The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (639 N 641).—The ½d. and 1d. Georgian stamps have at last turned up with Control letter "B11."

Georgian Issue. Control "B11" (figures 11 thin and close together).

½d. green.

1d. red, re-engraved, lion's body shaded entirely over.

Issued 1.1.12. This is an exceedingly interesting issue, and speculation will probably run rife in the near future as to whether there will be Edwardian B11's and whether they will have a short or long life. The probability is that ½d. and 1d. stamps printed during 1912 and having "12" in the control will not be seen before May or June.

Our first specimens of the above reached us on New Year's Day from Mr. C. A. Cole, and we have to thank numerous readers for specimens received during the week. We understand the stamps were issued to postmasters with instructions not to sell them to the public before New Year's Day.

We quote from the *Daily Chronicle* (2.1.12):—

TOUCHING UP THE BRITISH LION.

How the Penny Stamp Has Been Improved.

The new ½d. and 1d. stamps were issued yesterday at most of the London post-offices, but it is safe to say that not one in a thousand purchasers noticed the difference in the design.

Indeed, although the Inland Revenue authorities declared the new issue was on sale at nearly every place in London, at office after office where inquiry was made the clerks insisted that no new stamps had been received. Finally it was discovered that they were selling stamps of the new design and had not noticed the difference!

On the penny stamps the authorities appear to have been chiefly engaged in "touching up the British lion." On the stamps that have done duty since the Coronation the lion is a very whitewashed specimen, with ribs plainly showing, as if he badly wanted a meal. In the new issue the shading is extended almost all over the animal, and gives him a much more satisfied and satisfactory appearance.

The portrait of King George, too, is no longer blurred. Hitherto the beard and moustache have been almost indistinguishable, whereas now the neat moustache is clearly shown, and his Majesty is no longer shown as having something suspiciously like a black eye.

The improvement in the printing of the portrait of the King is apparently the only change in the halfpenny stamps.

BRITISH P.O., LEVANT (638 C 641). Mr. Oswald Marsh has shown us the 1d. red Harrison print, perf. 15×14.

1d. red Harrison print, perf. 15×14.

Issued Smyrna 20.11.11. or earlier.

FIJI ISLANDS (629 N 641).—The *Australian Stamp Journal* (10.8.11) states that the 5/- in new colours was issued as early as 19.7.11. Early in the year we gave our Suva agents orders to purchase a large quantity directly this stamp was issued, but as none are yet to hand, we must conclude it is not yet on public sale but only to be had by special application to the Postmaster-General.

From the same paper (10.11.11/9) we quote the following description of a supposed new fiscal stamp. It will be remarked that the evidence is devoted to proving the same genuine (which we do not doubt) but nothing is said as to whether the stamp is adhesive or not and after 40 years one would like more evidence as to its postal use. The stamp is not mentioned by Forbin's fiscal catalogue so we should think it is just an ordinary embossed deed stamp.

REPORTED DISCOVERY OF A VERY RARE FIJI POSTAGE STAMP.

To the Editor,

"Australian Stamp Journal."

Dear Sir,—Collectors of Australasian postage stamps will be interested to learn that the Mitchell Library has secured an embossed Fiji stamp issued in the seventies under the regime of King Cakobau; but additional value is given to the stamp by the original affidavit of the purchaser of the stamp, and declarations of two former Cabinet Ministers, certifying that during their tenure of office embossed stamps were issued for postal purposes. As this is a very important point not generally known to collectors, I attach a copy of the statements.

Yours truly,

H. WRIGHT,

Librarian, Mitchell Library.

October 31, 1911.

I, Edwin James Turpin, of Suva, in the Colony of Fiji, Accountant in the firm of A. M. Brodziak and Co. Merchants, hereby declare:—

1. That the stamp hereto annexed is a proper Fijian one issued during the reign of King Cakobau.
2. That the value of such stamp viz. 62½ cents written thereon and the initials J. B. T. are in the handwriting of John Bates Thurston then Chief Secretary of Cakobau and now Sir John Bates Thurston Governor of this Colony.
3. That the writing J. M. Haslett on the said stamp is in the proper handwriting of the late John Mitchell Haslett who was Postmaster-General and Commissioner for Stamps in the reign of Cakobau.
4. That the said stamp is an unused one and bought by me in or about the year 1871 or 1873.
5. That stamps of the same issue and of different values but all above 12 cents were used indifferently as postage and duty stamps as required.

E. J. TURPIN.

That the stamp shown me by Mr. E. J. Turpin is a proper stamp of Cakobau's issue, and bears the face value of 62½ cents and that the initials J. B. T. on the said stamp are in the handwriting of John Bates Thurston, then Chief Secretary of the Kingdom of Fiji and now Governor of this Colony and the writing J. M. Haslett is the proper signature of the late John Mitchell Haslett, Commissioner for Stamps and Postmaster-General at the time for the Kingdom of Fiji.

G. A. WOODS.

I, Robert Sherson Swanston at the date above specified having been a colleague in the Ministry of King Cakobau of Fiji with the Premier Mr. G. A. Woods and holding the position of Secretary of Native affairs do hereby endorse the above certificate.

ROBT. S. SWANSTON,
No. 372.

O.H.M.S. Memorandum.
From Colonial Postmaster,

To E. J. Turpin, Esq.

G.P.O., Suva, Fiji, 20th July, '94.

Many thanks for allowing me to see the stamp of the late King Cakobau. I should think it was valuable, more especially as it apparently bears the initials of our present Governor, Sir John Bates Thurston, who was at the time the stamp was issued in the King's service.

Yours, etc.,

LESLIE WALKER.

We quote from the *Collectors' Journal* (11.11/386):
"ABOR EXPEDITION STAMPS.

"Collectors of military postage stamps will be on the alert to secure specimens of Indian stamps used by the field post offices attached to the Abor Expedition Force now engaged in operations on the borders of Assam. Owing to the small number of troops employed these stamps are likely to be of some scarcity and in addition they are possessed of a certain amount of historical interest, says the *Stamp Journal*. Indian troops in the field are invariably accompanied by regular field post offices by which the ordinary contemporary postage stamps of British India, both normal and service, are employed, and cancelled with special distinguishing postmarks. Letters, postcards, newspapers, parcels, etc., are dealt with by these military post offices, and money order and savings bank business is transacted, but registration cannot be effected. Correspondence is delivered to the troops by the orderlies of their respective units. A curious feature of the work of these Indian F.P.O. is that whereas in the first instance it is obligatory for all postal charges to be fully prepaid, soldiers' letters are, as a matter of fact, actually conveyed free of charge in accordance with the postal regulations, each regiment or detachment recovering the cost of its postage at monthly intervals. Particulars of the postal arrangements of the Abor Expeditionary Force were published in a special Indian Army Order dated September 19th, 1911."

GREAT BRITAIN.—Current Issue (641 O 642).—With reference to the new ½d. and 1d. stamps issued on New Year's Day, Mr. H. N. Spiers writes (2.1.12):—"This afternoon (Tuesday) I went into the Telegraph Office in Francis St., W.C. in order to see whether they had any stamps with control A.11. They had not, but on the counter I saw ½d. and 1d. stamps with control B.11. The postmistress informed me that they arrived to-day. I bought a copy each of the ½d. and 1d. and examined them on reaching home. Both are of *redrawn dies*. In the ½d. the King's moustache is redrawn and is quite distinct. The King is much clearer and is quite recognizable, which is more than can be said of the portrait on the old stamps. More lines of shading have been added in the decorations above the A and N's of the halfpenny. The control B.11 is only 1mm. below the jubilee line of the edging.

"In the 1d. stamp the portrait of the King has been retouched as in the ½d. The space above 'postage and revenue' is quite solid instead of being lined, and the lion is almost covered with shading instead of having a few lines only as in the first die. The B.11 is only 1mm. from the jubilee line. In both the ½d. and 1d. the line of separation of the beard and cheek is very faint.

"In the control the distance shown in sketch is 1½mm. The height of the 1 of the control is 4½mm. in the ½d., whereas in my copy of the ½d. from die 1 it is 5½mm. The height of the letters in the control of the 1d. is the same in the two dies."

We quote from *The Standard* (3.1.12):—

THE BRITISH LION FATTENED.

OUR ALTERED STAMPS.

The Post Office people have started the New Year well. They have fattened up the lion on the new penny stamp. Whether this is to be taken by way of prophecy or merely of propriety the public is left to decide for itself. The official mind is notoriously secretive, and official explanations are usually remarkable for what they leave unexplained. This act of tardy justice to the British lion, like many others, must remain a departmental mystery.

It is difficult to imagine what has happened between the Coronation and the New Year to change the British lion, but the cynic might suggest that the alteration is sacrificial, with Truth as the victim. When the first Georgian stamps were issued there was a storm of protest and criticism from artistic people, and in this turmoil of denunciation no one seemed to notice the too obvious hunger of the British lion. Someone with a keen sense of realism had carefully given him a fine and well-marked set of ribs. No British lion had ever been given ribs before. It was against all tradition. It almost amounted to a violation of the Constitution. So now realism has departed, and the ribs have disappeared. The British lion is his old sleek, prosperous, sleepy self again. Imperial honour has been satisfied. Justice has been done. The King, too, has been given better treatment in the new issue. It is now, indeed, possible to recognise him!

A Twopence-halfpenny variety.—A Bewdley reader writes (29.12.11):—

"You may perhaps be interested to know that yesterday I bought some 2½d. stamps at this (Bewdley) P.O. Upon looking at them I found one was very distinctly REVENUE, instead of REVENUE. I promptly went back and tried to find another, but there were only a few 2½d's. out, and I couldn't see one. I am sorry I cannot tell the exact position of the stamp in the sheet, but I shall have another look for more at the earliest possible opportunity.

"I bought several George halfpennies, with control A.11., there, and three lots of three-corner stamps each have a very distinct comma in white, turned upside down, after the ½d. in the left-hand top corner of the middle stamp. I suppose, as it was found in three sheets, it is probably to be found in others. The 2½d. stamp is perf. 15×14 and the sheet had continuous marginal lines."

The A.11 Control.—Mr. E. Bentley Wood writes:—

"I have just seen it suggested that A.11 sheets were printed by Somerset House in full mill-sheets of 960, constituting four post office sheets, and that the two lines of rule below some of the latter are from the two upper ones of the original mill-sheet, marking the place of subsequent division.

"I had come to the conclusion—without any definite knowledge—1, that there were only two separate plates, as in each press-sheet of Messrs. Harrison; 2, that the lines of rule were removed during some period of the printing.

"I have obtained over forty of these elusive controls, most of which are before me, and have seen others, and I find, as quoted by you in E.W.S.N. No. 637, that there are only two different letterings, the tall pointed A which, especially in the 11 shows numerous white blotches; and the short flat-topped A with nick in the second 1.

"I have the former with and without the lines of rule, the depth of margin in the latter precluding any possibility of them having been cut off. The control letters are identical and are evidently the same plate, but in the examples without the lines the A.11 has been slightly shifted in position, bringing it under the O and to the left of the Y of ONE PENNY instead of under the N and to the right of the Y, the change apparently having been done at the same time as the removal of the lines.

"A contemporary speaks of the short A as also shewing the two lines of rule. This I have not seen, all my copies being with plain margin, so I cannot say if the control is similarly shifted, but the evidence seems to point all in one direction, viz.: that the lines were of only temporary use as they are undoubtedly the rarer.

"The preparation of the short A is, so far as I have seen, always extended through the right-hand margin; that of the pointed A (both with and without the lines) downwards through the bottom margin.

"A slight variety worthy of note is that in all the sheets I have with the short A, the second stamp on the nineteenth row shows a white scratch through the back of the lion's mane, extending across the four lines of adjacent shading. This might possibly help in the elucidation of the problem.

"If any of your numerous readers can throw any further light on the subject it would, I think, be of general interest."

"The re-engraved ½d. (B.11) shows differences from the old die in the front of the neck being lengthened so as to leave three, instead of four, horizontal lines below the bust. The ornament at the base of the cartouche has one heavy line on the left instead of two fine lines in the original die.

"The breaks in the sides of the Edwardian ½d. stamps (E.W.S.N. 636, 637, 639) occur on sheets perforated 14 as well as on 15×14.

"A variety in the A.11 ½d. George V. has the control moved so that the perforation cuts through and practically obliterates the second '1', thus making it read 'A1'."

[Numerous other correspondents have also mentioned the latter variety, which is quite common and has latterly been issued all over the country.—ED.]

A control variety.—An Ipswich reader writes (2.1.12):—

"I am sending you a strip of three King George ½d. which has the very interesting freak of the perforations going between the figures of the 11. I have been expecting it chronicled each week for some time in E.W.S.N., but each

week I find it unmentioned, so I am sending it on for your acceptance for the editorial collection, and to be notified in E.W.S.N. I have one—but one only—strip with *imperf.* margin but the vertical perfs. would have gone between the 11 had they been continued."

CANADA (638 X 642).—We are informed by the Superintendent of the Post Office, Ottawa that the colours and denominations of the new series will be precisely the same as those of the King Edward series. It is expected that the 1c. and 2c. will be on sale at the beginning of January.

We quote from the *Daily Mail* (30.12.11).—"The King is portrayed in admiral's uniform on the new Canadian postage stamps, which are now on sale, telegraphs our Ottawa correspondent."

COOK ISLANDS (640 G 642).—We have received the following letter:

Roessler has shown us a new surcharge on the Railway stamps; an improvement on the preceding issue, "CORREO" was formerly in capital letters and is now in capital and lower case. The word "Centavos" is abbreviated to "cts." By shortening the lines it gives a better appearance, and in some sheets the new overprint falls clear of the fiscal surcharge. The overprint is blue instead of black.

We quote from *The Times* (30.12.11):—

"**PORTUGUESE POSTAGE STAMPS.**—The new postage stamps of the Portuguese Republic in a permanent type, which have been ready for issue for some months, but have been withheld pending the exhaustion of the stocks of the Vasco da Gama series overprinted "Republica," will be issued to the public on New Year's Day. The dies have been engraved and the stamps printed at the Lisbon Mint. The design, typifying the Republic, shows a three-quarter length figure of a native peasant woman, crowned with the Phrygian Cap, and with the shield of Portugal upon her breast. The figure grasps a sickle with her right hand and bears a sheaf of corn under her left arm. The design is the work of Señor Constantino Fernandes. The values of the new stamps will be expressed in "escudos" and "centimos" instead of in reis as at present.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (642 P 643).—Our prophecy a fortnight ago that the Control B12 would probably not be seen before May or June, 1912 was an unfortunate one! On Thursday, 11.1.12, as no ½d. with control B11 had made their way to the local post office in the ordinary course of business, we requested that a supply should be specially ordered. The stamps arrived the following day at 5.30 p.m. (having been issued by the Controller of Stamps in the morning) and to our great surprise had control B12. They must have been printed this year, and to be in circulation already on the twelfth day of the year is certainly very quick work. Is new stock being issued before old or are the authorities living from hand to mouth?

Re-engraved Die.
½d. green, control B12.

Issued 12.1.12 or earlier. We note that the sheets are printed from the same plate as the ½d. B11, both having a round white dot cut on the bar under the 8th stamp in the bottom row of the sheet. The 1d. B11 have a similar white dot on the bar under the 11th stamp.

The interesting question now arises as to whether any of the following varieties also exist or will be issued in the near future.

- ½d. and 1d. Edward with B11 or B12.
- ½d. and 1d. Georgian, dies i. with B11 or B12.
- ½d. and 1d. Georgian, dies ii, with A11.
- 1d. Georgian, die ii, with B12.

All seem probable except the third group. The Editor is unfortunately confined to his room with an attack of pneumonia and cannot get out yet to make enquiries, but is relying on his readers' usual kindness to keep him informed of anything new that appears.

An Exeter reader writes that he purchased the ½d. B12 in that city on 13.1.12, and it is also reported by a correspondent who purchased it at the Lincoln's Inn P.O. on the same date.

We also have two interesting novelties in the high value stamps to report this week.

Somerset House prints. Wmk. Anchor, as usual.

2/6 dark lilac, faint printing. In all specimens seen so far the bars of "2/6" are broken or very faint. We have only seen the "11" cut of the lower pane of the sheet but it is the same as in the first printing.

10/- blue. This is the first Somerset House printing of this value. The "11" cut is under the ornament in the lower right-hand corner of the last stamp but one in the bottom row of the sheet.

Issued 15.1.12 or earlier. At first sight the 10/- appears indistinguishable from the De La Rue print, as although there is a trifle more ultramarine in the ink and the ornamentation above and below the octagon is darker in the Somerset

House printing, these differences are not sufficiently pronounced to enable one to distinguish specimens with certainty. Holding the stamps up to the light and looking at the shades through the backs of the stamps, renders them a little more distinguishable. But in unused specimens the backs of the stamps afford an easy means of distinguishing the printings. Lying face down on the table the 10/- De La Rue is seen to have a yellowish gum which renders the paper rather opaque, whereas the 10/- Somerset House has colourless transparent gum and the design of the stamp shows clearly through the paper.

A Barnes correspondent writes (16.1.12).—"I have had a letter from Messrs. Harrison, in answer to mine, saying that they will not be printing any of the ½d. or 1d. King Edwards with control B11; also that they have not yet printed nor will they print any 7d. King Edward stamps; and that it is not settled at present when the Georgian values from 1½d. upwards will be issued."

Mr. E. W. Floyd writes:—

"In answer to Mr. Bentley Wood's query in this week's E.W.S.N., I have the short A.11 with the two lines of rule. The control has not shifted in any way but is in the same position as in the variety without the lines, the margin of the latter being so large that it cannot have been the former variety with a trimmed margin. I have ten copies of the large A.11 and all show the O of ONE slightly broken at the top."

A correspondent writes (10.1.12) concerning the new ½d. printing:—

"In your notes of the current number you say the only change apparent in the ½d. is an improvement in printing. I think there is more than this:

(1) The ½ in the top corners is enclosed in deep shading immediately round the figures, the remainder of the shading being much lighter in these corners.

(2) The face is much lighter, so much so, that the whole effect of a sheet of stamps is lighter in the new than in the old.

(3) The hair by the ear does not project into the cheek nearly so much. In the old stamp there was a point of hair nearly over the eye, this has been taken off and the hair at this point lightened.

These are some of the more prominent changes visible to the eye without a glass."

We may add that the dolphin's heads are now shaded over, and the parting of the hair on the King's head is now very clear.

ARGENTINE REPUBLIC (639 S 643).—The *Madrid Filatelico* (1.12/4) states that whereas the 5 and 12c. engraved by the American Bank Note Co. are perf. 12, and 25½×19 mm. in size, the other values, which have already been printed by the Casa de la Moneda, at Buenos Aires, are perf. 12½×13 and only 22½×17½ mm. in size. Both editions have wmk. Sun.

1911 Design. Workman facing Sun.

- 2c. chestnut.
- 3c. green.

To be issued as existing stock of old issues become exhausted. Most are already issued.

AUSTRALIA (640 F 643).—We quote from *The Times* (29.12.11):—

AUSTRALIAN STAMP DESIGNS.—It is rumoured that, contrary to expectation, the portrait of the King will not figure on the new stamps of the Australian Commonwealth, and that in making their final selection from the numerous designs

submitted in competition recently, the Federal Postal authorities will favour those whose subject is typical of Australia rather than those bearing the Royal portrait. The explanation of this is the difficulty experienced by the Australian Government in obtaining a satisfactory engraving of the King's profile in the space of a postage stamp. The dies of the new stamps will be engraved in England, and it is anticipated that they will be ready for issue about July 1st, 1912.

AUSTRIAN P.O., LEVANT (636 U 643).—We are informed that the 1, 2, 5, 10, 20, 30 piastres Postage Due are now issued on thick chalkless paper instead of thin.

Postage Due. 3rd Printing.
1 piastre, green, thick chalkless paper.

- 2 " " "
- 5 " " "
- 10 " " "
- 20 " " "
- 30 " " "

Issued 20.12.11 or earlier. There are now three printings of these stamps:—

Thick chalky paper, stamps light green.
½, 1, 2, 2½, 5, 10, 20, 30 piastre.

Thin ordinary paper, stamps dark green.
½, 1, 2, 2½, 5, 10, 20, 30 piastre.

Thick ordinary paper.
1, 2, 5, 10, 20, 30 piastre.

BRITISH LEVANT (641 D 643).—We have received a second value of the King George issue.

Portrait of King George. "LEVANT" as usual, overprinted in black.

1d. red, die i., sheets of 240, control letter, A11 (narrow).

Issued 4.1.12 or earlier.

Correction. The 1d. Edwardian Harrison print chronicled a fortnight ago in E.W.S.N., No. 641, was recorded by mistake; this stamp does not exist with Levant overprint. We should have stated that the 1 piastre perf. 15×14, had been found with postmark Smyrna, 20.11.11, an earlier date than that hitherto recorded, but the note was misread.

CANADA (642 Y 643).—We have now received two values of the Georgian series.

Portrait of King George V.
1c. dark green.
2c. red.

Issued 1.1.12 or earlier. We quote as follows from the *Daily Mail*, (12.1.12):—

NEW CANADIAN STAMPS.

The new issue of Canadian one-cent stamps, with King George's head, is as beautiful, well designed, and clearly printed as the first issue of English Georgian stamps is unsatisfactory. In the place of the awkwardly truncated head on the English stamp, the Canadian issue shows a bust portrait of the King in admiral's uniform, beautifully engraved, with a light profile against a dark background. The shading is exquisitely delicate and gives full plastic roundness to the head. The oval in which the portrait is enclosed is framed by a border of maple leaves and the inscription "Canada Postage" in white letters on a dark ground. A crown is placed in

each of the top corners, and the figure 1, dark on white ground, in the two bottom corners. Instead of the watery, faded colour of our ½d. stamps, a deep green is used, which throws up the sharply engraved lettering. If it is possible to improve upon the design by greater simplicity, the technical execution is beyond reproach.

For our own part we do not endorse the *Daily Mail's* high opinion of the Canadian stamps; the design is much too small and cramped. Our own ½d. British stamp, despite defects, is a much superior article.

COOK ISLANDS (642 H 643).—Another value is at last issued with the 14 perforation, states *L'Echo de la Timbrologie* (31.12.11/810).

Perf. 14. Wmk. NZ Star.
½d. green.

The only other value with this perforation is the 1d.

COSTA RICA (642 H 643).—*L'Echo de la Timbrologie* (31.12.11/805) states, on the authority of *Costa Rica Filatelica*, that all the remainders of the Telegraph stamps (which were recently suppressed) have been converted by surcharge into 1c. stamps, by decree dated 15.11.11. In addition to the 1c. on 10c. blue chronicled last week, there were:—

Surcharged on Telegraph Stamps.

1c. on 50c. red-brown.	Blue surcharge.
1c. on 1 colon, dark brown.	Red "
1c. on 5 " vermilion.	Blue "
1c. on 10 " brown.	Red "

Of the two latter there were very few and the stock was quickly exhausted.

NEW HEBRIDES (633 M 643).—We learn from *L'Echo de la Timbrologie* (31.12.11/806) that the next printings of the pictorial bi-national issue, with values in French currency, are likely to be watermarked "RF" instead of with the Crown Agents' watermark.

PORTUGAL (642 K 643).—We have received a supply of the 80 reis Vasco da Gama of Madeira overprinted "Republica."

Vasco da Gama Issue of Madeira.
Overprinted "Republica."
80r. on 150 reis brown.

Issued 9.1.12 or earlier. The 25, 50, and 75r. have already been chronicled.

PORTUGUESE MOZAMBIQUE COMPANY (619 X 643).—*L'Echo de la Timbrologie* (31.12.11/806) states that only the following small edition was printed of the two low values with local surcharge.

With Biera surcharge "Republica."

2½ reis, grey	5,261.
5 " orange	4,663.

SALVADOR (632 Q 643).—We have received sheets of the new official stamps recently chronicled with full margin all round. In each case they contain 9 rows of 17 stamps without any division into panes.

Overprinted "OFICIAL."

The principal varieties are as follows, and are found on all our sheets:—

- (1) The "1" in official is like "1" on the 31st stamp.
- (2) Small "A" in official on Nos. 17, 34, 61, 63, 66, 89, 100, 105, 117 and 126.

SOUTH AFRICAN UNION (637 K 643). We quote from *The Times* (2.1.12):—

"The design chosen for the new 1d. stamp of the Union of South Africa is an exceedingly happy one, showing an excellent full face portrait of King George V. surmounted by a Royal crown and flanked by spray of meallies, encircled by a narrow white band inscribed with the designation of the Union in English and Dutch. In the two upper corners of the stamp are depicted a mail steamer and a mining shaft. It is the work of Mr. C. P. Inmelmann, of Paarl, Cape Colony, and secured the first prize of £10 in the Government competition.

SWEDEN (636 P 643).—We are informed by Dr. Ch. Lundberg that the 2 öre orange and 5 öre official have been issued with wmk. wavy lines.

Wmk. wavy lines.

Fourth Philatelic Congress of Great Britain.

PREPARATIONS for the great annual reunion of the British philatelists are proceeding apace, and no effort is being spared by the Executive Committee to provide an attractive programme for the entertainment of the Delegates assembled at Margate on May 1st, 2nd and 3rd. Arrangements have been made for the supply of a perforating machine with attendant and frequent demonstrations will be given during the three days in a room adjoining the Congress Hall. A lantern lecture on the history and evolution of perforating will form one of the features of the Congress, and a cinematograph display of philatelic subjects is also being arranged for.

Suggestions for the Congress Agenda have been received from the Isle of Thanet and Liverpool Junior Philatelic Societies, and Secretaries of other British Societies will confer a favour upon the Executive by discussing matters to be brought before the Congress at the earliest opportunity and forwarding particulars to the Hon. Secretary.

The following Societies have nominated their Delegates:—

Royal Philatelic Society—Messrs. M. P. Castle, M.V.O., J.P., L. L. R. Hausburg, R. B. Yardley, and Baron Percy de Worms.

Bath Philatelic Society—Messrs. G. B. Caple and W. C. Elwood.

Bristol and Clifton Philatelic Society—Mr. H. Alsop.

Dundee and District Philatelic Society—Messrs. D. Dickson and E. Philpot Crowther.

Huddersfield and District Philatelic Society—Rev. G. B. Madden and Mr. C. H. Greenwood.

Isle of Thanet Philatelic Society—Messrs. J. M. Munns and F. L. Devon.

Society of Stamp Collectors—Messrs. P. C. Bishop, L. S. Goldsmith, B. Fainlight and C. W. Deacon.

It will materially assist the work of organisation if Societies will kindly nominate their delegates without delay and communicate their names and addresses to the Hon. Secretary.

The Jubilee Stamp Exhibition.

THE date of the Jubilee International Stamp Exhibition, to be held in London under the auspices of the Junior Philatelic Society, has been fixed for October 14th next. The Exhibition will be opened on Monday the 14th, and will remain open throughout the entire week.

The Executive Committee has pleasure in announcing that it has secured the finest exhibition hall available in London for the occasion, that of the Royal Horticultural Society in Vincent Square, Westminster.

A tentative prospectus of the Exhibition will be issued in February, but as the display is to be a competitive one, taking the whole of the countries of the world into its scope, collectors will be glad of an early opportunity of strengthening and preparing their collections during the present winter months.

A section will be devoted to specialised exhibits of Single Issues.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (643 Q 644).—Just after going to press last week with the Editorial pages, we received a further supply of the 2/6 Somerset House print in the second shade, and found no trace of the faint bars in "2/6" which we had remarked in our first specimens. These must have come from an exceptional sheet.

The 1d. B11 sheets have a white blot on the line under either the 10th, 11th or 12th stamp, so that at least three plates of the "shaded lion" type are at press. In the ½d. B11 and B12 we have still only seen the one plate with white blot on the line under the 8th stamp but in the B12 sheets there is an additional faint white scratch on the line to right of the bottom row of stamps.

Under date of 20.1.12 we received the "shaded lion" 1d. stamp in a decidedly brighter shade of red, making it into quite a fine stamp, as the solid patches of colour now stand out more effectively. The first shade of this stamp was inclined towards a rather feeble rosine shade.

On 19.1.12 (if not earlier) the Controller of Stamps commenced to send out the 1d. re-engraved stamp with control B12 and we received specimens the following day.

Re-engraved Die. Lion with shaded body. 1d. red, control B12. Our specimens so far have a white dot under the 11th bar.

As the B contract appears to be limited to printing stamps from the new plates, the interesting question arises as to whether if the old plates remain in use "A11" will give way to "A12"? There seem to be considerable possibilities just now in the way of interesting and short-lived control varieties.

The twopence-halfpenny variety. — A Scottish reader writes (17.1.12):—

"With reference to the paragraph in last week's E.W.S.N., regarding the word 'Revenoe' instead of 'Revenue' in the 2½d. stamps, I enclose for your inspection and return a strip of six, the fifth one of which contains the error. It is difficult to say whether the mistaken letter is an 'o' or a broken 'u,' but in any case, it is quite clear that the word reads 'Revenoe.' It was taken from the middle of a sheet, and you will see that the side margins are continuous."

We have come to the conclusion that this "Revenoe" variety must occur a good many times on each sheet of the Harrison prints but the O is never perfectly formed and is obviously only a U which has become clogged at the top. Next time we receive an entire sheet of 2½d. stamps, we must investigate further, unless in the meantime any kind reader will do the work for us!

Stationery (638 Y 644).—We are informed by Mr. Oswald Marsh that the following has been issued.

Wrapper. 3d. green, Georgian stamp. Earliest postmark seen, 13.1.12.

Unadhesive Stamps (615, 616, 635 W 644).—We are also informed (18.1.12) by Mr. Marsh that he

has the 6d. envelope die 17. The Edwardian die-numbers now known are as follows:—

Envelope Dies. List of die-numbers known.

3d. Reg.	1-18.	None.

ARGENTINE REPUBLIC (643 T 644).—The *Deutsche Briefmarken Zeitung* (4.1.12/16) states that the ½, 1, 2, 10, 20, 24 & 50 cvos. of the new set were issued at Buenos Aires on 5.12.11 and that the following stationery was also issued:—

Stationery. Stamp of Labourer type. Letter card.

5c. carmine on cream, 139 x 85mm.

Issued 5.12.11.

Envelope.

5c. claret on grey, 152 x 120mm.

Issued 7.12.11.

BELGIUM (636 Z 644).—An Antwerp correspondent tells us (9.1.12) that he was told at the Post Office that the new issue of stamps would appear at the end of January.

BRAZIL (615 V 644).—The *Deutsche Briefmarken Zeitung* (4.1.12/16) chronicles the following:

Pneumatic Post Letter-card.

300 reis black and blue on grey, 140 x 90mm.

Issued early in 1911.

BRITISH P.O. LEVANT (643 E 644).—We are informed by Mr. Oswald Marsh that the following new stationery has been issued:—

Newspaper.

½d. green, Edwardian stamp. New printing, by Messrs. McCorquodale & Co., overprinted "Levant" 13½mm., instead of 13¼mm. as formerly.

Issued 9.1.12 or earlier. The stamp is in a brighter green and the paper is smoother.

Registration Envelope.

1 piastre on 3d. brown, Georgian stamp, size G.

Issued 9.1.12 or earlier. Oswald Marsh's *Weekly Circular* (20.1.12/1) gives the following description:—"We have received, under date 9/1/1912, the George V. Registration Envelope, overprinted "Regn. fee 1 piastre" in type as on the Edwardian issues. The top of the "N" of "Regn." is now level with the top of the "G", and the stop is level with the foot of the "N". The "1 piastre" now measures 18½mm.; the distance between the two lines of the overprint is 16½mm. All the envelopes we received bear the contract letters G.E.

COSTA RICA (643 I 644).—Two types of the recent 1c. surcharge are described by Stanley Gibbons' *Monthly Journal* (30.12.11/461). The sheets consist of 100 stamps; on the left-hand half the two lines of the overprint are 9½mm. apart, whilst on the right-hand half they are 8mm. apart.

DUTTIA (A 644).—We quote from Stanley Gibbons' *Monthly Journal* (30.12.11/461):—

"Mr. Hadlow has shown us the ½a. of this State, Type 4, but without the coloured rouletting, badly perforated about 13½. The stamps are widely spaced, about 5mm. apart both vertically and horizontally.

"From the same source we have a sheet of the ½a. in three horizontal rows of eight, instead of two only as previously; these stamps are close together, and there is the rouletting between the first and second, and the second and third rows, but not at top or bottom of the sheet, or vertically at all; they are on the deep green paper, like that of some of the previous printings, and thus are not a new variety."

ITALIAN P.O., LA CANEA (547 E 644).—We have received a supply of the current Italian 15c. slate surcharged for use in La Canea.

Surcharged "La Canea."

15c. slate, perf. 13½.

Issued 16.1.12 or earlier.

MAURITIUS (628 E 644).—Under date of 22.12.11, we are informed that "there is no prospect of any stamps with the head of King George V. being issued for the present."

NEW HEBRIDES (643 N 644).—We are indebted to Mr. H. D. Stockwell for the following cutting from the *Daily Mail* (27.12.11).

THE NEW HEBRIDES.

Sydney, Tuesday.

It is authoritatively reported from Noumea (New Caledonia) that Great Britain and France are negotiating for the division of the New Hebrides, the group of islands in the Western Pacific. The report is strengthened by the fact that the existing condominium is a manifest failure. Abuses remain uncorrected, and the position is steadily going from bad to worse.

It is believed that both Powers, recognising this, desire to find a way out of a dangerous impasse. It is expected, if the report be correct, that Australia will suggest that France should abandon her share of the New Hebrides in exchange for compensation in Africa with a view to the group being placed under the Commonwealth administration.

NEW ZEALAND (640 E 644).—We are informed by Mr. Robt. J. Kingsley that he has seen the "ONE" variety of the 1d. Dominion stamp overprinted "Official."

QUEENSLAND (634 D 644).—Our Melbourne correspondent reports finding the following varieties:—

Perf. 11 instead of 12½.

9d. wmk. Crown A, name small (type a).

9d. " name large (type b).

Of the latter stamp he found a pair post-marked so recently as 1.12.11, but the stamps were punctured "OS".

About 11.11 Brisbane introduced a new type of machine cancellation, the name and date being now within an upright oval.

TRANSVAAL (624 D 644).—We are officially informed, under date of Cape Town, 29.12.11, that the Postage Due stamps now being issued throughout all the States of the South African Union, are part of the "Transvaal" stock and we believe that there has not even been a new printing.

VICTORIA (636 Y 644).—The £1 stamp booklets have not superseded the old 2/- ones; both are on sale.

Under date of 15.11.11, our Melbourne correspondent sends us a new edition of the 2/- booklet, which contains full value in stamps instead of 18 1d. and only 11 ½d. stamps. The first page consists of a block of 12 ½d. stamps and the book is completed by a block of 18 1d. stamps folded into three and bound without separation. There are no advertisements, the stamps being interleaved with plain paper.

V Crown wmk. sideways.—Our Melbourne correspondent reports having found a copy of the 2d., perf. 12½, with wmk. V Crown sideways. The list of this watermark in sideways position, which we gave in *E.W.S.N.* 630, may therefore be extended to read:—½d., 1d., 1½d., 2d., 3d., 9d., 1/-, £1. £2.

New Books Received.

Sudan, Volume I. of Bright's Philatelic Library, compiled by D. B. Armstrong; 72 pages. Hardly a day seems to pass now-a-days without another sixpenny booklet dealing with the stamps of some country being added to our library! And the publishers seem to compete with one another ever more keenly as to how many shillings' worth of literature they will give the public for sixpence. None of the booklets, perhaps, contain any large proportion of original research work, but they should be very useful to collectors, as bringing together the many isolated notes and discoveries which have been reported from time to time in the philatelic press. When the list of available countries has been exhausted, we suppose we shall have booklets dealing with single issues.

Die Postwertzeichen von Aethiopien. Published by Paul Kohl, Ltd. A booklet containing ten pages of catalogue, five of illustrations and one of advertisement, bound in a thin blue card cover. This is, we imagine, the beginning of the end of the 1000-page specialist catalogue, which must inevitably in the long run give way to sectional catalogues.

Probedrucke Marken mit Specimen sowie Essais der Vereinigten Staaten von Amerika. This is a companion volume to the above, also published by Paul Kohl, Ltd. It contains 40 pages, over 30 of which are devoted to an illustrated priced catalogue of U.S.A. proofs and essays.

Die Marken von Kaschmir, a third volume of the Kohl series; 32 pages, chiefly devoted to an illustrated price-catalogue of Kashmir stamps.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (644 R 645).—Various correspondents have shown us the re-engraved ½d. and 1d. with other cuts on the margin than those we mentioned and we now know of the following:—

½d. B11 Cuts 10, 11, 12.
1d. B11 Cuts 7, 9, 10, 11, 12.

This shows that a good many plates are at press and there is of course a decreasing likelihood of the Edwardian and type i. Georgian stamps occurring with the "12" or the "B" in the control.

As it is some time since we gave a summary in chronological order of the provisional prints, we append it, revised and brought up to date. The ½d., 1d., 2½d., 3d., and 4d. stamps are printed by Messrs. Harrison & Sons (except the special 1d. "A.11") and the others by the Stamping Department at Somerset House.

We have omitted the 6d. 4th shade, "rich plum," as we now consider it only an extreme of the 3rd shade. Of all three 6d. shades, two or three degrees of inking occur. There are also probably further printings of the 1½d., 2d., 5d., 9d., and 1/- stamps, but the shades are not sufficiently defined to record. The shades of the ½d. and 1d. are too numerous to mention.

Stationery (644 Z 645).—We are informed by Mr. G. White that he has the ½d. Georgian wrapper with an earlier date—Manchester, 5.1.12.

Postmarks (638 C 645).—The earliest date of the Maltese Cross postmark in black was recently stated to be 31.8.1840. But when we recorded it we quite lost sight of the following note which appeared in *Ewen's Weekly Circular* of 13.5.99.

"Mr. J. G. Hawley has shown me an interesting cover dated Glasgow, June 1st 1840, with 1d. black stamp attached, cancelled with Maltese Cross in black. Although the change in the colour of the obliterating ink from red to black was only generally made in February, 1841, the latter ink is known to have been used experimentally in the G.P.O., London, as early as October, 1840. It now appears that to Glasgow is due the introduction of black ink, and at a date too, only three weeks after the first issue of stamps. Mr. Hawley informs me

that he possesses another example on a letter dated July 1840, also from Glasgow, so there can be no question as to the correctness of the date. Both the Glasgow and Edinburgh postmarks on the letter are in vermilion-red, but there is also what appears to be a small rectangular postmark on the back of the letter (similar to those inscribed 'No. 1,' 'No. 16,' etc., which are occasionally met with), which is in the same brown-black as the Maltese Cross, but this mark is so indistinct it may be only a smudge. If it is in reality a postmark, the letter probably comes from a branch office, where the use of black ink may well have been due to carelessness in following the official instructions, and where it would easily have been overlooked."

Automatic Letter-Stamper (A 645).—We quote from the *Daily Mail* (26.1.12):—

AUTOMATIC LETTER-STAMPER.

