Postman's Knock Page. 5

Postman's Knock.

Last month I referred to certain remarks concerning this paper which appeared in a contemporary, the nature of which caused me to suppose they had been indited by some hand unaccustomed to the editing of a respectable magazine. I find, however, that the same paper devotes space in its succeeding issues to making further unprovoked attacks upon this journal. The question is thus forced upon me as to whether it is a deliberate attempt to injure our paper or whether the journal in question publishes the babblings of mental irresponsibility.

It may be as well to say, in the commencement, that the advertisement which was the alleged cause of the attack appeared in our October issue. The *Stamp Collectors' Fortnightly*, published its first impertinent (not to

say libellous) remarks on December 3rd, and followed them up with others on the 17th and 31st. I think my readers will understand the matter better with this explanation.

On December 17th, the editorial of the *S.C.F.* says "The *Philatelic Chronicle* and *Advertiser*" is not the only journal willing to insert the announcements of pests, &c.' The Editor of the *S.C.F.* wrote this knowing perfectly well that our paper is *not* willing to insert such announcements—therefore there is only one plain word in the English language which describes his remark.

Further on he affects to quote the words of some correspondent. "Respectable dealers should withdraw their advertising support from such journals." The object of this is evident to the dullest mind. A reference to "minor journals" is pitiable in its puerile spite, while a "Christmas Wish" to "The *Philatelic Chronicle*," for "respectable advertisements," I heartily reciprocate—merely substituting "journalists" for "advertisements."

On December 31st, under a head line "Fournier's Agents in this Country"—an atrocious and disgraceful juxtaposition—the *S.C.F.* is "glad to note" that the *Philatelic Chronicle and Advertiser*, has now "dropped" the advertisement of the forger Fournier. The "now" and "dropped" are instructive. The *S.C.F.* wishes to imply that in deference to, or fear of, itself, the advertisement was unwillingly left out. By comparison of the dates I give, my readers will understand that *this* statement is as reliable as the others.

The paragraph goes on to say, "No explanation of its insertion is offered" nor "guarantee that such announcements will be rejected in future." How dare we, forsooth! The great I AM of Philately had spoken and for three weeks—THREE WHOLE WEEKS mark you!—we had the temerity not to creep up to the throne and humbly ask for pardon. True! Yet I did give an explanation in the first published issue of the *Chronicle*, the December one, and I trust it was satisfactory to the *S.C.F.*

The guarantee is another matter. If I give such, I may, in case of relapse, be hauled up by the self-appointed *Philatelic Public Pro-*

secutor to the Philatelic High Court of Justice where the Philatelic Lord High Everything—else sits in State at the office of the *S.C.F.*, and be there and then ordered to summary execution.

And then comes the blatant threat "We have not spoken our last on the subject yet!"—Dear me! this is terrifying, indeed! Let us crouch together and ter-r-r-emble!

After all it is nice to think that even so severe a judge as the Editor of *S.C.F.* can unbend a little. He courteously refers to our

publication, with others, as "third-rate advertising sheets," evidently wishing us to understand that we do not belong to the *Stamp Collectors' Fortnightly* class. I thank him sincerely for the implied meaning which has the rare distinction of being, at the same time, both complimentary and true!

Messrs. Bright's excellent catalogue is more popular than ever and is selling well. The 1905 edition of Stanley Gibbons is not yet published. It may be ordered from the Philatelic Publishing Co., at 2/1 post free, each part.

Communications to

"THE PHILATELIC CHRONICLE,"

Handsworth, Birmingham.

Entered at Stationers' Hall.

Vol. XIV.

FEB., 1905.

No. 175.

Postman's Knock.

I am very anxious to enlist the services of my friends—and I look upon all who take the trouble to read my remarks as friends—on behalf of the next two issues of the *Chronicle*. This issue, No. 175, is being sent very widely to the colonies, the United States and the more remote parts, in order to give time for advertisements to reach us for the big annual Spring issue in April. Next month's issue will also be considerably augmented and will be sent to every likely collector in Great Britain, and very many on the Continent, with the same object in view.

The April issue will undoubtedly be the largest circulation for some years past, while the March one will be a specially big issue also. Collectors or dealers desiring to reach British and Continental addresses would do well to secure a position in next issue, No. 176, while the succeeding number will provide an equal or superior opportunity.

