CLIPPINGS OF INTEREST TO STAMP AND CURIO COLLECTORS

THE first Newspaper established in North America was the Boston News Letter, commenced in April 1704.

The stamps of Finland are now obsolete, having been superseded by the stamps of Russia.

Ancient pipes made of Catlinite are occasionally found in Arizona ruins.

A coin dealer in Chicago claims that many coin collectors are dropping coin collecting and taking to stamps.

The surcharged fiscal stamps of Antigua used as postage stamps have been proven authentic.

Spears and knives made of obsidian were used by the Aztec in Mexico.

"Escuelas" on the stamps of Venezuela means "schools."

The stamps are used for both postal and fiscal purposes, and when the stamps are employed for fiscal purposes the money they represent is given to the fund for the support of the state schools.

The Calamander tree of Ceylon, allied to ebony family and represented by less than a hundred specimens is said to be the rarest wood. The tree is carefully protected.

The uniformity of the West Australian stamps as well as their workmanship make them most attractive and the early issues are not a whit behind the later ones in fineness of execution.

By a recent ruling of Postmaster General Mulock philatelic publications in Canada are excluded the privilege of publishing stamp cuts.

2. THE YANKEE COLLECTOR.

A COMPARISON OF PRICES 1887-1900.

BY LEON V. CASS,

IN looking over an old curiosity paper of 1887 I found many ads. of stamp dealers and I give below a few prices at which some stamps were offered together with the catalogue value of to day

	Price 1887.	Price 1900.
Grafflin's local, 1c	90c.	\$ 15.00
12c P. O. Dept unused	10c.	1.00
6c State " "	20c.	.75
90c War " "	20c.	1.00
Nova Scotia 3d. 1851	25c.	1.50
Canada 8c register	23c.	2.50
Navy complete unused	4.00	57.25
7c Treasury	15c.	1.50

Many of the stamps now sold at from 3c to a dollar each will sell at as great an advance in price as the above thirteen years from now. Moral buy now and hold for future sale.

EDITORIAL.

A HINT. Collectors of Indian relics
and curios should always
keep their eyes open when walking in
the country. On the banks of the lakes
rivers and brooks is the best place to
look for Indian relics. The editor re-
cently found a fine specimen of petrified
moss on the banks of a little stream, and
a fine Indian pestle was recently found
near the same stream.

INTERESTING CLIPPINGS.

The total number of all known varieties of stamps issued to date by all the governments of the world is 14,626.

The 1868 issue of Canada is printed on paper which varies in thickness.

Brazil issued a set of four stamps this year commemorative of 400th Anniversary of the discovery of that country by Pedro Alvarez Cabral.

North Borneos new 4c stamp showing the ourang-outang is a handsome stamp which will hold the place of honor in many a youthful collectors album.

No more stamps will be surcharged for use in Puerto Rico or Guam.

10 THE YANKEE COLLECTOR.
NOTED AND QUOTED.

By Leon V. Cass,

The Greenland birch is the smallest tree in the world. It is less than 3 feet in height, yet its foliage covers an area of two or three feet in diameter.

It is claimed that the design of the current 2 cent Tasmania (pictorial issue) is to be changed.

The collecting of Indian relics affords a very interesting study, from the fact that one seldom finds two specimens of the same size and material; and one is constantly coming across implements the use of which is a mystery and which sometimes prove to be some ceremonial objects of value.

The Illinois Philatelist is announced to appear from Chicago.

THE YANKEE COLLECTOR.

PUBLISHED QUARTERLY IN THE INTERESTS OF STAMP, CURIO & RELIC COLLECTORS.

Vol. II. No. 1 McGraw, N. Y. March 1901. Whole No. 3.

NOTED AND QUOTED.

BY LEON V. CASS.

It is rumored that the current U. S. postage stamps are to appear with the name of the man whose likeness adorns the stamp below and the date above.

The seed of the coffee bean tree is almost as pretty as sea beans. They become highly polished when rubbed with a silk handkerchief and are said to be "lucky for money" when carried in the pocket.

The general verdict is that the stamps recently issued by France are far from artistic.

The collecting of Confederate and Broken Bank bills is a very interesting past time. Frame a dozen or so of these bills and hang them in your room.