Londoners discovered a new amusement yesterday at the General Post Office, where there was an exhibition (for one day only for testing purposes) a machine which acts as an automatic letter-stamper and also as a pillar-box.

The device has the appearance of a private posting box and has two slots—one for letters and one for pennies. The letter is put lengthwise into the upper slot, the penny is placed in the lower slot, a handle is turned twice, whereupon the letter disappears into the box. If the Post Office authorities are satisfied with yesterday's test there is a possibility that they will adopt the machine.

On 27.1.12 we read in the same newspaper:—

In its first two days at the General Post Office, London, the automatic letter-stamper, now undergoing tests, has franked about 2,000 letters.

The inducement to fraud is very slight, as the machine will not "work" with copper discs or "French pennies." But, if desired, a further device will allot each letter to its individual coin and the would-be defrauder will be caught by the simple process of opening his letter.

Mr. Oswald Marsh has since sent us a letter "stamped" by the automatic machine on the first day of its use. The "stamp" is struck nearly in the centre of the front of the envelope (court-shaped). It is circular in shape and inscribed "LONDON, EC.—1D.—POSTAGE PAID —[Crown]" and is printed in carmine (not the regulation vermilion of "paid" stamps). The letter is postmarked with a circular postmark ("London E.C., 3.30 P.M., JA 25 12—172") in black in the corner where the adhesive stamp would have been and not as might have been supposed (and as is done in New Zealand) on the machine stamp. Altogether an interesting postal curiosity.

AUSTRALIA (643 G 645).—The *Australian Philatelist* states that there is some likelihood of the discontinuance of perforated official stamps, in which case the Government departments would revert to the practice of franking.

We quote from the *Melbourne Age* (18.12.11):

"Time is accentuating rather than relieving the difficulty of getting a typically Australian design for the new Commonwealth postage. The Postmaster-General admits that his efforts have not yet produced exactly the right design. It is generally agreed that the new issue should not contain the King's head as its central figure. The desire appears to be to portray an Australian scene, which, while artistically pleasing, shall quietly advertise Australia wherever it goes. On Saturday, Mr. Frazer made a critical inspection of designs forwarded at his request by the Victorian Artists' Society. They are the work of Mr. Blamire Young. Mr. Young's idea is to have a bold outline of Australia, and inset, appearing on the map as if it were part of the very life of the continent, a typical Australian scene. Among a number of such scenes submitted are those of a mail coach rising above a hill, a kookaburra on the limb of a dead tree, a kangaroo among scrub, a bullock-drawn wood waggon, a swan, a magpie and a native bear. With a few changes Mr. Young's design could be made thoroughly acceptable."

Letter-cards (635 D 645).—Two months ago we wrote:—"Under date of 18.10.11 our Melbourne correspondent sends us some more varieties of

the letter-card. The issue on 'greenish-gray' card has after all come to an end, for these are on a clear gray, almost a bluish-gray or slatey-gray."

Only four varieties were then to hand and we heard nothing more from our Melbourne correspondent on this subject till now. Under date of 30.11.11 he writes:—"Yet another change! Grey-green letter-cards are about to be superseded by white enamel cards, of which I send you two samples. At last the Government printer seems to have evolved a serviceable article and one with a decent surface for writing upon."

Under date of 6.12.11 our correspondent sends us further samples of these white enamel cards and we are able to compile the following list of varieties:—

Letter-cards. Stamp with portrait of King George as before. Inscription ends as usual with "to, the, apply."

- 1d. emerald-green on white.
- Giant Red Gum, Vic.
- Queen's Gardens, Perth, W.A.
- 1d. bright violet on white.
- Sydney Harbour, N.S.W.
- Albert Bridge, Queensland.
- Government House, Perth.
- 1d. dull violet on white.
- Viaduct near Adelaide, S.A.
- 1d. dark chocolate on white.
- Mosman's Bay, Sydney, N.S.W.
- 1d. chocolate on white.
- Queen's Gardens, Perth, W.A.

We shall not be surprised to receive a good many additions to above list as time goes on.

CANADA (643 Z 645).—Three more values of the Georgian series are to hand:—

Portrait of King George V.
5c. dark blue.
7c. ochre yellow.
10c. brown purple.

Issued 17.1.12 or earlier. All are in sheets of 100, with plate number "Ottawa, No. 2." There is also "PO84", "PO85", "PO86" respectively on the top margin, but the letters and figures are reversed. We thought when the 1c. and 2c. stamps came out that the design was rather cramped, but the above three stamps have a very good appearance and the full set should be a handsome one. The two remaining values, 20c. and 50c., are not yet issued.

FIJI ISLANDS (641 O 645).—We now give a more complete description of the registration envelopes first chronicled in *E.W.S.N.* No. 627.

Registration Envelopes. Square stamp with portrait of King Edward.

3d. Regn. + 1d. Postage, blue.

Sizes 150 × 95mm., 227 × 102mm., and 292 × 153mm.

The second size (227 × 102mm.) is inscribed additionally "The address must be written on this side," but the other two sizes are without this instruction.

A consignment of the current stamps, sent us from Suva under date of 20.12.11, arrived in a perfectly clean envelope, but the stamps show quite remarkable deterioration, the effect resembling—in a very mild form—that which is seen when stamps placed between oil-paper have been affected by hot sealing-wax, as not infrequently happens, as importers know to their cost. But in this case the whole consignment is affected, whereas the accompanying envelope and letter are not. One must suppose that something has happened to the Fijian climate, which has reacted upon the stock of stamps in this strange manner.

One peculiar result is that except the ½d. and 1/- stamps none now show any trace of watermark. A block of the £1, for instance, have become a greyish-black on thin transparent unwatermarked paper. A pane of the new 5/- which should be on yellow chalky multiple-watermarked paper is now on ordinary paper and there is no trace of watermark, even on the margins! This is the more extraordinary as the stamps are all in mint condition with original gum.

HONDURAS (632 A 645).—We have already chronicled the 1, 5, 6 and 10c. of the current set overprinted "Oficial" and now have the remaining four values. As however we did not previously describe the perforations, we record the full set with the addition of this detail.

OFICIAL

Overprinted "Oficial" horizontally.

1c. lilac	Perf. 14.	Carminc overprint.
2c. green	Perf. 12.	Black "
5c. carminc	Perf. 14.	" "
6c. ultramarine	"	Carminc "
10c. blue	"	" "
20c. yellow	"	" "
50c. brown	"	" "
\$1 olive-green.	Perf. 12.	" "

The set commenced to appear 15.4.11 or earlier but the 2c., 20c. 50c., \$1 only reached us under date of 7.12.11.

The varieties of the current type now known are:—

Ordinary.

Perf. 14; 1, 2, 5, 6, 10, 20, 50c.
Perf. 12; \$1.

Official.

Perf. 14; 1, 5, 6, 10, 20, 50c.
Perf. 12; 2c., \$1.

It looks rather as if other varieties might be found if diligent search were made.

INDIA (641 Y 645).—We received a large supply of the Georgian 1, 2 and 3 annas stamps several weeks ago, issued at Calcutta, 4.1.12, and note that the sheets are now divided into panes of 64, with "gutters" of lined pillars between the panes. Each pane contains 4 rows of 16 stamps. The old arrangement was the same as that of the current 1d. British stamps and ill-adapted to the Indian currency of 16 annas to the rupee.

NEW ZEALAND (644 F 645).—*Error "ONE."*—Mr. R. J. Kingsley states (19.12.11) that the latest sheets of 1d. stamps he has seen, numbered E 207112 to E 207951, no longer bear the error.

Official stamps.—The "Dominion" stamps overprinted "official" are ½d., 1d., 3d., 6d. and 1/- but the authorities will not sell them either used or unused. The other official stamps are the 2d., 2/- and 5/- of the pictorial series and the £1 postal-fiscal.

"King George" stamps.—Under date of 17.11.11 we were informed that the denominations then intended to be printed were ½d., 1d., 2d., 2½d., 3d., 4d., 6d. and 1/-, but that it was unknown when the issue would be ready for sale.

Edwardian.—Latest sheets of the 1/- received are perf. 14x14½, with sheet-numbers ranging from 118020 to 122621.

Mr. Edward Smith writes that he has seen the 1/- in a new colour, like the 3d., only deeper. Is it a regular issue or only a colour changeling?

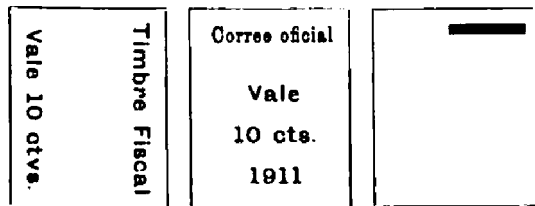

NICARAGUA (642 H 645).—We have received the following further novelties:—

With inverted surcharge.

"Vale 05c.—Correo de 1911" on back of 5c. on 2c. indigo telegraph stamp. The ordinary surcharge was chronicled in E.W.S.N. No. 626, and the type varieties are as before, nearly every stamp on the sheet of 20 being different.

Our specimens are all postmarked Corinto, 24.11.11. In addition we have a new surcharge on the telegraph stamps, making we should think one of the most extraordinary stamps ever issued.

The original stamp was a 1c. red railway (or telegraph) stamp, which was overprinted vertically in black for use as a 10c. fiscal stamp. This was in 1911 re-surcharged for use as a 10c. official stamp and now at the end of the same year the word "Oficial" is barred out and the stamp converted to a postage stamp.

1st surcharge. 2nd surcharge. 3rd surcharge.

Postage on Official on Fiscal on Railway (or Telegraph) stamp.
10c. on 10c. on 1c. red.

These stamps are said to be scarce. They are issued in sheets of 20 as with all the other

overprinted railway stamps, and the following varieties appear to be constant:—

- No. 8. Broken s in "cts" and no stop.
- No. 15. Narrow capital V in "Vale".

In addition the size of the figures "10" of the horizontal surcharge vary and occasional sheets show such varieties as "orreo" for "Correo", the C often being defectively printed on Nos. 7, 9, 11.

Finally we have the long expected permanent issue, printed by Messrs. Waterlow & Sons, Ltd., of London.

Permanent Issue. No wmk., perf. 14 even. Design very slightly larger than current British stamps. Allegorical figure standing in centre; "Republica de Nicaragua" at top; "Centavos" at foot; "Correos 1911" at each side.

- 1c. green.
- 2c. rose.
- 4c. brown purple.
- 6c. blue, centre black.
- 10c. red brown.
- 25c. green, centre black.

Issued 1.1.12.

A correspondent writes (3.1.21):—"An American syndicate, composed of two Wall Street concerns, have advanced \$15,000,000 to put Nicaragua on a sound financial basis. The country is flooded with currency from all parts of the world, Mexican dollars, Hong Kong dollars, English paper and French gold. All of this will be retired and a Standard will be made on the basis of the Mexican dollar, which, though it fluctuates with the value of silver, holds in transactions, two to one American dollar. A short time ago Nicaraguan money was sixteen to one (Wm. Jennings Bryan's theorem). It is gradually climbing upward, and under the syndicate's management will be two to one before a year has passed. All customs duties are turned over to the agents of the money concern.

"The country is poor, notwithstanding the protest of the London Consul of Nicaragua, who did his duty in denying the charge. The freaks in the stamp line are a good example. From the agents sent to N.Y. and London, we learned that only \$10,000 was required to produce a new issue, yet the stamps were unable to be issued, though the cases were in Nicaragua (at Corinto) for the sake of the sum mentioned. The short issues (100 to 500,000) were made because the government expected several times to be able to furnish the money to release the stamps. Five hundred thousand stamps may seem like a large number, but it must be remembered that it requires from four to ten on an ordinary letter.

"A cause for the poverty is the cheap labour which is pouring into Nicaragua from the east, Chinese and Japanese. The Emperor of Japan gave orders that if his subjects desired to please him they would emigrate, not to Canada and the U.S., but to Nicaragua. Diplomats claim that Nippon wants an ocean-to-ocean canal, Nicaragua offers the chance.

"The loan is helping the country as is shown by the advance of the peso, and as it gains, the country will prosper and attract further capital."

SERVIA (644 Y 645).—The remaining two values of the new set are now to hand.

Design of 1911. King's Peter. New values.

- 3 dinar, marone.
- 5 " violet.

Issued 19.1.12 or earlier.

URUGUAY (626 E 645).—We have seen a set of the oblong official stamps chronicled in E.W.S.N. No. 605. They are no wmk., perf. 11½. Before use they are punctured with small cuts shaped like a diamond (a specimen before us has two such cuts).

VICTORIA (644 Z 645).—When penny postage was introduced, the 2d. letter-cards were called in. These have now been re-issued surcharged "One Penny".

ONE PENNY

Letter-card. Surcharged in blue diagonally reading up, together with the usual inscription in three lines ending "to, the, apply" (see under Australia.)

New Stamp Blocks.		
HOW TO ILLUSTRATE STAMP PUBLICATIONS CHEAPLY.		
We pay out hundreds of pounds for stamp blocks, many of which are used only once and then lie idle for years. We feel sure these blocks would be of great use to other philatelic publishers and our printers, Messrs. Pardy & Son, The Triangle, Bournemouth, are authorized to use any of our stamp blocks to illustrate publications printed by them at a small charge per block, and the cost of printing an illustrated stamp catalogue is thus reduced to a minimum.		
It is necessary for any intending publisher of an illustrated stamp catalogue or journal to write to the secretary, the Board of Inland Revenue, Somerset House, London, W.C., asking for permission to illustrate it.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (645 S 646).—We illustrate the two main types of the "A11" Control letter, with "wide 11" and "narrow 11" respectively.

A 11 A 11

The difference is of philatelic importance because it divides the stamps into two periods of printing. The narrow A11 was first noticed by collectors on 1.10.11 after the ½d. Edwardian stamps had been in use about five months and the ½d. Georgians a little over three months. The ½d. Edwardian is, by the way, unknown with the narrow "A11"; have no ½d. Edwardian plates been at press since September?

The varieties now (3.2.12) being issued are ½d. Georgian A11 and B12 and 1d. Georgian A11 and B11. We cannot get any ½d. B11 or 1d. B12 from our usual sources.

We illustrate the re-engraved ½d. and 1d. for the benefit of foreign readers.

Another Inverted Watermark.—The ½d., 1d. and 2½d. Harrison prints have already been chronicled with inverted watermark and we have now to add the 1/- Somerset House print to the list. The watermark is not only inverted but also "dropped" so that the row of crowns intended for the top row of the sheet falls at the extreme top of the second row of stamps and partly on the perforation. Nos. 1, 2, 11, 12 of the top row of stamps are watermarked with the lines usually found on the corner margins of sheets—Nos. 3 and 10 are without watermark; Nos. 4 to 9 are watermarked with the word "Postage" inverted. The pane of 120 before us is the top half of a printed sheet and has the wide "11" cut.

AITUTAKI (403 K 646).—We are officially informed under date of 14.11.11 that there is no likelihood of any new printing of stamps being made at present for Aitutaki, Niue or Penrhyn.

ARGENTINE REPUBLIC (644 U 646).—*L'Echo de la Timbrologie* (31.1.12/47) reports the 1, 5 and 20c. of the new issue (Labourer type) without watermark.

BERMUDA (601 K 646).—We had been wondering why we received no reply to an order for stamps posted on 10th June, 1911. We find the explanation in *A. C. Roessler's Stamp News* (1.12/270). We quote:—

"We sent remittance for unused stamps to P.M. October 13. Stamps not received. Wrote a pleasant reminder. Ignored. Wrote Governor of Bermuda. Under date of December 19 the delay is explained: 'It is impracticable to deal with orders at this season.' October 13! Now we know why King George said, 'England, wake up.'"

The "season" must be a pretty long one, as our application dates back just on eight months.

CANADA (645 A 646).—We illustrate the design of the Georgian issue and also chronicle a new value.

Georgian Issue. New Value.
20c. olive green.

Issued 20.1.12 or earlier. The stamps are issued in sheets of 100 and ours have "Ottawa, No. 1,—P O 87" on the top margin.

We have received a large further consignment of the 1 and 2 cents, and find that each plate probably consists of 200 stamps in two panes of 100, one pane having the plate-number, etc., on the top margin and the other having it on the bottom margin. We have both values with plate-numbers 1 and 2. Curiously, although the 5, 7, 10 and 20c. respectively have PO84, 85, 86, 87 as a supplement to the plate-numbers, both the 1 and 2 cents have "PO83", the "PO" being in every case reversed.

Variety.—Stamp No. 97 on 2c. sheets, plate 2 with plate-number on top margin, shows an interesting variety, the c of CENTS having a distinct acute accent over it.

Bilingual inscriptions?—*The Family Herald and Weekly Star* (10.1.12) of Montreal states:—

"SOUS" AS WELL AS "CENTS" PROPOSAL.

Ottawa, January 4.—It is understood that the Post Office Department is considering the advisability of printing postage stamps in French as well as English. Heretofore English exclusively has been used. Between the figures 2 on each side of the stamps, it is proposed to put the word "cents" on top and "sous" beneath.

CHINESE P.O., TIBET (634 G 646).—Mr. W. T. Wilson states that all the Chinese Post Offices in Tibet have been abolished. The stamps now being obsolete and never having been very largely imported should speedily become rare.

COSTA RICA (644 J 646).—In addition to the five surcharged telegraph stamps already chronicled we find the following noted in the *Stamp Collectors' Fortnightly* (3.2.12/219).

Telegraph stamp overprinted "Correos" (Posts).
1c. on 25c. purple.

L'Echo de la Timbrologie (31.1.12/47) states that the remainders of the 1901-03 issue, which was demonetised some time ago, have been sold to a speculator.

From the same source (31.1.12/50) we learn of two more provisionals overprinted on old stock. We are not sure that this is not a preferable way of getting rid of old stock, as the sale of remainders under face is bad for everyone in the end.

Overprinted "Habilitado—1911."
4c. lilac and black of 1903. Surch. black.
10c. blue " 1907. " red.

Champion's Bulletin (25.1.12/27) states that the quantities recently issued of the 1c. provisionals were:—

1c. on 10c.	150,000.
1c. on 25c.	—
1c. on 50c.	45,000.
1c. on 1 col.	45,000.
1c. on 5 col.	23,000.
1c. on 10 col.	22,000.

The two last were sold out in a few hours. We find the four first selling for 10 pfennig each on the Continent, whilst 2 Marks each is asked for the two last, which after all are not so very much rarer than the 1c. on 50c. and 1c. on \$1.

FRENCH P.O., MOROCCO (640 Z 646).—**Correction.**—We have now seen the surcharged 1 franc of the new set and find that the Arabic overprint is not "franc" as we chronicled at the time, on the authority of a French contemporary. We erred in good company, however, as we believe every one of our contemporaries has been similarly misled. Having the stamp before us, we can now state definitely that the Arabic surcharge is a transliteration of "peseta" and not of "franc." The chronicle should therefore read "1 pes. on 1 fr." The Arabic overprint is made up of five characters, b(e)sét(a)t. Whether the second t may not be a misprint for another letter is doubtful. Arabic orthography does not require short vowels to be written, and the Arabic alphabet possesses no letter p, so b has to be used. Arabs usually substitute f for p, thus Palestine is written and spoken Falestin. The following additional values are included in the new set issued at the end of 11.11.:—

New Values.
1c. in red on 1c. grey.
2c. in blue on 2c. red lilac.

FRENCH P.O. CHINA (636 Y 646).—*L'Echo de la Timbrologie* (31.1.12/47) reports the current 2 cents on 5c. with slightly larger overprint.

GILBERT & ELLICE ISLANDS (633 B 646).—We give a somewhat belated representation of the pandanus tree type.

The tree shown on the stamp is popularly known as the screw-pine and the Encyclopædia Britannica says of it:—

"Screw-pine, the popular name for plants of the genus *Pandanus*, which are shrubs or trees of peculiar habit, having a main stem and a few branches at the ends of which is a tuft of long, stiff, narrow leaves closely arranged in three strongly twisted lines. The stem forms stout roots which grow obliquely downwards to the soil, and owing to the decay of the lower part of the stem the plant is often supported merely by these strong prop-like roots. The ripe fruits are borne in often very large spherical or cylindrical heads which are often extremely hard."

Previous references in our columns to the Gilbert Islands have been as follows:—

- A 573. 1st Issue, ½d. to 1/-, on Fiji, reported from 'specimen copies' (which were distributed by Postal Union about 8.10).
- B 588. Post Offices expected to be opened 1.1.11.
- C 595. 2nd Issue. Screw-pine ½d., 1d., 2d., and 2½d. chronicled from 'specimen' copies.
- D 599. 2nd Issue. Screw-pine 5d., 6d., 1/- chronicled on authority of Spanish contemporary; we add "presumably from 'specimen' copies."
- E 605. Small speculators and single-set collectors report receipt of sets of 1st Issue (under date of 24.2.11); large buyers and New Issue Service importers have their remittances returned. Screw-pine 2½d. seen postmarked 4.3.11.
- F 606. 1st Issue 1d. and 2d. seen postmarked 13.1.11.
- G 614. Ewen's New Issue Service received on the eve of Coronation day 120 sets comprising the Fijian 2½d., 5d., 6d., 1/- and Screw-pine ½d., 1d., 2d. Although we could have sold them at a profit of £200 to speculators, they were distributed to earliest subscribers to our New Issue Service and our profit was reduced to about fifty shillings.
- T 616. [Printer's error here, T for H]. Australian dealers generally favoured with supplies but some favoured person seems to have been allowed to buy the ½d. and 1d. surcharged on Fiji.
- U 626. We illustrate a pane of the 2½d. on Fiji.

Railway Postage Stamps.

The Editor has just finished sorting the whole of his duplicates according to printings. There are 128 standard varieties listed in our Reference List, but by collecting printings these can be extended to about 800. The Editor has over 500 of these amongst his duplicates and offers them at the all round rate of 1/- per stamp nicely arranged in a collection on 56 large sheets with manuscript notes. Some are used, and a few of the rarer varieties are included. The Editor would be very glad to exchange with other collectors, and is mainly short of common recent varieties.

THE WEEK'S NEWS.

(Continued from page 2745.)

- V 628. Rival estimates of quantity printed.
- W 629. Postmaster says surcharged stamps issued 1.1.11; screw-pines about six weeks later. Correspondents everywhere report "money returned, surcharged stamps sold out."
- X 630. Corroborative correspondence; description of registration label.
- Y 631. Official letter to Editor, *Colonial Office Journal*, stating small remaining stock required for postal purposes.
- Z 632. Latest quotations; authority of postmaster for selling stamps at 10% profit over face.
- A 633. Forged surcharge seen.

In the meantime only the screw-pine ½d., 1d., 2d. and 2½d. are on sale and stamp-collecting interests still continue to be mulcted in 10%, a practice entirely at variance with Post Office principles throughout the Postal Union.

Messrs. Whitfield King & Co. state that an issue with head of King George is expected in April or May.

INDIA (645 Z 646).—We illustrate the new 1, 2, 3 annas with portrait of King George.

We read in the *London Philatelist* (1.12/13) that the 3 pies, ½ anna, 2 as. 6 pies and 6 annas of the Georgian set have been printed. Our contemporary gives the following description:—

"3 pies 'India Postage' in tablet appears at top, 'three pies' in tablet at bottom, value in figures (3 PS) at each side in the centre of the stamp.

"½ anna, green, oval, containing the head surrounded by a wreath. India Postage and Revenue in a straight label at top, value in words in a straight line at bottom with value in figures in colour on a white tablet dividing half and anna thus, 'HALF ½ A ANNA.'

"2 as. 6 pies, bright blue, value in words at top. 'India Postage' at bottom, both in straight labels, the bottom being in this line 'INDIA 2 A 6 PS POSTAGE.'

"6 annas, olive-bistre. Columns at each side of head, with conventional ornaments. In curved label at top, 'INDIA POSTAGE.' At bottom, in straight tablet, value in words, and value in each lower corner in figures, 6^{AS}.

"The 3 pies, ½ and 1 anna of this issue have appeared with the Service overprint in small block letters in black, measuring 13mm."

We accordingly chronicle:—
Georgian Issue.
 3 pies, slate-grey.
 ½ anna, green.
 2 as. 6 pies, bright blue.
 6 annas, olive-bistre.

To be issued.
Official. Overprint in small block letters.
 3 pies, slate-grey.
 ½ anna, green.
 1 anna, carmine.

To be issued (or issued?).
 We also illustrate the special Durbar postmark.

The stamps of all letters posted at the Durbar Post Office were cancelled with this mark.

LIECHTENSTEIN (632, 635 D 646).—Just after closing our editorial columns last week we received a set of the new stamps on a letter, postmarked Vaduz 29.1.12, sent us through the kindness of Mr. A. D. Jenny. The following day we also received a large supply in entire sheets from Vienna, bearing postmark of the same date.

With portrait of the ruling Prince. Inscribed "K.k. Oesterr. Post im Fürstentum Liechtenstein" (Royal Austrian Post in the Principality of Liechtenstein).
 5 heller, green.
 10 " rose.
 25 " blue.

Issued 29.1.12. Judging from the inscription on the stamps, the stamps are not Liechtenstein stamps but merely a local issue of the Austrian

post, possessing, however, international franking power.

NICARAGUA (645 I 646).—The *London Philatelist* (1.12/16) gives a more extended list of the surcharged railway stamps.

These eleven official stamps have not yet been recorded by us. The 10c. with surcharges i. and v. is the one which we reported last week with the word "oficial" barred out for use as a postage stamp.

The above list is not a complete list of all the surcharged railway stamps issued to date, as they were preceded in August by a set of four stamps which we chronicled in *E.W.S.N.* No. 626, viz., 2c. on 2c. blue, 5c. on 2c. blue, 10c. on 2c. blue, 15c. on 1c. red. These are the four stamps, the entire sheets of 20 of which were so much illustrated in the philatelic press. There was also the famous 2c. blue surcharged 5c. on the back instead of the front, issued in November and chronicled in *E.W.S.N.* No. 645.

NIUE (294 C 646).—The official communication published this week under Aitutaki reads curiously in the light of the following chronicle, but it is probable that the latter was produced three or four weeks after the letter was written and was not unlikely decided upon hurriedly in consequence of an unexpectedly large requisition for ½d. stamps.

Surcharged in red on New Zealand ½d. Edwardian stamps; new setting of the overprint without the spaced "U E" variety.

½d. green.
 Issued 31.12.11 or earlier.

NORTH BORNEO (615 L 646).—*Stanley Gibbons Monthly Journal* lists some new postage due stamps.

Issued some time before 1912.

PARAGUAY (634 Y 646).—We illustrate the Centenary issue chronicled in *E.W.S.N.*, No. 634.

PORTUGAL (643 L 646).—Four more values of the "Madeira" set have been issued.

 1000 on 10 reis, dull purple.

Issued at Lisbon, 18.1.12 or earlier. The 25, 50, 75 and 80 reis have already been chronicled.

The *Stamp Collectors' Fortnightly* (3.2.12/219) states that only 35,000 2½ reis and 55,000 15 reis were issued, and that the former were bought up immediately, whilst the latter lasted only four days.

Mr. J. N. Marsden writes to the *Postage Stamp* (3.2.12/220):—"The 2½, 15, and 100 reis of Madeira were issued on the 13th, although there were still plenty of the same values of Portugal unsold. There was a great scramble among the dealers for the 2½ reis Madeira,—£20 would have bought all—and they were divided *pro rata* among those who had previously applied for them. Not one was sold to the public in the usual way; they were sold and divided in a room to which the general public had no access.

"Of the Dom Manoel issue overprinted 'Republica' the 5, 25 and 50 are being re-issued, the gum being much whiter than before and the paper thinner and of a slightly different texture.

"The coinage is to be changed to centavos and escudos—the centavo representing 10 reis and the escudo 1,000 reis. The colours will be the same as the corresponding values now in use, with the exception of a new value—15 centavos—and the 50 centavos and 1 escudo, which are not yet fixed."

SOMALILAND (637 O 646).—The 12 annas on chalky paper, the first supply of which was exhausted almost immediately upon issue, has been reprinted. The second printing, which reaches us under date of Berbera, 12.1.12, is in a slightly darker shade.

SPANISH P.O., MOROCCO (539 D 646).—The following is reported by the *London Philatelist* (1.12/17).

Overprinted Marruecos Correos as usual, in blue. 10c. rosc.

Notes.

Mr. Charles J. Phillips announces in the January *Monthly Journal* the sale of the American branch of his firm, which will, however, continue to trade under the name of "Stanley Gibbons, Ltd." The sale includes the stock on hand, valued at £47,000.

Champion's Bulletin draws attention to the rarity of the 25c. Bengasi issued on 10th October last. A new price list just circulated by Mr. A. Pulcini, of Rome, quotes it unused at 10 lire (8/-). All subscribers to Ewen's New Issue Service received it at 3d.!

The stamps of Tripoli and Bengasi are to be discontinued and will not be reprinted. All the Italian Post Offices in Turkey have been closed and the surcharged stamps are now unobtainable and likely to become rare. We received a good offer this week from a continental dealer for our entire stock and sold it, as our readers have had plenty of opportunities of getting the stamps from us.

Mr. Ewen is now convalescent, having been ill since Christmas with influenza, pleurisy and pneumonia. Arrears of correspondence, etc., are almost all cleared off.

Books Received.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (646 T 647).—Under date of 11.2.12 Mr. C. F. Dendy Marshall reports the 5d. printed from a new plate with broken instead of continuous purple lines. We obtained a sheet on the following day at Anerley Road Post Office and find it in a distinctly paler shade of purple, and there is now an "11" cut to each pane. In the 5d. just superseded only the lower pane had a cut. The blue portion of the stamp is still printed from the old plate of the Victorian Era, the horizontal border lines of which are placed too low to fit properly the Edwardian head plates.

The new policy of Somerset House with regard to "11" cuts seems to be to provide each half of the sheet with one.

The sheets of 1½d., 2d., 6d. and 10/- still have a cut on the lower pane only, but the 5d., 9d., 10d., 1/-, 2/6 and £1 have a cut on each half. A "half-sheet" in each case possesses 120 Crown or 56 Anchor watermarks, but in the case of the 9d. and 10d., 40 and 24 stamps respectively are replaced by lined blocks and each £1 stamp covers three Crown watermarks.

In the case of the new 5d. just reported the "11" cut is different in shape on each half.

The "12" cut. Mr. C. F. Dendy Marshall is the first to report this to us. On 11.2.12 he writes that he has seen a sheet of 1½d. printed from new plates. The head plate has the "11" cut under the 12th instead of the 11th stamp in the row, whilst the duty plate is entirely new, with lines (which print in green) cut opposite each stamp.

The cuts we have seen in the B control stamps are now as follows:—

½d. B11	5, 8, 10, 11, 12.
½d. B12	5, 8, 11.
1d. B11	7, 9, 10, 11, 12.
1d. B12	10, 11, 12.

There is quite a family likeness in the four series of numbers and from the fact that the higher numbers were received first, it may be that the numbers are intended to be read from the plate and not from the printed sheet, in which case we should have:—

½d. B11	Plates (?)	1, 2, 3, 5, 8.
½d. B12	"	2, 5, 8.
1d. B11	"	1, 2, 3, 4, 6.
1d. B12	"	1, 2, 3.

When the authorities reach the end stamp of the row, will they curl round the corner and go up the side of the sheet or have a supplementary mark signifying "2nd series"? Our readers may find it of interest to watch developments. There are few of us who do not handle ½d. and 1d. stamps.

The 2/6 is reported by Mr. T. R. Carr with a cut nearly under the right hand corner of the last stamp but one. We have not yet succeeded in finding it ourself. This must be somewhere about the 5th plate of this value, whereas we should have thought that in this short time one pair of plates could not have worn out. In an early number we will give a revised list of the cuts.

Messrs. Charles Nissen & Co. have shown us a remarkable novelty, the 1d. with control "B. 11" with stop, presumably a new Somerset House printing.

ANTARCTIC EXPEDITIONS (433 C 647).—Collectors who wrote to the Postmaster, Victoria Land, for specimens of the surcharged stamps, all had their letters returned last week by the Christchurch agent of the Expedition, on the ground that the supply of stamps printed was too limited. The same quantity was printed as before, 24,000, and this seems a very liberal supply to frank the correspondence of the members of the Expedition.

Mr. Fred. J. Melville writes in the *Daily Telegraph* (8.2.12):—

"If the stamp which comes to us with the

vignette of the whaling ship Deutschland, and the superscription 'Deutsche Südpolar Expedition,' be a bona-fide issue of the German Antarctic Expedition, and duly authorised by the German authorities, it will be no unwelcome issue to those collectors who like their albums to reflect the history of their own times. The stamp appears to be different in character from those of the two British Antarctic Expeditions of recent times. It is different in that it is a stamp specially designed for the occasion, and different also in that it is philatelically considered a 'speculative' issue, being conceived with the avowed object of obtaining a portion of the funds for the expenses of the exhibition. A postcard, said to have been franked by such a stamp, has reached the journal *La Prensa*, of Buenos Aires, from which port the German expedition set sail."

AUSTRIA (622 C 647).—*Colour-changing.*—Mr. Ashby sends us two 60 heller "carmine" Austrian stamps of the ordinary Jubilee issue, which had been left in very hot water for about an hour. The colour has uniformly changed to a rich purple, leaving the paper still white. Collectors who have "the rare 60h. purple" of this issue may like to know its origin. One specimen is postmarked Prague, 23.9.09; we mentioned this as the ink may not have been the same for every printing.

CANADA (646 B 647).—The remaining value of the Georgian set is to hand, and completes a very handsome series.

Georgian Issuc.
50c. black-brown.

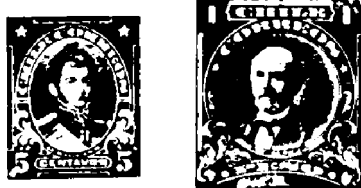

Issued at Ottawa, 29.1.12 or earlier. The plate-number of our sheets is "1" and the margin also has "PO 88."

Plate-numbers of Edwardian issue.—We are informed of four new marginal plate-numbers by Mr. O. Marsh. The list of plate-numbers reported to us now stands as follows:—

<i>Edwardian Issuc. Plate-Numbers.</i>	
1c.	1 to 10, 13, 14, 18, 19, 22, 24, 25, 29, 32, 34, 35, 42, 43, 47, 48, 50, 51, 52, 55, 56, 58, 59, 61 to 65, 71, 72.
2c.	1 to 30, 35 to 40, 47, 53 to 59, 62 to 64, 67 to 74, 77 to 86.
5c.	1, 2.
10c.	1, 2.
7c., 20c., 50c.,	each 1.
Imperforate 2c.,	13, 14.

A possible explanation of some of the omissions might be that they were special plates for stamp booklets.

CHILE (640 W 647).—We illustrate five values of the Presidential series chronicled in *E.W.S.N.* No. 633.

DENMARK (637 T 647).—The following new shade is reported in the *Berliner Briefmarken Zeitung* (28.1.12/40):—

New Shade.
20 öre, ultramarine instead of dark blue.

DUTTIA (644 B 647).—A new supply of 1, 2 and 4 annas stamps was received at the State Treasury about 12.1.12. They are printed in sheets of 16, 2 rows of 8, as usual, and approximate to Gibbons No. 23, 26 and 27. They appear to be from the same plates as the preceding printing, but in the 1 anna the two rows of stamps

are transposed. Major Evans informs us that a few old 2 and 4 annas which our representative obtained at the Duttia Post Office at the same time as the new printing are from the same plate as sheets he obtained in June 1906 and 1899 respectively, so that Duttia is evidently as conservative in stamp matters as most other Indian native states.

Our correspondent also writes:—"As far as I can see the printers keep the 1a. clichés in two separate horizontal rows; the last but one of the stamps in the lower row of an old block has a flaw in the bottom line of the frame and the last stamp has the same line bent up a little at right. I find these always at the end of a row, but it is sometimes the top one. In the new setting the rows are rather wider apart than usual; I have a sheet, with the rows the same width apart, but with the two rows transposed. The same thing happens with the 2a. There is a stamp, the third from the left in one row, with a flaw in the lower line; it is sometimes in the top row and sometimes in the bottom one."

ECUADOR (Y 647).—We illustrate four values of the new set.

GUATEMALA (641 J 647).—*L'Echo de la Timbrologie* (31.1.12/50) chronicles the following:—

Granados stamp surcharged.
"1c. 1911" on 6c. bistre and black.

HONDURAS (645 B 647).—As anticipated, we soon have an addition to our list of perforation varieties, the 2c. perf. 12 reaching us under postmark of 14.12.11. It had already been reported with "Oficial". The varieties of the current type now known are:—

PERFORATION VARIETIES KNOWN.

THE WEEK'S NEWS.

(Continued from page 2753.)

NEW HEBRIDES (644 O 647).—We now illustrate the new design with value in British currency and also reproduce for comparison the French design.

It will be noticed that the "G.R." and "R.F." change places and "Nouvelles Hébrides" becomes "New Hebrides."

NICARAGUA (646 J 647).—The "permanent" Waterlow-printed issue chronicled a fortnight ago as issued on 1.1.12, has already been followed by the first value of the second Waterlow-printed issue, issued on 22.1.12. Nicaragua evidently believes in doing things handsomely. Messrs. Waterlow's stamps are so minutely engraved that the plates must be rather expensive, let alone the cost of careful printing, that two sets in one month seems the acme of postal indulgence, but it is explained that the second set, though it bears no special indication, is intended for the Atlantic Coast, where silver instead of paper money is in force.

We describe the new set, and for comparison reproduce our chronicle of the first set again, to which, by the way, the first of additional values is just to hand.

1st January, 1912. Waterlow Print. Allegorical Figure standing in centre.

- 1c. green
- 2c. rose
- 4c. brown-purple
- 6c. blue, centre black
- 10c. red-brown
- 25c. green, centre black

10th January, 1912. Waterlow print. Design resembling the first issue of Nicaragua.

- 25c. green, centre brown.

To be issued.

- 3, 15, 20c., \$1, 2, 5.

The old stamps may be exchanged for new up to 31.3.12, and will then, presumably, be demonetized.

22nd January, 1912. Waterlow print. Locomotive (American type).

- 1c. green
- 2c. rose
- 3c. brown
- 4c. deep rose
- 5c. blue
- 10c. _____?
- 35c. _____?

Doubtless other values will be issued in due course. We have seen the 2c. postmarked 24.1.12 and it bears no overprint nor is there any indication in the inscription that it is a special issue for Bluefields.

NICARAGUA, BLUEFIELDS (638 G 647).—There are also some more provisionals for this province. Before describing them it may be as well to recapitulate the similar varieties already recorded for Nicaragua, but without the small capital "B" overprint.

VALE
10 cts
POSTAL B
de 1911

The record as taken from *E.W.S.N.* is as follows:—

X 611. The above fiscal stamps (originally issued in 1904) are reported surcharged "Correos 1911" and new values:—2c. on \$5, 5c. on \$10, 10c. on 25c., 35c. on \$1.

Y 617. Addition to above set, 10c. on \$2.