We have been obliged to leave out most of our own announcements to make room in the present issue, and I do not know how we shall manage next month. We cannot enlarge the paper unless the support warrants it. We have been obliged to leave out the testimonials, which we always embodied in Wants and Offers, for some time, but I contemplate publishing a series up to date in a separate form shortly.

I may say *en passant* that there are still several "respectable advertisers" who have not transferred their advertisements from the *Philatelic Chronicle* to—another journal—notwithstanding the pathetic appeals of our London contemporary. Can it be that they know when they are well off?

I earnestly appeal to my readers to do what they can to help these next two issues. We have no big firm or syndicate of dealers behind us, and depend upon the support won from our friends by our own honest effort, and, thanks to these same friends, we do not need to descend to lying and misrepresentation to injure a rival paper—simply because we have no rival—again I say "Thanks to our friends and our own honest efforts!"

I am sending an extra copy or two of this issue to a number of friends in the colonies and a few in Great Britain. Will you be so kind as to place these in likely hands for me, and receive the fatherly blessing of an old, down-trodden POSTMAN.

Mr. W. T. Wilson, the English agent of the Scott Co., New York, has sent me the 64th edition of *Scott's Standard Catalogue*. This, the standard guide of the United States—and almost of the world—needs no eulogy from me, which is very fortunate, as space gets scarcer and scarcer. I may say, however, that it is quite up-to-date as usual and well bound. It can be obtained from Mr. Wilson or the Philatelic Publishing Co., at 2/4 post free.

I do not wish my readers to confound the forger Fournier, of Geneva, with Luigi Fournier of Naples, Italy. This gentleman is afraid that confusion may arise, but I think my readers will now be able to discriminate. It is very unpleasant for Mr. Luigi Fournier to think that he may be mistaken for the Swiss of the same name.

Messrs. Arthur Monteith & Co., have introduced yet another improvement in their famous Approval Books. The spaces are now ruled to accommodate ordinary stamps and also those of larger dimensions. Those requiring an approval book to fit an ordinary envelope cannot do better than secure these cheap and reliable books. Two sample books may be procured from Messrs. Monteith, Barlow Street, Derby, for one penny.

Messrs. Stanley Gibbons' new weekly paper, *Gibbons' Stamp Weekly*, promises to be most useful to the cause of philately. Its

chief aim is to interest, encourage, and instruct the juniors, and it bids fair to well perform its task.

The cause of the juniors looms large on the philatelic horizon at present. On February 3rd and 4th The Junior Philatelic Society held an exhibition in Exeter Hall, to which all philatelists were invited. Orchestral music and lantern lectures were given each day and no charge was made for admission. The exhibition should be the means of securing a large number of new adherents to Philately.

Postman's Knock.

Messrs. Stanley Gibbons, Ltd., inform me that the Catalogue for 1905, Part I, is now ready, and that Part II, Foreign Countries, will be published by the end of May. The catalogues have been entirely reorganized and greatly improved. Some eight hundred pounds have been spent in providing new illustrations and this, together with other improvements, necessitates a small increase in the price of the catalogue. Orders may be sent to the Philatelic Publishing Co., Handsworth, Birmingham, accompanied by remittance of 2/6 for either part, post free.

On another page will be found a list of the various catalogues we can supply. Messrs. Bright's excellent ABC in its two forms, Scott's Standard, and, of course, both parts of Stanley Gibbons' catalogue. The prices will be found to each one.

Do not forget that next month's number of *The Philatelic Chronicle* will be

The Big Annual Spring Issue.

I hope no one will be disappointed over the big April issue. I mean as to getting their advertisement duly inserted. Usually, I grieve to say, a number of letters arrive a day or two late, generally with an urgent request that the advertisement may be inserted. Where possible this is done, but it is obvious that there must be a limit, and it is unsafe if they reach us after the day set aside, in this case April 17th. Do, please, get them in early as possible!

