinguishing the two sixpennies.

It is not unlikely that in the near future we may have to record the issue of Georgian 3d. and 8d. stamps and there should be a keen look-out for the Edwardian stamps perf. 15×14 and perhaps for Georgian perf. 14 though these are not very likely. Marginal varieties of the values 1½d. to 1/- are likely to become valuable, especially when shown in "miniature sheets" (made by joining together the 8 corner stamps of the 2 panes of a sheet, with the neighbouring margin).

Mr. F. J. Melville writes in the *Daily Telegraph* (5.10.11):—

"The current threepence, purple on yellow paper, stamp of Great Britain is now issued printed by the new contractors, but that value of the King George series is expected during the present month, so that the Harrison printing of the old one is not likely to be long in use."

We take the following announcement from the *Evening News*:—

### THE NEW POSTAGE STAMPS.

New Machinery Installed by the Printers.

The *Evening News* learns that every effort is being made to effect improvements in the new postage stamps.

It is understood that new machinery on an extensive scale is being fitted up by the printers, Messrs. Harrison, which, it is hoped, will considerably assist in the production, and improve the adhesive properties of the criticised issues.

It is further stated that owing to the dissatisfaction of the Printers with the electrotypes manufactured for them by the Mint authorities, steps are being taken to lay down a new plant at Hayes, Middlesex.

Here the plates from which the stamps are printed will be produced under the supervision of Messrs. Harrison themselves.

It is hoped that as a result of experiments now being carried out considerable improvement may also be made in the near future in the design of the King's head.

**BELGIUM** (628 W 629).—The sets of charity stamps overprinted "1911" were limited to the 5c. and 10c. values but the others are now reported by *Le Moniteur Philatélique* (5.10.11/212).

Overprinted "1911."

Dotted ground, 1c. grey.

" 2c. brown.

Solid ground, 1c. grey.

" 2c. brown.

**BRITISH HONDURAS** (618 N 629).—"Specimen" copies of the following are reported by the *Schweizer Briefmarken-Zeitung* (10.11/188):

New colours. Wmk. multiple Crown CA. 25c. black on green.

To be issued. It was stated recently that a fresh supply of 2c., 5c. and 25c. was expected to reach the colony about 12.11; there is evidently no change in the 2c. and 5c. The Edwardian record of British Honduras is as follows:—

Old colours.

(31) Wmk. Crown CA; 1c., 2c., 5c., 20c.

(32) Mult. Crown CA, ordinary paper; 2c.

(33) Same, chalky; 1, 2, 5, 10, 25, 50c., \$1, 2, 5.

New colours.

(34) Mult. Crown CA, ord. paper; 1, 2, 5c.

(35) Same, chalky; 25c.?

A total of 18 varieties is not very formidable.

**COCHIN** (613 M 629).—*Le Bulletin Philatélique* (5.10.11/199) states that official stamps are to be issued.

**CRETE** (612 W 629).—The remainders have been withdrawn from offer, states *Le Bulletin Philatélique* (5.10.11/199), no satisfactory offer having been received for them by the Cretan Government.

Colony and the South African Union. Similarly in Australia the stamps of all States are interchangeable and in due course the subscribers to New Issue Services will have to write 'finis' to their pages of Cape Colony, Natal, Orange River, Transvaal, New South Wales, Victoria, Queensland, South Australia, Western Australia and Tasmania and open instead new pages for "Australia" and "South Africa." This is only a continuation of the process commenced by Canada 60 years ago when it caused the issues of New Brunswick, Nova Scotia, Prince Edward Island, British Columbia and Vancouver Island to cease. There is a likelihood that the stamp collector of A.D. 2000 will be ignorant of the names of all of Britain's most important Colonies!

**SWEDEN** (627 K 629).—The following is chronicled by *L'Echo de la Timbrologie* (31.8.11/529).

Official Stamp, wmk. lines.  
10 öre, rose.

The varieties now known are:—

*New Official Issue*

- (51) Wmk. Crown, 1, 2, 4, 5, 8, 10, 15, 20, 25, 30, 50 öre.  
(52) No Wmk. None.  
(53) Wmk. wavy lines, 10 öre.

These stamps are difficult to procure unused. Will some kind friend offer us a sheet of each, even at a premium?

Mr. Fred. J. Melville writes in the *Daily Telegraph* (21.9.11):—

STOCKHOLM, Sept. 17th.

The Post Office authorities have taken the keenest interest in the jubilee celebrations of the society, and so far from regarding the philatelist as the *bête noire* of the postal official, they have been affording students here every possible assistance. They have thrown open their records to the philatelic historians of the Swedish Philatelic Society and have invited all the delegates to visit the Post Office Museum, which is now assuming considerable proportions in the old Stockholm General Post Office. Yesternight also by special favour there was issued the new 1 öre black stamp of the Arms design drawn by Olle Hjortsberg, 1,000 of them being provided for the philatelists assembled in Stockholm this week-end. The stamp was printed last year, but there still being quantities of the old stamp of this denomination on hand, the issue of the new stamps would not have been made for some weeks yet, but they were issued last night as a courtesy to the Swedish Philatelic Society. They are on the paper watermarked "Crown," and there are already printed 1,441,200, the printings having begun in July, 1910.

I understand from official sources here that the present 5 kronor blue stamp is to be withdrawn on account of a curious error in the design. The picture on this stamp, which is of a long upright oblong shape, depicts the fine new General Post Office opened in 1903, but the flag which is shown flying over the building is said to be a British flag. The printings of this stamp from the date of its first issue, Oct. 26, 1908, to Sept. 1, 1911, total 339,250 stamps.

In the *Daily Telegraph* of 28.9.11, Mr. Melville discourses further on Swedish issues. We reproduce here the references to the current series:—

"Owing to the changes which have been proceeding in the papers used for printing the recent stamps of Sweden, and to the introduction of the new designs by Olle Hjortsberg for the present reign, there are several stamps which should become scarce. The twenty-five öre, head of King Oscar, on unwatermarked paper, is an example, and the five öre King Gustav, printed on the paper watermarked with the crown device, is another. The former was in use from May 3rd to Sept. 5th of this year, and was superseded by the twenty-five öre with the new King's portrait on Sept. 6th, which new stamp is also on the unwatermarked paper. The five öre of the new design on the old 'crown' paper was in use from May 8th to May 31st of the present year, and was superseded by the same type of stamp printed on unwatermarked

paper on June 1st. The edition printed of the short-lived five öre was 1,303,400, not a large number for what corresponds to our halfpenny stamp extensively used up in the post. The quantity of the twenty-five öre (King Oscar) without watermark was 1,316,900.

"There are three kinds of paper at present in use for the Swedish stamps, and I am informed by the authorities that it is their intention to use the new unwatermarked paper for nearly all the denominations printed from recess-plates. Although the paper is unwatermarked so far as the stamps are concerned, the margins bear the watermarked inscription 'Kungl Postverket,' which, it may be noted, is a variation from the marginal inscriptions on the old crown watermarked paper, in which the first and abbreviated word read 'Kongl,' the latter being the Danish form of the word 'Kongeligt,' which is thus tardily changed to the Swedish spelling. The surface-printed stamps are being gradually brought out on the paper watermarked with wavy lines, the old 'crown' paper being, with a few exceptions, superseded. Thus in the general postage stamps the 1, 2, 3, and 4 öre (which are surface printed) will be on the wavy-line paper, the values from 5 to 50 öre (which are engraved in *taille-douce*) will be on the unwatermarked paper, and the 1 krone and 5 kronor, also engraved in *taille-douce*, will be printed on coloured paper watermarked with the crown device, the colour-scheme of the 5 kronor not being yet decided upon. The 'official' stamps (*tjantste frimärke*) will be printed on the wavy-line paper, except the 1 krone and 5 kronor."

**TONGA** (604 N 629).—We have received the new letter-card referred to in *E.W.S.N.*, No. 604, but the colour appears to us carmine on blue rather than copper-red.

We have also the following new stationery:—

*Registration Envelope.*

(3d.) red on flap, stamp of Arms design without value expressed; on front of envelope usual inscriptions and in an oval in left corner "R THREE PENCE" in three lines.

*Postcards.* Oval design with portrait of the King. Inscriptions on front in carmine and views on back in brown.

1d. carmine.

- (1) Shipping at Nukualofa Wharf.
- (2) Palace, Haapai.
- (3) Blow Holes at Liku.
- (4) Government Offices.
- (5) Coconut Palm Avenue, Haapai.
- (6) Beach at Haapai.
- (7) Shipping at Vavau Wharf.
- (8) Hospital at Nukualofa.
- (9) Hospital at Vavau.
- (10) Ovava. Captain Cook's Tree.

Issued 1.8.11 or earlier. The cards are sold in packets of 10 for 2/6 (three times face value) and the band is inscribed "10 International Illustrated Post Cards."

**TRAVANCORE** (626 M 629).—A set of official stamps has been inaugurated, states *Le Moniteur Philatèlique* (5.10.11/215).

On  
S. S.

Overprinted "On S.S." approximately as above, for official use.

- 1 chuckram, blue.
- 2 " red.
- 3 " violet.
- 4 " blue-green.

**UNITED STATES** (624 X 629).—We read in the *Star* (11.9.11):—

A NEW AMERICAN STAMP.

The American Post Office Department announce that the Postmaster-General has approved a new design for the two-cent foreign single postcard, which will be placed on sale about 1 Jan., 1912.

The subject of the stamp is a likeness of Gen. U. S. Grant at the age of 47, about a year after he became President.

This portrait has been pronounced by Gen. Frederick D. Grant to be an excellent likeness of his distinguished father.

On the postal card the portrait appears within a frame, the inner lines of which form an ellipse, while the outer lines are rectangular, with inwardly curving corners.

Above the portrait and following the curve of the ellipse are the words: "U.S. Postal Card," and below it is the name Grant in a curved ribbon.

The denomination is expressed in words and numerals in the lower portion of the frame.

The words, "Universal Postal Union, United States of America," appear in English and French in the upper left corner of the new card.

The colour of the card will be selected later.

A special 10 cent registry stamp is also being prepared for both domestic and foreign postage; it will bear an engraving of an eagle with outstretched wings.

It will also be ready about 1 Jan., but it will still be permissible thereafter to use the ordinary stamp for registering letters and parcels.

## Swedish Philatelic Society

HONOURED BY KING GEORGE V. AND THE  
CROWN PRINCE OF SWEDEN.

(From the *Daily Telegraph*, 21.7.11).

Stockholm, Sept. 17th.

The meetings organized here in connection with the twenty-five years' "jubileum" of the Swedish Philatelic Society began yesterday, and delegates are in attendance from all parts of Scandinavia, from Finland, Germany and Great Britain. The society is a large one, having nearly 1,200 members, and its fine club rooms were filled to overflowing with the members who attended the initial proceedings of the celebration. The president, Consul Keyser, voiced the welcome of the Stockholm headquarters to the members of the numerous branches and to the visitors from foreign countries, and when Swede meets Swede and in addition they entertain kindred spirits from abroad, their hospitality is boundless.

The early part of the programme was devoted to society matters, and telegrams were despatched to the two honorary members (*hedersledamoter*) of the organisation, his Majesty King George and his Royal Highness the Crown Prince of Sweden. To the Crown Prince, who is an active stamp collector, and has long taken a lively interest in the society, the members sent the following telegram: "The Swedish Philatelic Society, assembled in large numbers for the celebration of the society's twenty-five years' jubilee, hereby takes the privilege of bringing to your Royal Highness, the society's honorary member, their devoted respects.—Keyser, President." The reply received this morning read:—"With hearty thanks I send the Swedish Philatelic Society my warmest congratulations on their twenty-fifth anniversary.—Gustav Adolf."

MESSAGE FROM KING GEORGE.

The society is the only one in any foreign country to have been honoured by the acceptance of honorary membership by his Majesty King George, and the members evinced the greatest enthusiasm in the despatching of a telegram to the private secretary to the King: "The members of the Swedish Philatelic Society, Stockholm, assembled for the celebration of their twenty-fifth anniversary, beg you to convey their respectful greetings to his Majesty the King. His Majesty's interest in philately is profoundly appreciated, especially in this Society, which has the honour of having his Majesty for its honorary member."

The reply, also received at this morning's meeting, was in the following terms: "I am commanded by the King to thank you and those who join with you for the kind sentiments to which your telegram gives expression." Other messages of greetings and congratulations were exchanged with the Royal and the Junior Philatelic Societies of London.

A technical paper on the postmarks of Sweden was delivered by Dr. Astley Levin, the leading student of the stamps of this country, and formerly the possessor of the finest collection extant of the Swedish postal issues. The paper contained a précis of the voluminous studies in this hitherto little known field of philatelic research, and I understand that the Post Office authorities here have expressed the desire to have Dr. Levin's work published in extenso, so that the department may have, what it at present lacks entirely, viz., a complete record of the postal devices used throughout the country from the beginnings of their use in Sweden.

## Turin Exhibition.

HER Majesty the Queen of Italy has given her patronage to the Philatelic Section of the Turin International Exhibition, which section will be open from the 14th to the 25th of this month. The exhibits will include an important one from the Italian Ministry of Posts and Telegraphs, as well as important collections of the stamps of the old Italian States, including those formed by Dr. Emilio Diena and Dr. Achille Chiesa. A number of English collectors are exhibiting. The hall which has been secured for the display is the Palace of the Société Promotrice des Beaux Arts.—(The *Daily Telegraph*).

**Ewen's Colonial Stamp Market, Ltd.,**  
32, PALACE SQUARE, NORWOOD, LONDON, S.E.

*Deposit Accounts.*—All payments (for whatever purpose) are credited to a deposit account, and all invoices (whether for stamps, albums, subscriptions or postage, etc.), are debited to such account. This deposit account should not be overdrawn. The balance is returnable post free on demand.

*Returns.*—Stamps which are not as ordered may be returned within 10 days and their full sale price will be re-credited to deposit account.

*Bank-notes.*—20 mark = 19/6; 50 francs (French) 39/8; 50 francs (other countries), 39/6; 50 lire, 39/6; 20 kronen = 16/6; 20 kroner = 22/-; 10 gulden = 16/6; 10 roubles = 21/-; U.S.A. dollar = 4/1.

Cheques payable to "Ewen's Colonial Stamp Market, Ltd.," or "Ewen's, Ltd.," postal orders, money orders (inland and foreign), etc., payable to "Ewen's, Ltd.," at "Anerley Road, S.E." Cheques on France and Germany accepted at same rate as bank notes, also bons de poste.

Surcharged on B.N.G. 2/6

NOTE.—The 2/6 in the second column are type iii., thin bar. The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state (they are no longer issued even thus). All specimens are marked on back with their issue numbers in pencil.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current Issue (629 F 630).—In our note last week after chronicling the 10d. Harrison print, we stated that the Edwardian issue with compound perforation was first reported to us under date of 8.9.11; this should of course have been 8.10.11. A correspondent points out that the 3d. perf. 15×14 was distributed with Ewen's New Issue Service on 28.9.11, an earlier date than the record mentioned last week. They were purchased locally on the same date.

The 3d. Harrison perf. 14, has suddenly become a very scarce stamp. Even at the beginning of the month a friend who inquired at seven post offices in the S.W. district found none left. Three were still using De La Rue stamps and the other four had the perf. 15×14 issue. On 12.10.11 we enquired at most local post offices and found none and on 13.10.11 the Editor walked for over two hours round West Norwood, South Norwood and Croydon and only found one block of 60 specimens at a small post office between Selhurst and West Croydon. A Leeds collector supplied us with nearly a whole sheet and there for the present the matter rests. The 3d. Harrison perf. 14 looks as if it may become as rare as the 3d. Queen's Head on orange paper.

Mr. J. H. Kellett, in sending two 1d. Georgian stamps (23.9.11) writes:—"Has the die of the enclosed stamps been retouched? The lines behind the head are clearer; there is a parting in the hair; the eye is more distinct; the hair over the ear and the whiskers seem to be more shaded."

The 10d. Harrison prints are issued in sheets of 96, in two panes of 48 each, one above the other. There is a coloured dot at each right-hand corner, probably to assist in packing the sheets for perforation. The cuts are:—

1st stamp. 8th stamp. 11th stamp.  
I I II

The cuts are in the purple line under the bottom row of stamps. Are we to read therefrom "bed 1, August, 1911"?

A Biggleswade correspondent writes (14.10.11): "I was much interested in your statement re the new 3d. I applied at five post offices in the town to-day for the perf. 14 variety and in no case was I able to obtain one. In one case the postmaster informed me that he had had his stamps, which were perf. 15×14, for about three weeks."

The Postmaster at a Selhurst office, which has 3d. perf. 15×14 only, informs us his present supply was ordered on 26.9.11 and was probably received the next day.

Just as we go to press we learn of two more values with compound perforation.

Edwardian Issue, perf. 15×14.

1½d. Harrison print.

2½d. " "

Issued 14.10.11 or earlier. We shall describe the sheets next week. The first of our readers to report the above was Mr. W. B. Edwards.

**AUSTRALIA** (621 Z 630).—Our Melbourne correspondent has been hunting up all the varieties of postcards and letter-cards he can find at local post offices and they make quite a formidable collection. On 21.8.11 he sent us the following varieties:—

Postcards. Stamped in usual corner with above 1d. stamp (portrait of the King), with a supplementary portrait on the left-hand half of the card (see illustration).

- (i) Portraits rectangular, not ornamented.
- (ii) " oval, " "
- (iii) " rectangular, ornamented, crowned.
- (iv) " oval, " "
- (v) " " ornamented, without crown.

Type i.

1d. chestnut Portraits, K\*, Q\*, P\*.

Type ii.

1d. chestnut Portraits, K, —, —  
1d. dark lilac " K\*, Q, P.

Type iii.

(In the case of types iii. and iv. the Crown is replaced in the case of the Prince of Wales by the Royal Arms or other design).

1d. chestnut Portraits, —, Q, P.  
1d. grey-brown " —, —, P\*.  
1d. dark lilac " K, Q, —.  
1d. slate-blue " —, Q\*, —.

Type iv.

1d. chestnut Portraits, —, Q, —.  
1d. grey brown " —, Q, —.  
1d. dark lilac " —, —, P.  
1d. grey-black " K\*, —, P\*.

Type v.

1d. chestnut Portraits, K, —, —.  
1d. dark lilac " K, Q, —.  
1d. grey-black " —, Q\*, —.

For K read the King, Q the Queen and P the Prince of Wales. Those marked \* have already been chronicled (E.W.S.N. No. 616).

The above 22 varieties probably do not form a complete list. Most are scarce as the majority of the cards have portraits of type i which appears to come uniformly in chestnut.

The letter-cards are impressed with the same postage stamp and occur in the same variety of colour, but classification is complicated by the fact that there is also considerable variety in the quality and colour of the card employed. Twelve different views are printed (from half-tone blocks, in the colour of the stamp inscription) on the backs of the letter-cards, viz.:—

VIEWS ON LETTER-CARDS.

- (1) N.S.W., Sydney Harbour ("N.S.")
- (2) " Mosman's Bay ("N.M.")
- (3) Victoria, Exhibition Buildings ("V.X.")
- (4) " Bush Hut ("V.B.")
- (5) S. Australia, Wimmera, S.A. ("S.W.")
- (6) " Botanic Gardens ("S.B.")
- (7) West Australia, Zoological Gardens ("W.Z.")
- (8) " Queen's Gardens ("W.Q.")
- (9) Queensland, Pineapples ("Q.P.")
- (10) " Botanic Gardens ("Q.B.")
- (11) Tasmania, Launceston ("T.L.")
- (12) " Gorge, Launceston ("T.G.")

Surcharged "VIC" in violet.

- (13) S. Australia, Wimmera, S.A. ("Vic. on S.W.")

It was an extraordinary error to take Wimmera as one of S. Australia's representatives, when it is really in Victoria, but the boundary has recently been in dispute. Our correspondent sends us the following:—

- (i) 1d. brown on thick green card. Views NM, VX, SW, SB, WZ, QP.
- (ii) 1d. blue on thin white. Views NM, SB, SW, WZ, QB, QP.
- (iii) 1d. green on thin white. View SW.
- (iv) 1d. slate-grey on thin white. View WQ.
- (v) 1d. brown on medium cream. Views NM, SB, SW, QB, TG.
- (vi) 1d. chocolate on medium cream. Views QB, TL.
- (vii) 1d. brown or chocolate on French grey. Views NS, NM, VX, VB, SW, WQ, WZ, QP, TG, TL, Vic. on S.W.
- (viii) 1d. lilac on French grey. Views NS, VB, SW, WQ, TL.
- (ix) 1d. green on grey. Views NM, SB.

Issue i. on thick green card was the first (chronicled in E.W.S.N. No. 611) and the three-line inscription ended with the words "any, penny, apply." Issues ii. and iii. are also this setting.

In issue v our QB are a new setting of the inscriptions, the lines ending with "to, the, apply." The others are the old setting, as also issue vi.

All the issues on grey or French grey card are the new setting, "to, the, apply."

In addition we have letter-cards with views VB, WZ, QP of issue vii. which have been re-perforated in two vertical lines near the lower edge.

Later (2.10.11).—Since writing the above our Melbourne correspondent, under date of 28.8.11 sends us a letter-card with view 'QB' in above list, postmarked "Ulverstone, Tasmania, 22.8.11." It is printed in brown on the old thick green card, but instead of being perforated is rouletted 6½ in straight lines.

Later (16.10.11).—A third consignment of letter-cards has now reached us from our Melbourne correspondent, despatched under date of 13.9.11. They are all evidently a new printing and there are several new shades amongst them.

Letter-Card. Georgian 1d. stamp as before. Lines of inscription end with "to, the, apply". Perforation rounded as usual at corners.

- 1d. plum, on greenish grey. Victoria, Exhibition Buildings.
- 1d. bright blue on greenish grey. W. Australia, Zoological Gardens, Perth. S. Australia, Viaduct near Adelaide ("S.V.") Tasmania, The Gorge, Launceston.
- 1d. lilac blue on greenish grey. N.S.W., Mosman's Bay.
- 1d. light brown on greenish grey. W. Australia, Government House, Perth ("W.G.")

The SV, TH, and WG of above list are new views, making 15 in all now known.

Stamp Booklets. These are now issued at Melbourne containing 240 1d. stamps instead of ¼d. and 1d. stamps mixed. The stamps are of course those of Victoria, but we refer to them here as there are six varieties of the booklets each with a different view at back. The one sent us has a large 'half-tone' view of the General Post Office, Hobart, at the back and the others represent the G.P.O.'s of Melbourne, Sydney, Adelaide, Perth and Brisbane respectively. No doubt a similar series of stamp booklets is being issued in the other states.

**AUSTRIAN P.O., LEVANT** (595 S 630).—We find we have omitted to record the issue of the remaining values of the current set of postage due stamps on ordinary paper and printed in dark instead of light green.

Dark instead of light green, ordinary paper.

¼ piaster, dark green.  
[½ " " already chronicled].  
10 " "  
30 " "

Issued 30.3.11 or earlier; probably considerably earlier at Vienna.

## Dictionary of 2000 Colour Names.

(Compiled by H. L'Estrange Ewen, with a view to assisting catalogue editors to a greater choice of colour names, in the belief that more originality in this respect would add to the interest of special shades of stamps. The list is far from complete.)

This completes the list of colour names we have collected (1532 in index order besides others in small type) and the next step would be to make a selection from them of suitable names to form colour sequences. By "colour sequences" we mean a range of colours such as red, purple, mauve, violet, lilac, blue. In 99 cases out of 100 when we want to name a colour we have no time to turn over the pages of a chart until we match it, but if we could commit to memory 20 or 30 sequences of colour names it would soon be easy to name accurately any colour seen. Whether it is possible to form such sequences is a matter for investigation; the principal difficulty lies in the fact that any colour in a sequence may be so modified by the addition of black or white or a third colour as to make it unrecognizable. However, unless any of our readers care to continue our investigations in the meantime, we must leave any further consideration of the subject for the present, perhaps until the holidays come round again. The principal sources from which we obtained the colour names were as follows:—

Encyclopaedia Britannica, 1911 edition.  
 Webster's New International Dictionary, 1911.  
 Funk & Wagnall's Standard Dictionary, 1910. Referred to in our dictionary as "F. & W."  
 Répertoire de Couleurs, pour aider à la détermination des couleurs des Fleurs, des Feuillages et des Fruits, published by the Société Française des Chrysanthémistes and in England by the Royal Horticultural Society (price about 16/-); contains 365 splendid colour charts, each with four shades. The charts are indexed in our dictionary under the initials "R.H.S."

Etc., etc.

Although the above list is fairly representative, not a tithe of the material was obtained that might have been had for research. If one waited to compile a complete catalogue of colours, it would never have been begun!

### New Issue Service.

A New Issue subscriber writes from South America:—"I am not sure whether you send selections weekly, as, if so, I am afraid that one or two have gone astray." Our correspondent evidently does not appreciate the efficiency of our system of accounts. It is quite easy to tell whether a selection has gone astray, because on every account slip the balances are brought down from the previous one, the number of which is given. If the subscriber received this number, then he knows nothing is missing.

\* \* \*  
 We endeavour to make a delivery every week, because we believe half the pleasure of subscribing to a New Issue Service is the constant receipt of something new and often unexpected. During the week the subscriber has all the pleasure of anticipation and we do not like to disappoint him when Saturday comes round again. The expense is very little; in the case of home subscribers it may be only a penny a week or 4d. per month, whereas if the stamps accumulated for a month the increased value of the consignment might add the cost of a registered letter, 3d. Most collectors would much sooner pay a few pence extra and have 52 packets a year instead of 12. It is no economy to be too economical, if one attaches any value to happiness.

THE WEEK'S NEWS.

(Continued from page 2613.)

**GILBERT & ELLICE** (629 X 630).—A Brighton collector who wrote on 24.9.11 for Gilbert & Ellice stamps received a reply, "No. 42, 1911," regretting that the Fijian surcharged issue was exhausted. Like the others it was dated 9.8.11.

A Newcastle, Staffs., collector writes:—  
"Re your remarks in issue of *E.W.S.N.* of the 14th inst., I also had a letter. My letter was prepaid with a 5d. stamp of the Fiji type surcharged, so they could not all have been sold out when letters No. 18 and 23 were written, as my letter is No. 23. The envelope also bears a Registration label, imperforate, printed in red, R. No. 409 G & E.I.P. All my previous envelopes were registered in London, one bearing a perforated label, R. London, I.S. The others were simply marked with blue pencil, Regd. No. 244, etc., and the stamps obliterated with blue pencil and over this was the London postmark, London 21 Ju. 1911, in black and Registration London postmark in red on back."

We do not suppose that the postmaster meant that every single stamp was sold; he kept some for postage. He must have written nearly 90 letters on 9.8.11, and all that we have heard of were franked with a 5d. surcharged Fiji. At this rate they would soon get used up, however many there were to start with.

**JAMAICA** (629 D 630).—We are officially informed that the 3d. King George V. stamp will not be ready for issue before March 1912 at least. The *London Times* (14.9.11), it may be recalled, stated that it would be issued before the end of 1911.

As far as one can foresee, the first of the Georgian stamps will be the Indian set, followed in 1912 by the Cayman Islands, St. Helena, Falkland Islands and a few other sets, but there seems no prospect of any considerable change for some time to come.

Our Reference List of "Current Stamps at Face Value" published in June 1910 (price 7d.) gives the exact month and year when all the Edwardian stamps appeared and one may see from this that their appearance was spread over several years. Thus, of the British Honduras set, only the 5c. appeared in 1902, only the 2c. in 1903, the 1 and 20c. in 1904 and the set was not complete until 1907.

**PORTUGAL** (628 E 630).—Just as we went to press last week we received the Vasco da Gama set overprinted "Republica" and find that the postage due stamps have the word "Multa" barred out, thus converting them to postage stamps. In fact, the six values of the dues supply the values missing from the postage set. They were all issued 8.10.11 or earlier.

**UNITED STATES** (629 Y 630).—Our enquiry for the history of the label illustrated below has brought us quite a mass of correspondence from American friends.

This is an entire bogus issue made and marketed about the time of the Spanish-American War by Major Brewster C. Kenyon, Long Beach, Calif., who is probably better known to fame in England as the writer of the "Mason" letter to the Postmistress of the Cayman Islands, inviting her to make a series of bogus provisionals. (It will be recalled that this letter was sent to the Secretary of State for the Colonies and published in the Cayman Islands report).

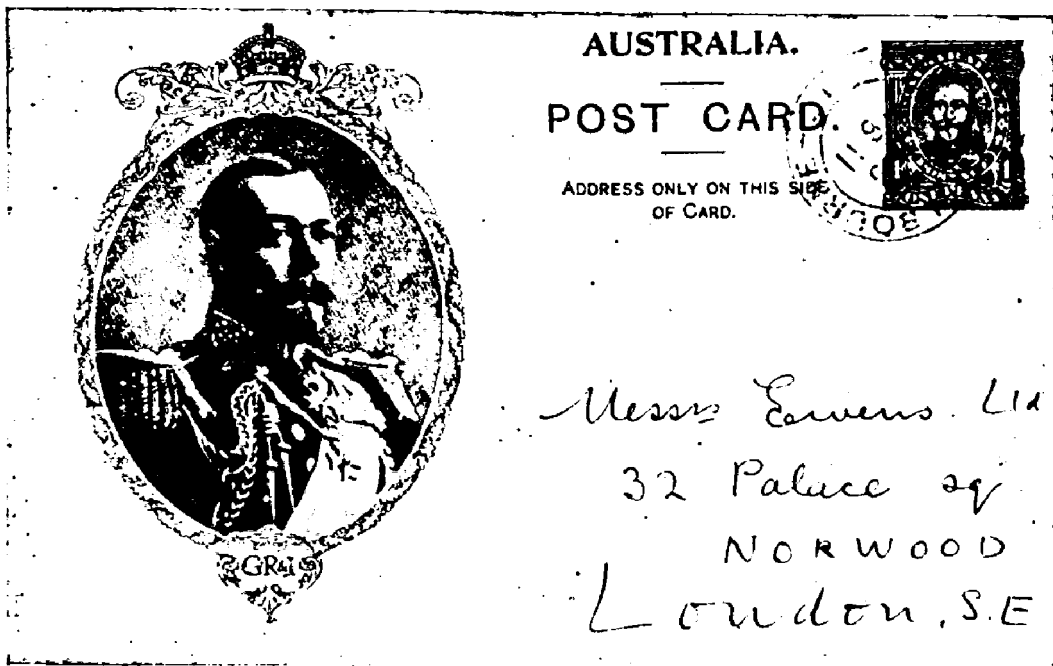

Mr. B. W. H. Poole writes:—

"In the 'Weekly' to hand to-day, I note you make an enquiry (page 2559) regarding the so-called Army Franks of the U.S. The first mention I can find of this appears in the *American Journal of Philately* for Sept., 1898, where it is stated that it 'was used by some Officers of the War Dept. in forwarding heavy letters and other material through the mails. There seems to be no question that the frank was passed by some employees of the post office, but on the other hand there seems also to be no question that such use was without sanction by competent authority.' In Nov., 1898 issue of the same journal an official letter is printed clearly showing that the label was unofficial and valueless for franking purposes. It further states that the label was designed by Major Brewster C. Kenyon, who, you will perhaps recollect, is not altogether unknown to philatelic fame in the matter of certain proposed Cayman Islands provisionals and other little items!!"

Mr. F. Michael sends us a copy of a letter from the Postmaster-General repudiating the label.

The First Postage Stamp of the Australian Commonwealth.

POSTCARD WITH PORTRAITS OF H.M. THE KING, ISSUED DURING JUNE ONLY.

"POST OFFICE DEPARTMENT,  
Office of the Third Assistant Postmaster General,  
Washington, D.C., Sept. 15th, 1898.  
Sellschopp & Co., 108 Stockton St.,  
San Francisco, Cal.

Sirs,—Yours of the 9th inst., submitting an 'Army frank' label, has been received. In reply, I have to say that this label is not official, nor has it received the sanction of this Department. It is not good for securing the free transmission of official matter.

The law requires that the free penalty envelopes, to be provided by the several Departments of the Government, and not after devices selected by individual officers, shall bear the name of the Department on whose business the envelopes are used, the office or bureau from which emanate, together with the words "Official Business," and a statement of the penalty for their mis-use.

The label submitted by you, which was designed by Major Brewster C. Kenyon, does not conform to these requirements, and even if it did, the use of it would be objectionable, as army officers should use only such penalty envelopes or labels as the War Department authorizes or provides.

Respectfully Yours,

JOHN A. MERRITT,  
Third Assistant Postmaster-General."

**VICTORIA** (624 W 630).—Our Melbourne correspondent writes under date of 23.8.11:—"Several of the 1901 Postage issue were at one time fairly common watermarked sideways, viz., ½d., 1d., 1½d., 3d., 9d., 1/-. That the Government printer has been more careful in this respect with the Crown A stamps may be gauged by the fact that no value under £1 is known with abnormal watermark except the ½d. and 1d. and I have made endless search for them. Even the ½d. and 1d. have been very scarce so I reckoned myself fortunate to find three full sheets of the ½d. at a suburban Post Office, (Prahran) on 19.8.11. Two sheets were upright inverted and the other upright only (for in the case of the ½d. the normal position is sideways across two stamps). They are rather difficult to divide as the watermark now being upright does not fit the stamps at all and it is of no use to have a bit of the Crown without enough of the A to show that it is not the old 'V Crown' issue."

The sheets of the small ½d. stamps are in 12 horizontal rows of 20 stamps and the Melbourne Crown A watermarks in 10 horizontal rows of 12 "Crown A's." If the paper is placed sideways, the watermarks fit exactly once to every two stamps, but if the paper is printed so that the watermark comes upright, there are parts of 10 "Crown A's" on a vertical row of 12 stamps and parts of 12 "Crown A's" on a horizontal row of 20 stamps. Thus, theoretically each stamp should have 3/8ths the width and 5/8ths the height of a watermark, but in practice a sheet of 240 before us shows the 2nd, 4th, 7th, 9th, 12th and 17th rows to be almost without watermark (several specimens here and there do escape it altogether) whilst the others have more than their share.

Under date of 13.9.11 we learn that a Melbourne collector has secured a sheet each of the 2½d. black-blue and 6d. OS, perf. 11, evidently part of the printing of two years ago.

The 3d. value is also known wmk. Crown A, perf. 11 and "OS" but only we believe in used condition.

The issues of Victoria are chiefly complicated by the number of shades and by the variations of the different "gauge 12½" perforating machines. Eliminating these their history is comparatively simple.

Wmk. V Crown, perf. 12, 12½.

(31) Upright, ½d., 1d., 2d., 2½d., 3d., 4d., 5d., 6d., 9d., 1/-. 2/-. 5/-.  
(32) Sideways, ½d., 1d., 1½d., 3d., 9d., 1/-. £1 £2.

NOTE.—There are two dies of the 1d. (the second has a coloured bar across the bridge of the nose on every stamp of the sheet) and two of the 1/- (listed by Gibbons).

Wmk. V Crown, perf. 11.

(33) Upright, ½d., 1d., 2d., 3d., 6d.  
(34) Sideways, ½d., 1½d., £1, £2.

Wmk. V Crown, perf. 11 with 12, 12½.

(35) Upright, 1d., 6d.  
(36) Sideways, ½d.

Wmk. Crown A, perf. 12, 12½.

(37) Upright, ½d., 1d., 2d., 2½d., 3d., 4d., 5d., 6d., 9d., 1/-. 5/-.  
(38) Sideways, ½d., 1d., £1, £2.

NOTE.—There are two types of the 5d. (see *E.W.S.N.* No. 571).

Wmk. Crown A, perf. 11.

(39) Upright, ½d., 1d., 2d., 2½d., 3d., 4d., 5d., 6d., 1/-. 5/-.  
(40) Sideways, ½d., 1d., £1, £2.

Wmk. Crown A, perf. 11 with 12, 12½.

(41) Upright, 1d., 2d.  
(42) Sideways, ½d.

In studying the above issue, if one wished to accomplish work of real philatelic value, it would be necessary to distinguish between the gauges 12, 12½ (large holes), 12x12½ and the new 12½ small holes.

It is a question (which we believe has not yet been discussed) whether "OS" stamps should be collected according to watermark, perforation, etc., or according to the variations of the "OS." To recognize both means too many varieties for anyone but a specialist. On the system adopted by Yvert & Tellier in their 1912 catalogue we get for instance:—

Punctured "OS."

Wmk. V Crown.

(101) Perf. 12½, ½d., 1d., 1½d., 2d., 2½d., 3d., 4d., 5d., 6d., 9d., 1/-. 2/-. 5/-. £1, £2.  
(102) Perf. 11, £1.

Wmk. Crown A.

(103) Perf. 12½, ½d., 1d., 2d., 2½d., 3d., 4d., 5d., 6d., 9d., 1/-. 5/-. £1, £2.  
(104) Perf. 11, ½d., 1d., 2d., 3d., 6d., 5/-. £2. (The 2d. and 6d. are those just chronicled and are not listed by Yvert).

If these stamps were printed specially to be punctured "OS", this would be the scientific way to list them, but the sheets punctured "OS" are merely taken at random from the ordinary stock and thus have no history of their own as regards details of manufacture. It appears to us that the centre of importance is the "OS" puncture and that the stamps might more scientifically be listed thus:—

Punctured "OS" (12 holes each letter).

Various watermarks and perforations.

(201) OS upright, 1d., 2d., 2½d., 3d., 4d., 5d., 6d., 9d., 1/-. 2/-. 5/-.  
(202) OS sideways, ½d., 1½d., 5/-. (£1, £2?).

In the case of at least one Australian State there are different types of the "OS".

**LATEST ARRIVALS.**

**MALTA.**

2d. all grey.

Edwardian 2d. grey, mint 2½d.; block 10d.; dozen 2/4; pane 11/8.

**GREAT BRITAIN.**

Just as we go to press we receive a large supply of the 1½d. Harrison print in the second shade, perf. 14. We expect no more of this and offer as long as stock lasts at 2d.; block 8d.; dozen 1/9. This stamp is now reported perf. 15×14 and if obtainable in London we shall have a supply on Saturday. The 2½d. perf. 15×14 is already to hand, our sheets having broken marginal lines round the panes.

If we read the Cryptio breaks in the marginal lines correctly, the two 1½d. printings perf. 14 were respectively made in May and August 1911. The second shade (offered above) is apparently an attempt (and a good one) to imitate the colours of the De La Rue print.

Surcharged on B.N.G. 2/6

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

# "New Issues on Approval."

EWEN'S DEPOSIT SYSTEM.

---

Collectors everywhere are greatly pleased with our system of "New Issues on Approval."

A deposit account may be opened with any sum, small or large, and every Friday a packet of the latest New Issues in mint unused condition will be sent until the deposit is exhausted, when it may be renewed or not as wished. If any of the stamps sent are not wanted, they may be returned within ten days.

## SOME SUGGESTIONS.

State clearly when sending your deposit whether you collect British Colonies only or all the world or certain countries; also whether you collect perforations, water-marks, surcharges, shades, postage dues, officials, &c.

Note that postage is extra and choose whether stamps are to be sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1.

Stamps are sent out at a small percentage over face value (to cover expense of importation, etc.) but if preferred they can be sent at face value or cost price only, and we then charge an annual membership fee of £1 1/-, £2 2/-, £3 3/-, £4 4/- or £5 5/-, according as the limit of face value chosen is 1/-, 2/6, 5/-, 10/- or £1.

Only one copy of each new issue is sent on approval, but if collectors, dealers and clubs requiring a more liberal service will write us, we shall be happy to send particulars of our service for pairs, blocks and sheets.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—*Edwardian Issue* (630 G 631).—*Correction.*—The new supply of 1½d. stamps received last week at the local post offices were perf. 14 and not 15×14. Our correspondent of last week has since admitted that he made a mistake, so that our chronicle of this value perf. 15×14 must be cancelled.

A correspondent writes:—"I learn on good authority that British stamps will appear shortly on paper watermarked with "multiple crown GR", i.e. similar to the colonial paper but with GR instead of CA. I know that some of this paper is already in existence."

Messrs. Harrison & Sons record to date is as follows:—

### Harrison Prints.

5th May 1911	Edwardian ½d., 1d.	Perf. 14.
22nd June 1911	Georgian ½d., 1d.	Perf. 15×14.
10th July 1911	Edwardian 2½d.*	Perf. 14.
13th "	" 1½d.	"
16th "	" 4d.	"
19th "	" 1/-	"
24th "	" 9d.	"
8th Aug. 1911	" 2d.	"
16th "	" 5d.	"
14th Sep. 1911	" 3d.	"
27th "	" 2/6	"
28th "	" 3d.	Perf. 15×14.
29th "	" 1½d.†	Perf. 14.
29th "	" 2½d.‡	"
6th Oct. 1911	" 1d.	Perf. 15×14.
6th "	" 3d.	"
9th "	" 9d.†	Perf. 14.
9th "	" 10d.	"
9th "	" 1/-	"
14th "	" 2½d.	Perf. 15×14.

\*broken marginal line.

†the 2½d. has continuous marginal lines: the 1½d. is in duller purple and green, more like the old De La Rue stamp.

‡the 9d. are a much darker purple and the 1/- have not so dark a green centre, the first printing having been almost black.

The cuts on the lower marginal line appear to indicate that the two 1½d. perf. 14 were respectively printed or ordered in May and August 1911. Both shades of the 1/- perf. 14 have cuts under the 6th and 11th stamps ("June 1911"?); the 2d. and 5d. have cuts under the 7th and 11th stamps and it is rather significant that they should agree, as they were the only two new varieties issued during August, the 8th month of 1911. The 9d., 10d. and 2/6 have cuts under the last stamp but one in the bottom row. The single colour stamps appear to have no cuts that could be interpreted as dates.

Quite a number of correspondents in referring to the new perforation call it "14×15". This should be "15×14", quite a different thing. The horizontal perforation should be named first.

The horizontal perforation has been made smaller in order to facilitate the division of sheets of stamps into horizontal rows of shilling's worths. For some unexplained reason the old stamps used to tear more readily into vertical rows of 10 stamps, whereas most people buy their stamps a shilling at the time rather than in tenpenny worths.

Mr. A. S. Clarke writes (19.10.11.):—"With reference to the statement that the Great Britain compound perf. stamps are 15×14 I have carefully measured some purchased locally and find both Georgian and Edwardian to be 14½×14; control numbers A 11."

Our own gauges give the result as 15×14 exactly, but a more exact result may be obtained by taking a horizontal strip of ten stamps and measuring it off against a millimetre scale. We counted 148 holes in the space of 20 cm. or a gauge of 14.8. Two different rules, both of wood, gave the same result, but an ivory scale gave 148½ holes as the result. Taking a vertical strip we counted 142 holes in the space of 20 cm. so that the gauge would appear to be 14.8 by 14.2, or taking the nearest conventional numbers, 15×14. The other Harrison perf. is 13.8 by 14.2 and some people call it 14×14½ though 14×14 is correct.

Mr. M. Heslop writes (18.10.11.):—"I have the ½d. green, King Edward, stamps (Harrison prints?), perf. 13½×14. I am using one on this card. I have also the 2d. King Edward, Harrison print, perf. 14, in a very distinct new shade of dark green and pale vermilion. The old shade is pale green and carmine. Above is a bit of the edging which will give an idea of the new shade." The ½d. appears to us to be perf. 14. The 2d. are similar to those on sale locally; unfortunately we no longer have any of the earlier supplies to compare with.

The control letters (629 S 631) might be summarized thus on a simplified basis:—

"A 11", 2mm. between figures "11."	
5th May, 1911	Edwardian ½d. Perf. 14.
5th "	" Id.
22nd June, 1911	Georgian ½d. Perf. 15×14.
22nd "	" Id.
"A 11", 1½ mm. between figures "11."	
1st Oct. 1911	Georgian Id. Perf. 15×14.
6th "	Edwardian Id. "

It is possible the Edwardian Id. may also exist perf. 14 with narrow "A 11" but we have not been able to find it.

Mrs. Chamberlin writes (18.10.11.):—"I bought yesterday a sheet of Id. Edward, Harrison print, pale shade, perf. 14½×14, control A short right foot with small dot beneath, "11" five mm. high. 1½ mm. apart. I do not see this variety in your list so suppose it is new."

The varieties of the control letter are so numerous that we fear we shall have to give up recording them. We should imagine that if each letter stands for 5,000,000 sheets, the completion of each 100,000 sheets must be signaled by a fresh chip in the A 11.

**Stationery** (619 V 631).—It is three months since Post Office envelopes were reported to us with a new die. In E.W.S.N. we gave a list of varieties then known:—

### POST OFFICE ENVELOPES.

#### Edwardian Stamps with Numbered Dies.

23.3.11	1d. Envelope, die 80	Court.
7.4.11	½d. " die 70	?
29.4.11	1d. " die 85	Court.
20.5.11	½d. " die 75	Size N.
6.6.11	1d. " die 83	Commercial.
26.6.11	1d. " die 84	Court.
10.7.11	½d. " die 50	Size N.
20.7.11	½d. " die 76	Size O.

Since then we believe several old dies have been used but have not seen any with quite clear numbers. The other issues of stationery printed by Messrs. McCorquodale & Co. instead of by Messrs. De La Rue & Co. may be summarized as follows:—

#### Thin Postcards.

22nd June 1911 Georgian ½d.

#### Letter Cards.

22nd June 1911 Georgian 1d. (white card).  
4th July 1911 Edwardian 1d. ( " )

#### Registration Envelopes.

26th June 1911 Georgian 3d. (sizes F & G).

The other sizes of the registration envelopes are still stamped with Edwardian die 18. The Georgian dies are unnumbered, the initial "W" standing for Wolverton, where Messrs. McCorquodale & Co.'s works are situated.

**BRITISH P.O., LEVANT** (626 X 631).—Ewen's New Issue Service is making a complete distribution this week of the 30 paras on 1½d. Harrison print and those collectors who collect shades will receive it in two shades. The dark shade has the overprint across the foot of the old value and the pale shade has it across the middle or top. It is possible this rule does not apply to the whole issue.

Edwardian Issue, Harrison print, ordinary paper, wmk. Single Crown, perf. 14.  
1½d. lilac and green, 1st Harrison shade with marginal cuts "V II" (May 1911?).

Issued 5.10.11 or earlier. We have not yet mentioned that the 2½d. Harrison print overprinted 1 piastre is the first printing with broken marginal lines.

