TRADE & COMMERCE

Our market has shown few changes of importance. Quotations for yarn and cloth are pretty much the same as on Tuesday.

In cloth for India there continues a fair inquiry, but we have to repeat, what we have stated many times, that manufacturers cannot give early delivery; hence business is very difficult to arrange.

Home trade American yarns have been quoted as on last market day. Spinners in most counts are strong in price.

In shipping yarns no fresh feature has shown itself. Single yarns for the great Eastern outlets are quiet, and rather discouraging.

Bolton spinnings keep strong and are generally unchanged. A fairly healthy demand has again been experienced.

Dear Sirs—Crop accounts have come to the front as the dominating factor in the situation, overcoming the active demand from spinners who are enjoying exceedingly prosperous times as the result of good weather and an increasing surplus in stock.

The following were the buying rates for mercantile bills on India and China current in London today:

Exchange rates telegraphed from the East are as under:

At the Federation Rooms yesterday a joint meeting of representatives of the Card-room Amalgamation and representatives of the Federation Master Cotton Spinners' Association was held to further consider a spinning dispute case at Denton.

PLAGUE SCARE AT SAN FRANCISCO. A Central News New York telegram says: The inhabitants of San Francisco are greatly excited about the threatened return of the plague.