I do not wish you to suppose that these expensive issues are done entirely from a motive of kindly generosity. We are more philatelic than philanthropic. The "Big Issues," however, are necessary to us. It never does to stagnate and we find that, of the huge number of fresh people who see the paper, a good percentage subscribe or advertise during the succeeding months and thus repay the few pounds extra expense of printing and posting. At the same time advertisers in them get the greater benefit, as they should, inasmuch as their aid all goes to substantially lessen our outlay. Therefore, I say, let every one lend a hand both for his own sake and the sake of the *Philatelic Chronicle*.

This Big Issue offers a splendid opportunity to dealers or collectors who have circulars to distribute. The cost is only ten shillings for distributing a thousand. If you sent 2,000 circulars to philatelists it would cost you £4 3s. 4d., besides envelopes, time, &c. You can send these with the *Philatelic Chronicle* for £1, and save in money and time about £4.

As may be noticed, in this issue, the available space is all taken. Unfortunately, the *Philatelic Chronicle* is not elastic and space cannot be provided beyond its limits. At the same time all who send by the proper day are quite safe. The laggards must take their chance, but, of course, everyone will be included if at all possible.

I am sending some extra copies to a few friends again this month, and I do earnestly ask that they will send or give them to some appreciative friend *early*. The circulation of this issue is increased twenty-five per cent, and we hope to be able to double the circulation of the April issue.

WILLIAM HADDON, Publisher, Burnt Tree, Tipton, Staffs., Eng.

We are constantly receiving Foreign Post Office Orders, without any advice as to how they are to be employed. Sometimes the instructions follow in the course of a few days—sometimes not for weeks. The name of the remitter and the town whence sent is the only information on the order and usually this is quite insufficient. At present we have four orders unclaimed from Messrs. Profeld, Zsoldos, Simon and Capitano Pastore. We have also a letter without name or address from England. The name of the post-town is undecipherable, but is numbered B49.

The monks at the Hospital of St. Jean de Dieu (says the "Penny Magazine,") at Ghent, have in their leisure moments decorated the walls with gorgeous landscapes, glowing with colour and full of life, formed entirely by means of the postage stamps of all the nations of the world. Palaces, forests, streams, and mountains are represented, butterflies flit in the air, birds of beautiful plumage perch on branches, snakes and lizards glide about, and innumerable animals find places here and there. The pictures are most artistic, in the style of Chinese landscape gardening, and already between nine and ten millions of stamps have been used.

APRIL, 1905.

No. 177.

Postman's Knock.

I wish to point out to all my readers that a line to me in time will be sufficient to cause the removal of their advertisements if they are receiving too many replies, I do not wish anyone to suffer annoyance on this account, but frequently we get requests from advertisers to remove advertisements before their period has expired.

I am not saying this in order to discourage any would-be advertiser. On the other hand I invite all the new and old readers who see this, to send in an advertisement for the two big issues of May and June, and thereby gladden your old POSTMAN'S heart.

The following are samples of the letters we are constantly receiving—both of these coming to hand on the morning of April 10th. "Dear Sirs. If not too late kindly take my adv. out of your paper, as I have had so many replies to my advt., that I have got as much as I can do to answer them all. You will much oblige by doing so, yours truly, J.L.R.G." "Dear Sir. I beg you kindly to stop the advertisement on page 48, I receive

too many cards. M. L. de S." I give only the initials of the writers.

The proper way to stop this superabundance of replies is to let me know a few days before publication if you wish the advertisement to be withdrawn.

Within the last month I was conversing with one advertiser who has been with us for years, and he informed me that he had done over two hundred pounds worth of business with one party alone through the *Philatelic Chronicle* all since last June. Testimonials like this are uncommon, but none the less gratifying.

New Zealand can now boast three philatelic papers. The latest, issued March 1st, is the "Stamp Collectors' Monthly Advertiser," published by J. H. East & Co., Christchurch.

"The Philatelic East," is a new and promising paper hailing from Washington, U.S.A.

Messrs. Montgomerie & Co., of Brighton, have published a revised price-list this month, which embodies many reductions. Dealer and collector alike would appreciate this catalogue which can be obtained for the asking.

Col. G. H. Robinson, who lost wife and daughters in the late lamentable catastrophe in the Punjab, has been, for a considerable time, a member of the M.C.S.E. and a subscriber to this paper. The sympathy of the whole philatelic world will be extended to the gallant soldier in his bereavement.