Recent philatelic history may be summarized thus:—

#### De La Rue print, chalky paper.

16th Nov. 1909	30 paras on 1½d.
16th "	1 piastre 10 paras on 3d.
16th "	1 piastre 30 paras on 4d. brn & grn.
16th "	2 piastres 20 paras on 6d.
16th "	5 piastres on 1/-.

NOTE.—Yvert quotes the three middle values 10/- each whilst the 1912 Senf distinguishes their rarity by quotations of 9, 11 and 15 Marks unused and 10, 12½ and 17½ Marks used.

#### De La Rue print, ordinary paper.

23rd Dec. 1909 1 piastre 30 paras on 4d. orange.

NOTE.—The catalogues agree in pricing this about 10% higher than its predecessor.

#### De La Rue print, chalky paper.

15th Dec. 1909 "Levant" on 2d.  
28th Dec. 1909 All values overprinted "Levant" except ½d., 1d., 2d., unexpectedly withdrawn from use.

NOTE.—Yvert quotes the 1½d., 2½d., 3d., 4d., 5d., 6d. and 1/- respectively at 1/9, 2/8, 2/6, 3/-, 2/9, 3/3 and 4/- unused and a few pence more used. Senf 1912 quotes 2/6, 3/-, 3/-, 4/-, 4/-, 4/-, respectively and about 6d. each in addition for used specimens.

#### De La Rue print, chalky (except 4d).

24th January 1910	1½ piastre on 3d.
24th "	1½ piastre on 4d.
24th "	2½ piastre on 6d.

#### Registration Envelope, new die.

3rd March 1910 1 piastre on 3d., die 16.  
29th July 1911 " on 3d., die 18.

#### New Control Letters.

5th November 1910 1d. Letter I 9.  
10th January 1911 ½d. Letter J 10.  
1st June 1911 Id. Letter J 10.

#### De La Rue prints, new shades, chalky.

26th June 1911 Levant on 2d. dark shade (the new printing made to replace the 2d. magenta).  
26th June 1911 12 pi. on 2/6 dark shade.

#### Harrison print, ordinary paper.

29th July 1911 1 pi. on 2½d. broken lines.  
12th Sept. 1911 Levant on ½d. Georgian.  
5th Oct. 1911 30 paras on 1½d. perf. 14.

The total face value of all the stamps referred to in this article only amounts to 9s. 5d. All except the control letters and the stationery were distributed by Ewen's New Issue Service, and the rarest varieties were actually sent to many subscribers in pairs and strips to show the several types.

**CHILE** (624 T 631).—The *Berliner Briefmarken Zeitung* (14.10.11/424) records the issue of the following values of the Presidential set. We set them out in detail, as the list does not agree with those previously published, notably in the addition of a 25c. value, which takes the value previously assigned to the 25c. value.

#### Portraits of Presidents (and others).

1c. dark green	Columbus.
2c. carmine	Valdivia.
3c. dark brown	Toro Z.
5c. dark blue	O'Higgins.
10c. grey and black	Freire.
12c. carmine "	F. A. Pinto.
15c. dark violet "	Prieto.
20c. vermilion "	Ruines.
25c. blue "	Montt.
30c. brown "	Perez.
50c. grey "	Errazuriz Z.

#### Larger design.

1 peso, dark green and black A. Pinto.  
2 " red " Santa Maria.

**FRENCH REUNION** (391 K 631).—The *Illustriertes Briefmarken-Journal* (21.10.11/480) chronicles the following:—

#### Postcard.

10c. carmine, centre dark green; on light green card; 139×88mm.

### THE WEEK'S NEWS.

(Continued from page 2621.)

**ITALIAN P.O., TRIPOLI (546 C 631).**—Some of the daily newspapers have come a cropper over the Italian Tripolitan issue of postage stamps. For instance the *Berliner Börsen Courier* (17.10.11) should surely have been better informed than to say:—

The first Italian stamps from Tripoli arrived in Rome on the 12th inst. Letters and Postcards from the troops and war correspondents show stamps which are like the Italian in every respect and bear only the black overprint "Tripoli di Barberia." The postmark also, with which the stamps are cancelled, is like the Italian. The first correspondence franked with these interesting stamps is dated from 7th October, the day of the formal occupation of Tripoli. All this proves that the Italian Government had prepared for the occupation even to the smallest details, so that immediately after landing the naval detachment the postal service could be begun."

At least one English illustrated morning paper would have been saved from falling into a similar error had it had a stamp collector on its staff.

There has long been an Italian Post Office at Tripoli, just as there are at the chief Albanian ports and other Turkish towns. The stamps overprinted "Tripoli di Barberia" were authorised by royal decree dated 13th August, 1909 (see *E.I.V.S.N.* 546) and were issued at Rome on 31st December, 1909 (*E.W.S.N.* 537). Their issue in Tripoli took place about the same time.

"Barberia" is the whole country on the North Coast of Africa from Egypt to the Atlantic and is so called from its chief inhabitants, the Berbers. On the Atlantic Coast and south of Spain is Morocco and travelling eastward we find successively on the map Algeria (opposite France), Tunis (opposite Sardinia and Corsica), Tripoli (opposite Italy), Bengasi or Benghazi (opposite Greece) and Egypt. Tripoli and Bengasi are two of several districts also known generally as "Tripoli", but the stamps surcharged "Tripoli" would appear to be for use in the town of Tripoli only. See Bengasi.

**ITALIAN P.O., BENGASI (A 631).**—Ten years ago the Italian Post Office at Bengasi was supplied with the then current 25c. stamp overprinted "Bengasi", since when nothing has been

heard philatelicly of this colony. The present war has caused such a run on the stamps that presumably the first issue for Bengasi has given out, for we have just received the following:—

BENGASI

1 PIASTRA 1

Overprinted approximately as above (and similar to the 1901 overprint).  
"1 Piastra 1" on 25c. blue of Italy, current issue.

Issued at Rome, 19.10.11 or earlier, in sheets of 100, 10 rows of 10, marginal plate No. 5996. The Bengasi issue it will be noticed is overprinted with value in Turkish currency, whereas the "Tripoli" stamps have always preserved their Italian face values.

**JAMAICA (630 E 631).**—We are indebted to Lieut. Wright for first sight of the new 4d. red on yellow.

Change of colour.

4d. red on yellow, wmk. multiple Crown CA, perf. 14, ordinary paper.

Issued 3.10.11. Since about 15.9.11, when the 4d. black on yellow ran out of stock at the G.P.O., there had been no 4d. stamp on sale. What a chance for a surcharged stamp missed! All the old stock of other values might have been worked off.

Recent Jamaican philatelic history has been rather exciting.

19th Nov., 1909 or earlier	6d. violet, mult or ord.
11th Mar., 1910	3d. purple on yellow.
28th July, 1910	6d. Queen, chalky.
10th Sept., 1910	3d. " "
22nd Nov., 1910	2½d. blue, Arms.
22nd " "	4d. black on yellow.
22nd " "	1s. " green.
22nd " "	2s. purple on blue.
16th Feb., 1911	2d. grey Edwardian.
18th Aug., 1911	6d. purple, Arms.
3rd Oct., 1911	4d. red on yellow, Queen.

Time will certainly discover some of the above to be rare and the Jamaican issues prior to 1910 have already yielded thousands per cent. to those who invested in them at face value rates. The chief favourites of fortune are:—

4d. brown, multiple wmk., ordinary paper.

Yvert 1912 quotes it 7f50 unused, 6f used or 18 times face value (1700% premium!). Senf 1912 puts it at 3 marks which argues timidity in supporting the upward trend of the market, whilst Kohl 1912 prices the stamps at 60 pfennig or 7½d., which is doubtless a mistake, if not ignorance. Gibbons 1911 gave no price at all.

2/- brown, multiple wmk., ordinary paper.

Lucky people who possess it! Again the cautious Gibbons of 1911 omits to fix a price, but the 1912 Senf says 12 mark used or unused, the 1912 Kohl 16/6 unused, 8/6 used and the 1912 Yvert 16/- unused, 12/- used. Unused specimens thus stand at an average premium of 600%.

The two fivepennies single and multiple, seem to be fairly well established at 1/6 and 3/6 respectively, the 1/- brown multiple wavers between 3/6 and 4/-, the 1d. rose and black. mult. wmk. finds supporters at 1/3, 1/6, 1/8 unused (though considerably less used) and Yvert, taking time by the forelock, has already advanced the 4d. black on yellow to 1/3 and we should not be surprised to see it at 5/- another year. A glance at the catalogue will show that Jamaican issues right from the days of the pineapple watermark have formed a splendid investment and although the first issue was made 51 years ago, the 3d., 4d., 1/- and 2/- stamps (and until last month the 6d. also) are still being printed from the original plates. The margins of the sheets are still adorned with the old-fashioned inscriptions "Price 4d. per Label: 2s. per Row of 6: £1 per Sheet," etc.

A secret! Some of the sets of Jamaican stamps listed in our catalogue on another page contain a few of the older stamps, but no 4d. brown unfortunately!

The official notice is published by the *Jamaica Gleaner* (7.10.11) as follows:—

"NOTICE.

Stamp Office, Kingston, 19th September, 1911.  
It is hereby notified that the Colour of the Four Penny Postage Stamp which was gazetted on the 29th September, 1910, has been changed. The stamps are now printed in red on yellow paper.

These stamps will be put into circulation on the 3rd October, 1911.

GEO. S. THOMSON,  
Deputy Stamp Commissioner."

The *Gleaner* is not over pleased with the new stamp, but then we have noticed that its philatelic Editor never does seem to be pleased with any new Jamaican stamp.

"A regular fanfare of trumpets, blown eleven days in advance, heralded the coming of our latest 4d. We give the Royal stamp a royal welcome and only regret that it is printed in red on yellow instead of Imperial purple. And yet, although the Stamp Commissioner says the colour is red on yellow, there are positively some rude people who have the face to say otherwise, for instance, a naughty little American philatelic paper has the impudence to call it "Cherry." I will not venture to colour-name it myself but it reminds me strongly of a house on fire. As I took up a specimen to examine it "the lurid glare" hurt my eyes and I had to put it aside for the time being. As everybody does not know the chief points in the life of our good Queen Victoria, whose profile is on this stamp, it may be as well to tell the story over again. Victoria, Lady Supreme of Jamaica, born 1819, succeeded to the British Throne 1837, died 1901, and according to our last 4d. stamp still reigns over Jamaica, Oct. 3, 1911."

**NEWFOUNDLAND** (618 M 631).—Our latest importations bring the 8c. in rather a different shade of turquoise, the back of the stamp now being white instead of coloured through, as in the first issue.

New shade, perf. 14, as before.  
8c. turquoise, paper white at back.

Issued 5.10.11 or earlier.

**NEW ZEALAND** (628 B 631).—We have been favoured with the Annual Report of the New Zealand Post and Telegraph Department for 1910. The total revenue was £1,037,265, a figure which effectually disproves any suggestion that the colony is in need of philatelic contributions, which it is exceedingly improbable are represented in the above total to the extent of more than a penny for each pound. This is the first year that the New Zealand post has carried over 100 million letters in the year (besides 60 million other articles) and in which its revenue has exceeded £1,000,000 sterling. Thirty years ago the revenue was a quarter of a million and ten years ago half a million.

The number of post-offices open at the end of 1910 was 2,257.

£3,000 per annum or thereabouts has been saved by a combination telegram form and envelope, in addition to which there was estimated to be a saving of two minutes in the time taken between the receipt in the instrument room and despatch from the office.

The correspondence of 109 persons or firms has been prohibited transmission; neither may money-orders be issued in favour of such persons or firms. This is a drastic method of dealing with certain evils, which is also much favoured in the United States.

**PAPUA** (629 K 631).—We are shown by Mr. C. Davies the 2d. unicoloured with wmk. sideways normal (hitherto only known inverted).

Unicoloured series.

2d. violet, wmk. Adelaide Crown S A sideways (A to left of Crown, our "issue 27").

It was no doubt issued at the same time as the 2d. violet, issue 28.

The issues overprinted "Stamp Duty" are generally looked upon as purely fiscal stamps and we believe their postal use has never been officially authorized. At the same time it seems to be quite a common practice to use them for postage and as this has been going on for quite two years it looks very much as if the issue will have to be recognized as "fiscal-postals". Of the six varieties known, we have had five genuinely postally used and Mr. A. Ashby informs us that he has had four, including the one not seen by us.

Overprinted "Stamp Duty" and known postally used.  
Crown A upright, perf 11.

½d. green and black	Issue ?.
1d. rose	" 2.
6d. myrtle	" 1.

Crown A sideways, perf. 12½.

½d. green and black	Issue 7.
1d. rose-red	" 7.

Crown A upright, perf. 12½, (small holes).  
Redrawn type.

1d. pink and black Issues 13, 14.

In addition to the above the 2/6 has just been overprinted, but we have not seen it postally used. The sheets were surcharged 3 rows of 5 (half a sheet) at each impression.

£1 Reward. This reward will be paid to the first person who will show us during this year of 1911 a genuine specimen, used or unused, official or ordinary, of the 6d. "small Papua," upright watermark, perf. 12½, our issue 3 or 4. But we feel fairly certain that such a stamp does not exist. In considering the question it is necessary to bear clearly in mind the following dates:—

November 1907.	Permanent issue commences.
October 1908.	Stamps first punctured OS.
December 1909.	First issue sideways wmk.

The 2d., 2½d., 4d. and 1/- of the first issue were partly perforated 12½ though this gauge from the first was rare. There was considerable enquiry for the ½d., 1d. and 6d, perf. 12½ and the explanation we have to suggest is that some official must have picked out sheets of these when the sideways supply arrived from the printers and distributed them months in advance of the regular issue. There is considerable evidence in support of this theory and as at the time this took place no one in Europe knew the watermark was to be changed, no one probably paid any attention to it.

In July, 1908 (*E.W.S.N.* No. 460) we chronicled the 6d. perf. 12½ on the authority of a Mr. C. We did not see it and Mr. C. acknowledges now that a mistake was made; the specimen was perf. 11.

In January, 1909 (*E.W.S.N.*, No. 488) we chronicled a 2d. stamp punctured OS for official use, the first value to be met with. We also chronicled the 2/6 stamp though it was not issued till a year later!

In its issue of 10th March, 1909, the *Australian Philatelist* gives the following list of varieties known with the "OS":—

Current Issue.

Perf. 11.	1d., 2d., 6d., 1/-.
Perf. 12½.	1d., 2d., 2½d., 4d., 6d.

The sideways watermarks were not issued until nearly a year later, so what were these 1d. and 6d.?

On the 10th April 1909 (*E.W.S.N.*, No. 498), a week before the *Australian Philatelist* could have reached us, we stated definitely that we had seen the 1d., 2½d., 4d. and 6d. with OS and we listed them as perf. 12½, making no mention of the watermark. (The collector who submitted them has since sold his collection and cannot trace them). The sideways watermarks were not issued until nearly a year later, so what were these 1d. and 6d.?

In October, 1909 (*E.W.S.N.*, No. 530) we report that "the 1d. and 6d. stamps of the current "set are obsolete, and probably all the small "supply perf. 12½. We have purchased hundreds "of pounds' worth of stamps on the chance of "getting the 2d., 2½d., 6d. and 1/- perf. 12½, but "without luck."

On 15th December, 1909, the long expected 2/6 was issued. It had been held back to allow the stock of surcharged 2/6 on B.N.G. to be exhausted. It had sideways watermark and its arrival in February, 1910, led to the discovery of the sideways watermark.

Under date of 25th November, 1909, the 1d. was first sent us with the sideways watermark (*E.W.S.N.*, No. 543) and a correspondent wrote us saying that he had the 1d. and 6d. postmarked 26th November, 1909, both perf. 12½. Simultaneously *Mekeel's Weekly* (12.2.10/58) chronicled the 1d. and *Le Timbre-poste* (10.2.10/171) the ½d. and 6d.

It seems likely that the 2/6 was printed with sideways watermark a year or more before its issue in December 1909 as we mentioned it in January of that year; if so why not the other values also? The 1d. and 6d. stock became exhausted about August 1909 and were not re-issued till November 1909 but the new supply may have been printed in 1908 nevertheless. If not what were the 1d. and 6d. perf. 12½ chronicled so confidently by both our Australian contemporary and ourself in March and April 1909?

We think there can be no doubt that there were no ½d. 1d. or 6d. perf. 12½ in the first issue and that the persistent inquiries of collectors for them must have led to the issue of one or two advance sheets six months or a year before the regular issue took place and that the 6d. at least were mistaken for the 6d. first issue.

The ½d. and 1d. sideways, perf. 12½ afterwards became quite common but the 6d. has become a rarity of the first order.

**PORTUGAL** (630 F 631).—The *Daily Telegraph* (17.10.11) illustrates a stamp issued by Captain Couceiro and actually used for franking letters during the few days that the town of Braganza remained in the hands of his invading band. The postage label bears a representation of a famous incident in Portuguese history surmounted by the motto "For God, Fatherland and King" and flanked by the Portuguese Royal

Arms, and, most interesting to note, not the likeness of King Manuel but portraits of "Dom Miguel II." (the Pretender) and of his father (Dom Miguel I.)

The *Berliner Briefmarken Zeitung* (14.10.11/424) reports the following charity stamp issued to commemorate the first anniversary of the establishment of the Republic.

Charity Stamp.

"ASSISTENCIA" horizontally in red on 10 reis olive green already overprinted "Republica" diagonally in red.

The 75 reis Vasco da Gama had a very short life, the edition of 20,000 overprinted "Republica" having all been bought up in ten days. The gap in the set was filled up by the following new provisional:—

Vasco da Gama Issue of Madeira overprinted "Republica" for use in Portugal.  
75 reis, chocolate.

Issued 18.10.11 or earlier; 120,000 printed.

**SALVADOR** (624 O 631).—Messrs. Lewis, May & Co. send us the 13c. "National Palace" in a new colour, without overprint. It will be recalled that in *E.W.S.N.* No. 624 we gave an Extract from the *Diario de Salvador* stating that a reprint of the 1, 2, 13, 24 and 50 centavos of the old type would be made and would be used in conjunction with the 5, 6, and 12c. Commemorative stamps till the end of the year.

Mr. A. C. Roessler has now sent us the set of five values.

New colours, no overprint. Wmk. multiple circles, perf. 11½.	
1 centavo, bright vermilion.	
2 .. purple-brown.	
13 .. green.	
24 .. citron yellow.	
50 .. brown.	

Issued 23.9.11 or earlier.

**SERVIA** (629 V 631).—Some new stationery is listed by the *Berliner Briefmarken Zeitung* (14.10.11/424).

Postcard, 5 para, green.  
Lettercard, 10 para, carmine.

**ADVANCE IN QUOTATIONS.**

In consequence of the definite official statement that there are no more surcharged stamps for issue, and the probability of a run on the few remaining sets in the hands of dealers and collectors, we hereby cancel our current quotations, which will be 21/- per set (2d. to 1-) for orders received on Monday or Tuesday, and 25 - thereafter.

NOTE.—Owing to this information only reaching us at the last moment before going to press, our other advertisements of these stamps will still quote the old prices which must now be considered cancelled. Orders by telegram received on Saturday, October 28th, will still be executed at 20/-; blocks, 80/-.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current Issue (631 H 632).—Monday, 30.10.11.—The only new variety since our last issue is the 2½d. perf. 15×14 with continuous line round each pane, which we obtained on 26.10.11. It seems extremely probable that both kinds of plates are in concurrent use, the one with broken lines and the other with continuous line, and if so the distinction does not mark separate printings.

Last week we remarked that "the single colour stamps appear to have no cuts that could be interpreted as dates." The very day that E.W.S.N. appeared, however, we received sheets of the Edwardian 1d. perf. 15×14 with the "11" cut (for 1911), not under the 11th stamp (as in the bicoloured stamps), but under the 8th stamp. Is this a new method of denoting August 1911?

Later.—Mr. C. Davies is first to report the ½d. Edwardian, perf. 15×14.

Perf. 15×14.

½d. light green, control A11 (Thick "A", Wide "11").

Issued 29.10.11 or earlier.

Mr. G. R. Hewett, under date of 27.10.11, reports the 1d. Edwardian, perf. 14, with "A 11 close" control. It was previously noted perf. 15×14 only.

The following is a revised record of Messrs. Harrison & Sons' work.

### Harrison Prints.

Date	Stamp	Perf.
5th May 1911	Edwardian ½d., 1d.	Perf. 14.
22nd June 1911	Georgian ½d., 1d.	Perf. 15×14.

28th "	" 2½d. (b)	"
29th "	" ½d.	"

(a) The 1½d. is in brighter shades than the De La Rue print; the 9d. is light purple and the 1/- has a very dark green centre; the 2½d. have broken marginal lines.

(b) The 1½d. is in duller purple and green, more like the old De La Rue stamp; the 9d. are a much darker purple and the 1/- have not so dark a green centre; the 2½d. have continuous marginal line.

The 1/- in the first shade seems likely to become a scarce stamp, as much as 2/6 having already been paid for specimens.

In the stamp booklets the Georgian ½d. and 1d. may be found with at least two varieties of marginal ornamentation. Some of the blocks—or pages—have the ordinary broken lines guarding the edge of the left-hand stamps, but in some cases each vertical bar is supplemented by four horizontal lines.

To remove the pages from the booklets without trouble or damage, tear off the back cover of the booklet in such a way that it opens the wire

clips as much as possible; then proceed the same with the front cover. We have found this a very speedy method, and scissors, pins or other weapons are superfluous.

The 3d. perf. 14 seems very scarce. Most of those we had came from Leeds, but a week ago one of our readers went to 12 post offices there without finding a single specimen. Mr. Shann writes (22.10.11) that he has been to Bury St. Edmunds, Newmarket and Thetford without finding any, and judging by the extraordinary response to the recent offer of specimens at 9d. each, other collectors all over England have had the same experience.

A correspondent suggests that the 3d. perf. 14 might be a remainder of old De La Rue stock, but the shade of the impression and style of printing easily disproves this. As we know from the regular issue of the control letters in the ½d. and 1d. values, the Post Office authorities do not keep an idle reserve stock, but issue stock in the same order in which it was printed. A reference to our 7d. catalogue, page 1, will show that the De La Rue stamps on ordinary paper ceased to be issued in 1905, so that there is little likelihood of any having survived at even small post offices. Of course, a great many of the Harrison stamps are being printed from the same plates which Messrs. De La Rue and Co. used and which still bear the chips and cuts of the latter firm.

At the same time we may advise our readers to be careful in buying the Harrison print, perf. 14. The page of this variety in the stock book of a London dealer turned out to be De La Rue's, and only this week a very well-known dealer and specialist in English stamps sent a reader De La Rue's for Harrison's! All sold by Ewen's Ltd., have been carefully examined by the Editor and guaranteed by him.

Dr. Drinkwater reports the 2½d. Harrison prints perf. 14×14½ and states that they also have them at the Wrexham post office 14×14 and 15×14. We have examined some more sheets by the process described last week, namely, of measuring off 20 centimetres and then counting off the number of holes in that length (being careful not to count half a hole at the end as a whole). The result gives the gauges 13·8 by 14·2 and 14·8 by 14·2, exactly the same result as before. It will be seen that the addition of only one-tenth to the gauge would make the side perforations 14½, or ½ smaller than the horizontal gauge. We are satisfied that there are only two gauges, which are simplest described as 14 and 15×14 respectively.

Control "A 17".—A good few of the ½d. Edwardian stamps received recently have a smudge at the top between the figures "11" of the "A 11" but Mr. H. A. Terry sends us (23.10.11) a specimen in which the smudge takes a neat wavy form, connecting the two figures at the top and making them look like "17."

Retouched Plate?—Mr. A. H. Thompson sends us an interesting specimen of the 1/- Harrison, first shade, dark green centre.

Ordinarily there are lines of shading just over AG of Postage and in the corresponding scrolls of the other three corners. But the specimen under notice has none at the left side, the scrolls over AG of Postage and below E of "One" being a solid blot of colour and only about two lines are visible on the right-hand scrolls. The side ornaments are also solid instead of shaded. It is possibly only a case of liberality with the ink, but the stamp is otherwise neatly printed.

Stationery (631 W 632).—The ½d. Court size postcards are now to hand, in packets of 11 for 6d. The earliest date of use, 25.10.11, is reported by Mr. Oswald Marsh.

Postcard.

½d. Court size, Georgian stamp, printed by McCorquodale & Co., Ltd.

Issued 25.10.11 or earlier. The thin card, it may be recalled, was issued on Coronation day, and the reply cards have not yet been issued.

Railway Letter Stamps (628 D 632).—The Great Eastern Railway had four supplies of letter stamps lithographed by Messrs. Waterlow & Sons, Ltd., to which the years 1891 (the first year of issue of these stamps), 1892, 1893 and 1894 are usually assigned in the absence of official details. From 1895 onwards the letter stamps were lithographed at its own printing works and the design was entirely redrawn, the stop being omitted after "Railway" in the circular inscription. We reconstructed a sheet of the 1895 printing (the first of the new series) and successively obtained mint sheets of the 1897, 1900, 1902 and 1904 printings as they came out.

But then an unfortunate thing happened. The Company appointed a new accountant, who promptly "warned off" stamp collectors and since then it has been difficult to get either stamps or information. So far as we can judge from stray single copies which have reached us on letters, there were printings in 1907, 1909 and 1911. The Company is so unreasoning in its attitude to collectors that when we some little while ago sent 30 unused stamps which had been supplied to us in its courteous days, with a request for their exchange into a sheet of the later issue, we were not only refused but it took us nearly a year to get our own specimens back! If any of our readers have G.E.R. letter stamps of later date than 1904 we should be glad if we might see them, especially blocks. Recent new printings of other Companies are:—

London & North Western Railway.	9th printing, numbered 250001 to 280000.
	The first 10000 were rouletted in black; the others rouletted without colour.
South Eastern & Chatham Railway (2nd Series).	13th printing, Nos. 10001 to 20000 (1909)
	14th " Nos. 20001 to 30000 (1910)
	15th " Nos. 30001 to 40000 (1910)
	16th " Nos. 40001 to 50000 (1911)
London, Brighton & South Coast Railway (2nd Series).	1909 Nos. 1 to 6000
	1910 Nos. 6001 to 12000
	1911 Nos. 12001 to 18000
Midland Railway (sheets of 30 now).	1908 Nos. 186001 to 198000
	1909 Nos. 198001 to 210000
	1910 Nos. 210001 to 222000

The total number of printings made since 1901 is now about 800, of which 500 or 600 are comparatively common in single copies. The face value of a complete set would be £7 only, but it could not be bought for that! A great many of the old printings are still on hand at stations (chiefly branch line stations). In fact, in one case, the North British, we believe that every one of its eleven printings are still on hand at one or other of the stations!

ARGENTINE REPUBLIC (618 O 632).—San Martin Issue.—In E.W.S.N. No. 493 (6.3.09) we recorded a variety of the 2c. entirely without the usual Sun watermark. Kohl's 1912 handbook mentions it in a footnote. Yvert's 1912 catalogue lists the ½ and 1c. without watermark (quoting them 10 and 12½ francs respectively unused), but strange to say omits our 2c. The Bulletin Mensuel (25.10.11/1) now records the 50c., quoting it 7 f 50.

Considering that the two perforations 13½ and 13½×12½ mark two distinct printings or issues, it is rather surprising to find the 1912 Gibbons listing the issue as "perf. 12½, 13½". The record should stand:—

(31) Watermark Sun, perf. 13½. (From Jan. 1908).

1, 2, 4, 5, 10, 12 (both), 15, 24, 30c., 1p.

(32) Same, perf. 13½×12½. (From June, 1909.)

½, 1, 2, 3, 5, 6, 10, 12 (blue), 20, 30, 50c.

(33) Variety, from edge of sheet? No wmk.

½, 1, 2, 50c.

**BAVARIA** (628 R 632).—A recent importation brought us the 10 pfennig with plate No. XLII. The collector of these marginal varieties evidently has his work cut out for him, as this represents about two new plates a week.

**BOLIVIA** (603 W 632).—The *Stamp Collectors' Fortnightly* (28.10.11/159) chronicles the following on the authority of Mr. James Malings.

Issue of 1901 overprinted.

"5 centavos—1911" in two lines, in black sans-serif type, reading upwards from the S.W. corner, on 2c. green of 1901.

**BRITISH P.O., LEVANT** (631 Y 632).—Two earlier dates than those given last week are reported by Mr. Oswald Marsh, namely:—

1 piastre, Harrison print, used at Constantinople 20.7.11.

30 paras on 1½d. Harrison print, used at Smyrna 30.9.11.

**DOMINICAN REPUBLIC** (629 P 632).—

*Correction.*—The 1c. all green recently chronicled should have been described as in a new design, which somewhat resembles the old, but the arms are redrawn and the motto "Dios, Patria, Libertad" changes place with "Republica Dominicana."

Old design.

The alteration does not appear to be an improvement. The *Bulletin Mensuel* (25.10.11/3) records additional values.

Design of 1911. Wmk. and perf. as usual.

- 2c. rose.
- 10c. lilac and black.
- 20c. olive
- 50c. brown
- 1p. violet

It is by design that the 5c. value has been omitted, as it is desired to use up a very large stock of this value remaining over from the previous issue.

**EGYPT** (610 Y 632).—The small 2 mill. envelope-letter is reported surcharged, by the *Deutsche Briefmarken Zeitung*.

Envelope-Letter.

1 mill. black on 2m. green on white, with stick-in flap, 109 x 72mm.

The overprint consists of two parallel lines between which is written at left "1 mill." and at right in Arabic characters "1 Miliem." As our printers cannot set these, they are omitted in the rough representation of the surcharge above.

**FRENCH P.O., CHINA** (600 W 632).—The following postage due stamps are chronicled by the *Bulletin Mensuel* (25.10.11/2).

French postage due stamps overprinted with "2 CENTS" (or as may be) and value in Chinese beneath, in similar style to the current postage stamps.

- 2c. on 5c. blue.
- 4c. on 10c. brown.
- 8c. on 20c. olive.
- 20c. on 50c. violet.

**GIBRALTAR** (608 P 632).—In some blocks of the current 1d. rose we notice a number of small defects, probably owing their existence originally to defects in the die used for making the plate.

- (1) A number of the stamps have a stop before the P of Postage.
- (2) Three stamps have a semi-colon before P of Postage (No. 38 of the N.W. pane).
- (3) Faint dot after P of Postage.
- (4) Dots before and after "One."
- (5) Dot after E of "Penny."

Nearly every stamp has a dot after the middle bar of the first E of "Revenue." Are these "secret marks"?

The Edwardian issue of Gibraltar stands as follows:—

Old Colours.

- (31) Wmk. Crown CA, ordinary paper. ½d., 1d., 2d., 2½d., 1/-, 2/-, 4/-, 8/-, £1.
- (32) Wmk. multiple Crown CA, ordinary paper. ½d., 1d., 2d., 6d., 1/-, 2/-.
- (33) Same, chalky. ½d., 1d., 2d., 2½d., 6d., 1/-, 2/-, 4/-, 20/-.

New Colours.

- (34) Wmk. multiple Crown CA, ordinary paper. ½d., 1d., 2d., 2½d.
- (35) Same, chalky. 1/-, 2/-, 4/-, 8/-.

All the 2½d. are known with a large figure "2" in the fraction of "2½".

Paul Kohl's *Briefmarken Handbuch* (a 1300 page volume) is the only one of the 1912 catalogues which gives separate prices for the "mult. ord." and "mult. chalky" issues but, beyond pricing the former about 25% extra, the quotations do not call for remark. With one exception! What is the 2½d. lilac on blue, multiple ordinary, quoted 2/6 unused, 2/9 used? We do not recollect ever seeing this, though it would be a rash assertion to say that it was never issued. We believe the 2½d. value is frequently printed, but as in the case of the 50c., 1 and 2 peseta surcharged Morocco Agencies, the Post Office may have mixed its stock and issued only the "chalkies" to stamp dealers.

The Kohl Handbook lists three varieties of the 2½d. multiple in all.

- Ordinary paper 2½d. lilac and olive on blue.
- Chalky paper 2½d. " " "
- " " 2½d. pale lilac and olive on white.

The third of these is unpriced, and like the variety mentioned above is unknown to us.

In *E.W.S.N.* 371 we stated that 'specimen' copies of the 2½d. all blue were reported by the *Nordisk Filatelisk Tidsskrift* (12.10.06/169).

In *E.W.S.N.* 389 we drew attention to a new printing of the 2½d. on blue paper with single watermark, in which the value was obviously printed from a new plate with thicker lettering. It was in this plate that the "Large 2 in the 2½ variety" originated; the plate is still in use. A specimen postmarked as far back as 1904 (it was then 1907) was referred to.

In *E.W.S.N.* 400 we chronicled the 2½d. multiple chalky as issued 4.5.07 or earlier.

In *E.W.S.N.* 409 we chronicled the 2½d. all blue as issued on 21.6.07 and referred to its short life, stating, on the authority of the *Philatelic Journal of Great Britain*, that only 200 sheets of the 2½d. multiple chalky had been issued, of which 75 sheets were at once bought up by local speculators.

We only had one importation of the multiple chalky and only found one variety. Were there others?

The 2½d. multiple is catalogued 3 francs by Yvert 1912 and 2 marks by Senf 1912.

**GILBERT & ELLICE ISLANDS** (630, 631 Z 632).—The latest catalogues quote the first issue as follows:—Kohl's 1912 Handbook, 120 Marks; Yvert 1912, 52½ francs, or without the ½d. and 1d., 42½ francs; Senf 1912, no price given.

The *Stamp Collectors' Fortnightly* (28.10.11/155) reports that on 11.9.11 the Postmaster wrote to Mr. H. W. Hawkins. We quote our contemporary:—

"For your further guidance," writes the good postmaster, 'I might mention that I retain, by sanction of His Excellency the High Commissioner for the Western Pacific, ten per cent. of the amount of each remittance, as commission, on all orders for stamps which I fulfil.

"In proof whereof Postmaster Dickson sends along a copy of his authorisation in the shape of an extract from the High Commissioner's despatch of December 7th, 1910. Therein the postmaster is informed that "from all remittances that may reach you in future accompanied by requisitions for stamps from persons who are obviously dealers or collectors, a sum to cover expenses of issue, book-keeping, custody of cash, etc., amounting to ten per centum of the amount of each remittance."

"So there! "Custody of cash" is, I think, a beautiful thought on the part of His Excellency the High Commissioner. The authorisation concludes with the words: "These deductions will of course be credited as Miscellaneous Revenue."

"I wonder how the "Miscellaneous Revenue" will bulk in the next annual accounts of the Gilbert and Ellice Islands. It is an item that will have a certain melancholy interest for "persons who are obviously dealers or collectors."

**HONDURAS** (526 Z 632).—This country cannot wait for the centenary of its independence, but, states the *Bulletin Mensuel* (25.10.11/3), has surcharged one of the current stamps to commemorate the 90th anniversary!

XC Aniversario de la Independencia

Issue of 1911 overprinted approximately as above in red.

2c. green. (variety), inverted surcharge.

**LIECHTENSTEIN** (600 B 632).—The negotiations between the authorities of this Principality and the Austrian Government have, states the *Deutsche Briefmarken Zeitung* (26.10.11/180), led to the objections to the introduction of separate stamps being modified. The first stamps will probably be limited to the values 5, 10 and 25 heller and postcards of 5 heller and as far as can be judged will be issued on 1.1.12. The stamps are being printed by the State Printing Office in Vienna and will bear the portrait of the Prince. We gather that the postal contract with Austria will continue and Austrian stamps will still be issued to make up for the deficiencies in the range of value of the special stamps!

**LUXEMBURG** (478 T 632).—The *Deutsche Briefmarken Zeitung* (26.10.11/181) states that new values are to be introduced, namely 45 and 62½ centimes, in connection with altered parcel post rates to Germany.

The issues of Luxemburg stamps, with their values of 12½c., 37½c., 87½c. and now 62½c. are a very strong argument against the decimal system, which is hard to beat for cumbersomeness. Its universality alone recommends it. We do not forget either the famous '0625c. of Philippines 1878, nor the awkward sequence 12, 25, 62c., 1p. 25c. of the 1874 issue.

**MALTA** (629 F 632).—*Early date.*—The 2d. grey is now reported as having been issued 28.9.11. *New Colour.* A "specimen" copy of the 4d. has been seen by the *Bulletin Mensuel* (25.10.11/5).

New colours. Wmk. multiple Crown CA, ordinary paper, perf. 14. 4d. red and black on yellow.

To be issued.

**MEXICO** (624 J 632).—The *Bulletin Mensuel* reports the whole Centenary set with "official" overprint.

Overprinted "Official."

- 1c. violet.
- 2c. green.
- 3c. yellow-brown.
- 4c. carmine.
- 5c. orange.
- 10c. blue and orange.
- 15c. slate and red-brown.
- 20c. carmine and blue.
- 50c. lilac and black.
- 1p. blue and black.
- 5p. rose

Mexican official stamps are not sold to the public unused and judging by the absence of catalogue quotations there has been no leakage for ten years or more. Gibbons only quotes one stamp unused out of 48 varieties listed since 1896, and Yvert since 1900 only quotes two and then at about 20 times face value.

**NEW HEBRIDES** (629 K 632).—We have now received a supply of the pictorial stamps with values in British currency, comprising all values, ½d. to 5/-. Like the French stamps they are in sheets of 30.

Mr. C. Davies writes (23.10.11):—"A friend visiting Vila as late as August 22 informs me that the 25c. was not issued, although all the other values of the French pictorial set were on sale. The Postmaster said he had had no authority from Paris to issue the stamp, from which I gather that he had the stamp in stock."

It is possible that this value was being kept back until the stock of the 25c. on New Caledonia was exhausted.

**NICARAGUA** (628 D 632.—The *Bulletin Mensuel* (25.10.11/18) gives some useful reproductions of the settings of the surcharge applied recently to the backs of railway stamps.

**ORANGE RIVER COLONY** (625 L 632).—We quote from the *Stamp Collectors' Fortnightly* (28.10.11/160).

"From Miss G. Killick, of Market Square, Johannesburg, we learn of a curious error of lettering on the 4d. King's Head, the word POSTAGE appearing IOSTAGE. The error occurs only once on the sheet being (to quote Miss Killick) "the last stamp but one of the left pane on left quarter." Our informant understands that "speculators have secured all the specimens available locally, and that the Government has been informed, so that no more of these errors will be issued."

"We have to thank Miss Killick further for sending us a photograph of a strip of three of the 4d. stamp, showing the error as the central specimen. The "I" is unmistakable—it is certainly not a maimed "P."

"Actual errors of lettering in British Colonial postage stamps are of exceedingly rare occurrence. For the moment we cannot recall any precedent for such an error as this in the De La Rue printed series."

This variety was chronicled in *Ewen's Weekly Stamp News* nearly a year ago (No. 594, to be exact), and previous to that had been mentioned in the *Nederlandsch Philatelist* (12.10). It is also catalogued in the new Kohl Handbook, 1912 edition. All of which proves how hard it is to discover a variety that some one else has not discovered before!

**PARAGUAY** (600 W 632).—The Centenary issue which was expected for 14-15 May, 1911, would, it was recently stated, be issued in October, so should soon reach London.

In the meantime the 20 centavos stamps ran short and the following provisional was made.

Current issue, perf. 11½.

75c. dark blue, perforated 11½ diagonally from the N.W. to the S.E. corner, each half being issued as a 20c. stamp.

Issued 30.9.11 or earlier.

Mr. Luis Lucca writes to the *Deutsche Briefmarken Zeitung* (26.10.11/177) that an extensive forgery of stamps has been discovered at Asuncion. The "Argentinisches Wochenblatt" (Nr. 1751 of 9.9.11) states that a registered packet containing copper dies for the manufacture of stamps was intercepted and a large quantity of stamps were found on the premises of Dumas Ladouce, a printer. In all 25 persons have been arrested and it is supposed the revenue has been defrauded of several million pesos. It is alleged that all the officials of the registered letter department of the G.P.O. are implicated. Presumably it is the current issue which has been forged.

**PORTUGAL** (631 G 632).—Concerning the "Assistencia" stamp chronicled last week, the Rev. E. Battyll Scott writes us that all letters posted in Portugal on 4.10.11 and 5.10.11 (the 1st Anniversary of the Republic) had to bear this stamp, and failing it they were not delivered! This commemorative issue may be repeated every year.

The stamp is of the face value of 10 reis, equivalent to a half-penny, and its issue is certainly a hint to our own Chancellor of the Exchequer! Even a farthing stamp issued for a week would produce a fine revenue, as about 60 million letters weekly are sent in the United Kingdom, not to mention circulars and postcards. Unless, of course, people put off answering their correspondence for a week, which is what some might unkindly do.

The "Assistencia" overprint was also applied to the 20 reis carmine. Both this and the 10 reis are obsolete and command a premium. The 10 reis was used for letters and the 20 reis for telegrams, as a supplementary (and compulsory tax).

There are several varieties of the Vasco de Gama issue. The *Stamp Collectors' Fortnightly* (28.10.11/160) mentions that the 5 and 10 reis occur on either ordinary or chalk-surfaced paper and the 200 reis have either yellowish or white gum. Our contemporary adds:—

"On comparing the sets sent us, we found the striking difference above indicated in some of the *quondam* postage due stamps: whilst the majority of them are on ordinary paper and bear a decidedly yellowish gum, two—the Five Reis and

Ten Reis—are on white chalk-surfaced paper and have a quite white gum, in short they are printed on the paper of the Dom Manuel issue. Further, the Ten Reis, with yellowish gum, is in the old original dull magenta, but the same value, with white gum, is in a bright shade of that colour.

"Knowing that Mr. Fred J. Melville was engaged on the stamps of Portugal, we questioned him on the matter, and he has kindly allowed us to peruse the proofs of his forthcoming Handbook now in the press; we find a statement, on the authority of Mr. J. N. Marsden (the specialist on Portugal and Colonies) that, the remainders of some of the values being comparatively few, the Government have reprinted the Five and Ten Reis on chalky paper, and the Two Hundred Reis, in a slightly different shade, on paper corresponding to that used in 1898, and all three with white gum."

**SALVADOR** (631 P 632).—Just after going to press last week, our own supply of the 1, 2, 13, 24 and 50c. in single colours turned up and will be distributed with the New Issue Service this week. The stamps are printed in small sheets of 20 stamps, 5 rows of 4.

Amongst our last supply of the 1c. Figueroa postage due, we found three sheets with double perforation like a roulette down the right-hand side. The fifteen specimens were reserved and will be sent at face value (about one farthing) to the first fifteen of our annual subscribers to apply for them.

We also have the following provisional issue of official stamps.

Official. Overprinted in black on 1900 issue (design as above but dated 1900), "OFICIAL" with or without new value. When the value is altered, the old value is blotted out.

- 1c. green.
- 3c. on 13c. yellow-brown.
- 5c. on 10c. dark blue.
- 10c. dark blue.
- 12c. light green.
- 13c. yellow-brown.
- 50c. on 10c. dark blue.
- UN COLÓN on 13c. yellow-brown.

Issued 1.10.11 or earlier.

*Stationery*.—The *Deutsche Briefmarken Zeitung* (26.10.11/176) chronicles the 13c. Envelope of 1903 surcharged in black "6 1911 6."

**ST. HELENA** (629 W 632).—The last mail brought us the reissue of the 2½d., 4d. and 6d. stamps and we were surprised to find that all are on ordinary paper. The previous 4d. and 6d. were on chalky paper.

Wmk. multiple Crown CA, ordinary instead of chalky paper.

- 4d. black and red on yellow.
- 6d. purple.

Issued 4.10.11 or earlier. We have no specimens left of the previous 2½d. so cannot say if the new supply differs in shade at all. St. Helena's Edwardian record is a very modest one. The pictorial set appeared in 1903 on Crown CC paper and has never been changed, but this colony has always made a practice of ordering large supplies, with a view to minimising variation and consequently demand on the part of collectors.

The design illustrated above has also never varied until now, the present issue being the first "second printings" of any Edwardian stamps.

New colours

- Wmk. Crown CA.
- (31) Ordinary, ½d., 1d.
- (32) Chalky, 10/-.

Wmk. multiple Crown CA.

- (33) Ordinary, 2½., 4d., \* 6d.\*
- (34) Chalky, 4d., 6d.

\* Just issued.

St. Helena's list is thus probably the shortest of any Colony—except Jamaica with its unique 2d. The new Yvert of 1912 catalogues the three re-issued stamps thus:—

2½d.	unused	12f50	used	15f.
4d.	"	6f.	"	7f50.
6d.	"	7f50	"	10f.

Senf 1912 is less liberal, quoting only 5, 4 and 4½ Marks unused respectively and 5½, 5, and 5 Marks used. Strange to say, the new Kohl

Handbook puts them at 5d., 7½d., and 10d. respectively, and specifies the 4d. and 6d. as on chalky paper.

**ST. VINCENT** (624 W 632).—We have now received sheets of the new 2d. grey. Like the other values they are printed in sheets of 60, 10 rows of 6, with plain margins.

**SIAM** (627 O 632).—*L'Amico del Collezionista*, a new Italian paper (15.10.10/4), states that in the new set of stamps, the dollars will be called *bah* instead of *ticals*. The new stamps are expected at the end of 1911 or beginning of 1912.

**SPAIN** (618 Y 632).—We have received the 15c. with a new control letter at back. Each letter represents 1,000,000 sheets. The current issue is now known with the following letters:—

Current Issue, 15c. violet.

30th October	1909 or earlier	Letter D*
5th April	1910	" E
5th February	1911	" F
15th September	1911	" G

\*Letter D began where the previous issue concluded about No. D500,001. It is known to us perf. 14, but the other letters are perf. 13x12½ only.

Other Values.

Other values are only known with the letter A. The 10c. may be expected before long with letter B; the highest number we have seen is A939,545. The 2c., 5c. and 25c. may also some day reach letter B but none of the other values have yet reached even 100,000 sheets.

**STRAITS SETTLEMENTS** (608 F 632).—The 4c. has again changed its colour.

New Colour.

4c. magenta, wmk. multiple Crown CA., ordinary paper.

It was issued 12.9.11, the *Postage Stamp* (21.10.11/45) states.

**SWEDEN** (629 L 632).—Mr. Nils Strandell, Editor of the *Nordisk Filatelistisk Tidskrift* informs us that the 20 and 30 öre with portrait of King Gustaf were issued on 20.10.11.

New Values. No wmk.

- 20 öre, blue.
- 30 öre, brown.

Issued 20.10.11. The record for the postage stamps is now as follows:—

*Old Issue.*

- (31) Wmk. Crown, all.
- (32) No wmk., 20, 25 öre.
- (33) Wmk. wavy lines, none.