Z 622. Addition to above set, 5c. on \$2. It is reported the following further quantities are to be surcharged.

25c.	24,237	\$ 5	13,442
50c.	54,448	\$10	9,976
\$1	11,467	\$25	6,498
\$2	6,902	\$50	6,242

and that they will be converted into 66,591 each 5c. and 10c. stamps, of which 15,000 each will be further overprinted for Bluefields. The former are sold for paper, the latter for silver.

Later.—The "Correos" surcharges are now finished and "Vale—Postal—1911" takes their place:—5c. on 50c.; 5c. on \$5; 5c. on \$50; 10c. on 50c. Issued 1.8.11 or earlier. These are the ones illustrated above.

A 624. Illustrations of the two fiscal types, 1899 and 1904.

B 626. Description of the original fiscal issues. Railway stamps surcharged on back:—2c. on 5c. on 2c.; 5c. on 5c. on 2c.; 10c. on 5c. on 2c.; 15c. on 10c. on 1c.

C 628. Reason of stamp dearth; new permanent issue expected.

D 632. The *Bulletin Mensuel* (25.10.11/18) and other papers give illustrations of entire sheets of 20 of the stamps chronicled in *E.W.S.N.* 626.

E 635. Railway stamps surcharged on face:—2c. in black on 10c. on 1c.; 20c. on —?; 50c. on —?.

F 638. Two additions to the set chronicled in *E.W.S.N.* 622, but overprinted B as shown in our illustration above:—5c. on \$10; 10c. on \$25.

G 642. Another railway stamp, 2c. in blue on 10c. on 1c.

H 645. The 5c. on 5c. on 2c. chronicled in *E.W.S.N.* 626 found with inverted overprint at back. New railway surcharge, 10c. on 10c. on 1c.

The new varieties which we have to chronicle to-day resemble those described in *E.W.S.N.* 622 and 638 but are surcharged additionally "1904" in black capitals at the top, apparently an overprint dating from the first issue of this type of fiscal stamp. We also have a sheet of 25 of the 10c. on \$25 chronicled in *E.W.S.N.* 638 and is without the "1904" but otherwise the setting of the overprints is the same for all three stamps.

Surcharged on 1904 fiscal stamps already overprinted "1904", approximately as illustrated above.

"VALE 10 cts.—POSTAL B—de 1911." In black on \$2 grey and black.

" " \$50 vermilion and black.

The varieties are as follows (sheets 5 rows of 5).

- Nos. 4, 11, 13, 14, 15, 17, 18, 20, 25, small stop after "cts." and No. 24, large square stop.
- No. 13. The "0" of "10" is defective and sometimes fails to print altogether.
- No. 16. Upright block "C" in "cts."
- No. 18. Black blot between "OS" of "Postal."
- No. 25. The "11" of "1911" has dropped.

The partial resemblance of this setting to that of the "Correos 1911" overprinted described in *E.W.S.N.* No. 622 may be remarked upon, the varieties on Nos. 16 and 24 being precisely the same and in the same positions.

PORTUGUESE AZORES (639 Q 647).—

The 2½ reis of Vasco da Gama recently surcharged being already exhausted, *L'Echo de la Timbrologie* (31.1.12/47) states that the Portuguese Government authorised on 5.1.12 the circulation of 5 reis stamps cut diagonally in two, to be used only for postage of newspapers.

Cut diagonally in two.

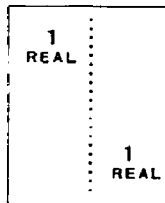

5 reis black, Dom Manoel, surcharged "Republica."

5 reis Vasco da Gama, surch. "Republica."

These can of course only be recognized when "on piece" showing postmark.

PORTUGUESE INDIA (630 Y 647).—We

have a third 1 real provisional, similar to the second (chronicled in *E.W.S.N.* No. 639) but without "Republica".

2 reis, yellow and black, perforated vertically down the centre. Sheets of 28 stamps, each bisected. The 1st stamp on the sheet has large L in "Real" as in the 2nd provisional.

Issued at Goa, about 6.1.12.

SOLOMON ISLANDS (640 A 647).—After all there may be changes from this part of the world, as there is talk of a new issue with portrait of King George. So a correspondent tells us, under date of 4.2.12.

STRAITS SETTLEMENTS (632 G 647).

—Once again the 4c. stamp is changed! The *London Philatelist* (1.12/14) reports it in its old colour of dull lilac, but on chalky paper.

Chalky instead of ordinary paper; wmk. multiple Crown CA. 4c dull lilac.

UNITED STATES (640 F 647).—Correction.—The Director of the Bureau of Engraving and Printing informs the *Philatelic Gazette* (15.1.12/169)

that there has only been one printing of the 50c. and \$1 Postal Savings Stamps—3000 sheets of 50c. and 2,820 sheets of \$1, all on the double-lined watermarked paper. Our chronicle of these two stamps with single-lined watermarked *E.W.S.N.* No. 640, on the authority of an American dealer, must therefore be deleted.

VICTORIA (645 A 647).—Under date of 3.1.12 our Melbourne correspondent reports the issue of the following:—

Issue inscribed "Postage."

With sideways instead of upright watermark. 5/- carmine and blue, perf. 12½.

The values previously reported with Crown A sideways are the ½d. 1d. £1 and £2, all four being known either perf. 12½ or perf. 11.

Notes.

There was a misprint in our notes last week. We wrote that "the American firm would continue to trade under the title of 'Stanley Gibbons, Inc.'" but our printers made this into "Stanley Gibbons, Ltd." The mistake was, we think, obvious, as Messrs. Stanley Gibbons' American House, having always (so far as we recall) traded under the former title, could not "continue" to use another.

* * *

The *Westminster Gazette* states that a French antiquary is trying to rob England of one of its glories by the announcement of a discovery that postage stamps were a French invention of the seventeenth century. He quotes the following notice, which was posted on the walls of Paris in 1653:—"Persons who wish to send messages from one quarter of Paris to another may rest assured that their letters will be safely and speedily delivered if they are careful to affix to them tickets inscribed 'carriage paid.'" Such tickets, it was added, might be procured at a charge of one sou each at the Law Courts, or from the doorkeepers of Colleges and Brotherhoods. It was also possible, it appears, to prepay a reply by affixing two tickets instead of one.

Forged Stamps: No Remedy.

AN AMAZING JUDGMENT!

(From the *Daily Telegraph*, 9.2.12.)

Mr. Edward Healey, stamp merchant, Wormwood Street, E.C., in the City of London Court, yesterday, claimed against Mr. W. R. Ollis, 32, Ashley Road, Burton-on-Trent, the return of £7 10s., which he had paid for four penny Tasmanian stamps and a pair of 2d. Victorian stamps bought of him.

Mr. J. M. Myers, instructed by Mr. Harry Myers, appeared for the plaintiff, and Mr. Horace Fenton for the defendant.

Plaintiff said he advertised in the "Exchange and Mart" as a buyer of foreign stamps, and defendant wrote and said, "I have some Tasmanians, penny blue first issue Van Dieman's Land, with good margins, and would like to have your best cash offer for same and other Colonials." He sent his traveller for them, and after a few days he bought them for £7 10s. which he paid. Then other stamps were offered of the same kind from the neighbourhood. As they were very rare, he became suspicious, and upon investigation found that the defendant's stamps were forgeries. He, therefore, demanded the return of his money. He had handed the second lot of stamps to the Stamp Trade Protection Association, and they were prosecuting in the matter. Defendant had since admitted that the goods were forgeries. He did not suggest that the defendant knew it at the time of the sale. There were many forged stamps about and the trade wanted to trace their source.

Mr. Fenton urged that the plaintiff bought after inspection, and must abide by his bargain.

Judge Lumley Smith said he must find for the defendant with costs. Stamp sellers would have to put, as the great art dealers did in their catalogues, "Stamps of or attributed to Tasmania." The doctrine caveat emptor applied.

Mr. Myers asked leave to appeal, and said the case was of great importance to all stamp collectors. It was the general custom to return money paid for forged stamps.

Judge Lumley Smith declined, and said Mr. Myers had put his case extremely well.

[This case is a serious warning to collectors not to buy "bargains" from people they do not know.]

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

The second issue in each case has inverted watermark, which in the sideways watermark means "A" to left of Crown.

New Stamp Blocks.

HOW TO ILLUSTRATE STAMP PUBLICATIONS CHEAPLY.

We pay out hundreds of pounds for stamp blocks, many of which are used only once and then lie idle for years. We feel sure these blocks would be of great use to other philatelic publishers and our printers, Messrs. Pardy & Son, The Triangle, Bournemouth, are authorized to use any of our stamp blocks to illustrate publications printed by them at a small charge per block, and the cost of printing an illustrated stamp catalogue is thus reduced to a minimum.

It is necessary for any intending publisher of an illustrated stamp catalogue or journal to write to the secretary, the Board of Inland Revenue, Somerset House, London, W.C., asking for permission to illustrate it.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (647 U 648).—Mr. A. G. Galloway sends us a copy of the following interesting letter which he has received from the Board of Inland Revenue. He omits to give the date of it, but the date would be between 6.2.12 and 13.2.12.

"Somerset House.
"SIR,—In reply to your letter of the 5th inst., I am directed by the Board of Inland Revenue to state with regard to the

½d. and 1d. stamps (King Edward)
½d. and 1d. " (King George)

of the '1st Type' by which it is understood that you allude to those printed from the plates first used, there will be no issue of these stamps under the control mark 'A 12' and it is very improbable that they will be issued under any other control mark than 'A 11'.

"With regard to ½d. and 1d. stamps (King George) of the 're-engraved' type, by which it is understood you allude to those printed from the plates now in use, the control mark on sheets of stamps from these plates is either B 11 or B 12 according to the year of printing.

"I am, etc.

[Signed] F. ATTERBURY,
Secretary."

It seems clear therefore that all the probable control varieties in the A and B series are already known to collectors, viz.:

Printed at Somerset House.

1d. (King George, die i.) A.11
1d. (" die ii.) B.11

Printed by Messrs. Harrison & Sons.

½d. (King Edward, p. 14) A 11 (wide)
½d. (" p. 15×14) " "
½d. (King George, die i.) A 11 (wide or close)
½d. (" die ii.) B 11 or B 12
1d. (King Edward, p. 14) A 11 (wide or close)
1d. (" p. 15×14) A 11 (close)
1d. (King George, die i.) A 11 (wide or close)
1d. (" die ii.) B 11 or B 12

The two rare varieties in the above list are the 1d. B.11 (which may however be reissued) and the 1d. Edwardian perf. 14 with "close A 11."

ARGENTINE REPUBLIC (646 V 648).—The following stationery is reported by the *Revista de la Sociedad Filatélica Argentina* (12.11/207).

Envelope. Stamp of Labourer type.

5c. rose (sold at 6c.).
12c. blue (sold at 13c.).

Postcard.

5c. rose on cream.

Wrappers.

½c. rose on cream.
1c. blue " "
2c. chocolate " "
4c. green " "

There is, we believe, also a 5c. letter-card, which we chronicled in E.W.S.N. No. 644. The *Philatelisten Zeitung* (2.12/35) describes the above 5c. rose as a letter-card (as we did) but adds a 5c. blue on buff post card. On the other hand it gives no 12c. blue.

San Martins without watermark.—From the same source we learn of three other values having been found without watermark, so that our record of this issue is now as follows:—

San Martin Issue.

(31) Wmk. Sun, perf. 13½.
1, 2, 4, 5, 10, 12 (both), 15, 24, 30c., 1p.

(32) Wmk. Sun, perf. 13½×12½.
½, 1, 2, 3, 4, 5, 6, 10, 12 (blue), 20, 24, 30, 50c.

(33) Variety from edge of sheet, no wmk.
½, 1, 2, 4, 5, 20, 24, 50c., 1p.

The 15c. and 1p. have never been reported with the later perforation.

AUSTRALIA (645 H 648).—Under date of 16.1.12 our Melbourne correspondent reports that the letter-cards have appeared in two new colours—buff and yellow—but as he unfortunately omitted to enclose samples, we cannot add to this description.

We quote from the *Melbourne Age*, 11.1.12.
"Some time ago Mr. Blamire Young, a Victorian artist, submitted to the Postal department, at its request, a set of designs for an Australian penny stamp. The Postmaster-General is now having these designs reduced by photographic process, and when this is done he hopes to be in a position to decide the matter. His ideas on the subject may be gauged from the remark made by him yesterday that 'if a picturesque stamp can be provided, in which an outline of Australia is a feature, I am certainly favourably inclined to it.' Mr. Young's pictures were in such form as to be tested separately with the outline of Australia enclosing them."

BECHUANALAND (634 O 648).—The 1d. Edwardian stamp is reported by *Oswald Marsh's Weekly Circular* (10.1.12/753) with control letter I10. The control letters now known are:—

½d. dark green. B.
½d. yellow-green. E6, F6.
1d. scarlet. D4, D5, E6, F6, H8, I10.

BERMUDA (646 L 648).—The following have been issued.

Postcard.

½d. green.

Wrapper.

½d. brown.

The wrapper was issued 31.1.12 or earlier. The postcard is chronicled on the authority of the *Schweizer Briefmarken Zeitung* (2.12/33).

BHOR (A 648).—We quote from the *Philatelic Journal of India* (1.12/2):—

"In Gibbons' Catalogue there is a note to the effect that the stamps of Bhor are believed to have been obsolete for some years past. The appearance of the new stamps of this State, bearing the head of the Ruler, caused us to make enquiries, and we give our members the benefit of our investigations. It appears that the State has six post offices—one at the head-quarters of the State, and one at the head-quarters of each sub-division (Taluka). Daily communication between these post-offices is maintained by runners. This service exists for the purpose of carrying official correspondence on which no stamps are used. It is, however, also open to use by the public and letters so sent have to be stamped with State stamps. In practice the only letters which are thus sent stamped with State stamps are petitions to the Chief or State officials. Nobody in the Bhor State, who wants to send a letter which is not a petition to the Chief or a State official, ever thinks of using anything except the Imperial post. In these circumstances it is evidently a little difficult to say whether Bhor stamps can, strictly speaking, be said to be used postally or not; but considering the industry of the Indian petition writer we are inclined to think that the stamps deserve the benefit of the doubt."

BRITISH P.O., LEVANT (644 F 648).—We have received the following:—

Somerset House Print.

12 piastres on 2/6 purple (second shade).

Issued 13.2.12 or earlier.

In sheets of 1d. Georgian just received the lower half of the sheet is in each case overprinted

with "Levant" much more heavily than the upper half and gives the appearance of having a thicker surcharge.

BRUNEI (637 V 648).—From "specimen" copies, the *Schweizer Briefmarken Zeitung* furnishes the following description of some forthcoming new issues.

Unicoloured. Wmk. mult. Crown CA.

4c. claret.

5c. orange.

8c. ultramarine.

10c. violet on yellow.

To be issued.

CHILE (647 X 648).—*L'Annonce Timbrologique* (31.1.12/3302) learns that the 3c. and 15c. of the current issue have run out of issue and specimens are now quoted in Chili at a high premium.

The Government having failed to dispose of its remainders of the Centenary issue, is reported to have proceeded to their destruction.

CHINA (635 K 648).—We quote from the *Evening News*, 19.2.12:—

"PEKING, Monday.

"A manifesto has been issued announcing the adoption by China of the Western Calendar, 1912 being 'the First Year of the Republic.'

"Yuan Shi Kai has prepared a notification informing the Powers that he has been elected President, and requesting their recognition of the Republic. This is unlikely to be given before the appointment of a Cabinet.—Reuter."

The recognition of the Republic by the Powers may be followed by philatelic events of interest. The adoption of the Western Calendar is also a sign not to be ignored. Should China progress as Japan has done, we may see the numerous foreign post offices at the treaty ports closed and an efficient Chinese Post Office established. In the meantime, the Chinese stamps are certain to be changed and as they are printed in London, the first change will probably have to take the form of a locally-applied overprint.

CONGO (640 F 648).—The *Deutsche Briefmarken Zeitung* (15.2.12/37) chronicles the following new stationery.

Stamps of above design.

Postcards.

5c. green, 128×80mm.

5+5c. " 140×89mm.

10c. rose on blue, 129×81mm.

COSTA RICA (646 K 648).—The *Philatelic Journal of America* (1.12/257) gives a different version of the quantities of the recent 1c. provisionals issued. In E.W.S.N. we gave the following figures on the authority of *Champion's Bulletin*, but rather doubted their accuracy.

Champion.

1c. on 10c.	150,000	1c. on 5 col.	23,000
1c. on 50c.	45,000	1c. on 10 col.	22,000
1c. on 1 col.	45,000		

Philatelic Journal of America.

10c. ..	150,000.00	5 col. ..	23,000.00
50c. ..	45,000.00	10 col. ..	22,000.00
1 col. ..	45,000.00		

This looks more like being correct and gives the quantities of the provisionals as under:—

1c. on 10c.	1,500,000	1c. on 5 col.	4,600
1c. on 50c.	90,000	1c. on 10 col.	2,200
1c. on 10 col.	45,000

THE WEEK'S NEWS.

(Continued from page 2761.)

The three first are quoted in Germany at 1d. each and the two latter at 2/- each.

It is stated that "a million remainders" of the postage and telegraph stamps of the 1900-07 issues are to be offered at auction in 4.12. We really think surcharging them would be a less evil.

La Revue Postale (2.12/815) gives the number of 1c. on 25c., the later provisional, as 800,000.

The *Schweizer Briefmarken Zeitung* (2.12/34) reports a set of 2c. provisionals, made on the remainders of telegraph stamps, as in the case of the recent set of 1c. This new series was authorised by decree of 10.12.11.

Le Collectionneur de Timbres-poste adds yet another provisional.

Telegraph stamp, overprinted for postal use. 5c. on 5c. orange (633,220).

From the same source we learn that 806,176 1c. on 25c. were authorized and that the first value of the permanent set has appeared.

FANNING ISLAND (635 C 648).—A correspondent sends us the following cutting from the *New York World* (1.2.12).

"FANNING ISLAND BEING FORTIFIED BY BRITAIN.

It is not far from Palmyra Island, possession of which is disputed by Washington.

Honolulu, Feb. 1st.

"The steamer 'Makura' of the Canadian Australian line has been unloading guns for the fortification of Fanning Island.

"That island, about 1,100 miles south of Hawaii, is the principal one of a group and is the mid-Pacific station of the British cable. It is near Palmyra Island, the proposed acquisition of which by a British syndicate has recently aroused Americans on the Pacific and been echoed in Washington, where the British claim to Palmyra Island is disputed.

"According to the information brought here today by trading vessels, the fortifying of Fanning Island is being rushed by a large force in order to have the work completed by the time the Panama Canal is opened.

"Gov. Frear has communicated to Washington the fear of Hawaiians that Great Britain intended claiming the Palmyra group. To-day's developments indicate that the fear is about to be realized, for Fanning is within striking distance of Palmyra, and the fortifying of the island indicates that Great Britain means to extend its sphere of influence in the South Pacific."

FRENCH P.O., MOROCCO (646 A 648).—An additional value of the new set is reported by the *Illustriertes Briefmarken-Journal* (3.2.12/71).

With "Santim" in Arabic characters instead of "centimos".

3c. in blue on 3c. orange.

The sale of the postage due stamps has been stopped in Morocco, and they can only be obtained at the Colonial Office in Paris, where about 40% over face is asked!

GILBERT AND ELLICE ISLANDS (646 C 648).—We read in the *Australian Stamp Journal* (10.1.12/39):—

"A resident of Ocean Island who visited Sydney during the Christmas holidays, informed us that a new design has been approved of, bearing a portrait of King George, that stamps of the value of 5d., 6d., and 1/-, are in preparation and will most likely be issued within three or four months. There is a large stock of the Pandanus stamps ½d., 1d., 2d., and 2½d. values, and until they are sold out, there is no intention of their being superseded, if even then. [And they are not likely ever to be sold out, if stamp collectors are to be relied upon, so long as the postmaster makes his unprecedented claim to a 10% bonus.—Ed. E.W.S.N.]

"We are also informed that stamps obliterated with the black cancellation have passed through

the Post Office at Ocean Island (Head Quarters). Those obliterated with aniline ink have been posted at some of the outlying islands. In those cases where the stamps have been obliterated by horizontal pen strokes, they are the work of native postal officials who cannot write, and this kind of obliteration has been authorised and recognised as such.

"There is a feeling of uncertainty amongst some of the officials that they have not acted altogether as they should have done in connection with the issue of their stamps, and some of them are afraid that official enquiries may have disastrous results. There is certainly need for enquiry.

"We have also been informed on what appears to be the most reliable authority of all, that actually £800 worth of the first provisionals were received in the Protectorate."

GOLD COAST (635 K 648).—"Specimen" copies of the following have been seen by the *Schweizer Briefmarken-Zeitung* (2.12/34).

New Colours. Wmk. multiple Crown CA, chalky paper.

- 5/- green and red on yellow.
- 10/- dark green and red on light green.

To be issued.

HOLLAND (570 K 648).—The 5c. postage due is reported by *L'Echo de la Timbrologie* (15.2.12/99) unicoloured, instead of with value in black.

Unicoloured. Postage Due. 5c. blue, perf. 12½.

This country has found a more satisfactory way of getting over the "Niet bestellen op Zondag" or Sunday label difficulty. Instead of having a detachable label printed at the foot of each and every stamp issued in the kingdom, as in the case of Belgium, the *Postzegelnieuws* (2.12/352) relates that sheets of 50 gummed labels are being sold at the Post Offices for 1 cent (one-fifth of a penny). Each label is inscribed (no doubt bilingually) to the effect:—"Do not deliver on Sunday." The label is to be stuck on the letter close to the postage stamp. A variety has already been found, with small z in Zondag. The labels may also be used for parcels, money orders, etc.

HONGKONG (629 U 648).—Mr. A. H. Stamford reports the following new consignment letters.

- U 2c. 4c.
- V 20c.

The latter is rather a surprise as V was not expected to be issued in Hongkong till 2.12, and here it is already!

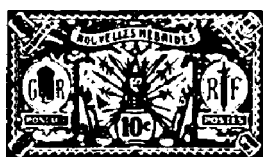

JAMAICA (637 G 648).—"Specimen" copies of the following have been seen by the *Schweizer Briefmarken-Zeitung* (2.12/35).

Portrait of King George.

3d. violet on yellow, wmk. mult. Crown CA.

JAPAN (638 X 648).—The *Illustriertes Briefmarken-Journal* reports that the 3 sen carmine of 1906 has been overprinted with two Chinese characters "Gundji," signifying War or Field Service. These surcharged stamps are said to have been issued since 1.12.10 to the troops (both Army and Naval) stationed in China and Corea. Only two specimens per month are given to each applicant and then only for use on his own correspondence.

NEW HEBRIDES (647 P 648).—The stock of the 5, 20 and 30 centimes of the oblong bi-national issue which was retained at Paris has become exhausted, states *L'Echangiste Universel* (2.12/3). It is stated that the next printing will be watermarked "R.F."

NICARAGUA (647 K 648).—Correction.—There were two misprints in our chronicle last week. We certainly wrote "35c. green, centre brown" but our printers made it 25c. and the "6c. blue, centre black" was a jumble for "5c. blue, centre black" and "6c. grey-brown."

PAPUA (639 Q 648).—Our remarks concerning the "Control-marks" on Papuan official stamps (see "Postmarks or Control Marks" in *E.W.S.N.* 635) seem to have been misunderstood in some quarters and our invitation to readers to

send us other dates than those we listed brought a good many dates earlier than 1911, which shows that correspondents could not have digested our remarks before they wrote.

Briefly, the history is this. The Papuan Postmaster imported an "OS" puncturing machine to Port Moresby and used to convert ordinary into official stamps as required from day to day. If collectors applied for them, they had to wait while they were made and postmarked, for the sale to the public unused was forbidden. We believe that during the first year that official stamps were in use a Parisian collector was the only person to discover that the authorities would sell their official stamps postmarked; certainly we were not aware of it and consequently missed getting the ½d., 1d., 2d. and 6d. with upright watermark, one reason why they are so scarce to-day. Later we constantly had large supplies, our last being despatched on 11th October 1910. This supply included 300 sets of the rare issue of August 1910 ("large Papua"), probably the first and last to be supplied, as the same mail brought us a notification that in consequence of Lord Crewe's Circular, no more official stamps would be supplied to the public, either used or unused. The supply under old conditions, by which stamps were postmarked at the time of sale, ceased therefore on or about 11th October, 1910.

Under date of 22nd August, 1911, the Papuan Postmaster circularized the philatelic world announcing that official stamps would be supplied again and postmarked, as in the past. And he proceeded at once to create a large stock, spending a fortnight over the work and cancelling each day's work with the day's postmark, so that first applicants only received stamps postmarked or control-marked between Monday 21.8.11 and Wednesday 6.9.11. The postmark, being apposed on the stamps before they were ordered (and as matters have turned out, in some cases months before they were sold), can only be considered as a control mark, and the intelligent specialist of Papuan stamps cannot get away from the fact.

Our latest supply of official stamps, despatched from Port Moresby on 14.12.11, still brings all values bearing the postmarks of the original creation (3 to 4 months before). But as we also have three values with a new date, we may assume the stock has now run out in these cases.

The list of control date-marks we have now met with is as follows:—

FIRST CREATION.

Bi-coloured, wmk. sideways.

- 2½d. perf. 11, issue 5. 22.8.11, 24.8.11, 25.8.11.
- .. issue 6. 22.8.11, 24.8.11, 26.8.11.
- 2½d. perf. 12½, issue 7. 25.8.11.
- .. issue 8. 25.8.11.

NOTE.—It is believed the entire remainders of this stamp (both perforations) were used up for this "OS" creation.

Bi-coloured, wmk. upright ("Large Papua.")

- 4d. perf. 12½, issue 13. 28.8.11.
- .. issue 14. 28.8.11.
- 6d. perf. 12½, issue 13. 28.8.11, 29.8.11.
- .. issue 14. 28.8.11.
- 1/- perf. 12½, issue 13. 21.8.11.
- .. issue 14. 21.8.11.
- 2/6 perf. 12½, issue 13. 23.8.11 (thick bar).
- .. issue 14. 23.8.11 (").

Unicoloured.

- ½d. green, issue 28. 5.9.11, 6.9.11.
- 1d. rosine, issue 28. 5.9.11.
- 2d. mauve, issue 28. 5.9.11, 6.9.11.

SECOND CREATION.

Bicoloured, wmk. upright ("Large Papua").

- 2½d. violet-blue, issue 13. 5.10.11.
- .. issue 14. 5.10.11.

NOTE.—This was a very limited creation to exhaust the small remaining stock of the bicoloured 2½d., the unicoloured 2½d. and 6d. having been issued 12.9.11 or earlier. It is now exhausted.

THIRD CREATION.

Unicoloured.

- ½d. green, issue 28. 13.12.11.
- 2½d. blue " 13.12.11.
- 6d. bistre " 13.12.11.

This new supply probably indicates that the older stocks of these three values are now finished. So far as we know, no ½d., 1d. or 2d. of the August 1910 were converted to OS under the above creations and very few 2½d., so that these four values of the set will be scarce. The 2d. may have been used fairly largely for postage, but we should think very few ½d., 1d. and 2½d. were.

PATIALA (635 T 648).—*L'Echangiste Universel* (2.12/4) reports the following as issued at last:—

"Postage and Revenue."

- ½ anna.
- 1 anna.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

THE WEEK'S NEWS.

(Continued from page 2763.)

PORTUGAL (646 M 648).—The *Schweizer Briefmarken Zeitung* (11.11/217) states that the quantities of the Vasco da Gama—Republica reprints were:—

5 reis (?)	4,500,000
10 reis	2,600,000
20 "	70,000
200 "	60,000

Just as we go to press we receive the first value of the permanent set, with values in centavos.

Allegorical Figure on solid ground.
1c. green, no wmk., perf. 15x14.

Issued 16.2.12 or earlier. The face value of 1c. is a halfpenny.

PORTUGUESE INDIA (647 Z 648).—We read in the *Philatelic Journal of India* that about 98,000 2 reis "Republica" were perforated vertically and surcharged 1 real. This was the provisional we chronicled in *E.W.S.N.* 639 and it was issued about the first week in 11.11. Special precautions were taken to restrict its use and sale to newspapers, and each manager of a newspaper only received a supply equal to the number of its subscribers.

Although the complete sets of Dom Carlos postage and postage due stamps surcharged Republica have been placed on sale at the Mint in Lisbon, Mr. Godinho writes in our Indian contemporary (1.12/4) that only the 1, 1½, 2, 3, 4½, 6 reis, 1 and 2 tangas have been issued at Goa. The 2½ and 9 reis, 4, 5, 8, 12 tangas, 1 and 2 rupees have not been seen there, and this notwithstanding that the stock of unsurcharged 2, 2½, 5 and 12 tangas is now exhausted. The only postage due stamps in use are the unsurcharged ones, of which there is still a large stock.

PORTUGUESE TIMOR (638 D 648).—The following stationery is reported by the *Schweizer Briefmarken-Zeitung* (2.12/37).

Overprinted "Republica".

RUSSIA (644 U 648).—The following is chronicled by the *Berliner Briefmarken-Zeitung* (10.2.12/64).

Current design.
5 kop. brown-violet.

ST. HELENA (636 A 648).—We are officially informed that the 1d. pictorial, all rose, are not to be issued "because printed in the wrong colour." The St. Helena postmaster is, we think, wrong in his opinion. St. Helena, being a constituent of the Universal Postal Union, is under an obligation to print all its 1d. stamps in rose or red.

SERVIA (645 Z 648).—According to *La Revue Postale* (2.12/815) only the following quantities of newspaper stamps have yet been printed.

1 to 25 para	12,000.
30 para to 5 dinar	4,500.

The *Deutsche Briefmarken-Zeitung* (15.2.12/41) describes a sheet of 50 20 para yellow (5 rows of 10) newspaper stamps of the new issue, which contains an interesting error. The 27th stamp has the value "50" instead of "20" in each corner.

If a trade circular issued by Mr. M. J. Ilitsch, of Belgrade, is to be believed, the newspaper stamp issue was little better than a swindle. According to him 12,000 sets 1 to 25 para and 4,500 sets 30 para to 5 dinar were printed and the plate then destroyed. The stamps were placed on sale at the Post Office on 14.12.11 in sets only and the stock is said to have been bought up by local speculators, who are prepared to supply them at 100% premium either unused or on a letter addressed to the purchaser! The wholesale quotation before us is 16/- per 10 for the short sets and £9 per 10 for the complete sets.

The *Internationale Zeitung* (1.2.12/13) states that Servia is to have a new issue and the stamps will be adorned with views of the principal Servian towns.

SOLOMON ISLANDS (647 B 648).—We read in the *Australian Stamp Journal* (10.1.12/38):—"Mr. F. J. Barnett, Chief Postmaster of the Solomons, who paid us a visit during the Christmas holidays, acquainted us that a new series of stamps with the portrait of King George, was now in preparation, and would be issued in due course. When spoken to regarding some 'proofs' which have recently come on the market, he expressed his astonishment, and said he knew nothing about them. We may have something more to say on this subject later on. He further expressed his surprise at the reduction in the prices of the first issue in the new Gibbons' catalogue, more especially of the 5d., 6d., and 1/- denominations. He gave us the exact figures of the numbers issued of all the denominations, which we give below; but we think this has already appeared in print. He informed us that no one on the Islands had any 'up their sleeve,' and that all had been disposed of in the ordinary way of business at face value, neither more nor less.

SOUTHERN NIGERIA (634 X 648).—We quote from the *Daily Mail*, 14.2.12.

ALL NIGERIA ONE PROVINCE.

"The King has approved the appointment of Sir Walter Egerton, Governor of Southern Nigeria, to be Governor of British Guiana in succession to Sir Frederic Hodgson, retired.

"Advantage will be taken of this opportunity for giving effect to the policy for amalgamating the Governments of Southern and Northern Nigeria. It is intended that Sir Frederic Lugard, Governor of Hong-kong, shall be Governor of both Southern and Northern Nigeria."

Does this mean that the separate stamps of "Southern" and "Northern" Nigeria will be withdrawn and that a new "all Nigeria" issue will take their place? There have been a good many changes already in this part of the world; in quite recent times, the Oil Rivers and Niger Coast Protectorates and Lagos have ceased to be (in name).

UNITED STATES OF AMERICA (647 G 648).—The *Philadelphia Stamp News* (27.1.12/483) reports the issue of the first value of the 1912 series.

Series of 1912. Portrait of Benjamin Franklin.
10c. deep orange, perf. 12, wmk. U.S.P.S., single-lined.

Issued 20.1.12? *Mekeel's Weekly Stamp News* (3.2.12/42) quotes an official statement to the effect that the new stamps would be issued on 1.2.12. Was the above an advance copy? On the other hand, "specimen" copies of the 10c. have already been distributed (and this value only).

Mekeel's also reports a new 1c. reply-card.

GREAT BRITAIN (†)

Railway Postage Stamps.

The Editor has just finished sorting the whole of his duplicates according to printings. There are 128 standard varieties listed in our Reference List, but by collecting printings these can be extended to about 800. The Editor has over 500 of these amongst his duplicates and offers them at the all round rate of 1/- per stamp nicely arranged in a collection on 56 large sheets with manuscript notes. Some are used, and a few of the rarer varieties are included. The Editor would be very glad to exchange with other collectors, and is mainly short of common recent varieties.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (648 V 649).—We quote the *Daily Telegraph* report of parliamentary proceedings (19.2.12):—

“HOUSE OF COMMONS.

“Postage Stamps.—A New Design.

“Mr. King (R) asked the Secretary to the Treasury what was the reason for the delay in issuing the new postage stamp of a higher value than one penny, and whether he could give an approximate date for their appearance.

“Mr. Masterman: Owing to the preparation of a new effigy of the King, which it is proposed to substitute for that at present in use, it has not yet been possible to place on sale George V. postage stamps of a higher denomination than one penny, but it is hoped that the issue will begin in a few weeks. (Hear, hear.)”

Control Letters.—Commander E. L. Booty has shown us the 1d. Georgian, perf. 15×14, Control letter “A 11”, narrow type, with a very early postmark, Penmaenmawr, 18.8.11.

The “11” cuts of S.H. prints.—Our last list of these was published three months ago (E.W.S.N. No. 636) and now requires some extension. The cuts are not plate-numbers though they would serve to identify the plates if one possessed the key. If the theory that the “11” cut signifies that the plate has been re-steeled (i.e. coated with steel for protective purposes) is correct, then we may infer that the additional diagonal cut which appeared at a later date on the 2d. plate meant a second re-steeling and that in due course some of the plates will be again re-steeled during 1912 and receive another cut under the 12th stamp. If we may also infer that the old cuts are not obliterated (De La Rue's never were), we have a permanent means of identifying the plates, and a cut of different shape must mean a new plate.

We refer in the description below to “upper halves” and “lower halves” of sheets, and mean thereby half a sheet bearing either 120 Crown or 56 Anchor watermarks. In the case of the 1½d., 2d., 5d., 6d., 1/- and £1 stamps, each Crown watermark is covered with a stamp, but in the 9d. and 10d. some of the spaces are blocked out, but the term “half-sheet” always means bearing 120 Crown or 56 Anchor watermarks, as the case may be.

Owing to variation in inking or pressure in printing, the cuts sometimes seem to vary slightly in width and the dots at the corners of the sheets vary from small points to large blots, but we no longer accept these variations of evidence of a distinct cut.

Three Halfpence.

Head plate (fo), purple; duty plate (bm), green.

1st plate, 3.7.11.

Upper half, no cut.

Lower half, cut 2½mm. wide; no purple dot at corner of sheet, “V” cut under 5th stamp.

2nd plate, 9.9.11.

Upper half, no cut.

Lower half, cut 1½mm. wide; position,* 11—6mm. Purple dot at corner of sheet, thin or thick; cut under 8th stamp (August 1911?).

*Position, 11—6mm. means left edge of cut 11mm. from left end of bar and right edge of cut 6mm. from right end of bar.

Head plate (fo), purple; duty plate (fo), green.

This was reported to us last week but we have not yet seen it. The head plate is said to have the “11” cut under the 12th stamp and will we suppose be known as a “12 cut”.

Two Pence.

Head plate (fo), green; duty plate (ep), red.

1st plate, 8.8.11.

Upper half, no cut.

Lower half, cut 1½mm. wide; position 7—10mm. Green dot at corner of sheet; cut under 7th stamp (July, 1911?).

1st plate (altered?), 22.11.11.

Lower half, an additional diagonal cut is added under the 11th stamp (November, 1911?), 1mm. from right end. Green dot at corner of sheet is now shifted to the left (under d of 2d.)

Five Pence.

Head plate (bm), purple; duty plate (bm), blue.

1st plate, 16.8.11.

Upper half, no cut. Dot under 12th stamp (13½—4mm.)

Lower half, cut 2mm. wide; position, 7½—9mm. Purple dot under 12th stamp (12½—5mm.).

Cut under 7th stamp (July, 1911?). The under edge of the bar to right of the “11” cut is nicked.

Head plate (fo), purple; duty plate (bm), blue.

2nd plate, 11.2.12.

Upper half, cut 2mm. wide; position 10—6½mm. Purple dot under 12th stamp (14—3½mm.).

No “month” cut.

Lower half, cut 1½mm. wide; position 6½—10mm. Purple dot under 12th stamp (13—4mm.).

No “month” cut.

Six Pence.

Head and duty plate in one (fox).

1st plate, 3.11.11.

Upper half, no cut. Row of lined pillars join upper with lower half; last pillar broken to admit two dots, which are evenly placed one above the other.

Lower half, cut 2mm. wide and shaped “N”; position, 11—5½mm. Dot under 12th stamp (14½—3½mm.). Old De La Rue cut under stamp No. 1.

2nd plate, 3.11.11.

Upper half, no cut. Row of lined pillars join upper with lower half; last pillar broken to admit two dots, which are unevenly placed.

Lower half, cut 1½mm. wide; position 13½—3½mm. Purple dot under 12th stamp (13½—4½mm.). Old De La Rue cuts under 2nd and 4th stamps.

Both plates appear to be in use, but during January, 1912, all sheets we saw were from plate 2, and since 12.2.12 all have been from plate 1.

Nine Pence.

Head plate (bmw), purple; duty plate (bmw), blue.

The pillars (w) only occur on the spaces converted from stamps.

1st plate, 24.7.11. No cut? (We have no specimens for verification. Impressions were in distinct light blue and reddish-purple shades).

2nd plate, 9.10.11.

Upper half, cut 2½mm. wide; position, 9—6mm. No purple dot at corner.

Lower half, cut 2mm. wide; position, 10½—5mm.

3rd plate, 22.11.11.

Upper half, no cut, but two purple dots “...” 1½mm. wide and 1mm. below the purple line; position, 6—10mm. No purple dot at corner.

Lower half, no cut but two purple dots “...” 1½mm. wide and ½mm. below the purple line; position, 7½—8½mm. No purple dot at corner.

Ten Pence.