The promising Civil official, Mr. Levi, who perished at the same time, was the son of Mr. P. H. Levi, one of the members of the old (the original) Birmingham Philatelic Society, when Mr. C. J. Phillips was honorary secretary.

Harking back to the paragraph I wrote last month about Foreign Post Office Orders, Miss Barclay has explained that abroad the names and addresses of sender and receiver are given in. If the sender's address were fuller we might guess what to do, but "Blanc, Paris," or "Schmidt, Berlin," are a trifle too vague.

I wonder how many collectors have read the Special Offer advertisement on page 56. When this was first inserted we quite expected a big rush, but only some dozen or twenty have availed themselves of the opportunity offered. Yet it is a good chance for either dealer or collector. Strange!

Postman's Knock.

I should like to call attention to the foreign, unused, mint stamps offered in another column by the publishers. They are all stamps sent by foreign subscribers or advertisers and are in perfect state. If any reader wishes to remit to a particular country he would find these stamps a convenient and cheap way of doing so, while foreign readers might make a profit by sending for the stamps of their own country.

I shall esteem it a very great favour if my readers will kindly give away to a collecting friend any copy of the *Chronicle* that they can spare. Do not destroy them when done with, they may be of use or interest to someone else.

Mr. Cansino, of Manchester, has published a handy duplicate pocket case which holds thirty or forty stamps in six rows. The price is only 2d.

Mr. James Marshall, writes me as follows: "Before inserting a notice of Post Card Exchange in your paper, I wrote you recently to ask if you had any means of getting at people who advertise and don't respond, but you have been like a great many of your advertising clients, *i.e.* taken no notice?"

I am very sorry Mr. Marshall should be disappointed in not obtaining a reply to his query, but surely he can appreciate the difficulty, even, of answering the numerous—and often irrelevant—questions of those correspondents who, looking upon me as a kind of perigrinating compendium of information, to be drawn upon as desired, yet have the consideration to prepay the postage of the reply they desire.

The Post Office authorities have thought fit to put a check upon the advertising originality of Mr. Hudson, a Southport stationer, who has erected at a prominent corner a sign-board which is an enlarged facsimile of a postcard, drawing attention to the address of his shop. Mr. Hudson received a communication from the Postmaster-General ordering the removal of the sign or the obliteration of the King's head, pointing out that under Section VII. of the Post Office Protection Act the reproduction of a postage stamp for advertising purposes is contrary to law.

I saw a table in *Mekel's Weekly News*, entitled "Values of Foreign Coins," and purporting to be the value in U.S. money of the currencies all over the world, and issued as a Government standard, above the signature of H. A. Taylor, Acting Secretary. Seeing this table reprinted in *Ewen's Weekly* I would caution my readers against placing any trust in it whatever.

Mr. H. A. Taylor must be a born ass, or, what is more probable, a keen humourist of the red-tape type, or he could never have perpetrated the thing.

It is enough to point out one or two extraordinary calculations. The Argentine peso is quoted at \$0.965 or 96½ cents, equal to about 4/-. This peso would be dear at 1/6, Stanley Gibbons can sell the current 1 peso stamp for 2/6 and make cent per cent profit.

The Brazilian mir reis, quoted at 2/3 (54¢ cents) is worth 1/- and a fraction. The Central American pesos, quoted at 1/9 are worth anything from 2d. upwards. Chili at 1/6 is practically correct. Greece, Spain, Italy, France, &c., are all quoted (for the standard coin) at \$ 193 or 9½, whereas the drachma and the peseta are hardly worth 6½d. The Portuguese mibreis is quoted at 4/6 instead of 3/6 or thereabouts, and so on.

A reliable table of values would be a really good thing, but such an one as this is useless and mischievous.

Communications to

"THE PHILATELIC CHRONICLE,"

Handsworth, Birmingham.

Entered at Stationers' Hall.

Vol. XIV. JUNE—JULY, 1905. No. 179.

Postman's Knock.

The publishers have long been aware of the obvious disadvantages of publishing at the end of the month instead of the beginning. A subscriber expects to get his January number in January and not in February, and so on through the year. Hence, taking the bull by the horns, we have decided to delay the publication of this issue a few days and issue as a July paper at the beginning of July. August issue will follow early in that month and thus natural impatience at not receiving the "Chronicle" until the month after publication will be avoided.