Mint, or mint state means the condition of the stamp as sold from the post office.

The Stamp Dealers Protect-

ive Association has consolidated with the Stamp Collectors Protective Association of America.

A new paper from Columbus Ohio has appeared. Its second No. was a great improvement over the first No., may the improvement continue.

In Borneo and Labuan postage stamps to the value of \$10-0,000 were sold last year, though postage on the mail from these two countries does not exceed \$4,000 a year.

It is the collectors who buy the stamps.

There are over 3000 varieties of sea shells.

McGraw, N. Y. June 1901.

Whole No. 4

CLIPPINGS

OF INTEREST TO STAMP AND CURIO COLLECTORS.

The 2 cent Pan-American issue as appeared with the central design inverted.

:o:

The oldest loaf of bread in the world is in the British museum. It is supposed to have been baked in the year 500 B. C., resembles a small bun in shape, and is said to be in perfect condition.

:o:

Regular issues of the stamps of the Confederate States are worth gathering. The historical value of the set is so great when it is considered in connection with the history of our country, that they are worth paying attention to with the design

of securing as many varieties as possible. Unused specimens are in many instances quite cheap, as they have been found in large quantities in various parts of the South since the war

:o:

A silk hat box belonging to Paul Kruger was sold recently at a London auction sale for \$125.00.

:o:

Haytian remainders to the number of a quarter of a million have been dumped on the market, and the retail value of these stamps is expected to drop considerably, as the stamps are being offered in wholesale lots at a low figure.

:o:

In the opinion of the "old

timers" the great interest in philately that is prevalent in all parts of the country has never been paralleled before. The enthusiasm of both old and new collectors is something to marvel at.

:o:

The current 5c and 10c Morocco revenues have been used for postage.

LEON V. CASS,

P. O. Box 14, McGraw, N. Y.

I HAVE NOTICED

That "Seebecks" are in much better demand of late.

That often the large dealers take much longer to fill orders than the so-called small dealer.

That the average stamp paper illustrates it's articles much of tenger of late.

That there are still some collectors who expect to purchase unused Br. Colonials at 60 per cent discount.

That the demand for old U. S. revenues is falling off of late.

That some green stamps when soaked in water turn to blue.

That the new issues of many of the European countries are much more artistic and pretty than the those they superceded.

THE YANKEE COLLECTOR.

PUBLISHED QUARTERLY IN THE INTERESTS OF STAMP AND CURIO COLLECTORS.

VOL. II. NO. 3. MCGRAW, N. Y. SEPT. 1901. WHOLE NO. 5.

HOW TO COLLECT WOODS.

It is very desirable to have a collection of woods in connection with or separate from the leaves of the different trees and shrubs you have gathered.

I have my specimens cut so that one side shows the bark, and the other nicely planed and polished showing the grain.

A convenient size to have them is 4 by 4 or 4 by 5 inches by $\frac{3}{4}$ to 1 inch in thickness.

Of course those of shrubs will have to be made of smaller size.

If you can get printed labels it will add greatly to the appearance of your collection.

These should have the family name, genus and common and scientific name printed on them.

INTERESTING ITEMS.

Gleaned from various sources.

A pretty and unique ornament can be constructed with postage stamps. Take a piece of plate or common window glass about 8x12 inches, and paste stamps in some ornamental figure or design, on the back. It may be hung to the wall by small brass chains running around the edges and then forming a loop at the top.

:-:-

An "albino" is an envelope that has the die impression of the stamp, but which has no color; the oddity is generally caused by two sheets sticking together with the result that the upper one only receives the ink impression.

:-:-

It is rumored that the $\frac{1}{2}$ p green pictorial stamp of Tasmania has been discontinued.

-:-

It is reported on good authority that the 1p jubilee stamp of Jamaica, showing the waterfall is to be printed in two colors, red and black. The falls it is thought will show to better advantage printed in black ink.

-:-

The smallest stamp ever issued is the $\frac{1}{4}$ s. of Mecklenburg-Schwerin, which measures 10-10 millimetres.

-:-

A letter recently came to a Southern P. O. directed in the following "definite" way: "To my son William, if he's keeping good company if he aint please return as there is \$2.00 in it."

THE YANKEE COLLECTOR.