Head plate (bmwx), purple; duty plate (bmwx), carmine. The pillars only occur on the spaces converted from stamps. In this value it is the duty plate which has the dots at corner of sheet.

1st plate, 9.10.11.

Upper half (?) ; italic cut 1½mm. wide; position, 8½—8½mm. Carmine dot under 12th stamp (15½—½mm.). This may be a new plate, as we only noticed it 1.2.12. Italic cut under 8th stamp (August, 1911?).

Lower half; italic cut, measurements as above but the space between the cuts is square instead of oblong, the difference being clear under a glass though not measureable. Carmine dot under 12th stamp (15½—½mm.). Upright cut under 8th stamp (August, 1911?) and old De La Rue cut under No. 1.

One Shilling.

Head plate (bp), green; frame (bm) rose. The head plate has the “11” cut and the frame plate the corner dots.

1st plate, 19.7.11.

Upper half, no cut.

Lower half, no “11” cut, but cut under No. 6 (June 1911?) and an old De La Rue cut under No. 1.

2nd plate, 9.10.11.

Upper half, cut 2½mm. wide; position 13—2½mm. (the measurement requires care as allowance must be made if the head plate has printed “off-centre”). Carmine dot under 12th stamp, (11½—6½mm.)

Lower half, cut 2½mm. wide; position 11—5½mm. We have this head plate used in conjunction with frame plate 1 (no coloured dot under 12th stamp; lower edge of 11th stamp cut) and with frame plate 2 (coloured dot under 12th stamp, 11—6½mm.)

Two Shillings and Six Pence.

Printed from single plates (bm_x); the panes are connected by a row of lined pillars (x).

Plate 1, 27.9.11.

Upper pane, cut 1mm. wide; position, 14—10mm. Purple dot under last stamp in row, position, 18½—6mm.

Lower pane, cut 1½mm. wide; position, 16½—7mm. Purple dot under last stamp in row, position, 18—6mm.

Five Shillings.

So far as we are aware no printing has yet (February, 1912) been made of this value at Somerset House.

Ten Shillings.

Printed from single-impression plates (bm_x); the panes are connected by a row of lined pillars (x).

Plate 1, 15.1.12.

Upper pane, no cut. Faint blue dot under last stamp in row, position 19—6½mm. The dot serves to identify the S.H. printing, as there was no dot in the De La Rue days.

Lower pane, cut 1mm. (?) wide, position 23½—1mm. (?)

One Pound.

Printed from single-impression plate (bm_x); the two panes are connected by a row of lined pillars.

Plate 1, 12.9.11.

Upper pane, cut 1½mm. wide, position 41½—14½mm. No dot.

Lower pane, not yet seen.

If we summarize the above details we get the following list of head plates used to date:—

1½d.	2 plates	10d.	1 plate
2d.	1 plate	1/-	2* plates
5d.	2 plates	2/6	1 plate
6d.	2 “	10/-	1 “
9d.	3* “	£1	1 “

*In the 9d. and 1/- we have no impressions of the first plate for verification.

The collector of “cuts” will require two corner blocks of each plate, one from the upper half and one from the lower half. Even though the upper half may not have an “11” cut (the authorities now seem to be repairing their early omission in this respect), the corner block will probably have a dot or other mark on the margin to identify it as a Somerset House printing, and even if it does not, the Somerset House printing without an “11” cut is as interesting as one with, provided the specimen or block is taken from the corner of the sheet where the “11” cut ought to be.

The italic letters reproduced above in brackets denote the marginal lines and pillars and are used for the sake of brevity. We append the key:—

EXPLANATION OF ITALIC LETTERS.

The Italic letters describe the marginal lines.

- (a) No marginal lines at all.
- (b) Continuous line, sometimes broken at corners of panes or to facilitate the division of the sheet.
- (c) Irregular series of short lines round pane.
- (f) Short line opposite each stamp, except over the two middle stamps of the top row and under the two middle stamps of the bottom row of the sheet. The two stamps in each case have three bars, — — (short, long, short), the long bar being usually accompanied by an ornament.
- (m) Lines rounded at corners.
- (n) Lines square at corners.
- (o) Lines broken at corners, space filled in with bar.
- (p) Lines broken at corners, space not filled in.
- (s) Lines at sides only.
- (w) Horizontal pillars, shaded with lines, on inter-pane margins or “gutters.”
- (x) Vertical pillars, shaded with lines, on inter-pane margins or “gutters.”
- (z) Spaced parallel lines on gutters.

The marginal varieties may seem very complicated, but there are really very few of them, as may be judged from the fact that in some cases (the 5d. for instance), the duty portion of the Edwardian stamps is still being printed from plates made for the Victorian issue of 1887. The above nomenclature is an adaptation of that published in E.W.S.N. No. 383 (26.1.07).

THE WEEK'S NEWS.

(Continued from page 2769.)

DUTCH INDIES (626 P 649).—The *Postzegelnieuws* (2.12/351) states that the following quantities of official stamps were created.

Old Issue.			
2½c.	300,000	20c.	196,000
10c.	547,000	25c.	58,000
12½c.	73,000	50c.	256,600
15c.	83,000	2½ gld.	21,700
Current Issue.			
½c.	98,000	15c.	250,000
1c.	474,000	17½c.	97,000
2c.	3,500,000	20c.	225,000
2½c.	200,000	22½c.	98,400
3c.	1,000,000	25c.	125,000
4c.	4,000,000	30c.	225,000
5c.	500,000	50c.	10,000
7½c.	97,000	1 gld.	408,000
10c.	500,000	2½ gld.	105,000
12½c.	150,000		

The figures are very large, but this is a guarantee that the stamps are required for postal purposes and not for collectors. The Dutch Indies are a very populous part of the world. If every inhabitant received an official letter, only a quarter of a stamp could be spared from the above total for each letter. The above table, states our contemporary, shows how largely the new ½c. value is used and also makes the current 50c. out to be quite a rare stamp, compared with the others.

Government departments are being instructed to save their used official stamps and these will be periodically sent to Holland by the Naval Department for sale for the benefit of the Fund for aged and injured sailors.

The 20c. current occurs with the "E" of "Dienst" broken in four.

The *Nederlandsch Tijdschrift voor Postzegelkunde* reports the old issue 12½c. and 20c. with inverted D overprint.

GILBERT & ELLICE ISLANDS (648 D 649).—At last we have discovered the number of Fiji stamps surcharged for these Protectorates. Under date of 28.12.11 the Chief Postmaster tells us there were:—

Surcharged on Fiji.

	£	s.	d.
½d.	12,240	25	10 0
1d.	12,000	50	0 0
2d.	12,360	103	0 0
2½d.	9,120	95	0 0
5d.	6,240	130	0 0
6d.	6,000	150	0 0
1/-	6,120	306	0 0

Total £859 10 0

The Postmaster adds:—"I would inform you that you are entirely mistaken in your paper when you state that the majority of ½d. and 1d. were cornered by people on the spot. I feel convinced you cannot realise the amount of postage that exists in these Protectorates. It may interest you to know that I am unable to supply any more of the ½d. Pandanus Issue in future."

We fear that an official enquiry would not support the Postmaster. We believe that there are very few mails away from the islands; in June 1907 the Acting Resident Commissioner wrote us that there was "a regular two-monthly mail, and an occasional irregular delivery." Letters were then collected by an agent of the New South Wales Post Office and stamps and postal rates of the latter State were in force.

There is a population of 40,000, but only about 150 are whites, and the population is spread over some 20 islands, 200 square miles in extent. Without railways, steamers, etc., there cannot be any frequent or regular postal service, and we should imagine there is not much need for correspondence within the islands. As there is no newspaper, the ½d. stamp would hardly be of any use at all. Yet the Postmaster tries to make us believe that between January 1st, 1911, when the Post Office was opened and February 11th, 1911, when the Pandanus Tree stamps arrived, the entire supply of 12,240 ½d. and 12,000 1d. stamps was bona-fide used up on correspondence! If the Postmaster investigated matters, he would certainly find that not half of these stamps were, and that someone has been allowed to buy them for other purposes. So far there has only been one parcel on the European market, about 1,000 (?) ½d. and 500 (?) 1d. being obtained by a Parisian dealer, who asked about 100 times face value wholesale, a rate we were forced to pay. If, for the sake of argument, we accepted the Postmaster's statement, how came he to order only a six week's supply of the values which according to him were in such large use?

On 21st November, 1910, the Postmaster writes:—"I have the honour to acknowledge the cable of — containing order for postage stamps to the value of £200 and cash in payment

of same". This we did not get back till May, 1911, and it is evidence of the incompetence of the postal authorities that (a) they could easily have spared the number of sets ordered if not the low values or (b) cabled to England to have more printed. The Postmaster did neither; he kept the £200 from November to March and then returned it!

About April, 1911, someone (the letter is undated and unsigned) acknowledged receipt of £14 10s. we had sent by post and sent us a few stamps, charging us "10% commission" (29/-) and "1/- Poundage in the £" (14/6) and reckoning both charges on the amount we remitted and not on the value of stamps sent, which thus cost about 18% over face value! Subsequently the Postmaster always writes:—"Of your remittance, 10% is retained by me as commission, which is sanctioned by His Excellency the High Commissioner for the Western Pacific". This is entirely at variance with Post Office practice and we wonder it is tolerated.

The Postmaster sent us this week £47 worth of the Pandanus tree stamps, or rather that amount less £4 14s. commission, presumably for the trouble of putting the stamps in two flimsy envelopes and making out an invoice, which is all the extra work he had to do occasioned by the stamps being written for instead of purchased over the counter. We have returned the stamps, declining to purchase at a premium, and requesting the return of our money.

Although we did not unpack this parcel of stamps, the ends arrived so frayed that we were able to notice that the sheets had at one time been numbered consecutively in pencil, though now were in any sort of order. The numbers ranged between

- ½d. 52 and 195.
- 1d. 278 and 807.
- 2d. 255 and 414.
- 2½d. 89 and 417.

Many of the ½d. sheets were not numbered at all, but 834 sheets of 60 would make 50,000 ½d., and 417 sheets of 60 25,000 each 2d. and 2½d., and it is by no means likely we had the highest numbers. As these stamps are said to have arrived at Ocean Island only six weeks after the inauguration of the Post Office, there was no necessity whatever for the Postmaster to conserve the stock of any of his stamps. Long before his stocks would have run out, even had he supplied dealers (whose orders appeared more numerous than they were, because they had so often to be needlessly repeated), the Postmaster could have obtained fresh supplies from England.

ICELAND (641 L 649).—Just after going to press last week, we received the remaining values of the embossed set.

Portrait of King Frederick (of Denmark) instead of Jon Sigurdsson. No name under portrait.

- 5 aur. grass green.
- 10 " vermilion.
- 20 " turquoise blue.
- 50 " marone.
- 1 kron. canary yellow.
- 2 " pink.
- 5 " chocolate brown.

Issued 12.2.12 or earlier. The values with Sigurdsson's head were 1, 3, 4, 6, 15 and 25 aur. and the two are evidently intended to make up one set.

LUXEMBURG (632 U 649).—We quote from the daily newspapers:—

DEATH OF GRAND DUKE.

Luxemburg, Feb. 23rd.

The Grand Duke of Luxemburg died this evening.—Reuter.

The Grand Duke, who was 60 years of age, has been suffering from incurable paralysis. There is no male successor to the throne. The eldest daughter, the Hereditary Grand Duchess Mary Adelaide, is 18 years of age. A Bill vesting the rights of succession in her was passed in 1907.

The Grand Duke's portrait figures on all the current stamps from 10c. upwards and was soon to have appeared on new values of 45c. and 62½c.

INDIA (646 A 649).—Another Durbar postmark is shown us by Mr. W. Woodthorpe, evidently a machine cancellation.

UNITED STATES (648 H 649).—The new 10c. has now been followed by the 1c.

With value in figures.

"1 CENT 1" green.

Issued 14.2.12 in the G.P.O., Washington, but will appear at other offices as they exhaust their stock of the old issue.

Mr. F. J. Melville writes in the *Daily Telegraph* (22.2.12).

"The first denomination of the revised series of United States postage stamps has now been issued. It is the 10 cents, orange, with portrait of Benjamin Franklin. The other values are likely to be on sale almost immediately, the revisions including the 1 cent and 2 cents, to be in the Washington type, with the value expressed in figures as well as words, whilst the 8, 15 and 50 cents and 1 dollar will be in the Franklin type, similar to the 10 cents value now reported. The 1 cent and 2 cents are to be printed in green and red respectively, and the 8 cents will be in olive, the 15 cents in grey, the 50 cents in lavender, and the 1 dollar in dark purple-brown."

"It is also reported from Washington that the Postmaster-General has authorised the preparation of designs and plates for suitable commemorative postage stamps for the Panama-Pacific International Exposition of 1915. The designs will be illustrative of the history and scenery of the Panama Canal and of the history of California. The announcement suggests a long series like those for the Trans-Mississippi Exposition (nine values) or the Columbus World's Fair, (sixteen values); but the tendency since 1898 has been to shorten these special issues. The Buffalo Exhibition series of 1901 comprised but six stamps, the St. Louis of 1904 numbered five, and the Jamestown Exposition of 1907 was limited to three denominations."

Notes.

The 24th German "Philatelists-Day" will be held at Marktredwitz on 2nd to 6th August 1912.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (649 W 650).—We are informed by Mr. C. F. Dendy Marshall that he has the 5/- printed at Somerset House.

Somerset House Print.

5/- rose, slightly paler than before. Usual "11" cut under last stamp but one.

Issued 29.2.12 or earlier. Our correspondent has only seen the lower pane of a sheet, so we cannot say if the cut also appears in the top pane as is the case with the 2/6.

Just as we go to press we receive the 6d. with "11" cut under the 12th stamp instead of the 11th. The sheet has broken marginal lines and the colour of the printing has gone back to the second shade of the 6d.

ARGENTINE REPUBLIC (648 W 650).—San Martin's without watermark.—Another value of the set is reported by L'Echo de la Timbrologie (29.2.12/144). The list now stands:—

San Martin Issue.

- (31) Wmk. Sun, perf. 13½.
1, 2, 3, 4, 5, 10, 12 (both), 15, 24, 30c., 1p.
- (32) Wmk. Sun, perf. 13½ x 12½.
½, 1, 2, 3, 4, 5, 6, 10, 12 (blue), 20, 24, 30, 50c.
- (33) Variety from edge of sheet, no wmk.
½, 1, 2, 4, 5, 10, 20, 24, 50c., 1p.

In addition to the 1, 5 and 20c. of the Labourer type without watermark, we also learn from the same source of the ½, 2, 10c.

BAVARIA (634 T 650).—It is reported in Borek's Neuheiten-Preisliste (28.2.11/6) that the Bavarian Post Office is selling off the used high values from its accumulated certificates, etc. They are being sold on very convenient terms:—

- 3 Mark (vertical wmk.) lot of 10 used copies, in undamaged condition, 9 Marks.
- 5 Mark (vertical wmk.) lot of 10 used copies, in undamaged condition, 10 Marks.
- Ditto, not so fine, 5 Marks.

The current high values may also be ultimately offered in the same way. One hardly supposes the quantity sold will produce any large net revenue, but the concession is doubtless intended as courtesy to the followers of Philately, and contrasts with our own Post Office's relentless blacking over of every high value stamp.

BRITISH P.O., LEVANT (648 G 650).—According to Borek's Neuheiten-Preisliste (28.2.12/6) there have been several happenings at Constantinople lately which we have not yet recorded. About 14.2.12 or earlier the ½d. "Levant" are reported to have run out of stock, followed by the 1d. on 24.2.12. The latter was replaced, it is said, by a small edition of 3000 [this number does not make an even number of sheets of 240, so is open to question.—Ed. E.W.S.N.] of the following:—

Altered die.
1d. red, overprinted "Levant."

Issued 24.2.12, according to our contemporary, and supply exhausted 26.2.12. No doubt a further supply will be sent out; it seems premature to account it a rarity.

GREECE (638 F 650).—It is reported in Borek's Neuheiten-Preisliste (28.2.12/6) that the bulk of the remainders of the 1901, 1902, and

1901

1902

1906

1906 issues have been burnt, only a small quantity being kept back, presumably for philatelic sale.

HONDURAS (647 C 650).—The 5c. perf. 12 with postmark as early as 30.8.11 is reported by Mr. E. W. Floyd. It is used on a letter with 10c. perf. 14. The varieties of the current type now known are:—

Perforation Varieties known.

- Ordinary.
Perf. 14; 1, 2, 5, 6, 10, 20, 50c.
Perf. 12; 2, 5c., \$1.
- Official.
Perf. 14; 1, 5, 6, 10, 20, 50c.
Perf. 12; 2c., \$1.

ITALIAN P.O., ERITREA (593 F 650).—According to Borek's Neuheiten-Preisliste (28.2.12/6) the 10 Lire postage due has been withdrawn from issue.

NEW ZEALAND (645 G 650).—Concerning the machine stamps, the Scotsman (5.2.12) says: "In New Zealand large business establishments are being encouraged to abolish the use of postage stamps and to do their stamping by means of automatic stamping machines, which are hired out by the postal authorities. These machines are said to have become almost indispensable in every business establishment in the Dominion. The machines are certified and sealed by the postal authorities before going into use. They are made so that postages, receipts, telegrams, drafts, bills of exchange, and so forth are impressed with the necessary values. The amount of the stamping is automatically recorded. Periodical readings are taken by the postal department, and payment made of the amount due. The system has been found to work well. It has effected a saving on the manufacture of stamps, and reduced the clerical labour in their issue, while, from the point of view of the commercial man, the system prevents a kind of petty speculation not unknown in large offices. It is difficult to sell the envelopes stamped by the machines, because each has a number, and if there were dishonest leakage in this way, it could soon be traced through the aid of the postal authorities."

NICARAGUA, BLUEFIELDS (648 L 650).—The following three stamps have also been issued with "B."

- Surcharged on 1904 fiscal stamps, without "1904" surcharge.
- "VALE 10 cts.—POSTAL B—de 1911."
5c. in black on \$1, buff and black.
5c. " \$10, pink.
10c. " \$25, green and black.

PERSIA (640 J 650).—Mr. Vernon Leigh writes us:—

"I herewith enclose an envelope for your inspection which I received from a friend of mine in Tabriz. He informs me that some time during the present crisis a large quantity of stamps were stolen from the Post Office and they are now surcharging those left 'Officiel' so that the stolen ones cannot be used."

The envelope in question is postmarked "TAURIS, 12.2.12" and is franked with the following stamps.

Portrait of young Shah. Issue of 1911 overprinted "Officiel" and equivalent above in Persian.

- 1 ch. green and orange-brown.
- 3 ch. lilac and dark green.
- 10 ch. lake and marone.

Issued 12.2.12 or earlier. The overprint of the official stamps has always been "Service," so no confusion will arise.

TURKS & CAICOS ISLANDS (634 B 650).—The printings of stamps made for this Colony on multiple watermark paper were received, we are officially informed, at Grand Turk on the undermentioned dates.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

Notes.

THE announcement is made that Lord Crawford, who by the way is an extensive colliery owner in Lancashire and elsewhere, has sold his entire collection of stamps, except the matchless Great Britain and United States.

* * *

The collection did not contain the two Post Office Mauritius, nor the thousand-pound Hawaiian and British Guiana, but there is no question that it must have been a very fine one, well put together, arranged and written up. Mr. W. H. Peckitt is again the fortunate buyer, but the price is not to be made public.

* * *

The *Star* says (6.3.12):—

"The most rare stamp in the collection is a Western Australia fourpenny stamp. It is blue in colour, but had the swan inverted. This accident makes it worth at least £500.

Other rarities include a sheet of unused half-anna Indian stamps. These are red in colour instead of blue, and the error makes them worth anything from £8 to £10 each.

There are three-lire Tuscany stamps unused and one used with the entire envelope. The fact that it is attached to the envelope in this instance contributes vastly to its rarity and value.

Among the Indian stamps is a 4-anna with the head of Queen Victoria inverted. There is also an unused 4-anna with blue wavy lines.

Among the South African treasures is a stamp marked in error Transvaal instead of Transvaal.

There are also several rare varieties with the overprint omitted, which makes them worth anything from £80 to £100.

MAFEKING SIEGE.

Mafeking siege stamps are included in the collection. Some of them are ordinary stamps with Mafeking printed on them, others have a cyclist, and others Baden Powell's head. One of the latter has the head turned the wrong way.

There is only one other instance of an English subject putting his head on a stamp. That was in 1860, when the Postmaster-General of New Brunswick, Charles Connell by name, put his head on the local stamps. For this innovation he was removed from his office.

There are several valuable 'Tete-beche' stamps. That is to say, one of two stamps joined together is upside down. Some of these are, by reason of this, worth £100."

Ewen's Ltd. is anxious to purchase ½d. yellow stamps of Malta, all issues.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (650 X 651).—We have now received nearly all the recent new varieties and have compiled the following list, which may be added to that we published a fortnight ago.

Three Halfpence.

Head plate (fo), purple; duty plate (fo), green, 3rd (?) plate, 19.2.12 or earlier. We call this 3rd plate for convenience, but believe it is plate 2 with the cuts "11" under the 8th and 11th stamps patched up and a new cut substituted under the 12th stamp with a white blot on the 2nd bar ("February 1912?").

Top half; no cuts. Purple dot 4mm. below 12th stamp; there is also a dot 5mm. over 12th stamp in lower pane.

Lower half; cut "11" under 12th stamp, 3mm. wide; position 4½–11mm. Purple dot at corner, 3mm. under purple line.

The chief interest attaching to this new plate will, for general collectors, no doubt be that it is used in connection with an entirely new duty plate (printing in green), which has short bars instead of a more or less continuous line round the panes.

Two Pence.

1st plate (altered?)

Upper half. There is a diagonal cut under the 11th stamp similar to that added to the 11 cut of the lower pane. Also the usual dots.

Head plate (fo), green; duty plate (fo), red. This duty plate is new and gives the margins a brilliant appearance.

2nd plate?

Upper half. No cuts. Dot under 12th stamp. Lower half. Two white blots, 2½mm. wide, on line under 12th stamp; position 6–10½mm.

The first of these 2d. were shown us by a Christchurch collector (11.3.12), to whom we are greatly obliged.

Six Pence.

The Six Pence has been re-issued in the second shade of last November (that superseded being the third), and a new printing is indicated by the fact that the "11", which is very finely drawn and only 1 mm. wide, is under the 12th stamp. We defer description till we can get the top pane.

Nine Pence.

It seems possible that there may have been an error in our classification of the 9d. panes in E.W.S.N. No. 649, and that there are only two plates, not three.

Mr. W. A. Town writes (8.3.12):—"I am sending for your inspection a pair of 9d. Somerset House print with dots (in place of cuts) in a different position from either the upper or lower half of the 3rd plate given in E.W.S.N. of 2nd March. You will notice there are 3 and the position of the 3rd is peculiar."

This is a most interesting example, but our correspondent is not quite correct. There are four dots, not three ":", and the first of them is almost merged in the line above. We venture to make an inference from this, which if correct will be of great interest, namely, that the dots are not on the plate but are handstamped on the sheets after printing. In this particular instance the dots were struck too high and a second impression was made. It is only natural then that all three specimens we have reported have the dots in different positions and if our theory is correct, other collectors will find their specimens do not tally with our description as regards position. On the other hand in all three cases the "..." is 1½ mm. wide.

It is unfortunate that we did not save corner blocks of the 9d. in the first shade, as we have now none for examination. It was reported without cuts at the time, and it may be that the omission is being rectified in a later printing from the plate by handstamping these dots.

Correction.—For measurements in E.W.S.N. No. 649 take following new measurements made from the edges of the stamp design:—2nd plate, 9½–6 mm. and 10½–5½ mm.; 3rd plate, 6½–10 mm. and 8½–8 mm.

Ten Pence.

The measurements in E.W.S.N. No. 649 were not quite satisfactory because the cuts are on the head plate, which is enclosed in an outer frame (printed in carmine); consequently if taken from the edge of the design they are liable to be affected by off-centre printing. A safer measurement would be that from the right end of the line, where the end would be if the corner were square. This gives 33 mm.

Correction.—We have turned up our original manuscript and find we wrote 7½–8½ as the position of the dots. In correcting the proofs we failed to notice that the compositor preferred 8½–8½ in this instance.

Five Shillings.

Printed from single impression plates (bm); the panes are connected by a row of lined pillars.

Plate 1, 29.2.12 or earlier.

Upper pane, not yet seen.

Lower pane, fine cut 1½ mm. wide; position, 12½–12 mm. Dot under end stamp, position 19½–5½ mm.

One Pound.

A correspondent writes:—"Regarding your remark that you have not seen the lower pane of the £1 value. You sent me some time ago the corner stamp from that position. The cuts are italic (instead of upright), 1½ mm. (instead of 1¼ mm.), and the position is between the N and D of Pound. There is no dot."

We remember now we had several of these, and by an oversight we omitted to retain one for the reference collection, and this oversight we have never since been able to repair.

In reply to a correspondent, where the cuts are italic, we measure along the under edge of the bar. Where the lines are continuous, we measure to the point where the side outlines of the stamps would intersect if prolonged.

BRITISH P.O., LEVANT (650 H 651).—With reference to our statement last week on the authority of a German contemporary that the ½d. Georgian stamps, die i., had become exhausted about 14.2.12, we find that under that very date we received a small supply of ½d. Edwardian stamps in a new shade, of which we promptly took steps to procure more. These are now to hand, with the result that we have to chronicle:—

Edwardian design, Harrison print.

½d. deep yellowish-green, control letter A 11 (wide), perf. 14.

Issued 14.2.12 or earlier.

A number of sheets of the 12 piastres on 2/6 have reached us and we find they all have the usual "11" cut of the upper pane of plate 1.

BRUNEI (648 W 651).—From "specimen" copies, the *Schweizer Briefmarken Zeitung* (3.12/55) describes two more values in new colours.

New Colours. Wmk. multiple Crown CA.

25c. violet.

50c. black on green.

To be issued. This probably completes the alterations, as the 4, 5, 8, 10, 30c., and \$1 have already been reported as expected.

CHINA (648 L 651).—We quote from the *Times* (4.3.12):—

THE NEW POSTAGE STAMPS OF CHINA.—As a result of the revolutionary movement the current stamps of the Chinese Imperial Post Office were recently withdrawn and re-issued with a special overprint consisting of four Chinese characters signifying "Provisional Neutrality." It is also officially announced that a new series of permanent postage stamps will be issued by the Republican Government as soon as possible, and meanwhile a second provisional issue may be looked for in the form of the existing stamps overprinted with the word "Republic" or its equivalent.

Mr. F. J. Melville writes in the *Daily Telegraph* (7.3.12):—"Already it is understood that the stamps of the Chinese Imperial Post have been withdrawn, and reports state that they have been reissued with an overprint in Chinese characters, signifying "Provisional Neutrality." In this form the stamps were to be used until the proclamation of the Republic, which has already taken place. If the "Provisional Neutrality" stamps have actually come into being, it is highly probable that they will have had but a very short career, and collectors may experience difficulty in getting examples of them. It seems probable also that, pending the preparation of new designs and plates, China may imitate Portugal in using up the old stamps, with an overprint signifying the change from an Empire to a Republic. Meanwhile, the uncertainty of what has been, and is being, done in the matter of the stamps is keeping collectors and dealers on the que vive, and those with correspondents in China have, in many cases, sent remittances out in the hope of securing any unusual varieties that may be issued as temporary expedients."

Had Chinese stamps been surcharged they ought to have been here by now, as the first letters bearing them would come by the Trans-Siberian route.

GILBERT AND ELLICE ISLANDS (649 E 651).—The 5d., 6d., 1/- of the Georgian series have already been seen surcharged "specimen." The *Schweizer Briefmarken Zeitung* (3.12/55) states that they are in the Leeward Islands type, the old border being made use of. The head of King George is however drawn rather smaller than that of King Edward.

LUXEMBURG (649 V 651).—The following provisional is reported by *Die Post* (12.3.12/40):

Surcharged in red.

62½c. on 87½c. grey blue.

What a triumph for the decimal system!

PORTUGAL (648 N 651).—We are informed by Mr. A. Myre that the 200 reis reprint of the Vasco-da-Gama "Republica" set had not been issued down to 24.2.12.

El Eco Postal (2.12/2052) sets out the full list of the new set as follows, though only the 1 and 5c. adhesives and 1c. postcard, are yet issued.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

UNITED STATES (641 I 651).—In addition to the 1c. green and 10c. orange of the set, the *Metropolitan Philatelist* (24.2.12/25) now reports the following:—

New Issue.

2 cents, rose.
8 " olive-green.

50 " lilac.
1 dollar, dark brown.

We quote from *Mekel's Weekly Stamp News* (24. 2. 12/67):—

We are indebted to A. N. Caudell for information regarding the new issue of stamps, all the values of which, except the 3c., 4c., 5c., and 6c., which were not changed, and 10c., which appeared last month, were placed on sale at the Washington Post Office, Feb. 14th. The values placed on sale on that date were the 1c., 2c., 8c., and all values above 10c. Mr. Caudell reports having seen the 1c. with plate numbers A 5805, 5828, and 5831. The new series has the plate number only, and not the Bureau imprint and number as formerly. We are also indebted to J. M. Bartels and the New England Stamp Co., for information regarding the new stamps, and for specimens of the various values. Mr. Bartels calls our attention to the fact that the new 50c. and \$1 values are printed on paper with the double-lined watermark. This is due to the fact that these values are printed in sheets of 200 stamps, and as there was a large stock of the paper suitable for printing these values, it was decided best to use it up before starting on the new watermark. This of course makes it extremely unlikely that any of the old 50c., and \$1 stamps will ever be found on either of the single lined watermarks. The 1c. and 2c. are in the design of the current 3c. to 6c. values, while all values from 8c. up are in the design of the 10c. recently described, with portrait of Franklin.

Adhesives.

1c. green.
2c. carmine.
8c. olive green.
15c. gray.
50c. lilac.
\$1 dark brown.

The most striking difference is found in the 15c., which is a very handsome shade of gray, but one that will be prolific of shade differences like the 24c. of 1862.

GREAT BRITAIN (‡)*Railway Postage Stamps.*

The Editor has just finished sorting the whole of his duplicates according to printings. There are 128 standard varieties listed in our Reference List, but by collecting printings these can be extended to about 800. The Editor has over 500 of these amongst his duplicates and offers them at the all round rate of 1/- per stamp nicely arranged in a collection on 56 large sheets with manuscript notes. Some are used, and a few of the rarer varieties are included. The Editor would be very glad to exchange with other collectors, and is mainly short of common recent varieties.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (650 X 652).—We have now purchased an upper pane of the 5/- and find that it has an "11" cut.

ABYSSINIA (638 L 652).—*L'Echangiste Universel* (2/12/5) says that all the stamps of the 1894 set have received the surcharge illustrated below, the value being in each case that of the stamp surcharged, and written in manuscript.

AFF. EXCEP.
FAUTE TIMB
4 g.

We are further told that only 200 sets were made, which is as good as saying that the issue was utterly unnecessary, for stamps are never required for postal purposes in sets.

The *Schweizer Briefmarken-Zeitung* learns from Mr. Danovitz, of Djibouti, that towards the end of 9.11 the stock of Abyssinian stamps of the 1909 issue in Diré-Daoua was exhausted. [How convenient that all seven values from ¼d. to 2/- should run out simultaneously!—Ed., E.W.S.N.], and the new supply ordered from Addis-Abeba, the capital, had not come to hand. The Post Office at Diré-Daoua therefore secured permission from Addis-Abeba [telegraphically?—Ed., E.W.S.N.] to make provisionals. Fortunately there were at Diré-Daoua [supplied by some speculator?—Ed., E.W.S.N.] a number of the 1894 Abyssinian stamps. [As these 1894 stamps without surcharge are supposed never to have been issued, what they were doing in the Diré-Daoua Post Office cannot be imagined. Ed., E.W.S.N.]. The 1894 stamps could not be used even provisionally as they were, in their nakedness, so they were clothed with the appropriate surcharge "Affranchissement exceptionnel—faute de timbres" suitably abbreviated and each stamp had its original value written upon it in manuscript.

The stamps are stated by Mr. Danovitz to have been in use from 1.10.11 to 5.10.11 when the missing stock of the proper stamps arrived from Addis-Abeba, and that the total number printed did not exceed 600.

The whole thing looks very suspicious!

BERMUDA (648 M 652).—Whatever is wrong in this part of the world? A correspondent writes (29.2.12):—

"The bicoloured farthing stamp is sold out at the local post offices and none can be had anywhere. If the new unicoloured issue is not quickly forthcoming, it is possible that a bisected ½d. stamp may be used provisionally, as there is a great demand here for the farthing value.

"No 6d. and 1/- values have been on sale here for months, and nobody seems to know when the new issue will be forthcoming. There has been some talk of provisionals, as there is a large demand for the high denominations for the payment of postage on large parcels of Easter Lily bulbs, etc., which often amounts to 4 or 5 shillings.

"Will the next issue of 6d. and 1/- be Queen's Head or dockyard design in the new colours, or will it be in the Ship type? This is a question nobody here seems able to answer. If the new stamps are of the Queen's Head or dockyard type, they will undoubtedly soon be scarce, as they will be quickly superseded by the stamps of the Ship design. It is rumoured here that the stocks of 2d., 2½d., 3d. and 4d. are running short, and no doubt their places will soon be taken by Ship type stamps in the new colours. The 3d. is the only one of these which has not yet appeared on multiple paper."

DENMARK (647 U 652).—In simplified form the record of the Danish Post Office to date is as follows:—

1851, 2, 4 rbs.
1853, 2, 4, 8, 16 sk. 1857, 4, 8 sk.
1864, 2, 3, 4, 8, 16, sk.
1870, 2, 3, 4, 8, 16, 48 sk.
1875, 3, 4, 5, 8, 12, 16, 20, 25, 50, 100 ö.
1882, 1, 5, 10, 15, 20, 24 ö.
1904, 4 on 8, 15 on 24 ö.
1, 2, 3, 4, 15 ö. 5, 10, 20, 25, 50, 100 ö.
1907, 5, 10, 20, 25, 50, 100 ö.
Newspaper, a set in 1907.
Official, 1871, 2, 4, 16 sk.
1875, 3, 4, 8, 32 ö.
1899, 1, 3, 4, 5, 8, 10 ö.

As will be seen there has not been much surcharging—none except in 1904—and so far as we are aware no remainders have ever been offered to the public. The following announcement which we translate from the *Aarhusposten* (11.3.12/1) will therefore be read by collectors with interest—and possibly other feelings!

"NEW AND SURCHARGED STAMPS.

"From the 1st April there will be issued to the public postage stamps of 35 öre, but in consequence of different causes, amongst others the fire which took place in January in H. H. Thile's Printing Establishment, where the postage stamps are produced, it would have been fraught with difficulties to get ready a sufficiently large stock of the new stamps, which will be produced in the same type as the current stamps with His Majesty the King's portrait, and the Postmaster-General has therefore allowed his stock of remainders of the 16 and 20 öre public issue and 32 öre service stamps of the 1875 issue to be overprinted 35 öre as public stamps. The surcharged stamps will be placed on sale in the Post Offices on 1st April and only after the stock of these stamps is used up, will 35 öre stamps with His Majesty the King's portrait appear.

"Also one's attention is drawn to the surcharging of the 8 öre stamps of 1875 and 24 öre stamps of 1901 respectively to 4 and 15 öre. The overprinting will be carried out in the same manner as in 1904, when an edition of the same stamps was surcharged with the same values.

"Further the Directorate of the General Post Office intends in the course of April to sell by public auction the official remainders of stamps of the skilling values and of the 5 öre stamps of 1879 together with a small quantity of the 8, 16 and 20 öre stamps of the 1875 issue, of which stamps the bulk of the remainders are being surcharged, as announced above, respectively 4 and 35 öre."

JAIPUR (635 R 652).—We have received a few of the quaint provisionals which we chronicled four months ago and give an illustration of a sheet as issued. The illustration is full sized.

As will be seen, each of the six stamps is separately engraved and set. The more prominent differences of the six types are:—

Type 1.—(a) horse has five heads.
(b) slight smudges above horse's heads due to defective printing (in later printings only).

Type 2.—(a) horse has four heads.
(b) one of the forelegs touches the ground.
(c) spokes of wheel are indistinct.
Type 3.—(a) horse has five heads.
(b) the horse's forelegs are double-lined.
(c) no rays emanate from the god in the chariot.
Type 4.—(a) horse has six heads.
(b) the rays in front of the driver's head are short.
Type 5.—(a) horse has five heads.
(b) the shading at the back of chariot is very close.
(c) there is a smudge before the horse's heads due to defective printing (in later settings only).
Type 6.—(a) horse has four heads.
(b) there is no shading at back of chariot or only faint traces.
(c) there is a dot between the horse's legs.

The above is a revised description (see E.W.S.N. No. 635) of the six centre designs, taken from the sheet we chronicled last October, and will be found to differ from our illustration, which is taken from a sheet of a new setting of the types. The relative arrangements are:—

Early Setting.	Later Setting.
1 2	4 5
3 4	6 3
5 6	2 1

All the sheets we have received have been of the later setting with the exception of the original sheet we chronicled and a single we more recently found.

INDIA (649 B 652).—Respecting Durbar postmarks, Mr. H. W. Hawkins writes:—"There was a special postmark used for the King and his suite during the Durbar. It is similar to the Durbar postmark, already described in your paper 10th ult., but inscribed simply 'King George's Camp,' with the date, and strange to say the year date is not given in this instance. It is also interesting to recall the fact that a special larger postmark was used on His Majesty's former visit to India, when the postmark was inscribed 'Prince of Wales' Camp,' but there was no Royal cypher on that occasion."

We have received a supply of the following official stamp.

Overprinted "Service."
1a. carmine, King George.

Issued 3.12 or earlier.

MAURITIUS (644 F 652).—From "specimen" copies the following are described by the *Schweizer Briefmarken Zeitung* (3.12/56).

Head of King George; same design as the Edwardian. Wmk. multiple Crown C.A.
5c. grey and rose.
25c. black and red on yellow.
10 rupees, green and red.

To be issued. It is to be hoped there will not be delay in issuing these and other Georgian stamps, as importers are thereby greatly inconvenienced. Great Britain has created a precedent by issuing Edwardian and Georgian stamps contemporaneously for nearly a year past.

PORTUGUESE MOZAMBIQUE COMPANY (643 Y 652).—We find the full statistics of the Beira provisional surcharge issue given by *Champion's Bulletin* (25.12.11/19).

SALVADOR (643 R 652).—A correspondent writes us that "a handsome new set of local celebrities has been issued. Beautiful colours. Engraved by a Bank Note Co."

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (652 Y 653).—A correspondent has shown us three corner pairs of the 9d. with dots and the position differs in each case; in one instance there is a second very faint impression of the dots some way below the others. There is no doubt they are hand-stamped.

Just as we go to press we receive the 9d. with "12" cut.

ANTIGUA (637 B 653).—We have received a large supply of the following:—

Wmk. Multiple Crown CA, chalk-surfaced paper.
2d. brown and purple.
3d. orange
2. violet and green.