Will my readers please address all communications "Philatelic Chronicle," or "Philatelic Publishing Co.," Handsworth, Birmingham. Any further address is redundant, causes delay and, in some cases, expense for re-direction.

The publishers of the *Philatelic Chronicle* are anxious to dispose of a quantity of unused mint stamps, remitted to them by foreign

subscribers and advertisers. The principal countries represented will be found listed on another page. Have I no American readers who will send greenbacks for United States stamps? The publishers will cash 1, 2, 5 or 10 dollar notes in stamps and add 10%. Unused English stamps, any values will be exchanged for their equivalent in Foreign.

The Philatelic Publishing Co., have a good supply of Whitfield King's excellent "Universal Catalogue," 1905 edition, the price is 1/6 post free, 420 pages and 3,000 illustrations. Stanley Gibbons Part II will be ready in July, and orders can be sent to the Philatelic Publishing Co., who supply the catalogue at 2/6 post free. The prices of the other catalogues will be found on another page.

A few days ago I had the opportunity of seeing two or three of the "Australasia Packets" of Mr. Howard Davis, Melbourne, and, for the benefit of my readers I must repeat the recommendation I made some months ago. Being on the spot Mr. Davis can supply the very best value in Australian stamps—and he does! For instance, the Tasmania contained the 1864 type and onwards, the 1½ on 5d. unused, Postage Due and a fine set of the picture issue in its varieties of watermark, &c. In fact, every packet I have yet seen of this series is really excellent value.

Mr. Haddon, Burnt Tree, Tipton, has sent me some more specimens of the beautiful post cards he publishes. No. 2 of "The Collectors' Review," published by Mr. Haddon, is now issued and specimen copies are being sent with this issue of the "Philatelic Chronicle." Any reader who fails to get one can do so by writing a post card direct to Mr. Haddon, at the address mentioned.

I have been favoured by the author with a copy of the Postage Stamps of Hayti, a descriptive handbook by Fred. J. Melville, President of the Junior Philatelic Society. The book is well illustrated and quite the best description of these stamps I know. It is published by Charles Nissen & Co., 77, High Holborn, W.C. Price 1/- nett.

The arrangements in connection with the proposed International Philatelic Exhibition of 1906, have been in active progress, and the period for which the Royal Horticultural

Society's Hall has been reserved is from Monday the 21st May until Saturday the 2nd June, 1906. Doubtless two days will be required for mounting the exhibits and one or two days for unpacking, so that the Exhibition will probably be open to the public for some nine or ten days from the 23rd of May. "THE PHILATELIC CHRONICLE,"

Handsworth, Birmingham.

Entered at Stationers' Hall.

Vol. XIV. AUGUST, 1905. No. 180.

Postman's Knock.

The Philatelic Publishing Co. still have an accumulation of foreign unused stamps to dispose of as advertised on page 102 of this issue. In addition to these there are other countries in less quantity. For remitting abroad these stamps would form a useful, and the cheapest, way. United States stamps can be supplied at 3/8 per dollar up to twenty dollars. I hope some of my readers will be able to do with these.

In connection with the forthcoming visit of the British Association to Rhodesia, the British South Africa Company have issued a special set of postage stamps, consisting of 1d., 2½d., 5d., 1/-, 2/6 and 5/-, the design on which represents a magnificent view of the Victoria Falls. This issue will also serve to commemorate the formal opening, during the British Association's visit to the Falls, of the bridge across the Zambesi River, one of the greatest engineering marvels of modern times, and a most important link in the Cape to Cairo railway.

Miss Rose Pearson, of Coventry, has sent me a very tasteful and original picture post-card. The view shows Coventry—with its famous three spires—and is woven in black and white silk mounted on an ordinary card. Silk is, or used to be, one of the staple products of the ancient city and is therefore very appropriately used.

An esteemed correspondent, Dr. Mc Naughton, of Didsbury, has sent me specimens of Government post cards issued in Belgium to commemorate the 75th anniversary of Belgian independence. The ordinary cards are utilized (both domestic and international) by printing a double medallion on the reverse containing portraits of Leopold I and Leopold II.