*New Issue.*

- (41) Wmk. Crown 1, 2, 4, 1, öre., 1 krona,
- (42) No wmk., 5, 10, 15, 20, 25, 30, 35 öre.
- (43) Wmk. wavy lines, 4 öre.

The *Svensk Filatelistisk Tidskrift* (10.10.11/167) chronicles the following:—

Official Stamp. Wmk. wavy lines. 35 öre, violet.

The record of the official stamps is therefore now:—

*New Official Issue.*

- (51) Wmk. Crown, 1, 2, 4, 5, 8, 10, 15, 20, 25, 30, 50 öre.
- (52) No wmk., none.
- (53) Wmk. wavy lines, 10, 35 öre.

The sale of these to the public unused is prohibited. A new 10 öre postcard is shortly to be issued.

**UNITED STATES** (630 Y 632).—We have received some new official postage stamps for use on correspondence from the Savings Bank Department.

*Adhesive.*

- 2c. rose.
- 10c. black.

*Envelope.*

- 2c. rose.

Issued before Oct., 1911.

# “New Issues on Approval.”

EWEN'S DEPOSIT SYSTEM.

---

*Collectors everywhere are greatly pleased with our system of “New Issues on Approval.”*

*A deposit account may be opened with any sum, small or large, and every Friday a packet of the latest New Issues in mint unused condition will be sent until the deposit is exhausted, when it may be renewed or not as wished. If any of the stamps sent are not wanted, they may be returned within ten days.*

## SOME SUGGESTIONS.

State clearly when sending your deposit whether you collect British Colonies only or all the world or certain countries; also whether you collect perforations, water-marks, surcharges, shades, postage dues, officials, &c.

Note that postage is extra and choose whether stamps are to be sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1.

Stamps are sent out at a small percentage over face value (to cover expense of importation, etc.) but if preferred they can be sent at face value or cost price only, and we then charge an annual membership fee of £1 1/-, £2 2/-, £3 3/-, £4 4/- or £5 5/-, according as the limit of face value chosen is 1/-, 2/6, 5/-, 10/- or £1.

Only one copy of each new issue is sent on approval, but if collectors, dealers and clubs requiring a more liberal service will write us, we shall be happy to send particulars of our service for pairs, blocks and sheets.

## Wholesale Lots and Special Purchases.

- KA** Abyssinia, Postage Dues of December 1908, inverted T overprint. Lot of 4 complete unused sets, 50/-.
- NOTE.—These are catalogued 27f. per set in the 1912 Yvert. Kohl's 1912 Handbook lists them, pricing the low values only.
- KB** Afghanistan, 50 unused sets of the 1909 issue, 1, 2 abasi, 1 rupee. The lot £5 15s.
- NOTE.—Yvert 1912 lists the 1 rupee at 4f. unused (3/3) but puts the 1, 2 abasi together at 1f. 50, apparently an error, for "1a." does not mean 1 ann (1d.) but 1 abasi, one-third of a rupee. Senf 1912 quotes 7 M 50 (7/8 per set); Gibbons' 1912 6/3 per set.
- KC** Afghanistan, 50 unused sets of the 1909 issue, parcel post stamps. The lot 250/-.
- NOTE.—Gibbons' 1912 price is 10/10 per set; Yvert 1912 quotes 17f. 50 (14/-) and Senf 1912 14 Mark.
- KD** Afghanistan, 50 unused ½ rupee Parcels, 1909 issue in one lot 25/-.
- Gibbons 10d.; Senf M. 1.50.
- KE** Afghanistan, 57 unused 1909 Parcel 1 rupee stamps, in one lot, 65/-.
- Gibbons 8/-, Senf M. 3.50.
- KF** Afghanistan, 27 unused 1909 Parcel 2 rupees stamps, in one lot, 65/-.
- Gibbons 5/8, Senf M. 6.50.
- KG** Afghanistan, 4 unused 1909 Parcel ½ rupee stamps in the obsolete olive-grey shade, 5/-.
- KH** Afghanistan, 21 unused 1909 Parcel ½ rupee stamps in the new silver-grey shade, 25/-.
- Not yet catalogued anywhere.
- KI** Aitutaki on N.Z., 2 sets ½d. to 6d., mint, 2/7.
- KK** Argentine Centenary, 3 mint sets ½c. to 50c. and one 1 peso, the lot, 13/-.
- Yvert quotes the set 8f30 and the peso 4f., total 23/-.
- KL** Argentine, 18 4c. San Martin mint, at face, 1/6.
- KM** Australia, 1909 Dues, useful lot of 60 sets ½d., 1d., 2d., 3d., 4d., offered at face value if all taken in one lot; otherwise 10% over.
- KN** Australia, Dues, mint block of 4 and a single of 1/- with bar, perf. 11½ × 11. The lot for one shilling over face.
- NOTE.—Unpriced in Gibbons' 1911; Yvert 1912, 3f. 50; Senf 3 M. This is a stamp that may prove scarce.
- KO** Australia Dues, 2 mint blocks of four each of the ½d., 1d., 2d. green with Crown A watermark, 4/6.
- NOTE.—We intended to offer these cheap, for a few pence over face value of 2/4 but found that the 1d. were all the rare Melbourne print. cat. 1f. 50 by Yvert 1912, and 1 Mark by Senf 1912. The price of the lot is still, however, low.
- A Secret.—Not only in the above set, but also in all our sets (½d. to 5/-) the 1d. Melbourne print have been erroneously inserted instead of the Common Crown 1d., but as the loss this incurred must have occurred some time ago and only 12 sets remained at the time of writing these lines, we are making no change in price. We refer to set 204 in E.W.S.N. 631.
- KP** Austria. Imperforate stamps are always nice in blocks; we can offer blocks of 10 S.G. 541, 10 S.G. 542 and 12 S.G. 543 in one lot for 2/2.
- KQ** Austria, 80th Birthday set dated 1830-1910, two mint sets 1h. to 1 krone, not priced by Gibbons 1912, cat. 11f.75 (over 9/-) by Yvert. The two for 10/-.
- KR** Bahamas. 1d. Queen's staircase; 6 Crown CC wmk., mint 8d.
- KS** Bavaria. 139 2pf. grey surcharged "Vom empfänger zahlbar," cat. 3d. used, and unpriced unused in Gibbons 1912. All on white paper. The lot 5/-.
- KT** Bavaria, 15 sets of 2, 3, 5, 10 pf. greenish-grey postage due (S.G. 316 to 319, 2 pf. unpriced; others 7d.). The lot 5/6.
- NOTE.—The 2, 3 and 5pf. are all on white paper, the 10pf. partly on white and partly on toned paper. Gibbons' catalogue (1912) distinguishes between the old toned and the new white paper in the postage stamps but not in the dues. These stamps are now obsolete.
- KU** Bavaria, 3 mint sets of the old embossed stamps, 2 pf. to 1 mk., face value 11/- for 12/-.
- KV** Bavaria, 8 mint copies of the 5 pf. vert. wavy lines, toned paper (once catalogued at £5). S.G. 131. In one lot, 6d.
- KW** Bavaria, mint set, 2, 3, 5 mark, wmk. horiz. wavy lines. (S.G.'s issue of Dec. 1911!). mint, 11/8.
- KX** Bavaria, current issue, 5 pf. with marginal plate No. IX. and 10 pf. block with No. I., 8d.
- KY** Bechuanaland, ½d. yellow-grn, Edwardian, two bottom rows of sheet with control F6, 1/9.
- LA** Bermuda, S.G. 33, cat. 1/-, six mint, 1/9.
- LB** Bolivia. 81 mint sets 1, 2, 5, 10c. Centenary issue, the lot, 34/-.
- LC** Bolivia, 7 mint 5c. red 1901, 9d.
- LD** Bosnia, 2, 5 kr. perf. 9½ (S.G. 206 10/-, 207 15/-); the mint set of two 8/- (less than third cat.).
- LE** Bosnia, an attractive set comprising no fewer than eight values all less than a penny in face value, 1, 2, 3, 4, 5, 6, 7, 8 heller, the only such sequence ever issued (?). Gibbons 401 to 408, unpriced; 66 sets, 22/- or 4/6 per doz. sets.
- LF** Bosnia, dated 1830-1910, set of six low values, 10 sets, also one copy each 30, 35, 40, 45, 50h., 1 kr., the lot 6/6.
- LG** Brazil, 15 mint copies of the 200 reis Pan-American, the lot 5/- (cat. double).
- LH** British Guiana, 14 mint 2c. purple and black on red, mult. chalky, cat. 4d. each, only 2/- the lot.
- LI** British Honduras, 60 1c. ordinary and chalky, various shades, mixed, 3/3 the lot.
- LM** B.S.A. Royal Portraits, 60 5d. mint, face 25/- for 26/-.
- LN** Canada, 2c. King Edward, block of 50 imperforate, 5/-.
- LO** Canada, 10 mint 2c. postage dues, 11d.
- LP** Quebec Centenary, 137 mint 1c. and 129 rare ½ cent, in blocks, 12/6.
- LQ** Cayman Is., 6000 ½d. brown in entire sheets, various shades, 10% over face (£6 5/-).
- LR** Cayman Is., 39 ½d., 4 ½d., 18 1d. unadhesives, unused, cut square, wide margins, 10% over face.
- LS** Ceylon, King Edward, old colours, 25, 30, 75, 1r.50c., 2r.25c, five mint sets, 39/-.
- NOTE.—The 25c. included in this set is the 25c. yellow, multiple wmk., one of the "surprise packets" of the 1912 Yvert catalogue. Though only 4d. in face, it is catalogued 7/- unused and 1/- used. Thumin's 1912 catalogue quotes it the same, but Kohl's 1912 price is only six times face value.
- LT** Charkari, mint block of 10 and six singles of the 1 pice, die 1, to clear, 3/-.
- LT** Juan Fernandez, 10c. on 1\$, seven mint and 20c. on \$1, 54 mint, offered in one lot at 10% over face.
- LV** China, 88 mint copies of the obsolete 2c. red, offered in one lot at 10% over face.
- LW** China, 70 2c. Temple of Heaven, mint, in one lot, 4/-.
- LX** Colombia, ½c. deep yellow, S.G. 457b, mint block of 5 rows of 5. The first vertical row is perforated at each side with smaller holes (though usual gauge). The block 1/6.
- LY** Colombia, ½c. light yellow, apparently S.G. 457a (the unpriced variety), mint block of 56, 3/6.
- LZ** Curacao, sheet of 100 2½c. postage due (green and black), mint, 4/10.
- MB** Ecuador, 14 sets of the June 1908 issue, mostly triangular stamps, S.G. 331 to 337, cat. 8/9 per set. The 14 sets for face value, 4/- per set.
- The 1912 Yvert quotes the set 10f.25c. and the 1912 Kohl handbook at a halfpenny under 10 Marks.
- MC** Ecuador, a useful lot of the Exhibition set of 1909, all mint, 25 sets 1c. to 20c. and 7 \$1. The sets are cat. by S.G. 2/- and the \$1 5/-, making a total of 85/-.
- Our price 35/- (Rather less than we paid but we have to make room for New Issues!)
- NOTE.—Yvert's price is 3f.70 (about 3/-, much more than Gibbons) but on the other hand only 2f. for the \$1. Total 106f.50, or 85/-, same as Gibbons.
- MD** Ecuador, Exhibition set of 1909, all mint, 14 sets complete to \$1 also four \$5 and one 5c. on 50c. provisional, cat. by Gibbons respectively 9/6, unpriced, and 11-. Taking the 5 sures at Senf's 1912 price 10/-, the lot totals 174/-; our price 75/- only.
- ME** Falkland Islands, King Edward, 6 mint sets ½d. to 6d. for 7/-.
- MF** Finland, current set in strips of four showing marginal plate-numbers, 3/9.
- MG** Finland, 2 pen. lower three rows of sheet showing plate No., date and full marginal wmk., 9d. only.
- MH** Gibraltar, Edwardian old colours, 4/- mint block and single, 8/- single, the lot 32/-.
- NOTE.—The 1912 Yvert has advanced the 4/- to 12f.50 and the 8/- to 17f.50.
- MI** Gilbert & Ellice on Fiji, 5d. and 6d. entire mint pane of 60 of each, the two £13.
- MJ** Gilbert & Ellice on Fiji, 5d. and 6d., block of 30 each, the two blocks £6 10s.
- MK** Holkar, the only surcharged provisional, ½ on ½a. violet-brown, cat. Gibbons 5/-, Yvert, 6 francs, Kohl, 5/-; 32 mint copies 50/- only, less than a third catalogue. We shall never have a second lot.
- ML** Indore, the scarce unsurcharged 1 anna green, cat. Yvert 5d., Senf 4d., Gibbons 3d.; 109 mint copies mostly in blocks, a bargain for 13/6 (even in Indore itself they cost 2d. each wholesale).
- MM** Indore, Service, ½, ½, ½, 1, 2, 3, 4 as., forty-nine useful mint sets of seven, cat. Gibbons 3/3; Yvert 2 f 75; Kohl M3.65; Senf M3.05. Price 49/- only. Obtainable nowhere cheaper.
- MN** Indore Service, wholesale list of 1480 ½ anna, face 61/8 for 62/6. Gibbons cat. 4d.
- MO** Holland 3c. on 1 gulden, three mint copies, two type i (cat. 7/6) and one type iii (cat. 3/-); also 50c. De Ruyter postage due, the lot 6/6, only a third cat.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicates the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—*Edwardian Issue* (632 I 633).—*Friday* (3.11.11).—We have just received the 6d. on ordinary paper, bearing all the characteristics of Messrs. Harrison & Son's work. It is perforated 14.

Harrison print. Ordinary paper. 6d. dark plum.

Issued 3.11.11 or earlier.

The sheets consist of two panes of 120, as usual, with broken lines round the panes and with the "11" cut under the 11th stamp in the bottom row. There is a coloured dot above the 12th stamp in the top row, below the 12th stamp in the bottom row and on the left margin of the sheet opposite the margin between the panes. The last vertical bar in this margin between the panes is broken twice to admit further coloured dots. All these five coloured dots together with the eyes of the ornaments on the top and bottom margin are punctured and indicate a very determined effort on the part of Messrs. Harrison & Son to remedy the defect, found up to now in nearly all their stamps, of unevenly centred perforation. The sheet of 6d. from which we take this description is perforated very evenly and is a great improvement, if not quite perfect. In addition to the "11" cut, there is a "1" cut under the first stamp in the bottom row.

**Variety of 10d.** A pane of 10d. Harrison, perf. 14, just purchased has the Crown watermark so high up that if the stamps are held up to the light it appears to rest on King Edward's head. Had it been but very little higher, the bottom row of stamps of the pane would have been "No wmk." The cuts in the purple line are "1" under the 8th stamp and "11" under the 11th stamp.

**Variety of ½d.** All sheets of ½d. Harrison, perf. 15x14, Edwardian type, that we have yet seen, have a white dot on the first figure 1 of the control "A11", a single cut under the 7th stamp in the bottom row, and a small dot instead of the usual ornament under the centre stamps of the bottom row and over the corresponding stamps of the top row. There is a third dot on the right hand margin of the sheet opposite the space between the panes. These three dots are all punctured and serve to bring the sheet into alignment for perforation.

**New 1/- die?** Under the heading "Retouched Plate?" we referred last week to a 1/- stamp with scrolls of solid colour instead of shaded. Several correspondents have written to say that their specimen of the 1/- dark green and rose, 1st Harrison printing, distributed with Ewen's New Issue Service on 27.7.11, was the same variety, and we should not be surprised now to learn that the entire distribution consisted of such. The Editor, on Saturday, 4.11.11, visited twelve Post Offices between the Crystal Palace and Sanderstead and could not find a single copy left of the 1/- dark green and rose. Eleven offices had the 2nd (current) Harrison printing and the other the 1/- De La Rue on chalky paper. At the same time he found one small post-office which had a block of four of the 2nd printing with scrolls of solid colour almost similar to those of the 1st printing. The interesting question therefore arises whether there are not two different kinds of 1/- plates in use, one with shaded scrolls and the other with scrolls of solid colour, and do impressions from both plates exist in each colour? The stamp to look for is the 1/- very dark green and rose (the first Harrison printing) which is already a much scarcer stamp than even the 3d. Harrison, perf. 14.

The following is a revised record of Messrs. Harrison & Sons' work.

Harrison Prints.

29th "	" ½d.	"	
3rd Nov. 1911	" 6d. (a)	Perf. 14	

(a) The 1½d. is in brighter shades than the De La Rue print; the 9d. is light purple and the 1/- has a very dark green centre; the 2½d. and 6d. have broken marginal lines.

(b) The 1½d. is in duller purple and green, more like the old De La Rue stamp; the 9d. are a much darker purple and the 1/- have not so dark a green centre; the 2½d. have continuous marginal line.

The *Postage Stamp* states that the bicoloured stamps in the above table are not by Harrison, but are printed at Somerset House.

The cuts indicating presumably the date of printing, are:—1½d. 5.11. and 8.11; 2d. 7.11; 2½d. none; 3d. none; 4d. none; 5d. 7.11; 6d.—.11; 9d.—.11; 10d. 8.11; 1/- 6.— (both shades); 2/6 —.11; also a few 1d. Edwardian, perf. 15x14, have been seen with the "11" cut under the 8th stamp. It will be seen that this interpretation of the cuts agrees with the dates of issue, the printing being in each case one or two months before the date of issue.

We quote from the *Daily Chronicle* (3.11.11):—

### NEW PENNY STAMP.

The Postmaster General informed Mr. Evelyn Cecil in the Commons yesterday, that certain changes in the engraving of the new penny stamp had been decided upon, but it would not be possible to issue the improved stamps before January.

A correspondent writes:—"Could you give a list of Harrison printings in E.W.S.N. showing perfs. and chalky or ordinary paper? I have several 3d. on chalky, perf. 14, but suppose they are the common printing." We are afraid our correspondent has not been reading E.W.S.N. very attentively of late, as we have given a list of Harrison printings in almost every issue. So far as we have observed them, they are all on ordinary uncoated paper, but a correspondent suggests that on 31st December, 1910, when Messrs. De La Rue & Co., Ltd., ceased to print British stamps, there may have been a stock of paper, both ordinary and chalky, in their hands of which the Inland Revenue authorities would no doubt take charge. If any of the chalky paper were yellow, it might have been given to Messrs. Harrison & Sons for the 3d. stamps as it was stated that only the 6d., 2/6 and higher values would be printed at Somerset House. Personally we think it more likely that Messrs. De La Rue & Co. printed the paper, as required, with the chalky surface and that only enough was done to complete their contract.

The mystery still remains as to whether any stamps have yet been printed at Somerset House and if so which. The 2/6 stamps current up to the time of the Harrison issue were the De La Rue printing of October 1910, distinguishable by its dark shade. The 5/-, 10/- and £1 stamps still current are De La Rues, so that despite the assertion that Somerset House would print the 6d., 2/6 and higher value stamps, we are forced to the conclusion that if any stamps were printed there, they would most likely be 3d. and 6d. ones and of course the famous "A.II." pennies, which have never been found. It is a horrid thought, but did Somerset House perchance use up paper returned by De La Rue? Did it print a small edition of all the values and issue them to offices where stamp collectors

would not be likely to discover them? If so some future specialist may make a great discovery.

Mr. Oswald Marsh has shown us a collection of the 3d. Edwardian stamps on chalky paper and we were amazed at the variety of shades, none however quite resembling the Harrison print. There were two issues of the Edwardian 3d. chalky, one on yellow and the other on orange paper, just as in the Victorian issue, and there were several shades of each colour, some of which will doubtless prove very scarce. Therefore, don't throw your 3d. perf. 14 away, because they are not Harrisons. They may be the rare shade of the De La Rue.

**Readers' experiences.** A Wood Green correspondent writes (3.11.11):—"I find that all my copies of the 1st shade Harrison 1/- are of the variety noted by you in this week's E.W.S.N. I notice a great difference between the papers of 1st and 2nd shades, that of the former being much thinner and the watermark is easily seen, whereas in the latter it is not nearly so visible. The variety does not appear in my copies of the 2nd shade of the 1/-."

An Acton reader (2.11.11) thinks that though the 3d., perf. 14, Harrison, is certainly perf. 14 on the whole width, the holes are so indifferently punched as to vary from 13½ to 15 between the two extremes.

A lady reader (Liverpool 1.11.11) states that she tried 26 post offices without finding a single copy of the 3d. perf. 14, Harrison. Such perseverance deserved better luck.

Another correspondent states that he has been through about 200 3d. stamps used since Sept. 1st, and only found a single copy of the Harrison print, perf. 14. This was postmarked Margate, as late as 16.10.11. Last week, too, a sheet was found at the Post Office outside Broadstairs station so that this part of the country seems to have been favoured lately.

**House of Commons.** The following report of proceedings in the House of Commons is from the *Times* (3.11.11):—

### THE NEW POSTAGE STAMPS.

Mr. E. CECIL (Aston Manor, Opp.) asked the Postmaster-General whether he had yet been able to see his way to alter the character or design of the new postage stamps, as they continued to be criticized in many parts of the Empire as very unworthy specimens of British art and a bad likeness of his Majesty as reproduced in the printing.

Mr. HERBERT SAMUEL (Yorkshire, Cleveland).—Certain changes in engraving of the new penny stamp have been decided on. But as these changes entail the preparation of new master plates and working plates it will not be possible to issue the improved stamps before January next.

### HIGHER VALUE POSTAGE STAMPS.

Mr. KING (Somerset, N. Min.) asked the Secretary to the Treasury when the new postage stamps of a higher value than 1d. would be issued.

Mr. McKINNON WOOD (Glasgow, St. Rollox Min.).—It is proposed to issue the new 1½d., 2d., 2½d., and 3d. stamps about the commencement of the year, and those of the remaining values shortly afterwards.

Mr. KING asked whether the hon. gentleman was now satisfied that every possible improvement had been attained in the printing, adhesiveness, and other qualities of the new 1d. and ½d. stamps.

Mr. McKINNON WOOD.—It is proposed to issue greatly improved stamps of these denominations about the commencement of the year.

Mr. KING.—Will the paper on which they will be printed be of British manufacture? (Opposition cheers and laughter.)

As it is now only six weeks to Christmas, the 1½d., and 2d. Edwardian perf. 15x14, if issued, will have a very short life, or will the Edwardian continue in use along with the Georgian until the stock is exhausted? Will the new pennies have control "A11"?

The *Madrid Filatélico* (11.11/205) chronicles the "2d. bluish-green and rose" with portrait of King George. Has anyone seen it?

Monday, 6.11.11. The Editor has been on another trail, in search of 1/- first prints this time.

After drawing Sydenham and Forest Hill blank, two offices at Honor Oak Park were found to have interesting stamps. The first had 47 1/- of the second (and current) printing, but all the stamps had the shading of the scrolls partly blotted over, which until then we had supposed to be a characteristic of the first printing. The margin shows the usual cut in the green line under the first stamp in the bottom row. At the next post office we found a block of 40 of the 1/- with the black-green centre, with cuts under the 1st and 6th stamps in the bottom row. These are also the blotchy printing but not a single stamp in the two blocks had the scrolls entirely blotted over. The history of the Harrison 1/- may thus be summed up as follows. All sheets have a continuous green line outside a continuous carmine line round the pane. The green line is broken at each corner of the pane and under the 1st and 6th stamps of the

bottom row and also to assist the division of the sheet into pounds' worths (5 rows of 4) and in some sheets also at the sides of the pane. The frame is printed either in carmine, with blotchy scrolls, or in pink, a lighter shade, with clear scrolls. We distinguish the scrolls as "clear" when 6 or 7 lines or dots of shading can be counted. The "scrolls" are the curves over AG of Postage, EV of Revenue and under E of One and LI of Shilling and normally have seven lines of shading or six lines and a dot, and may be referred to as the scrolls of the N.W., N.E., S.W., or S.E. corner. The finest example of the blotchy variety we have yet seen shows the N.W. and S.W. scrolls of solid colour whilst the N.E. scroll has two lines and the S.E. scroll one line of shading; total, 3 lines of shading only instead of the normal 28. In the blocks we have just found the N.W. and S.W. scrolls usually show 2 or 3 lines of shading and the N.E. and S.E. scrolls from 3 to 5 lines. In the ordinary Harrison impressions 6 lines of shading can be distinguished on each scroll (and 7 occasionally) but in the few De La Rue impressions we possess we can clearly distinguish all 28.

**Control Letters (6.11.11).**—In the latest Georgian pennies, the control letter A is fashioned like a drawing compass. The second foot has been chipped down to a fine point. At the same time the first figure "1" has lost its serif.

Mr. F. Brewer has shown us the ½d. Georgian with control "A11" having the figures 1½ instead of 2mm. apart. The 1d. has been out some time. His specimen was purchased, 30.10.11.

**Control "A.11."** An Ipswich correspondent tells us that he recently obtained a corner block of the Edwardian 1d with large stops after the control letter "A" and the "11". Fortunately we asked to see it before chronicling it, for the stops are very neatly filled in with pen and red ink!

**Stationery (632 X 633).**—On Friday, 3.11.11, we received the thin ½d. reply card with Georgian stamp.

Reply Postcard, thin buff card.  
½d. + ½d. green.

Issued 27.9.11 or earlier, according to a correspondent (Mr. G. W. Smith).

**A new fiscal postal?** A Dublin correspondent writes (30.10.11):—

"I enclose for your inspection a postal curiosity—two Petty Sessions stamps used instead of two ½d. postage stamps. It was posted in Mountrath, Queen's Co. and duly delivered to me without surcharge—probably unnoticed by the postal authorities. I have seen my correspondent since, and he informs me that the envelope was stamped in this way quite inadvertently. It was in the dusk of the evening and he mistook the Petty Sessions stamps for ordinary postage stamps, being also green in colour, and was not aware of his mistake until I called his attention to it."

The two stamps are the ordinary 6d. green Edwardian "inappropriated die" overprinted at foot "Ireland Petty Sessions" and they are postmarked in the ordinary way "Mountrath, Queen's Co., 19 OC 11". Used thus accidentally they are certainly more interesting than the many made-to-order freaks that were passed through the post by collectors during the last two decades of the 19th century.

**ARGENTINE REPUBLIC (632 P 633).**—*L'Echo de la Timbrologie* (30.9.11/584) reports the following:—

**San Martin Issue.** Error, no wmk.  
5c., 1p.

The ½, 1, 2 and 50c. have already been chronicled.

**AUSTRALIA (621, 622, 630 B 633).**—Since our last article on the postcards and lettercards, we have received further consignments and the Government Printer has excelled himself in producing new varieties. One curious production has a blue stamp and a green view at back!

The following are sent us under date of Melbourne, 27.9.11:—

**Letter Cards.** Georgian 1d. stamp as before. Lines of inscriptions end with "to, the, apply." Perforations rounded as usual at corners.

- 1d. bright blue on greenish-grey.  
Tasmania, Launceston.
- 1d. bright brown on greenish-grey.  
Victoria, Exhibition Buildings, Melbourne.
- 1d. emerald green on greenish-grey.  
Tasmania, The Gorge, Launceston.
- 1d. slate green on greenish-grey.  
Victoria, Exhibition Buildings, Melbourne.  
Tasmania, The George, Launceston.
- 1d. slate blue on greenish-grey, view, green.  
N.S.W., Mosman's Bay, Sydney.

The issue on greenish-grey card is thus now known with the 1d. stamp in eleven different colours!

Later.—Our Melbourne correspondent reports (4.10.11) that on 27.9.11 the G.P.O. put on sale a set of pictorial 1d. postcards. Not content with giving the postcard for nothing, the post office also gives the view! Thus the purchaser gets 12 picture postcards of excellent quality for the cost of the stamps only. The cards are put up in packets labelled

## COMMONWEALTH OF AUSTRALIA.

### STATE OF VICTORIA.

## 12 PICTORIAL POST CARDS.

Price, One Shilling.

Our correspondent sends us several packets, each containing 11 white glazed cards printed in pink on the front and with a photograph in greyish black covering the whole of the back. The 12th card is on a cheap dirty-white card with roughly printed stamp in dull rose and with dividing line 3mm. from P of "Post Card" instead of 5mm. and the view is in light brown instead of greyish black, bluish black or brownish-black; possibly the remains of a proof printing.

#### Picture Postcards.

- Georgian stamp, 1d. pink.
- (i) Dividing line 5mm. from "Post Card."
  - View, Gilderoy Ranges, Victoria.
  - " Phantom Falls, Victoria.
  - " Gold Diggers, Victoria.
  - " Spring St., Melbourne.
  - " Gold Dredging, Victoria.
  - " Gold Mine, Victoria.
  - " Buffalo Mts., Victoria.
  - " Bourke St., Melb.
  - " Swanston St., Melb.
  - " Hinders St., Melb.
  - " River Farra, Melb.
- (ii) Dividing line 3mm. from "Post Card."
  - View, Corinadai, Bacchus Marsh, Victoria.

As these are all Victorian views, we shall expect next to hear of series for the other States. Needless to say this provision of free picture postcards has not passed without protest. The following letter has been addressed to the editor of the Melbourne *Argus*, (30.9.11):—

#### GOVERNMENT POSTCARDS.

TO THE EDITOR OF THE "ARGUS."

Sir,—You were quite correct in your surmise in *The Argus* on Thursday that the postcard publishers and importers would view with dismay the decision of the Postal department to issue penny pictorial postcards. If the public had not been well catered for, one might possibly understand it; but few, if any, cities in Australia have such a splendid selection to choose from, and which are to be had from any of retail shops. One rightly asks the question, "When is the Government going to stop entering into unfair competition by private enterprise?" and thus depriving many of our publishers and printers of their daily bread. We rightly use the word "unfair," because it is impossible for the trade to put penny stamps on the cards and do the printing for nothing. If the Government are anxious to put a stop to the postcard trade, from which they reap an enormous harvest both in revenue and duty, they are just doing the right thing. If they have such a superfluity of energy let them put it into other channels where it is more needed, and thus let those whose business it is cater for the wants of the postcard buyer.

Sept. 29. Yours, &c., PUBLISHERS.

**CAYMAN ISLANDS (623 N 633).**—The *Berliner Briefmarken-Zeitung* (28.10.11/448) reports the following, design not described.

Envelope. 2½d. blue.

**CHILE (631 U 633).**—We find the colours of the new permanent series differently described by *Stanley Gibbons' Monthly Journal* (31.10.11/374), so give here a revised version:—

Presidential series, 1911, Perf. 12.

- 1c. green.
- 2c. scarlet.
- 3c. sepia.
- 5c. blue.
- 10c. grey and black.
- 12c. rose "
- 15c. purple "
- 20c. orange-brown and black.
- 25c. pale blue and black.
- 30c. bistre-brown "
- 50c. myrtle "
- 1p. emerald "
- 2p. red "
- 5p. olive-green "
- 10p. yellow "

Mr. H. N. Richmond tells our contemporary of an error of colour in the 5c. centenary issue, the stamp being printed in deep green instead of blue.

Our New Issue Service has since received its supply of the Presidential stamps and they will be distributed this week.

**DOMINICAN REPUBLIC (632 Q 633).**—*El Correo Filatelico* (8.11.11) of Santo Domingo states that the 2c. red and black Habilitado provisional recently chronicled was issued on 11.7.11, to the number of 100,000. There are errors reading "HABILITADO", "HABILITAOO", "HABILITAOQ" as also double and inverted overprints.

The new issue chronicled in *E.W.S.N.* Nos. 629 and 631 was received from Germany at Santo Domingo on 6.8.11. The 1c. and 2c. are not unicoloured (as we unfortunately erroneously described them) but have black centres as before. Our contemporary (8.11.11) chronicled the 1c. and 2c. only as issued when it went to press.

**GILBERT & ELLICE ISLANDS (632 A 633).**—*Le Postillon* (25.10.11/390) reports that ½d. and 1d. Fiji stamps with forged overprint "Gilbert & Ellice Protectorate" have been seen.

**INDIA (548 T 633).**—We are informed by Mr. W. T. Wilson that only the 1 and 2 anna stamps of the Georgian issue are likely to be ready for the Durbar. It had been hoped to issue the complete set up to 25 rupees, both ordinary and official.

**ITALY (625 T 633).**—*L'Echo de la Timbrologie* (15.10.11/616) states that the 15c. is now again line-engraved like the first issue.

Redrawn Die. Line-engraved.  
15c. slate, perf. 13½ instead of 12 as in the first issue.

The chief differences are in the position of the word "Cent." which is nearer to the left edge of the stamp in the new issue; the design is a little wider and not quite so high; the hair and especially the eye are completely redrawn and resemble rather the surface-printed 15c.; the star on the coat collar is now distinct.

**MALTA (632 G 633).**—A French correspondent states that he has the ½d. in four variations of watermark.

- (a) Single Crown CA sideways, "CA" to right.
- (b) " " " " "CA" to left.
- (c) Multiple Crown CA sideways, "CA" to right.
- (d) " " " " "CA" to left.

The other oblong stamp, on the other hand (the 5d.), has upright watermark.

**NEW HEBRIDES (632 L 633).**—The *Australian Philatelist* (3.10.11/21) states that "the British Resident Commissioner has now given permission to the Postmaster at Vila to sell as many stamps as he likes. Formerly the sales were restricted to prevent speculation [but in reality trebled it.—ED., *E.W.S.N.*] and many letters containing remittances were held over. It is expected that the amount likely to be realized by the sale of the new issues will exceed £8,000 by the end of the year."

**NEW SOUTH WALES (588 W 633).**—In connection with the First Philatelic Congress of Australia, which was to have been opened by the Governor-General, Lord Denman, on 12.10.11, the Committee have issued a souvenir stamp. It is printed in sheets of 4 rows of 5 and may be had either in emerald, carmine, blue or indigo (the colours of the ½d., 1d., 2d. and 2½d. N.S.W. postage stamps). The "stamps" are sold at 6d. per sheet for the benefit of the Congress Fund but the only purpose for which they can be used is that of letter-seals.

# Ewen's Weekly Stamp News.

Supplement to No. 633 (Saturday, 11th November, 1911).

---

*This supplement, is sent gratis to all postal subscribers to Ewen's Weekly Stamp News but is not printed in time for distribution with newsagents' copies.*

NORWOOD, 5 p.m.

Thursday, 9th November, 1911.

The so-called Harrison print 6d. has already been issued in a second shade resembling the De La Rue stamps. For the moment we do not know which is the provisional one and immediate orders will be executed at 7d. each. They are both perf. 14.

At the General Post Office this afternoon we purchased an entire sheet of the £1 with the "11" cut under the last stamp in the bottom row. They are almost the same as the De La Rue stamp but slightly darker. We can supply at 20/3.

The *Postage Stamp* (11.11.11/73) states that Messrs. Harrison & Sons have only printed the ½d., 1d., 2½d., 3d. and 4d. stamps and that the other new stamps (all of which have the "11" cut) are done by the Stamping Department of the Board of Inland Revenue at Somerset House.

Ewen's New Issue Service will distribute both 6d. stamps, referred to above, this week. Having the "11" cut, they are probably Somerset House printings. The £1 stamps, differing so slightly, will only be sent to those members who have specially asked for Great Britain.

**NEW ZEALAND** (631 C 633).—The *Australian Philatelist* (3.10.11/21) learns from *The Press*, Wellington, that during his visit to London, Sir Joseph Ward, Prime Minister of the Dominion, submitted two designs by Mr. Bertram McKennal, the eminent Australian artist, and the King approved of one of them. The accepted design has been handed to the Secretary of the Postal Department, and the new issue is now in the hands of the Government Printer. The stamps will bear the portrait of King George V.

**PAPUA** (631 L 633).—A French correspondent writes (1.11.11.) in confirmation of our own recent remarks on the probable non-existence of the 6d. issue 3 or 4:—"Dans votre dernier numero d'*Ewen's Weekly Stamp News*, vous demandez si le 6d. de Papua, filigrane A vertical, dentelure fine 12½ (no. 3 on 4) existe. Personne en France n'en a reçu; je l'ai attentivement recherché dès que votre journal m'a mis sur sa nomenclature. J'ai écrit à vous, à d'autres marchands anglais ou allemands, personne ne l'a jamais vu. J'ai moi-même reçu presque chaque mois un envoi de Port Moresby, et, si j'ai été assez favorisé pour recevoir le 6d. fil. couché, d. 12½ (no. 7), je n'ai jamais eu connaissance d'un no. 3 ou 4. Sa description me semble devoir avoir été fait par quelque amateur qui, desirant paraître bien renseigné, a annoncé ce timbre avant de l'avoir vu. Son émission en effet pouvait sembler probable, mais elle n'a pas eu lieu. Il en est de même du rd., no. 3 on 4."

Mr. A. Ashby tells us that he received the new 2½d. and 6d. postmarked 12.9.11.

**Unicoloured Series.**

2½d. bright blue.

6d. bistre-brown (not myrtle-green as in the bicoloured set).

The colour of the 6d. is also described as brown, orange-brown and golden chestnut.

**PORTUGAL** (632 H 633).—A Lisbon correspondent informs us that the quantity of Vasco da Gama remainders overprinted "Republica" was as follows:—

"Republica" on postage stamps.

2½ reis .. .. .	5,000,000
15 on 5 reis .. ..	1,540,000
25 reis .. .. .	6,340,000
50 .. .. .	460,000
75 .. .. .	20,000
80 on 150 reis .. ..	60,000
100 reis .. .. .	240,000
1000 on 10 reis .. ..	120,000

"Republica" on postage due stamps.

5 reis .. .. .	16,000
10 .. .. .	30,000
20 .. .. .	44,000
200 .. .. .	62,000
300 on 50 reis .. ..	54,000
500 on 100 .. .. .	61,000

The 75 reis postage and 5 and 10 reis postage due were immediately bought up. The 75 reis could not be reprinted, because the whole of the postage set was engraved by Messrs. Waterlow and Sons, Ltd., in London, and if the plates have not been destroyed that firm still have them. The 75 reis postage was accordingly replaced by the 75 reis of the Vasco da Gama set of Madeira, of which 120,000 were overprinted "Republica."

The postage due stamps having been printed in Portugal originally could be reprinted there. This was accordingly done and the only 5 and 10 reis now obtainable are the reprints. The originals are on ordinary paper with yellowish gum, so that we have to chronicle the new edition as a new issue.

"Republica" on Vasco da Gama postage due stamps; 2nd edition of 1911; white chalky paper; white instead of yellowish gum.

5 reis, black.
10 .. magenta.
20 .. orange.
200 .. brown on buff.
300 on 50 reis, slate-green.
500 on 100 reis, carmine on rose.

We have only seen the 5 and 10 reis, but understand the 200 reis is already issued and that all six are printed.

Later.—The 20 reis will be distributed by Ewen's New Issue Service this week.

**Assistencia Stamps.**—A correspondent writes from Oporto, 31.10.11:—"I see that in last Saturday's issue of *E.W.S.N.*, you speak about the 10 reis stamp overprinted "ASSISTENCIA". All postal matter posted on the following days, October 4th, 5th, December 24th, 25th, 26th, 30th January 1st, and 2nd, must bear in addition to the right amount for postage one of these special stamps. Should the letter not bear this stamp it will only be dealt with after the expiration of these dates. The stamps are, as you said, already overprinted "REPUBLICA" in red and "ASSISTENCIA" is printed horizontally in red on the lower half of stamp and in slightly smaller letters. I believe the 20 reis was also similarly overprinted and was affixed to telegrams but by the post-office officials themselves.

"With reference to the monarchist stamp, what I have heard here was that it was used as a sort of a badge and not as a postage stamp; also the monarchists were never in Braganca. It is possible they used it at Vinhães which they occupied for a short time."

The *Commercio do Porto* (12.9.11) says:—"The law of 25 May having created a stamp of 10 reis, denominated "Assistencia," which is obligatory as a tax upon all postal letters and other objects carried in the post with the exception of periodical publications, on the days of 4 and 5 October, 24, 25, 26 and 30 of December and 1 and 2 January of each year, it is advisable that the public should supplement on those days the legal postage stamp by this new stamp, in order not to cause delays in the despatch of correspondence. This new impost, so general in Denmark and other countries, is destined for works of public charity and the payment of so moderate a sum should be a pleasure to all who interest themselves for the good of their neighbours." That is all very well, but we fancy this compulsory charity is going to be a nuisance, especially to business people. The days are so carefully selected that the Portuguese public can hardly postpone their correspondence.

**QUEENSLAND** (629 B 633).—The *Berliner Briefmarken Zeitung* (28.10.11/448) records new letter-cards, reply letter-cards, post-cards and reply post-cards.

- Letter-cards. 1d. red, 1d. x 1d. red.
- Post-cards. 1d. brown violet, with and without view at back (interior of North Queensland caves).
- 1d. x 1d. rose
- 1½d. x 1½d. brown.

**ST. HELENA** (632 X 633).—The new supply of 2½d. stamps put on sale with the 4d. and 6d. Edwardian stamps on ordinary paper did not last out the day of issue, and many large applicants got only a few or none at all. This might have been our lot, but experience with the New Hebrides and Gilbert Islands has made us wise. We cancelled the large order we had telegraphed, and substituted a small one for 360 of each value, with the fortunate result that we got a full allotment of all three values. Continental dealers received fairly liberal allotments, but they are far ahead of home dealers in their charges, the cheapest quotation we have seen being 37 Marks per 10 sets (which include the ½d. and 1d., but these are of small account). This is equal to about 3/6 for the 2½d., 4d. and 6d.

**SERVIA** (631 W 633).—Another value of the new set is reported by the *Berliner Briefmarken-Zeitung* (28.10.11/448).

**New Value.**  
15 para, light violet.

The other values of the set are the 1, 2, 5, 10 and 25 para.

**SOUTH AUSTRALIA** (627 E 633).—Mr. J. H. Welfare sends to the *Australian Philatelist* (2.9.11/5) specimens of some new postal stationery.

- Envelopes.**  
1d. carmine.  
2d. purple.
- Registration Envelope.**  
No value, pale olive-green.

The latter is similar to the Registration Envelope of Tasmania, but the stamp is inscribed "South Australia."

**SWEDEN** (629 L 633).—The following is reported by the *Schweizer Briefmarken-Zeitung* (10.11.1911):—

**Official stamp.** No wmk.  
5 kronor, carmine on yellow.

The record now stands:—

**Official stamps.**

- (51) Wmk. Crown, 1, 2, 4, 5, 8, 10, 15, 25, 30, 50 öre.
- (52) No wmk., 5 kronor.
- (53) Wmk., wavy lines, 10 öre.

The sale of official stamps to the public unused is forbidden.

**UNITED STATES** (630, 632 A 633).—From the *Philadelphia Stamp News* (21.10.11/273) we learn that the following quantities of postage stamps were issued to postmasters during the last fiscal year (to 30.6.11):—

Series of 1902.			
13c.	263,244	\$2	131
\$1	67,500	\$5	2,646
Series of 1908.

13c.	340,000	"	
15c.	16,093,089	"	
50c.	697,787	"	
\$1	42,992	"	

**Special Delivery. Series of 1902.**

10c. 15,371,040 in sheets

**Postage Due. Series of 1894.**

- 1c. 10,393,419 in sheets
- 2c. 28,747,819 "
- 3c. 601,889 "
- 5c. 1,972,299 "

The total is just about 10,000 million stamps! The Bureau of Printing and Engraving also delivered 26,253,580 Philippine stamps, and several thousands of millions of internal revenue stamps.

**New plates.**—Our contemporary (21.10.11/277) also states that the following new plates have been made during 1911, and mean new stamps in due course.

- 8c. ordinary. Modified design, with "U.S. Postage" in a curved line over the portrait of Franklin. Plates 5718, 5719, 5721, 5722, 5724, 5725.
- 10c. Registry. New design with spread eagle. Plates 5720, 5723, 5726, 5729.
- 1c. ordinary and booklet. New design, with portrait of Washington and figures of value in lower corners. Plates 5727, 5728, 5730-39; also for books 5741-42.
- 2c. ordinary, figures of value in lower corners. Plate 5740.

The above list comprises all plates finished or unfinished up to 13.10.11.

An extract from the *Boston Herald* (19.7.11) reaches us by way of *El Correo Filatelico* (8.11/1), a new journal published in the Dominican Republic. This is to the effect that the Third Postmaster-General announces a new issue in which all the values will have the value in Arabic figures; the five lowest values will have the head of Washington, and the other five the head of Benjamin Franklin. The new plates described above are evidently made in connection with this issue.

Our new contemporary also states that American postage stamps are to be overprinted Treasury, Navy, State, War, etc. We have seen no mention of this in the American press.

**VICTORIA LAND** (597 B 633).—We quote from the Annual Report for 1910 of the New Zealand Post and Telegraph Department:—

"A post office was established in Victoria Land in connection with Captain Scott's Antarctic expedition, which left New Zealand on the 29th of November, 1910. Special stamps, overprinted "Victoria Land," to the value of £100, were issued for the use of the Expedition." [There were thus 24,000 as in the case of the King Edward VII. Land issue].

**Ewen's Colonial Stamp Market, Ltd.,**

32, PALACE SQUARE, NORWOOD, LONDON, S.E.

**Deposit Accounts.**—All payments (for whatever purpose) are credited to a deposit account, and all invoices (whether for stamps, albums, subscriptions or postage, etc.), are debited to such account. This deposit account should not be overdrawn. The balance is returnable post free on demand.

**Returns.**—Stamps which are not as ordered may be returned within 10 days and their full sale price will be re-credited to deposit account.

**Bank-notes.**—20 mark = 19/6; 50 francs (French) 39/8; 50 francs (other countries) 39/6; 50 lire, 39/6; 20 kronen = 16/6; 20 kroner = 22/-; 10 gulden = 16/6; 10 roubles = 21/-; U.S.A. dollar = 4/1.

Cheques payable to "Ewen's Colonial Stamp Market, Ltd.," or "Ewen's, Ltd.," postal orders, money orders (inland and foreign), etc., payable to "Ewen's, Ltd.," at "Anerley Road, S.E." Cheques on France and Germany accepted at same rate as bank notes, also bons de poste.

**LATEST ARRIVALS.****GREAT BRITAIN.**

Another Harrison Printing.

Perf. 14.

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

# "New Issues on Approval."

EWEN'S DEPOSIT SYSTEM.

---

Collectors everywhere are greatly pleased with our system of "New Issues on Approval."

A deposit account may be opened with any sum, small or large, and every Friday a packet of the latest New Issues in mint unused condition will be sent until the deposit is exhausted, when it may be renewed or not as wished. If any of the stamps sent are not wanted, they may be returned within ten days.