Issued 28.2.12 or earlier.

CANADA (647 C 653).—We have some new plate numbers of the Georgian issue and our list now stands:—

1c. 1, 2, 3, 4.
2c. 1, 2, 3, 4.
5c. 1, 2.
7c. 2.
10c. 1, 2.
20c. 1.
50c. 1.

CHINA (651 M 653).—We quote from the *London Philatelist*: "Capt. A. E. Stewart writes: 'The postage stamps of China are being surcharged with four Chinese characters which represent 'Provisional Neutrality.' This is owing to the Republican leaders objecting to the word 'Imperial' on the stamps. All the present issue is being withdrawn and the surcharged stamps used entirely throughout China. The Chinese post offices in Tibet have been temporarily closed. But how long this will be for I cannot say, and probably the new surcharge stamps will be used there when the post offices open again.'

"As we go to press we have received the following further communication from Capt. Stewart: 'Yesterday I saw another official letter cancelling this, as the Republican leaders objected to the two-sided meaning of the surcharge. So the Imperial stamps remain in the meantime. The abdication of the Dynasty is proclaimed now, so I fully expect to see a Republican surcharge on the stamps shortly.'

Messrs. Whitfield King & Co. also write confirming that provisional issues are cancelled for the present, but that may not mean for long!

COLOMBIA (617 I 653).—The *Madrid Filatélico* (3.12/40) chronicles the following:—

"Modified in the design".
10c. violet.

It is printed by the Litografía Nacional.

DOMINICAN REPUBLIC (632 Q 653).—We are informed by Mr. A. Forbin of the issue of the following:—

Official Stamps. Wmk. Crosses and Circles.
10c. green and black.
20c. orange

Issued 20.2.12 or earlier.

GOLD COAST (648 L 653).—Messrs. Bright & Son write to the *Philatelic Journal of Great Britain* (20.3.12/50) as follows:—

"We enclose you two copies of the 1/- current Gold Coast Stamp. You will see that there have evidently been two printings of this. The dark one is all in one printing, but the other one, which we presume is the first printing, has only the name Gold Coast at the top and the value at the bottom in black. The remainder is a dark lilac or violet shade, and has evidently been printed in two colours. We do not think this has been chronicled before."

HONDURAS (650 D 653).—We quote from the *Postage Stamp* (23.3.12/306):—

"We have received information from the Postmaster-General of Honduras, don Eusebio Toledo, that the *Litografía Nacional* (Government Printing Works) have been ordered to print some postage stamps with a portrait of General don Manuel Bonilla, the new President, to commemorate his taking possession of the Presidency of the Republic on the 1st February last. We regret that Honduras should thus sully her good reputation earned during the last sixteen years."

LIBERIA (586 W 653).—We quote from the *Philatelic Journal of Great Britain* (20.3.12/51):—

"Mr. G. H. Higlett has shown us a copy of the 20c. of the 1909 issue with centre inverted. These stamps were printed by Messrs. Perkins, Bacon & Co., and Mr. Higlett's find constitutes, we believe, the only known occasion when such careful workmen have let an error of this nature escape their detection. Mr. Higlett was fortunate enough to buy this stamp from a dealer for a few pence, from a book which had already been subjected to the inspection of other collectors. He has, therefore, double reason to congratulate himself on his philatelic keenness."

Adhesive. Variety centre inverted.
20c. myrtle and dull rose.

INDIA (652 C 653).—We have received a large supply of the following:

Portrait of King George.
½a. grey.

Issued 1.3.12. The 1, 2 and 3 annas were also reissued on the same date.

LUXEMBURG (651 W 653).—We have received sheets of the 62½c. on 87½c. provisional, and find the surcharge almost undecipherable owing to the dark blue colour of the stamp.

NEW HEBRIDES (648 Q 653).—In E.W.S.N. No. 632 we quoted a correspondent as follows:—

"Mr. C. Davis writes (23.10.11): 'A friend visiting Vila as late as August 22 informs me that the 25c. was not issued although all the other values of the French pictorial set were on sale. The Postmaster said he had had no authority from Paris to issue the stamp, from which I gather that he had the stamp in stock.'

"It is possible that this value was being kept back until the stock of the 25c. on New Caledonia was exhausted."

The Resident Commissioner, Vila, New Hebrides writes us under date of 11.1.12 commenting as follows on this paragraph:—

"I take this opportunity of correcting a statement that appears on page 2630 of your journal No. 632. At the time the enquiry referred to in the note was made at the Vila Post Office, no stamps of the new issue of the value of twenty-five centimes had been received from Paris, consequently the Postmaster was unable to supply the demand. The Postmaster obtains his authority from the Resident Commissioners here, therefore could not have alleged that he had no authority from Paris to sell stamps that he had not in stock. Indeed, he assures me that he made no statement of the nature alleged by your correspondent. The matter is of no great importance, but I assume you aim at correctness in your publications."

The Resident Commissioner is also good enough to furnish us with a complete list of the surcharged Fiji stamps. As the figures differ in some cases from those previously published we give the full list here.

2½d. 14,990.
5d. 5,990.
6d. 2,990.
1/- 1,430. (Single wmk.?)

NOTE.—We believe the above was one printing which was divided, the two parcels being sent by consecutive boats. Previously published figures give 12,000 ½d. only. Were the other 2,990 a special print to include the ½d. single wmk. reprint? The 2d. were previously given as 10,800 and 9,336 respectively.

June, 1909.
½d. 7,200.
2d. 7,200.
5d. 7,200.

2d. 61,080.
5d. 18,240.
6d. 18,240.
1/- 17,880.

The record sent us unfortunately accidentally omits the figures for the 2½d. value.

The figures for the French issues may also be reproduced to make our record complete:—

Overprinted on New Caledonia.
Sept. 1908. Printed in Paris.

5c. 82,500.
10c. 133,500
25c. 133,500
50c. 61,500
1f. 20,250

Of these it is said on various authorities that they were disposed of in the following manner:—

	Sent to Vila.	Sold in Paris.	Surcharged Condominium.
5c.	12,000	28,500	42,000
10c.	30,000	19,500	84,000
25c.	30,000	7,500	96,000
50c.	12,000	7,500	42,000
1f.	6,000	4,250	10,000

As regards the latter issue, it seems clear that the 25c. value at least was never sent to Vila. We have not seen any figures published as to the quantities of the others sent out.

NEW ZEALAND (650 H 653).—We quote from the *Evening News* (19.3.12).

"New Zealand's new penny stamp, which has been designed by Mr. H. Linley Richardson, R.B.A., has just been sent out for official approval.

"The design shows King George's head, supported on one side by a symbolic figure of Zealandia, and on the other by a Maori chief."

PORTUGAL (651 O 653).—We have received another value of the new set:—

New value.
2½ centavo, violet.

Issued 18.3.12 or earlier. The 1 and 5c. have already been chronicled.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

BRITISH P.O. LEVANT (651 I 654).—We have received a supply of the ½d. King George, die ii.

Portrait of King George.

"LEVANT" as usual, overprint in black.

½d. green, die ii., sheets of 240, control letter B 11.

Issued 21.3.12 or earlier.

NEW ZEALAND (653 I 654).—We have received a supply of the ½d. with head of King Edward printed in the new colour yellow instead of orange.

Dominion Issue.

½d. yellow, perf. 14 x 14.

Issued 16.2.12 or earlier.

NICARAGUA (650 M 654).—We are informed by Mr. A. C. Roessler that six more values of the permanent design, "Liberty" type have been issued.

1911 Issue. "Liberty" type.

3c. yellow-brown.

15c. violet.

50c. light blue.

\$1 orange.

\$2 bottle-green.

\$5 black.

Issued 19.2.12. The complete set now stands as follows, 1, 2, 3, 4, 5, 6, 10, 15, 25, 35, 50c., \$1, \$2, \$5. The 25c. and 35c. are bi-coloured and mountain design, and are the only values to mar uniformity of design.

SERVIA (648 A 654).—We have received a supply of the error on the sheet of the 20 para newspaper stamp mentioned in E.W.S.N. No. 648. The 27th stamp has the value "50" instead of "20".

Newspaper Stamp.

20 + 50 para yellow.

Issued 15.2.12 or earlier.

SEYCHELLES (625 K 654).—From "specimens" copies the *Schweizer Briefmarken Zeitung* (3.12/57) describes the following forthcoming novelties:—

Portrait of King George. Wmk. Crown C.A. multiple.

2c. brown and green.

15c. ultramarine.

To be issued.

SOUTH AUSTRALIA (637 G 654).—We quote from the *Australian Philatelist*:—

"Mr. James has called our attention to the fact that in the sheet of the 8d. thick postage, watermarked Crown A, perf. 12½, several stamps have the value measuring 15½ mm., the normal measurement being 16½ mm. The difference, which is due to the wider space between the two words, is very noticeable when the two varieties are seen in a pair or block. These varieties are not together, as in the case of the large and small "Queensland," but are in various places in the sheet. The same varieties occur in the sheet on the Crown and S.A. paper. So far, we believe, they have not been chronicled."

UNION OF SOUTH AFRICA (643 L 654).—We quote from the *Evening News* (19.3.12).

"South Africa is inviting tenders for the printing of its new 'King George' stamps.

"The contract will be for five years, and it is calculated that a supply of about 100,000,000 stamps per annum will be called for."

UNITED STATES (651 J 654).—We are informed by Mr. A. C. Roessler that the values of the Pacific Exhibition stamps will be 1, 2, 5 and 10c.

Notes.

From the *Daily Mail*, 19.3.12.

A POSTAGE STAMP WARRANTY.

Suing for damages at Marylebone County Court yesterday for alleged breach of warranty, a stamp dealer said he bought a postage stamp from the defendant for £6 5s., with a warranty that it was genuine. He afterwards found it was originally a "specimen" stamp. It had not a genuine postmark, and was in fact, worthless. The defendant said he himself bought the stamp as genuine.

Sir William Selfe, giving judgment for the plaintiff for £5 and costs, said if a man was absurd enough to take upon himself the warranty of a thing when he knew nothing about it he must take the consequences.

From the "Postage Stamp" (23.3.12/305.)

"POST OFFICE" MAURITIUS.

We hear that Madame Desbois is dead. Her name will always be remembered by philatelists, as that of the lady through whose hands passed many of the celebrated "Post Office" stamps, issued in Mauritius in September, 1847.

The following record of the number of these rarities passing through the hands of one individual is interesting, and the prices she obtained are—considering those of to-day—more than instructive:—

1866.	2d., unused	..	—
1869.	2d., used	..	£4
1870.	1d., unused	..	} £20
	2d., "	..	
	1d., used	..	} £8 (?)
	1d., unused	..	
	1d., used	..	} £4
1872.	2d., used	..	
1875.	2d., unused	..	£12

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

BAVARIA (634 T 655).—In our last supply of the current issue received from Munich (1/3/12) we notice several new shades, the more distinct being:—

These were distributed with Ewen's New Issue Service last week.

6d. lilac and carmine.

To be issued.

VICTORIA (648 C 655).—We quote from the *Melbourne Argus* (27/2/12):—"Recipients of telegrams yesterday were surprised to find that the department had abolished the use of envelopes. The telegram form is folded in an oblong shape of about 3½ inches by 1½ inch, and is fastened with an adhesive stamp bearing the imprint 'Commonwealth of Australia—Telegram,' the address being written on the back as in the case of letter paper which is combined paper and envelope. This is the system followed in several foreign countries, and it has been under the consideration of the postal authorities for some time past. Its object is to save the cost of envelopes. But owing to the smallness of the size to which the telegram is folded, the new form of telegraph message is much more liable to be lost or to evade attention than those delivered in envelopes. Another drawback is that the method does not so well secure privacy as the envelope system, for it would be easier for an unauthorised person to open and read the new form of telegram and refasten it without fear of detection than would be the case were an envelope used."

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

NOTE.—The 2/6 in the second column are type iii., thin bar. The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

Issued 16.4.12 or earlier.

Mr. Fred. J. Melville writes in the *Daily Telegraph*:—"After many delays the stamp printing factory of the Belgian Government at Mallines has produced the new series of stamps for the reign of King Albert. It is considerably over two years since his Majesty succeeded his uncle, Leopold II., and for many months past contradictory descriptions of the designs of the new stamps have been appearing in the Continental newspapers. The artists named in connection with their production were M. Lemaire and M. Edw. Pellens, but each of the three different designs now before me bears the name of M. Pellens, who is a professor at the Antwerp Academie des Beaux Arts."

"The first copies of the stamps sent me by a Brussels correspondent are the 1 centime, 5 and 10 centimes, which are stated to be the only ones issued as yet. The 1 centime has a solid numeral of value on a lined background within a rectangular frame design of ornamental pattern. It has the French and Flemish styles of the name of the country. "Belgique" above and "Belgie" below. So, too, on the dominical label (which is similar on all three designs) the injunction "Ne pas livrer le dimanche" is also rendered "Niet hestellen op zondag." The colour of the 1 centime stamp is pale orange-brown, not salmon-pink, as announced. The 2 centimes stamp, which is not yet issued, is said to show an heraldic lion, framed with a ring, and its colour is announced to be deep red."

"The 5 centimes green shows a lion rampant crowned, with the left paw resting on the label containing the denominating numeral. The background is solid colour, relieved by the uncoloured lettering "Belgique," and a border composed of a colourless line and colourless dots. The name "Belgie" appears at the bottom in letters of colour on a colourless ground."

"The 10 centimes red is in a design which is to be repeated on all the denominations from 10 centimes up to 5f. This shows the portrait of King Albert. It is a three-quarters face portrait, and his Majesty is depicted in military uniform, with epaulettes and orders. The portrait is drawn in bold outline, and completed with the rather coarse tint necessary for the surface-printing of a portrait in the miniature size of a postage stamp. The background is without colour, and the frame is a severely plain rectangle, with broad bands of colour at top and bottom, bearing the names "Belgique" and "Belgie" respectively in uncoloured letters. The value also appears simply in figures at each side of the name on the lower tablet, "10 Belgie 10."

Fourth Philatelic Congress of Great Britain.

Arrangements both for business and social side of the Congress are now complete, and it is confidently anticipated that the fourth session of the British Stamp Parliament will prove productive and enjoyable.

The Secretary has pleasure in announcing that special facilities will be afforded Delegates and Visitors to the Congress by the majority of Railway Companies, return tickets available from April 30th to May 5th, being issued at a single fare and a third on presentation of a signed voucher obtainable from the Secretary on application, which will be supplied to every Delegate.

Thirty-nine Societies will be represented by ninety-one Delegates, so that with the various Committees and visitors the attendance will be considerably over 100.

The Congress Fund has now reached a total of £77 13s. 6d., but as considerably over £100 will be necessary to meet the heavy expenses entailed, additional donations are urgently appealed for in order that the Congress may be a financial as well as a social success.

Donations of stamps and philatelic literature for inclusion in the Auction in aid of Congress Fund are also earnestly solicited and should be forwarded without delay to C. W. Siggers, Esq., Hon. Auction Secretary, 33, Cliftonville Avenue, Margate.

The special Congress souvenir stamps designed by Mr. Wm. Ward and recess-printed by Messrs. Perkins Bacon & Co. are now on sale price 3d. per set of six, and may be obtained of the Hon. Secretary.

The Congress opens at 2.30 p.m. on Wednesday May 1st, and concludes with the official Banquet on Friday evening, May 3rd.

Collectors desirous of attending the Congress Sessions as spectators will be furnished with Passes enabling them to do so on application to the Hon. Secretary.

Special Pension terms are quoted to Delegates and Visitors by the Queen's Highcliffe Hotel, Margate, which is the Congress Headquarters, viz. 12/6 or 10/6 per diem inclusive, according to room, for a stay of less than three days.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (653 Z 658).—We have received the 5d. and 1/- Edwardian with "12" cut.

Perf. 14, 5d. lilac and blue, with "12" cut. Continuous lines.

1/- red and green with "12" cut. Continuous lines.

We have also received a supply of the 9d. with "12" cut in quite a new shade; the centre is a very dark lilac and the blue a pale blue.

BRITISH LEVANT (654 J 658).—We have received a supply of the 1 piastre, type ii. The letters of the new surcharge are thicker and consequently not so widely spaced.

Type ii. "1 Piastre" in black on 2½d. blue, perf. 15x14.

Issued 2.4.12 or earlier.

BULGARIA (638 T 658).—In our last consignment of stamps (19.4.12) the 3s. was a new shade, being dull carmine and black instead of a brighter red and black. This was sent out with our New Issue Distribution last week.

CAYMAN ISLANDS (640 Q 658).—From "specimen" copies the *Schweizer Briefmarken-Zeitung* describes the following forthcoming novelties:—

Portrait of King George. Mult. wmk. Crown CA., perf. 14.

½d. green.
2d. grey.
2/- violet and blue on blue.
3/- green and lilac.

To be issued.

CHINA (653 N 658).—We quote from *The Daily Telegraph*:—

"The Chinese stamps overprinted with characters signifying 'Provisional Neutrality' were promptly recalled and cancelled, but not before examples had been issued at the post office at Foochow. The regular stamps and the postage-due stamps have now been issued, overprinted with four Chinese characters denoting the new régime of the 'Chinese Republic.' The overprint on the postage stamps is in black on the ½ cent, 4, 7, 20 and 30 cents, and the 1, 2 and 5 dollars; and in red on the 1, 2, 3, 5, 10, 16 and 50 cents. On the postage-due stamps the overprint is uniformly red; but the stamps to hand are the ½ cent blue, 1 cent brown, 2 cents brown, 4 cents blue, 5 cents brown, 10 cents blue, and 30 cents blue."

COOK ISLANDS (643 I 658).—We have received a supply of the ½d. with the 14 perforation. Some of our sheets were upright watermark and some were inverted.

Perf. 14. Wmk. N Z Star. ½d. blue-green.

Issued 9.3.12 or earlier.

DENMARK (655 W 658).—We have received a supply of the new 35 øre stamp, permanent design.

35 øre bistrø.

Issued 22.4.12 or earlier.

FIJI ISLANDS (645 P 658).—The *Schweizer Briefmarken-Zeitung* reports that they have seen "specimen" copies of the first two values of the new King George set.

Portrait of King George. Mult. wmk. Crown CA. Perf. 14.

½d. green.
1/- black on green.

KEDAH (612 H 658).—We learn from the *Schweizer Briefmarken-Zeitung* that some of the values of the new set are already issued. The design is said to be far superior to that of the Kelantan and Trengganu stamps.

Branches of palm in centre, figure of value in four corners. Postage and Revenue at left side.

1c. green and black.
3c. red ..
4c. grey ..
5c. brown ..
8c. blue ..

NICARAGUA (655 O 658).—Mr. A. C. Roessler has shown us the following stationery:

1911 Issue. "Liberty" type.

Postcard.

4c. lilac.
10c. brown.

Issued 23.3.12 or earlier.

Correction.—The 25c. "Liberty" type chronicled a month ago in E.W.S.N. No. 654 was recorded by mistake as being the mountain design and bicoloured. It is only the 35c. of this set that mars the uniformity of design.

PORTUGUESE CAPE VERDE (640 V 658).—We have received a supply of the King Manoel stamps overprinted "Republica."

King Manoel surcharged "Republica" in red except the 20r. which is in green.

2½r. lilac.
5r. black.
10r. green.
20r. rose.
25r. brown.
50r. blue.
75r. brown.
100r. brown on green.
200r. olive-green on salmon.
300r. black on blue.
400r. black and blue.
500r. green and blue.

Issued 19.4.12 or earlier.

SEYHELLES (654 L 658).—From "specimen" copies the *Schweizer Briefmarken-Zeitung* (April, 1912) describes the following further values of the King George set:—

Portrait of King George. Wmk. Crown CA. Multiple.
3c. green.
6c. rose.

To be issued.

UNITED STATES (654 K 658).—We are informed by Mr. A. C. Roessler that the 1c. (Washington) and 2c. (Washington with numerals) are now issued imperforate.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

AUSTRALIA (645 H 659).—We quote from the *Melbourne Argus* (3/4/12):—

NEW COMMONWEALTH STAMP.
DESIGN ADOPTED.

The Postmaster-General (Mr. Frazer) yesterday had a little surprise for his colleagues when they assembled in Cabinet, for he presented each with a copy of the new Commonwealth postage stamp. For many years this stamp has been spoken of, but nothing definite was done until Mr. Thomas became Postmaster-General. It was he who called for designs from artists all over the world, and strange indeed were some of the devices received. There was a first prize of £100 and a second of £50. Many good designs were submitted, but neither Mr. Thomas nor Mr. Frazer considered that the one adjudged best by the judges was worthy of adoption by the Commonwealth. Accordingly Mr. Frazer set to work to produce something which he thought would suit the simple tastes of Australians. Once having struck the idea, he called in the Victorian Artists' Society to his aid, and Mr. Blamire Young with his pen and brush put the Postmaster-General's views into effect. It was a copy of Mr. Frazer's design thus produced that the Ministers saw yesterday.

The new stamp is simple. Its main feature is a map of Australia. This is in white on a background of fine coloured lines running horizontally across the stamp. There is no lettering on the map, but the bareness of the continent is relieved by the figure of a rampant kangaroo on a plot of grass. At the top of the stamp, in a severe straight line, is the word "Australia," while to balance this the denomination of the stamp is set out along the bottom. The value is shown in figures in the body of the stamp.

Now that the design has been decided on the dies will be cut. This will take a long time, and it is expected that it will be fully a year before the public will be able to admire or criticise Mr. Frazer's idea of what the first Commonwealth stamp should be.

BELGIUM (657 B 659).—We illustrate the 1, 5 and 10c. of the new issue.

CANADA (656 E 659).—Mr. E. H. Forsyth has shown us a 2c. Edwardian issue perforated vertically through the centre of the stamp.

DOMINICAN REPUBLIC (653 R 659).—We illustrate and chronicle the new 1c. stamp.

FRENCH WEST AFRICA (— A 659).—We quote from the *Evening Standard*:—

THE FRENCH COLONIES.

NEW POSTAGE STAMPS TO BE ISSUED
THIS YEAR.

Philatelists will soon have a novelty to add to their collections in the new French colony stamps for Dahomey and Senegal. The Postal Administration has just accepted the designs of M. de Nezière, to whom it had applied, and the engravers have already started to work on the corners, but the completed dies are scarcely expected to be ready much before the end of the year. The artist has followed the modern taste for symbolical figures illustrative of the country, and for Dahomey the stamp will show a native climbing up a palm tree to harvest the oil from the nuts. In the four corners will be represented the fantastic animals adored as gods or fetishes by the "medicine men" of the negroes, and the whole will be a picturesque little miniature souvenir of the African possession.

The Senegal stamp will give a sketch of the cotton market in an African village, with many native figures introduced. Though nothing has yet been said about it, there is every probability that the French Protectorate over Morocco will also produce a new series of stamps as soon as a regular postal service has been organised.

GILBERT AND ELLICE ISLANDS (651 G 659).—The *Berliner Briefmarken Zeitung* chronicles the following:—

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (659 B 660).—Mr. H. W. Baron writes: "No doubt you will have seen the notice to Postmasters, by which collectors are debarred from looking at the stock of stamps in hand, and debarred from asking in any way for stamps shewing control letters. I think this is a matter which ought to be taken up and strongly protested against. Not only is it, to my mind, an injustice to collectors, but it is debarring the Post Office from a legitimate sale of stamps. For instance, I required some blocks of different shades of current 6d. Great Britain for my collection, and just dropped into the local Post Office to enquire if there was anything in the stock of 6d. to suit me, and this new instruction was handed me for perusal, and the Postmaster General was a loser, so far as I am concerned, to the extent of at least 8/- to 10/-."

BAVARIA (655 U 660).—We quote from the *Bazaar* (3/5/12):—*Tête-Bêche Stamps of Bavaria.*—A novelty in Bavarian stamps has just appeared in the shape of *tête-bêche* pairs of 5 pfennig green and 10 pfennig red of the current, or "Prince Regent" series, and an explanation of the origin of these abnormal varieties will be of interest to collectors.

In December last the Bavarian postal administration began to issue stamp booklets containing ten stamps of 10pf. and twenty stamps 5pf. These booklets are sold at the face-value of their contents, viz., 2 marks, and the post office is able to do this without loss—or rather, it is said, at a substantial profit—owing to the insertion of advertisements. As in the case of the German booklets, these advertisements appear in the form of advertising labels, uniform in size with the postage stamps, and printed and perforated as an integral part of the stamp sheets; in other words, they are just like the well known "complementary labels" of the early Austrian stamps. Each booklet is made up of seven leaves of six stamps each, as follows: Two leaves, each containing five 10pf. stamps, and one advertisement stamp and five leaves, each containing four 5pf. stamps and two advertisement stamps.

In consequence of the introduction of these advertisements, it is obvious that a specially constructed plate of each value has to be used for printing the stamps for the booklets. This plate is made up of ninety stamps, including advertisement stamps, and these are arranged on the plate so as to give two adjoining vertical strips of ten stamps, each of which strips is placed upside-down relatively to the other, with the result that ten horizontal *tête-bêche* pairs of stamps are produced. Without the aid of an elaborate diagram and an equally elaborate description it is impossible to explain exactly why these particular twenty stamps are so arranged, but if the reader will look at a sheet of postage stamps of any kind, he will see that, if it had to be divided into small blocks to form the pages of a stamp-booklet, each page of which must have a margin on the left-hand side for the purpose of binding, the blocks taken from the right-hand side of the sheet would have to be bound in upside-down—an inconvenience which is, of course, avoided if the right-hand stamps of the sheet are printed upside-down.

It appears that the German stamp-booklets are also printed from special plates with *tête-bêche* rows like those of the corresponding Bavarian stamps, but the sheets are not allowed to reach the public in uncut condition. On the other hand, the Bavarian booklets stamp may be obtained in sheets before being bound, and hence it is possible for philatelists to obtain *tête-bêche* pairs of Bavarian stamps and not of German stamps.

The Philatelic Congress.

We quote from *The Times* (2/5/12):—

GIFT OF STAMPS TO THE KING.

The fourth annual session of the Philatelic Congress of Great Britain was opened yesterday in the Queen's Hotel, Margate. The Mayors of Margate and Ramsgate and about 150 delegates, representing forty Philatelic Societies in all parts of the Kingdom, were present.

Early in the proceedings the Chairman (Mr. A. Léon Adutt) read a letter to the King asking his Majesty to accept a sheet of the Congress souvenir stamps, printed in gold and royal purple, and also a set of first impressions from the plate in the six normal colourings. The stamps were sent to London by special messenger. The Curator of the King's collection was present at the meeting.

A report of the year's work, presented by the Secretary of the Permanent Congress Committee, was unanimously adopted. Next year the Congress will meet in Edinburgh by invitation of the Scottish Philatelic Society.

The sub-committee on forged stamps reported further progress and additional support from foreign Governments in their campaign against the "parasites of philately." It was deemed undesirable that publicity should be given to the methods employed by the committee in its work, but it is understood that prosecutions have already been instituted on the Continent against the manufacturers of forged stamps and so-called facsimiles. A substantial amount was voted to enable the committee to continue its work.

The Congress will continue for the rest of the week.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Stationery (645 A 662).—We quote from *Oswald Marsh's Weekly Circular* (18.5.12/1):—POSTCARDS, *George V.* 1d. single card.—This has now been placed on sale. We obtained copies in London on 14.5.1912. The stamp is of the same design as that on the 1d. letter card, and the inscription is similar to that on the last issue of Edwardian cards, excepting the arms now have the helmet and mantling added. The colour of the stamp is more of a vermilion red than of a carmine red, and the card itself of a deeper tint of buff.

Postcard.
1d. scarlet on buff. Georgian stamp.

Issued 14.5.12 or earlier.

AUSTRALIA (659 I 662).—We quote from the *Sydney Mail* (10.4.12):—

THE NEW COMMONWEALTH STAMP.

The new Commonwealth stamp is a delight to the humorist, but a grief to all others. It must have been conceived as a joke. It is a libel on Australia, because its obvious embodiment of a "white" policy is interrupted by a dozen blades of grass, as if the continent were really "Australia Deserta," and could grow no more! Thus bad begins, but worse remains behind—the clump of what might be grass so suspiciously resembles a rabbit that one suspects a worldwide intimation of the persistence of the pastoralist's pest. Why should a kangaroo rampant in a rocky Sahara continent, contemplating a badly-drawn rabbit in a miserable clump of herbage, constitute our national stamp?

BOLIVIA (661 X 662).—The *Berliner Briefmarken-Zeitung* (5.12/231) chronicles the following:—

Issue of 1909 Overprinted
"20 cents—1911" in two lines, in green, reading upwards, on 2c. green and black of 1909.

HAYTI (601 L 662).—We learn from the *Berliner Briefmarken-Zeitung* (5.12/232) that the 2 centimes de Gourde yellow is now issued in sulphur yellow.

JAMAICA (659 J 662).—We have received a supply of the 3d. Queen with multiple watermark inverted.

Inverted multiple watermark.
3d. on yellow.

PORTUGUESE ANGOLA (628 Q 662).—We have received a supply of the King Manoel stamps overprinted "Republica."

King Manoel surcharged "Republica" in red, except the 20r., which is in green.

2½r. lilac.
5r. black.
10r. green.
20r. rose.
25r. brown.
50r. blue.
75r. brown.
100r. brown on green.
200r. olive green on salmon.
300r. black and blue.

Issued 20.5.12 or earlier.

SPAIN (632 Z 662).—From the *Philatelic Journal of Great Britain* (5.12/88) we learn that the 1 peseta with portrait of King Alfonso is now issued.

1 peseta lake.

TRENGGANU (644 H 662).—We have received a supply of the following high values.

Design as above but larger.

High Values.

\$25 green and rose.

UNITED STATES (660 M 662).—We have received a supply of the new 2c. imperforate stamp.

We are informed by Mr. A. C. Roesler that the 3, 4 and 5c. are to be altered in design, a band with denomination will be placed over Washington's head.

VICTORIA (655 D 662).—Our Melbourne correspondent has sent us the current 3d. in a new shade.

New Shade.

Issued 17.4.12 or earlier.

He also informs us that the ½d. stamps in the 2/- booklets are now arranged in a different way. Instead of two rows of six, three rows of four sideways, thus:—

 Note.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

GREAT BRITAIN.—Current Issue (659 B 663).—We quote from the *British Philatelist* (5.12/19):

A "GEORGIAN" FIND.

Halfpenny, Type i.

The Wrong Perforation.

In forwarding the stamp, for a sight of which we are greatly indebted to Dr. Frederick, our publishers considerably broke the news gently. It was, however, not only a surprise but a shock, to find that any of the Georgian stamps had been perforated with a machine of the old gauge, for it was officially announced that the new stamps would all be perforated with the new machines, which give 15×14. Dr. Frederick's discovery is the halfpenny (type i.) with head of King George,

PERFORATED 14 ALL ROUND,

or, to be strictly accurate, 14 horizontally by 14½ vertically, the copy is used, the postmark being "Gorleston—21 Au.12".

We are informed by Mr. J. A. Leon that the £1 Somerset House printing is now appearing without the two "cuts" in the last stamp of the bottom pane, but with a single dot instead. We find on examining our stock, that we received this variety on 1.5.12.

We quote from the *Evening News* (3.6.12):—

NEW "KING GEORGE" STAMPS.

"King George" postage stamps of every denomination will be on sale at all post offices within the next few weeks.

Up to the present only those of a penny and a halfpenny value have been issued. The designs of the new stamps, by Mr. Bertram McKennal and Mr. Eve, have been approved, and are now being printed.

The delay in their issue has been due mainly to the Mint authorities, who are responsible for the dies and plates, having been busy with the preparation of the stamps to be used under the Insurance Act.

CEYLON (640 X 663).—We quote from the *Times of Ceylon* (15.5.12):—

NEW POSTAGE AND REVENUE STAMPS.

Commencing from about October next the Treasury will issue one kind of stamp only for postal, judicial, and revenue purposes. This is a concession to the public so that ordinary postage stamps may be equally used for judicial and revenue purposes. The new stamps will bear the head of the King George V. and, as at present, the different denominations will be in different colours.

The word "Ceylon" will be on the top, the words "postage" and "revenue" to the left and right of the figure, and the value in a space at the bottom. There will be seventeen denominations, ranging from two cents to rupees five hundred. The different values are:—Cents two, three, five, six, ten, fifteen, twenty-five, thirty, and fifty, and rupees one, two, five, ten, twenty, fifty, hundred, and five hundred.

Mr. Harte-Lovelace informs *Stanley Gibbons Monthly Journal* that he received from Tientsin a set of the current postage stamps, values ½, 1, 2, 3, 4, 5, 7, 16, 20 and 30c., surcharged in blue.

The current issue of the same journal has a descriptive article on a provisional issue stated to have been made at a provincial Post Office. The stamps surcharged horizontally with four characters were further surcharged vertically with four characters, so making a cross. These stamps were only on sale two hours, as a telegram was received by the Postal Commissioner from the Postal Commissioner at Peking, instructing his office to withdraw the stamps from circulation.

The following table shows the number of stamps issued:—

DENMARK (658 X 663).—We quote from the *Yorkshire Observer* (28.5.12):—

A NEW DANISH STAMP.

The recent death of the King of Denmark, lamentable as were its circumstances, is of considerable interest to the collector of postage

stamps, as it foreshadows a new issue to figure on a very slender page of his album. The smaller the country the larger the variety of its stamps is almost a rule in philately, but Denmark has very few issues since it was only towards the end of the long reign of Christian IX. that the portrait of the King was introduced—on the stamps of 1904. Before that a change in the designs was only necessary on a change of currency, which in Denmark, as in many Continental countries, has not been infrequent. It has however, one extreme rarity of quite recent date. Only a few weeks ago, owing to a fire which occurred at the works where the Danish stamps are printed, recourse was had to old stock, and a makeshift stamp was produced which consisted of specimens of an obsolete issue with a surcharge. This emergency stamp was issued only for one day—April 2 of this year.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

In describing the following stamps, we distinguish the watermarks by numbers as in the case of Papuan and other stamps printed at Melbourne; viz.:-

Issues	1, 2	Wmk.	Crown A upright, p. 11.
"	3, 4	"	p. 12½ (large holes).
"	5, 6	"	Crown A sideways, p. 11.
"	7, 8	"	" " p. 12½.
"	13, 14	"	" upright, p. 12½ (small holes).
"	17, 18	"	" sideways, perf. 12½ (small holes).

The second issue in each case has inverted watermark, which in the sideways watermark means "A" to left of Crown.

TASMANIA.

In describing the following stamps, we distinguish the watermarks by numbers as in the case of Papuan and other stamps printed at Melbourne; viz.:-

- | | |
|-------------|--|
| Issues 1, 2 | Wmk. Crown A upright, p. 11. |
| " 3, 4 | " " p. 12½ (large holes). |
| " 5, 6 | " Crown A sideways, p. 11. |
| " 7, 8 | " " " p. 12½. |
| " 13, 14 | " " upright, p. 12½ (small holes). |
| " 17, 18 | " " sideways, perf. 12½ (small holes). |

The second issue in each case has inverted watermark, which in the sideways watermark means "A" to left of Crown.

The Week's News.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (663 D 664).—We quote from Oswald Marsh's Weekly Circular (1.6.12):—

SOMERSET HOUSE PRINTS, 10d. purple and carmine.—“We have received this value from a sheet showing the '12' cut, and notice that the shade is changed, the red being of a more carmine tint than formerly. The sheets showing the '11' cut might have been described as being purple and scarlet, but now the colour is purple and carmine, the red portion being practically identical in shade with the present printing of the 1/- value. This completes the set of low values to 1/- known with the '12' cut.

KING GEORGE V. STAMPS.—The following is an extract from the Daily Telegraph report of the Postmaster-General's annual statement in the House of Commons on the 20th inst:—

The Committee might be interested to know the result of the sale of postcards and books of stamps at face value. Privately printed postcards had fallen 2 per cent.—from 753 millions to 738 millions—and official postcards had increased from 85 to 105 millions. The sale of the books of stamps had gone up from one to three millions. He regretted the delay in the issue of the higher denomination of Georgian stamps. At present the control of the manufacture and issue of stamps was in the hands of the Board of Inland Revenue. But the Government inserted in the last Finance Bill a clause transferring these powers of the Inland Revenue to the Post Office, and a Departmental Committee was now sitting to make arrangements for the transference. The delay had occurred through the necessity of providing better plates for the halfpenny and penny stamps, for the re-engraving of the head, and for the pressure in the manufacture and issue of stamps under the Insurance Act. He had every reason to hope the Board of Inland Revenue would obtain from the Mint the necessary stamps and the contractors the necessary prints of some of the higher denominations within next few weeks.

He had arranged for the sale of stamps in rolls of 1,000 or 500 penny or halfpenny stamps. This would be for the convenience of firms with a large posting business. A small charge would be made to cover the cost of manufacture of the rolls.

AUSTRALIA (662 J 664).—We quote from the Melbourne Argus (6.4.12):—

THE PASSING SHOW.

By ORIEL.

Question.—“Have you seen the new Commonwealth postage stamp?”

Answer.—“I have; it was issued to-day, and the Ministry is charmed with it.”

Q.—“What is the animal in the centre?”

A.—“It is, I am fully assured, a kangaroo, but it has met with a series of unfortunate accidents.”

Q.—“What is the thing it is standing on?”

A.—“It is a jig-saw puzzle.”

Q.—“Why is twopenny put in figures and also in letters?”

A.—“It is for those who are good at figures, but are poor readers, and vice versa.”

Q.—“What is the rabbit's head popping up for?”

A.—“To convey the idea to friends at a distance that the rabbit is sharing Australia equally with the kangaroo.”

Q.—“What would you take the stamp to be if you did not know?”

A.—“I should take it to be a label for Killjoy's hopless beer.”

Q.—“What effect do you think it will have on the public?”

A.—“An Oliver Twistian effect—they will never be satisfied.”

NEW ZEALAND (660 K 664).—We quote from the Yorkshire Observer (21/5/12).—

A PHILATELIC PORTENT.

Stamp collectors are much concerned at the menace to their hobby presented by the automatic franking machine, which has been introduced with success in New Zealand, and of which the Postmaster-General is now making trial in London. Vienna is said to be looking with acquisitive eyes upon it, and its attractions are to be brought to the official notice of Australia and Germany. Philatelists fear this machine may come in time to supersede the postage stamp and leave the collector with nothing to collect. At the recent Philatelic Congress in London it was pointed out that with the adoption of this mechanical monster “the angel of death would have gone over the philatelic world, and the exigencies of modern hurry would have deprived mankind of one of its most agreeable and instructive institutions.” But the threat is really of direr significance than seems here recognised. When once this Frankenstein is in office stamps will become rare and out of reach of the schoolboy's slender purse. His collecting propensities will be turned into some other channel and the ranks of stamp collectors will have lost their chief recruiting ground. The demand for stamps must decline in consequence, with an appalling effect on their values. Such a slump must inevitably still further deplete the numbers of philatelists, and the thinning out process will be continued till the hobby is confined to a few eccentric individuals. Some Lombroso, with an itch for discovery, will then arise to point at them the finger of pathological suspicion, the Eugenists will demand their inclusion in the list of those not allowed to marry, and the tale of calamity will be complete.