The New Zealand paper which I mentioned some little time ago seems not to have reached its second issue. Subscriptions have been returned. The paper was called *The New Zealand Philatelist*.

A circular appears to have been sent forth broadcast from an address "St. Antholin's House, Queen Street, London, E.C.," offering stamps for disposal by "The Secretary, R.S.P.C.C." These letters might seem to mean "The Royal Society for Prevention of Cruelty to Children." A correspondent who thrice called at the address and found nobody at home, says that the office is labelled, in stencil letters on ordinary paper, "The Randolph Society for Philatelists and Coin Collectors." Perhaps some of our London friends can verify this information?

On June 4th the Chilian government issued the first of a new series of stamps. The face values are 3 and 5 centavos and the other values from 1 centavo to 1 peso are to follow. The design is the inevitable Columbus, neatly depicted in a rectangular frame and three-quarter face. Mr Braulio Bittencourt, of Valparaiso has sent me the stamps so far issued.

One of our old advertisers has extended his philatelic business and now trades as Stanley, Jones & Co, 43, Metcalf Street, Calcutta. The new firm is in every way trustworthy and we wish it success.

A Ceylon correspondent writes as follows: "Dear Sir,—I must warn collectors and dealers against some forgeries of Ceylon. On Service King's head stamps which are now being widely circulated. There are two kinds. 1st: Different type and apparently handstamped. Can be easily detected. 2nd: Is a very dangerous forgery as the same type has been used and the only point of difference I could see is the distance between On and Service. The genuine is 4 mm. and the forgery measures from 4½ mm. to 5 mm. I have come across the 2, 3 and 25c. with the forged surcharged. Used copies are post-marked Colombo, September, 1904. Yours faithfully, GEO. E. ANTHONISZ."

Communications to

"THE PHILATELIC CHRONICLE,"

Handsworth, Birmingham.

Entered at Stationers' Hall.

Vol. XIV.

SEPT., 1905.

No. 181.

Postman's Knock.

Owing to the great circulation which the *Philatelic Chronicle* has attained it is found necessary to revise the terms under which the paper is sent out. At present every subscriber for six issues is entitled to an advertisement of 24 words. As it costs threepence for postage alone this leaves only 3d. for the advertisement and the six copies of the paper. Each and every copy of the *Chronicle* costs the publishers over 1d., even taking the great number printed, so it does not require a large knowledge of arithmetic to discover that the small advertisements cost the publishers considerably over twice what is paid for them and, I am pleased to say, they are very numerous.

The object originally aimed at in making the subscription merely nominal, namely the acquiring of a great and world-wide circulation, has now been achieved, greatly to the benefit of our advertisers small and great, but the strain of the ever-increasing postage bill compels the revision of the system of circu-

lation. Pounds are wasted each month in sending the paper to people whose interest has evaporated. It is quite impossible to tell who are such, but it is highly probable that those who wish to receive the paper regularly will not object to the nominal subscription of 1/- per annum, or 6d. for six months, and be willing to pay the small amount, also, for any advertisements they may desire.

The circulation will not be affected, as the paper will be exploited in new directions by means of more sample copies, the postage bill will not be decreased, but the wastage now more than suspected will be greatly minimised, as only subscribers and those with advertisements actually being published will receive the paper regularly. All advertisers will be sent to, but not necessarily after their advertisements have run out, and the annual subscriber of 1/- must enclose his extra 6d. for a 24 word advertisement once, or 1/- for three times, or to whatever extent he desires to advertise. In a word, the only alteration is that our friends must now pay for their subscription and advertisements separately—subscribers are not obliged to advertise nor advertisers to subscribe.

The alteration takes place from **December 1st**, so that friends all the world over will have good notice and can come in under the old system before it is too late, if they so desire.

It is hardly necessary to remind my old supporters of the annual Big "Season Opening" issue of the *Philatelic Chronicle* early in October—they have assisted it too many times to forget—but for the benefit of the thousands of new readers since last October I would re-iterate the information that the publishers make a big effort every October to reach every known active collector they can find. This is done to secure new support throughout the season, but our friends are always welcomed and invited to send their advertisements for this huge issue, by doing which they help us and benefit themselves. *Verb sap.*

Messrs. Douglas, Cook & Co., the Glasgow Auctioneers commence the season on September 4th, a little earlier than the English sales. I have received the catalogue, for which I am obliged, and I recommend my

Postman's Knock.