## SOME SUGGESTIONS.

State clearly when sending your deposit whether you collect British Colonies only or all the world or certain countries; also whether you collect perforations, water-marks, surcharges, shades, postage dues, officials, &c.

Note that postage is extra and choose whether stamps are to be sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1.

Stamps are sent out at a small percentage over face value (to cover expense of importation, etc.) but if preferred they can be sent at face value or cost price only, and we then charge an annual membership fee of £1 1/-, £2 2/-, £3 3/-, £4 4/- or £5 5/-, according as the limit of face value chosen is 1/-, 2/6, 5/-, 10/- or £1.

Only one copy of each new issue is sent on approval, but if collectors, dealers and clubs requiring a more liberal service will write us, we shall be happy to send particulars of our service for pairs, blocks and sheets.

## SUBSCRIPTION FORM.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.—Edwardian Issue (633 J 634).—Saturday (11.11.11).**—On Thursday, just too late for chronicle last week, we received the 6d. provisional print in a new shade, something similar to that of the De La Rue. It is perf. 14.

Somerset House print. Ordinary paper. 6d. dull purple, perf. 14.

Issued 9.11.11 or earlier.

The sheets consist of two panes of 120, as usual, with broken lines round the panes and with the "11" cut under the 11th stamp in the bottom row.

In our supplement to E.W.S.N., No. 633 (circulated with postal subscribers' copies), we stated that we had found the £1 Somerset House print on sale at the G.P.O., on 9.11.11.

Somerset House print. Wmk. 3 Crowns, perf. 14, ordinary paper. £1, slightly darker green.

Issued 9.11.11 or earlier (probably at least a week earlier). The stamp is issued in sheets of 10 rows of 4 with the "11" cut on the line under the last stamp of the bottom row. Had it not been for this cut we should have hesitated to say that it was one of the provisional prints. Once it is identified, however, the darker shade of green will single it out.

The following has been issued.

Harrison print, perf. 15 x 14. 4d. orange.

Issued 11.11.11 or earlier.

**Monday, 13.11.11.**—In looking over some sheets of the new 6d. bright plum shade, we find one distinctly paler than the others. The latest 6d. De La Rues, too, were apparently a different printing to those issued in September, being very dark and from a worn plate with continuous outer line (the S.H. prints all have broken lines).

The 6d. bright plum have cuts under the 2nd and 4th stamps in addition to the "11" cut.

Ewen's New Issue Service has now distributed every Harrison and S.H. print to its members at face value only, except the 3d. perf. 14, which was sent out at 5d., and the two 6d. shades sent out at 6½d. The inverted watermarks and blocks with X instead of a stamp have also been distributed, either at face or a halfpenny or so over. The £1 just issued is however only being sent to clients who specially ask for it. It is to be hoped that members kept the stamps sent, as they are likely to form a valuable collection.

**What are used Harrisons worth?**—A Norwood dealer makes the following quotations for Harrison and S.H. prints in "superb used" condition (11.11.11):—½d. and 1d. both perfs., 1d. each; 1½d. first and second prints, 4d. and 2d.; 2d. perf. 14, 1½d.; 2½d. both perfs., 3d. each; 3d. perf. 14, 9d.; 15x14 2d.; 4d. perf. 14, 2d.; 5d. perf. 14, 2d.; 9d. perf. 14, 6d. each shade; 10d. perf. 14, 9d.; 1/- perf. 14, first shade 1/6, second 1/2; 2/6 perf. 14, 2/9.

**Somerset House Prints.** Mr. L. W. Crouch, in an interesting article in the *Postage Stamp* reports that he has succeeded in drawing from the Secretary to the Board of Inland Revenue the following interesting letter:—

"I am directed by the Board of Inland Revenue to acquaint you that the arrangement for the printing at Somerset House of the 6d. unified postage and revenue stamp and all values above a 1/- came into force on the expiration of the recent contract with Messrs. De La Rue & Company, Limited, on the 31st December last and applies equally to both the Edwardian and the Georgian series.

"With regard to the second enquiry in your letter, I am to acquaint you that the values of the Edwardian series, which have been printed respectively by Messrs. Harrison & Sons and the Board's Stamping Department, are as follows:—

"Messrs. Harrison & Sons,  
½d., 1d., 2½d., 3d., 4d.  
"Stamping Department,  
1½d., 2d., 5d., 9d., 10d., 1/-, 2/6, £1."

Mr. Crouch is to be congratulated on his success in getting this information. On 10th July, 1911, Mr. Ewen wrote to the Board of Inland Revenue:—

"Would you have any objection to inform me whether any adhesive postage stamps of the Edwardian series other than ½d. and 1d. ones have been printed by Messrs. Harrison & Sons and whether any stamps of the Edwardian series have been printed at Somerset House?"

This letter was never answered. It is interesting now to note that it was written on the day the first of the Harrison prints (other than ½d. and 1d.) appeared and three days before the first of the Somerset House prints (the 1½d.) appeared! Bearing the date, 10.7.11, in mind, it looks as though the Board endeavoured to answer our application in practical form by issuing the stamps, though no doubt it is only a coincidence. The record of what we must now call the "provisional prints" is as follows:—

### Provisional Prints.

Wmk. single Crown, ordinary paper.

(The ½d., 1d., 2½d., 3d. and 4d. are printed by Harrison & Sons, the others by the Stamping Department of the Board of Inland Revenue at Somerset House).

(a) The 1½d. is in brighter shades than the De La Rue print; the 9d. is light purple and the 1/- has a very dark green centre; the 2½d. and 6d. have broken marginal lines. The first 6d. is in a distinctive bright plum shade.

(b) The 1½d. is in duller purple and green, more like the old De La Rue stamp; the 9d. are a much darker purple and the 1/- have not so dark a green centre; the 2½d. have continuous marginal line.

The stamps printed by Messrs. Harrison & Sons have all appeared perf. 15x14 except the 4d., which it would not surprise us to see shortly. Will the stamps at present printed by Somerset House ever have compound perforation? At first sight one might say, No! But if one reads again carefully the letter of the Board of Inland Revenue quoted above, one will see a distinction drawn between the values, not as at present, but between the 6d. and the values over 1/- on the one hand and the remaining values on the other. One is thus forced to the conclusion that the present printing of the 1½d., 2d., 5d., 9d., 10d. and 1/- stamps by the Board of Inland Revenue is only a temporary arrangement. Messrs. Harrison & Sons may, of course, print these

values only when the Georgian plates are ready, but they may, of course, equally take over the Edwardian plates, and we may then see these values also perf. 15x14.

**A Sixpenny Variety.**—A Croydon reader (11.11.11) points out that the last of the 6d. chalky (attributed above to De La Rue) shows a blot of colour under PE of "Pence"; the small space between the two ribbons is usually filled in with shading of horizontal lines. This may be due to over-inking, but whatever the cause, the blotchy printing makes us doubt whether these 6d. chalkies really are De La Rue prints.

**Halfpenny Varieties.**—A Redcar reader (12.11.11) shows us the top two rows of a sheet of ½d. Georgian stamps. In the 4th and 5th stamps of the second row the topmost line of shading above King George's head is connected with the base of the Crown by a tiny blot of colour. At first sight the variety does not appear worthy of consideration, but the same has been said (or thought) before of other minor variations that subsequently proved a valuable guide in philatelic research.

A Liverpool reader (11.11.11) has part of a sheet of ½d. Edwardian stamps showing the reverse impress of another sheet on the back. He does not say whether the impress is over or under the gum.

**A robust British Lion.**—We quote from the *Glasgow News* (6.11.11):—

### NEW GEORGE V. STAMPS.

On the first day of the new year another batch of George V. stamps will come from the General Post Office. The Coronation issue was confined to stamps of the value of a halfpenny and a penny, but in January stamps of all values will be available with the new George V. design.

The most interesting point with regard to the issue is the "fattening up" of the lion. At present this unfortunate animal gives an impression of suffering badly from hunger, and it has been the subject of cruel sallies.

"In the 1912 issue we intend to make some improvements in the engraving of the stamps," said the secretary of the General Post Office to a Press representative. "The design will remain unchanged, except that the unfortunate darkened portions of the lion's body which have been unfairly called 'ribs,' will be expunged. It was not our intention to make the lion so ill-favoured, but it was due to a fault in the original engraving.

"New master plates have been made, which are in the hands of the Somerset House authorities. We hope the public will accord a more favourable reception to this lot, for I defy any criticism from philatelists in our new venture."

**The Shilling Variety.**—A Broadstairs correspondent writes (12.11.11):—"I think I can beat your best copy with 3 lines of shading in four corners. In enclose a block of four which I think have 2, 1, 4 and 3 lines respectively. The top right hand stamp has three of the scrolls completely blotted over and the fourth scroll, that in the lower right hand corner shows one line of shading only. The 1/- stamp you sent me with the New Issues has 12 instead of 28 lines. I also send a pair of light shade 1/- chalky De La Rue which are practically complete. Not only do all the corner scrolls show the 7 lines of shading but the side ornaments also show the 7 lines of shading, except in one which has 6 only." Our correspondent's block is easily the finest we have seen. The centre of the stamps is in black-green.

Mr. Karl Wiehen writes (11.11.11):—"The varieties of the 1/- Harrison prints are certainly interesting. In a corner block of 4 from the left top corner of the sheet or pane of the dark or black green centre before me, all the four stamps are slightly different. All the left top corners show "scrolls" of solid colour, but the first stamp shows only three lines or prints in the remaining three corners, and the 2nd, 3rd and 4th stamps show each in all four lines or points but in different positions.

"I have also before me a block of 2 horizontal strips of 5 each of the Harrison ½d. King Edward in which the line of the vertical perforations cuts the watermark exactly in the middle; so that the first stamp shows only one half of the Crown, and the remaining stamps each two halves of the Crown."

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

**Control Letters** (629, 633 T 634).—Mr. E. Heginbottom points out two misprints in the table of Edwardian Control letters given in *E.W.S.N.* 20.5.11. The ½d. yellow-green D4 was issued 26.11.04, not 16.11.04, and the 1d. A, 1.1.02, not 1.2.02.

**Stationery** (633 Y 634).—The thin ½d. reply card has been issued for months, it seems, though it never came the way of our local post office till October. A Wrexham reader shows us a specimen postmarked London, 17.7.11.

**Record Dates of Use** (616 A 634).—Mr. C. F. Dendy Marshall has shown us the 2d. blue of 1841 on entire, postmarked Edinburgh 71.3.1841 and Arbroath 17.3.1841 and the letter is also endorsed with the same date, which is much earlier than any we have previously noted and only 20 days after the first plate of this design was put to press (25.2.1841). The cover is also remarkable for the fact that the stamp has a red Maltese Cross, which we do not remember to have seen before on the 2d. of 1841.

On 3.11.11 we addressed the following letter to the Secretary, G.P.O.—“Stamp collectors are very anxious to know whether Messrs. Harrison & Sons have printed any stamps on the so-called “chalky” or surfaced paper and if not what become of any stock of this paper left over from the De La Rue period. Could you allow us to know?”

To-day (13.11.11) we receive the reply:—

Inland Revenue Somerset House, W.C.  
13th November, 1911.

Sir,—With reference to your letter of the third instant, addressed to the Secretary, General Post Office, in which you enquire as to the printing of stamps on surface paper, I am directed by the Board of Inland Revenue to express their regret that they are not in a position to furnish any information in the matter.

[Signed for Secretary].

**BAHAMAS** (623 N 634).—The printings of Bahamas stamps with multiple watermark have been as follows:—

Edwardian Issue.		
Date received in Colony.		
½d.	3.5.06	181,800 stamps.
	2.8.11	60,000 "
1d.	-3.05	120,600 "

	12.5.08	241,080 "
	-.-.09	298,080 "
	2.8.11	306,480 "
2½d.	-2.07	244,500 "
	12.5.08	240,600 "
6d.	2.8.11	6,240 "
Queen's Staircase.		
1d.	19.10.10	114,600 "

It is very evident from this table that the 6d. is going to be the rarity of the set. The earliest date of issue we have recorded for it is 14.8.11, only twelve days after receipt in the colony. The second printing of the ½d. has value in darker green and thicker lettering, and it was distributed by Ewen's New Issue Service last week.

**BARBADOS** (617 Q 634).—The last ½d. stamps received (issued 13.7.11) were in a slightly darker brown.

**BAVARIA** (632 S 634).—Our last supply of the current issue received from Munich (7.11.11) had the following marginal control numbers:—

25pf.	I.	2mk.	II.
30pf.	II.		

The number on the 40pf. is something of a puzzle. It is unlikely there have been more than two or three plates of this value.

**BECHUANALAND** (582 N 634).—The latest 1d. stamps have control letter H8, which we have not previously recorded. The Edwardian control letters now known are:—

½d. dark green	B (continuous line).
½d. yellow green	E6, F6.
1d. scarlet	D4, D5, E6, F6, H8.

The ½d. F6 were issued 3.11 or earlier, and the 1d. H8 19.10.11 or earlier.

**BRITISH P.O., LEVANT** (932 Z 634).—In a set of the current stamps just received from Beyrout (3.11.11), we notice the 2 piastres on 5d. in a darker shade than before.

**CANADA** (617 V 634).—A writer in the *Hobbyist* says:—

“I have often been asked the reason why the postage due stamps of Canada come so often in blocks and sometimes in sheets, nicely postmarked and with gum intact. The majority of due stamps are cancelled with an indelible pencil after the letter carrier has collected the amount due; but in cases of those securing mail at the post-office,

these are invariably cancelled with a rubber stamp after being placed on the package.

Many mail order firms send out catalogues by the thousand, with the request printed on the wrappers that if not delivered they are to be returned and the postage collected on them. These catalogues are at times returned in such large numbers that, to save time, the catalogues are weighed in bulk, rated up at 8 cents per pound and the due stamps obliterated in sheets and sent to the firms where they can check them in short order. These stamps when checked over are of no use to the firms and become the perquisite of some employée who disposes of them as opportunity is found.

But this is all being changed. The order has gone forth from the post-office department that these stamps have to be heavily smudged, completely obliterated, in fact. In addition to this, these mail order firms have been given orders that these stamps, after being checked up, are to be burnt.

The post-office department has now issued orders to have these stamps destroyed, so that collectors will do well to fill up their sets at once.”

Why not issue a high value postage due and get rid of the above difficulty once for all?

**CHARKHARI** (575 E 634).—Under date of Charkhari, 26.10.11, we have the 1 pice stamp in a new printing and shade, very much paler. The sheet still contains 8 rows of 8 stamps. The native characters denoting the value are now again long, as in type i.

**CHILE** (631 U 634).—Philatel writes in the *Stamp Collectors' Fortnightly* (28.10.11/154):—

I have to thank Mr. A. H. Davis, of Buenos Aires, for sending me the following translation of a Decree recently issued by the Chilean Government:—

“Considering that it is necessary to postpone the period in which must be commenced the incineration of postage stamps which, in virtue of the dispositions of Art. 3 of Decree No. 728, of 14th January last, must be withdrawn from circulation from the 1st of September, 1911; and that before proceeding to the destruction, it is advisable to put up for auction the stock of stamps which, although no longer of use for the franking of correspondence, retain their value for the formation of collections.

“I decree:

“First, that the stamps issued to commemorate the Centenary of the Independence of Chili, and those others of which, in virtue of the disposition of Art. 3, of Decree No. 736, of the 14th March last, will be excluded from circulation, must be incinerated on the 1st of November of the present year.

“Second, that from the date of withdrawal from circulation of these stamps until the 1st of November next, there will be put up for auction once a fortnight the stamps referred to in the preceding article in presence of the Commission appointed by said Decree of 14th March last, for which purpose the Director of the Treasury will issue the necessary instructions.

“To be noted, communicated and published.

“Barros Luco. ROBERTO SANCHEZ.”

**CHINESE P.O. TIBET** (626 F 634).—We have now received sheets (as surcharged) of all the values. The ½, 1, 2½, 4, 6 and 12 annas are surcharged on blocks of 40 stamps (2 panes, side by side, each 5 rows of 4, margins removed on two sides). The 2 and 3 annas, on the other hand, are surcharged on blocks of 50 stamps (2 panes, side by side, each 5 rows of 5, margins removed on two sides); the 1 and 2 rupees received are in blocks of 48 (6 rows of 8) not divided into panes.

**Error.**—In each case the 11th stamp of the right hand pane of the 3 anna sheets we received shows an error, a large capital S inverted in Annas.”

**Perforation.**—The gauge of all values is 14 even, except the 2 and 6 annas, which are perf. 13½. Are any of the perf. 15 issue of China known with Tibet surcharge?

**CONGO** (621 D 634).—The postage due stamps continue to come with all sorts of “T” and “Taxes” overprints on the postage stamps, but these overprints would appear to be of little philatelic importance, as apparently each post office is allowed to surcharge its own stamps as required.

The 10+10c. bilingual postcard is, states the *Deutsche Briefmarken Zeitung* (26.10.11/181) to be supplemented by postcards of 5, 10 and 5+5c. with the new stamps.

**GOLD COAST** (628 I 634).—**Correction.** In the table of printings of the Edwardian issue the 2/- should have been included in set 34 (ordinary paper) and not with set 35 (chalky paper). It was suggested at the time of issue that the 2/- was printed in error on ordinary paper and from the fact that the new 2/6 on blue paper is on chalky paper, it seems extremely probable that this was so. If so the next printing, if another is made from the Edwardian plate, will be on chalky paper.

**GRENADA** (603 F 634).—It is expected that “at some distant date the effigy of the King will be issued,” and the matter is at present under consideration, but no decision has been arrived at. As the present stamps bear the Arms of the Colony, it is not absolutely certain that there will be any change. If any announcement is made on the subject, it will be in the *Government Gazette*.

The Edwardian stamps of Grenada were one of the first sets to appear, the Victorian issue being superseded in June, 1902, and they were also one of the first to be withdrawn, a new issue bearing the Arms of the Colony succeeding them in 1908. During these six years 26 varieties were issued.

Edwardian design, old colours.

(31) *Wmk. Crown CA, ordinary paper.*  
½d., 1d., 2d., 2½d., 3d., 6d., 1/-, 2/-, 5/-, 10/.

(32) *Same but toned paper.*  
½d., 1d., 2d.

(33) *Wmk. multiple Crown CA, ordinary paper.*  
½d., 1d., 2d., 2½d., 3d., 6d., 1/-, 2/-, 5/-, 10/-.

(34) *Same but chalky.*  
3d., 6d., 2/-.

The above stamps have all advanced largely in value; in fact the stamps of Grenada have always been a remarkably good investment until they become 20 years old and then the rate of advancement tends to slow down very considerably. The Queen's Head set superseded in 1902, face value 2/11, is now catalogued 17/7; the Edwardian set of 1902, face 2/3 is catalogued 16/- and the multiple set of 1905, face 2/3 is quoted 15/5. The high values stand at from 150 to 300% premium. These prices are if anything too low, as the 1912 Yvert puts the 1902 set at 22f. 60 (18/-) and the multiple set at 22f. 50 (18/-) and it must be remembered that in the latter set the prices are for the cheapest variety (ordinary or chalky). Our set 32 (on toned paper) is only referred to by one catalogue, the Kohl Handbook, the three stamps being catalogued 3/- each. This variety is of philatelic value because it constituted a separate printing, issued 1905 (?) just before the multiples appeared. The current issue has not, as yet, had time to make history.

(35) *Wmk. single Crown CA, chalky paper.*  
1/-, 10/-.

(36) *Wmk. multiple Crown CA, ordinary paper.*  
½d., 1d., 2d., 2½d.

(37) *Wmk. multiple Crown CA, chalky paper.*  
3d., 6d., 1/-, 2/-, 5/-.

In addition, Grenada issues three postage due stamps, but unlike Trinidad will not supply them to collectors, either postmarked or otherwise.

**GWALIOR** (626 T 634).—This is another Post Office under terribly slack management. In 1908 (!) King Edward 2, 3, and 5 rupees stamps were printed and we made a large deposit. The 2 and 3 rupees turned up after two years' waiting and we were then promised the 5 rupees when they were issued. They were issued two or three months ago but although the Postmaster still has rupees 700 to our credit, we have not yet received any stamps. It would be interesting to know who gets the interest on these deposits.

Overprinted “Gwalior State”.  
5 rupees, lilac and blue.

Issued 15.10.11 or earlier.

INDIA (633 U 634).—We quote from the *Times* (10.11.11):—

## INDIAN STAMP CONTRACT.

The Government of India is stated to have renewed its stamp printing contract with Messrs. De La Rue & Co., which expired this year, for a further period of three years, and that firm is at present engaged in the preparation of the plates for printing the new Georgian stamps of our Indian Empire. The design is said to show a portrait of his Majesty in robes of State. The superintendence of the stamp supplies of the Indian Government is entrusted to a special branch of the India Office, located at Somerset House, under the same roofs as the Inland Revenue authorities.

## MOROCCO AGENCIES (616 V 634).—

Mr. E. Heginbottom makes the following enquiry:—

November 10th, 1911.

I have been going over my Moroccos on Gibraltar King Edward stamps, and I find from your list printed re the issues of these as follows:—

1. Wmkd. CA Single: 1 & 2 pesetas both issued during November, /05.
2. Wmkd. CA Mult. chalky: 1 & 2 pesetas both issued during November, /05.
3. Wmkd. CA Single: 50c., issued during July, /05.
4. Wmkd. CA Multiple chalky: 50c., issued during July, /05.

Now surely the 2 stamps under division 1 were not issued along with the 2 in division 2, nor the 1 stamp under division 3 with the one under division 4. Is there not some mistake? It does not seem surely credible that both the pesetas CA single were issued along with both the pesetas on chalky at the same time. I await your kind reply.

The history of these 50c., 1 and 2 pesetas stamps is peculiar. It may be recalled that so long as the Morocco Agencies stamps were surcharged on Gibraltar stamps, they were also issued at Gibraltar, and most importers found it quicker to order from Gibraltar than from Tangiers or other Moroccan towns. The Edwardian stamps were very slow in appearing, as the authorities had considerable remainders of the Victorian stamps to work off first. In July, 1903, the first of the Edwardian appeared—the 25c. value—and was followed by the 10c. in September. Otherwise all our importations of that year (except the last) from Gibraltar consisted of the Victorian 50c. local print (S.G. 13) and the London prints of the other values (S.G. 22 to 29). Our last importation of 1903 brought us the 1 peseta, with local overprint, but it was only in January, 1904, that we noticed that it had the blue overprint similar to that on the 50c. At that time only the 40c. and 50c. were catalogued with blue overprint. We wrote asking for more 1 pesetas, but received the London print, and on 25.1.04 sent back 36 of these latter and asked if they could not be exchanged. On 9.2.04 an official of the Gibraltar Post Office wrote us:—“I beg to enclose herewith the only stamps which I had in stock of 1 peseta Morocco Agencies local print. I regret very much to be unable to change the other 28.” The eight received were thus probably the last of the 1 peseta local prints, and they also had the blue overprint (now catalogued 25/- by Gibbons and 50 francs by Yvert, 1912).

The 50c. local print and 20c., 1 and 2 pesetas London print of the Victorian set continued on sale, the 5c. Edwardian having appeared in the meantime (January, 1904). The 1 peseta Victorian with local overprint in blue was chronicled in *E.W.S.N.* No. 232 (5.3.04). The 20c. Edwardian appeared six months later (1.9.04 or earlier) leaving only the 50c., 1 and 2 pesetas to come. As it was in *E.W.S.N.* of 18.6.04 that we announced the introduction of multiple watermark paper, the 50c. 1 and 2 pesetas with single watermark must have been printed before then, and it is not unlikely that they accompanied to Gibraltar the 1903 supply of the 5c., 10c., 20c. and 25c. It became known that the 50c. 1 and 2 pesetas were in stock on single watermark paper, but the authorities declined to sell any until the Victorian stamps were exhausted. Eventually on 3.7.05, or earlier, the 50c. stamp was placed on sale at Gibraltar, but none were sent to Morocco. Remembering what happened in the case of the 9 and 18 piastres Cyprus, we stipulated in sending our order that only single watermark stamps should be supplied. The reply we got was:—

“Gibraltar, 13 July, 1905.

“Sir,—I beg to acknowledge receipt of your letter of the 5th inst. With the exception of 30 labels, our present stock of 50c. King's Head are of the multiple watermark, so I defer the execution of your order pending your further instructions, holding the 30 labels and the balance of your £15 at your disposal. I am unable to say when the P. 1 and P. 2 stamps will be issued, but I do not think it will be for some little time.”

[Signature.]

Eventually we received the 30 specimens, (a quarter sheet of 120) and these were all we ever obtained at face value.

We have been subsequently told that three other importers were similarly allowed to purchase a quarter sheet, and beyond the one sheet so divided up, the rest of the single watermark stock to the number of some 3,000 (?) disappeared. Not a single copy was ever issued at any post-office in Morocco. If therefore the 50c. single watermark can be taken to have been issued at all, the date assigned to it must be the same as for the 50c. mult. watermark, namely 3.7.05 at Gibraltar. We believe the 50c. multiple was sent to Morocco a month later, the earliest date we noted at the time being 9.8.05 (see *E.W.S.N.* Nos. 303, 306, 368).

On the 18th November, 1905, the Postmistress of Gibraltar kindly wrote us:—

“Gibraltar, 18 November, 1905.

“With reference to your letter of the 31st August last, I beg to inform you that all the P. 1 and P. 2 King's Head Morocco stamps are now in circulation, but in regard to your order for these stamps or any others, I have to inform you that no distinction of watermark can be made in supplying them. They will be issued as they come uppermost in my stock without any previous examination or selection as regards watermark or other peculiarity. Will you be kind enough to inform me by cable whether you wish me to execute your order under these conditions.”

We had no alternative but to telegraph yes. The supply sent off on 27.11.05 was mixed, but most of the 1 peseta were single watermark and most of the 2 peseta had multiple watermark. We continued to order large quantities of the 50c., 1 and 2 pesetas not only from Gibraltar but also from Tangiers and the other Moroccan towns. The 50c. invariably came multiple chalky, but the 1 and 2 pesetas were mixed every time and we obtained enough of both watermarks to make complete New Issue Service distributions. We had a thousand or two of the 50c., 1 or 2 pesetas, multiple chalky, thrown on our hands, however, and it has taken 5 years to dispose of them, the last of our 1905-06 purchases being advertised as lots OQ and OR a fortnight ago (*E.W.S.N.* No. 632).

As we have said, all the 50c. came “multiple chalky”; there was no sign anywhere of the 50c. single watermark. In reply to a further enquiry, we received the following letter from the Postmistress:—

Gibraltar, Feb. 10th, 1906.

Sir,—With reference to your letter of the 29th ult., I regret that I am not in a position to furnish you with information on the subject of the 50c. Morocco Agencies stamps for which you ask.

[Signature.]

However, a day or two after receiving this letter, Mr. Edwin Healey called on us, stating that he held the entire stock of the 50c. single watermark, which we understood amounted to about 3,000 specimens, but as Mr. Healey asked the very high price of 15/- each for a stamp face value 4d., we limited our purchase to 500 specimens, for which we paid £375. Part of the stamps were, we believe, sold also to Mr. Appleton, of Bradford, and the Ararat Stamp Co., of New York, and possibly other firms, and we have been told that the balance went to Mr. Bela Szekula, of Budapest. A few also were attached to letters and posted from Tangiers, which accounts for the existence of postmarked copies.

The whole of the overprinted Gibraltar stamps were withdrawn from issue at the end of 1906 and destroyed. The following were the only varieties issued:—

- (31) Wmkd. Single Crown CA., ordinary paper. 5, 10, 20, 25, 50c., 1, 2p.
- (32) Wmkd. Multiple Crown CA., ordinary paper. 5, 10, 20c.
- (33) Same, chalky. 5, 10, 25, 50c., 1, 2p.

The 20c. was never issued on chalky paper, although it was chronicled at the time erroneously by several of our contemporaries.

## MOROCCO, BRITISH P.O. (616 V 634).—

The 50c. on 5d. has been issued in a paler shade, but it has evidently been in stock some time, as it is a De La Rue chalky.

New shade. Chalky paper.

50c. on 5d. pale purple and blue (paler than before).

Issued 30.9.11 or earlier.

NATAL (553 B 634).—French clients are continually writing imploring us to obtain them a copy of the 30/- lilac and orange with multiple watermark. To-day (13.11.11) for instance, a client recklessly writes to us:—“Vous n'avez pas le timbre 1 10/- Natal 10/- CA multiple, mais par

vos grandes relations, vous serez peut-être à même de m'en fournir 1 exemplaire. Il n'y en a pas à Londres, et je compte sur votre complaisance pour me procurer ce timbre qui me manque. Je vous le paierai à votre plus haut prix, soit à plusieurs fois sa valeur faciale.”

The stamp was issued in March, 1908, and withdrawn, we believe, in 1909, our last supply being despatched from Pietermaritzburg in January of that year. As nearly all collectors limit their collections to £1 face value, and as the 30/- stamps were expected to become common in used condition like the 30/- first issue, we only imported 31 unused copies in all, and probably very few were imported by other dealers. The 1912 Yvert catalogue attempts to value it by quoting 150 francs (£6). The Kohl 1912 Handbook, strange to say, has overlooked its existence altogether. Whitfield King, 1912, puts it fiscally used at 5/-, and discreetly gives no quotation for unused. Senf gives no price at all. It is surely worth nearer £60 than £6, but if any reader would like to oblige our French friend at “several times face value,” let him send his copy along.

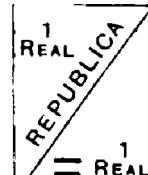

PARAGUAY (632 X 634).—A correspondent sends us, under date of Asunción 14.10.11, the set of Centenary stamps which had been promised for May, 1911.

Centenary Issue, No wmk., perf. 11½.

- 1c. olive and black.
- 2c. dark blue and black.
- 5c. rose and dark blue.
- 10c. blue and brown.
- 20c. olive and dark blue.
- 50c. violet
- 75c. olive and mauve.

Issued 12.10.11. The design represents the Monument of Liberty and Constitution situated in front of the Central Police Buildings at Asunción. The issue is very limited and only a few sets are being sold to each applicant.

PORTUGUESE INDIA (617 V 634).—We have now received entire sheets of the 1 real on 2 real provisional of June, 1911, and can give a more complete description (see *E.W.S.N.* No. 615).

2 reis, yellow and black, overprinted “Republica” diagonally in red and perforated diagonally from the N.E. to S.W. corner cutting through the word “Republica.” Each half overprinted “1 REAL” in two lines in black. The lower half has two bars across the old value.

Printed as usual in sheets of 28, 7 rows of 4, and with the margins removed from the top and righthand side to facilitate overprinting.

Variety, large A in “REAL,” occurs on following stamps:—

- No. 2 Lower half.
- No. 7 “
- No. 11 Top half.
- No. 23 “
- No. 28 Lower half.

There is a second variety, less striking, of large E in “REAL” which occurs on

- No. 3 Top half.
- No. 15 Lower half.

Also several defective letters, the R often having broken serifs and the A a broken cross-bar making it look something like an inverted V.

PORTUGUESE LOURENCO MARQUES (296 F 634).—We have received the following:—

Overprinted “Republica.”

- 2½r. grey, name black.
- 5r. orange “
- 10r. green “
- 15r. blue-green “
- 20r. lilac-grey “
- 25r. carmine “
- 50r. chocolate, name black.
- 75r. lilac “
- 100r. blue on blue, name black.
- 115r. brown-red on rose “
- 130r. sepia on yellow “
- 200r. purple on flesh “
- 400r. blue on straw “
- 500r. black on azure, name red
- 700r. mauve on yellow, name black.

Issued at Lisbon, 10.11.11 or earlier.

The later issues we must leave for the present, as prices are fluctuating too widely. We understand that the list of Papuan stamps in the 1912 Gibbons will be greatly improved, but for the moment the best published catalogue of these stamps is the 1912 Yvert. It lists the different issues very accurately, though it does not distinguish inverted watermarks, thus our 1 and 2, 3 and 4, 5 and 6, 7 and 8 count as four issues only. The most notable variations from our quotations are:—

- Issues 1, 2. The 2d. is quoted 1f. 50 (our 9d.).
- 3, 4. The 2½d. " 10f. (our 5/-).
- 5, 6. The 1d. is quoted 50c. and the 6d. 1f. 50 only, but we think these are worth more and that our prices are more nearly right. The 1d. Papuans are nearly all scarce, The 2/6 is quoted 12f. 50 (10/-) as against our 8/-.

The 6d. issue 7, 8 is quoted 200 francs, and therefore agrees with our quotation of £8. The first 30 subscribers to Ewen's New Issue Service received this stamp at 50/- only.

**Official Stamps.**—Turning to Yvert quotations for official stamps (postmarked) we find several differences from our list.

- Issue 1, 2. We put the ½d., 1d., 2d. at 15/- each and consider they are worth it, but Yvert only quoted 3f., 10f. and 5f. respectively. We put the 6d. at 30/-; Yvert quotes 12f. 50 only.
- 3, 4. Again Yvert is too low for the 2d. and 2½d. values, but the 1/- is advanced to 30 francs and the 4d. to 15 francs.
- 5, 6. Yvert quotes the ½d. at 2 francs, which is too high. The 2½d. is quoted 5 francs, as against our 1/6 for issue 6. The 1/- is quoted only 15 francs, much too low for a very rare stamp. The 2/6 is quoted 50 francs only, a ridiculous under-valuation. We would pay more.
- 7, 8. The 6d. is only quoted 125 francs, but it is worth as much as the ordinary stamp. The 1/- is quoted 10 francs (8/-) against our 5/- for issue 7.

We prefer our own quotations to Yvert's as reflecting more accurately the market value. The 6d. perf. 12½ is an extremely rare stamp and worth almost anything, but before its value was known, Ewen's New Issue Service obtained a few and sent them out at 7/6! If future catalogues put it at £20, we should not be surprised.

**Rift variety.** We believe the above catalogue is the first priced list of these yet published. In the earliest distributions of Ewen's New Issue Service the rift variety was not taken into account and was distributed as an ordinary stamp. Later the varieties were sent out at

double face value, and still later at prices ranging from 2d. for the ½d. to 3/- for the 1/- (or more for rare varieties). Although prices have now materially advanced, we believe that another 10 years will convert a collection of this variety into a veritable gold mine.

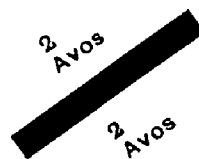

**Kohl's 1912 Quotations.** These do not call for special remark, as Kohl does not distinguish between the "small Papua" and "large Papua" types. The 2½d. of our issue 7 or 8 is quoted 20 marks. Reference is made to the "Riss in den Wolken" and to the "Weisse Blätter rechts (oder links)" varieties.

**Senf's 1912 Quotations.** As Senf does not distinguish gauges of perforation, his lists also are of no value to the philatelic student.

**PORTUGUESE MACAU (628 I 634).**—We have received a number of the provisional stamps of July and August 1911 and find amongst them the following error.

Stamps of Contribuição Industrial 5 reis overprinted "POSTAL" and "AVO" in black. The figure "1" omitted before "AVO".

We have also a number of unused pairs and blocks of the 2 on 4 avos and 5 on 10 avos bisected provisionals of the same date, and have been able to reconstruct almost complete sheets out of them. The following is a revised description.

Stamps surcharged approximately as above, and cut with scissors along the centre of the thick bar. Uncut stamps are rare.

**Black surcharge.**

- 2 Avos over bar on head half of 4 avos, rose.
- 2 Avos under bar on value half of 4 avos, rose.

**Rose surcharge.**

- 5 Avos over bar on head half of 10 avos blue-green, already surcharged "Provisorio" in black.
- 5 Avos under bar on value half of same stamp.

The 4 and 10 avos stamps made use of for these provisionals are printed in sheets of 28, 7 rows of four, and the new surcharge now chronicled was set up in a vertical row of 7 which was then duplicated to make a plate of 4 vertical rows. Each sheet therefore shows 7 types thus:—

1/2	1/2	1/2	1/2
3/4	3/4	3/4	3/4
5/6	5/6	5/6	5/6
7/8	7/8	7/8	7/8
9/10	9/10	9/10	9/10
11/12	11/12	11/12	11/12
13/14	13/14	13/14	13/14

NOTE.—The dash signifies the bisection of the stamp; the odd numbers the head half and the even numbers the value half.

The types may be distinguished as follows:—

- "2 Avos" on head half.
- Types 1, 5, 7, 9, 11, 13. The ends of "avos" are 9 to 10 mm. from the nearest ends of the bar; "avos" is consequently centred as regards the bar.
- Type 3. The A of "avos" is 11 mm. from the lower end of the bar, and the "s" is 7 mm. from the upper end.
- "2 Avos" on value half.
- Types 2, 4. There is a space between "A" and "vos"; in type 2 the "2" is over "Av" and in type 4 nearly over the "a" of "Avos."
- Types 6, 8, 10, 12. The "2" is over "vo" of "Avos."
- Type 14. The "2" is over "v" of "Avos."

In the 5 avos the same varieties occur, except that on types 2 and 4 the "A" is now close to the "vos."

**PORTUGUESE MACAU.**—We find we have omitted to record the issue of the 1 avo Dom Carlos overprinted "Republica." This occurred both at Lisbon and Macau 30.9.11 or earlier. The only other values yet issued at Macau are the ½ and 2 avos, but the 4 and 8 avos are reported to be available at Lisbon and the Vasco da Gama issue is expected this week.

**QUEENSLAND (633 C 634).**—Some half-penny stamps just received from Brisbane (5.10.11) are very roughly printed, perhaps from a worn plate. The wmk. (Crown A) and perforation are as usual.

**RUSSIA (618 S 634).**—We quote from the *Standard* (30.11.11).

**PORTRAITS OF THE CZARS.**

**NEW RUSSIAN POSTAGE STAMPS.**—A completely new issue of Russian postage stamps will be made in February, 1913, in commemoration of the Rom-

anoff tercentenary jubilee. For the first time in the history of the Russian postal system the Monarch's head will appear on the new postage of all denominations. The 10, 7, and 3½ rouble stamps will be abolished, as there is very little demand for them. In the new issue the highest denomination will be 10s. (5 roubles), and the lowest one kopeck.

On the one kopeck (farthing) stamps will appear the head of Peter the Great; 2-kopeck, Alexander II.; 3-kopeck, Alexander III.; 4-kopeck, Peter the Great; 7-kopeck and 10-kopeck, the head of his reigning Majesty Nicholas II.; 14-kopeck, the Empress Katharine II.; 12-kopeck, the Czar Nicholas I.; 20-kopeck, Alexander I.; 25-kopeck, Czar Alexander Michaelovich; 35-kopeck, Czar Paul I.; 1 rouble 50 kopecks, the Empress Elizabeth Petrovna; 70-kopeck, Czar Michael Feodorovich (the first of the Romanoffs); 1-rouble (2s.), the picture of the Kremlin; 2-rouble, the Winter Palace; 3-rouble, the Romanoff House in Moscow; and on the 5-rouble stamp the head of his Majesty Nicholas II.

**SIERRA LEONE (613 W 634).**—Several of our contemporaries are discussing the date of the first issue of special stamps. Gibbons says 1860, but *Le Timbre-poste* quotes a letter from the Colonial Secretary to the Postmaster, dated July 14, 1859, stating that the former has been directed to hand over to the latter twenty-five sheets, each containing 240 6d. postage stamps. The Postmaster replied on July 16, 1859, that he had no safe to keep them in, and no authority to issue them. These difficulties were evidently overcome, as on 21 Sept., 1859, the Postmaster reports to the Secretary of the General Post Office, London, that the stamps have been put on sale, and that some of the letters despatched by that mail have these stamps affixed to them.

Is there any reason to suppose that these stamps were other than ordinary British stamps? Judging from the Postmaster's letter of 16th July 1859 he knew nothing about the stamps till then. Yet if the stamps were Sierra Leone stamps, one would imagine he would have previously been consulted and would have been expecting them. In 1858 the British Postmaster supplied British stamps for packet postage to the various West Indian islands and judging from subsequent developments made a similar offer to other colonies, probably including Sierra Leone. This meant that instead of packet letters being prepaid in money, which involved stamping them at Liverpool or some other home port, they could be posted ready stamped. We have seen a good few letters stamped with the 6d. stamp of the 1857 issue postmarked Liverpool and addressed to towns in England and the explanation of the high rate of postage must be that they came from some over-seas port.

A new consignment of stamps from Freetown (30.10.11) fails to bring us any 1/- or 2/- in the new colours, and it is to be feared these are permanently out of issue. The Edwardian record to date is as follows:—

**Old Colours.**

- (31) Wmk. single Crown CA, ordinary paper. ½d., 1d., 1½d., 2d., 2½d., 3d., 4d., 5d., 6d., 1/-, 2/-, 5/-, £1.
- (32) Wmk. multiple Crown CA, ordinary paper. 1d.
- (33) Same but chalky. ½d., 1d., 1½d., 2d., 2½d., 3d., 4d., 5d., 6d., 1/-, 2/-, 5/-, £1. The first printing was in dark lilac, except the 1d. which was not issued in dark lilac until 11.06. Some time before 11.08 the 2d., 3d., 4d., 5d., 6d., appeared in pale lilac.

**New Colours.**

- (34) Wmk. multiple Crown CA, ordinary paper. ½d., 1d., 1½d., 2d., 2½d.
- (35) Same, but chalky. 3d., 4d., 5d., 6d., 1/-, 2/-, 5/-, £1.

The 1/- and 2/- of this last set (35) are now obsolete, and remainders of set 33 have taken their place. If the 1/- and 2/- new colours are not reprinted, they will become valuable.

**SOUTHERN NIGERIA (625 W 634).**—Some 2d. grey just received from Lagos (25.10.11) are slightly different in shade to previous importations, but the difference is probably due to the effect of the climate on the gum and the consequent slight staining of the paper. In the same way the paper of the 2/6 stamps gets greyer with each successive importation.

**TRAVANCORE (629 N 634).**—The date of issue of the official stamps is given by *Stanley Gibbons' Monthly Journal* (31.10.11/373) as 16.8.11.

**TURKS AND CAICOS ISLANDS (621 A 634).**—The Yvert catalogue intends to catalogue in future the variety of the late issue without watermark. The values ½d., 1d., 2d., 2½d. and 6d. are recorded by *L'Echo de la Timbrologie* (30.9.11/585).

The 1912 edition of Yvert and Tellier's catalogue considers that they "are of no philatelic value" and does not list them. The 1912 German catalogues do not refer to them in any way but probably went to press before they were issued. Gibbons lists them in full but prices none. Although the existence of these stamps may not be welcome, we do not see how they are to be ignored. In any case they will have an extremely small sale.

There are 74 illustrations, which are of considerable interest for advanced collectors as well as beginners. The book will be especially welcome to those collectors who are interested in the history of their hobby. It is really a marvel how Mr. Melville manages to find time to compile his many publications.

*The Proofs and Essays for U.S. Envelopes*, by Edward H. Mason, Boston (published by J. M. Bartels Co.), A Booklet of 40 pages.

*Katalog der Marken der Kaiserlichen Post in China*, compiled by P. Kleeberg (published by Paul Kohl, Ltd., 60 Pfennig). This is a price-catalogue of Chinese stamps, for specialists, published as a supplement to *China, seine Post und seine Freimarken* (2 Marks).

*The Retouched 2 Cent Envelope Dies of the Series of 1903*, by Louis G. Barrett, reprinted from the original articles in the *Philatelic Gazette*, New York, with additional new discoveries. (Published by J. M. Bartels Co.).

*El Correo* (Organo del Servicio Postal de la Republica). No. 1 (29.7.11) of this new journal reaches us from San Salvador. A serial article on the stamps of Salvador will commence with No. 2.

*Some Notes on the New York Postmaster's Provisional, Five Cents, Black, 1845*, by O. S. Hart, with an introduction by Hiram E. Deats, and a foreword by John N. Luff. (Published by P. McGraw Mann, Philadelphia). This work is well introduced, and the way it is got up pleases us. The "Some Notes" run to 60 pages.

*Price List for Specialists of the 1d. red, 1841, of Great Britain*, compiled and published by Walter Morley, October, 1911 (price 6d.).

*The Colonial Office Journal*, October, 1911. In addition to the list of forthcoming new Colonial stamps (which is unexpectedly shorter than usual), we find some interesting details concerning the Georgian stamps for the Crown Colonies. We read:

"Since our last issue H.M. The King has signified his approval of the use for the stamps to be issued by the Crown Colonies and Protectorates of the portrait adopted by the Indian Government, but without the mantle, and with the crown raised above the head, as in the stamps bearing the portrait of the late King. The border of the stamps, printed from the general keyplate, will probably be entirely altered.

"The engraving of the necessary key dies has been put in hand by Messrs. De La Rue & Co., but there is little hope that any of the new stamps will appear before March or April next, as the Government of India has recently extended its contract with Messrs. De La Rue & Co. for a further three years, and is making heavy demands upon the resources of the firm in connection with new dies and plates for the Indian stamps.

*Stanley Gibbons' Catalogue, Part I., British Colonies* (2/9 post free). This is now to hand, but we must defer review till next week. We think modern issues are unduly snubbed!

Railway Postage Stamps.

The Editor has just finished sorting the whole of his duplicates according to printings. There are 128 standard varieties listed in our Reference List, but by collecting printings these can be extended to about 800. The Editor has over 500 of these amongst his duplicates and offers them at the all round rate of 1/- per stamp nicely arranged in a collection on 56 large sheets with manuscript notes. Some are used, and a few of the rarer varieties are included. The Editor would be very glad to exchange with other collectors, and is mainly short of common recent varieties.

**Wholesale Lots and Special Purchases.**

KA Abyssinia, Postage Dues of December  
1908, inverted T overprint. Lot of 4  
complete unused sets, 50/-.

NOTE.—These are catalogued 27f. per set in the 1912 Yvert.  
Kohl's 1912 Handbook lists them, pricing the low values  
only.

KB Afghanistan, 50 unused sets of the 1909  
issue, 1, 2 abasi, 1 rupee. The lot £5 15s.

NOTE.—Yvert 1912 lists the 1 rupee at 4f. unused (3/3) but  
puts the 1, 2 abasi together at 1f. 50, apparently an error,  
for "1a." does not mean 1 ann (1d.) but 1 abasi, one-third  
of a rupee. Senf 1912 quotes 7 M 50 (7/6 per set);  
Gibbons' 1912 8/3 per set.

KC Afghanistan, 50 unused sets of the 1909  
issue, parcel post stamps. The lot 250/-.