PUBLISHED QUARTERLY IN THE INTERESTS OF STAMP & CURIO COLLECTORS.

Vol. II. No. 4. McGraw, N. Y. Dec. 1901. Whole No. 6.

NOTED AND QUOTED.

There are two varieties of the $\frac{1}{2}$, 1 and 3 penny stamps recently issued by Victoria. Those now in use have the word postage on, but the first lot printed had the word postage left out, and as they were in use but a short time they are bound to be scarce

There are 20,000 different kinds of butterflys, many of which very few specimens are to be had at any price.

Bulgaria has recently issued a very handsome bi-colored set of stamps, which according to report are very popular among collectors.

A salmon with two heads and two tails was recently caught in a California river.

It said that Poland has sent in a petition to the Czar of

of Russia for a distinctive set of stamps; and it is rumored that the request is likely to be granted.

An Indian arrow head weighing 25 pounds was recently plowed up in Wisconsin.

Because you cannot make a large collection of stamps, do not give up become discouraged and give it up altogether. Collect all you can and keep all you get. There will come a time when you will be glad you did not sell or swap off your collection.

Advertising on the back of postage stamps is unknown in this country, but there has been a list of seventy-six different advertising inscriptions appearing on the gummed side of the 1882 issue of New Zealand, sent in by a prominent collector.

AN UNSOLICITED TESTIMONIAL.

VOL. III. MCGRAW, N. Y. MARCH 1902. NO. 1.

FACTS ABOUT STAMPS.

The Republic of Salvador has issued more varieties of postage stamps than any other country, the number being 403.

-x-

Old Philippine stamps to the number of five million were burnt at Antwerp recently.

-x-

One of my English correspondents writes that the new Kings head stamps are not giving satisfaction and a change in the design is liable to take place.

-x-

The 30c rose of Chili 1899 issue, is worth saving as only 250,000 have been issued unsurcharged, against 1,750,000 surcharged.

-x-

There will be no £5 stamp in the new issue from Great Britain.

-x-

The total number of all known varieties of postage stamps issued up to the present time exceeds 16,100.

-x-

Some dangerous counterfeits of the 2 bolivianos, 1897 issue of Bolivia, are in circulation. The frauds may be detected by measuring the portion printed in black, which is $22\frac{1}{2} \times 29\frac{1}{2}$ mm. while in the genuine issue the size is 23×30 mm. Besides this the word "Correos" is smaller than "Bolivia," while it is the same size in the genuine stamps.

THE YANKEE COLLECTOR.

PUBLISHED QUARTERLY IN THE INTERESTS OF STAMP AND CURIO COLLECTORS.

VOL. III. MCGRAW, N. Y. MARCH 1902. NO. 1.

FACTS ABOUT STAMPS.

The Republic of Salvador has issued more varieties of postage stamps than any other country, the number being 403.

-x-

Old Philippine stamps to the number of five million were burnt at Antwerp recently.

-x-

One of my English correspondents writes that the new Kings head stamps are not giving satisfaction and a change in the design is liable to take place.

-x-

The 30c rose of Chili 1899 issue, is worth saving as only 250,000 have been issued unsurcharged, against 1,750,000 surcharged.

-x-

There will be no £5 stamp in the new issue from Great Britain.

-x-

The total number of all known varieties of postage stamps issued up to the present time exceeds 16,100.

-x-

Some dangerous counterfeits of the 2 bolivianos, 1897 issue of Bolivia, are in circulation. The frauds may be detected by measuring the portion printed in black, which is $22\frac{1}{2} \times 29\frac{1}{2}$ mm. while in the genuine issue the size is 23×30 mm. Besides this the word "Correos" is smaller than "Bolivia," while it is the same size in the genuine stamps.

ABOUT CURIOS.

It is said that a flower has been found in South Africa which is visible only when the wind blows.

-o-

The first autograph of President McKinley offered at public auction in New York City after his death was sold by a Fifth Avenue firm for \$6.25.

-o-

Start a collection of curios to day. You can form a very interesting collection for a small sum.

PEGGING AWAY.

From The Texan Philatelist.

When President Lincoln was once asked by a friend during the rebellion whether he thought the North would come out victorious in the great conflict. He replied with an answer characteristic of the great man: "I don't know, but we will keep pegging away."