NIUE (646 D 664).—We quote from the Australian Philatelist (5.12/133):—“Two more additional values have been issued on the current New Zealand King's Head series. These were actually issued on the 30th November, but not supplied to the general public until the old stock had become exhausted.”

Surcharged in blue, perf. 14 x 14½.

6d. carmine.

Issued 25.5.12 or earlier.

ST. LUCIA (635 K 664).—From “specimen” copies, the Schweizer Briefmarken-Zeitung (6.12/119) chronicles the following new issue:—

Portrait of King George. Mult. wmk. Crown CA, perf. 14.

½d. green.
1d. carmine.
2½d. blue.
3d. brown on yellow.
6d. violet and red.

WESTERN AUSTRALIA (657 N 664).—The following new issues are chronicled by the Australian Philatelist (5.12/133):—

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (664 E 665).—We quote from Oswald Marsh's Weekly Circular (15.6.12):—

KING GEORGE V. STAMPS, 1d. type I. in new shade.—The philatelic sensation of the past week has perhaps been the re-issue of the King George 1d. type i., printed in the same colour as the King George 1d. type ii. It will be remembered that the 1st type was issued in a rose-carmine shade, whilst type ii. was issued in a scarlet shade, more approaching a vermilion-red. A re-issue has now been made of the old 1d. in the scarlet shade of the new or "improved" design. The first copies we saw were purchased on 10.6.1912.

KING EDWARD VII. SOMERSET HOUSE PRINTS, 6d. lilac.—We have seen a sheet of this value, which shows both the "11" and the "12" cuts! The former are quite as plain and distinct as the latter, but the two white cuts have each a dot in the centre of them.

We have this variety in the 1½d.

BOSNIA (591 Y 665).—We have received a supply of three new values of the Jubilee issue.

JUBILEE ISSUE.

MOROCCO, BRITISH P.O. (660 Z 665).—We quote from *The Times* (13.6.12).—

POSTAGE STAMPS FOR MOROCCO.—For the first time in its history Morocco is to be provided with a series of national postage stamps, which are even now in the course of preparation at the French Government Printing Establishment in Paris. The stamps are rectangular in form and bear a design showing a Moorish archway through which one is afforded a glimpse of a typical Moroccan landscape with the inevitable minaret, palm tree, etc. The inscriptions are in Arabic, with the values expressed in mouzana—the local equivalent of the centime.

SPAIN (662 A 665).—Mr. J. Malings tells us he has received the 15c. with control letter H at back. The current issue is now known with the following letters:—

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Stationery.—(662 B 666).—We have seen stamp books containing the 1d. Georgian die i. re-issued in the shade of the new or "improved" design. The first booklets containing Georgian stamps were die i. in the first colour; apparently there are none on sale yet which contain the stamps of die ii.

CHINA (663 Q 666).—The *Philatelic Journal of Great Britain* (6.12/116) has received the following interesting letter from Lt.-Col. Norris-Newman, dated Tientsin, April 9th, 1912.

CHINESE REPUBLIC STAMPS.

You will perhaps, ere now, have received some notification of what is being done here in the way of surcharging Chinese stamps by Revolutionary and Republican authorities. If not herewith all that I know:—

The first lot of Chinese stamps to be surcharged were done in Shanghai, and sent to Foochow (and perhaps other southern treaty ports) surcharged in red horizontally with 4 characters meaning "Provisional neutrality." There were only 3 cents, 1, 2, and 5, as far as I can ascertain, and were only on sale and issued on Feb. 7th, 8th and 9th, being then recalled and sent back to Shanghai. Of these I have a few used 3 cents and one each of the others.

The second lot were surcharged in Nanking, but as the U.S. Consul there, Mr. T. Gracey, practically cornered the market, getting 1379 out of the total of 1839 issued, and has left with them for the United States, on leave, I have not either seen one or been able to get one. They run from ½ cent to \$5 all values.

Another lot is surcharged with characters in red and in black, vertically, reading "Chinese Republic" and were done by the Statistical Department of the Chinese Maritime Customs, Shanghai, and sent out to all the big offices; but so far they have only reached me from Hankow, as the orders are to use up the present ordinary stock before putting the others in circulation. Here in Tientsin, I have seen the surcharged stock, but can get none at present. There seem to be a few varieties and reversed and double surcharges, of which I have a few from Hankow, and, naturally, shall look out for them when issued here.

GAMBIA (635 I 666).—We have received the following official notice from the Postmaster of Bathurst.

NOTICE.

Notice is hereby given that the new postage stamps, stamped envelopes and post cards of this Colony, bearing effigy of HIS MAJESTY KING GEORGE V. will be placed on sale on the 1st of September next.

The stamps, etc., bearing the effigy of the late KING EDWARD VII. which may be in stock on the 31st August next will be destroyed on that date.

General Post Office,
Bathurst, Gambia,
28th May, 1912.

IT IS NO ECONOMY

to save the small subscription to "E.W.S.N." (4/4 yearly), and live in ignorance of philatelic events.

NEW ZEALAND (664 L 666).—Mr. J. A. D. Reade has shown us a block of the ½d. surcharged "Official" perf. 14½. The 1st issue was perf. 14.

Surcharged in black "Official."
½d. green, perf. 14½.

PORTUGAL (659 R 666).—We have received a supply of another value of the new set.

New Value.
7½c. brown.

Issued 15.6.12 or earlier. The set now stands as follows:—½, 1, 2½, 5 and 7½c.

SOUTH AFRICAN UNION (654 M 666).—We quote from *South Africa* (15.6.12).—

THE UNION POSTAGE STAMPS.

We understand that in connection with the tenders recently called for by the Union Government for a supply of postage and revenue stamps and stamp stationery of the Union, the tenders of Messrs. De la Rue & Co., who have for a great number of years past contracted for all the stamps in the South African Colonies, has been accepted. The stamps will be printed by the surface plate process similar to existing postage and revenue stamps with the exception of the 2½d. stamp issued in October, 1910 (the only stamps which have been up to the present printed specifically for the Union). The values of the new stamps will range from ½d. to £50. The stamps will not be available for issue for at least another 12 months.

SPAIN (665 B 666).—We have received a supply of the 1 peseta with portrait of King Alfonso in the new design.

1 peseta, lake.

Issued 25.5.12 or earlier.

VENEZUELA (665 Y 666).—The *Philatelic Gazette* (6.12/329) chronicles the 50c. of the 1911 issue with blue centre instead of uni-coloured.

1911 Issue. Venezuela at top.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GILBERT AND ELLICE ISLANDS (664 I 667).—Three values of the King George set have now been issued.

Portrait of King George.

- 5d. lilac and olive.
- 6d. lilac and violet.
- 1/- black on green.

The earliest postmark we have seen on the 5d. is May 4th, 1912.

JAIPUR (652 S 667).—We have managed to secure the remaining values of the interesting provisional stamps issued at Jaipur and locally printed at the Jail press during 1911. The ½a. has already been chronicled.

Locally Printed. Imperforate, type-set in sheets of six different types (three rows of two).

- ½a. blue.
- 1a. pink to lake.
- 2a. grey to grey-black (shades).
- 2a. bright green to grey-green.

Doubly Printed.

- 2a. green.

Issued 1911, and obsolete for some time.

We understand that the authorities have gone back to stamps of the 2nd issue, but we have seen no recent importation. We are somewhat doubtful if they are the same in all respects, as the earlier supplies were printed in England, and we understand that either old plates or new plates were sent out from England and arrived in Jaipur in April, and that they were to be printed from the Jail press.

We understand that very few of the 2a. provisional stamps were printed, as this value is not much in demand, and the stamps were printed solely for local requirements.

We have also received the following stationery bearing stamps of the same type.

Postcard. Stamp in upper right-hand corner; rest of the upper half of card filled in with English and Native inscriptions, and with Native Arms in the centre. (An earlier provisional issue of postcard printed by the Raj press was without the Arms).

- ½a. blue on pink, green back.
- ½a. " " blue back.
- ½a. " " yellow back.
- ½a. blue on salmon, green back.
- ½a. blue on yellow " "

Doubly Printed.

- ½a. blue on pink, green back.

Envelope.

- ½a. pale blue, white paper (only one type seen).
- ½a. dark blue, white paper (three different types of this stamp seen).

Doubly Printed.

- ½a. pale blue, white paper.

Issued 1911, and obsolete for some time.

We have had a great difficulty in procuring specimens of this stationery, but a Native merchant has promised us a number of used envelopes from his old correspondence, so we may be able to give further particulars in an early number.

The three types of the ½a. dark blue envelope exactly corresponds with numbers 2, 3 and 5 on the above sheet. The ½a. pale blue envelope is number 6 on the above sheet.

Jaipur, or Jeypore, is a city and native state of India in the Rajputana agency. The city is a prosperous place of comparatively recent date. It derives its name from the famous Maharaja Jai Singh II., who founded it in 1728. It is built of pink stucco in imitation of sandstone, and is remarkable for the width and regularity of its streets. It is the only city in India that is laid out in rectangular blocks, and it is divided by cross streets into six equal portions. The main streets are 111ft. wide and are paved, while the city is lighted by gas. The regularity of plan, and the straight streets with the houses all built after the same pattern, deprive Jaipur of the charm of the East, while the painted mud walls of the houses gives it the meretricious air of stage scenery. The huge palace of the Maharaja stands in the centre of the city. Another note worthy building is Jai Singh's observatory. The chief industries are in metal and marble, which are fostered by a school of art, founded in 1868. There is also a wealthy and enterprising community of native Bankers. The city has three colleges and several hospitals. Population (1901) 160,167. The Ancient capital of Jaipur was Amber.

The state of Jaipur, which takes its name from the city, has total area of 15,579 sq. m. Population (1901) 2,658,666, showing a decrease of 6% in the decade. The estimated revenue is £430,000, and the tribute £27,000. The centre of the state is a sandy and barren plain 1600ft. above sea-level, bounded on the East by ranges of hills running North and South. On the North and West it is bounded by a broken chain of hills, an offshoot of the Aravalli Mountains, beyond which lies the sandy desert of Rajputana. The soil is generally sandy. The hills are more or less covered with jungle trees of no value except for fuel. Towards the South and East the soil becomes more fertile. Salt is largely manufactured and exported from the Sambhar lake, which is worked by the Government of India under an arrangement with the states of Jaipur and Jodhpur. It yields salt of a very high quality. The state is traversed by the Rajputana railway, with branches to Agra and Delhi.

Jaipur: Rare Provisional Issue of 1911.

These stamps are especially interesting to collectors, as they are printed in small imperforate sheets of six stamps, and the six stamps are all separately engraved. They are of considerable rarity, as the ¼a. was issued for about six months before its existence was known in Europe, and the remaining values were obsolete before they were chronicled. The 2a. is exceptionally rare, as very few were printed, though curiously more distinct shades are found in the 2a. than in any other value. We believe that none of these stamps at all were supplied by the Jaipur Post Office to importers or collectors, and the few supplies we have been able to obtain have come to us from Native merchants, who are not moderate in their idea of a profit.

We can offer the following in exchange against other stamps at the prices noted (basis S.G.), but we reserve the right to return any stamps that are of no use to us.

¼a. greenish-yellow,	6d.;	entire sheet of six,	3/-
½a. ultramarine	2/6;	" "	15/-
1a. pink,	2/6;	" "	15/-
2a. green or grey-black,	10/-;	" "	60/-

The six types of the sheet are easily distinguished. Amongst other variations the horse drawing the chariot has 4, 5 or 6 heads. There are two plates of the ¼a., but we are unable to supply the sheets of the first plate, of which we believe hardly any now exist.

We can also send the above stamps on approval at a slightly reduced price for cash; and we can also supply entire stationery, unused, as chronicled in this week's *E.W.S.N.*

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

TASMANIA.

In describing the following stamps, we distinguish the watermarks by numbers as in the case of Papuan and other stamps printed at Melbourne ; viz. :—

Issues 1, 2 Wmk. Crown A upright, p. 11.
 " 3, 4 " " p. 12 1/2 (large holes).
 " 5, 6 " Crown A sideways, p. 11.
 " 7, 8 " " " p. 12 1/2.
 " 13, 14 " " upright, p. 12 1/2 (small holes).
 " 17, 18 " " sideways, perf. 12 1/2 (small holes).

The second issue in each case has inverted watermark, which in the sideways watermark means "A" to left of Crown.

Pictorial or Queen's Head.
Issued April, 1906 or earlier.

10/- issue 4, mint, 11/8.

Issued 1907 or earlier.

Variety, 1d. Crown A, perf. 11 x 12 1/2, (S.G. No. 251, cat. 2/6), mint 1/3.

Die i. was very clearly engraved and die ii. was coarsely engraved, the clouds being shaded over. In die iii. there are large white patches on the clouds of most stamps on the sheet and the outline of the hill on the left is very indistinct.

Jaipur: Rare Provisional Issue of 1911.

These stamps are especially interesting to collectors, as they are printed in small imperforate sheets of six stamps, and the six stamps are all separately engraved. They are of considerable rarity, as the ¼a. was issued for about six months before its existence was known in Europe, and the remaining values were obsolete before they were chronicled. The 2a. is exceptionally rare, as very few were printed, though curiously more distinct shades are found in the 2a. than in any other value. We believe that none of these stamps at all were supplied by the Jaipur Post Office to importers or collectors, and the few supplies we have been able to obtain have come to us from Native merchants, who are not moderate in their idea of a profit.

We can offer the following in exchange against other stamps at the prices noted (basis S.G.), but we reserve the right to return any stamps that are of no use to us.

¼a. greenish-yellow,	6d.;	entire sheet of six,	3/-
½a. ultramarine	2/6;	" "	7/6
1a. pink,	2/6;	" "	15/-
2a. green or grey-black,	10/-;	" "	60/-

The six types of the sheet are easily distinguished. Amongst other variations the horse drawing the chariot has 4, 5 or 6 heads. There are two plates of the ¼a., but we are unable to supply the sheets of the first plate, of which we believe hardly any now exist.

We can also send the above stamps on approval at a slightly reduced price for cash; and we can also supply entire stationery, unused, as chronicled in this week's *E.W.S.N.*

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

 Note.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (665 F 669).—Some time ago we referred to the fact that a new watermark was being prepared for the Georgian stamps. We now find further particulars in *Oswald Marsh's Weekly Circular*, and take the liberty of quoting same.

NEW WATERMARK.—A new watermark is to be introduced for the Georgian postage stamps, consisting of a small Crown over the Royal Cypher in script G R V. The watermark is to be a multiple one, but it does not extend to the edges of the sheet, which are still to have the watermark POSTAGE. Some of the National Health Insurance stamps have already been printed and issued on this paper, so collectors who wish to see may get permission from some obliging postal official to inspect a sheet of these Insurance stamps. The watermark is not at all a distinct one, judging by the few sheets we have been permitted to inspect, and unless one knew what it was it would be no easy task to distinguish the Crown or the Cypher.

Stationery (666 C 669).—Mr. H. Sixsmith writes us 11.6.12:—"I have seen a stamp booklet containing the 1d. stamps in Georgian die ii., but the ½d. are die i. as before. The booklet was purchased by a friend at the Oldham Post Office, he tells me, almost a month ago."

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

AITUTAKI (659 M 671).—The *Australian Stamp Journal* (6.12/130) chronicles the current 2½d. perf. 14 instead of perf. 11.

New Perf.
2½d. blue, perf. 14.

DENMARK (663 Y 671).—The *Schweizer Briefmarken-Zeitung* (7.12/134) chronicles the following:—

Numeral Design instead of Head of King Frederick.
5 öre green.

DUTCH SURINAME (623 W 671).—We have received a supply of the following new Provisionals.

Large Figure of Value in Centre. Locally Printed.
2½c. green.
12½c. blue.

Issued 4.7.12 or earlier.

DUTTIA (647 C 671).—An Indian correspondent informs us that the following is issued with perforation.

Perf. 12½.
¼ anna, red.

MAURITIUS (652 G 671).—From a "specimen" copy the *Schweizer Briefmarken-Zeitung* (7.12/135) chronicles another value of the King George set.

Portrait of King George.
6c. rose.

NEW ZEALAND (666 M 671).—We quote from the *Australian Philatelist* (6.12/145):—

"We were commencing to think that New Zealand intended to keep in the straight path and cause collectors no further worries. Unfortunately, her latest vagary will make her fall very much out of grace. Our correspondent has sent us the following facts which he can vouch for:—In the early part of this year a requisition was sent to the Government Printer for 6d. postage stamps. The supply of carmine ink was almost exhausted, and they were unable to print the required number of sheets. To enable them to complete the order, what little of the carmine ink that was left was mixed with the brown ink used for printing the 5d. stamp, and the balance (a few sheets only) of the order was struck off in the mixed colour. Our correspondent has seen two copies; as they show the colour of the 5d. stamp only, it is evident that the small quantity of carmine left had little or no influence in altering the brown colour."

Error of Colour.
6d. brown.

GUATEMALA (647 K 671).—We read in *La Revue Philatelique Française* (7.12 104) that the stamps of 1902 are converted into official stamps by means of the word "OFFICIAL" perforated.

Perforated "Official."
10c. orange and blue.
20c. lilac and black.
50c. brown-red and blue.

PAPUA (661 T 671).—Our attention having been drawn to the considerable number of unused "O.S." stamps that appear to have forged "O.S.", we wrote to the Postmaster at Port Moresby to send us certified copies of genuine "O.S." We append his reply:—

"The Postal Department,
Port Moresby,
29th May, 1912.

SIR,

I have the honour to acknowledge the receipt of your letter of the 5th March last, regarding the perforation mark 'O.S.' on Papuan postage stamps, requesting that a certified impression of the 'O.S.' be forwarded to you. The perforation mark, as requested, is shown in the margin. Only this machine has been used in the territory, up till to-day; we have had no other. To-day, 'O.S.' stamps, perforated in Melbourne, have been issued for the first time.

I have the honour to be, Sir,
Your obedient Servant,
(Signed) H. W. CHAMPION,
Chief Postmaster."

SEYCHELLES (667 N 671).—We have received a supply of the first two values of the King George set.

Georgian Issue.
2c. brown and green.
15c. blue.

Issued 24.5.12 or earlier.

SORUTH (281 C 671).—There have been new printings of the following in rather brighter shades than heretofore. As on a previous occasion a certain number of sheets were imperforate.

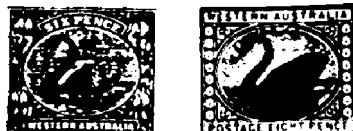

Perforated.
1 anna of a Koreae green.
4 anna of a Koreae rose.
Imperforate.
1 anna of a Koreae green.
4 anna of a Koreae rose.

There are 20 stamps in a sheet of the 1 anna, and five stamps in a sheet of the 4 anna.

VICTORIA (662 E 671).—Our Melbourne correspondent writes us on June 26th:—

"The great news this week is an impending provisional issue. It seems there is a shortage of paper owing to the late fire in the gumming department in Government printing works; so 5,000 sheets of twopenny stamps have been surcharged 1d. (twopenny stamps are not much used since penny postage). I have it on authority of controller of stamps that they are not only printed but lying ready for use, but he will not issue a single one until his present stock of normal 1d. is finished. Then they will be put on sale in the ordinary way, and as a very large number of this denomination is used, will not probably last longer than a week or two, being only £2,500 face."

WESTERN AUSTRALIA (644 O 671).—We give a revised list of the perforations of the three new stamps now issued with watermark Crown A.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The total cost of this fine collection at current
 quotations, if stamps were purchased separately,
 would be nearer £15 than £5, and the present
 opportunity is a splendid one to obtain a very
 representative collection of Papua at an extra-
 ordinarily low price. The official stamps are
 mint but postmarked, as their issue to the public
 was forbidden except in this state. All specimens
 are marked on back with their issue-numbers in
 pencil. Dealers would find the above a much
 more useful stock than any they could buy even
 at Papuan Post Offices.

TASMANIA.

In describing the following stamps, we distinguish the watermarks by numbers as in the case of Papuan and other stamps printed at Melbourne; viz.:-

Issues 1, 2 Wmk. Crown A upright, p. 11.

" 3, 4 " " p. 12½ (large holes).

" 5, 6 " Crown A sideways, p. 11.

" 7, 8 " " p. 12½.

" 13, 14 " " upright, p. 12½

(small holes).

" 17, 18 " " sideways, perf. 12½,

(small holes).

The second issue in each case has inverted watermark, which in the sideways watermark means "A" to left of Crown.

Issued April, 1906 or earlier.

10/- issue 4, mint, 11/8.

Issued 1907 or earlier.

Variety, 1d. Crown A, perf. 11 × 12½, (S.G. No. 251, cat. 2/6), mint 1/3.

"DANISH AND BOSNIAN POSTAGE STAMPS.—Pending the preparation of an entire new series of Danish postage stamps bearing a portrait of King Christian X. the current 5, 10, and 20 öre denominations with the likeness of the late King Frederick have been replaced by the same values in the numeral type, adopted in 1905-06 for the lower postal denominations. The series of pictorial postage stamps now current in Bosnia and Herzegovina will shortly be superseded by a new issue, adorned with the effigy of the Emperor of Austria."

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

THE NEW BARBADOS STAMPS.

The new issue of stamps for Barbados commemorating the accession of King George has appeared. The design, says Reuter, is rather complex, the Arms of Barbados—Britannia in her chariot, drawn by sea horses—appear in the lower right corner, overlooked by a very large sugar-cane plant. King George's head appears in an oval in the upper left-hand corner, while the value of the stamp is shown in a shield below. "Barbados" showing in white letters in a band at the bottom of the stamp. The shading is artistic, adds the correspondent.

PHILIPPINE ISLANDS (660 G 673).—We have received a supply of the 2 pesos in the new colour.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

GREAT BRITAIN.—Current Issue (673 I 674).—We quote from the *Weekly News* (30.5.12):

NEW ISSUE OF STAMPS.

The Hon. H. G. Ell (Postmaster-General) states that it may be some time before the King George issue of stamps is ready. A proof of an approved design was sent to London to be engraved, but the work of the engraver is considered to be so unsatisfactory that it has been rejected.

Just as we go to press we receive the 2d. King George.

CHINA (666 R 674).—Mr. W. S. Lincoln (15.8.12) writes us as follows:—

I have just received from my correspondent in Shanghai, the new overprint on the Chinese stamps, which were locally struck by the Postal Authorities at Hwang-do, a town about three miles from Hwang-tu.

The overprints were made in two colours, red and black, the latter of which are extremely rare, as they were only done in very small quantities, said to be not more than 5% of the total issue.

The Chinese characters are much larger than the ordinary issue, and the overprint is diagonal.

The following quantities are given me by my correspondent, of the complete set, which is only 1c. to 7c., as follows:—

½c.	..	1,570 stamps.
1c.	..	1,570 "
2c.	..	1,520 "
3c.	..	1,725 "
4c.	..	1,510 "
5c.	..	1,200 "
7c.	..	320 "

Surcharged with four large Chinese characters diagonally in red or black.

½c. brown.
1c. orange.
2c. green.
3c. blue green.
4c. scarlet.
5c. yellow.
7c. lake.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

In describing the following stamps, we distinguish the watermarks by numbers as in the case of Papuan and other stamps printed at Melbourne; viz.:-

- Issues 1, 2 Wmk. Crown A upright, p. 11.
" 3, 4 " " p. 12 1/2 (large holes).
" 5, 6 " Crown A sideways, p. 11.
" 7, 8 " " " p. 12 1/2.
" 13, 14 " " upright, p. 12 1/2 (small holes).
" 17, 18 " " sideways, perf. 12 1/2 (small holes).

The second issue in each case has inverted watermark, which in the sideways watermark means "A" to left of Crown.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

KING GEORGE V. POSTAGE AND REVENUE STAMPS.

To come into use on the 1st October.

First consignment already received.

The first consignment, consisting of two packages of stamps bearing the head of King George V., has already been received in the Island, having been brought by the P. & O. mail steamer "Medina" last week. The full issue is expected to be received before the end of next month. As has already been stated, when the new stamps come into use on 1st October, the present revenue stamps will be done away with, the new stamps, on the face of which are the words "Revenue and Postage," being used for all purposes—revenue, judicial, postage and telegraph. The new issue consists of stamps of sixteen values, as follows:—Cents, two, three, five, six, fifteen, twenty-five, thirty and fifty, and rupees, one, two, five, ten, twenty, fifty, one hundred and five hundred.

Simultaneously with the issue of the new stamps, there will also be a change in the stamp stationery, such as stamp labels, postcards and envelopes, printed locally. New dies with the King's head, for printing these, have already been received by the Government Printer.

DUTCH SURINAME (672 Y 677).—We illustrate the design of the new provisional and also chronicle another value.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

TASMANIA.

In describing the following stamps, we distinguish the watermarks by numbers as in the case of Papuan and other stamps printed at Melbourne; viz.:-

Issues 1, 2	Wmk. Crown A upright, p. 11.
" 3, 4	" " p. 12½ (large holes).
" 5, 6	" Crown A sideways, p. 11.
" 7, 8	" " " p. 12½.
" 13, 14	" " upright, p. 12½ (small holes).
" 17, 18	" " sideways, perf. 12½ (small holes).

The second issue in each case has inverted watermark, which in the sideways watermark means "A" to left of Crown.

Pictorial or Queen's Head.

Issued April, 1906 or earlier.

10/- issue 4, mint, 11/8.

Issued 1907 or earlier.

Variety, 1d. Crown A, perf. 11 × 12½, (S.G. No. 251, cat. 2/6), mint 1/3.

Issued 14th March, 1910, or earlier.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

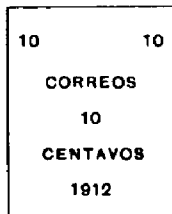

GREAT BRITAIN.—Current Issue (674 J 679).—We have now received the Georgian 1d. red "improved" design printed at Somerset House, with control B.12.

Mr. A. H. Thompson (23.8.12) writes us as follows:

I have been shown an interesting error in the Edwardian ½d. envelopes. The stamp is embossed in white, the green colour being quite absent. It is postmarked Dewsbury Oct. 2nd. 1906. It appears that 5 or 6 copies are known to have been in existence, but so little did one party appreciate his luck, that he actually returned his copies to the Post Office to be changed.

BOLIVIA (662 Y 679).—Mr. R. Thaxter has kindly shown us the following new provisional:—

1871 Figure of justice. Surcharged in red.

10c. on 1c. blue.

GIBRALTAR (669 T 679).—We have received a supply of the new King George stamps up to the 1/- value.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

Death of Mr. H. L'Estrange Ewen.

It is with deepest regret that we have to announce the death of MR. H. L'ESTRANGE EWEN, who died at Reading, on Tuesday, October 1st, after a long illness.

The interment will take place at Elmers End Cemetery, on Saturday, October 5th, at 12.30 p.m.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (679 K 680).—We have received the 2d. Georgian Issue in a much paler shade. The first sheet we purchased was a dark orange.

Georgian Issue. Wmk. Crown and GRV.
2d. pale orange.

Mr. E. W. Floyd has shown us the 1d. Georgian Issue with quite a new kind of gum, streaky, very thick and very shiny, which makes the paper seem thicker.

We quote from *The British Philatelist* (8.12/41):

ANOTHER "GEORGIAN" FIND.
NO WATERMARK.

We tried not to appear surprised, but even the Halfpenny perforated 14 all round was as nothing to the current One Penny (Type II.) on plain wove paper, which our publishers showed us a few days ago.

This latest find consist of a horizontal strip of eight, from the top of the lower pane, and with a portion of the space-filling pillars still attached. Whatever may be the explanation of this curious variety, it is beyond all question that the specimens do not show the slightest trace of any watermark at all; the paper is apparently of the usual quality, and the grain shows regularly and very distinctly.

Another rare variety in a series which as yet only boasts of three values; if the proportion remains constant, the Georgian Issue will keep up the reputation of Great Britain as being the most difficult "Country" to collect.

Type II. No Watermark.
1d. carmine-rose

BAHAMAS (677 R 680).—The *Schweizer Briefmarken-Zeitung* (8.12/153) chronicles the 1d. stamp, which complete the new set.

1d. carmine.

BARBADOS (675 U 680).—We have received a supply of the remaining values of the new King George set.

1d. carmine.
2d. grey.
2½d. blue.
3d. on yellow.
4d. blk. and red on yellow.
6d. lilac.

2/- on blue.
3/- green and lilac.

Issued 13.8.12. The ½d. and ¼d. have already been chronicled.

We quote from the *Barbados Advocate* 15.8.12.—

NEW STAMP ISSUE.

Yesterday, in the presence of the Postmaster and the Auditor General, all the remaining stamps of the simple Arms design issue were burnt, the new issue, which is very artistic in design, being on sale. The values of the new issue are farthing, halfpenny, penny, two pence, two pence halfpenny, three pence, four pence, sixpence, shilling, two shillings, three shillings

CEYLON (677 A 680).—From "specimen" copies the *Schweizer Briefmarken-Zeitung* (8.12/154) chronicles the following further values of the King George set.

5c. red-violet.
25c. yellow and blue.

CHINESE P.O. TIBET (675 I 680).—Mr. Fred. J. Melville writes us as follows:—

THE DALAI LAMA'S STAMP.

The present movements of the Dalai Lama, like the personality of the divine ruler of Tibet, are "wropt in mystery." It is generally supposed that he is not far distant from the Forbidden City of Lhasa, and on his ambitions a gleam of light is shed by a ruddy purple stamp of which one sheet has reached England through Mr. W. T. Wilson of Birmingham. The stamp has been prepared by the Dalai Lama's government apparently in anticipation of his return to rule the land of the Lamas, and it provides one of those philatelic emissions, unusual in these days of universal postage, which may attain to really considerable rarity and value. Even if it never reaches the stage of regular issue for postal use, the stamp will be a valuable memento of a lost cause.

The stamp is very crudely designed, and just as crudely printed, yet it bears traces of the Dalai Lama's recent long residence within the guardian Empire of India. It has evidently drawn its frame and spandrel ornamentation from the same value of the Edwardian 1 anna stamp of India. In the place of the central portrait however, there is the mysterious looking beast identified as the white lion of Tibet. Possibly by an error of drawing the white lion is shewn in colour on a white ground.

The inscriptions are in native and English characters, the latter reading "Tibet-Postage." The native characters are interpreted as (at top) POD—Tibet, SHUNG—Government; (below) YIG—letter, THE-HU—postage or stamp, KHA—anna, KANG—one.

The entire sheet comprising twelve stamps has emanated from the very highest quarters in Tibet, and no doubts of its authenticity are entertained by an eminent London philatelist to whom it has been submitted, and it has been secured as an

exhibit of unique interest for the International Stamp Exhibition which is to be held in London in October.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (680 L 681).—We quote from the *Daily Dispatch* (2.10.12.):

KING GEORGE'S STAMPS.

The threepenny George V. postage stamps will be issued in the course of a few days, and other denominations will follow at short intervals. No date, however, can yet be fixed for the completion of the issue of all denominations.

Mr. C. A. Cole (28.9.12.) writes us as follows:—It may interest yourself and your readers to know that I possess an extremely unique error in the Edwardian 1d. "A" or square shaped

envelope. The stamp is embossed in white only, the red colour being entirely absent. The envelope is in an unused condition and came into my possession through the medium of a Postal Official who had it returned to him at the Post Office here to be changed. The envelope was found amongst a packet purchased locally, and so far as I am aware it is the only known one to be in existence.

We quote from the *Daily Chronicle* (9.10.12):—
NEW PENNY STAMP.

Neater Design Issued by the Post Office yesterday.

A few days before the assembling of the international gathering of stamp collectors in London, the Post Office has put on sale a new and improved penny stamp. The much-abused design which has done service since the Coronation has been consigned to the limbo of the obsolete issue.

Philatelists, it is claimed, have been the most vigorous critics of the stamp just superseded, and have backed up their criticism by endeavouring to show the authorities a perfect stamp design, obtained by competitions among artists. The results of that competition provided the Junior Philatelic Society with the main idea of the design for an improved British stamp in the successful adaptation of the Royal Standard as a frame device; and an excellent portrait of King George has been embodied in the stamp design.

This collector's stamp, with a temporarily modified inscription, is to be printed and perforated at the International Stamp Exhibition in the Royal Horticultural Hall every day of next week, and the public will be able to compare the Government's latest attempt and that which has been obtained by philatelic and technical experience.

Compared with the present King George stamp the new one issued by the Post Office yesterday is finer and a little lighter in tint. More space is provided for the head of the King, which is therefore larger, and is in profile instead of "three-quarter." The lion disappears from the lower part of the design; the figure 1 is in each of the lower corners, so that the words "One Penny" do not extend fully across the stamp. Perhaps the change that is most artistic is the substitution of the heavy wreath round the King's head by a lighter and neater border, with laurel leaves bordering only the lower half. The words "Postage Revenue" running alongside the crown may not be generally regarded as an improvement. They are in plain, straight line instead of in scroll work.

CHINA (674 S 681).—We quote from a Chinese paper:—

NEW POSTAGE STAMPS.

Special Correspondence of the China Press.

Peking, August 29.—Mr. Homer H. Wong, Chief of the Postal Department of the Ministry of Communications has received instructions to issue three series of stamps for general use. Two will be commemorative issues, limited in number, and one will be the ordinary issue for future use. One set, bearing the effigy of Dr. Sun Yat Sen, is to commemorate the great struggle for freedom which yielded the revolutionary Government at Nanking, and the other set will be in commemoration of the effective foundation of the Republic under the President whose powerful face will appear on the stamps. The national sevice has been selected for the set for ordinary use.

INVERTED WATERMARKS (440 I 681).—Some time ago we compiled a list of Inverted Watermarks. We have a few additions from Mrs. Few and Mr. J. A. Limpus, which we now publish.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

UNITED STATES (678 O 681).—We quote from an American paper:

"Washington, Aug. 28.

"A new two-cent stamp in commemoration of the Panama-Pacific Exposition in San Francisco in 1915 has been approved by Postmaster-General Hitchcock.

"It is about an inch wide and an inch and a quarter long. It bears an engraving representing the Gatun Locks of the Panama Canal, showing a steamship emerging from the northern lock and another vessel being raised in the southern lock. In the middle distance is a group of tall palm trees and in the background rise the hills of the isthmus.

"Across the top are the words 'U.S. Postage,' and directly below is the line, 'San Francisco, 1915.' In each lower corner is an olive branch, typifying peace; and balancing it, on the right, is a palm branch, indicative of victory and the tropics.

"No colour has been selected for the stamp. The first issue will be on sale in a few weeks."

URUGUAY (645 F 681).—We have received a supply of a reissue of the current 2c. The design is the same, but the colour is much paler. We understand that the whole of the current issues are to be replaced by locally printed stamps.

The late Mr. H. L'Estrange Ewen.

IN MEMORIAM.

To readers of *Ewen's Weekly Stamp News* the intelligence of the death of its brilliant Editor will not come as a complete surprise, for the numerous enquirers from all parts of the world had been informed from time to time that Mr. Ewen was too ill to contribute his usual articles. It may prove of some interest, therefore, at the present time, to give a short account of the life-work of one who built up a large business, while still in his teens, by dogged pluck, continuous work and an instinctive genius for finance.

Herbert L'Estrange Ewen was born on July 6th, 1876, at Offord d'Arcy Rectory, near Huntingdon, his father being the Rev. Henry L'Estrange Ewen, M.A. His love of learning was apparent during his earliest nursery days, for he not only taught himself to read and write, but whilst still a child, having had frequent access to a fine library, he compiled a dictionary, composed of carefully arranged vocabularies in many languages, of which each word had been traced to its ancient root stock.

It was in his first school days that stamp-collecting became a hobby, and during the holidays at his home in Swanage (after his father's death) it was carried on with a fervour that infected the entire household, every member of which being often commanded to assist in sorting the contents of numerous packets of what was then considered "rubbish," contributed by friends to quiet the importunities of a victim of the newest "school-boy craze." But at no time of his life could he content himself with a pursuit liable, at any moment, to reach its limitation. Hence in his early teens, stamp-collecting, like the acquisition of languages, became of such an absorbing interest to him, that he determined to develop the hobby into something more practical and to open up its ever-increasing possibilities. His inherent business qualities, his habits of neatness and order, his marvellous gift of foresight and his early mastery of foreign

languages, all united in rendering him specially capable of inaugurating any commercial enterprise, and the business, launched under the name of "Ewen Bros." on his thirteenth birthday, with a capital of thirteen pounds, was an instant and conspicuous success; so much so, that Mr. Ewen was wont in after years to allude to the number "13" as one of particular luck to him.

He quickly realised the value of judicious advertisement, and by its means contrived to keep his stock replenished, while in 1889 a chance occurred by which he became the possessor of a bag of stamps, advertised to be sold for one pound. On the money being sent the bag was forwarded and proved to be a sack of such large dimensions that its contents (all of English stamps) covered the floor of an empty room, hastily cleared to contain them. This turned out literally a "lucky bag," for it realised from first to last many hundreds of pounds. These stamps, having been collected since 1840, afforded Mr. Ewen ample means for acquiring a thorough knowledge of each separate issue, and "Ewen Bros." speedily sent out catalogues, which aroused such widespread interest that the market for British stamps was at once established on a sound and recognised basis. School-life at this time was abandoned, as he frankly admitted that he was not being taught anything likely to be of use to him in his choice of a business—a choice he never regretted in after life; in spite of the disappointment freely expressed on the part of those whose ideas as to the education of a gentleman were firmly rooted on the public school and university precedents of many of his forbears. The "Ewen Bros." coalition came to an end in Mr. Ewen's sixteenth year, and from that time he developed the business alone. From 1892 to 1900 he was undoubtedly regarded as the leading expert of English stamps, and during those years he revolutionised the Philatelic business throughout Europe. While the S. African War was in progress, he maintained one of his clerks at the front in order to buy up the stamps used by the British troops, and it was the profit realised by the success of this venture which enabled him to establish his business in London, selecting the Norwood district, for its fine air and open situation. This move took place in 1903, and shortly afterwards he formed his business into a limited company, with a capital of £20,000—he being sole managing director and, as by this time, he had largely developed an enormous trade in Colonial issues, the firm was known as "Ewen's Colonial Stamp Market, Ltd."

Litigation occasionally gave him not altogether congenial occupation and the great case of "Lowden v. Ewen," fought for five days before the Lord Chief Justice, will be fresh in the minds of most philatelists—inasmuch as the interest was centred in some

remarkable forgeries which Mr. Ewen had not only discovered but exposed. He won the case, but his solicitor's bill of costs amounting to £912 12s. 3d., it was not surprising that he afterwards remarked, "It seemed rather a heavy penalty for speaking and vindicating the truth."

As the years progressed Mr. Ewen's interest in modern languages increased, the latest acquisition being Russian, which he spoke fluently, and he compiled in his rare leisure moments a new system for learning that difficult language. The journeys abroad became an annual event and in the many countries visited, language presented no insuperable difficulties. It is interesting to note here that Esperanto appealed to him not a little; he had been one of its earliest pioneers, and made considerable use of the language.