NOTE.—Gibbons' 1912 price is 10/10 per set; Yvert 1912 quotes  
17f. 50 (14/-) and Senf 1912 14 Mark.

KD Afghanistan, 50 unused 1/4 rupee Parcels,  
1909 issue in one lot 25/-.

Gibbons 10d.; Senf M. 1.50.

KE Afghanistan, 57 unused 1909 Parcel 1 rupee  
stamps, in one lot, 65/-.

Gibbons 3/-, Senf M. 3.50.

KF Afghanistan, 27 unused 1909 Parcel 2  
rupees stamps, in one lot, 65/-.

Gibbons 5/8, Senf M. 6.50.

KH Afghanistan, 21 unused 1909 Parcel 1/4 rupee  
stamps in the new silver-grey shade, 25/-.

Not yet catalogued anywhere.

KI Aitutaki on N.Z., 2 sets 1/4d. to 6d., mint, 2/7.

KL Argentine, 18 4c. San Martin mint, at  
face, 1/6.

KM Australia, 1909 Dues, useful lot of 60 sets  
1/4d., 1d., 2d., 3d., 4d., offered at face  
value if all taken in one lot; otherwise  
10% over.

KT Bavaria, 15 sets of 2, 3, 5, 10 pf. greenish-  
grey postage due (S.G. 316 to 319, 2 pf.  
unpriced; others 7d.). The lot 5/6.

NOTE.—The 2, 3 and 5pf. are all on white paper, the 10pf.  
partly on white and partly on toned paper. Gibbons'  
catalogue (1912) distinguishes between the old toned and  
the new white paper in the postage stamps but not in the  
dues. These stamps are now obsolete.

KU Bavaria, 3 mint sets of the old embossed  
stamps, 2 pf. to 1 mk., face value 11/-  
for 12/-.

KW Bavaria, mint set, 2, 3, 5 mark, wmk. horiz.  
wavy lines. (S.G.'s issue of Dec. 1911!).  
mint, 11/8.

KY Bechuanaland, 1/4d. yellow-grn, Edwardian,  
two bottom rows of sheet with control  
F6, 1/9.

LB Bolivia, 81 mint sets 1, 2, 5, 10c. Centenary  
issue, the lot, 34/-.

LC Bolivia, 7 mint 5c. red 1901, 9d.

LD Bosnia, 2, 5 kr. perf. 9 1/2 (S.G. 206 10/-, 207  
15/-); the mint set of two 8/- (less than  
third cat.).

LE Bosnia, an attractive set comprising no  
fewer than eight values all less than a  
penny in face value, 1, 2, 3, 4, 5, 6, 7,  
8 heller, the only such sequence ever  
issued (?). Gibbons 401 to 408, un-  
priced; 66 sets, 22/- or 4/6 per doz. sets.

LF Bosnia, dated 1830-1910, set of six low  
values, 10 sets, also one copy each 30,  
35, 40, 45, 50h., 1 kr., the lot 6/6.

LG Brazil, 15 mint copies of the 200 reis Pan-  
American, the lot 5/- (cat. double).

LI British Honduras, 60 1c. ordinary and  
chalky, various shades, mixed, 3/3 the lot.

sheets, various shades, 10% over face  
(£6 5/-)

LR Cayman Is., 39 1/4d., 4 1/4d., 18 1d. unadhe-  
sives, unused, cut square, wide margins,  
10% over face.

LS Ceylon, King Edward, old colours, 25, 30,  
75, 1r. 50c., 2r. 25c, five mint sets, 39/-.

NOTE.—The 25c. included in this set is the 25c. yellow,  
multiple wmk., one of the "surprise packets" of the  
1912 Yvert catalogue. Though only 4d. in face, it is  
catalogued 7/- unused and 1/- used. Thumin's 1912  
catalogue quotes it the same, but Kohl's 1912 price is  
only six times face value.

LT Juan Fernandez, 10c. on 1s, seven mint  
and 20c. on \$1, 54 mint, offered in one  
lot at 10% over face.

LV China, 88 mint copies of the obsolete 2c.  
red, offered in one lot at 10% over face.

LX Colombia, 1/4c. deep yellow, S.G. 457b, mint  
block of 5 rows of 5. The first vertical  
row is perforated at each side with  
smaller holes (though usual gauge). The  
block 1/6.

LZ Curacao, sheet of 100 2½c. postage due (green and black), mint, 4/10.

MB Ecuador, 14 sets of the June 1908 issue, mostly triangular stamps, S.G. 331 to 337, cat. 8/9 per set. The 14 sets for face value, 4/- per set.

The 1912 Yvert quotes the set 10f.25c. and the 1912 Kohl handbook at a halfpenny under 10 Marks.

MC Ecuador, a useful lot of the Exhibition set of 1909, all mint, 25 sets 1c. to 20c. and 7 \$1. The sets are cat. by S.G. 2/- and the \$1 5/-, making a total of 85/-. Our price 35/-. (Rather less than we paid but we have to make room for New Issues!)

NOTE.—Yvert's price is 3f.70 (about 3/-, much more than Gibbons) but on the other hand only 2f. for the \$1. Total 106f.50, or 85/-, same as Gibbons.

MD Ecuador, Exhibition set of 1909, all mint, 14 sets complete to \$1 also four \$5 and one 5c. on 50c. provisional, cat. by Gibbons respectively 9/6, unpriced, and 11-. Taking the 5 sucres at Senfs 1912 price 10/-, the lot totals 174/-; our price 75/- only.

ME Falkland Islands, King Edward, 6 mint sets ½d. to 6d. for 7/-.

Notes.

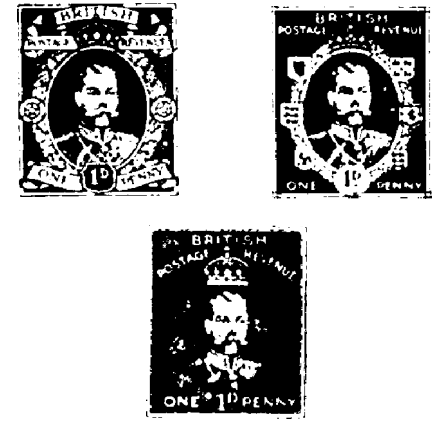

The *Hospital* (23.9.11/659) illustrates a number of "seal-stamps" and asks the question:—"Are 'Seal-stamps' a possible source of revenue for Hospitals?"

\* \* \*

The *Strand Magazine* (10.11/432) devotes several pages to illustrations of foreign stamps altered by substituting an English inscription and the portrait of His Majesty the King. Some of the "stamps so produced are very effective, especially the Italian and Mexican, Nos. 15 and 16.

Here are some more experimental designs!

The third is an adaptation of the current French stamp.

Correspondence.

The Editor, *Ewen's Weekly Stamp News*,  
1st October, 1911.

DEAR SIR,  
I received the following letter from the Hon. Secretary of the North of England Philatelic Society, the contents of which I am sure will be received with universal satisfaction:—

NORTH OF ENGLAND PHILATELIC SOCIETY,  
Whitley Bay, Northumberland.  
25th September, 1911.

Franz Reichenheim, Esq.,  
Hon. Sec. Permanent Congress Committee.

Dear Sir,—  
At the Annual General Meeting of this Society held on the 21st inst., it was decided unanimously to invite the Philatelic Congress to be held in Newcastle in 1915 and I was instructed to inform you that a motion to this effect would be brought forward by our Delegates at the next Congress.

Yours faithfully,  
(Signed) HUGH R. VIALI,  
Hon. Secretary.

I sincerely hope that another Society will soon come forward and issue an invitation to hold the Congress in 1914, thus assuring the holding of Philatelic Congresses of Great Britain for the next four years.

1912 Margate.  
1913 Edinburgh.  
1914 ?  
1915 Newcastle.  
Yours faithfully,  
FRANZ REICHENHEIM,  
Hon. Secretary.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.—Edwardian Issue (634 K 635).**—The sixpenny Somerset House printing is now out in a third distinct shade, apparently produced by a mixture of the inks used for the two preceding editions.

Somerset House print. Ordinary paper. 6d. plum-lilac, perf. 14.

- (a) pale shade.
- (b) very dark shade.

Issued 16.11.11 or earlier. The sheets are precisely as before, with the usual "11" cut, and also cuts under the 2nd and 4th stamps in the bottom row.

**Colour names wanted.**—What will the new sixpenny shades be called? They remind us of the three sixpennies issued in the summer of 1868 (it was twenty-five years afterwards that we made their acquaintance), which we catalogued as dull violet (and later as lilac), bright lilac and mauve (or violet). To-day we should be disposed to say lilac, heliotrope and mauve. Gibbons' catalogue has never listed the second shade (which was only in use six weeks or so) but calls the first lilac and sub-divides the third into purple and bright violet. In the present case we have chronicled the three S.H. prints as dark plum, dull purple and plum-lilac, but the first shade by contrast with the others is bright and not dark. How would bright plum, lilac and plum-lilac do? Suggestions invited!

The record of the provisional printings is now as under:—

### Edwardian issue, printed at Somerset House.

There is a double cut "11" (representing 1911?) under one of the stamps of the bottom row of each sheet; it is generally under the 11th stamp in the row.

### EXPLANATION OF ITALIC LETTERS.

The Italic letters describe the marginal lines.

- (a) No marginal lines at all.
- (b) Continuous line, sometimes broken at corners of panes or to facilitate the division of the sheet.
- (c) Irregular series of short lines round pane.

- (f) Short line opposite each stamp, except over the two middle stamps of the top row and under the two middle stamps of the bottom row of the sheet. The two stamps in each case have three bars, — — — (short, long, short), the long bar being usually accompanied by an ornament.
- (m) Lines rounded at corners.
- (n) Lines square at corners.
- (o) Lines broken at corners, space filled in with bar.
- (p) Lines broken at corners, space not filled in.
- (s) Lines at sides only.
- (w) Horizontal pillars, shaded with lines, on inter-pane margins or "gutters."
- (y) Vertical pillars, shaded with lines, on inter-pane margins or "gutters."
- (z) Spaced parallel lines on gutters.

The marginal varieties may seem very complicated, but there are really very few of them, as may be judged from the fact that in some cases (the 5d. for instance), the duty portion of the Edwardian stamps is still being printed from plates made for the Victorian issue of 1887. The above nomenclature is an adaptation of that published in E.W.S.N. No. 383 (26.1.07).

**Shades.**—We have written above of the 1/- in "first" and "second" shades, meaning the stamps with black-green and myrtle-green centres, but we are inclined to think they are all one printing. The black-green centre usually accompanies the dark rose frame with blotchy scrolls, but not always; we have it with a clearly printed pale rose frame. We also have the myrtle-green centre with the frame showing the blotchy scrolls, though it is usually accompanied by the paler rose and clearly printed frame. In all probability both the green and the rose inks became paler as the printing proceeded, but the sheets may perhaps not have been printed with each colour in the same order.

**Georgian ½d. variety.**—Mr. Philip F. A. Walter has drawn our attention to an interesting peculiarity in a ½d. Georgian stamp. The value in each upper corner is ordinarily on lined ground; in the specimen in question the ground is solid, only 1 mm. on either side of the crown being lined. Our illustration gives a very good idea of the variation. We have since seen other specimens showing this peculiarity—one is postmarked Norwich, 16.11.11—and all are in a very dark shade of green, decidedly darker than any shade we have previously come across. It is probably another case of "blotchy" printing.

**Inverted Watermarks.**—As several readers write to report the Georgian stamps with inverted watermark, we may repeat that these are quite common and are found in the stamp booklets. The following Harrison prints are known:—

**Harrison prints, inverted watermark.**  
Edwardian ½d., 1d., 2½d.  
Georgian ½d., 1d.

The 2½d. are rare, not being obtainable in booklets. Some of the booklets are very unevenly cut and show at the right edge of the pages a trace of a 4th row of stamps. If sufficient of this 4th row can be secured, it will be found to be inverted, the explanation being that the stamps are printed in sheets having each row arranged as follows.

Row of stamps in booklet sheets.  
I A A A V V V I ≡ I A A A V V V I

The "A" here represents the stamps and the other bars the marginal lines. If a page be taken from a stamp booklet, it is possible to tell whether the stamps are the first, second, third or fourth group of three.

**Stamps.**  
1, 2, 3 Normal wmk., plain margin at left.  
4, 5, 6 Inverted wmk., barred " "  
6, 8, 9 Normal wmk., " " "  
10, 11, 12 Inverted wmk., plain " "

Each of these variations is issued in equal quantity. But it is only in very exceptional cases, when for instance a sheet is badly cut, that any trace of the tête-bêche formation can be observed.

**Are sevenpennies unpopular?**—A correspondent writes:—

"It is probable we shall have no Harrison prints of the 7d. King Edward stamp, as the following notice appeared in the "P.O. Circular" about ten days ago:—

'There is reason to believe that the 7d. adhesive postage stamp, which is issued chiefly

for the prepayment of parcels and telegrams, is not being properly utilised, as there is a large stock in hand. Every opportunity should be taken during the next few months to use 7d. stamps, not only for rates of 7d. but also for such rates as 7½d., 8d. and 8½d.'

**Another Shilling Variety.**—Mr. F. Brewer sends us a copy of the 1/- Somerset House print with the letters EVE of Revenue joined together at the top. It is from the top row of a sheet.

**Early Date.**—We are informed by Mr. Oswald Marsh that he has the 3d. perf. 15 x 14 postmarked 25.9.11, three days earlier than we had recorded.

**Variety of 1d. Georgian.**—Messrs. A. J. Murnaghan & Co. sends us (13.11.11) a variety of the 1d. Georgian, in which the "A" of "Postage" has no left foot.

**Stationery (631 W 635).**—Mr. H. Rehlen sends us a note of some new dies and an earlier date, so we take the opportunity of publishing a revised list of what has yet been reported:—

2½d. blue; in block of four, 5/-  
" " in block of twelve, 6/6.

**GREAT BRITAIN.**

Unchronicled halfpenny variety.

Purchased Anerley Road, 16.11.11.

½d. Edwardian perf. 15×14, the 10th stamp in the 18th row has both side outlines broken. In the normal stamp one of the leaves at the left of the portrait extends outside the inner frame and touches the left outline of the stamp; in this stamp no leaf extends outside the inner frame. The variety appears to occur on all sheets with white dot on the first 1 of "A11" and with cut in the line to right of the bottom row of the sheet.

In mint strip of three, 6d.  
In corner block of twelve, 1/-.  
Bottom 3 rows of sheet, 2/3.

**GREAT BRITAIN.**

Issued 16th November 1911 or earlier.

6d. dull plum, mint, 9d.; block, 3/-; dozen, 8/6.  
Same, darker shade, mint, 7d.; block, 2/4; doz., 7/-.

All are perf. 14, and margins show continuous line round panes.

**GREAT BRITAIN (‡)**

Edwardian ½d. perf. 15×14.

½d. pale green, 1d.; block, 3d.; dozen, 7d.; control letter A11, 9d.; if in pairs or blocks, 1d. each extra stamp.

½d. deep green (smudgy impression), block of four without margin, 1/-.  
This is a most mysterious block; all we have show a black dot (a new secret mark?) between the lower stamps of the block.

**NEWFOUNDLAND (x)**

The rare error "NFWF . . ."

We have found the following returns from our New Issue Service which had been put aside and overlooked. There are only ten copies of the error in all.

**SOMALILAND.**

A rare variety.

The demand for the 12 annas just issued on chalky paper was so large that our correspondent was only able to send us just over half the quantity we ordered, and consequently we are unable to offer the stamp wholesale at any price.

The few copies left over from our New Issue Service (which is completed at the usual small percentage) are offered at 1/6; block 6/-. Not more than a block can be supplied to anyone.

**ST. LUCIA.**

Second printing of the chalky.

6d. lilac, mint, 7d.; block, 2/4; per dozen, 7/-.

The value is in a slightly different shade and if damped tends to turn pink.

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

In all cases the dates given above are the earliest we have noted and may be later than the actual dates.

Railway Letter Stamps (632 E 635).—The following new printings have been received:—

Belfast & County Down, reissue of stamps in the first type, with thin bar under D of 2d.; the stamps are however a new printing.

Wirral Railway. This is one of the two Companies which has an entirely unorthodox design (the other being the Londonderry & Lough Swilly of Ireland). Second printing, slightly different shade.

The Editor is very anxious to purchase unused specimens of the G.E.R., G.W.R., L. & N.W. and Midland Railways in blocks or sheets, issues of the last five years, especially the current issue, and will pay 100% premium or more.

AUSTRALIA (633 C 635).—Two more letter-cards reach us:—

Georgian stamp.

Letter Cards.

1d. slate-green on greenish-grey. W.A., Zoological Gardens, Perth.  
1d. slate-blue on greenish-grey. N.S.W., Sydney Harbour.

Issued 11.10.11 or earlier. The colour of the letter-cards seems at last to have become fixed on greenish-grey.

Correction.—In E.W.S.N. No. 633, in the list of views found on the new picture post-cards, read "River Yarra" for "River Farra" and "Flinders Str." for "Hinders Str." The views are printed on the back from half-tone blocks and in at least five shades of black, blue-black, brown-black, purple, etc. We do not propose to chronicle these shades. It is a different matter of course when the front of the card, including the stamp, varies.

Later.—Under date of 18.10.11 our Melbourne correspondent sends us some more varieties of the letter-card. The issue on "greenish-gray" card has after all come to an end, for these are on a clear gray, almost a bluish-gray or slatey-gray.

Letter Cards. Georgian stamp.

1d. dark blue on grey. View at back. Queensland, Albert Bridge.  
1d. reddish plum on grey. S.A., Viaduct near Adelaide. Vic., Giant red Gum. Q., Pineapples.

The first and third of these views are new. Issue of reply letter-card.—The new reply letter card is printed on the front approximately as follows:—

COMMONWEALTH OF AUSTRALIA.

[Australian Arms.] REPLY LETTER CARD

For transmission within the Commonwealth only.

[Space for address.]

The Address only to be written on this side. TO OPEN THIS CARD TEAR OFF AT THE PERFORATIONS.

Reply letter card. Inscribed on front approximately as above, but the inscription below the address is in one line only; inside a smaller card, same inscription and "REPLY" at left side, reading up. Both with zigzag roulette.

1d. dark violet on manilla card. The outer card has a view of "Hobart, from the Bay," and the inner card of "Viaduct, near Adelaide, S.A."

Issued 18.10.11 or earlier. Our quotation for the reply card (1st issue) is 6d. Any reader who is interested in this Australian stationery is invited to write us, as our correspondents send us two or three duplicates of most varieties. We can send any we may get in duplicate for purpose of selection.

BELGIUM (629 X 635).—The remainders and used stamps which we described in detail in E.W.S.N. No. 627 have been sold by auction and realised a total of 60,000 francs. The list which we gave then (on the authority of L'Echo de la Timbrologie, 16.9.11) now appears to have been incomplete and we give here, with a note of the prices realised, a new list, also taken from our French contemporary (15.11.11/687).

REMAINDERS AND USED STAMPS SOLD BY THE BELGIAN GOVERNMENT.

(Prices from Stanley Gibbons' Catalogue.)

Issue of 1869-80.

Catalogued.	Quantity Sold.	Realized.

Although the prices realized appear low there need be no apprehension of a fall in catalogue value, as the small stock will be quickly absorbed and in any case only one of the many shades of each value is concerned. The probability is that the other shades will now become more valuable.

Although prices may seem low compared with catalogue prices, it is not likely that the purchasers will accept much less than current market rates, except perhaps in the case of the two exhibition issues. In the case of the issues before 1894, the sale may stimulate collecting and actually lead to an increase in market values, especially of those stamps required to complete sets.

In addition, 5,004 letter-cards of 1888 brought 16/- the lot and 138 stamped envelopes of 1873 only 4 1/2d! Some 810 1 and 2 franc stamps without the Sunday label actually brought in 32 francs.

BRITISH HONDURAS (629 O 635).—The following has now been issued.

New Colour. Wmk. multiple Crown CA., chalky paper.

25c. black on green, marginal plate No. 2.

Issued 1.11.11 or earlier.

CHARKHARI (634 F 635).—The sheets of 1 pice stamps referred to last week show the following defects:—

- 3rd row, No. 8. Scratch over TE of State.
- 5th " No. 8. Horizontal bar over the "1" of the native value.
- 8th row, No. 7. The "1" of the native value is dotted.

The setting is, of course, a new one. The printings of this stamp which we have noted are:—

- March, 1909. 1 pice, brown. [E.W.S.N. 500].
- June, 1909. 1 pice, turquoise blue, type i., with value in long native characters. [E.W.S.N. 509].
- Sept., 1910. Same colour, but type ii., with value in short native characters. [E.W.S.N. 575].
- October, 1911. 1 pice, very pale blue, type i. again. [E.W.S.N. 634].

The face value of an entire sheet is 1 rupee (1/4).

**CAYMAN ISLANDS** (633 O 635).—Mr. A. C. Roessler asks:—"Has it been noted that the name plate of Cayman Islands comes in two varieties? The most distinguishing feature is the 'M'; the middle leg is short on the 2½d., 3d., 6d. and 1/- and long on the ½d. and 1d. All the long are thick letters, such as already noted in Northern Nigeria."

**CHINA** (623 J 635).—Another value has been added to the postage due set in brown.

Postage due stamps.  
2c. brown.

Issued 2.11.11 or earlier. The other value of the set is the 1c., issued 1.8.11 or earlier.

**FANNING ISLAND** (B 635).—We quote from the *Daily Mail* (17.11.11):—

"PURCHASE OF AN ISLAND.  
Victoria (British Columbia),  
Thursday.

Fanning and Washington Islands, in the Pacific, have been purchased by British and Canadian capitalists for £70,000 to serve as a port and coaling station on the opening of the Panama Canal.

Mr. C. N. Armstrong, of Montreal, is the head of the syndicate, and arrangements may be made for the establishment of a British naval base there. Fanning Island is ideally situated for a central station on the All-Red route from Britain and Canada to Australia and New Zealand."

With reference to the above, we may quote from a letter which the Postmaster of Fanning Island wrote us in 1907. He stated that a Post Office was opened there in 1902 by the New Zealand Postal Department, as a favour to the Pacific Cable Board, and that ordinary New Zealand stamps were issued. There is a mail from Fanning Island about six times a year, and at the time our correspondent wrote there was no prospect of distinctive stamps being issued, as the island was "too unimportant." Judging from the above newspaper cutting, it may soon no longer be considered so.

**GAMBIA** (627 H 635).—We have now received the new 3d. referred to in *E.W.S.N.* No. 618 (29.7.11) and also new shades of the 5d. and 6d. We are not sure whether this is not another manifestation of the mysterious purple which turns pink (referred to also under Gold Coast and St. Lucia) but it is certainly a very distinct shade, though less obvious in the case of the 5d. as its use is confined to the name and value. Perhaps too there may be some connection between this change and the several purples to which Somerset House has introduced our own 6d. British stamps. Has some one invented a new purple ink with chameleon tendencies?

New Shades. Wmk. multiple Crown CA, ordinary paper.  
3d. bright purple on yellow (instead of dull brown-looking purple).  
5d. orange and bright purple.  
6d. bright purple.

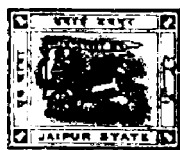

Issued 3.11.11 or earlier (the 3d. is probably that referred to in *E.W.S.N.*, 29.7.11.) Our previous importation of March 1911 brought the old shades.

**GOLD COAST** (634 J 635).—We are informed by Messrs. A. J. Murnaghan & Co. that they have the current 6d. in lilac and carmine "similar to the current Fiji CA." It is postmarked "Coomassie" and was received in England about 11.11.11.

We are inclined to think that the authorities are printing the name and value of the 6d. "all purple" stamps in a different kind of ink which turns pink when exposed to water or even damp. We have, for instance, the 6d. St. Lucia with value which might almost be called "carmine," yet we know that it was torn off a sheet in our possession, about which there is no carmine at all!

**ITALIAN P.O., BENGASI** (631 B 635).—The recently chronicled 25c. stamp is reported by a reader to have been out of stock at the G.P.O. on 5.11.11 (or before) and no more are to be printed. It is not quite clear why any were printed at all. Letters from the Italian soldiers at Bengasi are franked with ordinary unsurcharged Italian stamps and postmarked "Bengasi, Posta da Campo" and date ("Camp Post Office").

**JAIPUR** (561 Q 635).—A Dublin reader shows us a provisional ¼ anna stamp, issued in sheets of six, ungummed and imperforate.

Design as above but inscribed "¼ ANNA" at right side; very roughly drawn, each stamp on the sheet of six being drawn separately; the inscriptions are type set. ¼ anna, olive-yellow, imperf.

Issued before 25.10.11. The stamps are printed in a sheet of six types which may be distinguished as follows:—

- Types.
- |   |   |  |
|---|---|--|
| 1 | 2 | The figures 1 and 4 of the fraction                            |
| 3 | 4 | "¼" in each corner of the stamp                                |
| 5 | 6 | have serifs, except the figure 4 in the positions noted below. |
- Type 1. The 4 in S.W. corner has no serif at foot; horse has five heads.  
Type 2. The 4 in each lower corner has no serif; horse has four heads.  
Type 3. The horse has five heads and the two fore-legs are double-lined.  
Type 4. The 4 in each right-hand corner has no serif; the horse appears to have six heads but they are badly drawn; the 1 of "Jaipur" is "dropped."  
Type 5. The 4 in S.E. corner has no serif. The horse has five heads.  
Type 6. The 4 in S.E. corner has no serif. The horse has four heads. This is the only one of the six types in which the 4 of the inscription at right side has a serif.

The stamps differ, of course, in many other respects.

It would be interesting to know when these provisionals appeared and whether there were others. It is not much use writing to Jaipur as our correspondents there have not yet replied to letters addressed to them in March last.

**LIECHTENSTEIN** (632 C 655).—We are informed by the authorities of this Principality that the special issue of stamps will comprise the values 5, 10 and 25 heller and will be issued on 1.1.12. Orders should be sent to Vienna and not to Iaduz. At present ordinary Austrian stamps are in use.

**MOROCCO AGENCIES** (634 W 635).—In our history of the 50c. single watermark last week, we should have stated that the copies which were sent to Tangiers to be postmarked are dated 26.1.06.

**NATAL** (634 C 635).—With reference to our note on the 30/- orange and lilac, in last week's *E.W.S.N.*, Mr. Leonard Brand writes us that at Gilbert and Köhler's recent auction in Paris, a mint specimen realized no less than 850 francs or including the buyer's fees and note 875 francs, roughly £35! Moreover the stamp is reported to have changed hands after the sale at 2000 francs (£80!), though this our correspondent has not been able to verify. Even if its next owner paid £50 and this price is maintained in the future (and we recall an almost exact parallel in the case of the £1 Anchor unused of Great Britain, which suddenly jumped from £5 to £50 about fifteen years ago and is now cheap at £80), present owners of this stamp may congratulate themselves. As stated last week, we imported only 31 unused copies, at the time of issue. These cost the Post Office next to nothing to print so we may apportion the profits as follows:—

	£	s.	d.
Received by printers, say 31d. ...	0	2	7
Nett profit of Natal Post Office ...	46	7	5
Our share, 31 @ 5/- ...	7	15	0
Subscribers' share, 31 @ £48 5s. ...	1495	15	0

Total 31 at £50 £1550 0 0

It will be seen that the printer gains least and we gain very little ourselves, and our own portion is counterbalanced by salaries and loss in publishing *E.W.S.N.*, so please don't grudge the small subscription which "it is no economy to save!" Another unexpectedly rare Natal stamp is the 1/- blue and rose with multiple watermark. In France it is quoted 20 francs unused (16/-) and Gibbons quotes it at 12/6, but we feel sure that a very slightly increased demand would find the market short of supplies. We, for one, do not possess a single copy, though at the time of issue (9.05) Ewen's New Issue Service distributed it at 1/2.

**NEWFOUNDLAND** (631 N 635).—It seems that about 2,000 of the rare lithographed sets of the Guy issue were on sale this summer at the Newfoundland pavilion at the Festival of Empire, Crystal Palace, at face value only, and although we visited the pavilion, which is less than half a mile from our offices, we never discovered the fact! The sets included the rare

6c. with normal Z! Someone else discovered them, and almost everyone seems to have had a share of them except ourselves. They were followed by the Coronation issue, which was on sale at a penny or two over face value down to the close of the Festival of Empire.

The record of the Guy issue, apart from proofs and freaks, is probably now complete, and may be set out thus:—

*Guy issue, lithographed.*

- (31) perf. 12. 1, 2, 3, 4, 5, 6, 8, 9, 10, 12, 15c.  
There are two types of the 6c. with Z normal or reversed.  
(32) perf. 12×11, 1c.  
(33) perf. 12×11½, 2c.  
(34) perf. 12×14, 1c., 2c.  
(35) perf. 14×12, 5c.

NOTE.—The 1, 2 and 5c. were printed in sheets of two panes of 100, each 10 rows of 10 and the other values in sheets of one pane only. On stamp No. 41 of the second pane of all the 1c. there is an error, very clear, "NEWFOUNDLAND" (P for B in "NEW"). There are also minor defects in several values.

*Guy issue, engraved.*

- (36) perf. 14, 6, 8, 9, 10, 12, 15c.

The 10c. of the Guy set became obsolete in July, 1911, and Mr. A. C. Roessler reports to us that on 14.10.11 the 8c. was also no longer obtainable.

As regards market prices, the 1912 Gibbons is a little anticipatory in the prices of the engraved 6c., 9c., 12c. and 15c. which are still current, along with the lithographed 1, 2, 3, 4c., perf. 12 and 5c. perf. 14×12.

The 2c. perf. 12×11½. —Gibbons' price for this stamp (2d. unused) is a mistake; our price is now 7/6. Although we searched all over Newfoundland for this variety, we could only find two sheets, purchased at Hearts Content in May, 1911. A month later, when we enquired again, only the 2c. perf. 12×12 were in issue there, and we never got on the track of this variety again.

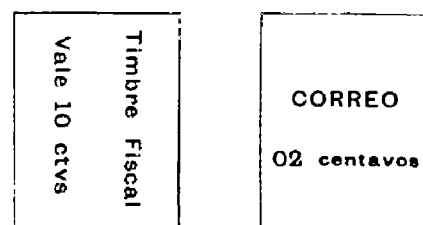

*Quotations in France.*—As Yvert rarely distinguishes between gauges so close as 11, 11½ and 12 we find a distinction drawn in the new edition only between perf. 12 (i.e. perf. 11, 11½ or 12) and perf. 12 with 14. The 1c. perf. 12×14 is quoted 1f. 50 used and unpriced unused, which compares with Gibbons' 1912 price of 9d. used, no price unused. The cheapest quotation we have seen for it unused is our own of 4/6.

On the 13th July, 1911, an extraordinary mistake was made by Ewen's New Issue Service. The rare 1c. perf. 12×14 exists with the error "NFWF . . ." and we distributed it in a block of four for 5/- instead of 50/-! To the best of our belief only about 100 of this error ever existed perf. 12×14 and even a block of four of the ordinary variety would be worth 18/- and with the error would have been cheap at 50/-. But to supply at 5/-!! However, it is "no use crying over spilt milk." Our present price for the "NFWF" error is:—perf. 12, 10/-; perf. 12×14, £3; perf. 12×11, 35/-.

*German Quotations.*—"German thoroughness" and attention to detail is not much in evidence here. The 1912 Senf only refers to the perforation varieties in a footnote and records the 5c. perf. 12×14 which does not exist and omits the 2c. perf. 12×11½ which does. Even the Kohl Handbook is at fault in omitting the latter and as it makes no quotations it is not of much help to the collector.

Time will probably reveal the 10c. engraved to be one of the best stamps of the Guy issue though it is hard to prophecy, as local speculation, which has been on a considerable scale, is a difficult factor to gauge.

**NICARAGUA** (632 E 635).—The recent issue of railway stamps surcharged on the face for fiscal use and on the back for postal use has given way to another issue. The stamps made use of are still the railway stamps with sideways fiscal overprint, but the postal overprint, instead of being on the back, is now on the front, and in all our specimens upside down, we suppose the better to avoid confusion with the other inscriptions.

(i.) (ii.)

Railway stamps surcharged firstly as i. and secondly as ii., the latter upside down.  
02c. on 10c. on 1c. vermilion, surcharged black. Issued 6.10.11.  
20c. on — ? Issued 6.10.11.  
50c. on — ? Issued 18.10.11.

The stock of 2c. on back of 2c. and 15c. is now exhausted. For above particulars we are indebted to Mr. A. C. Roessler.

**NORTHERN NIGERIA** (628 C 635).—The following have now been issued.

**New Shade.**

1d., brighter carmine than the first printing; wmk., multiple Crown CA.

**New Colour.**

2d. grey, wmk. mult Crown CA

Issued 26.10.11. or earlier. The set of "new colour" stamps is therefore now complete.

**PAPUA** (634 N 635).—A dealer writes us:—"I am very interested in your price list of Papuas and from my own experience I think you have fairly gauged the market values of most of the values. I have however found until recently that the 1/- issue 5 or 6 was offered me, more frequently than issue 7 or 8, and I think S.G.'s new prices confirm this."

Gibbons quotes the 1/- sideways perf. 11 at 3/- and the perf. 12½ at 4/-, as against our 7/6 and 3/6 respectively. Yvert backs us up with quotations of 10 francs and 3f. 50c. respectively. The importations of Ewen's Colonial Stamp Market, Ltd., also confirm the latter figures; roughly speaking, 4,500 were received perf. 12½ and 500 perf. 11 (some of which were "OS"), all wmk. sideways. We had to buy the perf. 11 at a considerable premium, to complete the New Issue Service distribution, and of the perf. 11 "OS" only our earliest subscribers received specimens.

Mr. H. Firth writes (18.11.11):—"I beg to thank you for the very interesting price list of Papuan stamps which appears in your to-day's paper. As to the invitation to your readers to give their opinions on the quotations, I venture, as a large number of these stamps have passed through my hands, one or two remarks on your prices and the prices in the recently issued Catalogue of Messrs. Stanley Gibbons, Ltd. I regret this firm does not quote the "Rift" variety, which will I believe eventually turn out to be a stamp much sought after. Taking your prices as a whole, I think you are not far out, the stamps where I think you are just on the dear side are the following:—1d. Nos. 1, 2, 5, 6; 2d. Nos. 1, 2, 5, 6; 2½d. Nos. 1, 2, 5, 6; 4d. Nos. 5, 6; 6d. Nos. 5, 6; 2/6, 5, 6."

"As to the 1/-, your Nos. 3 and 4, I consider your price of 15/- is right and Gibbons No. 63 too low at 12/6. Then the 1/-, Nos. 5 and 6, Gibbons (71) price of 3/- is rather interesting, when we find their quotation for 79 (your No. 7 & 8), is 4/-. The former is a much scarcer stamp, and I think your prices are very near the mark. Your "Rift" prices all appear to be reasonable. Stamps to look out for are 2d., 2½d., 1/-, your Nos. 3 & 4; 2½d., 6d., Nos. 7 & 8; 1/-, Nos. 5 & 6."

**Unicoloured 2½d. and 6d.**—Under date of 6.10.11 we have now received a small advance consignment of these and find that all have Adelaide Crown A watermark inverted (our issue 28). Like the ½d., 1d. and 2d. already issued, they are in sheets of 40, 8 rows of 5 with monograms CB and CA on the lower margin.

**Postmarks or Control Marks?**—It has never been generally known (and we ourselves did not know it until a year or two after the rule had been in force!) that the Papuan P.O. sold its official stamps to the public in mint condition and in sheets if desired, but postmarked. The stamps were only postmarked at the time of issue, so that the postmark cannot be considered otherwise than what it appears to be. At least that was the state of affairs down to October 1910, when the effect of Lord Crewe's famous circular to Postmasters made itself felt at Port Moresby. Stamps were not to be "postmarked to order" and consequently "OS" stamps could no longer be supplied. A few days before this prohibition came into force we secured 300 sets of the rare issue of August 1910, all "O.S." and postmarked 11.10.10 and until lately these were the only specimens on the market, and as the unicoloured stamps were announced, it was fully anticipated there would never be any more of these particular "OS" stamps in mint full gum condition. Of course "no gum" copies could be obtained, as a fair number are used on official correspondence.

For some reason or other the policy of prohibition has been changed and under date of 22.8.11, the Papuan postmaster circularized the philatelic world announcing his readiness to supply official stamps *postmarked*. But apparently not as before. The postmark now placed on the stamps appears to be in the nature of a control mark, for the stock on hand has been surcharged with it *before it has been sold*. The dates appear to us therefore to be of special interest and if the postmaster does not make too many varieties, we shall be disposed to list them. We have just received by the last mail the following:—

Papuan "OS" stamps.  
With postmark control. Issue of 1909, wmk. sideways.

2½d. perf. 11.	Issue 6	Control 26.8.11.
Issue of August 1910, wmk. upright.		
2½d. perf. 12½	Issues 13, 14	Control 5.10.11.
4d. perf. 12½	Issues 13, 14	" 28.8.11.
6d. perf. 12½	Issues 13, 14	" 28.8.11.
"	Issue 13	" 29.8.11.
1/- perf. 12½	Issues 13, 14	" 21.8.11.

Uni-coloured Issue.		
½d. green	Issue 28	Control 5.9.11.
"	"	" 6.9.11.
1d. rosine	"	" 5.9.11.
2d. mauve	"	" 6.9.11.

All these were issued over the Post Office counter to our agent at Port Moresby on 6.10.11 or more than a month after most were postmarked. It looks extremely as if a whole stock of official stamps was created and control-marked between the dates of 21.8.11 and 6.9.11 (cf. date of circular 22.8.11), only the 2½d. violet, issues 13, 14 of this first supply having as yet run out. Possibly the whole remainders of the bicoloured 2½d. and 6d. have been so treated to make way for the unicoloured issue. Will readers, having any new dates, please report them?

**Unicoloured 1/-.**—Under date of 7.10.11 a Port Moresby correspondent expects that the 1/- unicoloured issue will appear shortly, but the 4d. and 2/6 will not be issued for a long time.

**Stamp Duty 2/6.**—Our correspondent states that the 2/6 stamps overprinted all have thick bar in 2/6 (type ii). Unsurcharged type ii seems considerably rarer than type iii, and the 1912 Gibbons puts it at 10/- unused.

**PATIALA** (628 S 635).—A Dublin reader draws our attention to the 8 annas Service of the Edwardian issue with two very different looking overprints; (a) rather faint, no trace at back of stamp; (b) clear and rather thick, much blacker, slightly embossed at back. Both are in a dull mauve shade.

Although they have never been chronicled in these columns, we find that Ewen's New Issue Service distributed the first on 28.7.06, and the second (thick surcharge) on 13.12.07. Furthermore on 1.2.11 a third variety was distributed, a bright mauve shade, the overprint causing a marked embossing at the back of the stamp.

Specialists would find a rich field for research in the shades of these overprinted Indian stamps.

**PORTUGUESE MACAU** (634 J 635).—We are informed that only the ½, 1 and 2 avos have yet (15.11.11) been issued at Lisbon. The 4 and 8 avos have been chronicled but it must have been by error.

The "Republica" stamps of Macau, as we have already stated in these columns, are issued in sheets of 28 with margin on all four sides. But as the stamps themselves are printed in larger sheets, the setting of the overprint may be larger. We have evidence of the following panes:—

Pane A.	On No. 10 the E of Republica is broken at the top left hand corner.
Pane B.	On No. 15 the tail of the R is indented on the lower edge.
Pane C.	No noticeable defect.

A few sheets just received include the ½ avo, panes A, B; 1 avo, pane C; 2 avos, pane A.

**ST. HELENA** (633 Y 635).—A Florence reader, writing on 14.11.11, says the 2½d. St. Helena reprint is not absolutely the same as the old one, the colour being "darker and lighter": the inscription is thinner. We have none of the old ones left to compare.

**ST. LUCIA** (624 J 635).—There has been a new printing (?) of the 6d. stamps on chalky paper, ostensibly in the purple shade of the new colour scheme. The name and value are printed with a different ink which has a tendency to turn pink. In sending us several sheets of the stamp, our correspondent tore off one stamp for postage and by the time it reached us the value was of a much rosier hue than that of any of the stamps inside the packet. The unused specimens are, however, distinguishable from those chronicled in E.W.S.N. No. 604 as issued 18.3.11 or earlier. We have already referred to this 6d. lilac and carmine in E.W.S.N. No. 624 (9.9.11), so that it must have been issued 23.8.11 or earlier, and therefore have followed the first chalky printing very closely if indeed it is a new printing. The record of Edwardian stamps for this Colony stands as follows:—

Old Colours.

(31)	Wmk. Crown CA, ordinary paper.
	½d., 1d., 2½d., 3d., 1/-.
(32)	Wmk. mult. Crown CA, ordinary paper.
	½d., 1d., 2½d., 3d., 6d., 5/-.

(33) Same, chalky.  
½d., 1d., 2½d., 6d., 1/-.

New Colours.

(34) Wmk. mult. Crown CA, ordinary paper.

½d., 1d., 2d., 2½d.

(35) Same, chalky.

3d., 6d., 1/-, 5/- (two shades of 6d.).

The ½d., 1d. and 2½d. of issue 34 and the 6d. of issue 35 each occur in two shades at least.

The ½d. are grey-green or blue-green; the 1d. carmine or rose; the 2½d. light or dark ultramarine; the 6d. purple or purple and rosy-purple.

We have omitted to record formally the issue of the 5/- in new colours; our earliest date of use is 20.7.11. The 2d. pictorial and 10/- Victorian issue are, we believe, obtainable in addition to the Edwardian issue.

**SWEDEN** (632, 633 N 635).—Correction—The 5 kronor official stamps chronicled a fortnight ago should have been described as wmk. Crown, and not as "no wmk." and Mr. N. V. B. Holmberg informs us it was issued 10.1.11. The list of official stamps should therefore be:—

Official Stamps.

(51) Wmk. Crown, 1, 2, 4, 5, 8, 10, 15, 25, 30, 50 öre; 5 kronor.

(52) No wmk., none.

(53) Wmk. wavy lines, 10, 35 öre.

Another Correction.—For this mistake we must blame our printers, who make us say that the new issue wmk. Crown consists of the values "1, 2, 4, 1 öre, 1 krona," which is obviously wrong. The record to date is:—

Old Issue.

(31) Wmk. Crown, all.

(32) No wmk., 20, 25 öre.

(33) Wmk. wavy lines, none.

New Issue.

(41) Wmk., Crown, 1, 2, 4, 5, 10 öre, 1 krona.

(42) No wmk., 5, 10, 15, 20, 25, 30, 35 öre.

(43) Wmk., wavy line, 4 öre.

Mr. Holmberg sends us a new letter-card.

Letter-card, large stamp with portrait of King Gustaf.

10 öre, rose. Dated "711".

Issued 14.11.11 or earlier. The postcard of 5 öre chronicled in E.W.S.N. No. 620 is now dated "6.11" instead of "5.11."

Our correspondent informs us that the following stationery is printed, but not yet issued.

Postcard, 10 öre. Dated "1010".

Letter-card, 5 öre. "511".

**VIRGIN ISLANDS** (485 M 635).—The last of the 2/6 green and black Virgin Islands Edwardian issue were issued on 27.10.11 and this stamp should become a fairly good one.

There has only been one printing of the Edwardian issue and it was placed in circulation in May 1904, being we believe the first set to be printed on multiple watermark paper. The 2/6 is the first value to become exhausted.

Owing to there being only the one printing of each value, there has never been any variation of shade to keep philatelic interest in the set alive, and most collectors have been content with a single copy. For this and other reasons, we fancy the stamp may prove scarce and it cannot be reprinted, because some time ago the Virgin Islands adopted the new colour standard.

## Notes.

R.P.J. writes in the *Bazaar* (27.10.11):—

A PHILATELIC INDEX.—One by one the desiderata of philately are being *faits accomplis*. The latest is the philatelic index, which is commencing to be published in the official organ of the American Philatelic Society. It is intended to cover the period 1863 to 1910, and to deal only with periodicals in English. As evidencing the size of the work, we mention that the first instalment covers 16 pages, and that the business of setting out the abbreviations of titles to be used has only got as far as M.

The *Subscription Forms* for postal subscription to E.W.S.N. enclosed with last week's issue should have had upon them the words:—"If you are already a postal subscriber, please hand this to a friend". One or two of our subscribers thought it meant that their subscription had expired, but there need be no misapprehension on this score, as all postal subscribers have their copies addressed by means of small gummed labels, in the lower lefthand corner of which appears the number with which the subscription expires. This issue is No. 635; if your address label has 635 in the corner your subscription expires with this issue; if the number is 636 it has one more week still to run, and so on.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current issue (635 L. 636).—On Tuesday evening, 21.11.11, a new supply of Georgian 1d. stamps was received at the Anerley Road (Norwood) Post Office and the control letter was found to be the long-sought variety, "A.11", with stop after the A.

Printed at Somerset House and perforated 15x14 by Messrs. Harrison & Sons.

1d. red. Sheet of 240 as usual, but some have two circles punched at the right hand end of the row of pillars between the panes (exactly as in the 6d. stamps printed at Somerset House). Control letter "A.11" (wide). Every stamp on the sheet shows in a marked degree the defect of protuberant corners, i.e. the corner point extends beyond the frame.

Issued 21.11.11 or earlier. On obtaining these stamps we at once made enquiries elsewhere and found that at the beginning of the week other offices had received sheets of these stamps, but that since Thursday, 23.11.11, none but Edwardian stamps had been obtainable. Even Anerley Road Post Office which had requisitioned specially for Georgian stamps received on 24.11.11 only Edwardians, with a memorandum "apply again." The issue of the "A.11" stamps thus probably lasted two days only. The first of our readers to report the variety was Mr. C. W. Hellawell, who sends it under date of Huddersfield, 23.11.11, and down to Saturday no one else had reported it. We have two varieties of the "A.11"; in one the second "1" is nicked near the top and sheets bearing this variety have the bar under the 11th stamp scratched near the left end (upper edge); in the other, there are white dots on both figures "1" and a white dot on the lower edge of the bar under the 9th stamp. In *Stanley Gibbons' Monthly Journal* (30.6.11/225) it was stated that "for two days the stamps were printed at Somerset House before the plates were turned over to Harrison's, and this printing may be distinguished in sheets (if any are left), as the control is lettered A.11, whereas Messrs. Harrison's sheets lack the period after the A, reading A 11 simply."

