# REVENUE CATALOGUE:

BEING A COMPILATION OF

# BEER, BILL, DEED, LAW, REVENUE, TELEGRAPH, TOBACCO STAMPS, Etc.,

COMPILED FOR THE PUBLISHERS OF

## THE PHILATELIC JOURNAL OF GREAT BRITAIN,

By FRED. GEO. C. LUNDY,

MEMBER OF THE PHILATELIC SOCIETIES OF LONDON AND DRESDEN.

#### PREFACE.

At the request of the Publishers of the Philatelic Journal of Great Britain, I have undertaken to compile this Catalogue of Fiscal Stamps.

Being the first of its kind published in the English language, it is hardly necessary to state but that discrepancies will arise, for which I crave lenience.

The collecting of Revenue Stamps being in its infancy in this country, I hope this compilation will assist those few who do collect, to arrange their collections, and induce those who have a liking for this branch of Philately, but who so far have not commenced owing to no catalogue being in existence, to pursue that hobby without "let or hindrance."

A collection of Revenue Stamps is quite as interesting as that of Postage: there is more room for study and research, and in my humble opinion, such a collection when arranged, is more beautiful; and from a pecuniary point of view it is within the reach of every one.

After mature consideration I have decided to divide the Catalogue into six parts as follows:—

I.—England and British Colonies.

II.—America North.

III.— " Central.

IV.— " South.

V.-Europe.

VI.-Africa and Asia.

At the commencement of each country, I will give a short money table, showing the currency employed, and its nearest equivalent in English money, in order that the facial value of the Stamps can be easily translated.

Having no official documents to work upon, regarding dates of issue, I have taken those from the oldest obliterated specimens I have come across, or when wanting, from the well-known Continental Authorities, to whose Journals I am indebted for much information.

In conclusion, I sincerely trust my endeavours will meet with your approval, and be welcomed as a want long waited for.

As this Catalogue will be published in parts, concurrently with the Journal, any suggestions, or advice on that part which may be then unpublished, are cordially invited.

FRED. GEO. C. LUNDY.

The above stamps represent a tax on Fire and Life Insurance Policies, and were used by the Companies under protest pending a law suit, contesting the legality of the tax, with the government

of the Province of Quebec.

The Privy Council in England decided in favour of the Companies and the stamps were and are even now being redeemed by the Government, so that whether used or unused they are worth face value and consequently becoming scarce.

### LAW STAMPS.

Identical in design to those of the first issue of Ontario, surcharged L.C., (Lower Canada) in large red Roman Capitals. Colour on thin white wove paper; perf. 12.

N.B.—The Philatelic Record says these stamps were used in one of the South African Expeditions under Colonel Methuen. The forms used for writing the messages were printed by Harrison and Sons, London, and are very similar to those supplied in the telegraph offices of Great Britain, with the words, Military Telegraphs at top. The stamps may also occasionally be found upon the Post Office Telegraph A Forms.

N.B.—It would be impossible for me to give dates of issue to the foregoing, as apparently both issues exist with CC and CA watermarks and seem to have been used indiscriminately from January, 1872, to the present day. The only exception I can make is the lilac issue CA which seems not to have been used prior to 1884.