Owing to the great circulation which the *Philatelic Chronicle* has attained it is found necessary to revise the terms under which the paper is sent out. At present every subscriber for six issues is entitled to an advertisement of 24 words. As it costs threepence for postage alone this leaves only 3d. for the advertisement and the six copies of the paper. Each and every copy of the *Chronicle* costs the publishers over 1d., even taking the great number printed, so it does not require a large knowledge of arithmetic to discover that the small advertisements cost the publishers considerably over twice what is paid for them and, I am pleased to say, they are very numerous.

The object originally aimed at in making the subscription merely nominal, namely the acquiring of a great and world-wide circulation, has now been achieved, greatly to the benefit of our advertisers small and great, but the strain of the ever-increasing postage bill compels the revision of the system of circulation. Pounds are wasted each month in

sending the paper to people whose interest has evaporated. It is quite impossible to tell who are such, but it is highly probable that those who wish to receive the paper regularly will not object to the nominal subscription of 1/- per annum, or 6d. for six months, and be willing to pay the small amount, also, for any advertisements they may desire.

The circulation will not be affected, as the paper will be exploited in new directions by means of more sample copies, the postage bill will not be decreased, but the wastage now more than suspected will be greatly minimised, as only subscribers and those with advertisements actually being published will receive the paper regularly. All advertisers will be sent to, but not necessarily after their advertisements have run out, and the annual subscriber of 1/- must enclose his extra 6d. for a 24 word advertisement once, or 1/- for three times, or to whatever extent he desires to advertise. In a word, the only alteration is that our friends must now pay for their subscription and advertisements separately—subscribers are not obliged to advertise nor advertisers to subscribe.

The alteration takes place from **December 1st**, so that friends all the world over will have good notice and can come in under the old system before it is too late, if they so desire.

Messrs. Martin, Ray & Co., established a record price at their sale on September 18th, for the carmine 6d. Orange River Colony, with mixed stops. A block of three brought the large sum of £10 5s. The stamp is undoubtedly scarce, and is unpriced in Stanley Gibbons catalogue. This firm of auctioneers offer the best facilities for those who wish to realize by means of the London Auctions. Lots can be entered up to ten days before the sale and cash is remitted seven days after.

Do not address your letters to "Fentham Road." It is wrong and causes delay. The address is "The Philatelic Chronicle Handsworth, Birmingham."

We are compelled to permanently increase our minimum circulation for this season, and are also trying two special large issues for November and December. I trust my readers will help all they can.

Postman's Knock.

Owing to the great circulation which the *Philatelic Chronicle* has attained it is found necessary to revise the terms under which the paper is sent out. At present every subscriber for six issues is entitled to an advertisement of 24 words. As it costs threepence for postage alone this leaves only 3d. for the advertisement and the six copies of the paper. Each and every copy of the *Chronicle* costs the publishers over 1d., even taking the great number printed, so it does not require a large knowledge of arithmetic to discover that the small advertisements cost the publishers considerably over twice what is paid for them and, I am pleased to say, they are very numerous.

The object originally aimed at in making the subscription merely nominal, namely the acquiring of a great and world-wide circulation, has now been achieved, greatly to the benefit of our advertisers small and great, but the strain of the ever-increasing postage bill compels the revision of the system of circulation. Pounds are wasted each month in

sending the paper to people whose interest has evaporated. It is quite impossible to tell who are such, but it is highly probable that those who wish to receive the paper regularly will not object to the nominal subscription of 1/- per annum, or 6d. for six months, and be willing to pay the small amount, also, for any advertisements they may desire.

The circulation will not be affected, as the paper will be exploited in new directions by means of more sample copies, the postage bill will not be decreased, but the wastage now more than suspected will be greatly minimised, as only subscribers and those with advertisements actually being published will receive the paper regularly. All advertisers will be sent to, but not necessarily after their advertisements have run out, and the annual subscriber of 1/- must enclose his extra 6d. for a 24 word advertisement once, or 1/- for three times, or to whatever extent he desires to advertise. In a word, the only alteration is that our friends must now pay for their subscription and advertisements separately—subscribers are not obliged to advertise nor advertisers to subscribe.