Our monthly contemporary refers simply to "stamps," but it had previously been speaking of the coronation issue of Georgian stamps, which comprised both values, ½d. and 1d. It is not quite clear whether it is meant that both values were printed at Somerset House or only the 1d. There is not the slightest doubt, we think, that the 1d. stamps chronicled above were printed at Somerset House, but whether they are the first printing or another provisional printing made recently is not certain. The probability is that they are the original printing, which has been so diligently searched for since July; on any other ground, it is difficult to account for the issue being limited to two days.

**A theory.**—The "A.11" stamps, though printed at Somerset House, are perforated 15x14 and so far as is known perforating machines of this gauge are possessed by Messrs. Harrison & Sons alone.

The most likely theory seems to be that Somerset House wished to test the plates made by the Royal Mint before handing them to Messrs. Harrison & Sons; and that after printing for two days, the machines were stopped, as it was found that the stamps could not be got to print square, the corners sticking out beyond the frame. If this were so, new plates must have been made, as none of the stamps hitherto issued have shown this defect, with the exception perhaps of an occasional stamp or two here and there on the sheet. It has been stated (*Evening News*, 28.6.11) that the Mint found the work of making the plates a good deal more difficult than they had anticipated; the operation is totally different to cutting out the dies for coins; and the plates actually used by Messrs. Harrison & Sons did not

reach that firm "until a few days before the issue," if that firm's representative is correctly reported. The stamps were issued on 22nd June, and on the 30th June *Stanley Gibbons' Monthly Journal* makes the announcement that Somerset House had printed "A.11" stamps for two days. Five days later, in the House of Commons (5th July), Major Archer-Shee asks the Postmaster-General: "Is it not a fact that Somerset House has already manufactured £11,000 worth face value of 1d. stamps, and these have been withdrawn as utterly useless?" Mr. Herbert Samuel replied that he "had heard nothing of the kind."

May we, on this meagre evidence, assume that Somerset House printed 11,000 sheets of 1d. stamps, control-marked them "A.11" and had them perforated by Harrison & Sons so as to avoid creating two varieties of perforation (the S.H. gauge being 14)? And that now that the announcement of a new penny stamp to be ready by the 1st January, 1912, has been made by the press, it has been considered safe to issue them? In view of the promise that new Georgian stamps will be issued in January, it is extremely probable that the authorities would want to exhaust the old stock; and it is a fact that since September Edwardian penny stamps have been greatly restricted in issue; consignment after consignment at our local post office has consisted of nothing but Georgian stamps. Were these Georgian stamps with pointed corners the last of that issue and will the next Georgians be from the new die? For the time being we can hear of nothing but Edwardians being issued.

As our tables of provisional printings and control letters bid fair to become too complicated, we have adopted a simplified system and will deal in future with shades and marginal varieties under sub-headings.

It is supposed that the cuts represent the months of printing. It is of interest to recall that on 4th July Mr. Lloyd George, interrogated by Major Archer-Shee, stated in the House of Commons, that "the total face value of adhesive postage stamps manufactured at Somerset House since the establishment of the plant was £296,000." Mr. Lloyd George further stated that no stamps had been rejected since June 22nd, 1911, and that the amount expended up to date in the purchase of machinery and plant used for the manufacture of adhesive postage stamps at Somerset House was £1,563, and two men were employed in their manufacture.

On the 5th July Major Archer-Shee asked in

the House of Commons:—"Is it intended to go on with the manufacture of postage stamps at Somerset House in addition to the manufacture by contractors?" He got the following extraordinary reply from the Postmaster General:—"Somerset House will manufacture, I understand, the sixpenny stamps, which are largely used for revenue purposes." We think Mr. Herbert Samuel must have been incorrectly reported. Lord Balcarras then asked:—"Is it the fact that the penny and halfpenny design is to be revised?" Mr. Samuel replied "No, Sir." In the House of Commons on 21st July, 1911, Mr. Hobbhouse (Secretary to the Treasury) stated that "the denominations of adhesive stamps to be printed at Somerset House were the 6d. and 2/6 unified postage and revenue, the 5/-, 10/- and £1 postage, and all the revenue and fee stamps proper." How are these several replies to be reconciled with the facts? On the 2nd August, 1911, Mr. Samuel stated in the House of Commons that steps had been taken to effect a considerable improvement in the appearance of the new postage stamps and that the line-engraving process would be adopted for the new stamps of the denominations 2/6, 5/-, 10/- and £1, which would be available for postage only; he added that "several of the denominations will be issued in the next few weeks" (four months have now elapsed). On the other hand, on the 15th August, Mr. Hobbhouse is reported to have stated in the House of Commons that "the Government had undertaken to manufacture the stamps of the value of 6d. and higher denominations because they were fiscal rather than postal stamps" (!). Thus, Mr. Samuel and Mr. Hobbhouse contradict one another and neither succeeded in speaking the truth! The *Evening News* (5.10.11) stated that Messrs. Harrison & Sons, being dissatisfied with the electrotypes manufactured for them by the Mint, were laying down a new plant at Hayes, Middlesex, and they would produce the plates themselves.

On 3rd November the Postmaster-General stated in the House of Commons that certain changes in the engraving of the new penny stamp had been decided upon, but that it would not be possible to issue the improved stamps before January.

It will be seen that up to a comparatively late date the fiction was kept up in the House of Commons that the Government were only printing the 6d. and higher denominations, whereas they have been printing the 1½d., 2d., 5d., 6d., 9d., 10d., 1/-, 2/6 and £1 stamps ever since May last and enquiry would probably show that Messrs. Harrison & Sons have never contracted to print any but unicoloured stamps.

**Yet another sixpenny shade!**—On Tuesday, 28.11.11, Mr. Oswald Marsh showed us the 6d. stamp printed in a rich plum shade, apparently a cross between the 1st and 3rd shades.

Somerset House print; ordinary paper. 6d. rich plum, perf. 14.

Issued 28.11.11 or earlier. The sheets have the usual "11" cut and also a cut under the first stamp.

**A halfpenny variety.**—Under this heading we referred last week to a ½d. Edwardian stamp with both side outlines broken. The stamp occurs as No. 214 of the sheet (10th in 8th row of lower pane). The broken line on the right hand side of the stamp somewhat resembles the "11" cut, but our object in referring to the variety here is to draw attention to the fact that just inside the frame at the right side there are nearly always one or more dots printed in black. When complete, the series appears to consist of 2, 1, 3, 1 dots (reading downwards), but it is rare to find all and often there is only one, but the positions, in relation to the design of the stamp, never seem to vary. How are they caused? The same sheets always show a black dot between the 55th and 56th stamps (7th and 8th in 5th row of upper pane).

A fourpenny mystery!

Several correspondents tell us they recently received a supply of the 4d. on chalky paper; ours were ordinary. Being a "postage and revenue" stamp, it should be on chalky paper like the original printing of 4d. and 6d. and like the 10/-. Are those on ordinary paper an error?

Unchronicled halfpenny variety.

Purchased Anerley Road, 16.11.11.

½d. Edwardian perf. 15×14, the 10th stamp in the 18th row has both side outlines broken. In the normal stamp one of the leaves at the left of the portrait extends outside the inner frame and touches the left outline of the stamp; in this stamp no leaf extends outside the inner frame. The variety appears to occur on all sheets with white dot on the first 1 of "A11" and with cut in the line to right of the bottom row of the sheet.

In mint strip of three, 6d.

In corner block of twelve, 1/-.

The "11" cuts of S.H. prints. These are really a most interesting study and if it is not practicable to collect all the varieties in blocks of 36 (the bottom three rows of the sheet) they should at least be collected in corner pairs or blocks of four, with the date of purchase written on the margin in pencil. We have found the following varieties:—

#### Three Half-pence.

Sheets of 240, in two panes, each 10 rows of 12; head plate (fo), purple; duty plate (bm), green.

1st plate, 3.7.11. The "11" cut is 2½mm. wide. There is no purple dot at corner of sheet.

2nd plate, 9.9.11. The "11" cut is 1½mm. wide. There is a small purple dot at corner of sheet.

3rd plate, 24.11.11. Same, but larger dot at corner.

The cut of 3.7.11 is in the centre of the bar and is accompanied by a "V" cut under the fifth stamp of the row, whilst the cut of 9.9.11 is 6½mm. from the right end of the bar and 11mm. from the left end, and is accompanied by a cut under the eighth stamp of the row.

#### Two Pence.

Sheets of 240 in two panes, each 10 rows of 12; head plate (fo), green; duty plate (ep), red.

1st plate, 8.8.11. The "11" cut is 1½mm. wide and 7mm. from left end of bar. There is a green dot at corner of sheet, (under right end of value frame).

2nd plate, 22.11.11. The "11" cut is precisely the same, but is supplemented by a diagonal cut "V" from 2 to 1mm. from right end of bar. The green dot at the corner of the sheet is now under the "d" of "2d."

The cut of 8.8.11 is supplemented by a single cut under the 7th stamp. The other we have not yet seen in a sheet.

#### Five Pence.

Sheets of 240, in two panes, each 10 rows of 12; head plate (bm), purple; duty plate (bm), blue.

1st plate, 16.8.11. The "11" cut is 2mm. wide and 8mm. from left end of bar. There is a purple dot at corner of sheet, falling under the right edge of the shield.

Recent impressions (since 20.11.11 or earlier) are in a paler shade of purple. The "11" is supplemented by a cut under the 7th stamp.

#### Six Pence.

Sheets of 240, in two panes, each 10 rows of 12; single plate only (fox, two circles on the right end of the row of pillars between the panes).

1st plate, 3.11.11. The 11 cut is 2 mm. wide, is shaped "V" and is 11 mm. from end of bar. There is a purple dot at the corner of the sheet 4 mm. below the bar under the last stamp. Also a single cut under the 1st stamp.

2nd plate, 3.11.11. The 11 cut is regular and is 13½ mm. from left end of bar. There is a purple dot at the corner of the sheet 3 mm. below the bar under the last stamp. Also single cuts under the 2nd and 4th stamps.

These plates are both printed in several shades:—

3rd Nov. 1911. Bright plum (dark and pale).  
9th " Dull lilac.  
16th " Dull plum (dark and pale).  
28th " Rich plum.

The 3rd shade appears to be a mixture of the 1st and 2nd, whilst the fourth shade is a mixture of the 1st and 3rd.

#### Nine Pence.

Sheets of 160, in eight panes, each 4 rows of 5, cut into sheets of 80, four panes, before issue. The arrangement is the same as in the ½d. and 1d. stamps except that the 6th and 7th vertical rows and 5th, 6th, 15th and 16th horizontal rows are converted from stamps to margins ornamented with pillars shaded with lines. The issued sheets, when top halves of sheets as printed, have no "11" cut (?). Head plate (bmw), purple; duty plate (bmw), blue. The pillars (w) only occur on the spaces converted from stamps.

1st plate, 24.7.11. There is no cut (?).

2nd plate, 9.10.11. The "11" cut is 2mm. wide and 11mm. from left edge of stamp. There is no purple dot at the corner of the sheets as might have been expected.

3rd plate, 20.11.11. The "11" cut is 2½mm. wide and 10mm. from left edge of stamp. There is still no purple dot at the corner of the sheet.

4th plate, 22.11.11. There is no cut but there are two purple dots " ." under the bar which has the "11" cut on the other plates.

There is still no dot at the corner of the sheet. There are at least three shades of the 9d.; 24.7.11, pale purple and pale blue; 9.10.11, dark purple and dark blue; 20.11.11, slightly paler than the second shade.

#### Ten Pence.

Sheets of 192, in four panes, each 4 rows of 12, cut into sheets of 96, two panes, before issue. The arrangement is the same as in the ½d. and 1d. stamps, except that the 5th, 6th, 15th and 16th horizontal rows are converted from stamps to margins ornamented with pillars shaded with lines. Head plate (bmwx), purple; duty plate (bmwx), carmine. The pillars only occur on the spaces converted from stamps.

1st plate, 9.10.11. The "11" cut is italic; 1½mm. wide and 8mm. from left edge of stamp; it is accompanied by cuts under the 1st and 8th stamps. There is a pink dot at the corner of the sheet, 5mm. under the edge of the last stamp and level with the "10d." at the right side.

There has apparently only been one printing, but the purple varies slightly from pale to dark.

#### One Shilling.

Sheets of 240 in two panes, each 10 rows of 12, cut into panes before issue. Only the lower pane (following precedent) is believed to have the "11" cut. Head plate (bpf), green; frame (bm), rose.

1st plate, 19.7.11. The earliest sheets had cuts under the 1st and 6th stamps, but no "11" cut.

2nd plate, 9.10.11. The "11" cut is 2mm. wide, and 11mm. from the left edge of the stamp. Some sheets have a pink dot 2mm. under the pink marginal line and others none, indicating the existence of at least two frame plates. In the frame plate without the dot, the lower outline of the 11th stamp is broken.

3rd plate, 20.11.11. The "11" cut is 2½mm. wide.

This we have not yet seen.

The 1/- has appeared in several shades. The head may be found in black green, dark olive-green or myrtle green and the frame in dark rose (generally a blotchy printing), rose or pale rose.

#### Two Shillings and Six Pence.

Sheets of 112, in two panes, each 7 rows of 8. The panes are separated by a margin filled in with pillars (x) shaded with lines. Sheets cut into panes before issue.

Plate 1, 27.9.11. Top pane, cut "11" only 1mm. wide and 15mm. from left edge of stamp. Purple dot 1mm. from line, under PE of "Pence."

There are two slight shades.

Correction.—In the table given in E.W.S.N. No. 635, the 2d. should have been described as fo+ep, not bm+ep and the 5d. as bm+bm and not bm+ep. The explanation of our system of marginal enumeration was given in E.W.S.N. No. 635, but x should be read for y.

The 4d. Harrison.—Mr. Spencer Hume writes:—

"It is not easy to distinguish between the De la Rue and Harrison prints of the 4d. orange, the shade being almost identical. It appears to me, however, on a close examination of the stamps that the prints are distinguishable by the fact that the top line under the pearls on the right hand side of the crown extends in the Rue print to the 6th pearl, whereas in the Harrison print the line is broken, as though the die had been damaged, and extends only to the second or third pearl. I have examined a considerable number of stamps of each kind and find this feature to be regular. Can you confirm it?"

We have not been able successfully to apply Mr. Hume's test. To make sure of getting the right stamps, the 1½ piastre on 4d. orange Levant should be compared with the 4d. perf. 15×14. Under a magnifier, the De La Rue prints will be found to be twice as sharply defined as the Harrison, but we cannot discover any difference in the design. The most that can be said is that if any of the lines of shading, etc., are broken, the printing is probably by Messrs. Harrison & Sons. Messrs. De La Rue & Co. appear to have had some method of giving the paper a better surface, so that it took the ink better.

Broken and continuous lines.—A correspondent does not understand our reference to these.

It was in 1887 that the printers put a line round each pane or sheet of stamps, to prevent the outer stamps getting worn or being damaged. This line became known as the "jubilee" line, but is now usually referred to as "continuous line" (b in our nomenclature). The line is sometimes broken once or twice at each side of the sheet to facilitate the division of the sheet into quarters or other fractions (as in the current 1/- stamps) and we used to call this variation c but in the Edwardian stamps have not distinguished it. About 1903 the authorities abandoned the continuous line and substituted a series of short lines, each line being about the same length as the side of the stamp against which it was placed. This we denote f. There have also been from time to time exceptional

arrangements of lines. A study of these marginal lines is of considerable philatelic importance. To-day, for instance, when an Edwardian stamp is issued with "continuous line round the pane," we know that one of the original plates of 1902 has been used to print it. The 2½d. Edwardian to-day has either continuous or broken lines; the former are printed from the original plate or plates of 1902, the latter from new plates. As a further protection to the plates, rows of "pillars," shaded with lines originally introduced to prevent spaces in the panes of the 4d., 4½d., 9d. and 10d. being used to print stamps, are now placed between the panes of the unicoloured stamps. Of course, to show these varieties, it is necessary to get specimens from the edge of the sheet with edging attached, and the most prized position of the sheet, failing the whole bottom row, is that of the lower right-hand corner (and exceptionally, in the case of the ½d., of the lower left-hand corner, owing to the altered position of the control letter).

Inverted watermarks (449 K 636).—Mr. C. Miller has shown us the 6d. De La Rue with inverted watermark; it appears to be on chalky paper.

ABYSSINIA (612 J 636).—L'Echo de la Timbologie (15.11.11/691) mentions a 4 gairsh stamp of 1894 overprinted

AFF. EXCEP.  
FAUTE TIMB  
4 g

which means roughly "Exceptional prepayment—lack of stamps—4g." Why not have used two stamps at 2 gairsh?

AUSTRIAN P.O., LEVANT (630 T 636).—According to Borek's Neuheiten Preisliste, the complete set of postage dues exists in dark green. We have already recorded the ½, 1, 10, 30 piaster, as issued 30.3.11 or earlier, these being the only values procurable at the Dardanelles Post Office at the time our representative enquired. We accordingly now add:—

Postage Due Stamps. New shade.  
1½ piaster, dark green, ordinary paper.  
2 " " " "  
5 " " " "  
20 " " " "  
½ " " " chalky paper.

Issued before 10.11.

BELGIUM (635 Y 636).—A leading French dealer makes wholesale quotations on the Belgium remainders which were recently auctioned. There are very few falls. The Antwerp Exhibition 5, 10, 25c. unused are inevitably under face value, and are quoted 3, 3 and 5 francs respectively per 100, whilst the 5 and 10c. Brussels Exhibition are marked 5 and 1½ francs respectively. The 1884 2 francs unused at 30 francs per 100 have severely fallen.

BHOPAL (530 S 636).—Another value of the official set is chronicled by the Postage Stamp (18.11.11/92).

Overprinted "Service" in black sans-serif capitals. 4 annas, brown, perf. 13½.

The ½, 1 and 2 annas have already been chronicled. These stamps are not sold to the public unused.

BRITISH P.O., LEVANT (634 A 636).—The 2 piastre stamps we recorded a fortnight ago as in a darker shade are overprinted on the 5d. chalky Great Britain with continuous blue outer line (b) instead of the short blue lines (e) as in the older printing.

We have received the following new variety.

Harrison print, new perforation.  
"1 PIASTRE" in black on 2½d. blue, perf. 15×14, continuous line round pane. On Nos. 90 and 114 of each pane the top bar of the E of "Piastre" is shorter and slants upwards.

Issued 23.11.11 or earlier.

EAST AFRICA AND UGANDA (626 Z 636).—The Postmaster General of this Protectorate states (30.10.11) that he is not in a position to furnish statistical information of the Edwardian stamps.

**FALKLAND ISLANDS** (628 Q 636).—We read in *Borek's Neuheiten-Preisliste* (15.11.11/7) that the 6d. stamp of the Edwardian series is out of issue. The Edwardian issue of this colony will not—or rather *does* not, for it probably will—give collectors much trouble, for its record stands as follows:—

*Edwardian Series.*

(31) *Wmk multiple Crown CA, ordinary paper.* ½d., 1d., 2d., 2½d., 6d., 1/-, 3/-, 5/-. Several shades and thicknesses of paper in the 1d. value.

(32) *Same but wmk sideways.* 1d.

The latter was a provisional issue made in 1907. A complete distribution was made by Ewen's New Issue Service at 1½d., but the stamp is now rare. We still have a good stock of sets (½d. to 1/-) of Falkland Islands at new issue rates, but the same could have been said of Jamaica a few weeks ago and our stock was quickly bought up. Therefore do not delay this time!

**FRENCH P.O., CHINA** (632 X 636).—We have sheets of the new postage due stamps, but do not notice any varieties. The millésimes are: 2c. on 5c. blue, 4c. on 10c. brown, 8c. on 20c. olive, mill. 1; 20c. on 50c. violet, mill. 6. The sheets are divided up into panes of 5 rows of 5 as usual and the millésime occurs once between each pane.

**GERMANY** (628 Z 636).—The earlier stamp booklets had one page of 5 pfennig stamps made up thus:—

A	5	5
A	5	5

Here "A" signifies advertisement label and "5" the 5 pf. stamps.

Since 1.11.11 or earlier, new booklets have been issued, containing 4 pages of 5 pf. stamps and 2 pages of 10 pf. stamps, made up thus:—

A	5	5	A	10	10
5	5	5	10	10	10

There are probably too many varieties of the advertisement labels to collect, or there will be as time goes on, but one which has attracted special attention in Germany is the Satrap label, which is said to resemble a stamp and another interesting label, se-tenant with stamp, is that of Messrs. Paul Kohl, Ltd., the well-known stamp dealers of Saxony. We have received some interesting details respecting the booklets from the advertisement contractors, which we shall publish next week.

**GIBRALTAR** (632 Q 636).—The Colonial Secretary states (17.11.11) that no statistical record of the Edwardian printings has been kept by his Government.

**GREECE** (617 C 636).—The Post Office has received (6/19.11.11) a further supply of the 10 drachmai stamps from the printers, but they are zig-zag rouletted as in the first printing, though better centred.

The 25 lepta with zig-zag roulette in black is quoted 4 francs in Nicolaidis' new catalogue.

**HYDERABAD** (626 Q 636).—After nearly three years of waiting and many promises from the Postmaster that he was sending them, we have at length received the 4 annas "postage" stamps. Like the other values they are printed in sheets of 16 rows of 15, with wide margins plain on three sides of the sheet and embellished with a Hindustani inscription on the other.

**ITALY** (633 U 636).—We have received sheets of the new 15c. redrawn. The stamp is issued in sheets of 200, in two panes side by side, each 10 rows of 10. The panes are boldly inscribed at the top "Francobolli Postali da Centesimi Quindici" and at bottom "Il Foglio di 100 Francobolli postali vale Lire 15." In the top left hand corner is the plate-number. In the sheets before us the left pane has plate-No. 35 and the right pane plate-No. 36. At the sides of the sheet (once to each pane) is the imprint in smaller type "Officina Governativa Carte-Valori Torino."

The *Gazzetta di Filatelista* (31.10.11/4) mentions sheets with plate-numbers 23-24 and 29-30.

**MALTA** (633 H 636).—Ewen's New Issue Service has received a full supply of the 4d. red and black on yellow and will distribute same this week. Issued at Malta, 21.11.11 or earlier.

**NEWFOUNDLAND** (635 O 636).—We have received the 8c. Prince George in sheets, all stamps with white backs instead of the aniline colour showing through.

The 8c., 9c., 10c., 12c. and 15c. Guy stamps, engraved as well as lithographed, were all obsolete on 10.11.11.

**NORTHERN NIGERIA** (635 D 636).—A second shade of the 6d. chalky is shown us by Mr. E. Heginbottom.

*New Shade.* Wmk. Crown CA, chalky paper. 6d. purple, name and value mauve.

Issued 26.11.11. or earlier.

**ORANGE RIVER COLONY** (632 M 636).—We read further details of the 4d. error in the *Natal Witness* (27.10.11):—

"A recent discovery of considerable importance to philatelists is that of an error in the current 4d. Orange Free State. On the 2nd stamp of the bottom row of the top left-hand panel, in the emission bearing the control No. 3, the label reads IOSTAGE instead of Postage. I have seen three copies of this error—in situ—and it is quite genuine and has no appearance of a broken P.

"I have been given to understand that only 250 sheets of this control are on hand and that but few were issued before the error was discovered, hence even counting the stamp as a minor variety, it promises to be an exceedingly scarce one. Collectors should be on the look out for this, as the printing has been in use for over three weeks, and certainly some have been procured and used in the ordinary way."

**PAPUA** (635 O 636).—The 6d. issue 8 was priced in our recent table, but we believe that it does not exist, either ordinary or official.

A correspondent writes:—"I consider the 6d. issues 1 and 2 priced much too low, as I have had great difficulty in getting together enough to reconstruct a sheet, and none of the dealers show more than a few and probably have not many in reserve. I consider the 1/- 5 and 6 priced too high. It is well known that the different perforations came over in an erratic manner, so that some dealers had one variety and some another, so much so that Ewen's were almost the only ones who were selling a 1/- stamp at a new issue price. I was getting the 1/- 7 and 8 from Ewen's at 1/2 when a prominent dealer in the Strand was pricing them 5/- and the 1/- 5 and 6 at 3/- and the 1/- 13, 14 at 1/2." We do not know why it was but our Papuan correspondents sent us nothing but 1/- 7 and 8 for over a year. We ordered thousand after thousand of shilling stamps, even asking specially for 1/- 5, 6, 13, 14 but every lot came issues 7, 8. This is the more extraordinary if others could not get the 1/- 7, 8. To-day we possess hardly a copy of the 1/- 7 and 8 and have more of the 1/- 5, though 1/- 6 still proves elusive.

**ST. HELENA** (635 Z 636).—The first reprint of the 2½d. blue having been exhausted on the first day of issue, a second reprint in a much darker shade of blue was made on 27.10.11 or earlier. As both these new prints appear to differ from the original issue of May, 1908, we shall distribute them this week with Ewen's New Issue Service. They will probably become valuable, especially the first.

**SWEDEN** (635 O 636).—We are indebted to Mr. N. V. B. Holmberg for a copy of the new postcard.

*Postcard.* Stamp with portrait of King Gustaf; the stamp is larger than the adhesive. 10 öre, rose. Dated in corner "811".

Issued 18.11.11 or earlier.

**TRAVANCORE** (634 O 636).—Sheets of the 3 chuckrams just received (purchased at Trivandrum 5.11.11) are in a paler shade of violet, but they are probably part of the first printing. At all events they are from the same plate, which shows a good many defects and at least one interesting variety.

*Varieties on plate of 3 chuckrams.*

Sheets, 6 rows of 14. Continuous outer line.

No. 15. The upper half of the "3" in the upper right hand corner is double-lined. All sheets examined, including those received previously, show this variety.

No. 45. Line broken or worn away over HS of "chs." leaving white space.

On every stamp of the sheet the figure "3" at the left side of the stamp has a longer diagonal stroke than the figure "3" at the right side.

**UNITED STATES** (633 B 636).—The list of official stamps for use of the Savings Bank Department, given in *E.W.S.N.* No. 632, transposed the colours of the 2c. and 10c. The set should be:—

*Official Stamps for use of Savings Bank Department.*

1c. colour?  
2c. black.  
10c. rose.  
50c. green.  
\$1 ultramarine.  
2c. rose, envelope.

Issued before October 1911.

**VICTORIA** (630 X 636).—The current 1d. with sideways watermark is by no means a back number. Our Melbourne correspondent reports finding some sheets of it (perf. 12½) at the Post Office on 18.10.11. On 24.10.11 a few more sheets were found and also a sheet of the 1d. wmk. upright, perf. 12½ with a row of 11 perforation down the left side of the sheet. These kinds of varieties do not appear to us to be of much philatelic importance, if they do not distinguish any particular issue or edition.

Our correspondent writes 18.10.11 that he had just been privileged to look through 100 sheets of the 1d. O.S. and 25 sheets of the ½d. OS. The former were all perf. 12×12½; the latter perf. 12½ small holes, except four which were perf. 11. Victorians do not therefore seem yet to have settled down to a fixed gauge.

The ½d. OS stamps are not punctured from a separate setting of OS repeated 240 times, but the ordinary setting used for the other stamps is used and two punctures made, one below—or rather alternately with—the other.

Mr. E. Heginbottom states (2.11.11) that he has the 1d. Victoria perf. 11½ on one side and 12½ on the others.

What a lot of trouble some people will take to find a particular variety! And how easily one may miss it! The 2d. Crown A, perf. 11 is a very rare stamp, but it was issued at Geelong in July, 1908, and our Melbourne correspondent, who is a daily visitor to the Post Office wherever he may be, tells us that he took his summer holidays at Geelong that year! That is how he just missed the perf. 11. He learnt his bad luck by finding a used copy recently; it was postmarked 7.7.08. Being of a persevering nature, he set to work amongst his Geelong friends and found several hundred thousand common stamps used in 1908, of which only one per cent. were twopennies. Amongst the few thousand twopennies, he succeeded in picking out *three* copies, perf. 11 and also postmarked "Geelong." He asks us £1 for one of these copies.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current Issue (636 M 637).—The Board of Inland Revenue have kindly sent the following very full reply to an enquiry we addressed them, enclosing the five lower rows of a sheet of 1d. stamps with control "A. 11" and drawing their attention to the pointed corners.

Inland Revenue,  
Somerset House, London, W.C.  
30th November, 1911.

Sir,

With reference to your letter of the 23rd instant, I am directed by the Board of Inland Revenue to acquaint you that the block of sixty 1d. stamps of the George V. issue were printed by the Stamping Department at this Office. The stop after the letter "A" in the control mark A. 11 denotes this.

They are from the same die as that used for the Contractor's printings.

The "corner points" to which you refer are a printing effect; they are not due to the use of a new die, or to any change in the original die.

The stamps are herewith returned.

I am, Sir,

Your obedient Servant,

[Signed] F. ALLERBURY,  
Secretary.

H. L'Estrange Ewen, Esq.

Although the Editor purchased this 1d. A. 11 at Anerley Road Post Office on 21.11.11 and found it at other post offices the following day, Mr. Hellowell was the only reader to report it the same week (under date 23.11.11). During the week ending 2.12.11, however, quite a number of our readers reported finding the variety; evidently a very close watch is being kept by collectors on British Post Offices!

We mentioned last week that there were two varieties of the "A. 11" control, one with a nick at the top of the second figure 1 and the second with white dots on the feet of both figures. *Oswald Marsh's Weekly Circular* (2.12.11/713) points out that in the former case the dot is 1½mm. from the letter A and in the second 2mm. We have not found any evidence of other varieties beyond these two. We understand from Mr. Marsh that the date of issue he gives is a mistake, the date of purchase by Mr. Ewen being the earliest authenticated. The specimens obtained by Mr. Ewen were sent out from Somerset House on the morning of 21.11.11, probably the first day of issue, and arrived at Anerley Road whilst the Editor was in the Post Office, so that it is doubtful if his date could be improved upon!

Some of the Somerset House sheets have a very wide margin at the bottom, with two lines of ink extending from side to side of the sheet.

Mr. F. J. Melville writes in the *Daily Telegraph* (30.11.11):—

"The interest in the current stamps of Great Britain has been heightened by the report that a number of the plates handed over by the former printers have been 'repaired' at the Mint. The philatelist would generally imply from the work 'repair' that the defective parts of the plates were 'retouched,' and a 'retouch' is a thing which a student is always keen to find. I am of opinion, however, that the repairing in this instance does not amount to retouching, but that the plates have had their worn nickel coatings removed and a new surface deposited upon them, making them to all intents and purposes as good as new plates. The new coating would be of iron, not nickel, as there was no nickelling bath at the Mint when the 'repairs' were done. To enable the collector to detect the plates which have been so dealt with at the Mint, there are the little uncoloured strokes on the 'Jubilee line'—that is, the rule, continuous or broken, which extends round the plates of our stamps to protect the edges of the outside rows of stamps. These little strokes must not be confused with

the breaks in the lines, but are narrow, uncoloured strokes, representing the date. Thus the figures 11, generally appearing on the Jubilee line below the eleventh stamp in the bottom row of the sheet, indicate the year, and somewhere else along the bottom row may be found a figure to denote the month, as 1—January. The numerals are, I believe, intended to denote the approximate date when the plates received their new surface by electro-deposit."

Mr. Melville also writes in the *Postage Stamp* (25.11.11/97):—

THE MARKS ON THE JUBILEE LINE.

"It has been fairly general knowledge that many of the stamps printed since the expiration of the old contract have borne some curious marks, the purpose of which has however hitherto been wrapped in mystery. The mystery was increased by the fact that certain of the stamps known to have been printed since January 1st, 1911, have been without such markings.

"We are now able to state that the marks are the special marks of the operative department of the Royal Mint, and thereby hangs our story.

"It appears that amongst the various duties recently entrusted to the Royal Mint there were forty-two old plates to be repaired. These plates were of course plates which had been used in the printing of the Edwardian stamps by Messrs. De La Rue & Co. up to the end of 1910, and some of which, as collectors of 'British' know, were showing signs of wear.

"Now we are unable to state with certainty the precise nature of the repairing that was done. Many sheets examined fail to shew anything that can be termed re-engraving or retouching, though it is just barely possible that there may have been some touching up of a very minute character. We would proffer the suggestion, however, that the repairing consisted of re-surfacing the plates.

"How are the plates re-surfaced? It is not necessary here to detail the whole process of electrotyping, but we may briefly remind our readers that the working die is of steel with the lines in relief. This die, say for a penny stamp, is struck 240 times into wax to make 240 moulds which are then placed in an electro depositing bath, where a crust of copper is deposited into the 240 impressions in the wax. This copper crust when peeled off from the wax, forms the basis of our printing plate for printing a sheet; but before being used for printing it has to be both backed and 'fronted.' The backing is filled with a molten metal composition poured evenly over the back of the copper shell in a shallow tray. When the metal has cooled the backing is planed even and is ready for mounting on wood or other material to make it 'type high.'

"But the printing side of the copper shell has also to be specially treated. It could, of course, be printed from without any coating, but as the copper shell is comparatively thin and brittle, it would quickly wear and would not stand the heavy 'editions' required of our British stamps. So the face of the shell is coated with iron or nickel.

"To effect this the copper shell is put into a bath, similar to that in which the copper was deposited into the moulds, but this time the electro deposited is of iron or nickel, and it adheres to the copper, forming over the copper plate a complete fine crust of hard metal, without appreciably thickening the lines of the design.

"Now the plate is hard enough to stand a great deal of use; an iron or nickel coated plate is nearly as durable in printing as a steel plate, and it has this advantage that once a steel plate is worn it has either to be re-engraved or scraped, whereas once the steel coating of a copper electro is worn the steel coating can be cleaned right off, and the copper shell still intact, may be re-coated with a new coating in the depositing bath.

"In the case of the Royal Mint the forty-two plates which have been repaired probably had little else done to them than re-coating, and this re-coating was done with iron, not nickel, as the plant at the Mint was not yet ready for nickelling, though a nickelling bath is being installed, as the nickel coating is finer and more durable than the iron.

"When we consider that forty-two plates will not be a large number for printing our stamps it will be readily appreciated that not all the plates handed over by the old contractors required any repairing; those which were deemed to be in good working order were handed over to the two printing establishments concerned, without requiring any of the attentions of the workmen at the Mint. These plates would be the ones which bear none of the mysterious new signs upon the margins.

"The other plates—the forty-two—split up between 17 denominations, some of which are printed from two plates each, and the half-penny and penny denominations being each represented by several plates—were 'repaired,' probably in the manner we have indicated above, and they bear signs, chiefly in the bottom 'Jubilee' line, of characters which represent a date. This date (for such it is) is indicated by white cuts in the Jubilee line as:—

I II

which equal January, 1911; and:—

V II

would equal May, 1911. The date is distributed beneath certain stamps, the 'II' usually occurring on the jubilee line just below the eleventh stamp in the bottom row of the sheet, though we have also noted it below the lower right hand corner stamp of the upper pane in the sheet of £1 stamps.

"The date is a sure sign that the plate has received the repairing attentions of the Royal Mint, and the date, sometimes month and year only, marks the date when that particular plate had its new coating grown upon it in the electro-deposit bath. We have information also that the Mint has put a private mark on every plate for the identification of its plates from those made elsewhere, but after a prolonged examination we are inclined to the opinion that the identifying mark is the date, which alone is sufficient evidence that the plate emanated from the Mint, as it has never hitherto been denoted on the plates the date when each plate was steeled or nickelled.

Steeling or nickelling, we would add, are sometimes done speedily, but for the best work the deposit is allowed to grow slowly and may take several days."

Part of the above details, together with a list of the cuts known, have already been given in *E.W.S.N.* from time to time, but we thought it best to give Mr. Melville's explanation in extenso.

We do not entirely agree with Mr. Melville. It has been generally supposed that the "V 11" on the 1½d. was the first cut and that the cuts under the first four stamps which have occurred for many years on both British and Indian stamps have a different signification. If cut "1" under the first stamp signifies January and cut "1" under the second stamp signifies February, why did the authorities put "V" under the fifth stamp for May? It seems to us far more likely that the first intention was to put "11" for the year in Arabic figures and "V" for the month in Roman, and on second thoughts a single cut was substituted in such a way that its position would give it numerical value. It is rather remarkable that only "head plates" have been found with the cuts; not a single "duty" or "frame" plate has been found. On the other hand Mr. Melville's statement is supported by the fact that a 1d. Edwardian plate has been found with the "11" cut under the eighth stamp. We purchased such a sheet, perf. 15×14, on 28.10.11 (see *E.W.S.N.*, 4.11.11, No. 632). This is the only Harrison printed stamp yet reported with the "11" cut, but it is sufficient to prove that the latter mark is not the exclusive privilege of Somerset House.

We quote from the *Birmingham Post* (28.11.11):—

NEW DIES FOR POSTAGE STAMPS.

I hear that the Mint authorities are making new and improved plates for the new postage stamps. The picture of the head of the King will be the same practically as on the present halfpenny and penny values, but the design will be slightly altered, and certain small changes introduced. I gather that the dies of the higher values will not be ready for some months.

**Control "A17."**—This variety still continues to turn up on the halfpenny stamps. We first recorded it in *E.W.S.N.* No. 632 (4.11.11), on the ½d. perf. 14, and Mr. S. C. Buckley now shows us it, under date of 1.12.11, on the ½d. pale green, perf. 15×14. It might be supposed that the wave at the top between the figures "11" was accidental, but it is much more likely that it is part of some secret code, as we have seen two varieties of it on different plates.

**The diagonal 2d. cut.**—If Mr. Melville is right and the "11" cut means that the plate has had a bath—in which the mint provides it with a new iron or nickel skin—what does the "1" cut added to the "11" cut on the 2d. mean?

**Date of the "A.11."**—These were reported to us from Chorlton-cum-Hardy on 1.12.11, from Newcastle-on-Tyne 30.11.11, from Harrogate on 2.12.11, from Ipswich, 28.11.11, from Altrincham, 28.11.11, from Gloucester, 2.11.11.

**The Halfpenny Variety (636 B 637).**—Mr. E. Bentley Wood writes (2.12.11):—

With regard to the ½d. Edwardian varieties mentioned in your current issue, I have examined a few sheets at one of our local offices which have the cuts on No. 214, but which differ in some other respects from the other details you give.

The "black dots" appear to be non-existent within the right-hand frame, and there is no dot between the 55th and 56th stamps, but *instead* there is a minute black dot between the 57th and 58th.

Furthermore, I find an important variety on the tenth stamp of the eleventh row (top row of lower pane) in which the outer frame shows a long irregular crack at the S.W. corner.

All these which I send for your inspection are from one sheet, and the varieties are identical through the small remaining stock on hand.

Mr. Bentley Wood's black dot is of the same character as the one of which we wrote and in the same position, but between different stamps on the sheet. The plate is the same, with cut on 1st bar (from bottom) on right hand margin and defective outlines to the 18th stamps of the 18th and 20th rows.

As our tables of provisional printings and control letters bid fair to become too complicated, we have adopted a simplified system and will deal in future with shades and marginal varieties under sub-headings.

\* The 2/6 is watermarked Anchor.

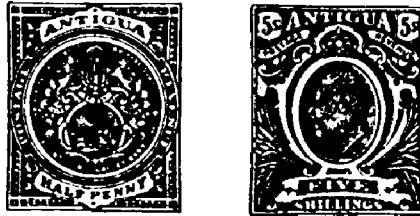

The stamps to look out for are the 5/- and 10/- Somerset House prints, and possibly even a small printing of the 7d. The latter, being a unicoloured stamp, would presumably be printed by Messrs. Harrison & Sons, and in that case might be perf. 15×14. It is just as well not to lose sight of possibilities, however unlikely they may appear to-day.

**Georgian ½d. variety (635 B 637).**—A Mitcham correspondent writes:—"The solid ground in the upper corners, described by Mr. Warner, must, I think, have occurred in all the first printings—I find it in the block of four received from you as well as in the pair with which my copy of *E.W.S.N.* was stamped (July 2nd?)."

By the way, we recommend postal subscribers not to throw away the wrappers in which their copies of *E.W.S.N.* were posted as we are always endeavouring to find interesting shades and varieties with which to flank them.

**Control A. 11, late news.**—Just as we go to press, a Kemp Town (Brighton) reader shows us an entire sheet of the A. 11 in a third variety with clear control, no defects. There is a single cut under the 1st stamp of the bottom row and none of the stamps show the pointed corners. Has Somerset House recommenced printing?

**ANTIGUA (628 A 637).**—Two months ago we gave a list of the quantities printed of the current issue on Crown CC paper (ordinary and chalky). We now append a statement of the printings with multiple watermark.

**NOTE.**—The *Colonial Office Journal* (4.08/343) states that thicker paper, usually used for stamps printed by the steel or copper-plate process, was inadvertently used for printing the last two issues of the large Antigua stamps.

11.4.10 or earlier 2d. Crown CC, new shade (deep or red brown).  
30.8.11 or earlier 6d. grey and lilac, mult. chalky.

This record includes two halfpenny stamps whilst a third shade, no doubt a printing of August 1910, was distributed by Ewen's New Issue Service last week (issued at Antigua, 6.10.11). As regards the other values we have met with no success in distinguishing the printings. The printings on thick paper, referred to in the *Colonial Office Journal* would no doubt be those of February, 1907 (½d., 2½d., 1/-) and February, 1908 (2½d.) The "specimen" copies of the unicoloured ½d. and 2½d. were reported in January, 1907.

**BRUNEI (613 U 637).**—We have at last received the new 2c. brown and black. It comes in pale and dark shades, both occurring even on the same sheet. The 3c. was out of stock at Brunei on 1.11.11.

"Specimen" copies of the 30c. and \$1 are reported in the new colours by the *Bulletin Mensuel* (25.11.11/11).

**New Colours.** Wmk. multiple Crown CA., ordinary paper.  
30c. orange and violet.  
\$1 carmine and black on blue.

To be issued.

**CUBA (627 G 637).**—The 8c. is reported in new colours by the *Bulletin Mensuel* (25.11/11/1).

**New Colours.**  
8c. olive and black.

To be issued? A set of telegraph stamps, 1, 2, 3, 5, 50c. is also reported.

**DENMARK (432 S 637).**—Our *Home* (2.12.11/2357) contains an interesting illustrated article on the Danish *Julemaerke* or Christmas charity stamps.

**FRANCE (616 Q 637).**—We quote from the *Newcastle Chronicle* (30.11.11):—

"It may be interesting to philatelists to learn that in consequence of a trifling mechanical misadventure a whole series of what may be called freak stamps has been issued in France. The stamps in question are of blue paper with a face value of 25 centimes. The peculiarity lies in the fact that the perforation, instead of separating one stamp from another, has been executed right in the middle of the stamp, cutting it in two. The post office authorities in France have not recalled the issue, which is to be available as in the case of other ordinary stamps. It will, nevertheless, without fail have a value all its own, and collectors should be on the look out for it."

**GERMANY (636 A 637).**—With reference to our note last week on the perforated advertisement labels printed with the stamps (one label and five stamps to each page), the advertisement contractors, the Haasenstein & Vogler Share-Company (Stamp Advertisement Department) inform us that up to the present (25.11.11) fourteen different advertisement-stamps have appeared in the stamp-booklets, namely:—  
12 each in an edition of 1,000,000.  
2 " " " 2,000,000.

The company are unable to accede to our request for the advertisement-stamps in entire sheets; they are to be obtained in the booklets and in that way only. The advertisement-stamps, even when joined in a pair with the original stamp which neighboured it, are not allowed to be placed on the front of a letter. In fact, the picture-stamp craze has caught on to such an extent in Germany that the authorities now forbid the placing on the front of a letter of any coloured label other than postage stamps.

Our correspondents kindly inform us that stamp booklets were to be issued during November for the Colonies of Kamerun, German East Africa and German South West Africa and these will also contain advertisement-stamps.

**JAMAICA (631 F 637).**—German papers say that an English paper has estimated the value of the 4d. black on yellow at £8 and *Borek's Neuheiten-Preisliste* enters into an argument to prove that it cannot be worth more than 40/- or 50/-! Gibbons' new catalogue price is 1/- but it is reported that their sale price has been advanced to 6/6. We mentioned recently that the 4d. brown, multiple watermark, stood at 1700% premium; can someone have misread this for 170/-?

**LABUAN (593 C 637).**—A reader offers a high price for the \$2, \$5, and \$10 of 1905 (S.G. Nos. 140 to 142). Can anyone supply?

**PHILIPPINE ISLANDS (621 C 637).**—Ewen's New Issue Service distributed last week the 16 and 26c. stamps in new colours but in the old designs, not new ones as had been expected.

**New Colours.**  
16c. olive-green.  
26c. dark turquoise-blue.  
Issued 28.10.11 or earlier.

**SOMALILAND (597 N 637).**—We have received the following new variety.

Chalk-surfaced paper instead of ordinary; multiple Crown CA.  
12 annas, orange and grey-black.

Issued 9.11.11 or earlier. Very few were printed and we were only able to obtain a little over half the quantity we applied for, whilst at least one applicant had to go without altogether. Competition to obtain specimens has already started the market quotation on an upward trend (which, by the way, does not benefit us, as almost the entire allotment was distributed with Ewen's New Issue Service last week at the usual face value rate.)

**SOUTH AFRICAN UNION (629 J 637).**—We quote as under from *Grocott's Penny Mail* (Grahamstown, Cape Colony, 1.11.11):—

"POSTAGE DUE.—It is notified in the Gazette that from November 1st 'Postage Due' labels will be used by the Postal Department for bringing to account all surcharges collected on unpaid and insufficiently paid correspondence. Members of the public are requested not to accept delivery of surcharged correspondence

(Continued on page 2677.)

## TASMANIA.

In describing the following stamps, we distinguish the watermarks by numbers as in the case of Papuan and other stamps printed at Melbourne; viz.:-

- Issues 1, 2 Wmk. Crown A upright, p. 11.  
 " 3, 4 " " p. 12½ (large holes).  
 " 5, 6 Wmk. Crown A sideways, p. 11.  
 " 7, 8 " " " p. 12½.  
 " 13, 14 " " upright, p. 12½ (small holes).  
 " 17, 18 " " sideways, perf. 12½ (small holes).

The second issue in each case has inverted watermark, which in the sideways watermark means "A" to left of Crown.

The old shade of die ii. can still be supplied, issues 1, 2, 3, 4, (all rare), 9d. each.

*Issued 31st July, 1911, or earlier.*

Four Pence, redrawn.

This is the first fourpenny issued with sideways watermark; the re-engraving also gives it a very distinctive appearance.

4d. issue 5, mint, 5d.; block, 1/8.

