### Salutatory.

Our object in establishing a monthly periodical, is not so much that stamp collectors need another stamp paper, as it is that they need a Journal which will confine itself strictly to the science, amusement, business, or whatever it is, of stamp collecting.

The Journals which have appeared heretofore, have been unfortunately too prone to diverge into other channels, and to consider it their duty to give histories of the Post Office Department, statistics of Letter Carriers, biographies of the Kings and Queens of Europe, stories about carrier pigeons in the 16th century, about the war in Europe and its "field posts," about masquerades in Italy, and a hundred and one other outside vagaries unconnected with stamps even by the most slender ties; and when these delectable subjects have failed, then these worthy persons have turned of late to abusing each other, and have perverted both their ulterior objects and characters, i. e. (those who have the latter commodity to lose), and have turned the paths of Philately or Timbophily or whatever you like, into a gladiatorial arena; all of which processes the editors of this Journal are fain to believe are neither edifying or profitable; and therefore we propose in advance to leave extraneous writings and editorial quarrels to those who love them, and to the belligerent press we remark, in conclusion, that our motto is,

"IN UTRAMQUE FORTUNAM PARATUS."

### Omaha.

If there be one place on this earth where the natives thereof are rogues by instinct, that place is Omaha, Nebraska. The rising generation of that rising city take to knavish tricks and evil ways as naturally as a duck takes to the water, or a swallow to the air. It is a pity it is true, but so it is, and so we suppose it will be for some time to come; but when it is remembered that the first thing taught to infants in the cradle is to recognize the Jack of Clubs, what can we expect?

### Books, &c.

Messrs. Lee & Shepard have just published some very attractive books for young folks. Among them are: *The Boys of the Grand Pré School*, \$1.50. *The House on Wheels*, \$1.25. *Why and How*, \$1.50. *Who Will Win?* \$1.25. All interesting, and sure to please.

Messrs. Fields, Osgood & Co., have just published for the holiday trade, Dickens' great story, *The Mystery of Edwin Drood*, \$1.00. *Put Yourself in His Place*, \$1.00. *Farming for Boys*, \$1.50. *Winning His Way*, \$1.25. Making splendid and cheap reading for the winter.

Henry Hoyt has fresh from the press two of the finest books we ever read, being prize stories collected from over three hundred manuscripts. *Moth and Rust*, and *The Other Side of the Street*, \$1.60 each, beautifully bound in green and gold.

### Modest.

We have read many pleasant similes in our time, but we do not remember ever having seen anything so sublimely beautiful as the calm suavity and inimitable *sang froid* with which one Atlee, an English stamp writer, takes occasion to compare himself to the Apostle Paul.

This remarkable parallel occurs in a recent number of a British Stamp paper, called the "Philatelist," in an article written by the aforesaid Atlee, wherein he (Atlee), gives it as his opinion that another writer, one Stourton, is wrong in certain particulars, and therefore, says this modest young person, it is Gamaliel at the feet of St. Paul, instead of St. Paul at the feet of Gamaliel.

Now we submit that this is an exceedingly poor parallel indeed. Had Mr. Atlee, for instance, compared him to King Herod, of Judea, to Ananias or Sapphira, or even to Judas Iscariot, we might have noticed some sort of a visionary resemblance between them; but unless it be that Mr. A. is inclined to be "all things to all men," we are forced to say that we think his resemblance to the great Apostle is mighty far-fetched.

### Thanks.

Our thanks are due the gentlemanly editor of the *Seaside Oracle*, for his excellent opinion of us, and our sheet, and we can only say, "may his last days be days of peace."

### Newly Issued Stamps.

**NEWFOUNDLAND.** Two stamps, both of a red color, have lately been issued. The design is similar to that on the current issue of Canada Bill Stamps; the values are three and six cents respectively.

**NEW GRANADA.** A five cent stamp of a yellow color has lately appeared. It is of the usual Colombian pattern, the inevitable eagle of New Granada, and its stars and flags, draped as in all the late emissions.

**ROUMANIA.** We annex an engraving of the newly issued Roumanian newspaper stamp, a specimen of which has been forwarded us by our special correspondent in Bucharest, and which has not been hitherto depicted or

described in any Stamp Magazine either in Europe or America. It is printed in black, on green paper of a very poor texture.

**MEXICO.** A fifty cent blue on pink, i. e. exactly the same as the 25 cent variety, was lately received directly from Mexico by a gentleman of this city. Will the wiseacres of Great Britain be kind enough to give us their opinion on the subject.

**UNITED STATES.** We annex an engraving of the current six cent envelope, which has not yet attained general circulation, nor has it been depicted in any American Stamp Journal. The color, as our readers are

aware, is like its adhesive prototype, carmine red.

Specimens of the Greek and Bavarian current stamps have been shown us, which have been subjected to the perforation process. Though it improves their appearance, we do not consider it as constituting a *new variety*, by any means.

### Answers to Correspondents.

**K. K. H., OMAHA.** We decline giving our personal opinion of Mr. Parmalee's "partner;" such queries are in extremely bad taste.

**H. S. P., OMAHA.** Seek not, thou deluded and misguided youth, to traduce the righteous. Thy spirit to do evil is indeed willing, but thy flesh is weak.

**A MERRY CUSS, MERIDEN.** The principles of your platform are sound to the core, but being so, are not likely to be commended by those who style themselves the "leading houses."

There is "too much truth" about it; that is the only little fault, but we do not consider that a fault, by any means, and endorse your opinions with a right good will.

**J. D., ELIZABETH, N. J.** The reason why the New York agent of that noted English firm advertises the Honduras two real affair at less than its facial value, and the Ecuador two real stamp at fifty cents, double the price of the former, is one of those mysteries which Lucifer only can solve, and if you don't comprehend it, you are a great deal duller arithmetician than we take you for.

**M. H. R., DETROIT.** Beware of those United States "agents" of foreign firms; they are, one and all, a set of Jeremy Diddlers and unfledged confidence men.

**C. H. FOWLE, WEST NEWTON, MASS.** If you have been "bamboozled" by "Dr." Petrie we cannot help it. We know of a respectable merchant at Newark, N. J., who has a bill of eleven dollars against Petrie for a pair of boots. Such country boys as you should beware.

### To The Reader.

We send out our first number *gratis*, so as to let the public at large examine our paper thoroughly, and know what they are going to pay their money for. To those receiving a copy, we most cordially invite you to subscribe, and feel satisfied that we are giving you your *money's worth*. The terms are so low, (25 cents per year,) that no one can feel it, while at the same time it is enabling us to make more improvements. Address the publisher, W. L. Terhune, Box 339, Boston, Mass.

### To Stamp Advertisers

Wishing to reach the trade and stamp collectors, no better advertising medium exists than the "Stamp Collector's Magazine," as we issue over 2000 copies of each issue, and only allow *one-half* column of advertising in each No. Those wishing to use our paper for such, can do so at the rate of *thirty cents for every eight words*.