The alteration takes place from **December 1st**, so that friends all the world over will have good notice and can come in under the old system before it is too late, if they so desire.

Will all New Zealand and other Colonial correspondents please remit by postal order payable in Great Britain. An order for 1/- costs only one penny and is more useful by far than stamps. All foreign correspondents are requested to remit through the Post Office where possible.

I very much regret to hear of the death of Mr. C. A. Chappell, of Leederville, West Australia. The deceased gentleman purposed issuing "The World's Collector," as advertised in this paper. First, however, the publication had to be postponed, and now I receive the news of his untimely death from his mother, to whom I tender my sympathy in her bereavement.

The Philatelic Chronicle carries, I believe, more advertisements of Picture Postcard collectors than any other journal in the world.

I have received the Annual Report of the Enterprise Philatelic Society—one of the most energetic and flourishing of English Societies. My space is too limited to do more than mention the book, but a copy can be obtained from Mr. A. C. Constantinides, Woodview, Archway Road, London, N. The prospectus of the Junior Philatelic Society is most useful reading, also, and the Hon. Sec., Mr. H. F. Johnson (whom I thank for sending me a copy), will forward it upon application to 4, Portland Place North, Clapham Road, London, S.W.

At the time of writing the publishers inform me that part of the list of names for postcard exchange has been mislaid. If you should find your name omitted, please write and say when sent, with other particulars.

"THE PHILATELIC CHRONICLE,"

Entered at Stationers' Hall.

Vol. XIV.

Dec., 1905.

No. 184.

Postman's Knock.

Owing to the great circulation which the *Philatelic Chronicle* has attained it is found necessary to revise the terms under which the paper is sent out. At present every subscriber for six issues is entitled to an advertisement of 24 words. As it costs threepence for postage alone this leaves only 3d. for the advertisement and the six copies of the paper. Each and every copy of the *Chronicle* costs the publishers over 1d., even taking the great number printed, so it does not require a large knowledge of arithmetic to discover that the small advertisements cost the publishers considerably over twice what is paid for them and, I am pleased to say, they are very numerous.

The object originally aimed at in making the subscription merely nominal, namely the acquiring of a great and world-wide circulation, has now been achieved, greatly to the benefit of our advertisers small and great, but the strain of the ever-increasing postage bill compels the revision of the system of circulation. Pounds are wasted each month in

sending the paper to people whose interest has evaporated. It is quite impossible to tell who are such, but it is highly probable that those who wish to receive the paper regularly will not object to the nominal subscription of 1/- per annum, or 6d. for six months, and be willing to pay the small amount, also, for any advertisements they may desire.

The circulation will not be affected, as the paper will be exploited in new directions by means of more sample copies, the postage bill will not be decreased, but the wastage now more than suspected will be greatly minimised, as only subscribers and those with advertisements actually being published will receive the paper regularly. All advertisers will be sent to, but not necessarily after their advertisements have run out, and the annual subscriber of 1/- must enclose his extra 6d. for a 24 word advertisement once, or 1/- for three times, or to whatever extent he desires to advertise. In a word, the only alteration is that our friends must now pay for their subscription and advertisements separately—subscribers are not obliged to advertise nor advertisers to subscribe.

Will all New Zealand and other Colonial correspondents please remit by postal order payable in Great Britain. An order for 1/- costs only one penny and is more useful by far than stamps. All foreign correspondents are requested to remit through the Post Office where possible.

We are sending out with this number a copy of Wm. Bradbury's Wholesale Price List, and notice a full list of the scarce *single C. A. King's* head issues, at very cheap prices. There are also, however, even greater bargains offered in the older issues of the British Colonies, which can be well understood when one realizes that Mr. Bradbury has been in the stamp trade continuously since 1882.—Should anyone have been overlooked a postcard to Cliff Grange, Ipswich, will secure a copy of his price lists.

"A MERRY CHRISTMAS" to all readers from your old Postman, for the 15th year.

I must apologise for the lateness in publishing last month. It was caused by an influx of new advertisements—naturally at the last minute.