*Issued 6th September, 1911, or earlier.*

1/- issue 14 (small holes instead of large holes), mint, 1/2.

*Purchased at Hobart, 31st July, 1911.*

Sets ½d. to 1/- of the shades then in issue, mint, 5/4; blocks, 21/4.

*Perf. 11, mixed shades.*

We have a few sets including the rare 1/- value, which we can still offer at New Issue rates.

½d., 1d., 2d., 3d., 4d., 6d., 8d., 9d., 1/- (all that exist, except 10/-), wmk. Crown A, perf. 11, mint set, 4/6; blocks, 18/-.

## TONGA.

The current pictorial issue is printed on thick opaque or thin transparent paper; in the latter case, if the stamp is laid face downwards, the watermark shows very clearly. The turtle's heads may point up (a), or down (b), or alternately down and up (c), or down and up (d).\*

\*The illustration in Gibbons' catalogue shows the turtles with two heads and no tail! In our c and d the turtle leaning to left is measured first; c and d are really a and b turned sideways.

*Issued June, 1897, thick paper.*

1d. wmk. c or d, each 2d.; block, 8d.; any variety, 1/2 per dozen; 9/6 per 100.

2d. wmk. a or b, each 3d.; block, 1/-; any variety, 2/4 per dozen; 19/- per 100.

*Issued 1904 or earlier, thin paper.*

2d. wmk. a, mint, 6d.

2½d. wmk. c, mint, 3d.; block, 1/-; dozen, 2/11.

## TRANSVAAL.

The 5/- stamps offered in our sets and high values list have the old single watermark. The 2/6 and 10/- are multiple ordinary.

*Issued July, 1907.*

Postage dues ½d. and 1d. offered at face, if a dozen or more taken. Sets can also be supplied at face if a dozen taken.

*Issued 9th October, 1909, or earlier.*

2½d. all blue, mint, 3d.; block, 1/-; dozen, 2/11.

*Issued 10th September, 1910, or earlier.*

6d. yellow and black, ordinary paper, mint, 7d.; block, 2/4; dozen, 7/-.

Note.—The 6d. chalky can still be supplied at 7d.

## TRAVANCORE.

This Indian state first issued stamps in 1888 and has not yet had a change of design in any value.

*Issued 30th November, 1908, or earlier.*

unless 'Postage Due' labels of the amount of the surcharge are affixed to the article in exchange for the cash paid and cancelled by the delivery officer. The labels will be used for surcharged correspondence only."

Are these a new issue or will the Transvaal remainders be used up? The latter have been transferred to the G.P.O., Cape Town.

The *Natal Witness* (3.11.11) also has a notice on the subject.

#### "UNPAID POSTAGE.

"A 'Gazette' notice is issued announcing an alteration in method of collection of unpaid postage in the Cape of Good Hope, Natal, and Orange Free State Provinces.

"From the 1st November 'Postage due' labels will be used by the Department for bringing to account all surcharges collected on unpaid and insufficiently paid correspondence delivered in the Cape of Good Hope, Natal, and Orange Free State Provinces, as at present in the Transvaal.

"The public are requested not to accept delivery of surcharged correspondence unless 'Post due' labels of the amount of the surcharge are affixed to the article in exchange for the cash paid, and cancelled by the delivery officer.

"'Postage due' labels will be used for surcharged correspondence only; and they are not valid for the pre-payment of postage."

A Natal correspondent commenting on this states that down to 4.11.11 no postage due stamps had been supplied to his local postmaster.

**SOUTH AUSTRALIA** (633 F 637).—We are informed by "Merry Forest" that the (3d.) olive-green, registration envelope, was sent him from Adelaide under date of 9.8.11 or nearly a month earlier than the date given by us (*E.W.S.N.* No. 633).

**TRAVANCORE** (636 P 637).—With reference to our note last week on the 3 chuckrams, we notice on part of a sheet quite a large variety of blots, dots and smudges on the native character for "3." Our stock being almost exhausted, we cannot now say if such defects occur on all sheets.

Mr. A. Brun informs us that he has the  $\frac{1}{2}$  on  $\frac{1}{2}$  chuckram, violet, with inverted surcharge, used.

**UNITED STATES** (636 C 637).—We quote from an American paper:—

"CHICAGO MERCHANT TRIES TO BUY \$150,000 WORTH OF 3-CENT VARIETY.  
[Associated Press Telegram].

"Washington, Nov. 22.—A record stamp requisition has been received at the post office department from the postmaster at Chicago. A merchant of Chicago wanted to buy 5,000,000 three-cent stamps. The postmaster had to send a hurry call to the department for a supply.

"At the Chicago post office it was said the requisition was for a west-side mail order house. The order is the largest for stamps of this denomination ever made in Chicago."

Orders like this are dangerous to philately! An order for 150,000 sheets of stamps might easily absorb an entire edition, and leave collectors with a hopeless blank space in their albums!

### Notes.

A postcard reached us last week from Austria addressed:—

Hochwohlgeboren Herrn,  
Square Palace,  
Liverpool 32,  
Norwood.

We take the opportunity of reminding our readers that letters intended for Ewen's Colonial Stamp Market, Ltd., should simply be addressed to that Company, and not to Mr. Ewen nor to "The Editor, *E.W.S.N.*," which causes delay.

#### PHILATELIC FIENDS.

Who will save us from the philatelic fiends who are for ever pestering us for foreign stamps? Of all childish crazes this is the most puerile. The postcard collector is bad enough, though a well-arranged travel album may stimulate a passing interest, but what sort of enthusiasm can a sane man work up over a book of old postage stamps?

If men have such a passion for handling stamps, why don't they get employed as clerks in the Post Office, where they would have unlimited opportunities of gratifying their passion, and at the same time be able to serve the public instead of boring their acquaintances to death?

Someone should have a gentle conversation with the Editor of the *Watch Dog*!

Surely this is another echo of the great snow-ball? The *Standard* (16.11.11) says:—

Melbourne Oct. 26.

A lady living in Sydney for many years has hoarded a collection of postal stamps left by her father, who had pursued his hobby of collecting for fifty years. The daughter was ignorant of any knowledge of philately, and threw the stamps into an old trunk. Last week she visited a stamp exhibition, and for the first time awoke to the value of the stamps in her possession. She secured the assistance of experts, who estimate the value of the collection at £20,000.

\* \* \*

A correspondent is puzzled over the different values of the Eastern dollar. He should obtain the Post Office Guide, the current issue of which, at page 858, gives a valuable list of rates at which British money orders and postal orders are converted into foreign currency. So far as collectors of British Colonial stamps are concerned there are only two silver dollars, the Hongkong, which varies from time to time and is at present  $1/10\frac{1}{2}$  and the Straits, which is fixed at  $2/4$ , though banks charge about  $2/4\frac{1}{2}$  for demand drafts. The rates for telegraphic transfers quoted in the daily newspapers are a good guide though it must be understood that a stamp dealer is more concerned with the rate that was current when he purchased his stamps. Owing to fluctuation Ewen's Colonial Stamp Market, Ltd., take  $\frac{1}{2}$ d. and  $\frac{3}{4}$ d. respectively as the values of the Straits and Hongkong cent (100 cents equal one dollar), which makes the dollar respectively  $2\frac{1}{2}$ d. and  $2\frac{3}{4}$ d. Ten cents make either  $2\frac{1}{2}$ d. or  $2\frac{3}{4}$ d. This rule does not always hold good. The Macau and Timor dollars, for instance, correspond to those of Hong Kong and Straits, but the stamps of these two colonies are both issued in Lisbon at the same rate, practically an average of the two rates.

\* \* \*

Will any of our readers assist in making *Ewen's Weekly Stamp News* known (if indeed there are any live collectors who do not yet know of it) by sending sample copies to friends this Christmas? We will supply them post free, either loose or wrapped in stamped wrappers.

\* \* \*

A used block of six 1d. black Great Britain only realized 38/- at an Edinburgh auction sale on 18.11.11 (Smith's Auction Rooms, George Street). If report be true, £100 was once refused for a used block of sixteen of this stamp, but we rather doubt it. It is difficult to know which collector was the most enthusiastic, the one who offered or the other who refused! At the same sale strips of four realized £1 and 19/-, and a pair of 2d. blue, no lines 19/-. The latter seems dear by comparison.

\* \* \*

The 4d. black Jamaica seems to be a better stamp even than was anticipated. We were selling it in our sets at the usual 5d. up to a few weeks ago. We are informed that Messrs. Stanley Gibbons, Ltd., price it at 6/6 in their latest stock-books. The catalogue price was only 1/-.

\* \* \*

According to Mr. C. J. Smith (in proposing a vote of thanks for Colonel Iremonger's display at the Brighton meeting of the Junior Philatelic Society), the three philatelic virtues are—philatelic research, artistic merit and intrinsic value.

\* \* \*

A reader writes:—"I was interested in your note on the 30/- orange and lilac Natal, having received one from you through the New Issue Service at 35/-. Although I am not collecting with the idea of an investment, I am nevertheless pleased to know the money is not thrown away. [We should think not!—Ed.]. Although Gibbons in his new catalogue tries to put a damper on this hobby (new issues), I shall be very much surprised if they do not prove a very fine speculation; meanwhile, I get great recreation out of the modern part of my collection, which has cost me considerably over £10,000 as a whole."

\* \* \*

The German Postal Museum in Berlin, which is open to the public, exhibits all the latest new issues received from the Postal Union (Berne), states the *Schweizerische Philatelistische Nachrichten* (11.11.206). The exhibits are changed once a month.

\* \* \*

A German dealer offers 15% over face value for the current German stamps, without watermark, except the 3 Mark value. It seems they have become quite scarce.

\* \* \*

A German contemporary, which has a large circle of readers interested in new issues—we refer to *Borek's Neuheiten Preisliste*—makes the

mistake of supposing that Messrs. De La Rue & Co. have also lost the contract for printing Colonial stamps and assumes that all the new De La Rue prints now appearing must therefore have been printed before this year. This is not so.

\* \* \*

The same paper states that the Austrian Postage Dues, 2, 4, 6, 10, 20 heller, on chalky paper, are rare.

\* \* \*

Hongkong stamps will soon cost more! Today's (17.11.11) exchange is  $1/10\frac{1}{2}$ , nearly 5% higher than quite recently. Is the Chinese revolution the cause?

## The Future of the Congress.

THE PREMIER SOCIETY'S INVITATION FOR 1914.

The *Postage Stamp* (18.11.11/94) is notified by the Hon. Secretary of the Permanent Committee of Philatelic Congresses of Great Britain that the Royal Philatelic Society has at its Council Meeting, held on November 2nd, decided to invite the Congress to meet under its auspices in London in 1914. The following is the official communication from the Hon. Secretary, Mr. J. A. Tilleard:—

THE ROYAL PHILATELIC SOCIETY,  
LONDON.

HON. SECRETARY'S OFFICE,  
10, GRACECHURCH STREET, E.C.,

3rd November, 1911.

DEAR SIR,

I have brought your letter of the 1st October to the notice of my Council, and we are glad to hear of the proposal made for the holding of the Congress at Newcastle in 1915.

I have the further pleasure of informing you that it has been unanimously resolved, at our meeting held yesterday, to issue an invitation to hold the Congress in the year 1914 in London, under the auspices of the Royal Philatelic Society, London.

I, accordingly, on behalf of the Society make the formal offer to undertake the organization and management in London of the Congress to be convened for the year 1914, should the suggestion meet with the approval of your Committee, and prove acceptable to those with whom the decision as to the place of meeting for the year in question may rest.

Believe me,  
Yours truly,  
(Signed) J. A. TILLEARD,  
Hon. Secretary.

Franz Reichenheim, Esq.,  
Hon. Secretary to  
The Permanent Committee of  
Philatelic Congresses of Great Britain.

The above announcement will be received with the greatest satisfaction by the enthusiasts who have watched with keen interest the progress of the Congress, from its first initiation at Manchester in 1909. The past record of the Congresses is briefly tabulated:—

1909 ...	Manchester.
1910 ...	London.
1911 ...	Birmingham.

The future is now well assured, invitations having been already guaranteed for the next four years from the following widely separated centres:—

1912 ...	Margate.
1913 ...	Edinburgh.
1914 ...	London.
1915 ...	Newcastle-on-Tyne.

Wales and Ireland have yet to come forward and secure a date; there are active societies in Wales, and it is to be hoped that they will not let all their English and Scotch friends take all the dates this side of the Millennium. Ireland is not strong in philatelic societies, and there is plenty of room in Erin for some active propaganda work.

## Books Received.

*Chromotaxia seu Nomenclator Colorum Polyglottus additis speciminibus coloratis ad usum botanicorum et zoologorum [et philatelicorum].—Ed., E.W.S.N].* By P. A. Saccardo. Although not new (the second edition before us is dated 1894), this work has not, we believe, yet been mentioned in the philatelic discussion on colours. There are not a few colour names new to our recent dictionary, such as Isabel-coloured (Latin Isabelinus), sooty, egg-yellow, eye-blue, rufous, smaragdine, livid, vinous, hyaline (colourless), etc.

*Description, Historique et Catalogue de Timbres Grecs*, 7th edition, by N. S. Nicolaïdes (rf. 50c.). This is an illustrated price catalogue of 47 pages.

**"New Issues on Approval."**

EWEN'S DEPOSIT SYSTEM.

Collectors everywhere are greatly pleased with our system of "New Issues on Approval."

A deposit account may be opened with any sum, small or large, and every Friday a packet of the latest New Issues in mint unused condition will be sent until the deposit is exhausted, when it may be renewed or not as wished. If any of the stamps sent are not wanted, they may be returned within ten days.

SOME SUGGESTIONS.

State clearly when sending your deposit whether you collect British Colonies only or all the world or certain countries; also whether you collect perforations, water-marks, surcharges, shades, postage dues, officials, &c.

Note that postage is extra and choose whether stamps are to be sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1.

Stamps are sent out at a small percentage over face value (to cover expense of importation, etc.) but if preferred they can be sent at face value or cost price only, and we then charge an annual membership fee of £1 1/-, £2 2/-, £3 3/-, £4 4/- or £5 5/-, according as the limit of face value chosen is 1/-, 2/6, 5/-, 10/- or £1.

Only one copy of each new issue is sent on approval, but if collectors, dealers and clubs requiring a more liberal service will write us, we shall be happy to send particulars of our service for pairs, blocks and sheets.

**SUBSCRIPTION FORM.**

The undersigned wishes to receive New Issues on Approval until further notice and encloses a deposit of £ : s. d.

The above is only a very small selection of the many stamps which have since become rare. The prices quoted are those at which distributions were commenced, and in most cases a complete distribution was made without increase. But in the case of very rare varieties sometimes not enough were printed and in others purchases had to be made at increased rates. The New Hebrides 1/- single wmk. was for instance only sent to the first 100 or so of subscribers at 1/2 and we could then obtain no more. Early positions on our list are the privilege of our oldest subscribers, who take new issues at least up to the £1 limit. But there are of course plenty of bargains which go round at N/I rates, in fact, probably over three-quarters of the above-named stamps.

New Issues, are supplied at 1/2 per 1/- or 1/1 per 1/- and up to the limits of 1/-, 2/6, 5/-, 10/-, £1 or £20. The higher the limit the earlier the position on our distributing list and clients who pay 1/2 per 1/- have precedence over those who pay 1/1 per 1/-. The latter rate is less than 10% over face and the former a fraction over 10%, but in subscribing to a new issue service, it is best to leave fractions of a penny alone and consider whether the service is made in a manner calculated to provide the maximum of pleasure and profit. Ewen's New Issue Service makes its distributions weekly (every Friday) so that there is no tedious waiting between the distributions and it has been running efficiently now over ten years.

Stamps are of course not invariably sent out at "New Issue rates" but when the rate is over the agreed percentage, the stamps are on approval and returnable within ten days. It is rare in such cases for the price not to be much under current market rates and even much under our own advertised rates.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current Issue (637 N 638).—Mr. W. B. Edwards makes the claim that his paper, the *Philatelic Circular* of Friday, 1.12.11, was the first to note the A. 11 variety of control; as Editor he received a specimen from Mr. Harris which was purchased on 23.11.11 at Chancery Lane.

We would point out, however, that *Ewen's Weekly Stamp News*, though dated Saturday, 2.12.11, is published in the early hours of Friday morning and occasional copies are even dispatched by the printers on Thursday evening; thus we received our copy chronicling the "A.11" under postmark of Bournemouth, Thursday 30.11.11.

The first printed record of the A.11 was probably on the list circulated with *Ewen's New Issue Service*, which reads thus:—

"Ewen's New Issue Service

"Distribution No. 566, 30.11.11.

"1d. Georgian. Som. Hse. print, block 5d.  
"With protuberant corners. Taken from sheet  
"with control A.11 with stop after A."

This list was published on the morning of 30.11.11. The stamps then distributed had been in our hands since 21.11.11.

**Another ½d. Leaf Variety.**—A Wrexham reader writes (29.11.11):—"I enclose a corner block of 4 ½d. Edwardian stamps, perf. 14, control letter A11 with coloured dot inside the triangle of the A. There is an interesting peculiarity in the corner stamp of the block, and it seems present on all the sheets I have seen of this lot. The leaf opposite the eye is prolonged at the point until it touches the outer frame." The leaf is not to be confused with that opposite the chin, which always extends to the outer frame in normal stamps.

**A Georgian ½d. Variety.**—A Leytonstone reader (3.12.11) has found a specimen (the 11th in a row) in which the King's right eyelashes are missing, and thinks it might be added to our collection of curiosities.

**A 1½d. Variety.**—An Eastern reader (3.12.11) describes a copy of the S.H. print which he has found; there are white dots over the O, T, G of "Postage." We have also found a corner stamp with a dot over the S but an examination of other sheets shows that it is inconstant, and inconstancy very largely destroys the interest attaching to a variety.

**A new Control (634, 635, 636, 637, 638).**—A Leeds correspondent (8.12.11) writes that he has the ½d. Georgian in a darker shade of green with Control A11 of which the first "1" is very short and the second "1" slightly dropped. The specimen was purchased 1.12.11. We find that we have it also, purchased 2.12.11 and the control is much nearer the stamp than in any other cases.

We did not chronicle it, as we have not been noting the minor varieties of the controls lately, although there are not as many of them as might be supposed.

The latest ½d. Edwardian we have been receiving have either a large white dot on the centre of the first "1" and a faint coloured dot between the figures "1" at the top, or two coloured dots between the figures which have usually developed into a smudgy extension of the second figure, making the control look like "A17." The very latest (since 25.11.11) are in a much paler shade of green and apparently from the same plates with the same control but the smudge between the figures "1" is removed. These latter come

equally perf. 14 and 15×14 in the same batch of sheets from the Controller of Stamps, so that it seems probable that Messrs. Harrison & Sons may still be using both gauges. In this connection we may note that locally the 4d. stamps are again perf. 14, after being 15×14. Will the rare 3d., perf. 14 be reissued? There is not much likelihood if the Georgian 3d. appears in January as promised.

The chief control letter varieties to date are:

"A 11" (wide figures 11 are 2 mm. apart.)

5th May 1911 Edwardian ½d. perf. 14.

5th " " " " " "

22nd June 1911 Georgian ½d. perf. 15×14.

22nd " " " " " "

29th Oct. 1911 Edwardian ½d. perf. 15×14

(after 25.11.11 in very pale green).

"A. 11" wide, with stop 1½ or 2 mm. after A.

21st Nov. 1911 Georgian 1d. perf. 15×14.

"A" narrow (figures 11 are 1½ mm. apart).

1st Oct. 1911 Georgian 1d. perf. 15×14.

6th " " Edwardian 1d. " "

30th " " Georgian ½d. " "

This table is very interesting. For instance, one is impelled to ask:—"Why are the stamps in the two latter groups perf. 15×14 only? Why have no ½d. Edwardian been found with A11 narrow? Is it merely a coincidence that all 1d. Edwardian perf. 14 have A11 wide and those perf. 15×14 A11 narrow? The "A" is believed to stand for a year's supply of stamps. Was the "11" narrowed to distinguish further between the first and second six months?

**Where the plates are made.**—Mr. F. J. Melville writes in the *Postage Stamp* (2.12.11/110):—

"The premises where the stamp dies are at present being made are temporary, and are situated in four rooms in the recently erected mechanics' shop which was added to the Mint buildings in 1909. These new buildings, though considerable in their accommodation, were already largely taken up with the work of the Mint, and the present rooms are not sufficient for the purposes of the die and plate-making for stamps, so that the present arrangements are of a provisional character.

"On the ground and first floors of the recently built premises there are the smithy and metal store, a triangular room with heating and annealing apparatus, a drawing office, etc; and on the second floor is a photographic room. On the ground floor there has been installed, in two rooms, the wax-moulding and electro-depositing plant for the stamp plates, together with suitable transformers, steam boiler, blackleading machine, wax-shaving machine, lye and washing tanks, the furnace for stereo metal, with backing stand; and the motor equipment.

"On the first floor there is another of the rooms commandeered for the stamp work; here are accommodated the electrotype finishers, with all the requisite plant, a planing and roughing machine, incline shaving machine, trimming machine, and a circular saw and motor.

"Above the electrotype finishers' room is a smaller one in which the engravers work at benches, and here also proofs are taken of the work done, on two proving presses. There is here also a die transfer press.

"Outside the building in a separate wooden shed have been installed two special furnaces for hardening mild steel. This is done by heating in a cast-iron vessel filled with cyanide of potassium; and as the fumes from the molten cyanide are of a dangerous character, it was necessary that this work should be done quite away from the general buildings.

"As pointed out last week, the work of this establishment on the old Edwardian stamps consisted in repairing or renewing old plates. In preparing, however, for the King George issue, the Mint has to produce the dies and the whole of the plates for eighteen denominations of adhesive stamps, including the prospective new value of eightpence. [We query this, having recently been informed that a private firm is engraving the dies for most of the values.—Ed., E.W.S.N.]

"By August last none of the dies beyond the halfpenny and penny values seem to have been

constructed, the establishment having been working overtime to get the halfpenny and penny stamps out in time for the Coronation, and it may be as well for critics to know that the approved designs were not handed to the Mint until the end of last year, so that there never was any possibility of their being ready last New Year's Day. However, by August thirteen penny plates and twelve halfpenny ones were at press or ready for press, as well as three each of the penny and halfpenny plates for stamps which required to be bound up in book form.

"The arrangement of the halfpenny plates for the book-form has probably only been altered back to the original form, i.e., without the St. Andrew's Cross which was formerly in every fourth block of six of the halfpenny stamps. The arrangement of the plates for both values is probably, therefore, as for the one penny King Edward.†

"The other work executed so far chiefly concerns the dies and electros used in the manufacture of the Stamped Stationery, including the different varieties of lettering plates and instruction pieces.

"Two hundred and six electros of the halfpenny post-card stamps and the same number of electros of the lettering; and forty-eight halfpenny post-card stamps in steel have been made. In addition eighty-six letterpress and stamp electros have been made for the letter cards together with sixty-seven instruction pieces for the front and sixty-eight instruction pieces for the back of the letter cards. For the registered envelopes six steel dies have so far been made."

The statement that up to 8.11 only 13 ½d. and 12 1d. plates were at press or ready for press reminds us that it should not be very difficult to identify them, given enough strips from the bottom of the sheets. The control letter is no guide as it is believed to be printed independently and is certainly not engraved on the plate.

**Postmarks (614 B 638).**—The earliest date yet recorded for the Maltese Cross postmark in black is, we believe, 1.9.1840. Mr. J. A. Limpus has now shown us two fine examples on the entire original covers, each postmarked on the back "4 Eg 4—AU 31—1840." In each case the 1d. black stamp is cancelled with the Maltese Cross in black, and in each case the front of the cover is further postmarked with "T.P.—Charles St. West" in blue.

**Stationery (635 X 638).**—The thick reply post-cards are reported by Mr. T. G. Jordan with Georgian stamp, under date of 15.11.11.

**Line-engraved Stamps (613 Y 638).**—Mr. C. W. Pauer writes:—"Looking through a large lot of first issues British stamps I found the enclosed 1d. black rouletted about 48, which I fancy is the earliest known rouletted stamp in existence. It is in perfect condition, but the roulette being so fine is hardly visible without a magnifying glass. I also enclose a penny red and twopenny blue 1841 issue which are also similarly rouletted about 48, and the right side of the penny red not being straight shows that it must have been done by a hand roulette. These two latter are not quite so distinct, but in my opinion they have certainly been rouletted."

The 1d. red has postmark 152, the 1d. black a red Maltese Cross and the 2d. blue a black Maltese Cross, so that if the rouletting is genuine (and it appears to be so), someone must have been applying it for several years, from 1841 to 1844 at least.

**ABYSSINIA (636 K 638).**—There seems to be considerable misunderstanding with regard to the issue of postage due stamps. A notice has been circulated to the effect that the 1896 set was never put into use in Abyssinia, which we believe to be correct. But this does not mean that all postage dues are unissued varieties.

The truth seems to be that about 1894 the Abyssinian government appointed a Frenchman to establish a postal system in Abyssinia and this

† We have the 1d. King George Stamp, from a book-form plate showing watermarked letters from the margin of the sheet.

latter ordered about 100,000 sets of stamps in the appended designs from the Government Printing Office in Paris.

Adhesive.

Postcard.

Before the postal system was got into working order, a very large quantity of these stamps came on the Paris market at only a small fraction of face value and naturally constituted a considerable menace to the Post Office revenues. Part of this stock comprised the 1896 postage dues. As the postal system was modelled on that of France, it was only natural that both postage and postage due stamps should have been provided and that the value should have been transliterated according to French orthography "guerche" (English orthography, gairsh).

As these stamps—the 1894 postage and 1896 postage due—were on the market so far below face value, it was naturally impossible for them to be used in Abyssinia without some control mark. The surcharges were in reality little more than control marks, and in consequence of forgery had to be changed about once a year. It is probable that the regular use of Abyssinian stamps only commenced with the 1901 postage and 1905 postage due control marks.

**ARGENTINE REPUBLIC** (633 Q 638).—We quote from the *Financial News* (28.11.11):—"The Argentine Post Office has issued new 5 and 12 cent stamps. These stamps have been made in the United States, are steel engraved, and are on special paper."

The re-issue of the San Martin issue, which followed on the exhaustion of the stock of centenary stamps, has brought the following values with the new perforation.

San Martin issue, perf. 13½ x 12½.  
4c. lilac.  
24c. brown.

Issued 7.11.11 or earlier. The record of the San Martin issue is now as follows:—

- (31) *Wmk. Sun, perf. 13½.*  
1, 2, 4, 5, 10, 12 (both), 15, 24, 30c., 1p.
- (32) *Same perf., 13½ x 12½.*  
½, 1, 2, 3, 4, 5, 6, 10, 12 (blue), 20, 24, 30, 50c.
- (33) *Variety from edge of sheet, no wmk.*  
½, 1, 2, 5, 50c., 1p.

Only the 15c. and 1p. are therefore still unknown with the current perforation. Our supply of them, issued as late as 7.11.11, had the old perforation.

**AUSTRALIA** (635 D 638).—We quote from the *Australian Philatelist* (3.11.11/52):—

"We have been informed that it is the intention of the Federal Government to discontinue the use of the Victorian paper with watermark double-lined A and Crown (type 47 of the illustrations in our August number), and that no more stamps will be printed on this paper once the present stock is exhausted.

"Large stocks of the paper watermarked A and Crown, type 53 (now used on the South Australian and current low value Papuans), have been imported and are stocked ready for use, so that we may shortly expect the postage stamps of Victoria, Tasmania, West Australia, the 9d. New South Wales and Queensland, and the postage dues to appear with this watermark.

"It is even possible, nay, very probable, that it will also be issued to the New South Wales and Queensland printing offices, to print their own stamps on.

"The reason given for the alteration of watermarked paper is that the double-lined A and Crown paper is sent un gummed, and has to be gummed locally, while the new paper is ready gummed before importation."

**BRITISH P.O., LEVANT** (636 B 638).—*Early Date.*—Mr. Clifford Moss has shown us the 30 paras on 1½d. S.H. print with an earlier date than that previously reported—Beyrout, 22.8.11.

The short E variety referred to last week also occurs on the 1 piastre, perf. 14, unless it could be shown that it occurred on every sheet."

**BULGARIA** (620 S 638).—*Le Bulletin Philatèlique* (5.12.11/247) learns that the postal authorities are thinking of offering the remainders of old issues for sale. The remainders are said not to be very large.

**CANADA** (634 W 638).—We quote from *The Times* (25.11.11):—

THE CANADIAN POSTAGE STAMPS.  
(From our correspondent.)

Ottawa, Nov. 24.

The new Canadian postage stamps will be on sale in a few days' time. They represent the King in naval uniform. The stamps are of great artistic merit.

**CUBA** (637 H 638).—*L'Echo de la Timbrologie* (25.11.11/691) reports the discovery of the following:—

*Inverted Centre.*

2c. carmine and green; sheet of 100 issued at Placetas, 6.11.

1c. green and violet, sheet of 100 issued "shortly after" at a "neighbouring office."

The 10c. is expected to be issued soon in a single colour, orange.

**DOMINICA** (576 U 638).—The 5/- value is reported by *Borek's Neuheiten-Preisliste* in new colours:—

*New Colours.* Wmk. Crown CA multiple.  
5/- green and red on yellow.

**DOMINICAN REPUBLIC** (632 Q 638).—Mr. Hermann Focke informs *Mekeel's Weekly Stamp News* (25.11.11/396) that the 50c. and \$1 of the new set are not yet issued; and the 20c. has only just come out.

**EGYPT** (632 Z 638).—The 3 mill. is reported by Mr. A. S. Mackenzie Low with plate No. 2, issued 26.11.11 or earlier. The marginal plate Nos. of the current issue now reported are:—

Gibbons' 1912 catalogue states in a footnote that "some of the values of the Postage Due stamps are known on chalk-surfaced paper." A reference to the above summary will show that all values of the current set are known, except of course the surcharged 3m. on 2p. issued in 1898, and it may be remarked that not only the postage dues but every Egyptian stamp offered in our Sets and High Values list (sets 201 to 204) is on chalky paper. It is rather remarkable that Messrs. Stanley Gibbons should still make two separate issues of the Egyptian current stamps on ordinary and chalky paper in their 1912 catalogue and yet consider the same variety in British Colonial stamps not worth listing separately. Modern issues of British and British Colonial stamps certainly do not get fair play in the Gibbons' catalogues.

**FRENCH P.O., MOROCCO** (609 X 638).—*L'Echo de la Timbrologie* (30.11.11/732) chronicles a new issue.

Morocco stamps, surcharged as before, but the word "CENTIMOS" is now replaced by Arabic characters which we transliterate s(a)ntim (except on the 1 fr. which we have not seen).

Issued at Paris 27.11.11 or earlier, but at a premium, i.e., at their French face values and not at the value in hassani currency.

**GREECE** (636 D 638).—We quote from the *London Philatelist* (11.11.291):—

"Captain A. S. Bates has kindly sent us photos of two 50 lepta stamps of the current issue.

"A change in the die has been made, the most noticeable difference being the shading of the background.

"The diagonal lines in the background on one stamp stops at the sixth top horizontal line, whereas in the other the diagonal lines are carried right up to the top line of the centre frame.

"The figures of value vary slightly and other differences may be found."

**INDIA** (634 V 638).—We read in the *London Philatelist* (11.11.289):—

"We have seen the new 1, 2, and 3 annas stamps of the Georgian issue, which were delivered from the printers between October 25th and November 11th. All have a portrait of King George on left, crowned and robed, in the centre, the ornamentation around differing in each value.

"The 1 anna bears the inscription at top: 'India Postage and Revenue,' and value in both figure and words at bottom.

"The 2 annas has 'India Postage' at top, value in words at bottom, and figures of value in the margins, both sides of the centre of the stamps.

"The 3 annas has, on the contrary, 'India Postage' at the bottom with figures of value each side above it, and value in words at top.

*Adhesives.*

- 1 anna, carmine; wmk. Star; perf. 14.
  - 2 annas, mauve " "
  - 3 annas, orange " "
- The colours are given as seen by electric light."

**JAPAN** (444 W 638).—The *Japan Weekly Chronicle* (Kobe, 12.10.11) reports a case of some interest to stamp collectors.

A DEAL IN STAMPS.

Curious Story of a Prize of War.

An interesting case is now being heard in the Tokyo Chiho Saibansho. It appears, according to the report of the proceedings appearing in the *Asahi*, that in November, 1908, Mr. Hanabusa Shusaku, of Ginza, 1-chome, Tokyo, the defendant in the present suit, bought from the War Office Russian postage and savings stamps of a face value of 188,372 roubles, which were seized by the Japanese army as a prize of war. He paid about ¥150,000 for the stamps and tried to dispose of them at Harbin, Vladivostock, and Shanghai, but without success. The failure of his scheme placed him in a very awkward position, and in order to extricate himself Mr. Hanabusa consulted Mr. Fukui, a member of the Diet. On the latter's introduction he saw Messrs. Kodama Yuji and Yamamoto Yasuo, both of Tokyo, the plaintiffs in the present suit, and asked them to apply to the War Office and Foreign Office on his behalf for relief, on the

understanding that 10 per cent. of any money so obtained should be paid to them.

Mr. Kodama accordingly brought the matter before the authorities at the War Office, and the stamps were re-purchased by the army authorities for Y90,000. Thereupon Mr. Kodama demanded from defendant the sum of Y4,500, being his share of the promised reward. Defendant, however, refused to comply with the demand.

The case came on for hearing in the Tokyo Chihō Saibansho last week. Mr. Hanabusa, the defendant, denied having made any such agreement with the plaintiff. The Court examined Mr. Fukui, the member of the Diet above mentioned, as a witness, and he admitted that he had been consulted by defendant in regard to the disposal of the stamps. Witness added that about that time the design of the Russian postage-stamps was amended, and, if the stamps in question were sent to Russia to be exchanged for new stamps, it was feared that the stamps might be seized by the Russian authorities. In that case diplomatic complications might be created between Japan and Russia, and witness therefore visited the Foreign Office, and obtained an official expression of opinion on the matter, when he was advised to abandon the scheme. He then visited the War Office and saw General Ishimoto (then Vice-Minister), and explained the circumstances of the case to him.

Council for defendant did not appear, and the further hearing of the case was adjourned until the 12th instant.

**NEWFOUNDLAND** (636 P 638).—Lithographed 6c. Guy.—Mr. A. J. Séfi writes in the *West End Philatelist* (11.11/140).

"THE 6c. LITHOGRAPHED STAMPS OF THE 'GUY' ISSUE OF NEWFOUNDLAND.

"In the September issue I made a somewhat lengthy mention of these stamps and described the points I had noticed, which went to prove the existence of two entirely different stones. I now have pleasure in recording a further discovery which, I think, is of very great interest. My readers will remember that on the first plate, which had the "Z" reversed, there were numerous flaws, to which I drew attention, and that on what I termed the second issue which had the "Z" normal these flaws were non-existent.

"In both cases I used a horizontal pair from the right upper corner of the sheet for comparison. The other day whilst examining a few of these stamps for varieties I was amazed to find a block of four from the upper right corner of the sheet, normal "Z" but shewing all the flaws of the first issue with reversed "Z." This means that there were at least three separate stones, two of which had the "Z" normal, one, the first, having it reversed. The variety just noted is probably the scarcest of the three, as I have only seen one block of four from the position mentioned shewing the flaws."

**NICARAGUA** (635 F 638).—We are informed by Mr. A. C. Roessler that the new issue had got as far as the Customs House, Corinto, in November (1911). In the meantime there are two more provisionals to note, for Bluefields this time.

There always seems to us something pathetic about these Nicaraguan surcharges! Every time we read *Vale* (which means "farewell" besides "is worth"; we have it in the English "valediction") and no sooner has Nicaragua said farewell than out comes another surcharge!

**ORANGE RIVER COLONY** (636 N 638).—We recently referred to the fact that the 4d. "IOSTAGE" error which has just been "discovered" was described a year ago in *E.W.S.N.* Mr. Lewis W. Jenner draws our attention to the fact that he reported this variety to us as long ago as March 1907! We find that on 21.3.07 we

returned his specimen, saying that we did not think the variety was of sufficient importance to chronicle, unless it could be shown that it occurred on every sheet!

Unfortunately, we forgot all about the matter, and though many sheets have been through our hands since, we never looked for the variety. A considerable number of our readers must thus have secured it for 5d. from us! For instance, a Thetford reader writes (3.12.11):—"With reference to your remarks in this week's *E.W.S.N.* regarding the "IOSTAGE" error in the 4d. King's Head Orange River Colony, I thought, after reading the paragraph, I would look to see if by any chance my copy could be the one referred to, and was greatly surprised to find it was! I thought this might be of interest to you, as you supplied me with same on 10.5.1910, at 10% over face!"

The error has apparently occurred once on every sheet of 240 4d. O.R.C. stamps, both those with single watermark and those with multiple watermark.

We append an index to the references to this Colony which have appeared since 1905:—

6d. " " " perf. 12½.  
Issued 16.10.11 or earlier.

**UNITED STATES** (637 D 638).—The new 10c. registration stamp is to hand, the first specimen reaching us from Mr. P. McGraw Mann of the *Philadelphia Stamp News*. It was issued on 1.12.11.

Registration stamp. Same size as current 2c. stamp, inscribed "United States Registry" at top and "10 Cents 10" at foot. Eagle with outspread wings in centre. 10c. light ultramarine.

B.T.K.S. writes in the *Bazaar* (25.11.11):—The "Hudson-Fulton" stamp.—A minor variety has been discovered of the 2 cent United States stamp issued in 1909 to commemorate the Hudson-Fulton Celebration. On the plate numbered "5394" the first, third and fourth stamps on the sheet show the following peculiarities: In the first stamp there is a small circle just over the "9" of "1909"; this circle is very light and not plainly seen without a glass. On the third stamp a similar circle is seen just over the "6" of the "1609"; there is also a very light circular line through the left-hand figure "2." On the fourth stamp the circle over the figure "6" is a little plainer, and the line through the figure "2" is quite plain and distinct. Mr. C. R. Morris, who was the first to notice these abnormal marks, made enquiries in the United States Bureau of Engraving and Printing, and succeeded in interviewing the mechanic who "laid out" this particular plate. It appears that the mechanic, after he had "laid on" the first four stamps, found he had them too low to come out right at the bottom of the plate. He then erased them from the plate, burnished it, and started again a little higher, but in burnishing the plate the lines above described were not wholly taken out.

**VENEZUELA** (599 W 638).—A new issue is illustrated and described by *Le Bulletin Philatélique* (5.12.11/263).

† The first of the "Reform" issues.

Until 1902 Messrs. Senf's catalogue reigned alone in German-speaking countries (half the world philatelically) but in that year their supremacy was challenged by a new comer, the Kohl illustrated stamp catalogue. Curiosity to see the new comer may account for the reduced sales in 1902-3 but although the Kohl catalogue has continued to flourish, the Senf catalogue had fully regained its lost ground by 1905 and the simplification and other reforms introduced in 1908 led to a record sales-figure for 1911.

It will be noted that already in 1896 the decreased interest in stamped stationery had made itself felt, and from that year on, the stationery section has been published separately. The figures only refer to the adhesive stamp section of the catalogue.

It is a still stronger sign of the times that with the 1912 edition, Messrs. Senf have not thought it worth while to issue a section for stamped stationery and the philatelic world is thus for the first time without an up-to-date catalogue of this. On the other hand the 1912 catalogue of adhesive stamps has met with such a large sale that it is already out of print, but Messrs. Senf announce that they are arranging for an unaltered reprint.

The above figures would lead us to suppose that the number of collectors who in any one year purchase a 2/6 or 3/6 illustrated catalogue of the stamps of the world must be somewhere about 60,000. Probably not more than 30,000 of these buy a catalogue regularly every year. And of these 30,000, there are probably not over 4,000 collectors who buy new issues unused with any degree of regularity, and not even a tenth of this number who take unpopular countries.

Messrs. Stanley Gibbons, Ltd., in the introduction to their 1912 catalogue, state that "the speculation in modern issues is enormous." This statement is absolutely fictitious. Everywhere we see unchecked speculation in old issues; the older the stamp the more specimens of it the collector wants, until we find a collector of 1d. black English boasting that he has 50,000 specimens and a collector of Sicily something like 1000 50 granas! Go to any exhibition and with the possible exception of one or two public favourites such as Papua and Cayman Islands, it will be found that the wholesale lots are almost invariably old issues. New issues are nearly all imported in very small quantities, because where in Moens' day everybody collected everything and an unused Nicaragua was a pearl, now-a-days few collectors can afford to take all new issues.

Just after writing the above comment on Stanley Gibbons' remarks, we happened to turn up the report of the last meeting of the Royal Philatelic Society, which makes reference to the display of Swedish stamps then made by Baron Leijonhufvud. In the course of the report we read:—

"Being so complete, it is not necessary to describe the collection in detail, but it is extremely strong in the rarities in unused condition, and noticeably so in the first (skilling-banco) issue, amongst which may be mentioned, in addition to large numbers of the 3, 6, 8 and 24 sk. stamps, a block of the 4 sk. in the rare pale grey shade; two out of the three known copies of the 12 öre of 1858 printed on both sides, and similar varieties in other issues; half a page of the 17 öre of the 1866 issue in grey; no less than nine copies of the rare 'TRETIO' error, of which four are unused; the only known copy, unused, of the 1874 Official provisional blue stamp, etc., etc."

This is an excellent method of collecting both for collector and dealer. It is a *sine qua non* for fruitful philatelic study that the student must have plenty of "raw material" to work upon, but why it should be lauded in the case of old issues and decried as speculation in the case of new, passes understanding.

Another aspect of this matter is disclosed by the following table of new issues (excluding varieties) issued in each decade since 1840:—

1840-49	66
1850-59	738
1860-69	1,729
1870-79	2,206
1880-89	2,798
1890-99	5,770
1900-09	8,024
Total	21,331

These figures we reproduce from *La Circulaire Philatélique* (12.11/235). Collectors of 1870 had few old issues to think about, and there were also so few new issues, that each new issue was probably imported in thousands more than at the present day. To-day, new issues are so many that speculation is impossible, and a really systematic collection can hardly fail to prove a magnificent investment, if we may assume—and we think it is safe to do so—that stamp collecting will continue to gain in popularity.

**Lord Rosebery on Stamp Collecting.**

THE EARL OF ROSEBERY, in his presidential capacity, occupied the chair at the annual meeting of the Scottish History Society held on Saturday, 2.12.11, in Dowell's Rooms, Edinburgh. In moving the adoption of the report he is stated to have made the following references in his speech to Scottish History and Stamp Collecting; unfortunately they are no happier than his references to public libraries.

"Scottish history, strictly speaking, ends in the year 1707—the history of Scotland as a separate country with Parliament and institutions of its own. Then there comes another century of social history, which I think is not inferior to any of the preceding centuries in that particular characteristic. I think you may say there is a separate social history of Scotland quite distinct for fully another century after the Union. If I was to take an arbitrary date it was down to the Reform Bill of 1832. After that we seem to have got more mingled with the Southern nation, less distinct, less individual, and therefore much less interesting, but if I am right in saying, as I undoubtedly am, that our separate political history ends with the Union, and as I think I may say our separate social history as an interesting and original factor comes pretty nearly to an end with the Reform Bill of 1832, we arrive at the conclusion that Scottish history for the purpose of this society is, so to speak, a limited area, or, if I may express myself differently, a sealed book—that is to say something to which there are certain limitations and boundaries, and inside which they should endeavour to explore as assiduously and carefully as possible. Of course it is perfectly true that the Scottish nation is by no means at the end of its tether—(applause)—it may probably be at the beginning of it—(applause)—but, speaking technically and historically, the area of our society closes perhaps with the eighteenth century, and I think, cannot go beyond the first Reform Bill.

"Well, I think that is an advantage to any society. It is a dreadful thing to have a society which is like a collection of postage stamps which can never possibly come to an end. (Laughter.) A collection of postage stamps has always seemed to me to be, with all respect to collectors, one of the most hopeless enterprises on which any mortal could embark. (Laughter.) Therefore I rejoice in thinking that our field, though vast, is limited. In that respect it resembles the great book of history, which will last as long as the English language lasts—a definition which perhaps could be applied to no other historical book in the language—I mean Gibbon's 'Decline and Fall of the Roman Empire.' There the area is vast, but the area also is limited, and I think we may plume ourselves and compare ourselves with some little satisfaction with the position of Gibbon in having an area which is limited, but inside which we ought to expand and to dig and to collect as widely as we can. (Applause.) Now, ladies and gentlemen, I am quite convinced that if that is our idea, and if we don't agree to throw ourselves back too much into the domain of extreme archæology and of charters—which I think I have said before on other occasions, no man or woman ever reads—but if we confine ourselves to developing and exploring the social history of our country, we have got one of the most delightful fields for work which any Scottish society could occupy, and so long as we find at present, so long as we can continue to find able coadjutors and labourers with us in that field, I am quite sure it will be as unnecessary to use any eloquence at succeeding anniversaries of this society in moving a resolution implying an unlimited confidence in its success and in its future. (Loud applause.)"

Lord Rosebery would appear to think Scottish history an interesting subject for research, because Scotland is dead and done with, both legally and socially, and that stamp-collecting is "one of the most hopeless enterprises" because the issue of stamps "can never possibly come to an end." The same might be said of any scientific study. Who has yet said the last word on astronomy, chemistry, etc.? Who ever will? We might answer Lord Rosebery in his own language by asking the question:—"Who wants to explore the past when the future holds so much in store?"

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—Current Issue (638 O 639).—We have received the following communication:—

"Inland Revenue,  
Somerset House, London, W.C.  
11th, December, 1911.

"Sir,—In reply to your letter of the 9th ultimo, I am directed by the Board of Inland Revenue to acquaint you that the printings (other than those by Messrs. De La Rue & Co., Ltd.) of stamps of the Edwardian series issued to the present date are as follows:—

"Messrs. Harrison.  
½d., 1d., 2½d., 3d., 4d.

"Somerset House.  
1½d., 2d., 5d., 6d., 9d., 10d., 1/-, 2/6, £1.  
"I am, etc.,

"[Signed] F. ATTERBURY,  
Secretary.

"H. L. Ewen, Esq."

This letter is interesting although it discloses no unknown value in a provisional printing. We need not look yet awhile for the 7d., 5/- and 10/- in new printings, although we shall not be surprised if at least the two latter appear later on.