It may not be generally known that in view of the awakening interest shown by philatelists in stamps issued by the various railway companies for the conveyance of letters and papers, Mr. Ewen had devoted much time to the study of that hitherto unexploited branch of Philately. He published an exhaustive volume dealing with the subject, and gradually amassed a unique collection of these highly interesting stamps. He expended some thousands of pounds on its formation, and it had been his intention to have shown some portion of its treasures in the Philatelic Exhibition of October, 1912.

The numerous expressions of sympathy and regard that are daily pouring into the offices at 32, Palace Square, all testify to the honourable conduct of his business, and point to the unfailing esteem in which he had been held by all with whom he came in contact. He would be the last to wish any publicity given to his numerous benefactions, but this short account of Mr. Ewen's life would not be complete without some allusion to that generosity of spirit which showed itself in practical sympathy but also in the large-mindedness which precluded any possibility of petty recriminations, and the weaknesses of professional jealousy.

He allowed himself but little rest and there is no doubt that he both over-estimated and over-taxed his strength, and the many warnings from time to time of the illness to which he afterwards succumbed, had been so often disregarded, that his reserve force was not sufficient to combat the final attack. He lingered in bed for several months before death came as a release to suffering, borne with unwavering patience and heroism. Mr. Ewen will be missed by many outside his immediate circle—but to those who were fortunate enough to know him well, he will be an irreparable loss.

In consequence of the death of Mr. H. L'Estrange Ewen, the business carried on by him at 30 and 32, Palace Square, Norwood, will be disposed of. Any information concerning the same can be obtained, by letter, from 32, Palace Square, Norwood, S.E.

The late Mr. H. L'Estrange Ewen.

IN MEMORIAM.

To readers of *Ewen's Weekly Stamp News* the intelligence of the death of its brilliant Editor will not have come as a complete surprise, for the numerous enquirers from all parts of the world had been informed from time to time that Mr. Ewen was too ill to contribute his usual articles. It may prove of some interest, therefore, at the present time, to give a short account of the life-work of one who built up a large business, while still in his teens, by dogged pluck, continuous work and an instinctive genius for finance.

Herbert L'Estrange Ewen was born on July 6th, 1876, at Offord d'Arcy Rectory, near Huntingdon, his father being the Rev. Henry L'Estrange Ewen, M.A. His love of learning was apparent during his earliest nursery days, for he not only taught himself to read and write, but whilst still a child, having had frequent access to a fine library, he compiled a dictionary, composed of carefully arranged vocabularies in many languages, of which each word had been traced to its ancient root stock.

It was in his first school days that stamp-collecting became a hobby, and during the holidays at his home in Swanage (after his father's death) it was carried on with a fervour that infected the entire household, every member of which being often commanded to assist in sorting the contents of numerous packets of what was then considered "rubbish," contributed by friends to quiet the importunities of a victim of the newest "school-boy craze." But at no time of his life could he content himself with a pursuit liable, at any moment, to reach its limitation. Hence in his early teens, stamp-collecting, like the acquisition of languages, became of such an absorbing interest to him, that he determined to develop the hobby into something more practical and to open up its ever-increasing possibilities. His coherent business qualities, his habits of neatness and order, his marvellous gift of foresight and his early mastery of foreign

languages, all united in rendering him specially capable of inaugurating any commercial enterprise, and the business, launched under the name of "Ewen Bros." on his thirteenth birthday, with a capital of thirteen pounds, was an instant and conspicuous success; so much so, that Mr. Ewen was wont in after years to allude to the number "13" as one of particular luck to him.

He quickly realised the value of judicious advertisement, and by its means contrived to keep his stock replenished, while in 1889 a chance occurred by which he became the possessor of a bag of stamps, advertised to be sold for one pound. On the money being sent the bag was forwarded and proved to be a sack of such large dimensions that its contents (all of English stamps) covered the floor of an empty room, hastily cleared to contain them. This turned out literally a "lucky bag," for it realised from first to last many hundreds of pounds. These stamps, having been collected since 1840, afforded Mr. Ewen ample means for acquiring a thorough knowledge of each separate issue, and "Ewen Bros." speedily sent out catalogues, which aroused such widespread interest that the market for British stamps was at once established on a sound and recognised basis. School-life at this time was abandoned, as he frankly admitted that he was not being taught anything likely to be of use to him in his choice of a business—a choice he never regretted in after life; in spite of the disappointment freely expressed on the part of those whose ideas as to the education of a gentleman were firmly rooted on the public school and university precedents of many of his forebears. The "Ewen Bros." coalition came to an end in Mr. Ewen's sixteenth year, and from that time he developed the business alone. From 1892 to 1900 he was undoubtedly regarded as the leading expert of English stamps, and during those years he revolutionised the Philatelic business throughout Europe. While the S. African War was in progress, he maintained one of his clerks at the front in order to buy up the stamps used by the British troops, and it was the profit realised by the success of this venture which enabled him to establish his business in London, selecting the Norwood district, for its fine air and open situation. This move took place in 1903, and shortly afterwards he formed his business into a limited company, with a capital of £20,000—he being sole managing director and, as by this time, he had largely developed an enormous trade in Colonial issues, the firm was known as "Ewen's Colonial Stamp Market, Ltd."

Litigation occasionally gave him not altogether congenial occupation and the great case of "Lowden v. Ewen," fought for five days before the Lord Chief Justice, will be fresh in the minds of most philatelists—inasmuch as the interest was centred in some

remarkable forgeries which Mr. Ewen had not only discovered but exposed. He won the case, but his solicitor's bill of costs amounting to £912 12s. 3d., it was not surprising that he afterwards remarked, "It seemed rather a heavy penalty for speaking and vindicating the truth."

As the years progressed Mr. Ewen's interest in modern languages increased, the latest acquisition being Russian, which he spoke fluently, and he compiled in his rare leisure moments a new system for learning that difficult language. The journeys abroad became an annual event and in the many countries visited, language presented no insuperable difficulties. It is interesting to note here that Esperanto appealed to him not a little; he had been one of its earliest pioneers, and made considerable use of the language.

It may not be generally known that in view of the awakening interest shown by philatelists in stamps issued by the various railway companies for the conveyance of letters and papers, Mr. Ewen had devoted much time to the study of that hitherto unexploited branch of Philately. He published an exhaustive volume dealing with the subject, and gradually amassed a unique collection of these highly interesting stamps. He expended some thousands of pounds on its formation, and it had been his intention to have shown some portion of its treasures in the Philatelic Exhibition of October, 1912.

* * *

The numerous expressions of sympathy and regard that are daily pouring into the offices at 32, Palace Square, all testify to the honourable conduct of his business, and point to the unfailing esteem in which he had been held by all with whom he came in contact. He would be the last to wish any publicity given to his numerous benefactions, but this short account of Mr. Ewen's life would not be complete without some allusion to that generosity of spirit which showed itself in practical sympathy but also in the large-mindedness which precluded any possibility of petty recriminations, and the weaknesses of professional jealousy.

He allowed himself but little rest and there is no doubt that he both over-estimated and over-taxed his strength, and the many warnings from time to time of the illness to which he afterwards succumbed, had been so often disregarded, that his reserve force was not sufficient to combat the final attack. He lingered in bed for several months before death came as a release to suffering, borne with unwavering patience and heroism. Mr. Ewen will be missed by many outside his immediate circle—but to those who were fortunate enough to know him well, he will be an irreparable loss.

In consequence of the death of Mr. H. L'Estrange Ewen, the business carried on by him at 30 and 32, Palace Square, Norwood, will be disposed of. Any information concerning the same can be obtained, by letter, from 32, Palace Square, Norwood, S.E.

CHINA (674 S 682).—Mr. W. S. Lincoln writes us as follows:—

"I have just received a new overprint, emanating from "Kien Yang Fu," in the province of Fukien, like the "Hwang-do" surcharge, previously received, consisting of 7 values, ½, 1, 2, 3, 4, 5, and 7 cents, and the overprint is found both in red and black, the red ones being considerably rarer than the black.

I understand that only 1,000 of each value has been surcharged of both coloured overprints; The type employed for the surcharge is quite distinctive and can readily be separated from the other overprints."

DENMARK (672 A 682).—Mr. W. T. Wilson has kindly shown us a copy of the new Denmark 5 kroner.

1912. Large design. View of General Post Office.

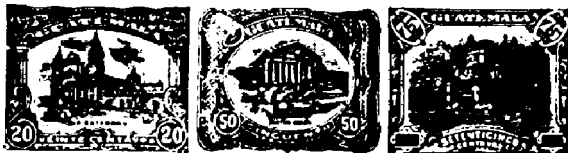

5 kroner red.

Issued 16.9.12. or earlier.

GAMBIA (680 M 682).—Mr. S. Abbott writes us as follows (9.10.12):—

"GAMBIA. King George. I have been adding these to my collection to-night, and find there is a distinct misprint on the 1s.; there appears a 'new moon' right across the face, and after due examination I am inclined to think that a hair has got on the plate, and so caused the peculiar appearance of a 'new moon', as no doubt the ink did not take each side of the hair."

GUATEMALA (647 K 682).—Mr. A. C. Roessler has sent us copies of 3 new provisionals.

1c. on 20c. lilac and black.
2c. on 50c. brown and blue.
5c. on 75c. lilac and grey.

Issued 10.9.12 or earlier. The principal variety is as follows:—

5c. on 75c.

The "2" in "1912" is omitted on the 7th and 57th stamp.

The type used is known to printers as extra condensed; many of the 2's of 1912, appear, especially in last printing, as "1's."

INDIA (676 G 682).—The London Philatelist (8.12/206, 9.12/233) chronicles four further values of the King George set.

Georgian Issue.

4a. olive green.
8a. bright mauve.
12a. reddish-purple.
25r. blue and brown orange.

We quote from the Philatelic Journal of India (9.12/158):—

NEW GEORGIAN STAMPS FOR INDIA.

The dies for the Georgian Stamps of India are being re-cut. The Government of India have objected to the head die as it throws a queer high light on His Majesty's countenance, especially about the nose and moustache. The new head die will remedy this defect, and also improve the appearance of the elephant in the chain around His Majesty's neck. To prevent a scarcity in stamps of any particular denomination the supplies already under order are being struck off from the existing plates.

But there is to be one important exception. It is thought that the present George V. 2½ anna stamp is a poor looking affair, and it has been decided to introduce the new 2½ annas label at once.

KEDAH (678 L 682).—We have received a supply of the following further value of the new set.

25 violet and black on blue.

Issued 14.9.12 or earlier.

NEW ZEALAND (671 N 682).—We have received a supply of the new stamp booklets, Edwardian Issue. The books contain eighteen 1d. and eleven ½d. stamps. In the space for the twelfth ½d. stamp there is a large green star. Each page contains six stamps, two rows of three.

PORTUGUESE AZORES (647 R 682).—We have received a supply of the new Portugal stamps surcharged "AÇORES."

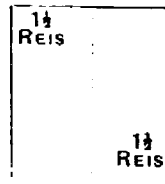

Surcharged "Açores" in black or red.

PORTUGUESE INDIA (681 C 682).—A correspondent has sent us some further sheets of the new provisional stamps.

SUDAN (615 I 682).—Mr. A. S. Mackenzie Low has shown us a block of the 10 piastres surcharged O.S.G.S. with watermark star and crescent, which he received from Egypt ten days ago.

Overprinted O.S.G.S.

10 piastres, mauve and black; watermark multiple Crescent and Star.

WESTERN AUSTRALIA (673 Q 682).—We have received a supply of the 1/- stamp on Crown A paper, and find the perforation is not as we previously chronicled it.

NOTE.—The 2/6 in the second column are type iii., thin bar.
The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

A Sunderland correspondent writes us as follows (18.10.12):—

You will be interested to hear that I have just purchased at the Sunderland Post Office four 2/- stamp booklets, containing ½d. and 1d. stamps of the King George issue, both being die I., and all on paper bearing the new watermark, namely "Crown over G V R". The position of wmk. differed in each booklet, being as follows: (1) all upright; (2) all inverted; (3) first six penny stamps upright, rest of booklet inverted; (4) pennies upright, halfpennies inverted.

CEYLON (682 B 683).—We quote from the *Times of Ceylon* (28.9.12.):—

A NEW STAMP REGULATION.

Extended Use of "Postage and Revenue" Stamps.

A Verbal Error.

Yesterday's "Gazette" notifies that H.E. the Governor has repealed, as from November 1st, 1912, the Notifications bearing dates January 25th, 1910, and May 31st, 1910, which require the use of certain special stamps for the particular instruments mentioned therein.

His Excellency has directed that from November 1st, the stamp bearing the words "Ceylon Postage and Revenue" shall be used for all the instruments chargeable with stamp duty under "The Stamp Ordinance, 1909," or any other Ordinance.

It might be pointed out that the words on the 5 cent stamp are "Ceylon—Postage—Revenue." Will the phraseology of the amended regulation have to be slightly altered?

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issues (683 O 684).—We have received a supply of the Georgian issue 2½d. value, all blue, with control A. 12 below the second stamp in the bottom left hand corner.

Georgian Issue, Wmk. Crown and G v R.
2½d. blue.

Issued 18.10.12.

A reader writes to the Editor of the *Edinburgh Evening Dispatch* with regard to the new issue of postage stamps:—"These stamps are supposed to be designed by the finest artists in the world; can anyone explain why the King's ear in the new 3d. stamp is totally different from the one in the penny." No doubt some of our readers have noticed the same peculiarity, which is clearly due to the shading lines being much closer together in the 3d. stamp, the whole head being smaller than that of the 1d. stamp. We print below a letter to the Editor of *The Standard*, from which it would appear that there is still some dissatisfaction with regard to the design of our stamps:—

NEW PENNY STAMP.

To the Editor of the *Standard*.

Sir.—It seems as though those responsible for the issue of our postage stamps were under some evil spell. They seem unable to produce a stamp which is not obviously deserving of the earliest possible suppression. The new penny stamp ought to meet the fate of its predecessors. A very casual inspection of it will show that it represents the King as having his mouth wide open and showing his teeth. I will leave your readers to characterise the total effect as they think best.

It really is a shame that the features of our King should be so caricatured. Is something simple and noble, like the Victorian vermilion halfpenny, utterly impossible? The new stamp—but for the point which I have mentioned—is certainly a great improvement. But why make it like a Belgian stamp by the insertion of perfectly unnecessary figures of value at the bottom corners? The value is on the stamp, and there is no other of that size of the same colour.

The mystery of the new 2d. stamp being printed almost the same colour as the 4d. stamp, so that by artificial light they are with difficulty distinguished, will also, no doubt some day be solved.

I am, Sir, yours truly,

Plymouth. EDWARD F. TAYLOR.

The following letter from Messrs. Perkins, Bacon & Co., appeared in the *Daily Express* (22.10.12):—

Sir.—The Postmaster-General, in his speech at the Jubilee Philatelic Exhibition, made, doubtless through want of technical knowledge, a serious misstatement.

He said that owing to the necessity of preventing the erasure of writing ink cancellations from revenue stamps, it was not possible to use the line engraved process for printing such stamps.

It is true that the early Victorian black and red pennies were not printed in doubly "fugitive" inks, as those stamps were not used for revenue purposes;

but engraved or "steel plate" stamps can be printed in "doubly fugitive" inks if required, and in a variety of colours, as the Somerset House authorities are well aware.

It is misleading the public to imply that it is the ink difficulty that prevents the line-engraved process being employed for the English stamps, especially as the half-penny and penny stamps, although used for revenue as well as postage, are not now printed in the doubly fugitive inks, which Mr. Samuel considers so necessary for the prevention of fraudulent re-use of the stamps.

He was told there were none of the perforated stamps in stock, but supplies were expected of the different values in from one to two months time."

UNION OF SOUTH AFRICA (666 N 684).—We quote from the *African World* (19.10.12):

UNION STAMPS.

The new issue of postage and revenue stamps for the Union of South Africa will be ready, it is expected, about the middle of next year. The designs have just been approved by the Union Ministers in Cabinet, and have been returned to England, so that the dies may be cut and the plates made.

The new postage stamp will be of a plain design, and there is nothing on it of a national or emblematical nature. The head of King George will be shown in an oval, the picture being the latest portrait of the King, who has approved it personally, and is the same as that used in the latest issue of the Imperial stamps. Down the two sides round the portrait will be printed the words "Union of South Africa" and "Unie van Zuid Afrika." The border of the stamp is in very simple, but effective, scroll work, and at the bottom, in the right and left corners, the value denomination of the stamp will be shown in figures. The stamp altogether is remarkable for the simplicity, though effectiveness, of the design. The issue of the ½d., 1d., and 2½d. stamps will be in accord with the fixed international postage colours—i.e., green, red, and blue respectively; the colours of the others will be fixed at a later date.

The revenue stamp, which is about half as large again as the postage stamp, carries a more ambitious and artistic design. Besides the King's head and inscription, at the top and on both sides, the stamp will be decorated with a curtain-like effect.

It is understood that in about three months' time the colour scheme will be submitted to the authorities here. In the meantime, the cutting of the dies will be begun immediately. The Treasury has at the moment stamps in stock to last until next September, so that the new issue will be ready before the old stock runs out.

URUGUAY (681 G 684).—We have received two further values of the locally printed stamps:

Current Issue—Locally Printed.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (684 P 685).—Mr. Randal Taylor, of Dumfries, writes us with regard to the 7d. stamp, p. 14, and encloses a letter received by him from Somerset House, part of which we publish as below:—

"In reply to your inquiry of the 22nd inst., I beg to inform you that it is the case that the 7d. Postage Stamp at present on issue was printed at Somerset House."

BARBADOS (680 V 685).—We publish the following article from *The Standard* (28.10.12) with regard to the new issue for this country. No doubt many of our readers are also trying to solve this philatelic puzzle.

QUEEN ANNE OR BRITANNIA?

Ancestress side by side with King George.

Queen Anne is exercising the minds of philatelists just now. They are anxious to know the qualifications of this august Stuart to figure alongside King George V. on the new issue of Barbados postage stamps. A few experts more leniently disposed towards the designer dispute the identity of Queen Anne, and claim to recognise the features of Queen Victoria. Both parties are agreed that the figure is not that of Britannia, which it has been stated to represent. Handsome and striking as the new Barbados issue may be, an old inconsistency in the design has now been transformed into a flagrant error. The earliest seal of the Colony showed a figure of the reigning British Monarch in a sea chariot. The seal of Charles II. reveals this very clearly. It is assumed that when Queen Anne came to the throne she took her place in the chariot on the Barbados seal.

The first Barbados stamps, issued in 1852 and line engraved, showed an undoubted Britannia, armed with helmet and trident, and leaning on a shield in the conventional way. In 1882, when the design was changed, the old theme of the seal was reverted to, and in the place of Britannia there was substituted a female wearing a crown, and holding not only a trident but an orb. The figure is believed by many to be an exact copy of that on the Queen Anne seal. Some, however, think that it is Queen Victoria, and support their argument with the fact that the figure was retained as the central object in the special Diamond Jubilee issue of 1897, when the stamp bore around the borders the inscription Victoria R.I., 1837-1897. In any case, however suited the design may have been to the reign of Queen Victoria, it is out of place with a male monarch on the Throne.

Discussing the point with a representative, Messrs. Stanley Gibbons, the philatelic experts, stated that the female figure was undoubtedly placed in the Barbados seal in the reign of Queen Anne, and when Queen Victoria came to the Throne it was introduced a second time. The presence of the crown and orb upon the figure

ruled Britannia entirely out of the question. The designer, however, undoubtedly took the figure as that of Britannia, and forgot to alter it. On the first Barbados stamp issue in 1852, the figure was clearly Britannia, but in 1892, a crowned figure riding on a shell drawn by seahorses was substituted. "However correct the design may have been at that day," added Messrs. Gibbons, "it is now an anachronism. We may be prepared to accept it owing to the excellence of the design in other directions. Anachronisms are not uncommon in British stamps. The most flagrant, perhaps, is that in the stamps of St. Kitts-Nevis, an issue covering the two Islands. This stamp, first issued in 1903, and still current, shows Columbus viewing the land through a telescope. Columbus's period of activity in exploration ranged between 1492 and 1504. The first telescope was constructed in 1608."

BOLIVIA (680 Z 685).—We learn from *Stanley Gibbons Monthly Journal*, that a further provisional 5c. has appeared and is likely to be a considerable rarity, as only 300 copies have been surcharged.

5 Centavos

5c. on 20c., surcharge in black.

CANADA (673 I 685).—Mr. W. C. Black has shown us a block of the 5c. stamp in a distinctly new shade.

5c. deep ultramarine instead of indigo.

CHILE (648 Y 685).—*Le Timbre-Poste* (25.10.12) have received a communication from M. Forbin to the effect that the Chile 10c. blue appears with black centre instead of grey.

CHINA (682 T 685).—The *Collectors' Journal* (August 1912) chronicles the following surcharged postage dues:—

Postage Due. Surcharged Chinese Republic.

10c. brown.
20c. "
30c. "

DENMARK (682 B 685).—Mr. W. T. Roycroft sends us the following information from the *Evening News*:—

"A new issue of Danish postage stamps is in preparation (says the *Standard*), and will appear at an early date, bearing a portrait of King Christian X. in naval uniform.

The denominations are 5, 10, 25, 35, 50 and 100 øre, and the colours the same as those of the existing series."

FRENCH MOROCCO (665 C 685).—The *Collectors' Journal* for August last chronicles six values of the new Government issue.

Government issue.

2c. brown.
5c. green.
10c. scarlet.

GREECE (670 A 685).—Mr. W. T. Roycroft kindly sends us the following information from *The Evening News* (2.11.12).

NEW ISSUE OF STAMPS.

(From Our Own Correspondent.)

Athens, October 25.

It has been decided to issue a new series of postage stamp commemorative of the war. An eagle will be depicted holding a viper in its beak and tearing it asunder with its claws.

JAMAICA (678 L 685).—We have received a supply of the 2d. and 1/-, bearing the portrait of King George, as previously illustrated by us.

Portrait of King George.

2d. grey, ordinary paper, wmk. mult. Crown CA.
1/- black on green, chalky paper, wmk. mult. Crown CA.

Issued 2.8.12.

NICARAGUA (681 T 685).—An American client submits to us the following interesting information:—

Several European papers have chronicled the 6d. wine-red, locomotive type of Bluefields, Nicaragua. First chronicled in Germany, about two months ago, I wrote there and received advices that the stamp was not on sale in Bluefields. To-day I have received three confirmations from Government officials that this stamp is not on sale at any post office in the district. The fact that this stamp should make its appearance first in Germany leads credence to rumour that a Berlin dealer has bought a part of stock.

PARAGUAY (646 Z 685).—From *Stanley Gibbons Monthly Journal* we learn that they have received a new provisional, as below:—

We have received a new provisional, 20c. surcharged on the 50c. of the 1910 type.

Habilitado
en
VEINTE

PORTUGUESE ANGOLA (679 S 685).—The *Ungarischer Briefmarken-Sammler* (31.10.12) tells us that three more of the provisional issue have been surcharged "Republica," viz.:—

2½ reis on 15 reis green.
5 " " "
10 " " "

SIERRA LEONE (677 C 685).—We have received a further supply of these stamps bearing the portrait of King George.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (685 Q 686).—We publish the following article from the *Daily Dispatch*, Manchester, (7.11.12) relating to the new issue of British stamps. Will a design ever be hit upon that will receive the general approbation of the British public?

COLONEL SYKES, M.P., AND STAMPS.

Strange as it may appear, in view of the results attained, it has ever been the aim of the Postmaster-General to issue stamps "pleasant" to the eye.

This was the confession made by Mr. Herbert Samuel in the House of Commons yesterday, when Colonel Alan Sykes, M.P., for Knutsford, asked him whether in selecting the colour of the new stamps he was influenced by "merely artistic considerations."

Making no direct reference to the greatly criticised 2d. stamps, Mr. Samuel pointed out that the colours of the ½d., 1d., and 2½d. stamps were prescribed by the International Postal Union. "For the other denominations," he added "my endeavour has been to obtain colours which will be both distinctive and pleasant."

In reply to another question, Mr. Samuel stated that the new issue would comprise 18 denominations and six different designs. Different designs were desirable for administrative reasons.

ARGENTINE (650 X 686).—*Mekeel's Weekly Stamp News* gives us the following information:

"A correspondent in Buenos Ayres informs *Champion's Bulletin* that the 5c. and 12c. values of the current series, which have previously been printed in New York, will hereafter be printed by the Casada de Moneda in Buenos Ayres, like the other values of the series. The price will be 14 centavos per 100, instead of 50 centavos."

AUSTRALIA (664 K 686).—We quote from *The Australian Philatelist* (3.10.12) as follows:—

"Within a comparatively short time the Postmaster-General hopes to be able to supply the public with new stamps. The design, as originally selected, had in it what looked like a turnip top before a kangaroo. Mr. Frazer, the Postmaster-General, said it was kangaroo grass, but so much exception was taken to it that he had a die cast from which this has been eliminated, and a shaded ground put in. The stamp has been improved thereby. Specimens in the various colours have been submitted and approved. Mr. Frazer has issued orders for the printing of a large supply. We have, however, received a communication from the Acting-Secretary of the Postmaster-General's department, stating that there has been no material change in the design of the stamp, as illustrated in your journal, other than that the word 'Postage' has been inserted under the word 'Australia.'"

CANADA (685 J 686).—Mr. A. Brun, a Canadian correspondent, writes us as follows:

"I beg to let you know that the President of the Cartier Monument has obtained the promise from the Canadian Postmaster-General that next year there will be a set of postage stamps to commemorate the centenary of Sir George Etienne Cartier, a great Canadian statesman, descendant of the discoverer, Jacques Cartier."

CHINA (685 U 686).—According to the *Philatelic Opinion* (October, 1912), a new type of the Republic overprint is being brought into use, the characters being wider and of slightly different shape from those of the old type. They are also more widely spaced, so that the overprint is taller than before.

The Times (5.11.12) says that three distinct series of postage stamps are about to be issued by the Republican Government of China, comprising a regular permanent issue in a new design, and two particular series, in honour of Dr. Sun Yat-sen, the deliverer of China, and of the founding of the Republic.

FIJI (680 S 686).—Mr. F. J. Melville writes to the *Daily Telegraph* (7.11.12) regarding the new issue of the £1 with portrait of King Edward:—

"It is late in the day for the issue of a new Edwardian stamp, yet among the newest issues is the £1 of Fiji of the King Edward series, printed in purple and black on red paper, in accordance with the Colonial colour scheme. As some of the values in the Georgian series are already in use in the colony, the change in the old £1 design is doubtless due to its having been printed and in readiness for issue for a considerable time, but the postal use of this denomination not being great, the exhaustion of the stock of the stamps in the old colours has only lately been effected."

GRENADA (634 G 686).—*Mekeel's Weekly Stamp News* (October, 1912) tells us that a new issue of postage stamps, bearing the portrait of King George, will replace the present Arms type sometime in January next.

NEW ZEALAND (684 P 686).—In our No. 671 we chronicled the 6d. value in a new colour, brown instead of rose, and of course immediately ordered a supply. To-day we have heard from the Postmaster to the effect that no 6d. stamps were printed in a wrong colour. Any difference noticed was probably due to chemical action subsequent to sale by the Post Office.

The following information received from our correspondent, Mr. H. W. Hawkins, fortunately clears up the mystery:—

4.11.12.

"From a reliable New Zealand correspondent I have to-day received the following extract: 'The so-called error, 6d. brown, you asked about was caused through a fire at a country office, several sheets of 6d. getting a good baking in a small safe, which turned them brown. The sheets were sent to head office to be destroyed, but, through some error, found their way into

stock. About twenty minutes baking in a quick oven will turn any number of red 6d. into this variety.'"

NORTHERN NIGERIA (681 F 686).—The *Hobbyist* says that the 2d. grey with portrait of King Edward has now appeared on chalky paper.

Portrait of King Edward.

2d. grey, on chalky paper.

QUEENSLAND (678 I 686).—The *Australian Philatelist* says that it has heard, on very good authority, that not any of the stamps of this State are likely to be surcharged, as they have no large stock of any value.

SOUTH AUSTRALIA (654 H 686).—The *Australian Philatelist* (3.10.12) have had submitted to them specimens of the 2s. 6d. value in quite a different shade to the one at present in use; perforation, paper and watermark as before. The design is much clearer and it is probable that the stamps are printed from new electros.

2/6 reddish-violet.

They have also been informed that £25,000 worth of 2d. stamps (3,000,000) have been sent to Melbourne to be overprinted "One Penny." Up to the time of writing, none of the stamps had been received back.

TASMANIA (638 E 686).—We are informed that the current 4d. value appears with new perforation.

4d., perf. 12½ x 11.

A large supply of the 2d. value have been sent to Melbourne for the purpose of having them surcharged "One Penny." They are expected to appear in Tasmania shortly.

UNITED STATES (681 P 686).—We quote *Redfield's Stamp Weekly* as follows:—

NEW PARCELS POST STAMPS.

Washington, Sept. 29.—When the new parcels post system becomes operative on Jan. 1, twelve new stamps will be placed on sale in Post Offices for affixing to packages. These stamps will be larger than the ordinary postage stamps. Arrangements already made by Postmaster General Hitchcock for their engraving and manufacture provide for a series of an even dozen, so distinctive as to colour and size as to prevent possible confusion with other stamps.

The twelve stamps will be issued in three series of designs. In the first series modern methods of transporting mail will be illustrated. The mail car of a railway train will be shown on one stamp; an ocean steamer on another; the third will have a motor wagon of the type used in the Postal Service, and the fourth will show a mail-carrying aeroplane. Postal employees will be shown at work in the second series. The figures will be those of railway mail clerks, post office clerks, city letter carriers and rural free delivery carriers. The third series will represent four industrial zones, showing the principal sources of products that will be transported most extensively by parcel post.

By December 1st, the stamps will probably be ready for distribution to the 60,000 Post Offices in this country.

In consequence of the death of Mr. H. L'Estrange Ewen, the business carried on by him at 30 & 32, Palace Square, Norwood, will be disposed of.

Any information concerning the same can be obtained, by letter, from 32, Palace Square, Norwood, S.E.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

(Whole Number 773.)

LONDON, SATURDAY, NOVEMBER 23, 1912.

[PRICE ONE PENNY.

Post Free 1½d. 4/4 per annum.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

ARGENTINE (686 Y 687).—The *Berliner Briefmarken-Zeitung* (9.11.12) chronicles the 1p., locally printed.

Labourer design.

1p. red and bright blue.

BARBADOS (685 W 687).—Mr. W. H. Regan writes us the following very interesting letter with regard to this country; he also submits to us an old "Barbadoes" 1d. coin:—

Having read your notices concerning the new Barbados stamps, I thought a sight of the enclosed coin might interest you. It is a Barbados (spelt Barbadoes on the coin) 1d. of George III. 1792, and depicts the reigning monarch as Neptune seated in a marine car.

Might I suggest that the lady in the marine car on the present stamps may be Queen Mary. That one does not recognise Her Majesty's features is little to go by, taking into consideration the difficulty we have had in perceiving the identity of King George V. on some of the new stamps.

BULGARIA (682 W 687).—Mr. F. J. Melville writes to the *Daily Telegraph* (14.11.12) as follows with regard to Bulgarian errors:—

To the list of misprinted Bulgarian provisional stamps of 1909 an interesting addition has just been discovered. It is the "5" on 30 stotinki brown, with the overprinted date reading "1990" instead of "1909." The error in the setting was known in connection with the "10" on 50 stotinki blue-green, but the existence of the companion error will probably be news to specialists in Bulgarian issues.

CEYLON (683 C 687).—The *Schweizer Briefmarken-Zeitung* (Nov. 1912), chronicles the following values of the King George set:—

Georgian Issue.

30c. green and violet.
50c. black and carmine.

Large size Nyassa design.

1 Rupee, purple on yellow.
2 " grey and red on yellow.
5 " black on green.
10 " violet and bright red.
20 " black and red on blue.
50 " lilac.
100 " black.
500 " green.

CHILI (685 Z 687).—Mr. F. J. Melville in his article in the *Daily Telegraph* (14.11.12) says:—

A new series of stamps is being issued in Chili of similar style to that at present in use, but there have been some changes in the portraits. A Valparaiso correspondent sends me the 2 centavos red, with portrait of Columbus, 4 centavos sepia, with portrait of Toro Zambrado, and 8 centavos grey, with portrait of Freire.

EAST AFRICA AND UGANDA (680 E 687).—The *Times* (13.11.12) tell us that among the latest additions to the rapidly-growing list of Georgian postage stamps is a set for this country comprising:—

Portrait of King George.

1, 10, 12, 15, 25, 50 cents.
1, 2, 3, 4, 5, 10, 20, 50 rupees.

FIJI ISLANDS (686 T 687).—We have received our supply of the first two values of the Georgian issue chronicled in our No. 658, viz:—

Portrait of King George.

½d. green, mult. wmk. Crown CA, on ordinary paper.
1/- black on green, mult. wmk. Crown CA, on chalky paper.

Issued 4.10.12.

INDIA (682 N 687).—We have received a supply of the Georgian issue 25 rupees, overprinted "Service."

Portrait of King George.

25 Rupees, blue and orange, overprinted "Service" in black.

Mekeel's Weekly Stamp News (2.11.12) chronicles the 4a. olive green surcharged "Service."

Portrait of King George.

4a. olive-green, overprinted "Service" in black.

We also quote *Mekeel's Weekly* for the following:—

"The *Philatelic Journal of India* says that the dies for the Georgian stamps of India are being re-cut. The Government of India has objected to the head die, as it throws a queer high light on His Majesty's countenance, especially about the nose and mouth. The new head die will remedy this defect, and also improve the appearance of the elephant in the chain around the King's neck. To prevent a scarcity in stamps of any particular denomination, the supplies already under order are being struck off from the existing plates. But there is to be one important exception. It is thought that the present 2½a. Georgian stamp is a poor looking affair and it has been decided to introduce the new 2½a. label at once.

Sir Charles Stewart Wilson, Director-General of Posts and Telegraphs, states that a certain number of the higher values of the last issue of the long telegraph stamps, Edwardian type, were overprinted 'On H. M. S.', the intention being to use them on official or service telegrams, but it is doubtful if any were actually used as the stock was burnt."

JAPAN (648 Y 687).—*Mekeel's Weekly Stamp News* (2.11.12) chronicles a new letter-card as follows:—

Mr. Schachne shows us a letter sheet which is really a letter-card with three times the space for correspondence. The size folded is 145×82mm., unfolded 327mm., not including the flap which adds 20mm. more. There are flaps at each side 10mm. wide on the upper quarter, all three gummed.

The only imprint is a round stamp at upper left and a single, separated, horizontal line at bottom with five characters in each part. The stamp has "3 SEN 3" in lower part and other Japanese inscriptions above and at sides. The card is upright rectangular.

Letter Sheet.

3s. red on white.

LEEWARD ISLANDS (670 R 687).—The following values have been added to the Georgian set and are chronicled by the *Berliner Briefmarken Zeitung* (9.11.12).

Portrait of King George.

2d. grey.
3d. purple and yellow.
6d. " "
1/- black on green.

NORTHERN NIGERIA (686 G 687).—The following further values of the Georgian set have appeared as follows:—

Head of King George.

5d. purple and green.
9d. purple and red.
1/- black on green.
2/6 black and red on blue.
5/- green and red on yellow.
10/- " " on green.
£1 purple and black on red.

ST. HELENA (656 C 687).—The *Berliner Briefmarken-Zeitung* (9.11.12) chronicles the Georgian set old design in larger size as follows:

Portrait of King George.

Large design.

½d. green.
2d. olive-green and black.
2½d. blue.
8d. dark-brown and grey.
1/- orange and dark-brown,
2/- blue and black on blue.

Smaller design.

4d. black and red on yellow.
5d. purple and red-violet.

SOMALILAND (656 Q 687).—The *Schweizer Briefmarken-Zeitung* say they have had the first values of the Georgian set submitted to them, viz:—

Head of King George, mult. wmk. Crown CA., perf. 14.

1a. carmine.
2a. red-violet and lilac.
4a. black and green.
6a. violet and green.

Large size.

1r. green.

Envelope.

1a. carmine and white.

SOUTH AUSTRALIA (686 I 687).—Our Australian agent writes us that he inquired when the 1d. on 2d. surcharged would be on sale. The reply he received was "Shortly". Evidently the postal officials do not know definitely, as they have to await the stamps from Melbourne.

WESTERN AUSTRALIA (685 S 687).—Our Australian agent writes us from Melbourne to the effect that the 1d. value has now reverted to Commonwealth thin paper. The 2/- red on yellow is now obsolete, and that all *Postage Dues* except the ½d. are "AUSTRALIA."

War Stamps.

It has by now become common that the misery of war enriches the stamp collector. At any rate they are bound to gain by the war in the Balkans. Until the new stamps appear Greece has issued provisionals for Lemnos, Imbros, Samothrace and Thasos—the islands restored by her fleet to the Athenian Empire after two thousand years. This provisional issue will be withdrawn at the conclusion of the war, so many philatelists will have to content themselves with the commemorative stamp at present being printed. The *Westminster Gazette* says: "The design for the new stamps is originally Greek, being an adaption of an idea furnished by the Director of the Numismatic Museum at Athens." The stamps issued by the Allies for the conquered provinces are to be all of the same type in design and decoration, the only difference being that the vignette in the middle of the stamp will be a picture of Sofia in the case of Bulgaria; Belgrade for Serbia; Cetinje for Montenegro; and of Athens for Greece. Above the four capital cities appears the same bright cloud with the fiery cross and inscription *In hoc signo vinces*.

In consequence of the death of Mr. H. L'Estrange Ewen, the business carried on by him at 30 & 32, Palace Square, Norwood, will be disposed of.

Any information concerning the same can be obtained, by letter, from 32, Palace Square, Norwood, S.E.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

from Ceylon, Cyprus, Gilbert and Ellice Islands (½d.), Mauritius, New Zealand, Solomon Islands, Southern Nigeria, Union of South Africa (1d.), and, of course, further home issues, and the same overprinted for Levant and Morocco. Later on in the year other sets may be expected, but a few pounds will probably cover *complete* sets of all this year, including high values.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (686 R 688).—The *Philatelic Circular* (1.11.12), gives us the following interesting details with regard to the *Roll Machine Stamps* :—

Stamps in rolls. These were issued on or about September 16th, and are of two denominations, ½d. and 1d., in form as under :

Rolls with large cores (about 1½ in. diameter).

