a complete novel and a bsg bunch of
circulars. Did you ever see such an
offer? Send at once this ad. Will not
appear again.

Chas Cass Queen City Mo.

Filatelic Fancies.

Portugal and her colonies are to have unpaid letter stamps. In the centre will be a large figure of value with coat of arms above and locomotive and steamer below. She is also to have a series of seven Vasco de Gama jubilee stamps.

The most rapid advance in the value of any article in philately has been in the French postal cards, issued commemoration of the czar's visit to Paris. If they happen to have been through the post on the day the czar's arrival, are therefore canceled with the stamp of that date the fact is sufficient to bring purchasers at one dollar each.

ancial or otherwise, trip him up, the man with a good collection has something to fall back on.

Do not swear at the collector whose stamps are not perfectly centered or in superfine condition otherwise. The chances are that he had his stamps before you knew anything of philatelia.

Switzerland not only the lowest postal rates but also the largest number of post offices pro rata of population. France has one p.o. for every 4,782 inhabitants; England 1,913; Germany 1,376; U. S. 887 and Switzerland one for every 845. It will be seen that the U. S. has, in spite of her great territory, second place among nations.

Bicycle Mail Routes

Since there has been some talk of establishing a bicycle mail route in the Klondyke region we are reminded of similar attempts along this line for the transportation of mail matter between points not reached by any regular mail service. The pony express of olden times has been superceded by the bicycle as well as the steam railway and pneumatic tube.

In 1894 during the great rail-road strike which lasted three weeks the mails were delayed between Fresno and San Francisco Cal., from the 8th to the 19th of July. Mr A. C. Banto established a bicycle mail route between the two cities during the strike, for purpous of carrying mail

Bicycle Mail Routes

Since there has been some talk of establishing a bicycle mail route in the Klondyke region we are reminded of similar attempts along this line for the transportation of mail matter between points not reached by any regular mail service. The pony express of olden times has been superceded by the bicycle as well as the steam railway and pneumatic tube.

In 1894 during the great rail-road strike which lasted three weeks the mails were delayed between Fresno and San Francisco Cal , from the 8th to the 19th of July. Mr A. C. Banto established a bicycle mail route between the two cities during the strike, for purpous of carrying mail

matter heretofore sent by government post. The rate was 25c a letter.

His stamps were roughly printed in green ink on white paper, were in the shape of a diamond, and bore the design of a bicycle in the centre, with the following inscription around the label: A. R. U. Strike, Fresno and San Francisco Mail Route, 1894. 25 cents. Only 800 of the originals were printed, after which a correction in the spelling of San Francisco was made in the plate and a few hundred extra copies struck off before the die was destroyed. Besides the adhesive a red-brown envelope of the same design was prepared but little used.

[TO BE CONTINUED]

Have you seen the 1c green?

The 2c Queensland now contains the figure 2 in each corner.

When exposed to the light the 3c Canada Jubilee fades considerably.

The 5c Peru with warrior in oval has appeared in a new color—green instead of blue.

Reports from Europe state that the present Luxembourg design will soon be changed for a new type.

Frequently bisected stamps are used to pay postage in Costa Rica. It is said that in the old days 10c U. S. have been split and used as 5c out in California.

THE STAMP EXCHANGE.

MARCH 1898.

ISSUED MONTHLY IN THE INTEREST
OF PHILATELY.

WILL E. MARSH, EDITOR.

15 cents per year in advance.

ON another page will be found the complete black-list of the S. S. S. S. Every collector who has the good of the cause at heart should never buy any stamp mentioned in this list.

Legitimately cancelled specimens are of course all right.

“ “ one year 10 cents.

“ each one time 5 cents.

“ “ 6 times 25 cents.

“ “ one year 50 cents.

Payable in advance only.

Here after the one cent postage stamp will appear in green instead of blue. This change is caused by a ruling of the Universal Postal Union. The green stamp is more attractive than the blue. An entire new issue will appear in July.

S. S. S. S.

The following is the complete list of stamps to be shunned in the unused state as compiled by the S. S. S. S. and its successor, the London committee:

1 Portugal and colonies, St. Anthony jubilee stamps.

2 Chinese locals for cities of Wuhu Chungkiang, Chingkiank, Tientsin, Kewkiang, Haokow, Chefoo, or Ichang issued after June 10, 1895.
