## A CANINE COIN DETECTOR.

REMARKABLE PERFORMANCE OF AN ORDINARY "YALLER" DOG IN CHEYENNE.

They've got a dog in Cheyenne, Wy. Just a plain, every day dog, half mongrel, and the rest pure "yaller."

When a stranger strikes the town, the Cheyennites, however, that are resting themselves at the big depot point out this dog with great pride. If the stranger says as he generally does, that he fails to see any points about the animal different or better than those possessed by dogs in general, the obliging natives tell what his dogship can do, the stranger usually doubts it and six times out of seven there is a fight.

The other day, after the usual pugilistic encounter about Tony for this is the dog's name, some genius suggested that the station loungers back up their statements by ocular proof.

Tony was in sight, asleep on a chair. A vigorous whistle awakened him. The case was submitted without waste of words.

It had been represented by the home talent that the dog could detect counterfeit silver coin; that out of any sort of a field of silver dollars the dog would select the American coin of the daddies; that the animal would absolutely refuse to touch other than a standard silver dollar.

So an investigation committee was told off.

At the rattle of coin Tony was wide awake. They resorted to every ruse that could then be conceived to trick

the animal. Half a dozen varieties of dollars were tossed in the air. The instant they landed Tony pounced upon the correct cart-wheel and carried it to his master. A bank attache produced an excellent counterfeit dollar, at which the dog sniffed disdainfully. A jubilee piece almost fooled him. Four coins were shuffled to a spot and a bad one placed on his nose. At count he let it fall to the floor. Only the good good dollar would be tossed and caught. Peppermint was brought from a saloon and this odor used, but without effect. As a final test the dog was blindfolded, but he could not be beaten.

About a month ago a national bank here threw out a spurious dollar in the deposit of a business house. It was taken to Tony, who promptly accepted it. Chemical tests proved that the money was all right. Something in the milling or the stamping was faulty.

No one attempts to explain the remarkable work of the dog. No special effort was made to instruct him, and there is \$500 or more ready at any time to lay that he will act as here written.

George H. Brown, a jeweler and Tony's master, is willing to convince anyone who doubts the above statement if he will come to Cheyenne and bring coin with him.

### TO ADVERTISERS.

WE would like to call your attention to a few of the advantages you will secure by advertising in this paper:

Our rates are very low as you will see by glancing at our rates.

Our circulation is larger than that of any two amateur papers combined, and is increasing daily.

The size of the paper not being very large, the "ad", whether large or small will be noticed more than in a larger paper.

### A CURIOUS NAME COMBINATION.

"What is in a name?" has been a question sufficiently unanswered to still remain a subject for discussion, but what is in two names should have a double interest. If you don't think so, take two names as well known as any in American history and look at them. They are the names of Lincoln and Hamlin. Of course, there is nothing peculiar about them as they stand, but set them differently and observe the result. For an instance, place them

HAM LIN

LIN COLN

Read up and down and then across. There is something in that, isn't there!

Now, again;

ABRA—HAMLIN—COLN,

Can you find two other names of two other men whose official lives and names combine as these do?

### THE STORY OF A GREENBACK.

In 1864, when a Confederate camp was located on Marietta street, an incident occurred which, with its sequel, makes an interesting reminiscence of the days when the old Atlanta was more of a soldiers barracks than a city. The camp to which I allude was a good way out on Marietta, and the site is now occupied with a number of new dwelling houses. Dr. Roy, of this city, was then one of the physicians of the camp. The late Captain Alphonse

Hurtel, of the 24th Alabama, had been placed in temporary charge of the prison, and one day a Yankee prisoner gave him a \$100 greenback bill to keep, fearing theft on the part of other prisoners. Shortly afterwards the prisoner escaped, and Capt. Hurtel sent the money to his wife in Mobile, Ala., telling her to keep it, and if he did not send for it, and the Confederacy fell, to use it. When Mobile surrendered, that \$100 was a godsend to one of the many impoverished families of the Gulf city. And now the strange sequel. Ten years after the close of the war, one day while Capt. Hurtel was sitting in his office, a poor and ragged soldier walked in and asked: "Is this Capt. Hurtel?" After a quick glance at the man's features, Capt. Hurtel answered: "Yes, and you are the soldier who gave me a \$100 bill in Atlanta, Ga., during the war?" "Yes, sir, I am," the soldier replied, as the tears rolled down his cheeks, "and if you will give me just \$2 of it now I will be thankful." A check for \$150 was given him, and the man fell on his knees and wept like a child. Once again had the same money proven a godsend in the hour of bitter need.—Atlanta Capital.

### THE SMALL BOY'S FOURTH .

Give him two dollars;  
 Note how how he collars  
 Them with a flourish;  
 What hopes he'll nourish  
 Of fun on the Fourth of July.  
 How he will "crowd her,"  
 Make 'er be louder,  
 If virtue's in power;  
 What fancies in fireworks he'll buy!  
 All peace he's a foe of;  
 His cannon will go off,  
 A thumb or two blow off—  
 Perhaps it may take in an eye.  
 So give him the money,  
 And let him be funny,  
 And hope that the Fourth he'll enjoy.  
 With gratitude fill him,  
 There's nothing will kill him;  
 He's the only American boy.