	Price.
A.—Containing 1,000 1d. stamps, arranged to deliver top end first	£ 4 3 6
B.—Ditto 1,000 1d. ditto, ditto lower end first	4 3 6
C.—Ditto 1,000 ½d. ditto, ditto top	2 1 10
D.—Ditto 1,000 ½d. ditto, ditto lower	2 1 10
E.—Ditto 500 1d. ditto, ditto top	2 1 9
F.—Ditto 500 1d. ditto, ditto lower	2 1 9
G.—Ditto 500 ½d. ditto, ditto top	1 0 11
H.—Ditto 500 ½d. ditto, ditto lower	1 0 11

The letters A to H designate the denomination, quantity and arrangement, and will appear respectively on the outer band of each roll. It will be seen that 2d. above face is charged on a roll of 1,000 and 1d. on a roll of 500.

At present the rolls are made up from ordinary sheets, which are joined up by hand, the margins and central row of "pillars" first being removed. According to the *Daily Telegraph*, the reeling is done on a machine consisting of a series of cutters which slit up the twelve columns of stamps, which columns are connected with and run off on twelve separate spools.

ASCENSION ISLAND (A 688).—The following interesting article appears in the *Bayswater Chronicle* (16.11.12) :—

A special issue of postage stamps will shortly be made for the solitary island of Ascension, a diminutive coaling-station in mid-Atlantic, which is controlled by the Board of Admiralty and administered like a man of war. The population consists of the crew of seamen and marines, their wives and families and the staff of the Eastern Telegraph station. Some account of the postal facilities of this remote British possession are given in the latest edition of the "Stamp Collectors' Annual" (H. F. Johnson, 1s. net). Although Ascension has been included in the Universal Postal Union since 1896, no special stamps have as yet been issued, those of Great Britain having been employed throughout. The reason for this is that the postal service is conducted as on board one of H.M. ships, the assistant paymaster in charge acting as post master. The mail service is maintained by the vessels of the Union Castle Line, which touch at the island every month, under contract with the British Government. British postage stamps bearing the circular postmark indicating their use in Ascension are much sought after by stamp collectors, the values other than 1d. being seldom met with.

CAPE OF GOOD HOPE (553 Y 688).—We quote the *Stamp Collectors' Fortnightly* as follows :—

We have a postal-fiscal from this Colony, kindly shewn to us by Mr. E. Geo. Elliman: it is the current Twopence postage stamp, overprinted "CUSTOMS DUTY" in black in two lines. The specimen sent is on a piece of the original envelope, and bears the postmark of East London, July 14, 1910.

"Customs Duty" postally used.
2d., brown.

CEYLON (667 D 688).—Our Agent in Ceylon writes us as follows :

Colombo, 6th Nov. 1912.

The new King George stamps were issued from all the Post Offices on the 1st inst. As revenue stamps they have already been found fault with by the law officers, as the enclosed press cutting will show. It is very probable that

separate stamps for revenue purposes might again come into existence. In this country the postage stamps would have to undergo a change. The word "Revenue" would have to be removed.

Extract from the *Times of Ceylon*, 2.11.12.

THE NEW POSTAGE AND REVENUE STAMPS.

The new revenue and postage stamp, a description of which has already appeared in these columns, made its appearance for the first time yesterday at Hultsdorf. The new stamp is of the size of an ordinary five-cent postage stamp and differs in colour according to the values. The stamps are very pretty indeed, but the opinion is general in Hultsdorf that they are too small for revenue purposes, as the stamp, when it comes out of the puncher, is devoid of the date, the initial of the party, or the value, etc.

Some of the lawyers are of opinion that it makes the commission of a fraud all the easier.

COMMONWEALTH OF AUSTRALIA

(686 L 688).—Our Australian agent writes us that the letter cards have been changed again to thin green, resembling the third issue but smoother. So far the following six views have been seen in two or three colors each.

Letter Cards.

- 1d. Cairns Railway, Queensland.
- 1d. Zoo, Adelaide, S.A.
- 1d. Victor Harbour, S.A.
- 1d. Mount Lofty ranges, S.A.
- 1d. National Park, Melbourne, N.S.W.
- 1d. Lorne, Victoria.
- 1d. Russell Falls, Tasmania.

The "Russell Falls, Tasmania" card should be of special interest to philatelists, as it is the view on the Tasmania 4d. stamp.

EAST AFRICA AND UGANDA (687 F 688).—*Mekeel's Weekly Stamp News* tell us they have seen still another new value of the King George set for this Protectorate.

SAINT HELENA (687 D 688).—In our last week's issue we quoted from a German paper the set of Georgian stamps. We have since had a letter from a client who has already seen the stamps, telling us that they are wrongly described. We therefore publish the correct description :—

Portrait of King George.

Large design.

- ½d. green and black.
- 1d. carmine and black.
- 2d. grey and black.
- 2½d. ultramarine and black.
- 8d. lilac and black.
- 1/- black on green.

Small design.

- 4d. black and red on yellow.
- 6d. lilac.

SAINT VINCENT (669 Z 688).—*Der Philatelist* (15.11.12) have been informed that at the end of this year all the current stamps will be destroyed. The new set will be copper-plate, the values ½d. to 1/- in the Nyassa type and the high values in an allegorical design.

Georgian Stamps.

We publish a very interesting article below from *The Star* (18.11.12.) regarding the various issues of Georgian stamps for the British Colonies :—

"The Georgian stamps of the British Empire are interestingly reviewed in the 'Stamp Collectors' Annual' by Mr. L. W. Crouch.

King George V., it is stated, was on two occasions before his accession to the throne portrayed on a postage stamp. In June, 1899, a 5 cents stamp was issued in Newfoundland with a portrait of H.M. as Duke of York, and one value, the ½ cent of the Canadian Tercentenary series, issued on July 16, 1908, bore likenesses of his Majesty and Queen Mary, as Prince and Princess of Wales.

Newfoundland was the first country in the Empire to issue a stamp portrait of the philatelist King, both before his accession and after, for in September, 1910, the 15 cents of a set, commonly known as the 'Guy' series, lithographed by a London firm, bore his features.

On November 4th, 1910, the Union of South Africa, issued one value, 2½d., to commemorate the opening of the first Union Parliament, and this stamp also contained the King's portrait in its design.

A week later, on November 11th, Rhodesia startled the world with a long series of stamps with very indifferent portraits of King George and Queen Mary, in extraordinary combinations of colours.

The year 1911 produced very few Georgian stamps, only including the ½d. and 1d. of Great Britain; an engraved 15 cents of Newfoundland instead of the lithographed stamp; a 2 cents of the Coronation issue for the same island, and the beginning of a new series for India, depicting his Majesty in Imperial robes and wearing the crown.

In 1912, Messrs. De La Rue & Co. settled down into their stride in producing the Georgian series for various British Colonies and possessions.

Very little originality has been shown, and except for the new stamps for Barbados and India, the Georgians are mere slavish adaptations, says the writer, of their Edwardian predecessors. Similar uninteresting 'postage—postage' and 'postage and revenue' key-plates are being employed for many colonies. The so-called 'Nyasaland Type' key-plate has been used for the portrait of the new 3d. Jamaica, and will no doubt appear on several of the forthcoming series.

The first two Georgian, ½d. and 1d., were issued on Coronation Day, June 22nd, 1911, and were greeted with a storm of criticism. The Postmaster-General issued a re-drawn edition of these two values on January 1st, 1912. On August 20th, 1912, the first of the other denominations, the 2d., was sprung upon the public.

The design is tasteful, and the portrait far better than that on the ½d. and 1d.; a new paper, watermarked with the royal cipher instead of the crown, introduced as long ago as 1880, was employed.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

NOW IS THE TIME TO JOIN I

Collectors who wish to make sure of the first printings of the Georgian stamps are urged to send in their subscriptions to the New Issue Service at once. Subscribers to our New Issue Service are always supplied first from our importations, the stamps being distributed every Friday.

GEORGIAN ISSUES ARE EXPECTED IN THE NEAR FUTURE

from Ceylon, Cyprus, Gilbert and Ellice Islands (½d.), Mauritius, New Zealand, Solomon Islands, Southern Nigeria, Union of South Africa (1d.), and, of course, further home issues, and the same overprinted for Levant and Morocco. Later on in the year other sets may be expected, but a few pounds will probably cover complete sets of all this year, including high values.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

GREAT BRITAIN.—Current Issue (688 S 689).—As most of our readers are keen collectors of Great Britain stamps, we are sure the following article by Mr. F. J. Melville will be of interest to them:—

"One never can tell when an issue of stamps may develop into a series of interesting philatelic varieties, and many collectors have probably been neglecting to keep pace with the Georgian issue of the stamps of our own country in the mistaken idea that they will be able to get these whenever they want them. Our familiarity with the use of the stamps may breed negligence so far as the collecting of them is concerned, but collectors will pay for their neglect later on. Generally speaking, an issue of stamps for Great Britain, where the numbers printed run to millions, must remain common for many years to come. But there have been factors making for frequent and little appreciated changes in our stamps just lately, and some of the varieties thus brought about may be difficult to obtain later on.

As instances of scarce varieties of our Georgian stamps already known, there is the ½d., with the error of perforation gauging 14, i.e., with the old perforation instead of the new one gauging 15 by 14. There is also the 1d. lion stamp (second type) without watermark. Now the new watermark of the Royal cipher appears in two varieties. In the first type of the new watermark the devices were in alternating rows, but the watermark is now produced by a dandy-roll, on which the devices appear in regular perpendicular rows. The difference may be indicated thus:

FIRST CIPHER WATERMARK.	NEW CIPHER WATERMARK.
GR GR GR	GR GR GR GR GR
GR GR GR	GR GR GR GR GR
GR GR GR	GR GR GR GR GR
GR CR	

Both watermarks are of the 'all-over' or 'multiple' kind, but hitherto the multiple watermarks used for the Colonial stamps have been arranged similarly to the first of the cipher watermarks. The paper made with the first cipher watermark was in hand in readiness for postage stamps at the time when the demand for insurance stamps became pressing, and before the specially watermarked insurance stamp paper was ready. So the Royal cipher postage stamp paper was used, as I have already reported in *The Daily Telegraph*, for some of the insurance stamps. Before the stock of the old postage paper (watermarked Crown) was exhausted the new arrangement of the cipher was decided upon and brought into use. But it comes as a surprise to most collectors to find that there has been an issue of the postage stamps on both styles of the cipher paper, and it shows how desirable it is for collectors to keep a close scrutiny over the Georgian stamp denominations at this period of many changes."

BARBADOS (687 X 689).—Messrs. Whitfield King & Co. inform us that the 1/- value of King George and pictorial type is already exhausted. Whether this means that the value is to be permanently withdrawn or not they cannot say; in any case some time is bound to elapse before the stamp is again obtainable.

BAVARIA (672 W 689).—We have just received a postcard from a well-known German philatelic club, which reads as follows:

Urgent Warning.—Let it be known to collectors and dealers all over the world, that the old Bavarian stamps (1908) 3pf. and 50pf. "E" are now being forged in large numbers at Brussels, by over printing "E" and forged obliteration. A good 90% of all the 3 and 50 pf. "E" in the albums and trade are forgeries, so be careful.

BERMUDA (656 P 689).—*Alfred Smith and Son's Monthly Circular* chronicles a 1d. post card of the "ship" design.

Ship Design.

Post Card. 1d. carmine on cream.

CYPRUS (680 U 689).—It is reported that a registration envelope with the Georgian stamp has been prepared.

Head of King George.

Registration Envelope. 2 piastres, blue.

DOMINICA (639 A 689).—We learn from the *Colonial Office Journal* that the 3d. value appears on ordinary instead of chalk surfaced paper as hitherto.

EDWARD VII. LAND (A 689).—We are indebted to *The Bazaar* (22.11.12) for the following:—

"Considerable doubt has been cast upon the postal character of the overprinted New Zealand stamps used in the Antarctic Expedition of 1907. On his departure, Sir Ernest Shackleton was handed a supply of the stamps overprinted in green, together with the usual impedimenta of a fully qualified postmaster and was duly sworn in as such.

It now appears that this limited issue filled a true postal void, for mails were sent back from time to time by the explorers and these were franked by the stamps in question. Moreover, 'specimen' copies were delivered to the members of the Universal Postal Union, in accordance with the regulation, and letters franked with the overprinted labels were accepted by the Union and delivered, in one case in London, without any other postage payment. In particular, the *Nimrod* brought back the missives of the party of fifteen left behind at McMurdo Sound to winter. In all, 23,492 stamps of the face value of £97 17s. 8d. were supplied to the gallant explorer, 448 were distributed among the officers of the U.P.U., and a sheet of sixty was kept at the New Zealand chief post office, making a total issue of £100 face value."

GIBRALTAR (680 V 689).—We learn that a registration envelope with Georgian stamp has been prepared:—

Portrait of King George.

Registration Envelope. 2d. bright red.

GILBERT AND ELLICE ISLANDS (680 K 689).—*The Bazaar* supplies us with the following useful information:

Gilbert and Ellice Islands Stamps.—Our readers are aware of the high prices demanded for the ½d. and 1d. values of the first issue (1911) of Gilbert and Ellice Islands surcharged on Fiji. A correspondent has sent to Messrs. Whitfield King & Co. the following information:

"The great majority of the ½d. and 1d. surcharged Fijian stamps were used for postal purposes for inter-island postage. When the Post Office here first started the postal rates were 2d. to Australia and other countries and 1d. between islands, and it was only natural that the ½d. and 1d. were needed for the Group. . . . The total native population is, roughly, 26,000, of whom ninety per cent. over ten years of age are able to read and write, and the native mail probably exceeds that of any white country per population. There are twenty-eight populated islands in the Protectorate, and although there is a good service in each Group (Gilbert, Ellice, and Union) the actual connections between Ocean Islands and the Gilberts, the Gilberts and the Ellice, the Ellice and the Unions, is so bad that at times it has taken a letter over five months to travel from Ocean Island to the Unions."

The white population has been put at fewer than 150.

We find these statements somewhat amusing. It is difficult to imagine how, if all these ninety per cent. of natives over ten years of age were bursting to write letters, they managed before 1911. Apparently from the foregoing they did without a post office altogether until that time. What do they write about? Be it remembered that there were 12,240 of the ½d. stamps supplied,

and 12,000 of the 1d., and that in a very few weeks after the start the Pandanus tree set was in use. And if they were so keen on letter-writing, what has become of the letters with the stamps attached?

With such long waits between islands it would seem that the greater part of the letter-writing in the 'Provisional' period must have been between people in the same island—taking, of course, island by island. Collectors will observe that the total native population is 26,000. We have then to eliminate all under ten years of age—probably a good number—and then ninety per cent. of the remainder are possible letter-writers. And the people had to be educated to the use of stamps!

The difficulties and doubts about these two values seem to be increased rather than removed by the information in question; and assuming the facts to be as stated, they do not support the notion of *bona fide* postal uses to the extent that would appear on a first reading. But accepting all that, there is still to be answered the question: *Where are all the used labels?* Caution in purchasing at ruling prices seems more necessary than ever.

GRENADA (686 H 689).—The *Schweizer Briefmarken Zeitung* tells us that they have seen a registered envelope with the 2d. blue and white stamp, King George.

Head of King George.

Registered Envelope. 2d. blue and white.

HONG KONG (648 V 689).—The *Schweizer Briefmarken Zeitung* inform us they have had sent for their inspection the King George 4c. carmine on entire.

JAMAICA (685 M 689).—The *Schweizer Briefmarken Zeitung* reports the issue of the following wrapper:

Portrait of King George.

Wrapper. ½d. green on salmon paper.

MAURITIUS (681 I 689).—In the following article the *Northern Whig* gives a short history of two of the greatest philatelic treasures.

"Two of the rarest postage stamps, the sale price of which has shown the most marked advance, are the Mauritius penny red stamp and the Mauritius twopenny blue. For the former King George paid £1,460 in 1904. The two stamps together on the same envelope had fetched £2,400 in Paris the previous year. They date from 1847. The die from which they were engraved was, it appears, lately in the possession of a London stamp dealer. He had acquired it from the son of a former Post Office employee. He has now sold it to an English collector, and the interesting question for philatelists is whether its present owner can use it and put new impressions on the market. At present only twenty-four of these stamps are known to exist, and the power to add to their number is naturally not thought desirable by their possessors."

Registered Packets lost with the "Titanic."

We wish to draw the attention of clients from whom we have received enquiries respecting the consignments lost with the *Titanic* to the following extract from a letter sent us by the Postmaster-General:—"I am directed to inform you that the loss of the mails on board the Packet *Titanic* is now found to have been due to causes beyond control. No indemnity is payable by this Department in respect of the loss of a registered packet sent to a place abroad when the loss has arisen from causes beyond control (e.g., tempest, shipwreck, etc.), and it is regretted that in these circumstances no claim in respect of the registered packets in question can be entertained."

NOTE.—The 2/6 in the second column are type iii., thin bar.

The total cost of this fine collection at current quotations, if stamps were purchased separately, would be nearer £15 than £5, and the present opportunity is a splendid one to obtain a very representative collection of Papua at an extraordinarily low price. The official stamps are mint but postmarked, as their issue to the public was forbidden except in this state. All specimens are marked on back with their issue-numbers in pencil. Dealers would find the above a much more useful stock than any they could buy even at Papuan Post Offices.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

Postage Stamps in the Beginning.

Under this heading Mr. F. J. Melville writes the following very interesting history of postage stamps, to the *Daily Telegraph*:

Appropriately in this year of the jubilee of our pursuit, two of the ablest of philatelic bibliographers have collaborated on a most interesting work entitled "Early English Philatelic Literature 1862-1865." The authors are Mr. P. J. Anderson, Librarian to the Aberdeen University, and Mr. B. T. K. Smith, vice-president of the Philatelic Literature Society (London), which society has printed a limited edition of the work for its members. Not the least delightful part of this book is the record of curious instances of stamp accumulating prior to 1862, of which the authors have traced many newspaper and advertisement records.

For example, as early as 1842 the *Times* quoted from a Salisbury paper the romantic announcement that "a lady who had been receiving the addresses of a gentleman, with the sanction of her uncle, with whom she resides, has been promised by the latter the sum of £3,000, on her marriage provided she can produce postage labels, which have been used on letters to that amount." The quotation goes on to point out that as the required number of stamps (there were then but the two denominations, 1d. and 2d.) estimated at 720,000 was far too great for the lady to raise amongst her own acquaintances, the assistance of the readers of the journal was courted, and any number of used stamps would be thankfully received by "P.S., at the post-office, Milford, near Lymington."

We are informed as to the success which attended this particular lady's efforts, but it was probably this announcement that brought into vogue a new mania which "Punch" reported had bitten the industriously idle ladies of England in 1842.

They betray more anxiety to treasure up "Queen's" heads—as the labels were popularly styled—"than Harry the Eighth did to get rid of them." Another young lady, "being desirous of covering her dressing room with cancelled postage stamps," and having only succeeded in getting 16,000 from private friends, advertised in the *Times* at the end of October, 1842, and a few days later a correspondent struck a serious note in a communication to the same journal: "I fancy I 'smell a rat' in all these novel applications for postage stamps. Some time ago it was stated that a chymist had discovered some means of erasing the black ink stamp which the Post Office marks on the stamps of the letters to cancel them . . . so that they could be used a second time." The suggestion, probably quite unfounded, nevertheless may have struck terror to the Post Office officials, who during those early years of postage labels feared, and suffered more from, the illicit cleaning of stamps than from actual counterfeits.

There have been divers claims to priority in the formation of serious collections of the world's postage stamps, and also to priority of dealing in stamps, but the authors of "Early English Philatelic Literature" are content only when they can trace undoubted evidence in the shape of printed references. Of these the earliest was a communication from Mr. S. F. Cresswell, of Tonbridge School, to that useful storehouse of information on many abstruse subjects, "Notes and Queries," June 23rd, 1860. He says: "A boy in my form one day showed me a collection of from 300 to 400 different postage stamps, English and foreign, and at the same time stated that Sir Rowland Hill told him that at that time there might be about 500 varieties on the whole. This seems a cheap, instructive, and portable museum for young people to arrange." That about this time and during the next few years the hobby became popular in schools is evident from the answers to correspondents in the various journals for boys in 1861, beginning with one in *Beeton's "Boy's Own Magazine,"* which advised "W. T. and J. F. C. should advertise in, say, for cheapness, the *Daily Telegraph* for old foreign postage stamps." The editor goes on to say: "You cannot get them gratuitously. We know several collectors who have to pay for them."

The earliest English catalogue of stamps was published in April, 1862, and was entitled "Aids to Stamp Collectors," by Mr. Frederick Booty, who later in the same year issued a "Stamp Collector's Guide," which was illustrated by the author, a young artist then residing at Brighton. Two works which had perhaps a greater influence on the beginnings of philately were published in book form in the same year. One was Mr. Mount Brown's "Catalogue of British, Colonial, and Foreign Postage Stamps" (May) and Dr. John Edward Gray's "A Hand Catalogue of Postage Stamps for the Use of Collectors" (December). During the fifty years since those first English catalogues were issued a literature has sprung up that in volume probably surpasses that of any other collecting pursuit, to which the most complete bibliography is Mr. E. D. Bacon's monumental catalogue of Lord Crawford's Philatelic Library, published by the Philatelic Literature Society last year.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

from Cyprus, Gilbert and Ellice Islands (½d.), Mauritius, New Zealand, Solomon Islands, Southern Nigeria, Union of South Africa (1d.), and, of course, further home issues, and the same overprinted for Levant and Morocco. Later on in the year other sets may be expected, but a few pounds will probably cover complete sets of all this year, including high values.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

ARGENTINE REPUBLIC (690 A 691).—Mr. W. Mould, of Liverpool, sent for our inspection a post card bearing the 5c. red of the *Labourer* type and also an aviation stamp 5c. blue. The stamp is a large oblong, bearing the flag of the Republic with "Republica Argentina" across the top and "Pro-Aviation Militar—1912" in a single line across the bottom, on the right the figure "5" appears in a large "C".

Mekeel's Weekly Stamp News (23.11.12) chronicle a new express letter-card:—

Labourer type.

30c. carmine on white, outside buff.

AUSTRALIA (688 M 691).—The *Stamp Journal* writes:—"The date of issue for the new unified Australian postage stamps is now definitely fixed for January 1st, 1913, and arrangements are being made at the Federal Printing Office, Melbourne, for printing off large quantities of all values in the design approved by the Australian Postmaster-General. A single die has been engraved, common to all values, which is pierced for the insertion of plugs bearing the various denominations. From this die a small temporary plate of the 1d. value has been constructed, and proof impressions taken. The original design of a Kangaroo within an outline map of Australia has been adhered to, with some amendment of details, the inscription reading 'Australia-Postage-One-Penny' with the figure of value in the lower left hand corner. Some of the higher denominations are to be printed in two colours."

Our Australian agent reports six new views on letter cards, viz.:—

- 1d., The Botanic Gardens, Portland, Victoria.

- 1d., Lake St. Clair, Tasmania.

ÆGEAN ISLES (— A 691).—We quote the *Bulletin Philatelique*:—

"We continue to receive from the officials, the surcharges which are spoken of in the philatelic press, for the Islands of Ægean Sea occupied by the Italians. The postage stamps values 2, 5, 10, 15, 25, 40 and 50c. are issued with the surcharge of Libia, Rodi, Simi, Cos, Lipso, Patmos, Stampalia, Calmino, Casa, Nisiros, Piscopi, Scarpento, Leros and Karki. These stamps are to be in use during December, and the end of the war will render them useless. Our letter to the postal officials asked for information of the two stamps of 25 and 50c. surcharged *Egeo*, but our request was ignored."

The *Daily Express* (6.12.12) says:—

"Stamps of the Independent Republic of Nikaria, an island in the Ægean Sea which recently declared its independence, have reached London. The stamps, of which a complete series is stated to have been issued, are, in design, rather like one of the stamps of Crete, bearing the head of the goddess Hera. Though some of them have appeared on letters from Greece, it is doubtful whether they have been authorised, and they might easily have been passed through the post by error."

BELGIUM (682 I 691).—The *London Philatelist* draws our attention to the fact that the 25c. stamp chronicled by us in No. 682 appears with much larger head. Like them we failed to notice this at the time. They go on to say that the small heads are to be discontinued; new plates are to be made with the larger portrait. No further printings will be made from the small head plates.

CAYMAN ISLANDS (663 S 691).—From a specimen copy the *Schweizer Briefmarken Zeitung* chronicles a further value of the Georgian set.

Head of King George.

¾d. brown, multiple wmk., Crown CA., ordinary paper.

CHILI (687 A 691).—The *Philatelisten-Zeitung Bruna* chronicles the 10c. value with portrait of O'Higgins.

10c. blue-black. Portrait of O'Higgins.

EGYPT (656 B 691).—A correspondent in Egypt sends us the following cutting from the *Egyptian Mail* (3.12.12).

"The Council of Ministers, in its last meeting, approved the proposal submitted by the Postmaster-General, for issuing a new set of post-stamps.

"The present set has been in use since 1879. The new issue will be used from the beginning of next year, and will be the 5th issue of post-stamps since the formation of the postal service.

"The new stamps, which are already ordered from London, will comprise 1, 2, 3, 4 and 5 Milliems; 1, 2, 5 and 10 Piastres; envelopes of 1 and 2 piastres, and of 1, 2, 3, 4 and 5 Milliems; and Letter Cards of 1 and 5 Milliems.

"These stamps will be of different colours and will represent the Assouan Reservoir; the Citadel; the Sphinx; the temple of Luxor; a boat on the Nile; a view in the Fayoum; and two statues of the Kings' Hatour and Amon."

FRANCE (637 R 691).—The *Australian Philatelist* says with regard to the French stamps:

"It is almost incredible, yet it is nevertheless true, that it is proposed to place the likeness of Blessed Joan of Arc as a national emblem upon the French postage stamps. It is stated that there is much dissatisfaction with the existing series, which has undergone numerous changes since its first issue of 1900."

FRENCH COLONIES (— A 691).—The following colonies have received the "05" and "10" surcharge:—

Anjouan.—5 on 2c., 5 on 4c., 5 on 15c., 5 on 20c., 5 on 25c., 5 on 30c., 10 on 40c., 10 on 45c., 10 on 50c., 10 on 75c., 10c. on 1fr.

GERMANY (637 B 691).—*Mekeel's Weekly Stamp News* say they have seen a 10 pf. double card with divided face, also a 5 pf. with divided face. The upper half of left-hand space is occupied by a notice of seven lines enclosed in a single-lined rectangular frame with broken corners. It seems to be a "Breslau 1913" commemorative; only the stamp and address lines on the right-hand space, and the card is larger than ordinary.

Post Cards.

5pf. green and black on white, divided face.
10+10 pf. carmine on buff, divided face.

GREECE (688 C 691).—We learn that the *Schweizer Briefmarken Zeitung* received copies on the 2nd December of the intended surcharged stamps for the district of Thessalia, and

Macedonia, occupied by the Grecian troops. The two-lined black surcharge reads:

ΕΑΑΗΝΙΚΗ ΑΙΟΙΚΗΞΙΞ

On the 1, 2, 3, 5 lepta an error appears in the second line of the surcharge thus: ΑΟΙΚΗΞΙΞ.

Surcharge in black ΕΑΑΗΝΙΚΗ ΑΙΟΙΚΗΞΙΞ.

1 lepton, green.
2 lepta, pink.
3 ,, red orange.
5 ,, green.
10 ,, pink.

JAPAN (687 Z 691).—*Mekeel's Weekly Stamp News* chronicles the following new stationery:—

Post Cards.

1½s. rose on white.
1½+1½s. rose on white.
4s. lilac-brown on buff.
4+4s. lilac-brown on buff.

Letter Card.

3s. violet on brown.

KEDAH (682 M 691).—The *Schweizer Briefmarken Zeitung* chronicles a 10c. registration envelope in the same design as the ordinary 10c. stamp.

Registration Envelope.

10c. ultramarine.

MONTSERRAT (659 Z 691).—In a consignment just received by us, the ¼d., 3d. and 6d. values appear in distinctly different shades.

New Shades.

¼d. deep blue-green.
3d. brown on yellow.
6d. red-purple.

MOTOR-POST IN PATAGONIA (— A 691).—We quote from the *Stamp Journal* as follows:—

"An Englishman named Lionel Smith proposes to establish a private postal service, by motor car, between Punta Arenas (the southernmost post office on the American Continent) and Buenos Ayres. Depots for the storage of petrol are being established on the route, and arrangements made for conveying the cars across the rivers. Permission has been obtained from the Argentine postal authorities for the creation of two special postage stamps in connection with this service, the numbers of which are to be limited."

PAPUA (678 V 691).—The *Australian Philatelist* says that the two remaining values of the unicolored series have been issued, paper and perforation as before.

Unicolored.

4d. pale olive green.
2/6 rose red.

QUEENSLAND (686 J 691).—Our Australian correspondent writes, that on going through his stock he discovered a 9d. (S.G. No. 233), perf. 12½ compound with perf. 11; he believes it to be the only copy known.

RUSSIAN OFFICES (684 Q 691).—*Mekeel's Weekly Stamp News* say they have now seen the stamps for the Russian Offices in the Levant. The overprint is in an entirely new type, and is printed near the top of the stamp. The type used is a medium light face condensed Gothic, and the printing is very finely done. They are told that the 3½ pi. value was soon exhausted, as the number issued at Constantinople was small. These new stamps will be on sale only until the first of the year, as a new set will then be issued bearing the portrait of the Czar.

SUDAN (615 I 691).—The *Philatelisten-Zeitung Bruna*, report the following stamp.

Camel-rider.

2 milliemes, green.

TASMANIA (686 F 691).—Messrs. Whitfield King & Co., have received a supply of the 2d. value overprinted "One penny."

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.

The Week's News.

The Editor is always pleased to receive Early Information of New Issues, or of Discoveries interesting to Stamp Collectors.

The index number and serial letter after the title of each paragraph indicate the issue of E.W.S.N. in which the last reference to that country appeared.

AITUTAKI (671 N 692).—*Le Journal des Philatélistes* tells us that two more Edwardian New Zealand stamps have been surcharged for use in this country—the 6d. and 1/- values.

Portrait of King Edward.

6d. rose, surcharged "Onopene."

1/- orange, surcharged "Tai Tiringe."

BECHUANALAND (682 Q 692).—Mons. A. Torbin informs us that he has received the following new issue:—

Head of King Edward.

1/- green and red, surcharged *Bechuanaland Protectorate.*

BOSNIA (682 B 692).—The *Briefmarken Journal* chronicles a new post-card, with single lined heading "CARTE POSTALE" in the centre.

Post Card. 10 heller carmine, on yellowish paper.

DUTCH INDIES (690 R 692).—The *Germania-Berichte* chronicles the golden values as having appeared in new colours, and on greenish paper.

FRANCE (691 S 692).—Under the heading of "French Royalist Stamps" the following article appears in the *Evening Standard* (18.12.12):

"The French Postmaster-General has issued an order warning postmasters all over the country against a new form of seditious propaganda. During the last few weeks a quantity of stamps have been issued by the friends of the Duke of Orleans bearing his portrait. Others have caricatures of M. Fallières, or of the Phrygian-capped figure of the French Republic.

These little stamps, which have been distributed by the hundred thousand, bear the inscription: 'Long live the King!' or 'A bas la Gueuse!' and others have the Royalist device: 'Dieu Protège la France.' The Government considers their circulation as dangerous to the Republic, and M. Chaumet has suppressed them by a very simple method. Postmasters all over the country have orders not to deliver letters on which these stamps are fixed, but to return them to the sender.

It is not quite certain that this arbitrary proceeding is legal, for the French law says nothing about politics on envelopes. So the camelots of the King and the Royalist newspapers are raising a great uproar about the suppression of their letters.

Meanwhile, however, as the most ardent Royalist does not care to endanger the delivery of his correspondence, the stamps are circulating far less freely than they did."

NEW ZEALAND (686 Q 692).—The *Australian Philatelist* says:—

"Mr. S. D. Alston has shown us a pair of the current 1d. stamp imperforated at the bottom. They are portion of the bottom row of the sheet, apparently the whole row has escaped perforation. We were informed that three sheets were found in this condition.

Mr. J. H. Smith of Wellington, informs us that he has a specimen of the 4d. value (Lake Taupo) S.G. No. 119, perforated 11 vertically on one side,

as well as 14×13½ comb, the 11 perforation being well inside of the 13½."

PANAMA (611 Y 692).—The *Philatelic Journal of America* (Nov. 1912) writes as follows:—

"The Third Assistant Postmaster General's Office, 'Division of Stamps,' has issued a notice to postmasters under date of Nov. 21st, that the Post Office Department is about to issue a special series of stamps to commemorate the Panama-Pacific Exposition to be held in San Francisco in 1915.

These stamps measure ¾×½ inches, the long dimension being horizontal. At the top appear the words 'U.S. Postage' and 'San Francisco, 1915.' In the left hand border is a branch of laurel and in the right hand border a palm branch. A numeral expressing the denomination is shown within a circle in each lower corner, with the word 'cents' between.

The 1c. stamp is green and in the centre appears within a circle a bust of Balboa, discoverer of the Pacific Ocean, looking to the left and wearing a cuirass and a helmet with a plume. On either side of the background are palm trees, with the ocean in the foreground. Below the portrait is a horizontal panel; breaking the circle are the words, 'Balboa, 1553.'

The 2c. stamp is red. It represents the Gatun locks of the Panama Canal, with a merchant steamer emerging from one lock and a warship in the other. The mountains of the Isthmus appear in the distance and palm trees on the right hand side of the locks. Beneath the picture are the words "Gatun Locks."

The 5c. stamp is blue and presents the Golden Gate of San Francisco Harbour, with the setting sun in the background and a steamer and sailing vessel in the bay. The words "Golden Gate" appear below the picture.

The 10c. stamp is dark yellow. The subject is "Discovery of San Francisco Bay," from a painting which represents the discovering party looking out upon the distant bay.

The stamps are not to be placed on sale by postmasters until January 1st, 1913.

Every issue of Commemorative Postage Stamps is the means of interesting many new people in stamp collecting, and of reviving the dormant interest of many old collectors."

PAPUA (691 W 692).—The *Hobbyist* says that the post office department has received a cable that the postal administration of Papua has adopted the one penny per ounce rate for letters posted in that colony addressed to any part of the British Empire, dating from the 1st November, 1912.

RHODESIA (684 U 692).—In a consignment of stamps just received by us, the 2/6 value appears in a new shade.

Royal Portrait Set.

2/6 crimson instead of rose-red, with brown centre instead of black.

SPANISH GUINEA (644 S 692).—We learn from the *Stamp Lover* that several additions have been made to the 1911 provisionals. 1909 issue overprinted locally "Guinea 1911" in an ellipse, in black on 50c., in blue on 30c. and 40c., in red on 25c. and 1p., and in green on 4p. and 10p. White wove paper, perforated 14, surface-printed at Spanish Government Printing Works, Madrid.

25c. indigo blue.

30c. chocolate.

40c. lake.

50c. indigo.

1 peseta, green.

4 pesetas, orange.

10 pesetas, salmon.

SWITZERLAND (627 T 692).—The *Bazaar* says that a new design has just been ordered in Paris, of the famous Grasset, for the 3, 5, 10 fr. which will appear on the 1st January next. These values will serve to frank newspapers or printed matter forwarded in packets like newspapers in the United States.

SWEDEN (681 U 692).—The *Germania-Berichte* (15.12.12) says that the Service stamp in the new "Arms" design, 2 öre, has appeared.

Arms Design. Service. 2 öre, orange-yellow.

The *Stamp Lover* chronicles the 20 öre, on new paper.

New Paper. 20 öre, blue, white wove paper, watermarked wavy lines.

TASMANIA (691 G 692).—The *Australian Philatelist* tells us that of the current 2d. stamp 960,000 have been surcharged "One Penny," and that both varieties of perforation can be found.

WESTERN AUSTRALIA (685 S 692).—A Chester correspondent writes us as follows (17.12.12):—

"I hasten to inform you that I received a letter yesterday from Perth, Western Australia, which was stamped with a two-penny yellow stamp, perf. 12, wmk. Crown A, surcharged 'One Penny.' There is no dot after 'penny.' The date of posting in Perth was 19th Nov., 1912."

2d. yellow, wmk. Crown A, perf. 12, surcharged "ONE PENNY."

Red Cross Stamps.

WE publish the following article from *The Morning Post*. We are sure many of our readers have adopted the idea of fixing the stamps to Christmas cards, parcels, etc.

"The need for Red Cross work in the Balkans will by no means become less urgent on the cessation of hostilities. The situation is pitiable in the extreme, thousands of wounded and sick are dying from sheer lack of attention and medical necessities. Several British Red Cross Units have already left for the seat of war, where they are doing splendid work, but further and immediate help is urgently needed. In these circumstances, the British Red Cross Society has issued a series of Red Cross stamps, with a view to helping its funds and enabling it to carry on work of mercy. The stamps, which were issued yesterday, are printed in three colours, green at a penny each, blue at two shillings, and brown at five shillings. It is suggested—and there are indications that the suggestion will be widely taken up—that every person sending a Christmas card, should fix on it, or on the envelope, a Red Cross stamp. If Christmas cards bear the penny Red Cross stamps, it would seem a natural consequence that Christmas presents should be sealed with the shilling and the five shilling stamps. From to-day, the stamps will be on sale at stationers' shops, chemists' shops, and the large stores, and a special effort is being made to get the big hotels and principal clubs interested in the scheme. The hospitals are already taking it up. Large orders were received yesterday, and the prospects of substantial results from the appeal are excellent. The design on the stamps is reproduced from a drawing by Mr. Bernard Partridge, and represents a wounded soldier tended by a figure symbolical of mercy and comfort, while a Red Cross detachment can be seen in the distance bringing help."

A Curiosity in Stamps.

WE quote the *Evening News* (14.12.12) for the following interesting article, which appeared under the above heading:—

"Before we say good-bye to 12:12:12—and no mathematical stickler has written to say everyone is wrong about its not recurring for a hundred years—those persons who find pleasure, and profit (pardon so many parentheses) in the accumulation of old postage stamps may be given a hint.

"They should scan carefully the envelopes of letters received in this country yesterday from the French capital. If such letters were posted at the central office in Paris in time for the mid-day clearance the postmark will contain four twelves, 12:12:12:12, indicating the hour, day, month, and year."

The *Daily Express* (16.12.12) reproduced a photograph illustrating the excitement among stamp collectors in Berlin, occasioned by the extraordinary collection of "12's." It appears that Berlin post offices each bear a number, and letters posted at office No. 12 between noon and one o'clock were marked with five "12's." Collectors arrived in thousands (poor office No. 12) with letters addressed to themselves and their friends, and for nearly an hour all traffic was stopped in the neighbourhood.

PORTRAITS OF KING GEORGE V.

Complete List of Stamps issued to date with Portrait of His Majesty the King.

Collectors wishing to make sure of future additions to this List, should send a deposit for our New Issue Service, and indicate whether they wish stamps sent up to the face value limit of 1/-, 2/6, 5/-, 10/- or £1. Stamps can be supplied at the rate of either 10% over face, or 1/2 per 1/- face value, clients paying the latter rate having the preferential offer of rare varieties (on approval) which are not issued in sufficient quantity to admit of a distribution at usual rates (as often happens in the case of an error which occurs only once on a sheet). The usual deposit is about five times the limit of face value subscribed for.