If we were asked the question whether it were possible to amass a collection, one of beauty, value and great variety we would refer to the words of Honest Abe.

Tigers kill about 1000 people in India each year.

YOUR SUBSCRIPTION SOLICITED.

NOTES.

BY FRED BILLINGS.

The illustrated envelopes of the civil war are of little value except in used condition as several varieties were reprinted after the war.

They are like any other envelope, usually with a comic picture and a sarcastic verse beneath it.

To collect China and treaty ports, including minor varieties would tax your purse and patience as there are over 800 varieties.

Some one said E. R. I. on the South African Republic stamps stood for "Edward Rules It."

Included in the St. Louis

Worlds Fair stamp exhibit will be the U. S. flag made of 8495 postage stamps.

The U. S. 1898 \$30 00 Documentary bids fair to be a good stamp. One recently sold for \$8.00 at an auction sale.

Scott tells us now that the 15c Columbian is worth 50c unused.

In excavating the mounds near Madisonville, Ind., not than 50,000 pearls were unearthed, most of them were pierced and injured by heat.

STAMP NOTES.

BY LEON V. CASS.

The $\frac{1}{2}$, 1 and 2 $\frac{1}{2}$ p of New Zealand have been surcharged for use in the Niue Islands and also for use in the Penrhyn Islands. This adds two more names to the already long list of stamp issuing countries.

Remainders of the 1892

issue of Costa Rica have been put on the market. The set of ten varieties catalogues \$19.14 unused, and is offered for sale for \$1.75

The 1900 issue of New Zealand is now obsolete, as they are now printed on unwater-marked paper and with diff-size perforations

Bogus Guams are on the market.

GEN. GEO. B. BRYAN

Mr Bryan was born July 4th 1881 at Ticonderoga, N. Y. where he still resides

GEN GEO B BRYAN.

He is an ardent collector of stamps, curios, war relics, sea shells, Photo's etc.

He writes that his military collection is his greatest pleasure.

General Bryan probably is a member of more boy's clubs and societies than any other young man in America.

During the last ten years he has joined the following clubs and societies.

C. M. A; K. M. T; K. of A; N. A. P. A; N. F. A. A; Junior Americans. International Mailers League International Stamp Collectors Ass'n. Golden Hours Club. Founded branch No. 103 of the G.H. Club and is a member of 17 of the branches of the above club.

Tip Top Club. Good News Club. U. S. Amateur Press Ass'n. Columbia Amateur Press Ass'n.

American Amateur Press Ass'n.
Defiance Hook and Ladder Co.

He was one of the first to join
the I. A. P. A. and was elected
Vice President.

He is founder and President
of the Vim and Olympia Bicycle
Club. Founder and chief of
the Essex Co. Council No. 297.

He is also founder C. M. A.
Corilion Lodge No. 836 and served
as President.

He also founded the C. M. A.
Army of which he was elected
the first Commander-in-chief.

He is also Commander-in-
chief of the Continentals of
Modern America, a Military Secret
Society for young men.

Much more could be written
of this talented young American,
but lack of space forbids.

CURRENT COMMENT

BY LEON V. CASS.

A general revival of the
stamp business is occasioned by
the coming of cooler weather
and longer evenings.

Those well posted claim that
prices are on the increase and
many of those purchasing at
the prices now current will
have reason to congratulate
themselves.

I have it on good authority
that Cuba is to have an entire
new issue of stamps, printed by
the American Bank Note com-
pany.

Scott's catalogue for 1903 is
announced to appear Novem-
ber first.

The people of the U. S. use
about fifteen million postal
cards every week.

Costa Rica is to have another new issue soon.

Denmark and Iceland are both to have entire new sets in the near future.

A VALUABLE RELIC

There is in the British Museum what is probably the oldest piece of furniture in existence. It is the throne of Queen Hatasu who reigned in the Nile Valley some one thousand years before Christ and twenty nine years before Moses. This now delapidated object seems to be of lignum vitae, the carvings of the legs being inlaid with gold, and the back with silver.

A collection of sea shells is a beauty spot in any parlor or library. They are also cheap as well as pretty. Why don't you start a collection to day.