**A 1d. Georgian variety.**—A Sheffield reader (11.12.11) has three sheets of the 1d. with control A 11 (wide) showing the following variety on stamp No. 240. The outline is broken at the top right-hand corner. Varieties of this sort are useful in identifying plates and specially interesting when they occur in the control letter corner of the sheet.

On looking at our own 1d. Georgian with the same control, we find 17 corner blocks showing the same variety, and all have a faint coloured dot under the left foot of the control A (which is almost a skeleton or double-lined letter, it has so many white patches). The line to right of the 240th stamp has a circular white cut in it.

**Another 1d. Georgian Variety.**—A Norwich reader writes (11.12.11):—"On the 1d. Georgian stamps I bought on Coronation day, the shading on the lion seems to be different to those in use now. Those I purchased recently have an extra short line of shading on the body (towards the left side)." The line of shading referred to is clearer on some sheets than others, but also often fails to print altogether. It seems to be only a question of inking the plate.

**The mysterious black dot** (9.12.11 C 23.12.11).—We have now purchased at the local Post Office sheets of ½d. Edwardian stamps with the mysterious black dot between the 57th and 58th stamps of the sheet, and find the plate to be the same as that on sheets printed from which we found the black dot originally between the 55th and 56th stamps. The 214th stamp as usual has each side outline broken, and just inside the right outline is a single black dot in place of the usual constellation of black dots (arranged 2, 1, 3, 1), and a new black dot has sprung into being at the top righthand corner of the stamp. The sheet under review is the very pale green, perf. 15×14, with white dot on first "1" of "A11."

**The shilling variety.**—A Skipton-in-Craven reader draws our attention to the fact that the small corner circles of the 1/- stamp are often imperfect in the provisional printings.

**A test for the 4d. Harrison.**—A reader tells us that the back of the neck and head is not clearly outlined in the Harrison print whereas in the De La Rue print it is sharply defined.

**The sevenpenny** (635 L 639).—The Postmaster-General should repeat his notice to counter clerks respecting the use of 7d. stamps; it is wanted. We saw a parcel handed in the other day; the postage was 1s. 2d. The clerk looked for a 1/- stamp and found she had run out,

so attached two sixpennies and a twopenny! Afterwards we drew her attention to the notice respecting the use of the 7d. stamps but there seems to be a disposition to regard it as a nuisance and it will no doubt remain such until the 8d. stamp appears. Clerks will then perhaps remember that they have a stamp for every penny rate up to 10d. and for every twopenny rate (by doubling) up to 1/8, for it is easier, when one gets accustomed to it, to use two 7d. rather than 1/- and 2d. Combinations such as 5d.+6d., 6d.+7d., 7d.+8d., 8d.+9d., etc., should be more easily found than 10d.+1d., 1/-+1d., 1/-+3d., 1/-+5d., because they are on adjacent pages of the counter stock-book. But at present the 8d. gap in the set puts a premium on the 6d. and 1/- stamps. The chief disadvantage of the additional duties is that small post-offices already find a difficulty in stocking all denominations, as their stock on hand is not allowed to exceed a certain figure which is already cut fine enough to render any accidental excess in one value inconvenient. It is a very common thing (except at Christmas time) to find at sub-offices that one or more values are out of stock.

**The halfpenny Edwardian variety** (637 C 639).—This variety still continues to provide material for remark. Mr. Lance E. Hall writes (9.12.11):—"I send a block of the ½d. Edwardian perf. 15×14 consisting of the three bottom rows of a sheet. You will see that the control is the variety with the dot on the first '1' and that there is a cut on the jubilee line to the right of the 240th stamp. The 214th stamp however does not show the full breaks at the right and left but shows evidence of repair. The flaw down the left side still remains (although the frame line has been thickened) but the cut has been repaired. At the right a very slight break occurs but the right frame line seems to have been thickened. This seems to support Mr. Melville's theory as to repair at the mint, especially as there is a cut which I think is new on the line below the 7th stamp."

We quote from the *Daily Mail* (16.12.11).

## BUDGET NOT A MONEY BILL.

### CABINET SURPRISED BY THE SPEAKER'S RULING.

The Speaker refused to endorse the Finance Bill—which embodies the Budget of this year, a re-enactment of the Budget of 1909—as a "Money Bill." Thus the Lords were at liberty yesterday to reject it if they had so desired.

This ruling of the Speaker was a surprise to the Government. The Parliament Act was passed to prevent the Lords from touching a Finance Bill; but to prevent "tacking," the Speaker has to certify that the Bill is purely a Money Bill.

In this case a Government amendment at a late hour transferred the control of revenue stamps to the Postmaster-General, thus changing the law of the land—or "tacking" legislation on to the Budget. For that reason the Speaker could not rule that the Bill was purely a Money Bill.

It follows that Mr. Lloyd George's Budget of 1909, the rejection of which by the House of Lords led to the passage of the Parliament Act, would not itself have come within the category of Bills which the Lords are unable to delay. In effect the ruling is that finance and the machinery of collecting should be dealt with in separate measures.

We read in the *Nottingham Evening Post* (1.12.11):—

"It will cause no surprise that the Postmaster-General has prohibited the use for any purpose of colourable imitations of postage stamps upon letters and postcards. The practice began many years since, and the wonder is that it has not been stopped long ago. The intention is not to defraud but to advertise some hobby and, begun in imitation of the Pharisees' phylacteries, it has spread in more secular directions. People may still play with little printed squares of gummed paper when and how they please so long as they keep them away from the position where they are liable to be mistaken for postage stamps. It shows a reprehensible lack of consideration for sorting clerks to introduce them there, as they serve no really useful purpose. Their disappearance will be unwept, unless it be by a few cranks and faddists."

We have been expecting this for some time to come and when the Crystal Palace stamps came

out we made enquiry and received the following reply:—

"General Post Office, London,

"16 June, 1911.

"Sir,—With reference to your letter of the 18th May (E54604) I am directed by the Postmaster-General to state that labels like those which you enclosed may, when completely adherent, appear on the back of postcards intended for transmission in this country or to places abroad. They may not, however, be affixed to the front of the cards, because in that position they would be likely to prove embarrassing for postal purposes.

"I am, etc.,

[Signed for the Secretary].

"H. L. Ewen, Esq."

At that time, of course, there was no prohibition with regard to letters but some regulation was bound to be made. Lots of people like to stick these labels close up to the postage stamps so that the postmark must fall on them as well as on the letter and in some countries this weakness is pandered to, the clerks being permitted to postmark all charity labels on the front of an envelope. The new regulation is a common-sense one. If the Postmaster-General has powers of this description why does he not make it compulsory to attach the postage stamps on the address side of the letter? Some people like to use the stamp as a seal but in that case they could put the address as well on the back of the envelope. The one regulation seems as much needed as the other. On the Continent it has become very common to put the address of a letter on one side and the stamps on the other, which must give a lot of extra work to the postal staffs. If the stamps are partly on one side and partly on the other matters are even worse.

If the Postmaster General prohibits the affixing of colourable imitations of postage stamps alongside the postage stamps themselves what will we do in the case of coloured stamps like the railway letter stamps? They are almost invariably put on the letter alongside the postage stamps, and three times out of four, postmarked, in the case of such letters forwarded by train for delivery by post. Of course the design of the railway letter stamp having been supplied to the Railway Companies by the Postmaster General in 1890, and as the Companies in conveying letters are deemed to be acting as agents of the Postmaster General, these stamps will no doubt still be privileged to adorn the front of letters, and in this event the additional official recognition of them may increase the interest taken in them and undoubtedly their due.

**Control Letters.**—Two mistakes of our printers recently escaped the notice of our proof-reader. The "A.11" was referred to as issued 21.11.11 and 2.11.11 in E.W.S.N. No. 637. These dates should have been 21.11.11 and 2.12.11 respectively.

Mr. L. C. C. Nicholson writes:—"I notice that besides the distance of the dot from the "A" of the Somerset House "A.11" control, (1½mm. in one case and 2mm. in the other), there is a most noticeable difference in the height of the "A" itself. In the 1½mm. variety the "A" is shorter than the 11 and has a very flat top; whilst in the 2mm. variety, the "A" is level with the 11 and has a pointed top, rounded off. This enables one to spot the varieties immediately without hunting for a mm. measure."

**ARGENTINE REPUBLIC** (638 R 639).—The new 5c. and 12c. stamps are in the design representing a labourer gazing at the sun (inspired by La Semeuse of France). As anticipated 110 million 5c. and 10 million 12c. were printed and the *Deutsche Briefmarken Zeitung* (12.12.11/207) states that the American Bank Note Co. was paid \$60,000 paper for them (about £5,400). The remaining values of the set are to be manufactured by the Casa de Moneda and are not expected to be so well printed.

New design (19×25½mm). Labourer. Wmk. Sun. perf. 12.  
5c. vermilion.  
12c. cobalt.

Issued 10.11.11 or earlier.

**DOMINICA (638 Z 639).**—In a record of the various printings in the current type which has come into our possession and which purports to be complete down to November, 1911, no mention is made of a printing of the 5/- stamps later than 1908, so that we are inclined to doubt whether the chronicle of a 5/- stamp in new colours, which we made last week on the authority of a continental contemporary, can be correct. It has of course been known for a long time that the next printings of the 2/-, 2/6, and 5/- would be in new colours, but so far as we are aware it has not yet been ordered from the printers.

References to the current issue of Dominica in our columns may be indexed as follows:—

- J 448. Colonial Office Journal states ½d., 1d., 2½d. to be unicoloured. Official contradiction that 1/- stamp has been printed with multiple wmk., but supply stated to be on order from England. The stock of 2/- and 2/6 Crown CC stated to be exhausted.
- K 449. The 1/- multiple wmk. is shown us, thus refuting the official contradiction. Earliest postmark, 25.7.07. Issue of 1/- (second print?), 2/-, 2/6, 5/- multiple watermark, chalky paper, May 1908.
- L 460. Unicoloured ½d., 1d., 2½d. sent to Colony.
- L 461. [Error for M 461]. Issue of ½d. multiple wmk., ordinary paper, about 7.08.

- O 511. 'Specimen' 2d., 3d., 6d. new colours reported, June 1909.
- P 519. Issue of 6d. new colour, 22.6.09.
- Q 546. Issue of 2d. and 6d. new colours (the 6d. repeated by oversight).
- R 457. The 2d. and 3d. new colours now reported as issued 11.09 or earlier.
- S 568. New colour 1/- sent to Colony.
- T 576. Issue of 1/- black on green, 30.8.10 or earlier.
- U 638. New colour 5/- reported.
- Z 639. Doubt about new 5/-; index; statistics.

We have been favoured with a complete statistical list of the various printings received in the colony down to November, 1911, and specialists will no doubt be interested in seeing whether they can distinguish between the several editions of the same stamp. The official record gives no description, but this we have endeavoured to supply and we believe with success.

PRINTINGS OF CURRENT ISSUE.

Wmk. Crown CC sideways, ordinary paper (except 5/- which has wmk. upright).

½d.	(1st)	9.03	24,000
	(2nd)	1.04	30,000
	(3rd)	6.04	30,000
1d.	(1st)	9.03	179,700
	(2nd)	6.04	60,480

6d.	(1st)	9.03	6,120
	(2nd)	6.04	6,000
1/-	(1st)	9.03	6,300
	(2nd)	..	6,360
2/6	(1st)	..	6,300
	(2nd)	..	2,520

The rarity of this set is the 5/- which has been advanced to 20/- by Gibbons 1912 and to 25 francs by Yvert 1912. The 2½d. value is now quoted six or seven times face value and none stand at less than 100% premium.

Wmk. Crown CC sideways, chalky paper.

½d.	(4th)	7.05	14,640
1d.	(3rd)	..	54,180
2d.	(3rd)	..	4,680
2½d.	(2nd)	..	7,200
3d.	(3rd)	..	7,080
1/-	(2nd)	..	1,920

These were issued during 1906 and superseded in 1907 after being in use about a year. Modern catalogues lose a great deal of their interest by not cataloguing this issue separately. True the Kohl handbook does, but the prices are obviously only guess-work and in our opinion valueless. The 1/- chalky should be quite a rare stamp, on the above figures.

Wmk. Multiple Crown CA., old colours.

	(2nd)	..	4,200
2/6	(2nd)	..	4,000
	(2nd)	..	4,140

It has long been known that the 6d. of this set was rare and the figures confirm this. A complete distribution of it was made by Ewen's New Issue Service on 26.3.08 at the usual New Issue rate of 7d. and it is now catalogued by Gibbons at 1/6 (!), Yvert of France, 16/- unused or used; Senf of Germany, 15/- unused and 17/6 used. It is only a year since the 1/- became obsolete, but time may also prove it rare.

If specialists ever succeed in distinguishing the printings, some of the above will prove hard to find, notably the second printing of the 2½d. blue. But as will be noticed from our summary of references which have been made in *E.W.S.N.* to the stamps of Dominica, we have never yet been called upon to record any really distinct shade.

The stamps impressed on the stationery are of the same design as the adhesives and should certainly be included in any specialist collection of this issue. So far as the stamp market to-day is concerned, all the stationery is of "extreme rarity," though of little value, being still current.

**INDIA (638 W 639).**—We have received a copy of the 1 anna stamp, with portrait of the King, from Mr. W. T. Wilson, who states that it was issued on 1.12.11 at the Delhi Durbar.

On the other hand, we are officially informed by the Presidency Postmaster, Calcutta (under date of Calcutta, 30.11.11), that "new stamps of the denominations one-anna, two-annas, and three-annas will be issued on the occasion of the Coronation Durbar between the dates of the 30th December, 1911, and 10th January, 1912, and the sale of such stamps will be stopped after the departure of their Imperial Majesties from Calcutta."

Georgian Issue. Wmk. Star, perf. 14. 1 anna, carmine.

Issued at Delhi only, 1.12.11. The design resembles the 1½ anna Victorian issue in regard to the position of the inscriptions, which, however, read "India Postage and Revenue" and "One 1 anna." In each lower spandrel is an armorial device representing two elephants' heads resting on four feet. The design is a good one, but the mass of detail and white shading destroys the colour effect when compressed into the small space of a postage stamp. No surface-printed stamp ever looks really well unless it contains broad patches of solid colour.

**LEEWARD ISLANDS (628 P 639).**—*New shades.*—Our latest importation of the ½d. and 1d. stamps is in slightly different shades. The ½d. is a lighter brown and still from plate 1 but the 1d. are a brighter rose and from plate 2 instead of plate 1. These were purchased at Antigua, 17.10.11. Plates 1 and 2 are used promiscuously; plate 1 is "120 set" and plate 2 "240 set"; otherwise they do not differ. In both cases the stamps are issued in sheets of 120.

**LIECHTENSTEIN (632, 635 D 639).**—In addition to the three adhesive stamps it is stated in *L'Echo de la Timbrologie* (15.12.11/771) that the principality will issue a special 5 heller postcard.

**NEWFOUNDLAND (638 Q 639).**—A new 1c. postcard is shown us by Mr. A. C. Roessler.

Postcard. 1c. green, portrait of King George, ¾ face to right, with curious mark on left side of face which can hardly be intended for the tip of the ear.

Issued 29.11.11 or earlier.

**PAPUA (636 P 639).**—We have received the following variety.

Unicoloured Issue. 6d. brown, wmk. not inverted (as it usually is); this is our issue 27.

Issued 1.10.11 or earlier. The unicoloured stamps are now known in the following varieties:

Wmk. Adelaide Crown A, perf. 12½. (27) A to right of Crown, ½d., 1d., 2d., 6d. (28) A to left of Crown, ½d., 1d., 2d., 2½d., 6d.

Issue 27 is decidedly scarce.

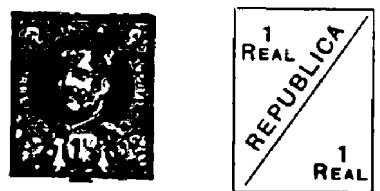

The 2/6 "Stamp Duty" has already been seen postmarked, but it is believed the specimens have not been through the post.

**PHILIPPINE ISLANDS (637 D 639).**—The new colour 16c. and 26c. stamps are still printed on the old paper, watermarked sideways in double-lined capitals (which do not correspond in position to the stamps) "P.I.P.S." (Philippine Islands Postage Stamps). The "P.I.P.S." is repeated continuously and each row is "moved on one" so that the same reading is obtained horizontally and vertically.

**PORTUGAL (633 I 639).**—*Madeira.*—The 50 reis Vasco da Gama of Madeira has now been overprinted Republica for use in Portugal, states *L'Echo de la Timbrologie* (15.12.11/771). The 75 reis was similarly issued a short while ago.

**PORTUGUESE AZORES (638 P 639).**—We understand that the 2½ reis of the republican Vasco da Gama issue is not, strictly speaking, a postage stamp. Although available for postage, it is only being issued to purchasers of the complete set, one copy at 2½ reis being given for each 1000 reis stamp purchased. One can hardly condemn this proceeding, as it at least prevents the stamp being bought up, as in the case of our own ½d. and 1d. Gilbert & Ellice Is. It is fairer that purchasers of sets should secure specimens, but why was the stamp ever made?

**PORTUGUESE INDIA (638 X 639).**—Under date of 2.12.11 a Bombay correspondent sends us a new printing of the 1 real on 2 reis provisional.

2reis, yellow and black, overprinted "Republica" diagonally in red and perforated vertically (instead of diagonally) down the centre. As this perforation cuts through the old value, the bars which obliterated it in the first printing are removed.

Printed as usual in sheets of 28, 7 rows of 4. The margins are removed from the top and right side to facilitate overprinting.

Variety, large A in "REAL" occurs on following stamps:—

- No. 5 Right half.
- No. 6 Left half.
- No. 18 .. ..

Variety, large L in "REAL." No. 1. Left half.

We do not find the large E which occurred in the earlier printing. The overprinting was done at Goa at the Imprensa Nacional.

**DOMINICA (638 Z 639).**—In a record of the various printings in the current type which has come into our possession and which purports to be complete down to November, 1911, no mention is made of a printing of the 5/- stamps later than 1908, so that we are inclined to doubt whether the chronicle of a 5/- stamp in new colours, which we made last week on the authority of a continental contemporary, can be correct. It has of course been known for a long time that the next printings of the 2/-, 2/6, and 5/- would be in new colours, but so far as we are aware it has not yet been ordered from the printers.

References to the current issue of Dominica in our columns may be indexed as follows:—

- I 434. Despatch to Colony of 6d. multiple wmk.
- J 448. Colonial Office Journal states ½d., 1d., 2½d. to be unicoloured. Official contradiction that 1/- stamp has been printed with multiple wmk., but supply stated to be on order from England. The stock of 2/- and 2.6 Crown CC stated to be exhausted.
- K 449. The 1/- multiple wmk. is shown us, thus refuting the official contradiction. Earliest postmark, 25.7.07. Issue of 1/- (second print?), 2/-, 2/6, 5/- multiple watermark, chalky paper, May 1908.
- L 460. Unicoloured ½d., 1d., 2½d. sent to Colony.
- L 461. [Error for M 461]. Issue of ½d. multiple wmk., ordinary paper, about 7.08.
- M 470. Unicoloured 1d., 2½d. issued 2.9.08 or earlier.
- N 499. New colour scheme adopted.
- O 511. 'Specimen' 2d., 3d., 6d. new colours re-reported, June 1909.
- P 519. Issue of 6d. new colour, 22.6.09.
- Q 546. Issue of 2d. and 6d. new colours (the 6d. repeated by oversight).
- R 457. The 2d. and 3d. new colours now reported as issued 11.09 or earlier.
- S 568. New colour 1/- sent to Colony.
- T 576. Issue of 1/- black on green, 30.8.10 or earlier.
- U 638. New colour 5/- reported.
- Z 639. Doubt about new 5/-; index; statistics.

We have been favoured with a complete statistical list of the various printings received in the colony down to November, 1911, and specialists will no doubt be interested in seeing whether they can distinguish between the several editions of the same stamp. The official record gives no description, but this we have endeavoured to supply and we believe with success.

**PRINTINGS OF CURRENT ISSUE.**

Wmk. Crown CC sideways, ordinary paper (except 5/- which has wmk. upright).

½d.	(1st)	9.03	24,000

	(1st)	..	6,300
2/6	(1st)	..	2,520
	(1st)	..	..

The rarity of this set is the 5/- which has been advanced to 20/- by Gibbons 1912 and to 25 francs by Yvert 1912. The 2½d. value is now quoted six or seven times face value and none stand at less than 100% premium.

**Wmk. Crown CC sideways, chalky paper.**

3d.	(3rd)	..	7,080
1/-	(2nd)	..	1,920

These were issued during 1906 and superseded in 1907 after being in use about a year. Modern catalogues lose a great deal of their interest by not cataloguing this issue separately. True the Kohl handbook does, but the prices are obviously only guess-work and in our opinion valueless. The 1/- chalky should be quite a rare stamp, on the above figures.

**Wmk. Multiple Crown CA., old colours.**

2/6	(2nd)	..	4,000
	(2nd)	..	4,140

It has long been known that the 6d. of this set was rare and the figures confirm this. A complete distribution of it was made by Ewen's New Issue Service on 26.3.08 at the usual New Issue rate of 7d. and it is now catalogued by Gibbons at 1/6 (!), Yvert of France, 16/- unused or used; Senf of Germany, 15/- unused and 17/6 used. It is only a year since the 1/- became obsolete, but time may also prove it rare.

If specialists ever succeed in distinguishing the printings, some of the above will prove hard to find, notably the second printing of the 2½d. blue. But as will be noticed from our summary of references which have been made in *E.W.S.N.* to the stamps of Dominica, we have never yet been called upon to record any really distinct shade.

The stamps impressed on the stationery are of the same design as the adhesives and should certainly be included in any specialist collection of this issue. So far as the stamp market to-day is concerned, all the stationery is of "extreme rarity," though of little value, being still current.

**INDIA (638 W 639).**—We have received a copy of the 1 anna stamp, with portrait of the King, from Mr. W. T. Wilson, who states that it was issued on 1.12.11 at the Delhi Durbar.

On the other hand, we are officially informed by the Presidency Postmaster, Calcutta (under date of Calcutta, 30.11.11), that "new stamps of the denominations one-anna, two-annas, and three-annas will be issued on the occasion of the Coronation Durbar between the dates of the 30th December, 1911, and 10th January, 1912, and the sale of such stamps will be stopped after the departure of their Imperial Majesties from Calcutta."

**Georgian Issue. Wmk. Star, perf. 14.**

1 anna, carmine.

Issued at Delhi only, 1.12.11. The design resembles the 1½ anna Victorian issue in regard to the position of the inscriptions, which, however, read "India Postage and Revenue" and "One 1 anna." In each lower spandrel is an armorial device representing two elephants' heads resting on four feet. The design is a good one, but the mass of detail and white shading destroys the colour effect when compressed into the small space of a postage stamp. No surface-printed stamp ever looks really well unless it contains broad patches of solid colour.

**LEEWARD ISLANDS (628 P 639).**—*New shades.*—Our latest importation of the ½d. and 1d. stamps is in slightly different shades. The ½d. is a lighter brown and still from plate 1 but the 1d. are a brighter rose and from plate 2 instead of plate 1. These were purchased at Antigua, 17.10.11. Plates 1 and 2 are used promiscuously; plate 1 is "120 set" and plate 2 "240 set"; otherwise they do not differ. In both cases the stamps are issued in sheets of 120.

**LIECHTENSTEIN (632, 635 D 639).**—In addition to the three adhesive stamps it is stated in *L'Echo de la Timbrologie* (15.12.11/771) that the principality will issue a special 5 heller postcard.

**NEWFOUNDLAND (638 Q 639).**—A new 1c. postcard is shown us by Mr. A. C. Roessler.

**Postcard.**

1c. green, portrait of King George, ¾ face to right, with curious mark on left side of face which can hardly be intended for the tip of the ear.

Issued 29.11.11 or earlier.

**PAPUA (636 P 639).**—We have received the following variety.

**Unicoloured Issue.**

6d. brown, wmk. not inverted (as it usually is); this is our issue 27.

Issued 1.10.11 or earlier. The unicoloured stamps are now known in the following varieties:

**Wmk. Adelaide Crown A, perf. 12½.**

(27) A to right of Crown, ½d., 1d., 2d., 6d.

(28) A to left of Crown, ½d., 1d., 2d., 2½d., 6d.

Issue 27 is decidedly scarce.

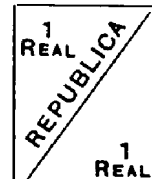

The 2/6 "Stamp Duty" has already been seen postmarked, but it is believed the specimens have not been through the post.

**PHILIPPINE ISLANDS (637 D 639).**—The new colour 16c. and 26c. stamps are still printed on the old paper, watermarked sideways in double-lined capitals (which do not correspond in position to the stamps) "P.I.P.S." (Philippine Islands Postage Stamps). The "P.I.P.S." is repeated continuously and each row is "moved on one" so that the same reading is obtained horizontally and vertically.

**PORTUGAL (633 I 639).**—*Madeira.*—The 50 reis Vasco da Gama of Madeira has now been overprinted Republica for use in Portugal, states *L'Echo de la Timbrologie* (15.12.11/771). The 75 reis was similarly issued a short while ago.

**PORTUGUESE AZORES (638 P 639).**—We understand that the 2½ reis of the republican Vasco da Gama issue is not, strictly speaking, a postage stamp. Although available for postage, it is only being issued to purchasers of the complete set, one copy at 2½ reis being given for each 1000 reis stamp purchased. One can hardly condemn this proceeding, as it at least prevents the stamp being bought up, as in the case of our own ½d. and 1d. Gilbert & Ellice Is. It is fairer that purchasers of sets should secure specimens, but why was the stamp ever made?

**PORTUGUESE INDIA (638 X 639).**—Under date of 2.12.11 a Bombay correspondent sends us a new printing of the 1 real on 2 reis provisional.

2reis, yellow and black, overprinted "Republica" diagonally in red and perforated vertically (instead of diagonally) down the centre. As this perforation cuts through the old value, the bars which obliterated it in the first printing are removed.

Printed as usual in sheets of 28, 7 rows of 4. The margins are removed from the top and right side to facilitate overprinting.

Variety, large A in "REAL" occurs on following stamps:—

- No. 5 Right half.
- No. 6 Left half.
- No. 18 " " "

Variety, large L in "REAL."

- No. 1. Left half.

We do not find the large E which occurred in the earlier printing. The overprinting was done at Goa at the Imprensa Nacional.

## The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

**GREAT BRITAIN.**—The 1d. black 1840 (601 X 640).—Our friend of the 73,000 1d. blacks writes us as under, but we cannot personally answer his queries. Can any reader assist?

"Of course when I write to you I want something, and this time it is regarding the retouching of Plate 1 of the penny blacks.

"I think I have found out what was meant by the criticism of the Post Office Department regarding the poor appearance of the stamps, and the reply that nothing better could be secured from worn plates.

"This was taken to imply that the thin and yellowish early impression were the worn plates referred to, when they were merely the quality of the ink.

"My query to-day is whether among your correspondents and subscribers there are any who have blocks of Plate 1 containing the two sorts of the JC.

"The impressions of Plate 1 before July 1 do not show the guide lines across the stamp on the J and K strips. The marginal lines at the corners are full and the place where they meet solid. After that date, the marginal lines as they approach the corners become thinner, and generally leave a faint or open corner. The photo of the half-plate you sent me is in the latter state, and the guide lines can be seen.

"The early impressions of the JC show both letters as of the same size as in the rest of the upper half of the plate: the later ones show the J with a longer curve, and the C, instead of being of the average size and broad-faced, is one-fourth taller and also broad-faced.

"My several hundreds of covers posted between May 6 and July 1 show the plate changing from its first to its worn state; but I have no blocks which cover the JC and adjacent stamps in the last state, although I have a number of off-centred stamps which carry portions of both forms of the JC.

"If you can not answer my queries from your letter-files, will you kindly put it in the hands of some of your specialists in blacks.

"With the exception of Plate 11 I have now stamps to complete all the other plates, and to furnish sets of Plate 1 on the original covers, with all variations in states of the plate."

**AUSTRALIA** (638 E 640).—We quote from the *Bazaar* (2.12.11):—

Of the many designs submitted for the Commonwealth postage stamp, it is understood that ten are still under consideration, after three months of weeding out. It seems that the Postmaster General finds it difficult to make a final choice as between these. All are said to be original and pleasing, and each has its own special attractions. So to assist him in the process of making up his mind, the embarrassed Minister is inviting expressions of opinion from members of Parliament, and has had the designs prominently placed on the walls of the Government and Opposition rooms at Parliament House. In the multiplicity of counsellors there may be safety. At the worst, if a mistake be made in the final choice, the Minister may, as the *Postage Stamp* suggests, lighten his responsibility by sharing it with others, and may perhaps silence some of those who would be his severest critics.

**BARBADOS** (634 R 640).—A correspondent writes, under date of 27.11.11:—"I understand the new Barbados stamps (Arms and King's head combined) will be out next April or sooner. The values are ½d., ¼d., 1d., 2d., 2½d., 3d., 4d., 6d. small design; 1/-, 2/-, 3/- large design."

**BRITISH GUIANA** (628 K 640).—From the Annual Report of the Postmaster-General,

we learn that the number of stamps issued during the financial year 1910-11 was as follows:

Adhesive Stamps.	
1c.	934,045
2c.	1,982,464
4c.	29,312
5c.	65,731
6c.	39,776
12c.	69,822
24c.	28,954
48c.	17,028
60c.	6,799
72c.	13,496
96c.	5,454
\$2.40	1,067
\$3	1,053
\$4.80	332
\$5	291
\$12	320
Books at 49c.	1,377
Stationery.	
Registered Envelopes	6,403
Wrappers, 1c.	83,968
" 2c.	10,561
Postcards, 1c.	81,143
" 2c.	2,064
" 2c.+2c.	9
Envelopes, 1c.	4,100
" 2c.	40,495

During 1899-10 only 8 reply postcards were issued and the number seems always to have been on a very diminutive scale.

**CAYMAN ISLANDS** (635 P 640).—Mr. H. E. Huber writes (29.11.11):—"Latest news from the Cayman Islands is to the effect that owing to delay in London in preparing the new key-plate for King George stamps, the island authorities requisitioned for and have now received a small printing of the 1d. and 2½d. stamps in the Edwardian type (presumably as before). The only value now out of issue is the ½d. but this rate is easily made up by ¼d. stamps."

**CEYLON** (628 W 640).—A correspondent writes from Colombo (23.11.11):—"On Saturday, the 18th instant, I purchased the last ten 25 cents yellow stamps at the G.P.O. here. I made enquiry for more but was told to apply to the Treasury as they had none left. On Monday (i.e. the 20th idem) I discovered at the Treasury that all the yellow stamps were finished, so was lucky to get what I did. Of the five values which are being done away with (the 4c., 12c., 75c., R 1.50, R 2.25), the numbers now on hand are:

4c.	5,241	R 1½	1,012
12c.	1,670	R 2½	822
75c.	3,915		

These values are not in demand by the postal authorities, so they should take some time to be absorbed.

"I hear that the Georgian issue will not be on sale before July, 1912. I have seen a proof of His Majesty's head and the likeness is very good and will make a finer stamp than your halfpenny or penny one. The head looks to the left. All the values will be for postage and revenue purposes and will range from two cents to five hundred rupees.

"I wish to mention that I have found an unused copy of the 5 cents on 64 cts. (S.G. 115) with double surcharge, which I believe is unchronicled, and I also possess a copy of the 15c. blue with the '15c.' in deep blue whilst the rest of the stamp is in pale blue."

**CHILE** (634 V 640).—The *Madrid Filatélico* states that the plates of the 5c. and 10c. of 1853 have turned up (the plate of the 20c. was found a few years ago) but are too rusty to be printed from.

The *Berliner Briefmarken-Zeitung* (25.11.11/498 and 9.12.11/528) reports the following:—

*Envelope.* Portrait of Montt.  
2c. grey-green, 150 x 120mm.

*Wrapper.*  
15c. grey-brown, 150 x 22mm.

**COCHIN** (629 N 640).—*Stanley Gibbons' Monthly Journal* (30.11.11/420) states that a sheet of 2 on 3 pies has been found, showing a distinct type of the "2" overprint on the second stamp of row 3. The sheet also has the inverted stamp (No. 7) listed in Gibbons' Catalogue as No. 23.

Our own sheets (which are in 5 rows of 8) do not show the above varieties, but we notice the "2" is very unevenly printed and sometimes has a very thin foot.

**COOK ISLANDS** (610 F 640).—We quote from the *Australian Stamp Journal* (10.11.11/6):—"There is no proposal at present to alter the design of the stamps of the Cook Islands bearing the head of the late Queen Makea."

**CONGO** (634 E 640).—The following is reported by the *Illustriertes Briefmarken-Journal* (16.12.11/572).

*Postcard.*

"10" in black on 15c. orange (No. 2 of Belgian Congo) already overprinted "Congo Belge" with handstamp.

**FRENCH ANJOUAN** (423, 467 D 640).—The remainders of the 5c. and 10c. have been sent to Madagascar to be used up for postal purposes.

**FRENCH COMORO** (423, 467 D 640).—The remainders of the 5c. and 10c. have been sent to Madagascar to be used up for postal purposes.

**FRENCH DAHOMEY** (294, 367, 392, 394, 414, 505 H 640).—*Die Post* (12.11/186) states that a new set of stamps of distinctive design is to be issued during the coming year. The design resembles that of the 15c. Congo, and represents a native climbing up a breadpalm.

**FRENCH GABON** (621 L 640).—The following envelope is chronicled by *La Revue Philatélique Française* (15.12.11/146):—

Envelope. "Congo Français—Gabon."  
10c. carmine and red on grey, 147 x 112 mm.

**FRENCH GUINEA** (367, 392, 394, 414, 449, 505, H 640).—*Die Post* (12.11/187) states that a new set of stamps of distinctive design is to be issued during the coming year. The design represents three carriers wading a ford.

**FRENCH INDO-CHINA** (628 E 640).—A new envelope is chronicled by *La Revue Philatélique Française* (15.12.11/146):—

Envelopes.  
10c. carmine and black on greenish, 123 x 96 mm. and 147 x 112 mm.

**FRENCH IVORY COAST** (367, 392, 400, 414, 502, 505, 562 H 640).—*Die Post* (12.11/187) states that a new set of stamps of distinctive design is to be issued during the coming year. The design represents a boat with five natives and a load of merchandise, proceeding up-river through a land of "milk and honey."

**FRENCH MADAGASCAR** (461 G 640).—*L'Annonce Timbrologique* states that the remainders of the 5c. and 10c. stamps of Grande Comore, Anjouan, Mayotte and Mohéli, which have been held in Paris, have now been sent to Madagascar to be used up there for postal purposes.

The colonies named first issued stamps in the following years:—

Sultanat d'Anjouan, November 1892.
Grande Comore ... 1897.
Mayotte ... 1892.
Mohéli ... 1906.

The 35 and 45c. values were added to the sets

so late as 1906 and 1907 respectively, and all the stamps have remained on sale until a year or two ago, when the stock of 1c. Anjouan and 1c. and 2c. Mohéli became exhausted.

The Comoro islands are a group of volcanic islands in the Indian Ocean, at the northern entrance of the Mozambique channel, midway between Madagascar and the African continent. The following table of the area and population of the four largest islands gives one of the sets of figures offered by various authorities:—

	Area, sq. m.	Population.
Great Comoro ..	385	50,000
Anjouan or Johanna ..	145	12,000
Mayotte ..	140	11,000
Mohéli or Mohilla ..	90	9,000

The European inhabitants number only 600. By decree of April, 1908, the administration of the islands was transferred to the Governor-General of Madagascar and we should imagine (unfortunately we cannot find a definite record) that it was then the special stamps were withdrawn from use and the stamps of Madagascar and Dependencies substituted. A new pictorial set of the latter was issued in July, 1908, and may have marked the change.

**FRENCH MAURITANIA** (360, 374, 392, 414, 505, 562, H 640).—*Die Post* (12.11/187) states that a new set of stamps of distinctive design is to be issued during the coming year. The design represents an ox, on which a child is seated, the driver walking alongside. The Mauritanian oxen are noted for speed.

**FRENCH MAYOTTE** (423, 467 E 640).—The remainders of the 5c. and 10c. have been sent to Madagascar to be used up for postal purposes.

**FRENCH MOHÉLI** (423, 467 D 640).—The remainders of the 5c. and 10c. have been sent to Madagascar to be used up for postal purposes.

**FRENCH P.O., MOROCCO** (638 Y 640).—We are informed by Mr. L. W. Crouch that he purchased the 5 and 10c. of the new set at Tangiers on 24.11.11.

**FRENCH SENEGAL** (367, 392, 414, 505 H 640).—*Die Post* (12.11/187) states that a new set of stamps of distinctive design is to be issued during the coming year. The design represents a Senegalese market, with a dealer in earthenware pots in the foreground, apparently just about to conclude a bargain.

**FRENCH UPPER SENEGAL AND NIGER** (367, 392, 414, 505, H 640).—*Die Post* (12.11/187) states that a new set of stamps of distinctive design is to be issued during the coming year. The design shows us a native in Arab costume near a resting camel and a mehari.

**FRENCH WEST AFRICA** (505 O 640).—During the coming year, separate sets of distinctive design are to be issued for Dahomey, Guinea, Ivory Coast, Mauritania, Senegal and Upper Senegal, states *Die Post* (12.11/187).

**NEW ZEALAND** (633 D 640).—Mr. Faris writes to the *Australian Stamp Journal* (10.11.11/5) that "the Postmaster General has officially informed the Philatelic Society of New Zealand that the new issue will be out within six months. The ½d. and 1d. denominations will be surface printed, but the other values will be printed from steel plates. It has not yet been decided whether the full series will be issued, but it is assumed that there will be a change in each value at present bearing the late King's head. Mr. Faris has been informed that there will be no alteration in design of the 1d.; and the 2½d., 9d., 2s., and 5s. will, he understands, remain pictorial, as at present. Mr. Faris writes further; that the last-named four values are now all perf. 14 rough, i.e., from the old rotary machine, now condemned and discarded. As present stocks become sold out, fresh printings will be perforated on the new 14×14½ comb kept for these sized stamps, so readers should look out for them. There have been no such comb issues yet. He adds that the 2d. and 1s. King's head have appeared as officials, but he has not yet seen them. The ½d., 3d., and 6d. King's heads do exist overprinted "OFFICIAL." Postage Dues—these are all rough perf. machine. No comb issues yet. They will, of course, come with next fresh printing. There are several distinct differences in shades of the 2d., 3d., 5d., 6d. King's heads. The 1d. official has produced the following varieties, one of each in each sheet:—

Broken "O" in "One Penny."  
Broken "FF" in overprint.  
Broken "L" in overprint.

The full list of New Zealand current perfs. now is as follows:—

14×15 comb—½d. and 1d.  
14×14½ to 14½ comb—2d., 3d., 4d., 5d., 6d., 8d., 1s.  
Perf. 14 single line—3d., 4d., 5d., 6d., 1s.  
Perf. 14, rough rotary—2½d., 9d., 2s., 5s.  
14×14½ comb—2s. 6d., 3s., etc., fiscals.

Mr. F. B. Barton, of New Zealand, writes on 28.8.11 to the same paper (page 6):—"I have authoritative information that the 4d. King's head is to be printed in yellow as soon as the stock of that denomination now in hand is exhausted. The sale of unused postage dues will, in future, be strictly forbidden."

The same gentleman sent last month, one of the new ½d. and 1d. booklets issued recently in New Zealand. This contains a somewhat remarkable stamp which is not available for postage. The booklet is sold for 2s. It only includes 1s. 11½d. worth of stamps, but instead of the other ½d. stamp the space has printed on it a five-rayed star. It is on paper watermarked in the usual manner and perforated. The sheet should comprise six stamps, but only five are printed on it, the one in the top left hand corner having the star above mentioned. The question arises what is the status of this label?

**ORANGE RIVER COLONY** (638 O 640).—We offered to purchase 100 panes of 60 of the 4d. stamp, containing the now famous error, for £100, but receive the following reply:—

"Union of South Africa,  
Department of Posts and Telegraphs,  
Cape Town,

"24th November, 1911.

"Sir.—In reply to your letter of the 3rd instant "I beg to inform you that specimens of the "defective Orange Free State 4d. stamp to which "you refer are no longer available for sale.

"I am, etc.

"[Signed, for Secretary].

"H. L'Estrange Ewen, Esq."

The error should be worth about £5 with single watermark and £3 with multiple watermark.

**PERSIA** (606 I 640).—The *Berlin Briefmarken Zeitung* (25.11.11/498) reports the following:—

With black overprint "Relais" at top and Persian inscription below.  
3 shahi, green and red brown.  
6 " red and red brown

These are for the service between Rescht and Téhéran.

**PORTUGUESE CAPE-VERD** (626 U 640).—The following stationery is reported by *Germania Berichte* (12.11/123).

**SOLOMON ISLANDS** (629 Z 640).—An advertiser in the *Australian Philatelist* (3.11.11/i) offers a set of seven values of the first issue for 8/6, or a set in blocks of four for 30/-, all "imperforate proofs in original colours."

The following is a short summary of the references to the Solomon Islands, which have been made in *E.W.S.N.*:—

- A 390. Design approved for an issue of stamps.
- B 392. Stamps expected only to be used locally; foreign letters to have N.S.W. stamps.
- C 393. Stamps expected to be issued 1.07 or 2.07.
- D 394. Receipt of Solomon Islands stamps in sheets under postmark 22(?)2.07, franked with N.S.W. stamps. Illustration of complete set.
- E 404. Date of issue said to be 14.2.07.
- F 407. History of issue; quotations for shades.
- G 410. Long description of sheets and the type varieties. Two large illustrations of covers franked with Solomon Is. and N.S.W. stamps.
- H 425. Stamps gazetted on 3.9.07 for international use.
- I 427. Letter from Garutu, 1.9.07 franked with Solomon Is. stamp only.
- J 444. List of post-offices and other notes.
- K 449. Statistics of 1st issue (60,000 ½d. to 2½d. and 30,000 each others printed) New issue expected.
- L 459. *Colonial Office Journal* gives particulars of new issue.
- M 467. First issue ½d., 1d., 2d. nearly all sold; about 42,000 2½d. and 18,000 each 5d., 6d., 1/- left in 6.08.
- N 473. 'Specimen' set of 2nd issue reported.
- O 477. Second issue expected at Tulagi, 1.10.08.

- P 485. Entire sheets of 2nd Issue to hand, issued 29.10.08 or earlier.
- Q 486. Statistics of 2nd Issue (about 100,000 ½d. to 2½d. and about 30,000 5d., 6d., 1/- printed.)
- R 487. Illustration of new design. Earlier date of issue 27.10.08.
- S 494. 1st Issue reported forged.
- T 504. Remainders of 1st Issue destroyed.
- U 536. Discovery of large holes and small holes in perforation of first issue.
- V 541. Issue of 2/-, 2/6, 5/- expected. Colour scheme for unicoloured stamps.
- W 526. The 2/-, 2/6, 5/-, issued 11.3.10 or earlier.
- X 597. Issue of 4d. expected.
- Y 629. The 4d. issued 31.3.11 or earlier. British Solomon Is. join Postal Union, 1.10.11.
- Z 638. Imperforate proofs of 1st Issue come on market at low prices.

What will the next alphabet have in store we wonder? As far as we can foresee, there is not likely to be anything new from this part of the world for years to come, as a very big stock of stamps has been obtained. When stamps are printed every year or two there is always a chance of new shades, perforations, etc., but the present supply of stamps on hand is so large (with the possible exception of the 4d., 2/-, 2/6, and 5/-, of which we have no record) that there seems to be no prospect of even a new printing for years to come.

**TURKEY** (634 R 640).—*Der Philatelist* (15.12.11/340) quotes a story from the *Illustriertes Briefmarken Journal* to the effect that "in Salonica the stamps surcharged to commemorate the Sultan's visit were not issued over the Post Office counter. The Postmaster called the local stamp dealers together, sold them a large part of the stamps and kept the rest for sale by himself at a profit. None were used postally."

**UNITED STATES** (638 E 640).—The new 10c. Registry stamps was issued officially on 1.12.11 and presumably had no postal value till that date, but Mr. A. C. Roessler states that some offices sold specimens at least two weeks before. The plate-numbers seen are 5720, 5723, 5726, 5729, 5730, 5731 and 5745. The stamps are printed in sheets of 400 and issued in sheets of 100. Shades are pronounced.

*U.S. Postal Savings Bank*.—The following varieties of the Official postage stamps have been issued, Mr. Roessler states (1.12.11):—

- (51) *Wmk. U.S.P.S. in double-lined capitals.*  
2c. black.  
50c. green.  
\$1 ultramarine.
- (52) *Wmk. U.S.P.S. in single-line capitals.*  
1c. dark violet.  
2c. black.  
10c. carmine.  
50c. green.  
\$1 ultramarine.

The first issue is said to be very scarce, and of the second issue the values 1 and 50c. are not common. The \$1 is quite a common value. These Official stamps can only be obtained used, and they are employed to carry matter from the Saving Bank Dept. in Washington D.C. and the various banks throughout the country of which 6000 are now in operation.

These stamps are not to be confused with the savings banks stamps and cards issued to the public to facilitate saving. Our previous references have been:—

- A — Issue of 10c. Postal Savings Card and 10c. orange adhesive.
- O 600 Issue of 2c. black to be supplemented by a 1c.
- Q 613 Record of issues to date.
- Y 632 Issue of 2c. and 10c. (apparently same as previously listed in No. 600); also 2c. Envelope.
- B 636 Correction of colours. Set to date.
- E 639 Revised list.

This is not a very satisfactory record but although we have many friends across the Atlantic, they do not appear to have taken much interest in these stamps.

**WURTEMBERG** (466 K 640).—This State still issues its own stamps for official use and we find two new values recorded in *L'Echo de la Timbrologie* (15.11.11/691).

*New values.*  
20pf. blue.  
50pf. red-brown.

The set previously comprised only the values 2, 3, 5, 10, 25pf. These stamps are not sold to the public unused.

Railway Postage Stamps.

The Editor has just finished sorting the whole  
of his duplicates according to printings. There  
are 128 standard varieties listed in our Reference  
List, but by collecting printings these can be  
extended to about 800. The Editor has over  
500 of these amongst his duplicates and offers  
them at the all round rate of 1/- per stamp nicely  
arranged in a collection on 56 large sheets with  
manuscript notes. Some are used, and a few of  
the rarer varieties are included. The Editor  
would be very glad to exchange with other col-  
lectors, and is mainly short of common recent  
varieties.
